SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the city of Cleveland, Bolivar County, Miss. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the city of Cleveland, Miss.

ADDRESS: Maps and other information showing the detailed outlines of

the flood-prone areas and the final elevations for the city of Cleveland, are available for review at City Hall, 100 North Street, Cleveland, Miss.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the city of Cleveland, Miss.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Jones Bayou.....	Rosemary Rd., upstream.....	138
	Downstream.....	137
	Hillcrest Circle.....	137

[Docket No. FI-3848]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for City of Mosby, Clay County, Mo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the city of Mosby, Clay County, Mo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the city of Mosby, Mo.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the city of Mosby, are

available for review at City Hall, Main Street, Mosby, Mo.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the city of Mosby, Mo.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation, in feet, national geodetic vertical datum
Fishing River.....	Main St.....	765
	Rock Island RR.....	767
	U.S. Route 69	770

(National Flood Insurance Act of 1968 (title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation Determination for City of Raytown, Jackson County, Mo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the city of Raytown, Jackson County, Mo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the city of Raytown, Jackson County, Mo.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the city of Raytown, Jackson County, Mo., are available for review at the Public Works Department, 10000 East 59th Street, Raytown, Mo. 64133.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the city of Raytown, Jackson County, Mo.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in

flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
White Oak Creek ..	Approximately 110 ft upstream from Raytown Rd.	876
	Approximately 420 ft upstream from southern corporate limits.	812
Round Grove Creek.	Just upstream of Raytown Rd.	867
	Approximately 150 ft upstream from 55th St.	892

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Definitions

AGENCY: United States Parole Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending the definitions section of its rules to provide that the "Chairman" of the National Commissioners shall be known as the "presiding officer" of the National Commissioners, in order to distinguish the Commissioner exercising that function from the Chairman of the Commission and the Chairman of the National Appeals Board.

EFFECTIVE DATE: June 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael A. Stover, Office of the

General Counsel, United States Parole Commission, 320 First Street NW., Washington, D.C. 20537; telephone 202-724-3092.

SUPPLEMENTARY INFORMATION: This rule has not been published for public comment inasmuch as it relates to the internal procedures of the Commission.

Accordingly, pursuant to 18 U.S.C. § 4203(a)(7) and § 4204(a)(6) Title 28, Code of Federal Regulations, § 2.1(d) is amended to read as follows:

§ 2.1 Definitions.

(d) The term "National Commissioners" refers to the Chairman of the Commission and the three members of the National Appeals Board. The Vice Chairman of the Commission shall be the presiding officer of the National Commissioners. In the absence of vacancy of the Vice Chairman, the Chairman of the Commission shall be presiding officer of the National Commissioners.

Dated: May 22, 1978.

CECIL C. MCCALL,
Chairman,
U.S. Parole Commission.
[FR Doc. 78-14763 Filed 5-26-78; 8:45 am]

[4410-01]

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Paroling, Recommitting and Supervising Federal Prisoners

AGENCY: United States Parole Commission.

ACTION: Final rule.

SUMMARY: The rule as adopted would remove a previous restriction on Commissioners and hearing examiners from holding personal interviews with persons wishing to discuss a specific case before the Commission. Instead of a blanket prohibition, which was found to be unduly restrictive in cases where interviews with family members, community representatives, etc., would be appropriate and useful to the Commission, the final rule provides that a written summary of such an interview must be retained in order to protect the integrity of the Commission's consideration of the case under discussion.

EFFECTIVE DATE: June 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael A. Stover, Office of the

General Counsel, United States Parole Commission, 320 First Street NW., Washington, D.C. 20537, telephone 202-724-3092.

SUPPLEMENTARY INFORMATION: This rule has not been published for public comment inasmuch as it relates to the internal procedures of the Commission.

Accordingly, pursuant to 18 U.S.C. § 4203(a)(7) and § 4204(a)(6), Title 28, Code of Federal Regulations, § 2.22, is amended by deletion of the entire text of that section and the substitution of the following text:

§ 2.22 Communication with the Commission.

Attorneys, relatives, or interested parties wishing a personal interview to discuss a specific case with a representative of the Commission must submit a written request to the appropriate office setting forth the nature of the information to be discussed. Such interview may be conducted by a Commissioner or assigned staff, and a written summary of each such interview shall be prepared and placed in the prisoner's file.

Dated: May 22, 1978.

CECIL C. MCCALL,
Chairman, United States
Parole Commission.

Title 36—Parks, Forests, and Public Property

CHAPTER IX—PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

PART 904—RELOCATION ASSISTANCE AND LAND ACQUISITION UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

AGENCY: Pennsylvania Avenue Development Corporation.

ACTION: Interim rule and request for comments.

SUMMARY: The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 requires: that any Federal agency acquiring real property do so in a manner consistent with the acquisition requirements of the Act; that persons affected by real property acquisition be provided with relocation advisory services; that persons who are required to move as a result of the acquisition be provided with benefits related to the expenses of moving and, in some cases, pay-

ments to assist with purchase of a new home or rental of a new dwelling. Because the Corporation will be acquiring real property in the area along the north side of Pennsylvania Avenue NW., Washington, D.C., the Corporation is promulgating this interim rule in compliance with the Uniform Act. The interim rule sets out the Corporation's policies and procedures for the acquisition of real property and the procedures for obtaining benefits relating to relocation.

DATES: Submit written comments by June 30, 1978; effective date: May 26, 1978.

ADDRESS: Send written comments to: Mr. Jerry Smedley, Chief of Real Estate Operations, Pennsylvania Avenue Development Corporation, 425 13th Street NW., Suite 1148, Washington, D.C. 20004. All written comments relating to this interim rule will be available for public inspection during normal business hours at this office.

FOR FURTHER INFORMATION CONTACT:

Mr. Clifford Brooks, Community Planner, Real Estate Staff, 202-566-0602, or Ms. Mary M. Schneider, Attorney, Office of General Counsel, 202-566-1078, Pennsylvania Avenue Development Corporation, 425 13th Street NW., Suite 1148, Washington, D.C. 20004.

SUPPLEMENTARY INFORMATION: Chapter IX of Title 36 of the Code of Federal Regulations is amended by adding a new Part 904. This part provides for implementation of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894, 42 U.S.C. 4601 et seq.).

The Pennsylvania Avenue Development Corporation was established by Act of Congress (Pub. L. 92-578, 86 Stat. 1270, as amended, 40 U.S.C. 871 et seq.) to improve and enhance the ceremonial thoroughfare known as Pennsylvania Avenue, and its northern environs, between the White House and the Capitol in Washington, D.C.

In section 2(c) of the Pennsylvania Avenue Development Corporation Act of 1972 (supra) Congress declared that "to insure suitable development, maintenance, and use of the area and the elimination of blight, it is essential that there be developed and carried out as an entirety plans for this area which will specify the uses, both public and private, to which property is to be put, the programming and financing of necessary acquisitions, construction, reconstruction, and other activities;" and in section 2(e) "that the powers conferred by this chapter are for public uses and purposes for which public powers may be employed, public funds may be expended, and

the powers of eminent domain and the police power may be exercised, and the granting of such powers is necessary in the public interest." As required by this enabling legislation, the Corporation prepared "The Pennsylvania Avenue Plan—1974," and is now beginning the implementation phase of the Plan. During implementation, real property will be acquired by the Corporation, and, of necessity, current occupants will be displaced, and adjacent properties will be affected by the Corporation's project.

Because of this acquisition and the attendant relocations, the Corporation must comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (supra). In drafting this interim rule, the preparers have attempted to organize and write it so that it is easy to read and understand. Comments addressing the organization and readability of this interim rule will be carefully considered. The interim rule reflects the Corporation's determinations concerning the provisions of the Uniform Act, specifically:

(1) Part 904 has been divided into subparts with each subpart covering a general category of benefits or procedures. Subpart A has an extensive section on definitions which apply to all subparts. Since many of the terms defined are used throughout the part, it was decided that a single definition section was convenient and easy to understand. Subpart A covers, in addition to definitions, those procedures that are administratively applicable to one or more of the other subparts. Repetition is minimized by organizing the material in this manner.

(2) In subpart B, the term "eligible person" rather than "displaced person" was used to refer to a person who can obtain relocation advisory services, because these services are available to persons other than just those within the definition of "displaced person." The term "eligible person" is used throughout this subpart for that reason.

(3) In subpart D on Replacement Housing Payments, attempts were made to minimize complexity. To that end, the sections describing the three basic types of payments provide a formula intended to be easy to read and understand. The formula is set out step-by-step making it easy to calculate the payment to which displaced persons are entitled. Brevity may have been sacrificed in this instance, but with the benefit of clarity.

(4) The Review Procedure in subpart E was established to provide the requisite review for anyone aggrieved by a determination made on any claim under this part. The procedure is intended to provide an objective final determination. Because the Corporation has relatively few employees, it

was felt that objectivity in making a final determination could be obtained by giving the responsibility to someone other than a staff member. The Chairman or member of the board of Directors can provide that objectivity, and the procedures set out for review are in keeping with the requirements of the Administrative Procedure Act (5 U.S.C. 551 et seq.).

(5) The procedures for the acquisition of real property by the Corporation are set out in subpart F and are in compliance with the requirements of the Uniform Act.

For the reasons described above, the Corporation amends chapter IX of title 36 of the code of Federal Regulations by adding part 904 as follows:

Subpart A—General

Sec.

- 904.1 Purpose and policy.
- 904.2 Definitions.
- 904.3 Program administration.
- 904.4 Written notices.
- 904.5 Records.
- 904.6 Availability of housing.
- 904.7 Application and payment for relocation benefits.
- 904.8 Payments not to be considered income.
- 904.9 Outleasings.

Subpart B—Relocation Advisory Services

- 904.10 Scope.
- 904.11 Eligibility.
- 904.12 Minimum advisory services provided.
- 904.13 Refusal of assistance.
- 904.14 Coordination with other agencies.

Subpart C—Relocation Moving Payments

- 904.21 Scope.
- 904.22 Eligibility.
- 904.23 Actual reasonable moving expenses.
- 904.24 Exclusions.
- 904.25 Additional moving and related expenses: business or non-profit organizations.
- 904.26 Fixed payment in lieu of moving and related expenses: businesses and non-profit organizations.
- 904.27 Fixed payments in lieu of moving and related expenses: Individuals and families.

Subpart D—Replacement Housing Payments

- 904.40 Scope.
- 904.41 Eligibility.
- 904.42 Replacement housing payments: purchase.
- 904.43 Replacement housing payments: rental assistance.
- 904.44 Replacement housing payments: down payment assistance.
- 904.45 Combined payments.
- 904.46 Occupancy.
- 904.47 Inspection of replacement dwelling required.
- 904.48 Provisional payment pending condemnation.
- 904.49 Partial use of home for business.
- 904.50 Multiple occupants of a single dwelling.
- 904.51 Dwelling in multiple unit building.
- 904.52 Certificate of Eligibility pending purchase of replacement dwelling.

Subpart E—Review Procedure

Sec.

- 904.70 Scope.
- 904.71 Request for review.
- 904.72 Time for filing request for review.
- 904.73 Review procedures.
- 904.74 Final determination.

Subpart F—Acquisition of Real Property

904.80 Scope.

- 904.81 Real property acquisition practices.
- 904.82 Statement of just compensation to owner.
- 904.83 Buildings, structures, and Improvements to be acquired.
- 904.84 Expenses incidental to transfer of title.
- 904.85 Litigation expenses.
- 904.86 Allowance for benefits prohibited.

AUTHORITY: Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-648, 84 Stat. 1894 (42 U.S.C. 4601 et seq.); Pennsylvania Avenue Development Corporation Act of 1972, as amended, sec. 6(6), Pub. L. 92-578, 86 Stat. 1270 (40 U.S.C. 875(6)); sec. 8, Pub. L. 92-578, 86 Stat. 1273 (40 U.S.C. 877).

Subpart A—General

§ 904.1 Purpose and Policy.

(a) This part provides the policy and procedures to be followed by the Pennsylvania Avenue Development Corporation (hereinafter referred to as the Corporation) or its agents for implementing the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (hereinafter referred to as the Act). These regulations are intended to establish equitable policies and procedures for acquiring real property and providing relocation services and payments so that persons displaced by the Corporation do not suffer disproportionate injuries as a result of activities designed for the benefit of the public as a whole.

(b) The Corporation to the greatest extent practicable will:

(1) Administer its development program so that when any person is displaced by the Corporation from his dwelling, a comparable replacement dwelling will be available.

(2) Make prompt and equitable relocation assistance payments to eligible displaced persons.

(3) Provide relocation assistance advisory services in a manner that assures eligible persons will receive assistance suitable to their needs.

(4) Provide review procedures that afford prompt and proper resolution of any grievance.

(5) Notify displaced persons promptly of the date they will be required to vacate, in order to provide maximum time to relocate.

(6) Make every effort to expeditiously acquire real property based upon payment of just compensation.

§ 904.2 Definitions.

The following definitions shall apply to this part:

(a) "Business" means any lawful activity other than a farm operation conducted primarily for the purchase, sale, lease, or rental of personal and real property, and for the manufacture, processing, or marketing of products, commodities, or any other personal property; or for the sale of services to the public; and includes activities of a nonprofit organization.

(b) "Comparable replacement dwelling" is one which is:

(1) Decent, safe, and sanitary, as defined in paragraph (c) of this section.

(2) Functionally equivalent and substantially the same as the dwelling being acquired with respect to: (i) number of rooms, (ii) area of living space, and (iii) type of construction, but no precluding new construction.

(3) In an area not generally less desirable than the dwelling being acquired with respect to: (i) public utilities, (ii) public and commercial facilities, and (iii) neighborhood conditions, including municipal services, and unreasonably adverse environmental factors.

(4) Reasonably accessible to the place of employment, or potential place of employment, of the head of the displaced family, or the displaced individual, as the case may be.

(5) Adequate in size to accommodate the needs of the displaced family or individual.

(6) Within the financial means of the displaced family or individual. A dwelling is within the financial means of an individual or family if, taking into account payments made under subpart D, the monthly housing cost (including payments for mortgage, insurance, and property taxes) or rental cost is not more than: (i) 25 percent of the monthly gross income of the individual or family (including supplemental income payments received from public agencies); or (ii) the portion of the monthly gross income of the individual or family (including supplemental income payments received from public agencies), paid for rent or housing cost at the acquired dwelling, if the rent or housing cost was not excessive taking into consideration the cost of other needs of the family or individual.

(7) Open to all individuals regardless of race, color, religion, or national origin, in a manner consistent with the requirements of title VIII of the Civil Rights Act of 1968, as amended, and available to all individuals regardless of sex.

If replacement dwellings which meet the requirements in paragraph (b) (1) through (7) of this section are not available on the market, the Corporation may, after a proper finding of the need therefore, treat available dwellings which exceed those requirements as comparable replacement dwellings.

(c) "Decent, safe, and sanitary housing" means a dwelling which meets the following criteria:

(1) For housekeeping units, a decent, safe, and sanitary dwelling is one which:

(i) Conforms with all applicable provisions for existing structures that have been established under state or local building, plumbing, electrical, housing, and occupancy codes and similar ordinances or regulations.

(ii) Has a continuing and adequate supply of potable, safe water.

(iii) Has a kitchen or an area set aside for kitchen use which contains a sink in good working condition, connected to hot and cold water, an adequate sewage system, and a stove and refrigerator in good operating condition when required by local codes, ordinances, or customs. When these appliances are not required by local codes, ordinances, or customs, the kitchen area or area set aside for kitchen use shall have utility service connections and adequate space for installation of such appliances.

(iv) Has an adequate heating system in good working order which will maintain a minimum temperature of 68 degrees in the living area (excluding bedrooms) under local outdoor temperature conditions. A heating system will not be required in those geographical areas where it is not normally included in new housing.

(v) Has a bathroom, well lighted and ventilated; affording privacy to a person within it; containing a lavatory basin and bathtub or stall shower, properly connected to an adequate supply of hot and cold running water; having a flush toilet, properly connected to a sewage disposal system; and all in good working order.

(vi) Has an adequate and safe wiring system for lighting and other electrical services in each room.

(vii) Is structurally sound, weather-tight, in good repair and adequately maintained.

(viii) Has a safe unobstructed means of egress leading to safe open space at ground level. Each unit in a multiple dwelling must have access either directly or through a common corridor to a means of egress leading to open space at ground level. In a multiple dwelling of three stories or more, the common corridor on each story must have at least two means of egress.

(ix) Has habitable sleeping, living, cooking, and dining floor space (exclusive of such enclosed spaces as closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, unfurnished attics, foyers, storage spaces, cellars, utility rooms, or similar spaces) subdivided into adequately ventilated rooms sufficient to accommodate the occupants.

(2) For non-housekeeping units (rental of sleeping rooms), decent, safe and sanitary dwelling is one which includes the minimum requirements contained in paragraphs (c) (1) (i), (ii),

(iv), (vi), (vii), and (viii) of this section, and has a lavatory; bath and flush toilet facilities providing privacy; and a door that can be locked if such facilities are separate from the sleeping room.

(3) In those instances in which a dwelling is located in an area where the local housing code does not meet all the standards listed in paragraphs (c) (1) and (2) of this section, the Corporation may approve the dwelling as acceptable, decent, safe, and sanitary housing if it meets the standards of the local code.

(4) Exceptions may be granted to decent, safe, and sanitary standards, but such exceptions shall be limited to items and circumstances that are beyond the reasonable control of the Corporation. Approved exceptions shall not affect the computation of the replacement housing payment. In case of extreme hardship or other extenuating circumstances, an exception to the decent, safe, and sanitary requirements of replacement housing may be permitted in a particular case, with the written concurrence of the Corporation.

(d) "Displaced person" means any person who moves from real property, or moves his personal property from real property, as a result of the Corporation's acquisition of such real property, in whole or in part; or a written order to vacate from the Corporation.

(e) "Dwelling" means the place of permanent or customary and usual abode of a person. It includes a single family building, a one-family unit in a multi-family building, a unit of a condominium or cooperative housing project, or any other residential unit.

(f) "Economic rent" means the amount of rent a residential displaced person would have to pay for a comparable dwelling unit in areas not less desirable than that of the dwelling unit to be acquired by the Corporation.

(g) "Family" means two or more individuals who live together in a dwelling and are related by blood, marriage, adoption, legal guardianship, or operation of law; or determined by the Corporation to be jointly eligible for benefits under this part.

(h) "Farm operation" means a lawful activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

(i) "Initiation of negotiations" means the day on which the Corporation makes the first personal contact with the property owner or his representative and furnishes him with a written offer to purchase the proper-

ty, or the day on which a written offer is mailed to the property owner or his representative.

(j) "Mortgage" means a lien commonly given to secure an advance on, or the unpaid purchase price of, real property under the laws of the state in which the real property is located, together with any credit instruments secured thereby.

(k) "Nonprofit organization" means a corporation, partnership, individual, or other public or private entity, engaged in a lawful activity on a non-profit basis, necessitating fixtures, equipment, stock in trade, or other tangible property for the carrying on of the business, profession or instructional activity on the premises.

(l) "Owner" means a person(s):
(1) Owning, legally or equitably, the fee simple estate, a life estate, a 99 year lease or other proprietary interest in the property.

(2) The contract purchaser of any of the foregoing estates or interests, who has the right of occupancy under said contract.

(3) With a lease, at least 50 years to run from the date of the acquisition of the property.

(4) With an interest in a cooperative housing project, which includes the right to occupy a dwelling.

(5) Who has succeeded to any of the foregoing interests by devise, bequest, inheritance, or operation of law. For the purpose of these regulations, in the event of acquisition of ownership by any of the foregoing methods in this paragraph, the tenure of ownership, not occupancy, of the succeeding owner shall include the tenure of the preceding owner.

(m) "Person" includes a partnership, company, corporation, or association as well as an individual or family.

(n) "Peak business season" means that period of time between December 1 and January 1, inclusive, and 2 weeks prior to Easter day and Easter day, inclusive.

§ 904.3 Program administration.

In carrying out the relocation assistance program set forth in this part, the Corporation will have at least one employee whose primary responsibility is relocation assistance. The Corporation may also hire or contract with other persons or government agencies to assist in implementation of this program.

§ 904.4 Written notices.

Written notices, including the following, shall be served personally or sent by certified or registered first class mail, return receipt requested:

(a) *Notice of appraisal.* Prior to appraisal of property, the Corporation will notify each owner that the Corporation is having his property appraised. This notice shall state the

name of the appraiser(s) and shall afford the owner or his representative the opportunity to accompany the appraiser(s) during inspection of the property.

(b) *Notice of initiation of negotiations.* The Corporation will notify each owner at the time of initiation of negotiations, and each tenant within 15 days of initiation of negotiations, of the following:

(1) The Corporation has made an offer to purchase the property;

(2) All tenants will be required to execute disclaimers or releases of leases;

(3) The occupants will be required to pay rent during the period of occupancy following acquisition;

(4) The Corporation's schedule for vacating the property;

(5) The name of the person to contact for relocation assistance;

(6) Information on the eligibility for relocation assistance and the types of assistance available generally;

(7) A written statement setting forth the optional types and amounts of replacement housing payments to which the individual displaced person may be entitled; and

(8) A copy of the relocation brochure.

(c) *Ninety-day notice.* The Corporation will notify all persons lawfully occupying real property acquired or to be acquired by the Corporation of the scheduled date for vacating the real property. The construction or development of the Corporation's project shall be scheduled so that to the extent practicable, no person lawfully occupying real property shall be notified or required to move without at least ninety days written notice of the Corporation's scheduled date for vacating the property. This notice is not an Order to Vacate and can be furnished at any time after the Corporation's Board of Directors has approved the acquisition of the property occupied by such individual. This notice may also be included in the notices provided for in paragraphs (b) and (d) of this section.

(d) *Order to vacate.* Following acquisition of real property or an interest therein requiring the displacement of lawful occupants, the Corporation will serve or send the occupants an Order to Vacate as follows:

(1) When the effective date is the same or later than the date specified in the Ninety Day Notice provided for in paragraph (c) of this section, the order shall be furnished at least 30 days prior to the date the property must be vacated.

(2) When the effective date is earlier than the date specified in the Ninety Day Notice provided for in paragraph (c) of this section, or in the event no Ninety Day Notice preceded the Order to Vacate, the Order shall be furnished, to the extent practicable, at

least 90 days prior to the date the property must be vacated.

(3) To the extent practicable, no Order to Vacate will require retail occupants to vacate during a peak business season.

(e) *Notice of right to review.* At the time the Corporation makes a determination regarding eligibility or benefits under this part, all persons shall be furnished a written notice of their right to have such determinations reviewed.

§ 904.5 Records.

(a) The Corporation will maintain separate records for each acquisition of real property and for each relocation of a displaced person suitable for enabling a fair determination of any claim or request for review and for determining just compensation in any eminent domain proceeding.

(b) Records maintained on individuals will be subject to the provisions of the Privacy Act of 1974 (Pub. L. 93-579, 88 Stat. 1896 (5 U.S.C. 522a)).

§ 904.6 Availability of housing.

(a) The Corporation shall assure, within a reasonable period of time prior to displacement of any person from a dwelling, that a comparable replacement dwelling is available. No person shall be required to move from his dwelling unless a comparable replacement dwelling is available to such person.

(b) In the event the Corporation cannot proceed to actual construction because comparable replacement sale or rental dwellings are not available and the Corporation determines that such dwellings cannot otherwise be made available, the Corporation may take such action as is necessary or appropriate to provide such dwellings by use of funds authorized for the Corporation's project. In doing so, the Corporation will be guided by criteria and procedures of the Secretary of Housing and Urban Development appearing at 24 CFR Part 43, Subpart A.

§ 904.7 Application and payment for relocation benefits.

(a) A displaced person who is eligible for payments must submit an application in writing which:

(1) Is signed by, or on behalf of, the displaced person;

(2) Itemizes the expenses and benefits claimed;

(3) Includes such supporting receipts, invoices, and other documents that the Corporation may require; and

(4) Is submitted within 18 months of becoming eligible for payments for benefits under subpart C and within 6 months of becoming eligible for payment under subpart D.

(b) Payment shall be made as follows:

(1) If a displaced person, his mover, and the Corporation agree in writing,

the displaced person may submit an unpaid bill for moving expenses for direct payment to the mover.

(2) In the case of a self-move by a displaced person who conducts a business, the amount of payment for actual reasonable moving expenses is negotiable but may not be more than the lower of two firm bids or estimates furnished to the Corporation unless the Corporation determines that a greater amount is justified. The displaced person may claim allowable removal and installation expenses in addition to self-move expenses.

(3) A displaced person may not be paid for his moving expenses in advance of the actual move unless the Corporation finds that a hardship would otherwise result.

(4) The Corporation shall make payment under subpart D directly to the displaced homeowner or tenant, if he has purchased or rented and occupied a decent, safe, and sanitary dwelling. At the option of the displaced homeowner or tenant, the Corporation may make payment to the seller or lessor of the decent, safe and sanitary dwelling.

(5) The Corporation shall make a rental payment under § 904.43 in installments if requested by the displaced person.

(6) The Corporation shall not withhold all or any portion of payments provided for herein to cover claims or rentals owed to the Corporation unless the displaced person agrees in writing that the Corporation may withhold claims or rentals from payments.

§ 904.8 Payments not to be considered income.

Payments received by a displaced person under these regulations shall not be considered income for the purpose of:

(a) Internal Revenue Code of 1954, as amended; or

(b) Determining the eligibility or extent of eligibility for assistance under the Social Security Act or any other Federal law.

§ 904.9 Outleasings.

Persons who become occupants of Corporation property after acquisition of the property will not be eligible for benefits under this Part. The Corporation will obtain a waiver, specifically waiving the lessee's rights to claim any benefits under this Part, from any lessee to whom it leases if that person was not occupying the property at the time of its acquisition by the Corporation. The waiver will be obtained prior to execution of the outlease and will be incorporated in the outlease, where possible.

Subpart B—Relocation Advisory Services

§ 904.10 Scope.

This subpart prescribes the requirements for providing relocation assistance advisory services to eligible persons affected by the Corporation's acquisition of real property.

§ 904.11 Eligibility.

The Corporation shall offer relocation assistance advisory services to any "displaced person," and any person occupying property immediately adjacent to the real property acquired when PADC determines that such person is caused substantial economic injury because of the acquisition.

§ 904.12 Minimum advisory services provided.

(a) The Corporation shall carry out a relocation assistance advisory program so eligible persons will receive uniform and consistent services and payments regardless of race, color, or national origin pursuant to Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000a). The Corporation, as necessary or appropriate, will:

(1) Explain the services available, relocation payments and the eligibility requirements and assist in completing any applications or other forms required;

(2) Determine the need, if any, of eligible persons, for relocation assistance;

(3) Provide current and continuing information on the availability, prices and rentals of comparable decent, safe, and sanitary sale and rental housing, and of comparable commercial properties and locations;

(4) Assist eligible persons in obtaining and becoming established in replacement locations;

(5) Supply information concerning Federal and District of Columbia housing programs, disaster loan programs, and other Federal or District of Columbia programs offering assistance to eligible persons; and

(6) Provide other advisory services to eligible persons in order to minimize hardships in adjusting to their new location.

(b) Advisory services, to the extent practicable, shall be provided by personal contact. If such personal contact cannot be made, the Corporation shall document reasonable efforts made to achieve personal contact.

§ 904.13 Refusal of assistance.

A person may refuse relocation advisory services and still be eligible for payments. If a person refuses relocation advisory services, the Corporation shall obtain a statement from that person stating that relocation advisory services were offered and declined and

that relocation benefits were explained.

§ 904.14 Coordination with other agencies.

All relocation advisory services performed by or on behalf of the Corporation shall be coordinated with the District of Columbia's central relocation programs. The Corporation will coordinate and, where appropriate, enter cooperative agreements with other agencies providing services useful to persons being relocated. Such agencies may include social welfare agencies, business development organizations, urban renewal agencies, redevelopment authorities, the U.S. Department of Housing and Urban Development, the Veteran's Administration and the Small Business Administration. The Corporation shall obtain information on available replacement properties and financial assistance from the local private real estate, banking and investment communities.

Subpart C—Relocation Moving Payments

§ 904.21 Scope.

This Subpart prescribes the requirements and procedures for the payment of moving and related expenses and other payments for persons displaced from real property or who move their personal property from real property as the result of acquisition of that real property by the Corporation.

§ 904.22 Eligibility.

(a) A displaced person is eligible for payment of moving and related expenses or payments in lieu thereof without regard to the length of time he occupied the real property from which displacement occurred. A person may be eligible for both a business and a residential moving payment if the displaced person resides and conducts a business on the same property, or is the owner-occupant of a multi-family dwelling that is being acquired.

(b) To be eligible for the moving expense payments provided for in this subpart, a person shall:

(1) Be a displaced person.

(2) Submit (i) a written notice of his intention to move, setting forth the address to which he will move, (ii) an inventory of the personal property to be moved, and (iii) any other supportive data or information, including bids which the Corporation may require. All of these shall be submitted at least 15 days prior to the move, unless the Corporation determines under exceptional circumstances that less than 15 days is justified.

(3) Not be a department, agency or instrumentality of any Federal, state, or local government.

§904.23 Actual reasonable moving expenses.

Except as provided in §904.24, a displaced person is entitled to actual reasonable expenses for the following:

(a) Transporting individuals, families and personal property from the displacement site to a replacement site (including storage), but not more than fifty (50) miles unless the Corporation finds that the displaced person cannot relocate within that distance. If the Corporation finds that relocation cannot be accomplished within the 50 mile limit, then payments may be allowed, but only to the nearest adequate and available site. This paragraph is not intended to limit the distance a displaced person may move, but sets the maximum distance for which the Corporation will pay the transportation component of moving expenses;

(b) Packing and unpacking, crating and uncrating personal property, and advertising for such services when the Corporation determines that advertising is necessary;

(c) Storing personal property for up to 12 months when determined necessary by the Corporation;

(d) Insurance premiums covering loss or damage of personal property while in storage or transit. Also, the reasonable replacement value of property lost, stolen or damaged through no intentional or negligent actions of the displaced person, his agent or employee, where insurance to cover such loss or damage is unavailable.

(e) Removing, reinstalling, and reconnecting utilities for machinery, appliances, and equipment, together with modification when the Corporation determines modification to be necessary; if the items are not acquired by the Corporation as real property, and the displaced person agrees in writing that the items are personal property and releases the Corporation from payment for them;

(f) Such additional expenses as may apply under section 904.25;

(g) Such other reasonable expenses determined to be allowable by the Corporation.

§904.24 Exclusions.

A displaced person is not entitled to be paid for:

(a) Additional expenses incurred because of living in a new location;

(b) The cost of moving structures or other improvements to real property in which ownership is reserved by the displaced person;

(c) Improvements to the replacement site, except when required by law for use of tangible personal property moved from the acquired property;

(d) Interest on loans to cover moving expenses;

(e) Loss of goodwill, profits, or trained employees;

(f) Loss due to personal injury;

(g) Cost of preparing the application for moving and related expenses;

(h) Expenses in searching for a replacement dwelling; or

(i) Any item which the Corporation excludes from payments as inconsistent with these regulations.

§904.25 Additional moving and related expenses: business or non-profit organizations.

In addition to those expenses provided for in §904.23, the following pertains to an eligible person who conducts a business:

(a) A displaced person who conducts a business is entitled to additional actual reasonable expenses for:

(1) Licenses, permits, fees or certifications determined by the Corporation to be necessary and related to the move, when (i) the displaced person had such license, permit, or certification at the acquired property, and (ii) the cost does not exceed the cost for one year or the remaining useful life of the license, permit, or certification at the acquired property.

(2) Relettering of trucks, signs, and similar items, and reprinting of a reasonable supply of stationery determined by the Corporation to be necessary as a result of the move.

(b) In the case of low value, high bulk personal property, such as junk, stockpiled sand, gravel, minerals, metals, or similar items used in connection with a relocated business, payment for actual reasonable moving expenses may not be more than the cost of replacing that personal property at the relocation site less the amount for which it could be sold at the displacement site.

(c) If the cost of moving or relocating an outdoor advertising display is determined to be equal to or in excess of the in-place value of the display, the Corporation shall acquire the display as part of the real property.

(d) Regarding actual direct losses, a displaced person who conducts a business and does not move all or part of his business-related personal property and makes a bona fide effort to sell business-related personal property not moved, is entitled, subject to the requirements and limitations in paragraphs (d) (1) through (3) of this section, to payment for actual direct losses of personal property used in connection with the business but is no longer needed because the business is being discontinued; or not being moved to a relocation site because it is not suitable for use there.

(1) The displaced person who relocates a business, sells an item of business-related personal property and promptly replaces it with a comparable item, is entitled to payment for actual direct loss of the original item but not more than the replacement

cost less its sale price, or the estimated cost of moving the original item, whichever is less.

(2) The displaced person who discontinues a business and sells an item of business-related personal property is entitled to payment for actual direct loss of the item but not more than the fair market value of the item for continued use at its location prior to displacement less its sale price, or the estimated cost of moving the original item 50 miles, whichever is less.

(3) The displaced person who abandons an item of business-related personal property after making a bona fide effort to sell it is entitled to payment for the actual direct loss of that item but not more than the fair market value of the item for continued use at its location prior to displacement of the estimated cost of moving the original item 50 miles, whichever is less regardless of the cost of the Corporation of removing that item.

(e) For the actual reasonable expenses in searching for a replacement business location, the displaced person may be reimbursed up to Five Hundred Dollars (\$500). In exceptional cases, and with prior approval of the Corporation, an amount greater than Five Hundred Dollars (\$500) may be authorized when circumstances so require. The displaced person must submit receipted bills for expenses claimed, other than the value of time when time actually spent in search is claimed. A signed statement of the time spent in search and the applicable wage rate(s) shall accompany the claim and shall be based on the actual wage rate for the person(s) conducting the search, but not to exceed \$10.00 per hour. Expenses to be reimbursed may include transportation, meals, lodging away from home and the reasonable value of time actually spent in search. Such expenses may also include the fees of real estate agents or real estate brokers when determined necessary by the Corporation.

§904.26 Fixed payment in lieu of moving and related expenses: businesses and non-profit organizations.

(a) Any displaced person eligible for payments under §904.23 who is displaced from his place of business and who elects to accept the payment provided for in this section in lieu of the payment authorized by §904.23 may receive a fixed payment in an amount equal to the average annual net earnings of the business except that the payment shall be not less than \$2,500 nor more than \$10,000. For purposes of this section, the term "average annual net earnings" means one-half of any net earnings of the business, before Federal, State, and local income taxes, during the two taxable years immediately preceding the tax-

able year in which such business moves from the real property acquired by the Corporation, or such other period of time as may be determined under paragraph (d) of this section. Earnings shall include any compensation paid by the business to the owner, his spouse, or his dependents during such period. If a business has no average annual net earnings or has an average annual net deficit during the period used to compute average annual net earnings, the person who conducts that business may receive a \$2,500 payment if he is otherwise eligible for payment under this section.

(b) A business conducted for profit qualifies for a payment in lieu of moving and related expenses if, in addition to the requirements in paragraph (c) of this section, the Corporation determines that during the two taxable years immediately preceding displacement the business had:

(1) Average gross receipts of at least \$2,000 in value; or

(2) Average annual net earnings of at least \$1,000 in value; or

(3) Contributed at least 33 1/3 percent of the average gross annual income of the owner including income from all sources, such as welfare.

(c) A business or non-profit organization qualifies for a payment in lieu of moving and related expenses, if the Corporation determines that:

(1) It cannot be relocated without substantial loss of existing patronage, taking into consideration such factors as the type of business, the nature of its clientele, the relative importance of the present and proposed locations, and the availability of relocation sites.

(2) It is not part of a commercial enterprise having at least one other establishment engaged in the same or similar business, and not being acquired by the United States.

(d) The Corporation shall:

(1) Prescribe some other time period for computing average annual net earnings if it finds that the two tax years immediately preceding displacement are not representative or the business has not been in operation for at least two years;

(2) Require a displaced person who conducts a business and elects to receive a payment in lieu of moving and related expenses to provide proof of his earnings from the business. Proof of earnings may be established by income tax returns, certified financial statements, or other similar evidence;

(3) Consider the following factors, among others, in determining whether one or more displaced legal entities, constitute a single business for purposes of this section:

(i) The extent to which the same premises and equipment are shared;

(ii) The extent to which substantially identical or intimately interrelated business functions are pursued and

business and financial affairs are commingled;

(iii) The extent to which such entities are held out to the public, and to those customarily dealing with such entities as one business; and

(iv) The extent to which one person or closely related persons own, control or manage the entities.

§904.27 Fixed payments in lieu of moving and related expenses: individuals and families.

(a) An individual or family displaced from a dwelling who elects to receive a fixed dislocation and moving expense allowance in lieu of payment of actual moving and related expenses is entitled to:

(1) A dislocation allowance of \$200; and

(2) The applicable moving expense allowance specified in the schedule of moving expense allowances for the District of Columbia, established and maintained by the Federal Highway Administration (42 FR 35961, July 13, 1977, as amended).

(b) Two or more individuals, not a family, who occupy the same dwelling, are considered to be a single family for the purposes of this section.

Subpart D—Replacement Housing Payments**§904.40 Scope.**

This subpart prescribes the requirements governing payment for replacement housing for individuals and families displaced from a dwelling actually owned and occupied by such individuals or families as the result of acquisition of the dwelling by the Corporation.

§904.41 Eligibility.

(a) A displaced homeowner, who actually owned and occupied the acquired dwelling for at least 180 consecutive days immediately preceding initiation of negotiations for the property, is eligible for a replacement housing payment under §§904.42 or 904.43 and, a displaced homeowner, who actually owned and occupied the acquired dwelling for at least 90 consecutive days, but less than 180 days, immediately preceding initiation of negotiations for the property, is eligible for a replacement housing payment under §§904.43 or 904.44 if he:

(1) Qualifies as a displaced person; and

(2) In the case of a payment under §§904.42 or 904.44 purchases and occupies, or, in the case of a payment under §904.43 rents and occupies, a decent, safe and sanitary dwelling within one year after the latest of the following events: The date he receives a final payment of just compensation paid for the acquired dwelling; or the date he moves from the acquired dwelling.

(b) A displaced tenant is eligible for a replacement housing payment under §§904.43 or 904.44 if he:

(1) Qualifies as a displaced person;

(2) Actually lawfully occupied the acquired dwelling for at least 90 consecutive days immediately preceding the initiation of negotiations for the property; and

(3) Rents or purchases, and occupies a decent, safe and sanitary dwelling within one year after the effective date he is required to move as stated in the Notice to Vacate, or, if earlier, the date he actually moves.

(c) For the purpose of this section, if a homeowner inherits an interest in a dwelling by devise or operation of law, his tenure of ownership, but not occupancy, includes the tenure of the preceding homeowner.

§904.42 Replacement housing payments: purchase.

(a) A displaced homeowner who actually owned and occupied the acquired dwelling for at least 180 days immediately preceding initiation of negotiations, and qualifies under §904.41(a) is entitled to a replacement housing payment of not more than \$15,000, which represents the combined cost of:

(1) The amount, if any, by which the cost of a comparable replacement dwelling as determined under paragraph (b) of this section exceeds the price the Corporation paid for the acquired dwelling;

(2) The amount, if any, necessary to compensate the displaced person for any increased interest costs and other debt service costs to be incurred in connection with the mortgage(s) on the replacement dwelling, as determined under paragraph (c) of this section; and

(3) The amount of the reasonable expenses, as determined in accordance with paragraph (d) of this section that are incidental to the purchase of the replacement dwelling, but not including prepaid expenses.

(b) *Computation of reasonable cost of comparable replacement dwelling.*

(1) The Corporation shall compute the amount of payment to which the displaced homeowner is entitled under this section by: (i) Establishing the cost of a comparable replacement dwelling by examining the selling prices of at least three comparable replacement dwellings; and

(ii) Subtracting the price the Corporation paid for the acquired dwelling.

(2) If the displaced homeowner purchases and occupies a decent, safe and sanitary dwelling, for a price less than the amount established in paragraph (b)(1)(i) of this section, then the actual purchase price will be used to compute the amount of the payment. To obtain a payment, however, the purchase price must be higher than

the price paid for the acquired dwelling.

(3) If the displaced homeowner purchases and occupies a decent, safe and sanitary dwelling, for a price greater than the amount established in paragraph (b)(1)(i) of this section, then the amount established in paragraph (b)(1)(i) of this section will set the upper limit of the replacement housing payment. The displaced homeowner must pay any part of the purchase price over the cost of a comparable replacement dwelling.

(c) *Computation of increased interest costs.* (1) The amount payable for increased interest costs under paragraph (a)(2) of this section is the present value of the difference in interest costs and other debt service costs (including points paid by the purchaser) charged for refinancing an amount equal to the new mortgage or the balance of the mortgage on the acquired dwelling at the time of acquisition, whichever is less, over a period equal to the term of the new mortgage or the remaining term of the mortgage on the acquired dwelling, whichever is shorter.

(2) For purposes of computing increased interest costs, the following rules apply:

(i) The interest charge on the new mortgage may not exceed the prevailing interest rate currently charged by mortgage lending institutions in the area in which the replacement dwelling is located.

(ii) The present value of the increased interest cost must be computed at the prevailing interest rate paid on savings deposits by commercial banks in the area in which the replacement dwelling is located.

(iii) Purchaser's points or origination fees, or both, where permitted by law, may be added to the increased interest costs upon approval by the Corporation.

(iv) Seller's points may not be added to the increased interest costs.

(d) *Computation of incidental expenses.* (1) The incidental expenses payable under paragraph (a)(3) is the amount necessary to compensate the homeowner or tenant for actual costs incurred incident to the purchase of a decent, safe and sanitary dwelling, including the following:

(i) Legal closing costs, including title search, preparing conveyance instruments, notary fees, surveys, preparing plats, and charges incident to recordation;

(ii) Lender, FHA, or VA appraisal or application fees;

(iii) Certification of structural soundness when required by the lender, FHA, or VA;

(iv) Credit report;

(v) Title policies or abstract of title;

(vi) Escrow agent's fee;

(vii) State revenue stamps or sale or transfer taxes.

(2) An incidental expense which is part of a finance charge under the Truth in Lending Act, Title I, Pub. L. 90-321, and Regulation "Z" (12 CFR Part 226) issued thereunder by the Board of Governors of the Federal Reserve System, may not be reimbursed.

§ 904.43 Replacement housing payments: rental assistance.

(a) A person is entitled to a payment of not more than \$4,000 for rental assistance as determined in paragraph (b) of this section, if that person:

(1) Qualifies under § 904.41;

(2) Is a displaced homeowner who actually owned and occupied, or a displaced tenant who actually rented and occupied, the acquired dwelling for at least 90 days immediately preceding initiation of negotiations; and

(3) The amounts established in paragraph (b)(2) (i) and (ii) of this section are each greater than the rent paid at the acquired dwelling. For the purposes of this section, the amount used as rent paid at the acquired dwelling shall be the average monthly rent paid during the three months immediately preceding initiation of negotiations for the acquired dwelling. In the case of a homeowner, or in the case of a tenant whose rent was not reasonable, then the economic rent for the acquired dwelling will be the amount used as the rent paid at the acquired dwelling.

(b) *Computation of rental assistance.* (1) The Corporation shall establish the amount necessary to rent a comparable replacement dwelling for four years by examining the rent of at least three comparable replacement dwellings.

(2) The Corporation shall compute the amount of the payment by subtracting 48 times the average monthly rent paid at the acquired dwelling from the lesser of:

(i) The actual rent to be paid for a 4-year term (or 48 times the actual monthly rent) at the replacement dwelling; or

(ii) The rent established in paragraph (b)(1) of this section.

§ 904.44 Replacement housing payments: down payment assistance.

(a) A displaced homeowner who actually owned and occupied the acquired dwelling for at least 90 days but less than 180 days immediately preceding initiation of negotiations or a displaced tenant who actually rented and occupied the acquired dwelling for at least 90 days immediately preceding initiation of negotiations, and qualifies under § 904.41, and purchases a comparable replacement dwelling, is entitled to a payment of not more than \$4,000 for down payment assistance.

(b) *Computation of down payment assistance.* (1) In determining the payment to which the displaced homeowner or tenant is entitled under para-

graph (a) of this section, the Corporation shall establish:

(i) The down payment ordinarily required for financing a conventional loan on a comparable replacement dwelling. The comparable replacement dwelling value will be established by examining the price of three available Comparable Replacement Dwellings; or, if less

(ii) The down payment required for financing a conventional loan on the replacement dwelling actually purchased.

(2) Using the amount determined in paragraph (b)(1) of this section, the Corporation shall:

(i) Pay the full amount of the first \$2,000 of the down payment required to obtain a conventional loan and incidental expenses as computed under § 904.42(d); plus

(ii) One-half of any amount required over \$2,000, but the total amount provided by the Corporation shall not exceed \$4,000.

The displaced homeowner or tenant must apply the full contribution of the Corporation to the down payment and incidental expenses.

§ 904.45 Combined payments.

(a) If a homeowner is eligible for payment under § 904.42, but has previously received a rental payment under § 904.43, the amount of rental payment previously received must be deducted from any amount that he receives under § 904.42.

(b) If a homeowner or tenant is eligible for a down payment under § 904.44, but has previously received a rental payment under § 904.43, the amount of rental payment previously received shall be deducted from the amount of any down payment that he receives under § 904.44.

§ 904.46 Occupancy.

(a) A displaced tenant or homeowner "occupies" a dwelling within the meaning of this subpart only if the dwelling is his permanent place of residence.

(b) If a tenant or homeowner contracts for the construction or rehabilitation of a replacement dwelling, and for reasons not within his control the construction or rehabilitation is delayed beyond the date occupancy is required, the Corporation may extend the period of eligibility for a replacement housing payment until the tenant or homeowner occupies the replacement dwelling.

§ 904.47 Inspection of replacement dwelling required.

(a) Before making a replacement housing payment to a displaced homeowner or tenant, or releasing a payment from escrow, the Corporation shall inspect the replacement dwelling

to determine whether or not it meets the criteria for decent, safe, and sanitary dwellings. The Corporation may use the services of any public agency ordinarily engaged in housing inspection to conduct the inspection required by this section.

(b) A determination by the Corporation that a dwelling meets the criteria for decent, safe, and sanitary housing is solely for the purpose of this subpart and is not a representation for any other purpose.

§ 904.48 Provisional payment pending condemnation.

If the exact amount of a replacement housing payment cannot be determined because of a pending condemnation suit, the Corporation may make a provisional replacement housing payment to the displaced homeowner equal to the difference between the Corporation's estimate of just compensation deposited in court for the property and the reasonable cost of a comparable replacement dwelling, but only if the homeowner enters into an agreement with the Corporation that:

(a) Upon final adjudication of the condemnation suit the replacement housing payment will be recomputed on the basis of the acquisition price determined by the court;

(b) If the acquisition price as determined by the court is greater than the Corporation's estimate of just compensation upon which the provisional replacement housing payment is based the difference will be refunded to the Corporation; and

(c) If the acquisition price as determined by the court is less than the Corporation's estimate of just compensation upon which the provisional replacement housing payment is based, the difference will be paid to the homeowner.

§ 904.49 Partial use of home for business.

In the case of a displaced homeowner or tenant who has allocated part of his dwelling for use in connection with a displaced business, a replacement housing payment may not be paid for that part of the property which is allocated to the business.

§ 904.50 Multiple occupants of a single dwelling.

(a) Where two or more individuals, families, or combination thereof occupy an acquired dwelling, the replacement housing payment is based on the cost of a single comparable replacement dwelling.

(b) If a single comparable replacement dwelling is not available on the market, then a single replacement housing payment may be based on the cost of more than one comparable replacement dwelling.

§ 904.51 Dwelling in a multiple unit building.

In the case of a displaced homeowner who is required to move from a unit in a multiple dwelling which he owns, the replacement housing payment must be based on:

(a) The cost of a comparable unit in a multiple dwelling without regard for the number of units in the building being acquired; or

(b) If a comparable unit in a multiple dwelling is not available, the cost of a single-family structure.

§ 904.52 Certificate of eligibility pending purchase of replacement dwelling.

The Corporation shall, upon request of an eligible homeowner or tenant, certify to any interested party, financial institution, or lending agency, the eligibility of the displaced homeowner or tenant, the amount he will receive, and the time limit applicable to the payment if he purchases and occupies a decent, safe, and sanitary dwelling.

Subpart E—Review Procedure

§ 904.70 Scope.

This subpart prescribes the procedures for review of a claim submitted by any person aggrieved by a determination as to the amount of, or eligibility for, benefits under the Act, and these regulations.

§ 904.71 Request for review.

Any person aggrieved by a determination as to the amount of, or his eligibility for, a payment under the Act and these regulations may request that the determination be reviewed. The request shall be in writing, state the reasons for requesting review, and the relief sought by the applicant. The applicant's written request for review shall be sent to the Chief of Real Estate Operations, Pennsylvania Avenue Development Corporation, 425 13th Street NW., Washington, D.C. 20004.

§ 904.72 Time for filing request for review.

Any person who files a request for review must do so within one year of the date of the determination for which review is sought.

§ 904.73 Review procedures.

(a) Upon receipt of a request for review, the Chief of Real Estate Operations shall compile all pertinent records maintained on the applicant's relocation claim, including the following:

(1) Information on which the original determination was based, including applicable regulations;

(2) Information submitted by the applicant including the request for review and any information submitted in support of the claim;

(3) Any additional information the Chief of Real Estate Operations con-

siders relevant to a full and fair review of the claim and which he obtains by request, investigation or research.

(b) The Chief of Real Estate Operations shall submit the complete file together with a summary of the issues and facts involved in the claim to the Chairman of the Board or his designee within 30 days of receipt of the request for review.

(c) The Chairman of the Board of Directors of the Corporation may either review the claim, or, designate one or more persons from the Board of Directors or from outside the Corporation to review the claim. During review the Chairman or designated person(s) may consult with the Corporation's General Counsel to obtain advice on legal issues arising from the claim.

§ 904.74 Final determination.

(a) The reviewer(s) shall make a final determination on the claim within 45 days of receipt of the file from the Chief of Real Estate Operations. The final determination shall be in the form of Findings of Fact and Conclusions of Law and shall be sent to the applicant. A copy of the final determination shall be furnished to the Chief of Real Estate Operations for appropriate action.

(b) If the applicant is determined to have been aggrieved as to eligibility for, or amount of, payment, the Corporation shall promptly make payment to the applicant based on the final determination. If the amount of payment due to the applicant is not stated in the final determination, and the final determination indicates the applicant is to receive a payment, the Corporation shall promptly determine the amount of payment, and shall pay the applicant.

(c) A notice of the right to judicial review shall be sent to the applicant with the final determination.

Subpart F—Acquisition of Real Property

§ 904.80 Scope.

This subpart prescribes procedures for the acquisition of real property by the Pennsylvania Avenue Development Corporation.

§ 904.81 Real property acquisition practices.

(a) In acquiring real property, the Corporation shall to the greatest extent practicable:

(1) Make every reasonable effort to acquire real property expeditiously through negotiation;

(2) Have the real property appraised before the initiation of negotiations and give the owner or his representative an opportunity to accompany the appraiser during inspection of the property;

(3) Before the initiation of negotiations establish an amount which it believes to be just compensation for the real property and make a prompt, written offer to acquire the property for that amount. In no event shall the amount be less than the Corporation's approved appraisal of the fair market value of the property. Any decrease or increase in the fair market value of the real property prior to the date of evaluation caused by the Corporation, The Pennsylvania Avenue Plan—1974, as amended, implementation of the Plan, or by the likelihood that the property would be acquired by the Corporation, other than any increase or decrease due to physical deterioration within the reasonable control of the owner, will be disregarded in determining compensation for the property;

(4) Before requiring any owner to surrender possession of real property: (i) Pay the agreed purchase price; or (ii) deposit with the court an amount not less than the Corporation's approved appraisal of the fair market value of the property;

(5) If any interest in real property is to be acquired by exercise of the power of eminent domain, institute formal condemnation proceedings and not intentionally make it necessary for an owner to institute legal proceedings to establish the taking of his real property;

(6) If the acquisition of only part of a property would leave its owner with an uneconomic remnant, offer to acquire that remnant; and

(7) Schedule the construction or development of a public improvement so that no person lawfully occupying real property shall be required to move from a dwelling or to move his business without at least 90 days written notice of the scheduled date for vacating the property.

(b) In acquiring real property, to the greatest extent practicable, the Corporation shall not:

(1) Charge more than the short-term fair rental value of the property, if the Corporation rents real property for short term to the person who occupied the property at the time of the Corporation's acquisition.

(2) Compel an agreement on the price to be paid for the property by: (i) Advancing the time of condemnation; (ii) deferring negotiations, condemnation, or the deposit of funds in court for use of the owner; or (iii) taking any other action coercive in nature.

§ 904.82 Statement of just compensation to owner.

At the time it makes an offer to purchase real property, the Corporation shall provide the owner with a written statement and summary of the basis for the amount established by the Corporation as just compensation. To

the greatest extent practicable, the statement shall include: an identification of the real property, the interests being acquired, and the owner of the interests; an identification of buildings, structures, and other improvements, including fixtures, removable building equipment, and any trade fixtures considered part of the real property for which the offer of just compensation is made; and a declaration regarding the Corporation's determination of just compensation. The declaration shall state that the determination of just compensation:

(1) Is based on the fair market value of the property;

(2) Is not less than the Corporation's approved appraised value of the property;

(3) Disregards any decrease or increase in the fair market value as set forth in § 904.81(a)(3); and

(4) In the case of separately held interests in the real property, includes an apportionment of the total just compensation for each of those interests, including, in the case of partial taking, the amount of damages, if any, to the remaining real property.

§ 904.83 Buildings, structures, and improvements to be acquired.

(a) In acquiring any interest in real property, the Corporation shall acquire at least an equal interest in all buildings, structures, or other improvements located on that real property which must be removed or which the Corporation determines will be adversely affected by the completed project.

(b) In the case of a building, structure, or other improvement owned by a tenant on the real property required to be acquired by paragraph (a) of this section, the Corporation shall, notwithstanding the right or obligation of the tenant to remove such building, structure, or improvement at the expiration of his lease, subject to paragraph (c) of this section, pay the tenant the greater of:

(1) The fair market value that the building, structure, or other improvement contributes to the fair market value of the real property acquired; or

(2) The fair market value of the building, structure or other improvement, for removal from the property.

(c) The Corporation shall not pay a tenant under paragraph (b) of this section unless:

(1) The tenant, in consideration for the payment, assigns, transfers, and releases to the Corporation all his right, title, and interest in the improvement;

(2) The owner of the acquired real property disclaims all interest in the improvement; and

(3) The payment is not duplicated by any payment otherwise authorized by law.

(d) Nothing in this section shall be construed to deprive the tenant of any rights to reject payment under this section and to obtain payment otherwise authorized by law.

§ 904.84 Expenses incidental to transfer of title.

As soon as possible after real property has been acquired, the Corporation shall, to the extent it deems fair and reasonable, reimburse the owner for expenses necessarily incurred for:

(a) Recording fees, transfer taxes, and similar expenses incidental to conveying the real property to the Corporation;

(b) Penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the real property; and

(c) The pro rata portion of any prepaid real property taxes which are allocable to a period subsequent to the date of vesting title in the Corporation or the effective date of possession of the real property by the Corporation, whichever is the earlier.

§ 904.85 Litigation expenses.

The Corporation shall pay any award made pursuant to section 304(a) of Pub. L. 91-646 (42 U.S.C. 4654(b)).

§ 904.86 Allowance for benefits prohibited.

No allowance for relocation benefits provided in Title II of the Act and this part may be included in:

(a) Contracts or options to purchase real property;

(b) The appraised value of real property; and

(c) Estimated compensation in the event of condemnation with a declaration of taking.

Dated: May 22, 1978.

Approved:

E. R. QUESADA,
Chairman.

Title 38—Pensions, Bonuses and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 36—LOAN GUARANTY

Increase in Maximum Permissible Interest Rate on New, Guaranteed, Insured, and Direct Loans

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: The VA (Veterans Administration) is increasing the maxi-

mum interest rate on guaranteed, insured and direct loans for new homes and condominiums. The interest rate is also increased on loans for the purchase of a mobile home lot or for site preparation over \$2,500 on a lot previously acquired by a veteran. The maximum interest rate is increased because the former interest rate was not sufficiently competitive to induce private sector lenders to make VA guaranteed or insured loans without imposing substantial discounts. The increase in the interest rate will assure a continuing supply of funds for home mortgages; thereby allowing veterans to purchase a home with the assistance of a no downpayment VA loan.

EFFECTIVE DATE: May 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. George D. Moerman, Loan Guaranty service (264), Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420, 202-389-3042.

SUPPLEMENTARY INFORMATION:

The Administrator is required to establish a maximum interest rate for loans guaranteed, insured or made by the Veterans Administration as he finds the mortgage money market demands. Recent market indicators—including the rate of discount charged by lenders on VA and Federal Housing Administration loans, the general increase in interest rates charged by lenders on conventional loans, and the results of the bi-weekly Federal National Mortgage Association auctions—have shown that the mortgage money market has become more restrictive. The maximum rate in effect for VA guaranteed loans has not been sufficiently competitive to induce private sector lenders to make VA guaranteed or insured loans without imposing substantial discounts. To assure a continuing supply of funds for home mortgages through the VA loan guaranty program it has been determined that an increase in the maximum permissible rate is necessary. The increased return to the lender will make VA loans competitive with other available investments and assure a continuing supply of funds for guaranteed and insured mortgages.

At present no change is being made in the maximum interest rate applicable to the mobile home loan program except as to loans to purchase mobile home lots. The lender's return on mobile home unit loans appears competitive with other forms of consumer financing to which this type of loan is comparable, and no change in rate is justified at this time.

However, a loan to purchase a mobile home lot is similar to other real estate loans and for the purpose of assuring a continuing supply of

funds and consistency with other real estate programs, the rate on these loans is also being increased.

The increase in the maximum interest rate is accomplished by amending §§ 36.4212(a) (2) and (3), 36.4311(a), and 36.4503(a), Title 38, Code of Federal Regulations. Compliance with the procedure for publication of proposed regulations prior to final adoption is waived because compliance would create an acute shortage of mortgage funds pending the final date which would necessarily be more than 30 days after publication in proposed form.

Approved: May 22, 1978.

MAX CLELAND,
Administrator.

1. In § 36.4212, paragraph (a)(2) and (3) is revised to read as follows:

§ 36.4212 Interest rates and late charges.

(a) The interest rate charged the borrower on a loan guaranteed pursuant to 38 U.S.C. 1819 may not exceed the following maxima except on loans guaranteed or insured pursuant to guaranty or insurance commitments issued by the Veterans Administration prior to May 23, 1978 (38 U.S.C. 1819(f)).

(2) 9 percent simple interest per annum for that portion of the loan which finances the purchase of a lot and the cost of necessary site preparation, if any.

(3) 9 percent simple interest per annum on that portion of a loan which will finance the cost of the site preparation necessary to make a lot owned by the veteran acceptable as the site for the mobile home purchased with the proceeds of the loan except that a rate of not to exceed 12 percent may be charged if the portion of the loan to pay for the cost of such necessary site preparation does not exceed \$2,500.

2. In § 36.4311, paragraph (a) is revised to read as follows:

36.4311 Interest rates.

(a) Excepting loans guaranteed or insured pursuant to guaranty or insurance commitments issued by the Veterans Administration which specify an interest rate in excess of 9 per centum per annum, effective May 23, 1978, the interest rate on any loan guaranteed or insured wholly or in part on or after such date may not exceed 9 per centum per annum on the unpaid principal balance (38 U.S.C. 1803(c)(1)).

3. In § 36.4503, paragraph (a) is revised to read as follows:

§ 36.4503 Amount and amortization.

(a) The original principal amount of any loan made on or after October 1, 1976, shall not exceed an amount which bears the same ratio to \$33,000 as the amount of the guaranty to which the veteran is entitled under 38 U.S.C. 1810 at the time the loan is made bears to \$17,500. This limitation shall not preclude the making of advances, otherwise proper, subsequent to the making of the loan pursuant to the provisions of § 36.4511. Loans made by the Veterans Administration shall bear interest at the rate of 9 percent per annum (38 U.S.C. 1811(d)(1)).

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 885-8]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Approval of Revisions of Maryland State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This notice announces the Administrator's approval of amendments to Maryland's air pollution control regulations, Section 10.03.35, as a revision of the Maryland State Implementation Plan (SIP). The State requested that the Administrator review and process the amendments as revisions of the Maryland SIP for the attainment and maintenance of national ambient air quality standards. The amendments consist of various definitions of terms, changes of the State Air Pollution Episode Plans, changes of the method of measurement of air quality to determine conformance to air quality standards, changes of the registration procedures for existing installations, changes of the requirements for permits to construct and permits to operate, changes of the procedures with respect to action on application for permits, changes of procedures with respect to denying an application for permits, and deletion of provisions governing prior registration of proposed installations.

EFFECTIVE DATE: June 26, 1978.

ADDRESSES: Copies of the amended regulations and associated support and comment material are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Region III, Curtis Building, 10th Floor, Sixth and Walnut Streets, Philadelphia, Pa. 19106, Attention: Mr. Harold A. Frankford.

Maryland Bureau of Air Quality and Noise Control, 201 West Preston Street, Baltimore, Md. 21201, Attention: Mr. George P. Ferreri.

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. Harold A. Frankford (3AH11), U.S. Environmental Protection Agency, Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pa. 19106. Attention: AH001/4/8MD-G, phone 215-597-8392.

SUPPLEMENTARY INFORMATION: The State of Maryland submitted amendments to Section 10.03.35 of the Maryland Regulations governing the control of Air Pollution. The State requested that these amendments submitted on April 24, 1974, December 11, 1974 and July 1, 1975 be reviewed and processed as revisions of the Maryland State Implementation Plan for the attainment and maintenance of national ambient air quality standards. The amendments consist of the below-listed changes:

REGULATION AND BRIEF DESCRIPTION, 10.03.35

- .01C Definition of "Char-Broiling" (addition).
.01F Definition of "Control Equipment" (addition).
.01P Definition of "Grill" (addition).
.01U Definition of "Interruptible Gas Service" (addition).
.01Z Definition of "Opacity" (addition).
.01AP Definition of "Rotary Cup Burner" (addition).
.03B Air Pollution Episode Plan.
.03B(2)b Deletion of the phrase "of Health and Mental Hygiene".
.03B(2)c Deletion of the phrase "of Health and Mental Hygiene".
.03B(2)e Deletion of the phrase "of Health and Mental Hygiene".
.03C(5) Standby emission reduction plans.—Delegation of authority changed from "Secretary" to "Department".
.03D Control Requirements and Standby Orders.
.03D(2)C (addition). Requirements for sources with regard to standby emission reduction plans.
.04 (deletion). Prior Registration of Proposed Installations.
.04A (1)-(4) (addition). (Formerly 10.03.36-41.05A.) Definitions of Pollutants.—Change in definition from "include" to "means".
.04F (Formerly 10.03.36-41.05E(4).) Method of Measurement (National Ambient Air Quality Standards).—Deletion of expression "and any later applicable amendment and".
.04G (1)-(3) (addition). Number and Duration of Measurements.—Specifies sampling frequencies for different types of measurements and instruments.
.05E(2) Installations Not Required to be Registered.—Section rewritten to indicate that installations exempt from the "Permit to Construct" requirements are listed in Section 10.03.35.11G.
.06A(3) Requirements for Testing.—Effective date of amendments specified; scaffolding requirement added.
.11B Permit to Operate.—Renewal period for permit changed from "90 days prior to expiration" to "60 days prior to expiration".
.11G Installations Not Required to Obtain Permits to Construct.
.11G(1) The term "replacement" is modified to read "component replacement".
.11G(9) Photographic process equipment (minor wording change).
.11G(11) Storage of motor vehicle gasoline.—In areas III and IV.—The requirement only exempts storage tanks of "less than 5000 gallons"; in the remainder of the State,

25,000 gallon tanks or greater are not exempted.

.11G(15) Char-broilers with a total area of less than 5 [square] feet (addition).

.11H Installations Required to Obtain a Permit to Operate.

.11H(10) Lime Kilns.—Those of less than 1-ton-per-hour capacity are no longer excluded.

.11H(11) Cement Kilns.—those of less than 1-ton-per-hour capacity no longer excluded.

.11H(12) Other kilns of 1 ton per hour or more throughput are excluded.

.11H(26) Deletion of the requirement that "any installation with a potential hydrocarbon solvent emission of one ton per day or more" obtain a permit to operate.

.11J Action on Application of Permits.—The time limit during which the State must notify an applicant that additional information is required is extended from 30 days to 60 days.

.11K Denial of Application.—An example is added to illustrate the conditions under which a permit may be denied.

Table 1.—Episode Plan—Alert Stage.—Onsite incineration resulting from public collection of refuse is permitted.

Tables I, II, III.—Wording is added to specify that the source of emissions categories listed in these tables are primarily for the control of TSP and SO₂.

Table 1. (Formerly Table 3 of Regulations 10.03.36 through 10.03.41.) Ambient Air Quality Standards.

1. Sulfur Dioxide.
a. Lower limit of More Adverse Range (annual average) changed from 39 ug/m³ to 60 ug/m³.

b. More adverse range.—1-hour and 24-hour average—deleted.

c. 5-minute average deleted.

2. Dustfall—"monthly average" replaces "monthly maximum".

3. Nitrogen Dioxide—ug/m³ to ppm conversion factor deleted.

4. General.—Annual average based on calendar year replaces annual average based on at least nine monthly averages.

The State of Maryland submitted proof that public hearings with regard to these amendments were held in accordance with the requirements of 40 CFR 51.4. All of the above-listed amendments were proposed by EPA as revisions of the Maryland State Implementation Plan. The actions taken by the State and EPA are summarized on the following chart:

Date of Submittal by Maryland to EPA	Date of Public Hearings Held by Maryland	Location of Public Hearings	Date of Notice of Proposed Rulemaking (FR Citation)	Expiration Date of Public Comment Period	Nature of Public Comments Received
April 24, 1974	Sept. 5, '73 Sept. 6, '73	Baltimore Silver Spring	March 27, 1975 (40 FR 13521)	April 28, 1975	None Received
Dec. 11, 1974	August 6, '74 August 7, '74	Takoma Park Baltimore	January 30, 1975 (40 FR 4447) March 27, 1975 (40 FR 13521) November 19, 1975 (40 FR 53595)	March 3, 1975 April 28, 1975 December 19, 1975	None Received
July 1, 1975	May 21, '75 May 25, '75 May 26, 1975	Baltimore Cambridge Cumberland	October 6, 1975 (40 FR 46117)	November 5, 1975	None Received

The amendment to Section 10.03.35.11K (Denial of Application) consists of a specific example under which a permit to construct would be denied. This example has been interpreted to be illustrative in nature and should not be construed as the only condition under which a permit will be denied. The State of Maryland is encouraged to clarify the wording and intent of Sections .11K(1) and .11K of Regulation 10.03.35.

Notwithstanding this comment, all of the above-listed amendments meet the criteria of Section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption and Submittal of Implementation Plans.

In view of this evaluation, the Administrator hereby approves the above-listed amendments to Sections .01, .03, .04 (formerly Section .05 of Regulations 10.03.36-10.03.41), .05, .06, .11 and the deletion of the former section .04 of Maryland Regulation 10.03.35 as revisions of the Maryland State Implementation Plan effective June 26, 1978. Section 52.1070 (Identification of Plan) of 40 CFR Subpart V (Maryland) is hereby amended to incorporate these amendments into the federally approved Maryland SIP.

(42 U.S.C. 7401.)

Dated: May 19, 1978.

DOUGLAS M. COSTLE,
Administrator.

Part 52 of Title 40, Code of Federal Regulations, is amended as follows:

Subpart V—Maryland

1. In § 52.1070, paragraph (c) is amended as follows:

§ 52.1070 Identification of plan.

(c) The plan revisions listed below were submitted on the dates specified

(19) Amendments to Sections .03 (Air Pollution Episode System), .06 (Test Methods) and .11 (Permits); and deletion of .04 (Prior Registration of Proposed Installations) of Maryland Regulation 10.03.35 (Regulations Gov-

erning Control of Air Pollution in the State of Maryland); submitted on April 24, 1974 by the Governor.

(20) Amendments to Sections .01 (Definitions), .04 (Ambient Air Quality Standards (Former Section .05 of Regulations 10.03.36 through 10.03.41 inclusive)) and .11 (Permits) of Maryland Regulation 10.03.35 (Regulations Governing Control of Air Pollution in the State of Maryland) submitted on December 11, 1974 by the Governor.

(21) Amendments to Section .11 (Permits) of Maryland Regulation 10.03.35 (Regulations Governing Control of Air Pollution in the State of Maryland) submitted on July 1, 1975 by the Governor.

PART 52—APPROVED AND PROMULGATION OF IMPLEMENTATION PLANS

California Plan Revision: South Coast Air Quality Management District—Air Pollution Emergency Episode Plans

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: The Environmental Protection Agency (EPA) takes final action to approve and, where appropriate, disapprove, take no action on, and promulgate substitute regulations for the South Coast Air Quality Management District (SCAQMD) portion of the California State Implementation Plan (SIP) submitted by the Governor's designee. The intended effect of this action is to provide air pollution emergency episode rules and regulations and to correct certain deficiencies in the SIP.

EFFECTIVE DATE: June 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Allyn M. Davis, Acting Director, Air

and Hazardous Materials Division, Environmental Protection Agency, 215 Fremont Street, San Francisco, Calif. 94105, Attn.: Charlotte Hopper, 415-556-2002.

SUPPLEMENTARY INFORMATION: On November 30, 1977 (42 FR 60929), the Administrator published proposed rules for air pollution emergency episodes in the South Coast Air Quality Management District (SCAQMD). The proposed rulemaking included partial approval of the SCAQMD Regulation VII (Emergencies) submitted by the California Air Resources Board as a revision to the State Implementation Plan (SIP) in July 1977 and the proposal of substitute regulations by EPA to correct those deficiencies found in Regulation VII. The Administrator invited public comments on both the SIP revision and the EPA-proposed substitute regulations, as required by section 110 of the Clean Air Act, and held a public hearing in the City of Los Angeles on January 13, 1978, for the purpose of receiving comments. The comments are addressed below.

No action is being taken on the following paragraphs of Regulation VII as they have been superseded by revisions to the SIP which were submitted too late to be included in the proposed rulemaking: Rules 708.2(b)(3)(B), 708.2(b)(4)(B), 708.2(b)(4)(C), and 708.2(b)(5)(C) concerning abatement plans for certain categories of sources. Action on the corresponding rules and on other additions to Regulation VII submitted as an SIP revision in October and November 1977, is being proposed in a separate section of this FEDERAL REGISTER.

Subsequent to the publication of the Notice of Proposed Rulemaking, two additional deficiencies were discovered in the course of preparation for the public hearing and are remedied in the final rulemaking. These deficiencies were announced at the public hearing in Los Angeles on January 13, 1978, and are discussed below.

The Notice of Proposed Rulemaking inadvertently omitted the requirement for daily acquisition of forecasts of atmospheric stagnation conditions during any episode stage and the up-

dating of such forecasts at least every 12 hours. This requirement is included in the final rulemaking.

An additional oversight occurred in the carbon monoxide (CO) criteria levels. A concentration of 50 parts per million for CO has been established for an eight-hour averaging period by EPA as that level beyond which public health may be significantly impaired. The criteria level established by the South Coast Air Quality Management District for stage 3 CO episodes is 50 parts per million over a 12-hour averaging time. This level would allow concentrations of CO to equal or exceed the significant harm level before stage 3 abatement action would be required by Regulation VII. Therefore, the final regulation establishes the following criteria levels for carbon monoxide concentrations averaged over eight hours:

15 parts per million for Stage 1;
30 parts per million for Stage 2; and
40 parts per million for Stage 3 episodes.

These criteria levels are intended to augment the existing South Coast Air Quality Management District one-hour and twelve-hour CO criteria and the same episode actions that are now required at each of the three stages by Regulation VII apply to the eight-hour criteria.

The wording of paragraph (c)(2) has been clarified to require that all sources listed in SCAQMD Rules 708.1 and 708.3 submit stationary source curtailment plans and/or traffic abatement plans to EPA regardless of whether or not they have been notified to submit such plans by the SCAQMD. Paragraph (d)(16) has been added to indicate where the plans are to be sent.

Paragraph (c)(4) has been modified to make it consistent with paragraph (d)(8)(vii). It requires owners or operators who submit abatement plans that are subsequently disapproved by the Administrator to modify and resubmit such plans within 30 days of receipt of the notice of disapproval.

Comments on the proposed regulations were received from the SCAQMD, California Lung Association, the Southern California Edison Co. and the California Asphalt Pavement Association. The major issues raised in the comments to EPA, and EPA's responses, are summarized below.

Comments from the SCAQMD included a request to consider the changes in requirements for abatement plans under Regulation VII adopted by the District in July 1977. Although these changes were submitted to EPA in October and November 1977, they were not processed in sufficient time to be included in the November 30, 1977, notice of proposed rulemaking in this matter. They are,

however, being proposed for approval in another section of this *FEDERAL REGISTER*. The changes include requirements to curtail or postpone electrically intensive operations; measures for utilities to import power; requirements for fossil fuel-fired combustion sources to use fuel oil with specific sulfur content when natural gas is unavailable, and provisions for exemption if there is adequate demonstration that such fuel is not available.

EPA has made some adjustments to its regulations to reflect the changes in Regulation VII adopted in July 1977 so that requirements for abatement of individual sources will be consistent with those of the SCAQMD. These changes are discussed below.

Comment: Proposed paragraph (d)(8)(ii) (F)(2), (G)(3), and (G)(6) all address reductions to be specified in source abatement plans for emissions of nitrogen dioxide, particulate matter and sulfur dioxide from electric generating facilities or combustion sources. Paragraph (G)(3) requires the use of low sulfur fuel; paragraphs (F)(2) and (G)(6) require contaminant emissions reductions of 10 and 20 percent, respectively. The District commented that switching to low sulfur fuel oil does not decrease NO_x or particulate emissions, and that to reduce those emissions a different fuel must be used or less fuel burned. They state that reducing SO_x emissions requires that the sulfur content of the fuel burned be reduced. The District indicated that to reduce electrical generating capacity when gas is not available can result in blackouts and that reductions in the case of refineries can result in excessive hydrocarbon emissions.

Reply: EPA agrees with the comments to the extent that it is not the intent of 40 CFR 51.16 or Appendix L to limit the amount of electricity to be generated or to create a different problem while solving the initial problem. Thus EPA has reviewed the most recent version (July 8, 1977) of Regulation VII, Rule 708.2(b), which includes abatement measures as suggested in Appendix L, and has determined that incorporation of those measures into the substitute rule would meet all requirements for reduction of NO_x, TSP, and SO_x. Those measures required in the July 1977 amendments of Regulation VII, Rule 708.2 (b)(3) through (b)(5) are included in paragraphs (d)(8)(ii) (F) through (J) as substitutes for, or in addition to proposed paragraphs (d)(8)(ii) (F)(2), and (G)(3) through (G)(6). Briefly, these measures which are incorporated in response to the SCAQMD's comments call for the importation of power where feasible, postponement of electrically intensive industrial operations, and measures to use fuel with the sulfur content reduced to specific percentages.

These changes also include a provision for exemption from the natural gas use requirement, if it can be demonstrated that natural gas is not available. A provision has been added to the requirements for refineries such that they are to reduce emissions of the episode contaminant without increasing emissions of other pollutants.

Comment: The SCAQMD commented that the Stage 3 NO_x abatement plans for petroleum refineries should require a reduction in NO_x emissions without causing an increase in other contaminants, specifically hydrocarbons.

Reply: If a petroleum refinery should attempt to reduce throughout sufficiently to meet the NO_x reductions, the resulting refinery operations could be upset to the point of emitting more hydrocarbons than would normally be emitted. To prevent this potential problem and to be consistent with the intent of 40 CFR 51.16, Paragraph (d)(8)(ii)(H)(1) has been modified to reflect this comment.

Comment: Both the SCAQMD and the Southern California Edison company commented that the proposed wording of paragraph (d)(8)(ii)(I) would require the shutting down of electric generating facilities.

Reply: Electric generating facilities are covered in paragraphs (d)(8)(ii) (F) and (G) and the measures required for Stage I and Stage II carry over to Stage III. Thus further abatement actions were not required for these facilities in the proposal in the paragraphs concerning Stage III requirements. The wording of these paragraphs has been changed in order to clarify the meaning. There was no intent in the proposal to shut down electric generating facilities if natural gas were not available, but only to insure that adequate measures to reduce emissions are taken.

Comment: Those portions of Regulation VII dealing with sulfates, combined sulfate and O₃, and combined SO_x and O₃ episodes should not be included in the EPA approval because significant harm levels have not been defined by EPA for those pollutants.

Reply: The EPA indicated in the proposed rulemaking that no action would be taken on the "Sulfate Episode Actions" portion of Regulation VII since a significant harm level has not been defined in 40 CFR 51.16 for that pollutant. Since significant harm levels for combined SO_x and O₃, combined sulfate and O₃, as well as sulfates have not been defined, EPA takes no action on the portions of Regulation VII concerning these three pollutants.

Comment: The episode criteria are of concern because the levels are not related to current data or medical judgment.

Reply: The criteria levels are part of the example guidelines for episode

plans listed in Appendix L. They are designed to provide for increasingly stringent emission control actions to be taken as pollutant concentrations increase, with the goal of insuring that such concentrations do not exceed the levels specified in 40 CFR 51.16. No evidence has been presented to warrant consideration of changes in these levels. Moreover, this rulemaking concerns emergency episode plans for the South Coast Air Basin and not changes to the episode criteria in 40 CFR 51.16.

Comment: Penalties for noncompliance with source abatement actions are not spelled out.

Reply: Paragraph (d)(15) of the regulations requires appropriate enforcement for non-compliance under Section 113 of the Clean Air Act.

Comment: The EPA should have undertaken a comprehensive study to determine the strategies for mobile source reductions for NO_x.

Reply: Several alternative NO_x emission reduction strategies were examined in the "Evaluation Report and Technical Support Document" that was prepared to support the proposed regulations. The strategies involved various degrees and combinations of stationary and mobile source emission reductions. Among all the alternatives considered, the one requiring the "major national holiday" strategy was selected because it assures protection against reaching the significant harm level while, at the same time, minimizing the institutional and socio-economic impacts. The commentator did not present any data or alternative strategies to support a change in the regulations.

Comment: Strategies are needed for episodes attained without having been forecast because there is a possibility that concentrations of contaminants could reach episode levels before they are forecast.

Reply: Paragraphs (d) (9) through (11) provide actions for NO_x, TSP, and combined SO_x and TSP episodes that have been attained without being forecast. Regulation VII provides similar actions for SO_x episodes but not for implementation of abatement plans for attained stage 2 or 3 CO and O₃ episodes. Paragraph (c)(8) has been added to the regulations to provide for the implementation of abatement plan strategies when the episode levels for CO and O₃ are attained.

Comment: A comment from the California Asphalt Pavement Association requested clarification of the term "without upsetting production".

Reply: The phrase "without upsetting production" in paragraph (d)(8)(ii)(G)(1) means that the production rate (or throughput) shall be reduced, but not necessarily to the point where the production ceases. If the operation of a source (e.g., a chemical

processing plant) is such that mere reduction of throughput to a certain level causes the entire operation to cease production, a reduction to such level is not required. This paragraph is similar to rule 708.2(a)(9)(A) of the SCAQMD's Regulation VII.

The Administrator has weighed all of the comments submitted to EPA, evaluated the SCAQMD Regulation VII as well as the proposed substitute regulations to remedy deficiencies noted in Regulation VII and concludes that together they satisfy the requirements of the Clean Air Act and 40 CFR 51.16 for the prevention of significant harm in the South Coast Air Basin. The Administrator hereby approves the oxidant, carbon monoxide, and sulfur dioxide related portions of Regulation VII of the South Coast Air Quality Management District, except for certain portions of Rule 708.2, making it a part of the approved SIP for California; disapproves Regulation VII to the extent it does not include provisions for nitrogen dioxide, particulate matter, and combined sulfur dioxide and particulate matter episodes as well as the other elements delineated in § 52.274(b); and promulgates the substitute regulations herein.

(Secs. 110, 301(a), Clean Air Act, as amended (42 U.S.C. 7410, 7601(a).))

Dated: May 18, 1978.

DOUGLAS M. COSTLE,
Administrator.

Subpart F of Part 52 of Chapter I, Title 40, of the Code of Federal Regulations is amended as follows:

Subpart F—California

1. Section 52.220 is amended by adding paragraph (c)(38) as follows:

§ 52.220 Identification of plan.

• • • • •
(c) • • • • •
• • • • •

(38) Revisions to air pollution emergency episode plans submitted on June 1, 1977 by the Governor's designee.

(i) South Coast Air Quality Management District's Regulation VII Emergencies as revised on May 6, 1977. No action has been taken on those portions of Rules 702, 703, 704, 706, 708, 708.2, 710, 711, 712 and 714 that pertain to sulfate, oxidant in combination with sulfate, or oxidant in combination with sulfur dioxide. No action has been taken on Rules 708.2(b)(3)(B), 708.2(b)(4)(B), 708.2(b)(4)(C) and 708.2(b)(5)(C).

• • • • •
2. Section 52.274 is added as follows:

§ 52.274 California air pollution emergency plan.

(a) The requirements of § 51.16 of this chapter are not met, except in the South Coast Air Quality Management District (SCAQMD) portion of the Metropolitan Los Angeles Intrastate Air Quality Control Region since the California Air Pollution Emergency Plan does not provide complete, implementable provisions for taking emission control actions necessary to prevent ambient concentrations from reaching significant harm levels.

(b) The requirements of § 51.16 of this chapter are met in the SCAQMD with the following exceptions: SCAQMD Regulation VII has no schedule to assure that the emission control actions are fully implementable; does not provide specific emission control actions for interdistrict coordination; has no provisions for nitrogen dioxide, particulate matter, and sulfur dioxide and particulate matter combined episodes; has no criteria or provisions to protect the eight-hour averaged carbon monoxide significant harm level; and has no provisions for implementation of abatement plans for stage 2 or 3 carbon monoxide or oxidant episodes that are attained without being predicted.

(c) Regulation for prevention of air pollution emergency episodes—plan scheduling, interdistrict coordination, episode criteria, and declaration.

(1) The requirements of this paragraph are applicable in the SCAQMD.

(2) The owner or operator of any governmental, industrial, business, or commercial activity listed in Rules 708.1 and 708.3 of Regulation VII of the SCAQMD, as revised on May 6, 1977, shall submit a Stationary Source Curtailment Plan and/or Traffic Abatement Plan to the Administrator within sixty days after the effective date of this paragraph.

(3) The plans submitted pursuant to the requirements of this paragraph, shall be reviewed by the Administrator for approval or disapproval according to the following schedule:

(i) For sources with emissions of hydrocarbons (HC) or nitrogen oxides (NO_x) greater than or equal to 454 metric tons (500 tons) per year, or for establishments employing 400 or more employees per shift, within 45 days after receipt.

(ii) For sources with emissions of HC or NO_x greater than or equal to 91 metric tons (100 tons) per year and less than 454 metric tons (500 tons) per year, or for establishments employing more than 200 and less than 400 employees per shift, within 90 days after receipt.

(iii) For sources or establishments other than those addressed in paragraph (c)(3) (i) through (ii) of this section, within 180 days after receipt.

(4) The owner or operator of an industrial, business, governmental or

commercial establishment required to submit a plan by this paragraph shall be notified by the Administrator within thirty days after the plan has been evaluated if the plan is disapproved. Any plan disapproved by the Administrator shall be modified to overcome the disapproval and resubmitted to the Administrator within 30 days of the receipt of the notice of disapproval.

(5) In the event specific sources or source areas within the SCAQMD are determined to significantly contribute to a declared air pollution episode in a nearby Air Pollution Control District, emission control actions specified in Regulation VII of the SCAQMD, as revised on May 6, 1977, for that declared episode stage shall be taken in the SCAQMD to abate that episode.

(6) For the purposes of this paragraph, the following episode criteria shall apply to carbon monoxide concentrations averaged over eight hours:

- (i) For stage 1, 15 parts per million.
- (ii) For stage 2, 30 parts per million.
- (iii) For stage 3, 40 parts per million.

(7) The provisions of SCAQMD Regulation VII, as revised on May 6, 1977, relating to carbon monoxide episodes averaged over 12 hours shall apply to carbon monoxide episodes averaged over 8 hours except that the Administrator shall provide for declaration, notification, source inspections, and termination of the episodes.

(8) Whenever the Administrator has determined that the stage 2 or 3 episode level for oxidant or carbon monoxide as specified in Rule 703 of Regulation VII of the SCAQMD, as amended May 6, 1977, is being attained or has been attained, and is predicted to remain at such level for 12 or more hours, or increase, or in the case of oxidant to reoccur within the next 24 hours, unless control actions are taken, the existence of the appropriate episode level and the location of the source-receptor areas shall be declared, and the actions specified in Rules 710(b)(1), 710(b)(2), 711(b)(1), or 711(b)(2) shall be taken by the Administrator.

(d) *Regulation for prevention of air pollution emergency episodes—nitrogen dioxide, particulate matter, and sulfur dioxide and particulate matter combined.*

(1) The requirements of this paragraph are applicable in the SCAQMD.

(2) For the purposes of this regulation the following definitions apply:

- (i) "ppm" means parts per million by volume.
- (ii) "COH" means coefficient of haze.
- (iii) "ugm" means micrograms per cubic meter.
- (iv) "Administrator" means the Administrator of the Environmental Protection Agency or his authorized representative.

(v) "Major National Holiday" means a holiday such as Christmas, New Year's Day, or Independence Day.

(vi) "Source/Receptor Areas" are defined for each episode occurrence based on air monitoring, geographical, and meteorological factors: Source area is that area in which contaminants are discharged and a receptor

area is that area in which the contaminants accumulate and are measured.

(vii) "Air Contaminants" means nitrogen dioxide, particulate matter, and/or sulfur dioxide and particulate matter combined.

(3) For the purposes of this regulation, the following episode criteria shall apply:

Contaminants	Averaging time (hours)	Stage 1	Stage 2	Stage 3
Nitrogen dioxide.....	1	0.6 ppm.....	1.2 ppm.....	1.6 ppm.....
	24	0.15 ppm.....	0.3 ppm.....	0.4 ppm.....
Particulate matter.....	24	3.0 COH.....	5.0 COH.....	7.0 COH.....
	24	375 ugm ⁻³	625 ugm ⁻³	875 ugm ⁻³
Sulfur dioxide and particulate matter combined.	24	0.2°.....	0.8°.....	1.2°.....
	24	65,000**.....	261,000**.....	393,000**.....

*Product of sulfur dioxide (ppm) and particulate matter (COH).

**Product of sulfur dioxide (ugm⁻³) and particulate matter (ugm⁻³).

(4) Whenever the Administrator has determined that any episode level specified in subparagraph (3) of this paragraph is being attained or has been attained, and is predicted to remain at such level for 12 or more hours, or increase, unless control actions are taken, the existence of the appropriate episode level and the location of the source-receptor areas shall be declared.

(5) Whenever the available scientific and meteorological data indicate that any episode level declared by subparagraph (4) of this paragraph is no longer occurring and is not predicted to immediately increase again to episode levels, such episode shall be declared terminated.

(6) The following shall be notified by the Administrator whenever an episode is predicted, attained or terminated: (i) Public officials; (ii) persons operating any facility or activity named in subparagraph (8) of this paragraph; (iii) public health, safety, and emergency agencies; (iv) news media.

(7) Upon request of the Administrator, persons operating any facility or activity named in subparagraph (8) of this paragraph shall install, properly maintain, and operate radio-receiving equipment with decoding device capable of receiving broadcasts of the declaration and termination of episodes required under this paragraph and instructions as to the actions to be taken.

(8) Stationary source curtailment plans and traffic abatement plans shall be prepared by industrial, business, commercial, and governmental establishments as follows:

(i) The owner or operator of any industrial, business, commercial, or governmental activity listed below shall submit to the Administrator plans to curtail operations causing stationary

source air contaminants in such activity:

(A) Petroleum refinery emitting 23 metric tons (25 tons) or more per year of air contaminants.

(B) Metal-melting plant requiring molten metal temperatures in excess of 540° C (1,000° F) or metal-refining plant or metal-smelting plant, in which a total of 1,135 kilograms (2,500 pounds) or more of metal are in a molten state at any one time or are poured in any 1 hour.

(C) Fossil fuel-fired electric generating facility having a total rated capacity of 50 megawatts or more.

(D) Any facility or plant emitting 91 metric tons (100 tons) or more per year of air contaminants.

(ii) The plans required by subparagraph (8)(i) of this paragraph shall include the following:

(A) A list of equipment which emits nitrogen oxides, particulate matter, and/or sulfur dioxide, including the SCAQMD permit number, the daily amount of air contaminants emitted, and a statement of the minimum time and recommended time to implement the abatement actions for each episode stage for the equipment listed and the percent reduction in emissions at each episode stage.

(B) The total number of employees at the facility during each shift on a normal weekday and on a major national holiday.

(C) The normal amount of electricity used on a normal weekday and on a major national holiday.

(D) The actions to inform employees of the procedures to be taken in the event of an episode declaration.

(E) The name and telephone numbers of the facility's episode action coordinator and alternate, who are responsible for implementation of the plan.

(F) For stage 1 episodes:

(1) The measures to voluntarily curtail equipment emitting air contaminants.

(2) The measures to curtail or postpone electrically intensive industrial operations, where feasible.

(3) The measures for electric utilities to import power from outside the basin to the extent feasible.

(G) For stage 2 episodes:

(1) The measures to curtail as much as possible, without upsetting production, equipment operations which emit air contaminants.

(2) The measures to postpone operations which can be postponed until after the episode.

(3) For fossil fuel-fired combustion sources, including: electric utilities, with a heat input greater than 50 million BTU per hour:

(i) The measures to burn natural gas.

(ii) To the extent that natural gas is not available, the measures to burn fuel oil with a sulfur content of not more than 0.25 percent by weight or the measures to reduce air contaminant emissions to equivalent discharge. Any combustion source may be exempt from the provisions of this subparagraph upon demonstration that fuel oil with the specified sulfur content is not available.

(4) For electric utilities the measures, in addition to those in subparagraph (F)(3), to:

(i) Shift oil burning power generation to non-source areas to the maximum extent consistent with the public health, safety, and welfare.

(ii) Shift oil burning power generation to combined cycle gas turbine generating equipment burning fuel oil containing less than 0.15 percent sulfur to the maximum extent consistent with the public health, safety, and welfare.

(5) For refineries and chemical plants the measures to be taken to reduce air contaminant emissions by 20 percent without jeopardizing the public health or safety, without causing an increase in the emissions of other air contaminants, without damaging the equipment or without reducing production by more than 20 percent.

(6) The measures in subparagraph (8)(ii)(F) of this paragraph.

(H) For stage 3 nitrogen dioxide episodes:

(1) The measures for petroleum refineries to reduce emissions of nitrogen dioxide by 33 percent, without damaging the equipment or increasing the emissions of other air contaminants.

(2) The measures in subparagraph (8)(ii)(G) of this paragraph.

(3) A list of equipment and the permit numbers of such equipment not operated on a major national holiday.

(4) A statement as to whether or not the facility operates on a major national holiday.

(I) For stage 3 particulate matter episodes:

(1) The measures for petroleum refineries to reduce emissions of particulate matter by 33 percent, without damaging the equipment or increasing the emissions of other air contaminants.

(2) The measures described in subparagraph (8)(ii)(G) of this paragraph.

(3) The measures for any facility or plant, except electrical generating facilities and petroleum refineries, normally emitting 91 metric tons (100 tons) or more per year of particulate matter to eliminate such emissions by starting no new batches, by ceasing feed of new materials, and by phasing down as rapidly as possible without damage to the equipment.

(4) The measures for metal melting, refining, or smelting plants to eliminate emissions of particulate matter by starting no new batches, by ceasing feed of new materials, and by phasing down as rapidly as possible without damage to the equipment.

(J) For stage 3 sulfur dioxide and particulate matter combined episodes:

(1) The measures described in subparagraphs (8)(ii)(G) and (I) of this paragraph.

(2) The measures for petroleum refineries to reduce emissions of sulfur dioxide by 33 percent, without damaging the equipment or increasing the emissions of other air contaminants.

(3) The measures for any facility or plant, except electrical generating facilities and petroleum refineries, normally emitting 91 metric tons (100 tons) or more per year of sulfur dioxide to eliminate such emissions by starting no new batches, by ceasing feed of new materials, and by phasing down as rapidly as possible without damage to the equipment.

(K) An estimate of the resultant reduction in air contaminant emissions.

(iii) The owner or operator of any industrial, business, commercial, or governmental activity listed below shall submit to the Administrator plans to curtail or cease operations causing air contaminants from vehicle use:

(A) Operators of 50 or more fleet vehicles.

(B) Industrial, business, commercial, or governmental establishments employing more than 100 persons per shift at one business address.

(iv) The plans required by subparagraph (8)(iii) of this paragraph shall include the following:

(A) The total number of employees at the facility during each shift on a normal weekday and on a major national holiday.

(B) The number of motor vehicles and vehicle miles traveled for motor vehicles operated:

(1) By the company on company business on a normal weekday and on a major national holiday.

(2) By employees commuting from home to the place of business on a normal weekday and on a major national holiday.

(C) The number of parking spaces used on a normal weekday and on a major national holiday.

(D) The minimum number of motor vehicles to be operated that are necessary to protect public health or safety.

(E) The actions to inform employees of the procedures to be taken in the event of an episode declaration.

(F) The name and telephone numbers of the facility's episode action coordinator and alternate, who are responsible for implementation of the plan.

(G) For stage 1 episodes, the methods by which employers will encourage the utilization of car pools or otherwise reduce employee motor vehicle travel.

(H) For stage 2 and 3 episodes, the measures within the reasonable control of the employer to reduce the number of vehicle miles driven by employees in commuting to and from work.

(I) An estimate of the reduction in vehicle miles traveled as a result of the measures in this subparagraph.

(v) Each owner or operator required to submit a plan by this paragraph shall submit to the Administrator such plan within 60 days of the effective date of this paragraph.

(vi) The plans submitted in accordance with the provisions of this paragraph shall be approved or disapproved by the Administrator according to the following schedule:

(A) For sources with emissions of air contaminants greater than or equal to 454 metric tons (500 tons) per year, or for establishments employing 400 or more employees per shift, within 45 days after receipt.

(B) For sources with emissions of air contaminants greater than or equal to 91 metric tons (100 tons) per year and less than 454 metric tons (500 tons) per year, or for establishments employing more than 200 and less than 400 employees per shift, within 90 days after receipt.

(C) For sources with emissions of air contaminants less than 91 metric tons (100 tons) per year, or for establishments employing 100 to 200 employees per shift, within 180 days after receipt.

(vii) The owner or operator required to submit a plan by this paragraph shall be notified by the Administrator within 30 days after the plan has been evaluated if the plan is disapproved. Any plan disapproved by the Administrator shall be modified to overcome this disapproval and resubmitted to the Administrator within 30 days of the receipt of the notice of disapproval.

(viii) A copy of the plan approved in accordance with the provisions of this paragraph shall be on file and readily available on the premises to any person authorized to enforce the provisions of this section.

(9) The following actions shall be taken in the source and receptor areas upon declaration of a stage 1 episode:

(i) The notifications required by paragraph (d)(6) of this paragraph.

(ii) The Administrator shall advise the public that those individuals with special health problems should follow the precautions recommended by their physicians and health officials.

(iii) The Administrator shall advise school officials to cancel, postpone, or reschedule programs which require outdoor physical activity.

(iv) The Administrator shall request the public to stop all unnecessary driving.

(v) The Administrator shall request the public to operate all privately owned vehicles on a pool basis.

(vi) Persons operating any facility or activity named in subparagraph (8) of this paragraph shall implement the appropriate plans specified in subparagraph (8) for the declared stage 1 episode and air contaminant(s).

(10) The following actions shall be taken in the source and receptor areas upon declaration of a stage 2 episode:

(i) The actions described in subparagraphs (9)(i)-(v) of this paragraph.

(ii) The Administrator shall request suspension of programs that involve physical exertion by participants using public parks or public recreational facilities located in receptor areas.

(iii) The burning of combustible refuse shall be postponed until the episode has been terminated.

(iv) The Administrator shall request the public to reduce the use of electricity by 10 percent.

(v) Persons operating any facility or activity named in subparagraph (8) of this paragraph shall implement the appropriate plans specified in subparagraph (8) for the declared stage 2 episode and air contaminant(s).

(11) The following actions shall be taken in the source and receptor areas upon declaration of a stage 3 episode:

(i) The actions described in subparagraphs (10)(i)-(iii) of this paragraph.

(ii) The Administrator shall request the public to reduce the use of electricity by 40 percent.

(iii) Persons operating any facility or activity named in subparagraph (8) of this paragraph shall implement the appropriate plans specified in subparagraph (8) for the declared stage 3 episode and air contaminant(s).

(iv) For nitrogen dioxide, the general public, schools, industrial, business, commercial, and governmental activities throughout the District shall operate as though the day were a major national holiday.

(v) For particulate matter and/or sulfur dioxide and particulate matter combined, the Administrator shall request the public to reduce as much as possible activities causing dust emissions including agricultural operations, off-road vehicle use, and driving on unpaved roads. Construction and demolition operation shall be postponed until the episode has been terminated.

(12) In the event specific sources or source areas within the SCAQMD are determined to significantly contribute to a declared air pollution episode in a nearby Air Pollution Control District, emission control actions specified in this paragraph for that declared episode stage shall be taken in the SCAQMD to abate that episode.

(13) A source inspection plan shall be implemented by the Administrator upon the declaration of any episode stage.

(14) The Administrator shall provide for daily acquisition of forecasts of atmospheric stagnation conditions during any episode stage and updating of such forecasts at least every 12 hours.

(15) Any source that violates any requirement of this section shall be subject to enforcement action under section 113 of the Act.

(16) All submittals or notifications required to be submitted to the Administrator by this section shall be sent to:

Environmental Protection Agency, Air and Hazardous Materials Division (A-4), Attn: Air Programs Branch, 215 Fremont Street, San Francisco, Calif. 94105.

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 900-7; PP 8F2067/R153]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Chlorothalonil

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

AGENCY: Final rule.

SUMMARY: This rule established a tolerance for residues of the fungicide chlorothalonil on bananas. The amendment to the regulations was requested by Diamond Shamrock Corp. This rule establishes a maximum permissible level for residues of chlorothalonil on bananas.

EFFECTIVE DATE: May 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. Eugene Wilson, Product Manager (PM) 21, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C., 202-426-2456.

SUPPLEMENTARY INFORMATION: On May 4, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 19240) in response to a pesticide petition (PP 8F2067) submitted to the Agency by Diamond Shamrock Corp., 1100 Superior Avenue, Cleveland, Ohio 44114. This petition proposed that 40 CFR 180.275 be amended by the establishment of a tolerance for combined residues of the fungicide chlorothalonil (tetrachloroisophthalonitrile) and its metabolite, 4-hydroxy-2,5,6-trichloroisophthalonitrile, in or on the raw agricultural commodity bananas at 0.5 part per million (ppm), of which no more than 0.05 ppm of combined residues shall be present in the edible pulp of banana fruit. No comments were received in response to this notice of proposed rulemaking. As provided in the Administrative Procedure Act (5 U.S.C. 553(d)(3)), the comment period was shortened to less than 30 days because: (1) The notice of filing for this petition, published on April 18, 1978 (43 FR 16400), invited the submission of written comments on the proposed tolerance, and (2) there is an epidemic of banana leaf spot disease (Black Sigatoka) in Honduras against which chlorothalonil is effective.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.275 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before June 26, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington D.C. 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on May 19, 1978, part 180, subpart C, § 180.275 is amended by alphabetically inserting a tolerance in the table on bananas at 0.5 ppm as set forth below.

(Sec. 408(d) Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)).)

Dated: May 19, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

Part 180, subpart C, § 180.275 is amended by alphabetically inserting in

the table a tolerance on bananas at 0.5 ppm to read as follows:

§ 180.275 Chlorothalonil; tolerance for residues.

Commodity:	Parts per million
Bananas (NMT 0.05 ppm in edible pulp)	0.5

[FR Doc 78-14720 Filed 5-25-78; 8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 26—PUBLIC ENTRY AND USE

Kenai National Moose Range, Alaska

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulations.

SUMMARY: These special regulations govern the use of aircraft, snowmobiles and watercraft on the Kenai National Moose Range in Alaska. The Director has determined that these regulations are consistent with the primary objectives for which the range was established, and will provide additional recreational opportunity to the public.

DATES: These regulations are effective from May 26, 1978 through May 31, 1979.

FOR FURTHER INFORMATION CONTACT:

James E. Frates, Refuge Manager, Kenai National Moose Range, P.O. Box 500, Kenai, Alaska 99611, 907-283-4877.

SUPPLEMENTARY INFORMATION: The primary author of this document is James E. Frates. Regulations and maps describing the designated areas are available at the Headquarters, Kenai National Moose Range, Kenai, Alaska.

§ 26.34 Special regulations concerning public access, use and recreation for individual national wildlife refuges.

ALASKA—KENAI NATIONAL MOOSE RANGE

(a) The landing and operation of aircraft in the Kenai National Moose Range, under other than emergency conditions, is prohibited except as authorized in the following areas: North of the Sterling Highway aircraft may land on lakes except those lakes with

recreational developments including campgrounds, camp sites, road waysides with connecting access trails, the canoe system lakes and lakes within the Moose Research Center inclosures including Coyote Lake. Furthermore, the Swan Lake Canoe Area including the several public recreational lakes bounded on the west by the Swanson River Road, bounded on the north by the Swan Lake Road, bounded on the east by the north-south section line immediately west of Arrow Lake (located at the eastern terminus of Swan Lake Road open to the public) and continuing south 5.8 miles to its intersection with the Moose River (one-half mile southwest of the eastern-most shore of Swan Lake), thence downstream the Moose River, and bounded on the south by the Moose Range boundary, is not designated aircraft landing area; south of the north shoreline of the Kenai River and Skilak Lake, aircraft may land on lakes and rivers except the following lakes not authorized for aircraft operations include: Benchland, Cirque, Crater, Emma, Horsetrail, Marmot Lakes, Newman's, Timberline, Trophy and Wolverine.

(1) The landing of aircraft on any road, glacier or ice field is prohibited.

(2) Hidden Lake, Swanson Lake, Gene Lake and Pepper Lake are designated aircraft landing areas in season, for the purpose of sport ice fishing only.

(3) Bottenintnin Lake is a designated aircraft landing area. (b) The operation of off-road vehicles commonly referred to as all-terrain vehicles (ATVs) is prohibited on the Kenai National Moose Range except the use of lightweight motorized vehicles commonly identified by the general term "snowmobile" are authorized on certain designated areas of the Moose Range and subject to the following special conditions:

(1) Only snowmobiles with an overall width less than 40 inches will be permitted.

(2) The use of snowmobiles may be authorized during the period December 1, 1978 through April 30, 1979, and only when the snow depth is sufficient to protect underlying vegetation and terrain along the route of travel and when determined and announced by the refuge manager.

(3) The use of snowmobiles is prohibited in those game management units of the Kenai National Moose Range during an established moose hunting season. The use of snowmobiles as an aid in big game hunting or for transporting big game animals, except fur animals, is not authorized.

(4) The use of snowmobiles on maintained roads within the Moose Range is prohibited, except that, a snowmobile may cross a maintained road only after stopping and when traffic on the roadway allows crossing safely.

(5) That area above timberline located between Skilak Lake and Tustumena Lake is not authorized for snowmobile use.

(6) The area within T 4 N, R 10 W, Section 5 and those portions of Sections 6 and 7 east of the Sterling Highway right-of-way, including the Soldotna Ski Hill, the cross-country ski trails, Headquarters Lake and Nordic Lake, is not a designated snowmobile area.

(7) The use of snowmobiles for racing purposes is prohibited.

(8) The Swanson River Canoe Route lakes and portages are closed to snowmobile use.

(9) An area including the Swan Lake Canoe Route and several road connected public recreational lakes is not a designated snowmobile area. That area closed to such use is bounded on the west by the Swanson River Road, bounded on the north by the Swan Lake Road, bounded on the east by the section line immediately west of Arrow Lake (which is located at the eastern terminus of Swan Lake Road open to the public) and proceeds south 5.8 miles to its intersection with the Moose River (one-half mile southeast of the eastern-most shore of Swan Lake), thence downstream along the west bank of Moose River, and bounded on the south by the Moose Range boundary.

(c) The use of motorized boats and canoes, other motorized watercraft, engines, including chain saws, auxiliary power units, etc., is prohibited within the Moose Range Canoe System, except that boats and canoes with outboard motors will be permitted on Moose River and Swanson River. The Canoe System includes those lakes and their related shore areas, waterways, tributaries and portages within the existing Swan Lake Canoe Route and Swanson River Canoe Route as described on maps available at Kenai Moose Range Headquarters.

(d) The use of airboats is authorized only on Skilak Lake, Tustumena Lake, the Kenai River and Kaslof River.

(e) The provisions of this special regulation supplement the regulations which govern public entry and use on national wildlife refuges which are set forth in Title 50, Code of Federal Regulations, Part 26.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: May 16, 1978.

JAMES E. FRATES,
Refuge Manager,
Kenai National Moose Range.

[FR Doc. 78-14727 Filed 5-25-78; 8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-02]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 916]

NECTARINES GROWN IN CALIFORNIA

Proposed Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal would continue through May 31, 1979, current minimum grade and size requirements applicable to fresh shipments of California nectarines. The proposal is designed to maintain orderly marketing conditions in the interest of producers and consumers.

DATE: Comments must be received on or before June 27, 1978.

ADDRESS: Send comments to: Hearing Clerk, USDA, Room 1077, South Building, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION. The proposed amendment was submitted by the Nectarine Administrative Committee, established pursuant to the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916) which regulates the handling of nectarines grown in California. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

This notice invites written comment relative to a proposed amendment that would continue Nectarine Regulation 10 (§ 916.352; 43 FR 20218) through May 31, 1979. Said regulation will expire on July 16, 1978, unless extended. The regulation prescribes that shipments of California nectarines grade U.S. No. 1 except that (1) a slightly smaller area of the surface of each fruit may be affected by fairly light colored, fairly smooth scars, and (2) an additional tolerance is provided for individual fruit not well formed but not badly misshapen. The regulation also prescribes minimum sizes for 47 named varieties. The proposal is designed to continue to provide markets with an ample supply of desirable size and quality nectarines consistent with the available supply in the interest of producers and consumers.

Data, views, or arguments for consideration in connection with this proposed amendment shall be filed, in duplicate, with the Hearing Clerk, United States Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250, not later than June 27, 1978. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Under the proposal, the provisions of Nectarine Regulation 10 (§ 916.352; 43 FR 20218) are revised to read as follows:

§ 916.352 Nectarine Regulation 10.

Order. (a) During the period July 16, 1978, through May 31, 1979, no handler shall handle:

(1) Any package or container of any variety of nectarines unless such nectarines grade at least U.S. No. 1. *Provided*, That nectarines 2 inches in diameter or smaller, shall not have fairly light colored, fairly smooth scars which exceed the aggregate area of a circle $\frac{1}{4}$ inch in diameter, and nectarines larger than 2 inches in diameter shall not have fairly light colored, fairly smooth scars which exceed an aggregate area of a circle $\frac{1}{4}$ inch in diameter: *Provided further*, That an additional tolerance of 25 percent shall be permitted for fruit that is not well formed but not badly misshapen.

(2) Any package or container of Mayred variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 112 nectarines in the lug box;

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (2) are of a size that a 16 pound sample, representative of the nectarines in the package or container, contains not more than 105 nectarines.

(3) Any package or container of Mayfair variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 108 nectarines in the lug box;

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (3) are of a size that a 16 pound

sample, representative of the nectarines in the package or container, contains not more than 102 nectarines.

(4) Any package or container of Crimson, Gold, June Belle, June Grand, May Grand, Red June, Spring Grand, Armking, Zee Gold, Apache, Spring Red, Red King, Early Sungrand, Independence, Moon Grand, Star Grand I, Star Grand II, Summer Grand, Sun Grand, Kent Grand, Early Star, Firebrite, or Red Diamond variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 96 nectarines in the lug box; or

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (4) are of a size that a 16 pound sample, representative of the nectarines in the package or container, contains not more than 90 nectarines.

(5) Any package or container of Autumn Grand, Clinton-Strawberry, Fantasia, Flamekist, Flavortop, Gold King, Granderli, Grand Prize, Harry Grand, Hi-Red, Late Le Grand, Le Grand, Niagara Grand, Red Grand, Regal Grand, Richards Grand, Royal Grand, September Grand, Fairlane, Red Free, Bob Grand, Tom Grand, or Kings Canyon variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 88 nectarines in the lug box; or

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (5) are of a size that a 16 pound sample, representative of the nectarines in the package or container, contains not more than 78 nectarines.

(b) As used herein, "U.S. No. 1" and "standard pack" mean the same as defined in the United States Standards for Grades of Nectarines (7 CFR 51.3145-51.3160); No. 22D standard lug box" means the same as defined in section 1387.11 of the "Regulations of the California Department of Food and Agriculture", and all other terms mean the same as defined in the marketing order.

Dated: May 23, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-14798 Filed 5-25-78; 8:45 am]

[3410-02]

[7 CFR Part 989]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Proposed Increase in Payment Rate for Handler Services on Reserve Tonnage Raisins

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice of proposed rulemaking invites written comments on increasing the rates of payment to handlers for receiving, storing, fumigating, and handling reserve tonnage raisins during and beyond the crop year of acquisition. The increased rates would be applicable to reserve raisins of the current (1977-78) and subsequent crop years. The increased rates of payment were proposed by the Raisin Administrative Committee to compensate handlers for increased plant and administrative overhead, labor, material and equipment, and other related costs involved in providing these services. The Committee is the agency established under the order to administer its terms and conditions.

DATES: Comments must be received on or before June 15, 1978.

ADDRESSES: Send two copies of comments to the hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250, where they will be available for inspection during business hours (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: This proposed action would increase the rates of payment made to handlers for: (1) Receiving, storing, fumigating, and handling reserve tonnage raisins during the crop year of acquisition from \$17 to \$24 per ton; and (2) holding reserve tonnage raisins beyond the crop year of acquisition from 85 cents to \$1.20 per ton for each month of the three-month period ending November 30, and from 42.5 cents to 60 cents per ton for each month of the next nine months. The current rates have been effective since the 1975-76 crop year and since that time handler costs for all these services have increased significantly.

To make the proposed rate increases it is necessary to amend § 989.401(a)(1)

and (b) of Subpart—Schedule of Payments (7 CFR 989.401; 42 FR 52374; 57683). This action would be taken under § 989.66(f) of the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989; 42 FR 37200), regulating the handling of raisins produced from grapes grown in California (hereinafter referred to collectively as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposal is to amend § 989.401 (a)(1) and (b) as follows:

§ 989.401 Payments for services performed with respect to reserve tonnage raisins.

(a) *Payment for crop year of acquisition—(1) Receiving, storing, fumigating, and handling.* Each handler shall, beginning with the crop year which began August 1, 1977, be compensated at the rate of \$24 per ton (natural condition weight at the time of acquisition) for receiving, storing, fumigating, and handling the reserve tonnage raisins, as determined by the final reserve tonnage percentages, acquired during a particular crop year and held by him for the account of the Raisin Administrative Committee during all or any part of the same crop year.

(b) *additional payment for reserve tonnage raisins held beyond the crop year of acquisition.* Additional payment for reserve tonnage raisins held beyond the crop year of acquisition shall be made in accordance with this paragraph. Each handler holding such raisins for the account of the Committee on August 15 and the following September 1 shall be compensated for storing, handling, and fumigating such raisins at the rate of \$1.20 per ton per month, or any part thereof, for each month of the three-month period ending November 30, and 60 cents per ton per month, or any part thereof, for each month of the next nine months. Such services shall be completed so that the Committee is assured that the raisins are maintained in good condition.

Dated: May 23, 1978.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.
[FR Doc. 78-14797 Filed 5-25-78; 8:45 am]

[3410-05]

Commodity Credit Corporation

[7 CFR Part 1464]

TOBACCO LOAN PROGRAM

Proposed 1978 Crop Grade Loan Rates—Flue-Cured Tobacco

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Commodity Credit Corporation (USDA), is considering the grade loan rates to be applied to the various grades of 1978-crop flue-cured tobacco to provide price support as required by the Agricultural Act of 1949, as amended. This document invites all interested parties to submit views and recommendations with respect to the proposed rates.

DATES: Written comments must be received by June 26, 1978, in order to be sure of consideration.

ADDRESS: Send comments to Director, Price Support and Loan Division, ASCS, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

R. P. Hieronymus, 202-447-6695.

SUPPLEMENTARY INFORMATION: Section 106 of the Agricultural Act of 1949, as amended, requires that the 1978 crop of flue-cured tobacco be supported at the level of 121.0 cents per pound. It is anticipated that price support will be provided through a loan to a producers association which will receive the tobacco from the producers and make price support advances to the producers for the tobacco received. The price support advances will be based on the proposed grade loan rates, which will average the required level of support when weighted by the anticipated grade percentages, in accordance with section 403 of the Act. The price support advances to producers shall be the amounts determined by multiplying the pounds of each grade received by the respective grade loan rate less 1 cent per pound, which the producers' association is authorized to deduct and to apply against overhead costs.

PROPOSED RULE

Under the Tobacco Loan Program published in this part and section 403 of the Act, Commodity Credit Corporation proposes to establish loan rates by grades for 1978-crop flue-cured tobacco, types 11-14, as set forth herein. These proposed rates calculated to provide the level of support of 121.0 cents per pound as determined under section 106 of the Agricultural Act of 1949 (7 U.S.C. 1445) are set forth below. Accordingly, it is proposed that

7 CFR Part 1464 be amended by revising § 1464.16 to read as follows effective for the 1978 crop of flue-cured tobacco, types 11-14.

§ 1464.16 1978 crop flue-cured tobacco, types 11-14, loan schedule.¹

(Dollars per hundred pound, farm sales weight)

¹The loan rates listed are applicable to tied and untied flue-cured tobacco which is (1) eligible tobacco as defined in the regulations and (2) identified by a marketing card which does not bear the notation "Discount Variety-Limited Support." Rates for eligible tobacco identified by a marketing card, which bears the notation "Discount Variety-Limited Support," are 50 percent of the loan rates listed plus fifty cents (\$0.50) per hundred pounds. Any grade to which the special factor "sand" or "dirt" is added (denoting a moderate amount of sand or dirt in excess of normal) may be accepted at 90 percent, rounded to the nearest dollar, of the loan rate listed. Tobacco graded "W" (doubtful keeping order), "U" (unsound), "N2", "No-G", "No-G-F", "No G-F-sand", "No G-F-dirt", or "scrap" will not be accepted. Tobacco is eligible for advance only if consigned by the original producer. The cooperative association through which advances are made available is authorized to deduct 1 cent per pound to apply against overhead costs.

Prior to making any determination, the Department will give consideration to comments, views, and recommendations submitted in writing to the Director, Price Support and Loan Division.

All written submission will be made available for public inspection from 8:15 a.m. to 4:45 p.m. Monday through Friday in Room 3741, South Building, USDA, 14th and Independence Avenue SW., Washington, D.C. 20013.

NOTE.—Commodity Credit Corporation has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as extended by 11949, and OMB Circular A-107.

NOTE.—Based on an assessment of the environmental impacts of the proposed action, it has also been determined that an environmental impact statement need not be prepared since the proposals will have no significant effect on the quality of the human environment.

Signed at Washington, D.C., on May 19, 1978.

STEWART N. SMITH,
Acting Executive Vice President,
Commodity Credit Corporation.

Food and Drug Administration

[21 CFR Part 136]

[Docket No. 75P-0361]

BAKERY PRODUCTS

Amendment of Standards of Identity

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the standard of identity for

bread, rolls, and buns by removing the limit on the use of mono- and diglycerides of fat-forming fatty acids, diacetyl tartaric acid esters of mono- and diglycerides of fat-forming fatty acids, propylene glycol mono- and diesters of fat-forming fatty acids, and other ingredients that perform a similar function. The Commissioner of Food and Drugs has determined that it is appropriate to remove these limitations from the standard because technical considerations make it unlikely that excessive amounts of these ingredients would be used.

DATES: Comments by July 25, 1978. It is proposed that the regulation based on this proposal become effective 31 days after publication of the final order in the FEDERAL REGISTER.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Harold Salwin, Bureau of Foods (HFF-416), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-245-8531.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of February 12, 1978 (41 FR 6242), the Commissioner of Food and Drugs revised the standards of identity for bakery products in Part 136 (21 CFR Part 136, formerly 21 CFR Part 17 prior to the recodification published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302). In response to written objections and requests for a hearing, a notice identifying certain provisions that were stayed pending consideration whether a hearing is necessary was published in the FEDERAL REGISTER of October 15, 1976 (41 FR 45540). As indicated elsewhere in this issue of the FEDERAL REGISTER, the Commissioner has now determined that it is necessary to conduct a hearing to resolve four issues. The Commissioner has determined that the fifth issue, relating to the optional use of mono- and diglycerides of fat-forming fatty acids and of certain other ingredients that perform a similar function, can be resolved without a hearing by amending the regulation.

The standards of identity for bakery products provide for the optional use in bread of mono- and diglycerides and of fat-forming fatty acids, diacetyl tartaric acid esters of mono- and diglycerides of fat-forming fatty acids, and propylene glycol mono- and diesters of fat-forming fatty acids. These ingredients are frequently used in breadmaking as antistaling agents, their function being generally regarded as delaying the firming of bread.

The current standard limits the total weight of these ingredients to not more than 20 percent of the combined weight of the ingredients and the shortening. The standard also limits the amount of monoglycerides, diacetyl tartaric acid ester of monoglyceride, and propylene glycol monoester that may be used in bread.

Section 136.110(c)(5)(ii) (21 CFR 136.110(c)(5)(ii)) of the final regulation, now stayed, limited the total quantity of these ingredients, whether used alone or in combination, to not more than 0.5 part for each 100 parts by weight of flour used. This 0.5 percent limit is more liberal than the current limit when the shortening content is less than 2 percent and is more restrictive when the shortening content exceeds 2 percent.

Objections to § 136.110(c)(5)(ii) were confined to the 0.5 percent limit as applied to mono- and diglycerides of fat-forming fatty acids. Grounds for the objections were that the limit unnecessarily restricts the flexibility of the baker, that the limit is lower than the amount permitted under the current standard, and that the limit is lower than the amounts actually being used by many manufacturers of bakery products. (The Commissioner notes that the comparison with the current standard is correct only for bakery products which contain more than 2 parts of shortening for each 100 parts by weight of flour used.) One objection to the 0.5 percent limit suggested that either the limit should be one part for each 100 parts of flour, or that it should be determined on the basis of the alpha-monoglyceride present rather than on the basis of the total mono- and diglycerides, in which case it would be 0.5 part, or possibly 0.56 part, per 100 parts of flour. A second objection stated that the limit should be removed completely or that, if any limitation is to be imposed, it should be based on flour weight and tied to alpha-monoglyceride level only. One comment recommended that the limit be no more than necessary to accomplish the intended effect. Other comments recommended that the limit be 0.75 part for each 100 parts by weight of flour.

The Food and Drug Administration received a letter, dated March 31, 1977, from the American Bakers Association and ICI United States, Inc., supplementing their previously expressed views concerning the level of mono- and diglycerides permitted in standardized bakery foods. The letter (on file with the Hearing Clerk, Food and Drug Administration), which in effect constitutes a request for reconsideration, recommended changes in the limits on the diacetyl tartaric acid esters and propylene glycol esters as well as the limits on mono- and diglycerides of fat-forming fatty acids. The

first recommendation, identified as the preferred approach, was that limits on all such ingredients be removed. As an alternative, the letter recommended that the present § 136.110(c)(5)(ii) be amended to read as follows:

Mono- and diglycerides of fat-forming fatty acids, diacetyl tartaric acid esters of mono- and diglycerides of fat-forming fatty acids, propylene glycol mono- and diesters of fat-forming fatty acids complying with the provisions of Part 172 of this chapter (formerly Part 121), or a combination of two or more of these. The total quantity of these ingredients, whether used alone or in combination, does not exceed the greater of: (a) 0.75 part for each 100 parts by weight of flour used, with the weight of the mono- and diglycerides used computed on the basis of alpha mono-glyceride content only; or (b) 20 percent by weight of the combination of such ingredients and the shortening, and the total amount of monoglyceride, diacetyl tartaric acid ester of monoglyceride, and propylene glycol monoester does not exceed 8 percent by weight of the combination; but if purified or concentrated monoglyceride alone is used, amount does not exceed 10 percent by weight of the combination.

(Underscoring indicates changes from stayed § 136.110(c)(5)(ii); (b) reproduces, without change, the language of the currently effective limit.)

If the alternative recommendation were adopted, its only effect would be to permit the use of greater amounts of the ingredients in low-shortening breads than current regulations permit.

Section 136.110(b) currently requires that all ingredients used in bread be safe and suitable. A safe and suitable ingredient is defined in § 130.3(d) (21 CFR 130.3(d)), as (1) one that performs an appropriate function in the food in which it is used; (2) one that is used at a level no higher than necessary to achieve its intended purpose; and (3) in the case of a food additive, one that is used in conformity with regulations established under section 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348). The applicable regulations for the ingredients identified in the foregoing paragraphs are §§ 172.856, 182.4101, and 182.4505 (21 CFR 172.856, 182.4101, and 182.4505). Use levels for these ingredients and others which have a similar function will be established in the food additive regulations as part of the cyclic review of food additives now in progress, and their use in bread will be subject to the limits that are adopted.

The Commissioner previously believed that the 0.5 percent limit would be adequate because of the trend in commercial breadmaking to reduce the shortening content. Information now available, however, demonstrates that: (1) The average amount of shortening being used, based on weight of flour, is 3 percent in bread and 5 percent in buns, with levels sometimes as

high as 8 percent in rolls; (2) the levels of mono- and diglyceride mixtures being used frequently exceed 0.5 part per 100 parts of flour; and (3) excessive use in bread of mono- and diglycerides is unlikely, because excessive quantities adversely affect the shape and texture of bread loaves.

After reconsidering the issue, the Commissioner agrees that it is appropriate to remove the limits from the standard of identity and proposes to do so by amending § 136.110(c)(5)(ii) as set out below. The Commissioner also proposes to make minor editorial changes in § 136.110(c)(15) and (18).

The Commissioner has considered the environmental effects of the issuance or amendment of food standards and has concluded in § 25.1(d)(4) (21 CFR 25.1(d)(4)) that food standards are not major agency actions significantly affecting the quality of the human environment. Therefore, an environmental impact statement is not required for this proposal.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes that Part 136 be amended in § 136.110 by revising paragraphs (c)(5)(ii) and (c)(15) and (18), to read as follows:

PART 136—BAKERY PRODUCTS

§ 136.110 Bread, rolls, and buns.

(c) * * *

(5) * * *

(ii) Mono- and diglycerides of fat-forming fatty acids, diacetyl tartaric acid esters of mono- and diglycerides of fat-forming fatty acids, propylene glycol mono- and diesters of fat-forming fatty acids, and other ingredients that perform a similar function.

(15) Dough strengtheners and other dough conditioners not listed or referred to in this paragraph, if the total quantities of such ingredients or combination is not more than 0.5 part for each 100 parts by weight of flour used.

(18) Other ingredients that do not change the basic identity or adversely affect the physical and nutritional characteristics of the food.

Interested persons may, on or before July 25, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal.

Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

NOTE.—The Food Drug Administration has determined that this proposal will not have a major economic impact as defined by Executive Order 11821 (amended by Executive Order 11949) and OMB Circular A-107. A copy of the economic impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Dated: May 22, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Regulatory Affairs.

[Docket No. 77N-0069]

GRISEOFULVIN GAS LIQUID CHROMATOGRAPHY

Method for Griseofulvin Content

AGENCY: Food and Drug Administration.

ACTION: Proposal.

SUMMARY: This proposal would amend the antibiotic drug regulations to provide for an improved method for determining the griseofulvin content of antibiotic drug products containing griseofulvin. The new method, gas liquid chromatography, replaces two existing methods—the spectrophotometric assay and the microbiological agar diffusion assay. This proposal is issued in response to a request by a manufacturer to adopt the new method.

DATE: Comments by July 25, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Joan Eckert, Bureau of Drugs (HFD-140), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4290.

SUPPLEMENTARY INFORMATION: The Commissioner of Food and Drugs has evaluated a request submitted in accordance with the antibiotic drug regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357) as amended, that a newly developed gas liquid chromatography method be adopted as the method specified in the regulations for content determination of the antibiotic drug griseofulvin.

As reported in the Journal of Pharmaceutical Sciences, 64(6):1020-1022, June 1975, a collaborative study involving 19 laboratories was conducted to validate this new method. The overall recovery from three samples tested was 99.52±2.33 percent.

The Commissioner finds that the gas liquid chromatography method is more accurate and reliable than the microbiological agar diffusion assay and the spectrophotometric assay methods currently in the regulation. Therefore, he proposes that the gas liquid chromatography method replace the other two methods in the regulation. He also proposes to add an upper potency limit of 1,050 micrograms of griseofulvin per milligram to the monograph for griseofulvin bulk drug. This is consistent with the agency's practice in recent years of establishing upper potency limits for all antibiotic bulk drugs as an added measure of quality assurance.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357)) and under authority delegated to him (21 CFR 5.1), the Commissioner of Food and Drugs proposes to amend Parts 436 and 449 as follows:

1. Part 436 is amended by adding new § 436.321 to read as follows:

§ 436.321 Griseofulvin gas liquid chromatography.

(a) *Equipment.* Gas chromatograph equipped with an electronic integrator and with a flame ionization detector: Hewlett Packard 7600 or equivalent.

(b) *Reagents.* (1) Chloroform, reagent grade.

(2) Internal standard solution: Prepare a solution containing 1.0 milligram of tetraphenylcyclopentadienone per milliliter in chloroform.

(c) *Typical conditions.*—(1) *Column.* 1.2 meters by 4 millimeters ID, glass, packed with 1 percent OV-17 on Gas Chrom Q (100/120 mesh), or equivalent.

(2) *Temperatures.* Column 245° C; detector 260° C; injection port 260° C.

(3) *Carrier gas.* Helium approximately 60 millimeters per minute and 40 pounds per square inch (1.7 kilograms per square centimeter).

(4) *Detector.* Hydrogen flame ionization-hydrogen at 12 pounds per square inch (0.5 kilogram per square centimeter), air at 34 pounds per square inch (1.43 kilograms per square centimeter).

(5) *Sensitivity.* Adjusted to obtain peak heights greater than 50 percent full scale deflection.

(d) *Preparation of griseofulvin sample and working standard solutions.* Accurately weigh approximately 40 milligrams of both the sample and the working standard into separate 25-milliliter volumetric flasks. Add sufficient internal standard solution to dissolve the contents of each flask with vigorous mixing and then dilute to volume with internal standard solution and mix. Proceed as directed in paragraph (e) of this section.

(e) *Procedure.* Inject 1.0 microliter of this solution into the gas chromatograph. Use the typical conditions and materials listed in paragraphs (a), (b), and (c) of this section. The resolution of the peaks should be complete. The griseofulvin peak will elute before the internal standard peak. Calculate the griseofulvin content as directed in paragraph (f) of this section.

(f) *Calculations.* Calculate the griseofulvin content of the sample as follows:

$$\text{Micrograms of griseofulvin per milligram} = \frac{\left(\frac{R_u}{R_s}\right) \left(\frac{W_s}{W_u}\right) (f)}{\left(\frac{R_s}{R_u}\right) \left(\frac{W_u}{W_s}\right)}$$

where:

$$\frac{R_u}{R_s} = \frac{\text{Area of the griseofulvin sample peak (at a retention time equal to that observed for the griseofulvin standard)}}{\text{Area of the internal standard peak}}$$

$$\frac{R_s}{R_u} = \frac{\text{Area of the griseofulvin working standard peak}}{\text{Area of the internal standard peak}}$$

$$\frac{W_s}{W_u} = \frac{\text{Weight of the griseofulvin working standard in milligrams}}{\text{Weight of the sample in milligrams}}$$

$$f = \frac{\text{Potency of the griseofulvin working standard in micrograms per milligram}}{\text{Potency of the griseofulvin working standard in micrograms per milligram}}$$

2. Part 449 is amended as follows:

a. In § 449.20, paragraphs (a)(1)(i), (a)(3)(i), (b)(1), and (b)(6) are revised to read as follows:

§ 449.20 Griseofulvin.

(a) * * *

(1) * * *

(i) Its griseofulvin content is not less than 900 micrograms and not more than 1,050 micrograms of griseofulvin per milligram.

(3) * * *

(i) Results of tests and assays on the batch for griseofulvin content, safety, loss on drying, melting point, specific rotation, identity, residue on ignition, heavy metals, specific surface area, and crystallinity.

(b) *Tests and methods of assay.*—(1) *Griseofulvin content (gas liquid chromatography).* Proceed as directed in § 436.321 of this chapter.

(6) *Identity.* Dissolve an accurately weighed portion of the sample and of the griseofulvin working standard and dissolve each in sufficient methyl alcohol to obtain a concentration of 10 micrograms of griseofulvin per milliliter and mix well. (The standard solution can be kept under refrigeration and used for up to 1 month.) Record the ultraviolet absorption spectrum of solutions of the sample and standard from 240 to 320 nanometers. The spectral curves shall be similar, and each shall have a maximum at 292±2 nanometers and a minimum at 269±2 nanometers.

b. In § 449.120a, paragraphs (a)(1), (a)(3)(i)(a) and (b), and (b)(1) are revised to read as follows:

§ 449.120a Griseofulvin tablets.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.* Griseofulvin tablets are tablets composed of griseofulvin, with or without one or more suitable fillers, colorings, lubricants, and binders. Each tablet contains 125, 250,

or 500 milligrams of griseofulvin. The griseofulvin content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of griseofulvin that it is represented to contain. The loss on drying is not more than 5.0 percent. The tablets shall disintegrate within 1 hour. The griseofulvin used conforms to the standards prescribed by § 449.20(a)(1).

(3) * * *

(1) * * *

(a) The griseofulvin used in making the batch for griseofulvin content, safety, loss on drying, melting point, specific rotation, identity, residue on

$$\text{Milligrams of griseofulvin per tablet} = \frac{\left(\frac{R_u}{R_s}\right) \left(\frac{W_s}{W_u}\right) (f) \left(\frac{W_u}{W_s}\right) (V)}{\left(\frac{R_s}{R_u}\right) \left(\frac{W_u}{W_s}\right) (1,000) (50)}$$

where:

$$\frac{R_u}{R_s} = \frac{\text{Area of the griseofulvin sample peak (at a retention time equal to that observed for the griseofulvin standard)}}{\text{Area of the internal standard peak}}$$

$$\frac{R_s}{R_u} = \frac{\text{Area of the griseofulvin working standard peak}}{\text{Area of the internal standard peak}}$$

$$f = \frac{\text{Potency of the griseofulvin working standard in micrograms per milligram}}{\text{Potency of the griseofulvin working standard in micrograms per milligram}}$$

$$\frac{W_s}{W_u} = \frac{\text{Average tablet weight in milligrams}}{\text{Average tablet weight in milligrams}}$$

c. In § 449.120b, paragraphs (a)(1), (a)(3)(i)(a) and (b), and (b)(1) are revised to read as follows:

§ 449.120b Griseofulvin capsules.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.* Griseofulvin capsules are gelatin capsules containing griseofulvin with a suitable filler and binder, with or without a suitable lubricant. Each capsule contains 125 or 250 milligrams of griseofulvin. The griseofulvin content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of griseofulvin that it is

ignition, heavy metals, specific surface area, and crystallinity.

(b) The batch for griseofulvin content, loss on drying, and disintegration time.

(b) *Tests and methods of assay.*—(1) *Griseofulvin content (gas liquid chromatography).* Proceed as directed in § 436.321 of this chapter, except:

(i) Prepare the sample solution as follows: Accurately weigh 20 tablets and determine the average tablet weight. Grind the tablets to a fine powder in a mortar and transfer an accurately weighed sample to a volumetric flask of such size that for each 50 milliliters of volume there 40 milligrams of griseofulvin (estimated). Add chloroform to about one-fourth volume of the flask. Swirl the flask and apply gentle heat to aid in dissolution of the griseofulvin. Allow the mixture to cool and then dilute to volume with chloroform and mix. Allow to settle and transfer 2.0 milliliters of the supernate to a conical centrifuge tube and evaporate to dryness under a current of dry air. Add 1.0 milliliter of the internal standard solution to the centrifuge tube and mix vigorously to obtain a uniform solution; and, (ii) Calculate the milligrams of griseofulvin per tablet as follows:

$$\text{Milligrams of griseofulvin per tablet} = \frac{\left(\frac{R_u}{R_s}\right) \left(\frac{W_s}{W_u}\right) (f) \left(\frac{W_u}{W_s}\right) (V)}{\left(\frac{R_s}{R_u}\right) \left(\frac{W_u}{W_s}\right) (1,000) (50)}$$

represented to contain. The loss on drying is not more than 1.0 percent. The griseofulvin used conforms to the standards prescribed by § 449.20(a)(1).

(3) * * *

(1) * * *

(a) The griseofulvin used in making the batch for griseofulvin content, safety, loss on drying, melting point, specific rotation, identity, residue on ignition, heavy metals, specific surface area, and crystallinity.

(b) The batch for griseofulvin content and loss on drying.

$\frac{W_s}{s}$ = Weight of the griseofulvin working standard in milligrams;

$\frac{W_u}{u}$ = Weight of the ground tablet powder sample in milligrams;

$\frac{V}{u}$ = Volume of the dissolved ground tablet powder sample in milliliters.

(b) *Tests and methods of assay*—(1) *Griseofulvin content (gas liquid chromatography)*. Proceed as directed in § 436.321 of this chapter, except:

(i) Prepare the sample solution as follows: Empty the contents of 20 capsules into a tared weighing bottle. Weigh the powder and calculate the average capsule weight. Mix the powder and transfer an accurately weighed sample to a volumetric flask of such size that for each 50 milliliters of volume there are 40 milligrams of griseofulvin (estimated). Add chloro-

form to about one-fourth volume of the flask. Swirl the flask and apply gentle heat to aid in dissolution of the griseofulvin. Allow the mixture to cool and then dilute to volume with chloroform and mix. Allow to settle and transfer 2.0 milliliters of the supernate to a conical centrifuge tube and evaporate to dryness under a current of dry air. Add 1.0 milliliter of the internal standard solution to the centrifuge tube and mix vigorously to obtain a uniform solution; and,

(ii) Calculate the milligrams of griseofulvin per capsule as follows:

$$\text{Milligrams of griseofulvin per capsule} = \frac{\left(\frac{R_u}{s}\right) \left(\frac{W_s}{s}\right) (f) \left(\frac{W_a}{a}\right) \left(\frac{V}{u}\right)}{\left(\frac{R_s}{s}\right) \left(\frac{W_u}{u}\right) (1,000) (50)}$$

where:

$\frac{R_u}{u}$ = $\frac{\text{Area of the griseofulvin sample peak (at a retention time equal to that observed for the griseofulvin standard)}}{\text{Area of the internal standard peak}}$;

$\frac{R_s}{s}$ = $\frac{\text{Area of the griseofulvin working standard peak}}{\text{Area of the internal standard peak}}$;

$\frac{W_s}{s}$ = Weight of the griseofulvin working standard in milligrams;

f = Potency of the griseofulvin working standard in micrograms per milligram;

$\frac{W_a}{a}$ = Average capsule fill weight in milligrams;

$\frac{W_u}{u}$ = Weight of the capsule powder sample in milligrams;

$\frac{V}{u}$ = Volume of the dissolved capsule powder sample in milliliters.

d. In § 449.120c, paragraphs (a)(1), (a)(3)(i) (a) and (b), and (b)(1) are revised to read as follows:

§ 449.120c Griseofulvin oral suspension.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity*. Griseofulvin oral suspension is griseofulvin oral suspension with one or more suitable flavorings, colorings, wetting agents, preservatives, and diluents in an aqueous vehicle. Each milliliter contains 25 milligrams of griseofulvin. Its griseofulvin content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of griseofulvin that it is represented to contain. Its pH is not less than 6.5 and not more than 7.5. The griseofulvin used conforms to the standards prescribed by § 449.20(a)(1).

(3) . . .
(1) . . .

(a) The griseofulvin used in making the batch for griseofulvin content, safety, loss on drying, melting point, specific rotation, identity, residue on ignition, heavy metals, specific surface area, and crystallinity.

(b) The batch for griseofulvin content and pH.

(b) *Tests and methods of assay*—(1) *Griseofulvin content (gas liquid chromatography)*. Proceed as directed in § 436.321 of this chapter, except:

(i) Prepare the sample solution as follows: Transfer an accurately measured portion of the oral suspension equivalent to 100 milligrams of griseofulvin into a 50-milliliter round-bottomed glass-stoppered centrifuge tube. Add 5 milliliters of water and 20 milliliters of a solvent mixture of ethyl acetate and chloroform (85:15). Shake the tube for 1 minute and centrifuge it briefly to separate the layers. Transfer most of the upper layer to a 100-milliliter volumetric flask being careful not to remove any of the lower aqueous layer. Repeat the extraction step with two additional 20-milliliter portions of the solvent mixture combining the extracts in the volumetric flask with the first 20-milliliter extract. Dilute to volume with the solvent mixture and

mix. Place 2.0 milliliters of this solution in a conical centrifuge tube and evaporate the contents to dryness on a steam bath under a current of dry air. Add 1.0 milliliter of the internal stand-

ard solution to the centrifuge tube and mix vigorously to obtain a uniform solution; and,

(ii) Calculate the milligrams of griseofulvin per milliliter as follows:

$$\text{Milligrams of griseofulvin per milliliter} = \frac{\left(\frac{R_u}{u}\right) \left(\frac{W_s}{s}\right) (f) (2)}{\left(\frac{R_s}{s}\right) (1,000) \left(\frac{V}{u}\right)}$$

where:

$\frac{R_u}{u}$ = $\frac{\text{Area of the griseofulvin sample peak (at a retention time equal to that observed for the griseofulvin standard)}}{\text{Area of the internal standard peak}}$;

$\frac{R_s}{s}$ = $\frac{\text{Area of the griseofulvin working standard peak}}{\text{Area of the internal standard peak}}$;

$\frac{W_s}{s}$ = Weight of the griseofulvin working standard in milligrams;

f = Potency of the griseofulvin working standard in micrograms per milligram;

$\frac{V}{u}$ = Volume of oral suspension taken in milliliters.

e. In § 449.120d, paragraphs (a)(1), (a)(3)(i)(a) and (b), and (b)(1) are revised to read as follows:

§ 449.120d Griseofulvin (ultramicrosize) tablets.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality and purity*. Griseofulvin (ultramicrosize) tablets are composed of ultramicrosize crystals of griseofulvin dispersed in polyethylene glycol 6,000. Each tablet contains 125 milligrams of griseofulvin. The griseofulvin content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of griseofulvin that it is represented to contain. The loss on drying is not more than 5.0 percent. It passes the solubility characteristic test. The griseofulvin used conforms to the standards prescribed by § 449.20(a)(1).

(3) . . .
(1) . . .

(a) The griseofulvin used in making the batch for griseofulvin content, safety, loss on drying, melting point, specific rotation, identity, residue on ignition, heavy metals, specific surface area, and crystallinity.

(b) The batch for griseofulvin content, loss on drying, and solubility characteristic.

$$\text{Milligrams of griseofulvin per tablet} = \frac{\left(\frac{R_u}{u}\right) \left(\frac{W_s}{s}\right) (f) \left(\frac{W_a}{a}\right) \left(\frac{V}{u}\right)}{\left(\frac{R_s}{s}\right) \left(\frac{W_u}{u}\right) (1,000) (50)}$$

where:

$\frac{R_u}{u}$ = $\frac{\text{Area of the griseofulvin sample peak (at a retention time equal to that observed for the griseofulvin standard)}}{\text{Area of the internal standard peak}}$;

$\frac{R_s}{s}$ = $\frac{\text{Area of the griseofulvin working standard peak}}{\text{Area of the internal standard peak}}$;

$\frac{W_s}{s}$ = Weight of the griseofulvin working standard in milligrams;

f = Potency of the griseofulvin working standard in micrograms per milligram;

$\frac{W_a}{a}$ = Average tablet weight in milligrams;

$\frac{W_u}{u}$ = Weight of the ground tablet powder sample in milligrams;

$\frac{V}{u}$ = Volume of the dissolved ground tablet powder sample in milliliters.

(b) *Tests and methods of assay*—(1) *Griseofulvin content (gas liquid chromatography)*. Proceed as directed in § 436.321 of this chapter, except:

(i) Prepare the same solution as follows: Accurately weight 20 tablets and determine the average tablet weight. Grind the tablets to a fine powder in a mortar and transfer an accurately weighed sample to a volumetric flask of such size that for each 50 milliliters of volume there are 40 milligrams of griseofulvin (estimated). Add chloroform to about one-fourth volume of the flask. Swirl the flask and apply gentle heat to aid in dissolution of the griseofulvin. Allow the mixture to cool and then dilute to volume with chloroform. Mix and allow to settle. Using gentle vacuum, remove and discard the waxy substance that forms on the top of the chloroform. Transfer 2.0 milliliters of the chloroform solution to a conical centrifuge tube and evaporate to dryness under a current of dry air. Add 1.0 milliliter of the internal standard solution to the centrifuge tube and mix vigorously to obtain a uniform solution; and,

(ii) Calculate the milligrams of griseofulvin per tablet as follows:

Interested persons may, on or before July 25, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments (preferably four copies identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the Hearing Clerk's office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

NOTE—The Food and Drug Administration has determined that this proposal will not have a major economic impact as defined by Executive Order 11821 (amended by Executive Order 11949) and OMB Circular A-107. A copy of the economic impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Dated: May 16, 1978.

MARY A. McENIRY,
Assistant Director for
Regulatory Affairs, Bureau of Drugs.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

[LR-185-74]

DEFINED BENEFIT PLANS FOR SELF-EMPLOYED INDIVIDUALS AND SHAREHOLDER-EMPLOYEES

Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to defined benefit plans for self-employed individuals and shareholder-employees. Changes in the applicable tax law were made by the Employee Retirement Income Security Act of 1974. The regulations would provide the public with the guidance needed to comply with that Act and would affect sole proprietorships, partnerships, and "Subchapter S" corporations which adopt or amend tax-qualified defined benefit plans.

DATES: Written comments and requests for a public hearing must be delivered or mailed by July 25, 1978. The amendments are proposed to be effective for taxable years beginning after December 31, 1975.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-185-74), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

Richard J. Wickersham of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3289) (not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 401(a)(18) and 401(j) of the Internal Revenue Code of 1954. Conforming amendments are also proposed under Code sections 404(e) and 1379. These amendments are proposed to conform the regulations to section 2001(d) of the Employee Retirement Income Security Act of 1974 (88 Stat. 953) and are to be issued under the authority contained in sections 401(j) and 7805 of the Internal Revenue Code of 1954 (88 Stat. 953, 68A Stat. 917; 26 U.S.C. 401(j) and 7805).

APPLICABILITY

Section 401(j) of the Code applies to defined benefit plans which benefit self-employed individuals, often referred to as "H.R. 10 plans" or "Keogh plans". The section is also applicable to defined benefit plans which benefit shareholder-employees of electing small business corporations ("Subchapter S corporations"). Section 401(j) of the Code prescribes limitations on the benefits which these plans may provide for such individuals. These limitations are qualification requirements which must be satisfied by plans to maintain their tax-qualified status.

EFFECTIVE DATES

Proposed § 1.401(j)-6 provides the effective dates for the proposed regulations under section 401(j) of the Code. These rules apply to employers' taxable years beginning after December 31, 1975, and to any plan year beginning with or within these years. A transitional rule is provided so that plans can be amended after the final regulations are adopted to adjust benefits to conform to their requirements.

DETERMINATION LETTERS

The Internal Revenue Service has not been issuing any determination letters for newly established defined benefit plans and has been issuing determination letters, but without regard to Code section 401(j) aspects,

for old defined benefit plans of Subchapter S corporations. The Service has not been issuing any opinion or determination letters for defined benefit H.R. 10 plans (see IRS News Release IR-1714, dated December 14, 1976, and IRS Announcement 77-7, 1977-2 I.R.B. 25).

Taxpayers, pending the issuance of final regulations, may now rely on these proposed regulations to establish defined benefit plans subject to the requirements of section 401(j). Further, the Service will now issue opinion and determination letters, both for new plans and old Subchapter S corporation plans, on the basis of these proposed regulations. Taxpayers are cautioned however, that once the final regulations are issued under section 401(j), plans may be required to be retroactively amended to conform to the final regulations.

PLAN TYPES

This notice of proposed rulemaking provides rules for "career average pay" plans and for "final average pay" plans. Most of the proposed rules are equally applicable to both types of plans. Other proposed rules apply in a different manner, depending upon the type of defined benefit plan.

MAXIMUM BENEFIT FOR CAREER AVERAGE PLANS

Under a career average pay plan the benefit accruing for each plan year of an employee's participation cannot exceed a maximum basic benefit. Proposed § 1.401(j)-1(d) sets forth a rule for computing this maximum benefit. In general, the rule is based on two factors: (1) An employee's compensation, and (2) an applicable percentage determined for the year in which plan participation began. The rule is designed to allow a career average pay plan to provide a level of retirement benefits which is comparable to the level that could be provided under a qualified defined contribution plan.

MAXIMUM BENEFIT FOR FINAL AVERAGE PAY PLANS

Under a final average pay plan (defined in proposed § 1.401(j)-1(e)(5)) the benefit accruing for the years of an employee's participation cannot exceed a maximum basic amount. Proposed § 1.401(j)-5 sets forth rules for computing this maximum basic amount. In general, the rule is designed to allow a final average pay plan to provide, over a period of time, a level of retirement benefits which is comparable to the level which could be provided under a qualified career average plan.

PLAN AMENDMENTS

Proposed § 1.401(j)-3 provides detailed rules for a plan which is amended to change the rate of benefit accrual or compensation base. In general, a plan providing less than the maximum benefit may provide a higher aggregate benefit for an employee over a period of time if the plan, at establishment, provides a high rate of accrual and a low compensation base (rather than a low rate of accrual and a high compensation base) and is subsequently amended.

OTHER RULES

Proposed § 1.401(j)-1(g) provides rules to allow plans to take into account other benefits which are not basic benefits. In general, a basic benefit is a straight life annuity provided for solely by employer contributions which commences at age 65 under a plan providing no other form of benefit. Special rules are provided for employees who are covered by two or more qualified plans and for other circumstances.

FULLY INSURED PLANS

Proposed § 1.401(j)-2(e) provides a special rule for certain plans funded by insurance contracts. Such plans generally utilize actuarial assumptions for their guaranteed benefits which are more conservative than the assumptions used to compute the applicable percentages under the proposed regulations. Also the benefits actually payable under the contracts generally exceed the guaranteed benefits. Accordingly, the applicable percentages for these plans must be adjusted to reflect the assumptions used in the insurance contracts. This rule is proposed to insure that these plans will not provide benefits which are in excess of those provided by other types of qualified plans.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations was Richard J. Wickersham of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other of-

fices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

PROPOSED AMENDMENTS TO THE REGULATIONS

1. Paragraph (e) of § 1.404(e)-1A as set forth in paragraph 13 of the appendix to the notice of proposed rulemaking published in the FEDERAL REGISTER for April 15, 1975 (40 FR 17586) is withdrawn.

2. The proposed amendments to 26 CFR Part 1 are as follows:

PARAGRAPH 1. The following new section is added immediately before § 1.401(a)-19:

§ 1.401(a)-18 Special requirements for defined benefit plans providing benefits for self-employed individuals or shareholder-employees.

For special requirements which apply to a defined benefit plan which provides benefits for an employee who is either an employee within the meaning of section 401(c)(1) or a shareholder-employee within the meaning of section 1379(d), see §§ 1.401(j)-1 through 1.401(j)-6.

PAR. 2. The following new sections are added immediately after § 1.401(b)-1:

§ 1.401(j)-1 Certain defined benefit plans; general rules.

(a) *Application of section 401(a)(18) and (j).* Section 401(a)(18) and (j) and the regulations thereunder apply to a defined benefit plan which provides benefits for an employee who is either an employee within the meaning of section 401(c)(1) or a shareholder-employee of an electing small business (subchapter S) corporation within the meaning of section 1379(d). In the regulations under section 401(j), such an employee is referred to, respectively, as a "self-employed individual" or a "shareholder-employee". See § 1.401(j)-2(g) for a special deduction rule applicable to these plans.

(b) *Requirements; organization of regulations.* (1) *Requirements.* A defined benefit plan to which section 401(j) applies is not a qualified plan (and a trust forming part of such plan is not a qualified trust) unless the plan satisfies the applicable requirements of section 401(j) and the regulations thereunder (that is, §§ 1.401(j)-1 through 1.401(j)-6, inclusive).

2. *General rules; definitions, etc.* This section prescribes general rules under section 401(j) for plans other than final average pay plans. These plans are commonly referred to as "career average plans". This section also provides the definitions used in applying section 401(j) and §§ 1.401(j)-1 through 1.401(j)-6, including the definitions set forth in section

401(j)(5). In addition, this section provides the rules under section 401(j)(2) (relating to maximum basic benefit), section 401(j)(3)(A) (relating to applicable percentages), and under 401(j)(3)(B) (i), (ii), and (iv) (relating to certain adjustments to applicable percentages).

(3) *Other requirements and special rules.* Section 1.401(j)-2 provides rules under section 401(j)(1) (relating to certain plan aggregations) and under section 401(j)(4) (relating to a requirement that a plan covering owner-employees may not be integrated with social security, etc.). Section 1.401(j)-2 also provides rules relating to fully insured plans and to the nondiscrimination requirements.

(4) *Certain changes.* Section 1.401(j)-3 provides rules under section 401(j)(3)(B)(iii) relating to changes in the rate of benefit accrual and compensation base under a plan.

(5) *Subchapter S corporation.* Section 1.401(j)-4 provides a special rule for plans of an electing small business corporation.

(6) *Final average pay plan.* Section 1.401(j)-5 provides rules for applying the requirements of section 401(j) and § 1.401(j)-1 through 1.401(j)-4 to a final average pay plan.

(7) *Effective dates.* Section 1.401(j)-6 provides the effective dates for the application of section 401(j) to a plan and a special transitional rule.

(c) *General rule.* Section 401(j) imposes a limitation on the amount of the basic benefit, as defined in paragraph (e)(1) of this section, which may be accrued under a defined benefit plan for any plan year of participation, as defined in paragraph (e)(7) of this section, by any employee who is either a self-employed individual or a shareholder-employee. Thus, a plan to which this section applies is not a qualified plan (and a trust forming a part of such a plan is not a qualified trust) if the benefit accruing under the plan for any plan year of participation by such an employee exceeds the maximum basic benefit. Further, the plan is not qualified unless the plan contains provisions that preclude any such benefit accrual proscribed in the preceding sentence, irrespective of whether or not there is, in fact, an excess accrual for such an employee. For special benefit accrual rules which apply to a final average pay plan, see § 1.401(j)-5. Section 401(j) and this section do not, however, limit the benefit which may be accrued under a plan for any plan year of participation by an employee who, during that year is neither a self-employed individual nor a shareholder-employee, nor do they require a plan to provide accrued benefits in the form of a basic benefit. For other rules and requirements which must be satisfied, see paragraph (g) of this section, and § 1.401(j)-2 (f), (h), (i), and (j).

(d) **Maximum basic benefit.** For purposes of section 401(j), in the case of a plan other than a final average pay plan, the maximum basic benefit of a self-employed individual or a shareholder employee for a plan year equals—

(1) The employee's annual compensation not in excess of the compensation base for such year, as defined in paragraph (e)(6) of this section, multiplied by

(2) The statutory percentage as adjusted in this section for such year (the applicable percentage).

In no event may the maximum basic benefit of such an employee for a plan year exceed 6.5 percent of \$50,000, or \$3,250. For adjustments to the maximum basic benefit where the compensation base is in excess of \$50,000, see § 1.401(j)-3(b)(2). For special rules applicable to final average pay plans, see § 1.401(j)-5.

(e) **Definitions.** For purposes of section 401(j) and the regulations thereunder, the definitions in this paragraph apply.

(1) **Basic benefit.** The term "basic benefit" with respect to an employee means a benefit under a plan under the following conditions—

(i) The benefit is in the form of a straight life annuity,

(ii) The benefit commences at the later of age 65, or the day 5 years after the day the participant's current period of participation began,

(iii) The plan provides no ancillary benefits, and

(iv) The employee does not contribute to the plan.

(2) **Compensation.** The term "compensation" means—

(i) In the case of a self-employed individual, the earned income of the individual,

(ii) In the case of a shareholder-employee, the compensation received (or accrued in the case of an individual who computes income under the accrual method) by the individual from the electing small business corporation, or

(iii) In the case of any employee not included in subdivision (i) or (ii) for any relevant year, the compensation includible in the individual's gross income derived from the partnership or the electing small business corporation (see the change in status rules in paragraph (g)(6) of this section for application of this provision).

(3) **Defined benefit plan.** See section 414(j) for the definition of a defined benefit plan.

(4) **Defined contribution plan.** See section 414(i) for the definition of a defined contribution plan.

(5) **Final average pay plan.** A final average pay plan is a defined benefit plan accruing benefits based on the employee's compensation over a period less than the total period of the em-

ployee's participation in the plan. Thus, for example, a plan which provides that an employee's accrued benefit is based on compensation earned over the last five years would be a final average pay plan.

(6) **Compensation base.** The term "compensation base" means the highest level of annual compensation of the employee which may be taken into account for a plan year under the plan for determining benefits.

(7) **Plan year of participation.** The term "plan year of participation" means a plan year for which a participant accrues a benefit under the terms of the plan (determined only with respect to benefits provided by the plan and without regard to any plan provision not in effect in that plan year). Thus, for example, benefits provided under the Social Security Act or past service benefits for prior years are not included.

(8) **When plan participation begins.** An employee begins his plan participation at the beginning of the first plan year in which he participates under the plan. If the plan has a past service benefit, service for which such benefits are given is not considered as participation under the plan for purposes of this subparagraph.

(9) **Current period of participation.** The term "current period of participation" means any period of consecutive plan years of participation beginning with the first day of the first plan year of participation in the period and ending with the last day of the last consecutive plan year of participation in the period. The applicable current period of participation at any relevant date is determined by the applicable period of consecutive plan years within which the relevant date falls.

(f) **Rules relating to applicable percentages—(1) Statutory percentage; applicable percentage.** For purposes of section 401(j) and the regulations thereunder, the statutory percentage for an employee for any plan year shall be the percentage shown on the following table opposite the age of the employee determined at the time the current period of participation in the plan by the employee began:

Age	Statutory percentage
30 or less	6.5
31	6.3
32	6.0
33	5.8
34	5.6
35	5.4
36	5.1
37	4.9
38	4.8
39	4.6
40	4.4
41	4.2
42	4.1
43	3.9
44	3.8
45	3.6
46	3.5

Age	Statutory percentage
47	3.4
48	3.2
49	3.1
50	3.0
51	2.9
52	2.8
53	2.7
54	2.6
55	2.5
56	2.4
57	2.3
58	2.2
59	2.1
60 or over	2.0

The statutory percentage shall be adjusted as further provided in the regulations under section 401(j). As used hereafter, the term "applicable percentage" means the statutory percentage as so adjusted. For purposes of this subparagraph, the status of an employee at the time his current period of participation in the plan began (i.e., as a common-law employee, self-employed individual, or shareholder-employee) is not relevant.

(2) **Changes in statutory percentages.** In the case of periods beginning after December 31, 1977, the statutory percentages under paragraph (f) of this section may be adjusted by the Commissioner from time to time to take into account changes in prevailing interest and mortality rates occurring after December 31, 1973.

(3) **Determination of ages.** For purposes of section 401(j), the age of an employee at a relevant date (e.g., when participation began) is the employee's age on his last birthday on or before that date.

(4) **Examples.** The provisions of this section can be illustrated by the following examples, in which, except where otherwise specified, it is assumed that the participant is not married and has continuous service and plan years of participation:

Example 1. (i) A, a self-employed individual, enters a defined benefit plan at age 30. The plan provides benefits on compensation up to \$50,000 in the form of a single life annuity commencing at age 65 with no ancillary benefits. If A's compensation for the first year equals \$20,000, the maximum basic benefit accruing which could be provided by the plan for A under paragraph (f) of this section equals \$1,300 (6.5 percent of \$20,000). The applicable percentage for such year is determined under paragraph (f) of this section for the age at which A's participation begins, age 30.

(ii) Assume that for the next four years, A's compensation remains at \$20,000. Under this section, A's maximum benefit accruing for each of these years is still \$1,300 (6.5 percent of \$20,000). The applicable percentage is still measured by the 6.5 percent applicable to age 30, when his current period of plan participation began, even though he is older.

(iii) Assume that, after five years of participation, A leaves the plan and recommences participation at age 50. In the first year after his return, A earns \$30,000. Under this section, A's maximum benefit for the year cannot exceed \$900 (3 percent of

\$30,000). The applicable percentage is determined for age 50, when his next current period of plan participation began, and not at age 30. If A's compensation remains at \$30,000 for four more years, A's maximum benefit for each of these four years remains at \$900 (3 percent of \$30,000).

(iv) Assume that, at age 55, A's compensation is \$40,000. Under this section, A's maximum benefit for the year cannot exceed \$1,200 (3 percent of \$40,000). The percentage limit of paragraph (f)(1) of this section remains at 3 percent because the determination is made by reference to age 50, when A's current period of plan participation began. If A's compensation remains at \$40,000 for four more years, A's maximum

benefit for each of these four years remains at \$1,200 (3 percent of \$40,000).

(v) Assume that, at age 60, A's compensation is \$50,000. Under this section, A's maximum benefit for the year cannot exceed \$1,500 (3 percent of \$50,000). The percentage limit of paragraph (f)(1) of this section remains at 3 percent. If A's compensation remains at or above \$50,000 for four more years, A's maximum benefit for each of these four years remains at \$1,500 (3 percent of \$50,000).

(vi) Accordingly, the maximum basic benefit accruing which could be paid to A under the plan would be \$24,500 per year, computed as follows:

Age	Compensation per year	Rate	Benefit earned per year	Total benefit
30 to 34	\$20,000	6.5	\$1,300	\$6,500
35 to 39	30,000	3.0	900	4,500
40 to 44	40,000	3.0	1,200	6,000
45 to 49	50,000	3.0	1,500	7,500
Total				24,500

Example 2. A defined benefit plan covers employee F who is a self-employed individual. In 1980, F's total accrued annual benefits equal \$13,000. The maximum basic benefit for F at this time equals \$13,500. The plan, however, for plan year 1980 accrued an annual benefit for F equal to \$1,800 when the maximum basic benefit equalled \$1,625. The plan fails to satisfy the requirements of this section in 1980. Under § 1.401(j)-1(c), the limitation on an employee's benefits must be satisfied in each plan year, even though his aggregate benefits may satisfy the limitations.

(g) **Certain adjustments and additional requirements—(1) Compensation base.** In order for a plan to satisfy the requirements of section 401(j), the plan must specify the compensation base under the plan. For rules applicable to plans which change compensation bases, see § 1.401(j)-3(b)(2).

(2) **Nonbasic benefits.** (i) In the case of a plan which provides a benefit which is not a basic benefit, as defined in paragraph (e)(1) of this section, any nonbasic benefit shall not exceed the actuarial equivalent, as determined by the Commissioner, of the maximum basic benefit.

(ii) A defined benefit plan shall not satisfy the requirements of this section, if—

(A) Any benefit under the plan is adjusted under a cost of living formula, or

(B) The plan is funded by the purchase of variable annuity contracts.

(iii) The benefits, other than basic benefits, which a plan may provide, and for which the commissioner shall adjust the applicable percentage, include, but are not limited to, pre-retirement death and disability benefits and benefits payable in the form of either a joint and survivor annuity or

an annuity certain for a specified period.

(3) **Employee contributions.** (i) This subdivision applies to voluntary employee contributions within the meaning of section 411. The maximum basic benefit shall not be adjusted for these voluntary contributions. In such a case the plan can provide a benefit equal to the sum of the maximum basic benefit and the benefit accounted for separately. See section 411(b)(2), (c)(2)(A), and (d)(5), and § 1.411(c)-1(a) for rules which require separate accounting in the case of voluntary employee contributions.

(ii) This subdivision applies to mandatory employee contributions within the meaning of section 411(c)(2)(C). Under section 411(c) and § 1.411(c)-1, the employee's total accrued benefit (determined without regard to any accrued benefit attributable to voluntary employee contributions) must be allocated between the part attributable to mandatory employee contributions and the part attributable to employer contributions according to specified rules. For purposes of determining the participant's maximum basic benefit under section 401(j) the following rules apply with respect to each plan year.

For each plan year, the total benefit accruing derived from all contributions and the benefit accruing from mandatory employee contributions must be computed in accordance with the rules in section 411(c)(2)(B). Then the participant's total benefit accruing for the year must be reduced by the benefit accruing derived from his mandatory contributions for the year and the remaining difference must be com-

pared with the maximum basic benefit. The total benefit accruing for the year is determined by ascertaining the increase from the total accrued benefit (for all prior years) as of the close of the immediately preceding plan year and the benefit accruing from mandatory employee contributions is determined only with respect to those contributions made for the year.

(4) **Contributions allocable to insurance protection.** For purposes of determining the maximum basic benefit in the case of any plan which provides a benefit in the form of life, accident, health, or other insurance protection, no adjustment is required for any such plan benefit attributable to amounts considered to be contributed by the employee under the rules of section 72(f) and paragraph (b) of § 1.72-16 and includible in the employee's gross income.

(5) **Change in status.** (i) In the case of a participant who is neither a self-employed individual nor a shareholder-employee and who becomes a self-employed individual or shareholder-employee during the plan year, the applicable percentage for such year is not less than the applicable percentage determined under this section for the age of the participant when he becomes a self-employed individual or shareholder-employee. A higher applicable percentage will be allowed limited to the accrual rate established by the lesser of (A) the past accrual rate for the participant or (B) the applicable percentage determined under this section for the age when the participant's current period of participation commenced, and for the compensation base in effect when the participant becomes a self-employed individual or shareholder-employee.

(ii) (A) For purposes of this subparagraph, the past accrual rate equals the ratio determined by dividing (1) the employer-derived accrued benefit of the participant as of the close of the plan year immediately preceding the year in which the participant becomes a self-employed individual or a shareholder-employee, by (2) the sum of the compensation earned by the participant in each year (limited to the compensation covered by the plan for each year) for all periods of plan participation ending with the close of such immediately preceding plan year. The accrued benefit of the participant as of the close of the immediately preceding plan year shall be determined by disregarding any increase in the benefit not in effect at such time. Thus, for example, a subsequent past service benefit provided retroactively for the plan year would be disregarded.

(B) If records are unavailable to compute the sum of the compensation earned by the participant, the compensation of the participant, referred to in subdivision (ii)(A), shall be deter-

mined by assuming that the participant earned compensation in each year of plan participation equal to the compensation earned in the plan year immediately preceding the plan year in which the participant becomes a self-employed individual or shareholder-employee. This assumption shall not apply to any plan years of participation ending after December 31, 1975.

§ 1.401(j)-2 Other requirements and special rules.

(a) *In general.* Paragraphs (b), (c), and (d) of this section set forth additional requirements under section 401(j)(1) applicable to an employer, and certain related employers, maintaining a plan subject to the requirements of section 401(j) and other plans. Paragraph (e) of this section sets forth a requirement for fully insured defined benefit plans. Paragraphs (f), (g), (h), (i), and (j) set forth special rules under section 401(j) (4) and (6) and under sections 401(a)(4), 415, and 401(a), relating, respectively, to integration, deductions, nondiscrimination, other benefit limitations and definitely determinable benefits.

(b) *Multiple plans.* All plans of an employer must be taken into account in determining whether or not the requirements of section 401(j) are satisfied. In addition, in the case of a self-employed individual, all plans of all trades or businesses in which the employee is a self-employed individual must be taken into account.

(c) *Two or more defined benefit plans.* (1) If two or more defined benefit plans are required to be aggregated under paragraph (b) of this section, then the accrued benefit under all such plans for any employee subject to the limitations of this section must be aggregated in determining whether or not the limitation on benefit accruals is exceeded.

(2) In order to insure reasonable comparability of retirement benefits between qualified defined benefit plans and qualified defined contribution plans, or combinations thereof, as required by section 401(j)(1), this subparagraph sets forth certain conditions which must be satisfied in order for a defined benefit plan to be qualified. If one defined benefit plan ("first plan") is established and another defined benefit plan ("second plan") is established by the same employer subsequent to the establishment of the first plan, and if the second plan is required to be aggregated with the first plan under paragraph (b) of this section, the second plan shall be deemed not to satisfy the requirements of section 401(j) unless both plans have the same plan year. Notwithstanding the preceding sentence, in the case where two or more such plans have been adopted prior to July 25, 1978, with different plan years, the second plan

shall not fail to satisfy the requirements of this section solely by reason of having a different plan year if the plans are amended to adopt, for years beginning after that date, the same plan year and to adjust plan benefits as determined by the Commissioner. Irrespective of any limitation on time of amendment, the amendment required by the preceding sentence may be adopted within the 1 year period beginning [with the date of publication of this section in the FEDERAL REGISTER as a Treasury decision].

(d) *Defined benefit and defined contribution plans.* (1) If a defined benefit plan and a defined contribution plan are required to be aggregated under paragraph (b) of this section, the maximum basic benefit with respect to the defined benefit plan on behalf of an employee subject to the limitations of section 401(j) shall be determined by multiplying the maximum basic benefit otherwise determined under section 401(j) for the defined benefit plan (determined without regard to this subparagraph) by 1 minus the fraction determined under subparagraph (2) of this paragraph.

(2) The fraction for any taxable year in which an employee is a participant in a defined contribution plan is a fraction—

(i) The numerator of which is the amount deductible for the participant under the defined contribution plan, and

(ii) The denominator of which is the maximum amount deductible (and not includible in gross income under section 1379(b)) under the defined contribution plan if the plan provided for the maximum deduction allowable for the participant under section 404 and the regulations thereunder.

For purposes of this paragraph, if the plan year and taxable year do not coincide, the relevant plan year is the year ending with or within such taxable year.

(e) *Special rule for certain fully insured plans.* (1) In the case of a plan which is funded exclusively by the purchase of insurance or annuity contracts, prior to any adjustments otherwise required by section 401(j), the statutory percentages determined under § 1.401(j)-1 (f)(1) shall be adjusted by multiplying such percentages by the ratio of the normal rate to the guaranteed rate.

(2) If the insurance or annuity contracts are based on different interest and mortality assumptions determined by the sex of the participant, the plan shall use Table A, Sex Based Table, for determining the normal rate. If the insurance or annuity contracts are not based on such different assumptions by sex, the plan shall use Table B, Unisex Table. For Table A, the normal rate is the amount shown in that table according to the sex of the

participant and the age at which the basic benefit is to commence. For Table B, the normal rate is the amount shown on that table applicable to the age at which the basic benefit is to commence.

TABLE A.—Sex based table

Age when basic benefit commences	Normal rate	
	Male	Female
65.....	\$1,112	\$1,305
66.....	1,079	1,272
67.....	1,046	1,238
68.....	1,013	1,203
69.....	980	1,168
70.....	948	1,131

TABLE B.—Unisex table

Age when basic benefit commences	Normal rate
65.....	\$1,151
66.....	1,118
67.....	1,084
68.....	1,051
69.....	1,018
70.....	985

(3) The guaranteed rate is the cash value which must be accumulated under a typical policy used by the plan to provide a guaranteed basic benefit of \$10 a month commencing at the same age for a participant of the same sex (if Table A is applicable) or for a participant without regard to sex (if Table B is applicable).

(4) If a plan subject to this paragraph (e) changes either its compensation base or rate of accrual, the applicable percentages, normal rates and guaranteed rates shall all be subject to adjustment in a manner determined by the Commissioner.

(5) Nothing in section 401 (j) and this paragraph precludes a plan subject to this paragraph from providing a benefit in excess of the benefit specified in the plan.

(f) *No integration for plan benefit owner-employees.* A defined benefit plan which provides contributions or benefits for owner-employees does not satisfy the requirements of section 401 (j) and this section unless such plan meets the requirements of section 401 (a) (4) without taking into account contributions or benefits under chapter 2 of the Code (relating to tax on self-employment income), chapter 21 of the Code (relating to Federal Insurance Contributions Act), title II of the Social Security Act, or under any other Federal or State law. Thus, such a plan will not qualify if the plan offsets its benefits by benefits provided under Social Security or under similar laws.

(g) *Special rule for deductions and inclusions.* A defined benefit plan to

which section 401 (j) applies is not subject to the special limitations on deductions for self-employed individuals set forth in section 404 (e) or the special deduction computations, for common-law employees and self-employed individuals, set forth in section 404 (a) (9). (See § 1.404(e)-1 (A)). Section 404 (a)(1) sets forth the rules with respect to deductions for defined benefit plans.

(h) *Other limitations.* A plan to which this section applies is also subject to the limitations on benefits set forth in section 415. Consequently, even though a plan provides benefits which are not in excess of the maximum basic benefit set forth in this section, the plan will not be qualified under section 401 (a) if the plan benefits are in excess of the section 415 limitations.

(i) *Application of nondiscrimination requirements.* Section 401(a)(4) requires that a defined benefit plan not discriminate in favor of employees who are members of the prohibited group. The term "prohibited group employees" means those employees in whose favor the benefits provided under a defined benefit plan may not discriminate under section 401(a)(4). For purposes of testing discrimination under a plan which provides for full and immediate vesting, the plan will not be considered to be discriminatory merely because the accrued benefit determined under the plan for any employee is limited to the maximum basic benefit as determined under section 401(j). Thus, for example, a plan providing for full and immediate vesting and which bases benefits on percentages of compensation determined at the age when an employee's participation in the plan commences will not be considered to be discriminatory merely because the prohibited group employees are younger than other employees at such time and consequently have benefits determined at higher percentages.

(j) *Definitely determinable benefits.* A defined benefit plan to which this section applies is also subject to the requirements under section 401(a) to provide definitely determinable benefits. Thus, for example, for a final average pay plan to satisfy both the requirements of section 401(j) and the definitely determinable requirements, the plan would have to provide for a plan benefit formula under which a self-employed individual's or shareholder-employee's accrued benefit does not exceed the lesser of the final average pay formula, determined without regard to § 1.401(j)-5 but with regard to other applicable requirements (such as those set forth in section 415), or the limitation in that section.

(k) *Examples.* The provisions of this section may be illustrated by the ex-

amples set forth below. In each example the defined benefit plan is not a final average pay plan.

Example (1). Employee D is a self-employed individual in a partnership which has a defined benefit plan. D also has an unrelated sole proprietorship which has a defined benefit plan. The two plans both have the same plan years. Under paragraph (c)(1) of this section, both plans are required to be taken into account in determining whether or not the requirements of this section are satisfied.

Example (2). Employee E is covered by both a defined benefit and a defined contribution plan required to be aggregated under paragraph (b) of this section. If, for 1980, the defined contribution plan is subject to the limitation of section 404(e) and E had \$50,000 of earned income in 1980, the maximum amount deductible with respect to E equals \$7,500 (15 percent of \$50,000). If, for 1980, there is a deductible contribution for E under the defined contribution plan of \$1,875, the fraction referred to in paragraph (d)(2) of this section equals \$1,875/\$7,500 or ¼. If, for 1980, E's maximum basic benefit under the defined benefit plan, determined without regard to paragraph (d)(1) of this section, equals \$2,200, E's maximum basic benefit is determined by multiplying \$2,200 times ¾ (that is, 1 minus ¼) which equals \$1,650. Consequently, if E accrues a benefit in 1980 in excess of \$1,650 under the defined benefit plan, the plan fails to satisfy the requirements of section 401(j).

§ 1.401(j)-3 Change in compensation base or rate of accrual.

(a) *In general.* (1) Section 401(j)(1) authorizes the Secretary to prescribe regulations to insure reasonable comparability of retirement benefits between qualified defined benefit plans and qualified defined contribution plans, or combinations thereof. Further, among several provisions under which the Secretary is required to prescribe regulations is a provision stating that an increase in a plan's rate of benefit accrual or compensation base must begin a new period of participation with respect to such increase (section 401(j)(3)(B)(iii)). In order to insure such comparability and to prescribe such regulations, this section sets forth requirements applicable to a plan which changes either the compensation base or the rate of benefit accrual, or both, applicable to a participant who is either a self-employed individual or a shareholder-employee. The limitations in this section referring to a participant are applicable only to a participant who is either a self-employed individual or a shareholder-employee. If a plan never amends its compensation base or rate of benefit accrual (or amends, but makes the changes applicable only to participants who are neither self-employed individuals nor shareholder-employees), the requirements of this section will not apply. See § 1.401(j)-5 for the requirements dealing with changes in compensation base and rate of benefit accrual in the case of a final average pay plan.

(2) For purposes of section 401(j) and the regulations thereunder, amendments to the compensation base or rate of accrual include both adopted plan amendments and scheduled amendments (that is, amendments which are effective at a later time). Whether a particular amendment results in a change in base or rate shall be determined by the effect of the amendment upon plan benefit accruals and not by either the particular form of the amendment or the specific plan provision amended. For example, any plan amendment which changes the definition of compensation from less than total compensation to increase that amount upon which benefit accruals are based (for example, to add overtime hours to the compensation taken into account) would constitute a change in compensation base. Additionally, an increase in a survivor annuity from 50 percent to 75 percent of the employee benefit without any actuarial reduction would constitute a change in rate of benefit accrual.

(3) If the rate of benefit accrual for any level of compensation exceeds the applicable percentage for that level determined under this section, the plan does not satisfy section 401(j). Also, the general rule set forth in § 1.401(j)-1(c) that a plan is not qualified unless the plan contains provisions that preclude benefit accruals in excess of permissible section 401(j) amounts is equally applicable to changes in a plan's rate of accrual or compensation base. Thus, even though there is not in fact an excess accrual for a self-employed individual or shareholder-employee by reason of such an amendment, the plan is not qualified if there could be such an excess under the plan amendment.

(4) All plan amendments which effect a change in the plan's rate of benefit accrual or compensation base, and which are effective at the same time, shall be deemed to be a single amendment for purposes of applying the rules of this section.

(b) *Definitions, etc.* (1) A Plan which changes its compensation base applicable to a participant shall have its applicable percentage determined by reference to the different compensation bases. These different compensation bases result in different levels of compensation. For this purpose, the term "level of compensation" means: (i) the initial compensation base, and (ii) the difference between each prior compensation base (beginning with the initial base) and the next succeeding compensation base.

(2) (i) In the case of a plan which initially specifies a compensation base in excess of \$50,000, the statutory percentage determined under § 1.401(j)-1(f)(1) shall be adjusted by multiplying such percentage by the ratio of \$50,000 to the initial compensation base of the plan.

(ii) In the case of a plan which amends its compensation base to increase such base in excess of \$50,000, the statutory percentage applicable to the compensation between the prior compensation base and the new compensation base shall be adjusted by multiplying that percentage by a fraction, the numerator of which equals the excess of \$50,000, if any, over the prior compensation base, and the denominator of which equals the new compensation base minus the prior compensation base. However, no adjustment is required to the statutory percentage applicable to a participant's compensation up to the prior compensation base.

(iii) In the case of a plan which has a compensation base in excess of \$50,000 and which subsequently amends its compensation base to decrease such base to another base in excess of \$50,000, either the adjustment specified in subdivision (ii) or (i) of this subparagraph shall be made, depending on whether there is, or is not, respectively, a prior compensation base less than \$50,000.

(iv) For purposes of section 401(j) and the regulations thereunder, the adjustments in this subparagraph are referred to as the "adjustments for excess compensation base."

(3) For purposes of this section, the term "attained-age applicable percentage" means the otherwise determined applicable percentage for the age of the participant when the plan amendment to either the compensation base or the rate of accrual is effective. The attained-age applicable percentage is determined for each different level of compensation by using the compensation base in effect after the plan amendment, including any adjustment for excess compensation base referred to in paragraph (b)(2) of this section.

(4) For purposes of this section, the term "prior-benefit accrual rate" means the benefit accrual rate, if any, determined under the plan for each level of compensation under the plan prior to any change in the plan's compensation base or the benefit accrual rate. If a plan decreases its benefit accrual rate, the decreased benefit accrual rate (not the rate prior to the decrease) shall, on and after the effective date of the decrease, be deemed to be the plan's prior-benefit accrual rate.

(5) For purposes of this section, the term "entry-age applicable percentage" means, with respect to a level of compensation, the otherwise applicable percentage determined under section 401(j) for the age of the participant at which a benefit could first accrue under the plan for that level of compensation or, if later, at which that participant's current period of participation began. The entry-age applicable percentage is determined for

each different level of compensation by using the compensation base in effect prior to any change in the plan's compensation base and by including any adjustment (in effect prior to such change) for excess compensation base referred to in paragraph (b)(2) of this section.

(c) *Requirements for changes in rate of benefit accrual or changes in compensation base.* If a plan changes either the rate of benefit accrual or the compensation base (or both) with respect to a participant, the applicable percentage for any level of compensation is the greater of: (1) the prior-benefit accrual rate with respect to that level of compensation, or (2) the attained-age applicable percentage with respect to that level of compensation. In no event shall the prior-benefit accrual rate exceed the entry-age applicable percentage.

(d) *Other changes.* If a plan's rate of benefit accrual or compensation base is changed in a manner not dealt with in this section, the applicable percentages for the plan shall be adjusted, as determined by the Commissioner, in a manner consistent with the regulations under section 401(j).

(e) *Fresh start.* If with respect to any participant subject to the requirements of section 401(j) a plan is amended so that the participant is treated under the plan as commencing a new period of plan participation and his applicable percentage is determined on the basis of his attained age at that time, then the plan shall be deemed to be a new plan with respect to that participant. Thus, such a plan amendment would not be subject to the requirements of this section.

(f) *Examples.* The provisions of this section can be illustrated by the examples set forth below. In each of the examples (except where otherwise specified) the following assumptions have been made: (1) Each participant is an unmarried self-employed individual or shareholder-employee in a career average defined benefit plan; (2) each plan is established on the first day of a coinciding plan year and employer taxable year when the entering participant is age 30 ("Time 1"); (3) each plan is amended and the amendment is effective 10 years later on the first day of the coinciding plan year and taxable year when the relevant participant is age 40 ("Time 2"); (4) each participant has continuous service and one current period of participation beginning at Time 1 and not ending before Time 2; (5) each plan provides a basic benefit for each participant; (6) at all relevant times the participant's actual compensation exceeds each plan's applicable compensation base; and (7) each plan is not a fully insured plan subject to § 1.401(j)-2(e).

Example (1). Participant A begins participation at Time 1 in Plan X, which provides

an accrued benefit (in the form of a basic benefit) accruing at the annual rate of 3.25 percent. At Time 1, Plan X's compensation base is \$50,000. The applicable percentage for A at Time 1 is 6.5 percent. At Time 2, Plan X is amended to increase its rate of benefit accrual to the maximum applicable percentage, and to provide the maximum basic benefit. The applicable percentage and maximum benefit at Time 2 are determined as follows:

(i) Under paragraph (c), the applicable percentage at Time 2 is the greater of (1) 3.25 percent (Plan X's prior-benefit accrual rate for A) or (2) 4.4 percent (Plan X's attained-age applicable percentage for A). Accordingly, the rate of benefit accrual for A in Plan X at Time 2 cannot exceed 4.4 percent.

(ii) Under § 1.401(j)-1(d), the maximum basic benefit at Time 2 which could accrue annually for A under Plan X equals the product of \$50,000 (the compensation base) times 4.4 percent (the applicable percentage). Accordingly, A's maximum basic benefit equals \$2,200.

Example (2). Participant B begins participation at Time 1 in Plan Y, which provides an accrued benefit (in the form of a basic benefit) accruing at the annual rate of 5.0 percent. At Time 1, Plan Y's specified compensation base is \$20,000. The applicable percentage for B at Time 1 is 6.5 percent. At Time 2, Plan Y is amended to increase the specified compensation base to \$50,000 and to provide the maximum basic benefit. The applicable percentages for each level of compensation and maximum benefit at Time 2 are determined as follows:

(i) Under paragraph (c), the applicable percentage at Time 2 cannot exceed the limitation applicable to each level of compensation. For the initial compensation base of \$20,000, the applicable percentage is the greater of (1) 5.0 percent (Plan Y's prior-benefit accrual rate for B) or (2) 4.4 percent (Plan Y's attained-age applicable percentage for B), or 5.0 percent.

(ii) The applicable percentage at Time 2 for the next level of compensation in excess of \$20,000 up to the new \$50,000 compensation base, or the next \$30,000 of compensation, is 4.4 percent (Plan Y's attained-age applicable percentage for B). There is no prior-benefit accrual rate for the level of compensation.

(iii) Under § 1.401(j)-1(d), the maximum basic benefit at Time 2 which could accrue annually for B under Plan Y equals the sum of \$1,000 (the initial compensation base of \$20,000 times the 5.0 percent applicable percentage) and \$1,320 (the \$30,000 next level of compensation times the 4.4 percent applicable percentage). Accordingly, B's maximum basic benefit equals \$2,320.

Example (3). Assume the same facts as in example (2) for Time 1 for participant C in Plan Y except that the annual rate is 6.5 percent. At Time 2, Plan Y is amended to increase the specified compensation base to \$75,000 and to provide the maximum basic benefit. The applicable percentages for each level of compensation and maximum benefit at Time 2 are determined as follows:

(i) Under paragraph (c), the applicable percentage at Time 2 cannot exceed a limitation applicable to each level of compensation. For the initial compensation base of \$20,000, the applicable percentage is the greater of (1) 6.5 percent (Plan Y's prior-benefit accrual rate for C) or (2) 4.4 percent (Plan Y's attained-age applicable percentage for C), or 6.5 percent.

(ii) The applicable percentage at Time 2 for the next level of compensation in excess of \$20,000 up to the new \$75,000 compensation base, or the next \$55,000 of compensation, is the attained-age applicable percentage (there is no prior-benefit accrual rate for this level of compensation). Under paragraph (b)(3), the attained-age applicable percentage for C is determined by making the adjustment for the excess compensation base specified in paragraph (b)(2). Accordingly, the applicable percentage is 2.4 percent (4.4 percent times (\$50,000 - \$20,000) / (\$75,000 - \$20,000)).

(iii) Under § 1.401(j)-1(d), the maximum basic benefit at Time 2 which could accrue annually for C under Plan Y equals the sum of \$1,300 (the initial compensation base of \$20,000 times the 6.5 percent applicable percentage) and \$1,320 (\$55,000, the next level of compensation, times the 2.4 percent applicable percentage). Accordingly, C's maximum basic benefit equals \$2,620.

Example (4). Participant D begins participation at Time 1 in Plan Z, which provides an accrued benefit (in the form of a basic benefit) accruing at the annual rate of 3.25 percent. At Time 1, Plan Z's specified compensation base is \$100,000. In order to determine the applicable percentage, the statutory percentage of 6.5 percent must be adjusted for the excess compensation base, as specified in paragraph (b)(2), to obtain a modified statutory percentage of 3.25 percent (6.5 percent times \$50,000/\$100,000). At Time 2, Plan Z is amended to decrease its specified compensation base to \$50,000 and to provide the maximum basic benefit. The applicable percentage for the new compensation base and the maximum benefit at Time 2 are determined as follows:

(i) Under paragraph (c), the applicable percentage for the new \$50,000 compensation base is the greater of 3.25 percent (Plan Z's prior-benefit accrual rate for D) or 4.4 percent (Plan Z's attained-age applicable percentage for D), or 4.4 percent.

(ii) Under § 1.401(j)-1(d), the maximum basic benefit at Time 2 which could accrue annually for C under Plan Z equals the product of \$50,000 (the new compensation base) times 4.4 percent (the applicable percentage). Accordingly, D's maximum basic benefit equals \$2,200.

Example (5). Participant E begins participation at Time 1 in Plan W, which provides an accrued benefit (in the form of a basic benefit) accruing at the annual rate of 3 percent. At Time 1, Plan W's specified compensation base is \$30,000. The applicable percentage for E at Time 1 is 6.5 percent. At Time 2, Plan W is amended to increase the specified compensation base to \$50,000, to increase the rate of benefit accrual and to provide the maximum basic benefit. The applicable percentages for each level of compensation, the accrual rates and maximum benefit at Time 2 are determined as follows:

(i) Under paragraph (c), the applicable percentages at Time 2 cannot exceed a limitation applicable to each level of compensation. For the initial compensation base of \$30,000, the limitation determined under paragraph (c) is 4.4 percent (the greater of (A) 3 percent, Plan W's prior-benefit accrual rate for E, or (B) 4.4 percent, Plan W's attained-age applicable percentage for E). In this instance, Plan W can raise its benefit accrual rate to 4.4 percent applicable to the initial compensation base of \$30,000.

(ii) The limitation on the applicable percentage at Time 2 for the next level of compensation in excess of \$30,000 up to the new

\$50,000 compensation base (the next \$20,000 of compensation) is 4.4 percent, the attained-age applicable percentage (there is no prior-benefit accrual rate for this level of compensation). In this instance, Plan W can raise its benefit accrual rate to 4.4 percent applicable to this next \$20,000 level of compensation.

(iii) Under § 1.401(j)-1(d), the maximum basic benefit at Time 2 which could accrue annually for E under Plan W equals the sum of \$1,320 (the initial compensation base of \$30,000 times the 4.4 percent applicable percentage) and \$880 (the \$20,000 next level of compensation times the 4.4 percent applicable percentage). Accordingly, E's maximum basic benefit equals \$2,200.

§ 1.401(j)-4 Special rules for electing small business corporation.

(a) *In general; definitions.* This section sets forth special rules applicable to defined benefit plans of an electing small business corporation, as defined in section 1371(a). For purposes of this section the following definitions shall apply.

(1) *Old Sub-S plan.* The terms "old Sub-S plan" means a defined benefit plan (and trust) to which section 401(j) applies and which is established prior to the first plan year to which section 401(j) applies.

(2) *New Sub-S plan.* The term "new Sub-S plan" means a defined benefit plan (and trust) to which section 401(j) applies and which is not established prior to the first plan year to which section 401(j) applies.

(3) *Pre-401(j) part.* The term "pre-401(j) part" of an old Sub-S plan (and trust) means that part attributable to benefits accrued for plan years beginning prior to the first plan year to which section 401(j) applies to the plan.

(4) *Post-401(j) part.* The term "post-401(j) part" of an old Sub-S plan (and trust) means that part attributable to benefits accrued for plan years beginning with the first plan year to which section 401(j) applies to the plan.

(b) *New Sub-S plan.* A new Sub-S plan to which section 401(j) applies is not subject to the rules on taxability of shareholder-employee beneficiaries, etc. set forth in section 1379(b) and the regulations thereunder. The other rules prescribed under section 401(j) in §§ 1.401(j)-1 through 1.401(j)-3, 1.401(j)-5, and 1.401(j)-6 apply to a new Sub-S plan.

(c) *Old Sub-S plan.* (1) *General rule.* An old Sub-S plan to which section 401(j) applies is subject to the special rules set forth in subparagraph (2).

(2) *Special rules.* (i) The pre-401(j) part of an old Sub-S plan is also not subject to the rules on taxability of shareholder-employees, etc. set forth in section 1379(b) and the regulations thereunder.

(ii) An old Sub-S plan may provide benefits for years to which section 401(j) and the regulations thereunder apply. In that instance, with respect to

the post-401(j) part of the plan, the rules prescribed under section 401(j) in §§ 1.401(j)-1 through 1.401(j)-3, 1.401(j)-5 and 1.401(j)-6 apply, except as modified by the rules set forth in subdivisions (iii) and (iv).

(iii) The applicable percentage shall be determined in the same manner as is provided for a change in status under § 1.401(j)-1(g)(6) and as if the time section 401(j) applies to the plan is the time of such a change in status. Thus, for example, if a plan provided for a 7.5 percent past accrual rate on \$50,000 of compensation for Participant A, who commenced participation at age 30 in 1966, and the plan is amended for 1976 to meet the requirements of section 401(j), the applicable percentage for 1976 is determined under § 1.401(j)-1(g)(6)(i) and equals 6.5 percent (the lesser of 7.5 percent (past accrual rate) or 6.5 percent (applicable percentage in 1966); but not less than 4.4 percent (the applicable percentage at age 40)). Further, the past accrual rate is determined under § 1.401(j)-1(g)(6)(ii)(A) by dividing the shareholder-employee's total employer-derived benefit within the employer's last taxable year (beginning before January 1, 1976) by the sum of the shareholder-employee's total compensation up to the close of that period.

(iv) A plan amendment required (with respect to the first plan year) to satisfy the requirements of section 401(a)(18) and (j) shall not be treated as a change in the plan's compensation base or rate of accrual for purposes of applying the rules of 1.401(j)-3. Thus, for example, a plan which provided a benefit accrual of 7.5 percent on a compensation base of \$100,000 in 1975 would not be subject to the special rules of § 1.401(j)-3 when the plan is amended for 1976 to provide, for example, a basic benefit accrual of 6.5 percent of \$50,000.

§ 1.401(j)-5 Special rules applicable to final average pay plans.

(a) *General rule.* Except as provided in this section, the provisions of § 1.401(j)-1 through 1.401(j)-4, inclusive, and § 1.401(j)-6 apply to a final average pay plan, as defined in § 1.401(j)-1(e)(5). If such a plan in any plan year provides for an accrual of benefits by any designated employee in excess of the limitation on amount of the basic benefit, the plan (and trust, if any) does not satisfy section 401(j) in that plan year. As indicated in § 1.401(j)-1(c), the plan is also not qualified unless the plan precludes the potential of accruals in excess of the limitation on amount of basic benefit. The designated employees are self-employed individuals and shareholder-employees, and the limitation on amount is the limitation on amount determined under this section.

(b) *General limitation on amount; no amendment*—(1) *Application*. This paragraph (b) applies to a plan which never is amended to change the plan's compensation base or rate of benefit accrual (or is amended, but makes the changes applicable only to participants who are neither self-employed individuals nor shareholder-employees). If a participant is always subject to section 401(j) and the plan is never amended, see paragraph (b)(4). This paragraph also applies to a plan which is amended effective as of the date section 401(j) first applies to the plan to conform the plan to the requirements of section 401(j) provided that the plan is not subsequently amended. In other cases, the rules in paragraph (c) apply. In lieu of the limitation in § 1.401(j)-1 (c) and (d) (relating to the maximum basic benefit which can accrue for a plan year of participation under plans, other than final average pay plans) the general limitation for final average pay plans ("General Limitation"), applicable to the participant, applies.

(2) *General Limitation*. The General Limitation, with respect to a participant, is equal to the sum of (i) the limitation for the plan's pre-401(j) benefit and (ii) the limitation for the plan's post-401(j) benefit.

(3) *Limitation on pre-401(j) benefit*. The limitation with respect to a participant for the plan's pre-401(j) benefit (that is, the limitation applicable to plan years before section 401(j) becomes applicable to the participant) equals the greater of—

(i) The accrued benefit of the participant under the plan as of the close of the plan year immediately preceding the later of (a) the plan year in which the participant becomes a self-employed individual or a shareholder-employee or (B) the first plan year for which section 401(j) applies to the plan (determined as if the participant separates at such time); or

(ii) The accrued benefit of the participant obtained by multiplying (A) the applicable percentage rate, determined under § 1.401(j)-1, for the time the participant's current period of plan participation commenced by (B) the sum of the compensation earned by the participant for each year for the period of plan participation beginning with his first such year and ending with the close of the immediately preceding plan year referred to in subdivision (i) of this subparagraph. The accrued benefit of the participant determined under subdivisions (i) and (ii) of this subparagraph shall be determined in a manner consistent with the determination of the accrued benefit under § 1.401(j)-1(g)(5)(ii) (relating to pass accrual rates in the case of an employee's change in status). Notwithstanding § 1.401(j)-1(g)(5)(ii), any plan amendment affecting the

compensation base or rate of accrual occurring prior to or within the immediately preceding plan year referred to in subdivision (i) of this subparagraph shall be disregarded for purposes of determining the accrued benefit under subdivision (ii) of this subparagraph. Further, the applicable percentage in subdivision (ii)(A) and the compensation for each year described in subdivision (ii)(B) shall be determined with respect to the plan's compensation base in effect for the plan year beginning immediately after the close of the plan year referred to in subdivision (i).

(4) *Limitation on post-401(j) benefit*. The limitation with respect to a participant for the plan's post-401(j) benefit for any relevant plan year (that is, the limitation applicable to the first plan year for which section 401(j) applies to the participant and any subsequent plan year) equals the product of—

(i) The applicable percentage rate, determined under § 1.401(j)-1, for the time when the participant's current period of plan participation commenced, multiplied by

(ii) The sum of the participant's compensation covered under the plan for each post-401(j) plan year within the participant's current period of plan participation including the relevant plan year (that is, the plan year for which the limitation is being determined).

(c) *General limitation on amount; amended plan*—(1) *Application*. This paragraph (c) applies to a plan to which paragraph (b) does not apply. In lieu of the limitation in §§ 1.401(j)-1 (c) and (d), and 1.401(j)-3 (relating, respectively, to the maximum basic benefit, etc., and change in compensation base or rate of accrual for plans other than final average pay plans), the general limitation for amended final average pay plans ("Amended Limitation"), applicable to the participant, applies. As specified in paragraph (a) of this section, the plan does not satisfy section 401(j) in any plan year for which the plan provides for (or permits) an accrual of benefits for any designated employee which exceeds the Amended Limitation.

(2) *General limitation for amended plan*. The Amended Limitation, with respect to a participant, for any level of compensation (see § 1.401(j)-3(b)(1)), equals the sum of (i) the accrued basic benefit of the participant with respect to that level of compensation under the plan as established and (ii) the accrued basic benefit of the participant under the plan on account of each subsequent amendment with respect to that level of compensation. For purposes of this subparagraph and the succeeding rules in this section, the term "under the plan as established" means, with respect to a par-

ticipant's level of compensation, under the plan at the time the participant first accrues a benefit for a particular level of compensation (or could have so accrued but for his compensation being less than such level). Thus, for example, if a plan is established in year 1 and a designated employee commences participation in year 10, then the plan as established means the plan in year 10.

(3) *Accrued basic benefit under plan as established*. The accrued basic benefit of the participant under the plan as established equals the lesser of (i) the accrued benefit of the participant determined based on the plan in effect on the date that the participant is first subject to section 401(j) and based on that participant's service and compensation taken into account under the plan for the participant's period of plan participation, or (ii) the participant's General Limitation determined under paragraph (b)(2) for each level of compensation.

(4) *Limitation on increases*. If the accrued benefit of the participant on account of the plan as established with respect to a level of compensation equals the participant's General Limitation (determined under subparagraph (3)(ii) above), then the accrued benefit of the participant on account of each subsequent amendment with respect to such level of compensation is zero.

(5) *Permitted increases*. If the accrued benefit of the participant on account of the plan as established with respect to a level of compensation is less than the participant's General Limitation (determined under subparagraph (3)(ii) above), then the accrued benefit of the participant on account of each subsequent amendment with respect to such level of compensation at any relevant time affected by such amendment equals the lesser of—

(i) The increase in the accrued benefit of the participant under the plan formula as a result of such amendment, or

(ii) The future limitation for the plan's future service benefit with respect to that participant ("Averaged Cap").

(6) *Increase under plan formula; Averaged Cap*. (i) The increase in the participant's accrued benefit under the plan formula described in subparagraph (5)(i) above equals the difference between (A) the participant's accrued benefit determined under the plan in effect prior to the plan amendment and (B) the participant's accrued benefit determined under the plan in effect after the plan amendment. Both such accrued benefits are determined with respect to the participant's service and compensation taken into account under the plan and as of the relevant date (that is, the plan year for

which the limitation is being determined).

(ii) The Averaged Cap described in subparagraph (5)(ii) above with respect to the participant equals the product of (A) the difference, if any, between (1) the applicable percentage rate of the participant after the amendment and (2) the prior-benefit accrual rate of the participant before the amendment, as defined in § 1.401(j)-3(b)(4), and (B) the sum of the compensation earned by the participant after the amendment (and taken into account under the plan's level of compensation) for each plan year within the participant's current period of plan participation including the relevant plan year (that is, the plan year for which the limitation is being determined). The percentage rates of the participant referred to in (A) (1) and (2) of this subdivision are the otherwise determined percentages under section 401(j), including the required adjustments under § 1.401(j)-3, relating to changes in compensation base rate of accrual. Thus, for example, the participant's applicable percentage rate before the amendment for a particular level of compensation must be determined in a manner consistent with the rules in § 1.401(j)-3(d), relating to requirements for changes in compensation bases.

(7) *Averaged Cap; limitation on increases*. If the accrued benefit of the participant on account of the plan as first amended with respect to a level of compensation equals the participant's Averaged Cap (determined under subparagraph (6)(ii) above), then the accrued benefit of the participant on account of each succeeding amendment, after the first such amendment, with respect to such level of compensation is zero.

(8) *Averaged Cap; permitted increases*. (i) If the accrued benefit of the participant on account of the plan's first amendment with respect to a level of compensation is less than the participant's Averaged Cap (determined under subparagraph (6)(ii) above), then the participant's accrued benefit on account of each succeeding amendment, after the first such amendment, is determined under the following procedure.

(ii) The participant's accrued benefit is determined under subparagraph (6) above by applying the rules of that subparagraph to each succeeding amendment as if the plan as established and first amended with respect to a level of compensation constituted the established plan. In that application of the rules under subparagraph (6), above, the participant's General Limitation (determined under subparagraph (3)(ii) of this paragraph) shall be deemed to be the participant's Averaged Cap (determined under subparagraph (6)(ii) above).

(d) *Other adjustments*. The Commissioner shall, in the case of a final average pay plan, determine if any other adjustments to plan accruals are required to be made in a manner consistent with section 401(j) including this section and § 1.401(j)-3.

(e) *Examples*. The provisions of this section can be illustrated by the examples set forth below. In each of the examples (except where otherwise specified) the following assumptions have been made: (1) each participant is a single self-employed individual or shareholder-employee in a final average pay plan; (2) each plan is established and effective on the first day of a coinciding plan year and employer taxable year when the entering participant is age 50 ("Time 1"); (3) each plan that is amended is effectively amended on the first day of a coinciding plan year and taxable year ("Time 2"); and (4) each plan provides a basic benefit for each participant.

Example (1). Participant A begins participation in Plan M at Time 1 (age 50). Plan M provides for an annual benefit accrual of 1 percent of last year's compensation, not to exceed \$50,000, for each year of participation (A plan would not be qualified if benefits were based on only the last year, but for illustrative purposes assume that such a formula is permissible). Plan M also limits benefit accruals to satisfy the limitations of this section. A's compensation for each of the first 10 years equals \$10,000 per year. At Time 2 (age 60), A's compensation is increased and equals \$40,000. A's General Limitation and benefit accrual for the 11th year is determined as follows:

(A) Because there is no pre-401(j) benefit under Plan M for A, A's General Limitation is determined under paragraph (b)(4) and equals the product of 3 percent (the applicable percentage at age 50) times \$140,000 (10 years times \$10,000, or \$100,000) plus (1 year times \$40,000, or \$40,000), or \$4,200.

(B) Under Plan M's benefit formula, without regard to the plan provision required to satisfy the General Limitation, A's accrued benefit would equal 1 percent times \$40,000 times 11 years, or \$4,400.

(C) Accordingly, Plan M could satisfy section 401(j) and could provide a deferred normal retirement benefit for A of 4,200, if A left the plan at the end of his 11th year of participation.

(D) If Plan M is never amended and A continues his plan participation (instead of ending his plan participation as in (C), above) for 4 more years at the same compensation of \$40,000, then A's accrued normal retirement benefit under the plan equals \$6,000 (1 percent times \$40,000 times 15 years). A's General Limitation, in this instance, equals \$9,000 (3 percent times \$300,000 (\$140,000 for 11 years plus \$160,000 for 4 years)). Plan M would satisfy section 401(j) by providing A with a \$6,000 normal retirement benefit.

Example (2). Participant B begins participation in Plan N at Time 1 (age 50). Plan N provides for an annual benefit accrual of 1 percent of last year's compensation, not to exceed \$50,000 for each year of participation. Plan N is amended to provide for an annual benefit accrual of 2 percent of last year's compensation, not to exceed \$50,000

when B is age 55 (6th year of B's plan participation). Plan N also limits benefit accruals to satisfy the limitation of this section. B's compensation for each of the first 10 years (age 50 to 59) equals \$25,000 per year. When B is age 60, B's compensation is increased and equals \$40,000 for each of the next 5 years (age 60 to age 64). Assume the Plan N's benefit formula has satisfied this section prior to the plan amendment. B's Amended Limitation and benefit accrual are determined as follows:

(A) B's Amended Limitation under Plan N is determined under paragraph (c). B's Amended Limitation for the plan's \$50,000 level of compensation equals the sum of (1) B's accrued benefit under Plan N as established and (2) B's accrued benefit on account of the amendment to Plan N.

(B) B's accrued benefit under Plan N as established equals the lesser of (1) B's accrued benefit under Plan N as in effect when section 401(j) applies to B or (2) B's General Limitation. In this case these amounts, respectively, equal \$6,000 (1 percent times \$40,000 times 15 years) and \$13,500 (3 percent, age 50, times \$450,000 (10 years times \$25,000, or \$250,000) plus (5 years times \$40,000, or \$200,000)). Accordingly, B's accrued benefit under Plan N, as established, equals \$6,000. Because B's General Limitation exceeds his accrued benefit under the plan as established, Plan N can amend its plan benefit accrual formula to provide B a greater accrued benefit.

(C) B's accrued benefit on account of the amendment to Plan N equals the lesser of (1) B's increased accrued benefit as a result of the amendment or (2) B's Averaged Cap. B's accrued benefit under the new plan benefit formula equals \$12,000 (2 percent times \$40,000 times 15 years). Therefore, B's increased accrued benefit equals \$6,000 (\$12,000 new minus \$6,000 old). B's Averaged Cap equals (under paragraph (c)(6)(ii)) the product of a percentage and a career compensation dollar amount. B's compensation for his 10 years of plan participation since the plan amendment equals \$325,000 (5 times \$25,000 plus 5 times \$40,000). The percentage equals the difference between the post-amendment applicable percentage and the prior-benefit accrual rate, both determined consistently with the plan amendment rules in § 1.401(j)-3. In this case, B's post-amendment percentage equals the attained-age applicable percentage of 2.5 percent for age 55. B's prior-benefit accrual rate is determined by dividing B's accrued benefit of \$6,000 under the original plan by B's \$450,000 compensation for his 15 years of plan participation and equals 1.33 percent. The difference between the two percentages equals 1.17 percent. Accordingly, B's Averaged Cap under Plan N, as amended, equals \$3,803 (\$325,000 times 1.17 percent). B's accrued benefit on account of the amendment equals \$3,803 (the lesser of \$6,000 or \$3,803).

(d) B's Amended Limitation under Plan N equals \$9,803 (\$6,000 plus \$3,803). Because B's accrued benefit on account of the plan amendment is determined by reference to B's Averaged Cap, Plan N could not provide for additional benefit accruals for B, assuming B leaves the plan after his 15 years of participation.

Example (3). Using the facts of example (2), B's Amended Limitation and benefit accrual can be computed under the following worksheet:

FINAL AVERAGE PAY WORKSHEET
(For one level of compensation and
only one period of current participation)

STEP	OPERATION	ANSWER
1.	Determine accrued benefit under plan as established, using plan formula and final average pay	\$6,000 (1% x 15 x \$40,000)
2.	Determine General Limitation by following steps:	
	(a) Limitation on pre-401 (j) benefit	
	(i) accrued benefit of participant as of close of last pre-401 (j) plan year determined as of that time	0
	(ii) applicable percentage based on age as of beginning of current participation	3%
	(iii) sum of compensations within this level for years prior to 401 (j)	0
	(iv) product of (ii) and (iii)	0
	(v) greater of (i) or (iv)	0
	(b) Limitation on post-401 (j) benefit	
	(i) applicable percentage in (a) (ii)	3%
	(ii) sum of compensations within this level for years since 401 (j)	\$450,000 (10 x \$25,000 + 5 x \$40,000)

(iii) product of (i) and (ii)	\$13,500
(c) General Limitation equals the sum of (a) (v) plus (b) (iii)	\$13,500

If Step 1 is not less than Step 2 (c), or if there are no further plan amendments, enter zero in Step 6 and proceed to Step 7. Otherwise proceed to Step 3.

	Amendment	1	2	3
3.	Determine the accrued benefit on account of each subsequent amendment, using plan formula, and final average pay as follows:			
	(a) Accrued benefit based on plan in effect after the amendment	\$ 12,000 (2% x 15 x \$40,000)		
	(b) Accrued benefit based on plan in effect prior to the amendment	\$ 6,000		
	(c) Increase [(a) - (b)]	\$ 6,000		
4.	Determine Averaged Cap steps:			
	(a) Prior benefit accrual rate			
	(i) accrual rate for plan as established [Step 1 ÷ (Step 2(a) (iii) + Step 2(b) (ii))]]	1.33% \$6,000 0 + \$450,000		
	(ii) greater of Step 4(a) (i) in this column or Step 4 (a) (iv) in prior column	1.33%		
	(iii) from prior column [Step 5 ÷ Step 4 (d)]	0		

(iv) sum of Step 4 (a) (iii) and Step 4 (a) (ii)	1.33%		
(b) Attained age applicable percentage at time of amendment	2.5%		
(c) Excess, if any [(b) - (a) (iv)]	1.17%		
(d) Sum of compensations within this level for years since amendment	\$325,000 (5 x \$40,000 + 5 x \$25,000)		
(e) Product of (c) and (d)	\$ 3,803		
5. Maximum accrued benefit attributable to this amendment (Lesser of Step 3 (c) or Step 4 (e))	\$ 3,803		

If, for this amendment, Step 3 (c) is not less than Step 4 (e) or, if there are no subsequent amendments, proceed to Step 6. Otherwise, do Steps 3 - 5 for the next amendment.

6. Maximum accrued benefit due to all amendments (sum columns of Step 5)	\$3,803		
7. Maximum accrued benefit under plan as established (lesser of Steps 1 or 2 (c))	\$6,000		
8. Maximum accrued benefit - Total (Sum of Step 6 and Step 7)	\$9,803		

Par. 4. Section 1.1379-1(a) is amended by adding a new sentence at the end thereof to read as follows:

§ 1.1379-1 Additional requirement for qualification of profit-sharing plans of electing small business corporations.

(a) Introduction. . . . For special requirements which apply to a defined benefit plan for taxable years beginning after December 31, 1975, see section 401(j) and the regulations thereunder.

JEROME KURTZ,
Commissioner of
Internal Revenue.

[FR Doc. 78-14545 Filed 5-25-78; 8:45 am]

§ 1.401(j)-6 Effective dates and transitional rules.

(a) *Effective dates.* Section 401 (j) and the regulations thereunder apply to taxable years of an employer beginning after December 31, 1975, and to any plan year beginning with or within such taxable years.

(b) *Transitional rule.* A plan will be treated as satisfying the requirements of section 401(j) for plan years beginning prior to July 25, 1978, if, for such years, any excess of the benefit accruing under the plan over the maximum benefit permitted for a participant under section 401(j) for such year is used, to the extent reasonably possible, to reduce the maximum benefit permitted under section 401(j) for plan years beginning on or after such date. This paragraph will apply to a plan only if it is amended to satisfy the requirements of this paragraph. Irrespective of any other limitation on time of amendment, the amendment may be adopted within the 1 year period beginning [with the date of publication of this section in the FEDERAL REGISTER as a Treasury decision].

Par. 3. Section 1.404 (e)-1A is amended by adding paragraph (e) to read as follows:

§ 1.404(e)-1A Contributions on behalf of a self-employed individual to or under a qualified pension, annuity, or profit-sharing plan.

(e) *Combination of plans.* For special rules, if a self-employed individual in any taxable year is a participant in both a defined benefit plan and a defined contribution plan, see § 1.401(j)-2(d).

Par. 4. Section 1.1379-1(a) is amended by adding a new sentence at the end thereof to read as follows:

§ 1.1379-1 Additional requirement for qualification of profit-sharing plans of electing small business corporations.

(a) Introduction. . . . For special requirements which apply to a defined benefit plan for taxable years beginning after December 31, 1975, see section 401(j) and the regulations thereunder.

(b) Forfeiture of statutory good time not restored shall be deemed, in itself, to indicate that the prisoner has violated the rules of the institution to a serious degree.

The final sentence of § 2.53(a), which contains language to the same effect, would also be eliminated.

Dated: May 22, 1978.

CECIL C. McCALL,
Chairman,
U.S. Parole Commission.

DEPARTMENT OF JUSTICE
Parole Commission
[28 CFR Part 2]
PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS
Forfeiture of statutory "good time" as precluding parole
AGENCY: United States Parole Commission.
ACTION: Proposed rule.
SUMMARY: This proposal will clarify that the Commission does not simply accept a forfeiture of statutory "good time" as precluding the possibility of parole. Instead, the Commission would, under this proposal, make an assessment of the severity of the underlying violation before making a decision not to release a prisoner on the basis of misconduct. The reason for the proposed change is that disciplinary actions may vary from institution to institution, and sometimes may not reflect behavior serious enough to warrant parole denial.
DATES: Comments must be received by June 30, 1978.
ADDRESSES: Send comments to the United States Parole Commission, Federal Home Loan Bank Building, 320 First Street NW., Washington, D.C. 20537, Attention: Office of the General Counsel.
FOR FURTHER INFORMATION CONTACT: Michael A. Stover, Office of the General Counsel, Telephone: 202-724-3092.
SUPPLEMENTARY INFORMATION: The specific proposed rule change would be to eliminate from Title 28, Code of Federal Regulations, § 2.6(b), which states as follows:
(b) Forfeiture of statutory good time not restored shall be deemed, in itself, to indicate that the prisoner has violated the rules of the institution to a serious degree.
The final sentence of § 2.53(a), which contains language to the same effect, would also be eliminated.
Dated: May 22, 1978.
CECIL C. McCALL,
Chairman,
U.S. Parole Commission.

[4410-01]
[28 CFR Part 2]
PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS
Deportation as Consideration in Parole of Prisoner Subject to Immigration Detainer
AGENCY: United States Parole Commission.
ACTION: Proposed rule.
SUMMARY: The proposed rule would reflect a previous determination by the Commission that, when making a parole decision in a case in which the prisoner happens to be subject to an immigration detainer, the possibility of deportation should not enter into the Commission's consideration. Thus, the rule would provide that while a parole grant in such a case would recognize the necessity of first delivering the prisoner to the custody of the detaining authorities, it would also reflect a decision that the prisoner was suitable for release to supervision and residence in the U.S.A., if not deported. This change would avoid the procedural difficulties inherent in paroling prisoners for deportation only, when release to the community is not intended, as well as avoiding the necessity for involving the Commission in a decisional area not within its statutory competence (deportation).
DATES: Comments must be received by June 30, 1978.
ADDRESSES: Send comments to the United States Parole Commission, Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537, Attention: Office of General Counsel.
FOR FURTHER INFORMATION CONTACT: Michael A. Stover, Office of the General Counsel, Telephone 202-724-3092.
SUPPLEMENTARY INFORMATION: The proposal would amend Title 28, Code of Federal Regulation, § 2.32(b), to provide for only one type of parole order when the Commission wishes to parole a prisoner subject to a detainer filed by Federal immigration officials (instead of the present three). The text of paragraph (b) would be as follows:
§ 2.32 Parole to local or immigration detainers.
(b) When the Commission wishes to parole a prisoner subject to a detainer filed by Federal immigration officials, the Commission shall order the following:
Parole to the actual physical custody of the immigration authorities or an approved

plan. In this event, release is to be effected regardless of whether or not immigration officials take the prisoner into custody, providing there is an acceptable plan for community supervision.

Date: May 22, 1978.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 900-1]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

California Plan Revision: South Coast Air Quality Management District—Air Pollution Emergency Episode Regulations

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: It is the purpose of this notice to propose approval of and invite public comments on revisions to the South Coast Air Quality Management District's (SCAQMD) Regulation VII (Emergencies) that were submitted to EPA by the California Air Resources Board for inclusion in the California State Implementation Plan. These revisions deal with changes to the rules concerning the content of source abatement plans for certain sources and other minor non-substantive changes.

DATES: Comments may be submitted up to June 26, 1978.

ADDRESSES: Comments may be sent to: Regional Administrator, Attn.: Air and Hazardous Materials Division, Air Programs Branch, Technical Assistance Team (A-4), Environmental Protection Agency, Region IX, 215 Fremont Street, San Francisco, Calif. 94105. Copies of the proposed revisions and EPA's evaluation report are available for public inspection during normal business hours at the EPA Region IX office at the above address and at the following locations: South Coast Air Quality Management District, 9420 Telstar Avenue, El Monte, Calif. 91731. California Air Resources Board, 1102 Q Street, P.O. Box 2815, Sacramento, Calif. 95814. Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Charlotte Hopper, Technical Assistance Team, EPA, Region IX, 415-556-2002.

SUPPLEMENTARY INFORMATION: The October 13, 1977, and November 4, 1977, submittals from the California Air Resources Board contained revisions to the following rules:

RULE 702—DEFINITIONS

Emission source/receptor areas are delineated on an attached map and a definition of "air contaminant" is added.

RULE 708.2—CONTENT OF STATIONARY SOURCE CURTAILMENT PLANS

Rule 708.2 revisions pertain to the content of stationary source curtailment plans for first, second and third-stage sulfur dioxide episode. The rule provides for measures to curtail or postpone electrically-intensive industrial operations and import power from outside the basin. Combustion sources, including electrical utilities, shall have plans to burn natural gas during second and third stage SO₂ episodes. If natural gas is unavailable, low sulfur fuel oil may be used.

RULE 714—SOURCE INSPECTIONS

Rule 714 is modified to require implementation of a source inspection plan upon the declaration of any episode.

The following rules was added:

RULE 715.1—BURNING OF FOSSIL FUEL ON EPISODE DAYS

Rule 715.1 prohibits the burning of liquid or solid fossil fuel in electrical generating facilities on episode days unless natural gas is unavailable.

Under section 110 of the Clean Air Act as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the regulations as a SIP revision. The Regional Administrator has evaluated these revisions along side the requirements of 40 CFR 51.16 and the existing Regulation VII. The revisions are equal to or more stringent than the existing regulations. They are consistent with 40 CFR 51.16 and will prevent the significant harm level from being reached and are therefore approvable. No action is being taken, however, on that portion of Regulation 702 which defines "Air contaminants" as odors, as odors are not pollutants for which significant harm levels or National Ambient Air Quality Standards have been established.

The Regional Administrator hereby issues this notice proposing to approve these revisions and advises the public that interested persons may participate by submitting written comments to the Region IX office.

(Sec. 110, 301(a), Clean Air Act as amended (42 U.S.C. 7140, 7601(a)).)

Dated: April 26, 1978.

SHEILA M. PRINDIVILLE,
Acting Regional Administrator.

[40 CFR Part 52]

[FRL 901-6]

STATE OF MARYLAND

Proposed Revision of Implementation Plan;
Extension of Comment Period

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule—Extension of public comment period.

SUMMARY: This notice is a follow-up to a previous extension notice which appeared in the FEDERAL REGISTER on April 11, 1978 (43 FR 15167). The purpose of this notice is to further extend the public comment period for the notice of proposed rulemaking issued by EPA Region III on March 6, 1978 (43 FR 9162), pertaining to a proposed revision of the Maryland State Implementation Plan (SIP). The proposed plan revision refers to an exception request submitted to EPA by the State of Maryland on behalf of the Westvaco Corp., Luke, Md.

DATE: The public comment period has been extended to June 7, 1978.

ADDRESSES: Copies of the proposed revision, together with supporting documentation and correspondence, are available for public inspection during normal business hours at the offices of:

U.S. Environmental Protection Agency, Region III, Curtis Building, Tenth Floor, Sixth and Walnut Streets, Philadelphia, Pa. 19106.

Maryland Bureau of Air Quality and Noise Control, 201 West Preston Street, Baltimore, Md. 21201, Attn.: Mr. George P. Ferrel.

Public Information Reference Unit, Room 2922, EPA Library, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. Israel Milner, Manager, Plans Management Group, Air Programs Branch, U.S. Environmental Protection Agency, Region III, Curtis Building, 6th and Walnut Streets, Philadelphia, Pa. 19106, telephone 215-597-8174.

SUPPLEMENTARY INFORMATION: On March 6, 1978 (43 FR 9162), EPA issued a notice of proposed rulemaking pertaining to a proposed revision of the Maryland State Implementation Plan and on April 11, 1978 (43 FR 15167), the public comment period for

this notice was extended to May 8, 1978. The proposed plan revision refers to an exception request submitted to EPA by the State of Maryland on behalf of the Westvaco Corp., Luke, Md. The request would except Westvaco from the applicable State and Federal sulfur content-in-fuel regulations and at the same time, limit sulfur dioxide emissions from all fuel-burning equipment located as this facility to 49 tons per day.

This notice is to advise the public that the comment period on this exception request is extended until June 7, 1978. All comments submitted on or before that date will be considered as a basis for the Administrator's final determination with regard to this proposed SIP revision.

(42 U.S.C. 7401.)

Dated: May 12, 1978.

A. R. MORRIS,
Acting Regional Administrator.

[40 CFR Part 65]

[FRL 900-3]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of an Administrative Order Issued by the State of Colorado to U.S. Army Depot Activity, Pueblo, Colo.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the State of Colorado, through the Air Pollution Variance Board to the U.S. Army Depot Activity at Pueblo, Colo. The order requires the Army Depot to bring air emissions from its Boiler Plant Building No. 524 into compliance with certain regulations contained in the federally-approved Colorado State Implementation Plan (SIP) by February 28, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before June 26, 1978.

ADDRESSES: Comments should be submitted to Director, Enforcement Division, EPA, Region VIII, 1860 Lincoln Street, Denver, Colo. 80295. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Gary E. Parish, Enforcement Division, EPA, Region VIII, 1860 Lincoln Street, Denver, Colo. 80295, telephone 303-837-2361.

SUPPLEMENTARY INFORMATION: The order under consideration is set forth after the signature line below.

EPA, Region VIII, issued a notice of violation to the U.S. Army Depot Activity on December 2, 1977, for violation of Regulation 1, Sections I.A.1 and II.A. Although the Colorado order only addresses Regulation 1, Section I.A.1, Region VIII believes that the control equipment to be utilized (baghouses) should also provide for compliance with Section II.A. Approval of this order by EPA would be expressly conditioned so that final compliance by February 28, 1979, must occur for Sections I.A.1 and II.A of Regulation 1. Because this order has been issued to a major source of particulate emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under Section 113(d) of the Act. EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has preliminarily determined that the order complies with those requirements, but specifically requests public comment on those matters.

If the order is approved by EPA, source compliance with its terms would preclude federal enforcement action under Section 113 of the Act against the source for violations of the regulations covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the order would also constitute an addition to the [name of State] SIP.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon, and will contain the procedure for EPA's issuance, approval, and disapproval of orders under Section 113(d) of the Act. In addition, Part 65 will contain sections summarizing orders issued, approved and disapproved by EPA. A prior notice proposing regulations for Part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and

replaced by a notice promulgating these new regulations.)

(42 U.S.C. 7413, 7601.)

All interested persons are invited to submit written comments on proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. Final approval or disapproval will also be published in the FEDERAL REGISTER.

Dated: April 25, 1978.

ALAN MERSON,
Regional Administrator,
Region VIII.

BEFORE AIR POLLUTION VARIANCE BOARD,
STATE OF COLORADO, COLORADO DEPARTMENT OF HEALTH

DIVISION OF ADMINISTRATION

IN THE MATTER OF U.S. ARMY DEPOT ACTIVITY, PUEBLO

FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECISION

This matter was heard by the Colorado Air Pollution Variance Board (hereinafter "the Board") at its scheduled meeting on March 2, 1978 at the City Hall, Pueblo, Colo. The hearing was conducted at the request of the U.S. Army Depot Activity, at Pueblo, Colo. (hereinafter "the petitioner"), for the purpose of determining whether this Board should grant an order authorizing a specific period of variance from the provisions of Regulation No. 1, Section I.A.1 of the Air Pollution Control Commission for the purpose of petitioner's installation of control equipment. Such installation was to be upon an express timetable and schedule, and was to accomplish compliance of petitioner's Boiler Plant Building No. 524 with the above-referenced regulations.

A quorum of the Variance Board was present during the entire hearing and participated in deliberation and voting on this matter. Thomas D. Smart, Jr. presided over the hearing as Vice Chairman.

FINDINGS OF FACT

In accord with the full and complete agreement of the parties and based upon the evidence presented at and during the hearing on March 2, 1978, a record of the proceedings having been duly recorded and compiled by a certified shorthand reporter (which record is available to any party and for review by any member of the public, in accord with C.R.S. 1973, 25-7-116(3)), the Board has made the following findings of fact in support of its decision:

1. The petitioner's boiler stacks at Boiler Plant Building No. 524, located near Pueblo, Colo., were in violation of the Commission's Regulation No. 1, Section I.A.1. as alleged in the Cease and Desist Order issued by the Division on November 22, 1977. This finding is supported by petitioner's stipulation as to the validity and propriety of the Division's Cease and Desist Order.

2. The Division Order of November 22, 1977 applies to all five (5) boiler stacks located at Building No. 524. This finding is supported by the language of the Order and by petitioner's stipulation thereto.

3. Petitioner's Boiler Plant Building No. 524 is not capable of compliance with applicable emission control regulations without

installation of the control equipment proposed for installation (baghouse) or comparable equipment. This finding is supported by petitioner's stipulation thereto and by inspections and evaluations conducted by the Division.

4. Petitioner desires the grant of a variance for the purpose of installing sufficient control equipment at its Boiler Plant Building No. 524 to accomplish compliance with all applicable rules and regulations of the Colorado Air Pollution Control Commission and further desires to take such steps as may be necessary to assure that this Order of the Board is sufficient to meet all requirements of Section 113(d) of the Federal Clean Air Act, as amended (42 U.S.C. 7413(d)) ("delayed compliance orders"). This finding is supported by petitioner's stipulation thereto.

CONCLUSIONS OF LAW

In the course of its deliberations and ancillary to its findings and decision in this matter, the Board has made the following conclusions of law:

1. That the Colorado Air Pollution Variance Board has authority to accept, review, and grant or deny requests for hearings regarding requested variances and that it has the power to hold such public hearings, receive pertinent and relevant proof, rule on objections and motions, and do such other things as it deems necessary, proper, or desirable in order to effectively discharge its duties and responsibilities under Article 7 of Title 25, C.R.S. 1973, all in conformity with that statute and with Article 4 of Title 24, C.R.S. 1973. In the course of such a hearing, the board has specific authority to determine whether alleged violations of emission control regulations exist or did exist and to consider the granting of variances. (Section 25-7-113 and 25-7-115, C.R.S. 1973, as amended.)

2. That in the course of performing duties and exercising responsibilities delegated to this Board, a hearing afforded petitioner was conducted in accord with procedural requirements of the Colorado Administrative Procedure Act and all applicable provisions of the Colorado Air Pollution Control Act. The decision of the Board, set forth below, is based upon substantial evidence presented at the hearing.

3. That the provisions of the Commission's Regulation No. 1, Section I.A.1. have been and are now applicable to petitioner's boiler unit stacks at Building No. 524, U.S. Army Depot Activity, Pueblo, pursuant to provisions of Section 116 of the Federal Clean Air Act, as amended (42 U.S.C. 7416).

4. That as concerns violations alleged by the Division, the petitioner's boiler unit stacks at Boiler Plant Building No. 524 are subject to the 20 percent opacity standard set forth in the Commission's Regulation No. 1, Section I.A.1.; petitioner has alleged no facts upon which this Board could find the 40 percent standard, set forth at Section I.A.2.(d) of Regulation No. 1, applicable to the stacks at Boiler Plant Building No. 524.

5. That the Board, having determined violations to exist or have existed and having received a specific request for variance from the petitioner, has authority to grant a variance to the petitioner with express conditions pursuant to authority granted by C.R.S. 1973, Section 25-7-115(4). Petitioner has the burden of proof with regard to the necessity of propriety of any such variance. The determination of this Board is final and effective on the date of the grant or denial

of variance to the petitioner, subject to further action by the Commission pursuant to C.R.S. 1973, 25-7-116(9) or the grant of a rehearing by this Board, either or both of which must occur within thirty (30) days from the date of such grant or denial of variance.

DECISION AND ORDER

Upon formal motion and by unanimous vote, the Air Pollution Variance Board finds the U.S. Army Depot Activity, at Pueblo, Colo., in violation of Air Pollution Control Commission Regulation No. 1, Section I.A.1., relative to all five (5) boiler stacks located at Building No. 524, pursuant to the stipulation of Pueblo Depot Activity, at Pueblo, and based upon the testimony and exhibits presented by the Colorado Department of Health, Air Pollution Control Division.

The Colorado Air Pollution Variance Board hereby grants to the petitioner a variance from the application of Commission Regulation No. 1, Section I.A.1. and from the enforcement of a Cease and Desist Order issued by the Division on November 22, 1977, which Order pertains to the petitioner's Boiler Plant Building No. 524 at Pueblo, Colo. This variance is granted to allow for completion of construction and preliminary testing of four (4) new baghouse units. Petitioner shall employ its best efforts to achieve final compliance by December 29, 1978, but in no event shall petitioner fail to attain compliance by February 28, 1979. This variance shall expire on the date of attainment of compliance, but in any event not later than February 28, 1979, and shall be subject to the following specific terms and conditions:

1. Petitioner will implement a schedule for construction and final compliance as follows:

Completion of design, July 1, 1977 (complete).
Advertise for bids, July 15, 1977 (complete).
Award contract, October 17, 1977 (complete).
Submittal of schedule and bar charts not later than April 15, 1978.
Start construction, April 15, 1978.
Complete construction, December 1, 1978.
Complete testing, December 28, 1978.
Final compliance, no later than February 28, 1979.

Quarterly progress reports shall be submitted to the Division and the Variance Board in a form prescribed by the Division, and the Board shall be given four (4) weeks' prior notice of any anticipated failure to meet schedule dates.

2. During the interim period prior to the final compliance date, the following measures will be undertaken by the petitioner:

(a) The existing opacity monitoring equipment will be transferred to the baghouse stacks when the baghouses now under construction are put in service. Data on emissions collected by these monitoring systems shall be reported to the Division, in a form approved by the Division, on a quarterly basis.

(b) Ultimate and proximate analysis of coal shall be conducted, and results shall be reported to the Division, in a form approved by the Division, on a quarterly basis and at the time of any change of coal supply.

(c) Such operational measures as are considered practical and beneficial with respect to minimization of emissions shall be undertaken on a continuous basis. Such measures

shall include, but not be limited to, the following:

(i) The pressure drop across the multi-clone shall be maintained as close as is practical to optimum design values.

(ii) Operating procedures as prescribed in a letter from Robert Shepherd to John Clouse, dated February 23, 1978 shall be followed by the petitioner to the maximum extent possible.

(iii) Coal burned shall be of best quality obtainable through normal fuel supply channels with respect to heat, ash, and sulfur content, so as to consistently minimize total emissions.

(iv) All boilers will be operated at base load as much as is possible in accordance with steam-demand.

(v) Development of a contingency plan regarding operation of the boilers at Building No. 524 during periods of opacity in excess of 20 percent shall be completed by petitioner not later than April 15, 1978. This plan must be approved by the Division and shall be employed whenever opacity in excess of 20 percent is either observed or anticipated from the boiler stacks at Building No. 524.

3. Petitioner will comply to the best of its ability with the requirements of all applicable provisions of State and Federal regulations regarding air pollution, and is fully aware that, if final compliance is not achieved by July 1, 1979, sanctions will be imposed by USEPA (United States Environmental Protection Agency) pursuant to Section 120 of Federal Clean Air Act (42 USC 7420).

4. For purposes of ensuring that this Order of the Colorado Air Pollution Variance Board will be acceptable to the USEPA for approval and issuance pursuant to Section 113(d) of the Federal Clean Air Act, as amended (42 USC 7413(d)), the petitioner has expressed its desire to and does formally:

(a) Waive any and all of its rights provided under Colorado law for appeal of or challenge to the substantive merits of a Cease and Desist Order issued November 22, 1977 by the Air Pollution Control Division, Colorado Department of Health, and to any and all associated rights and claims for administrative or judicial stay of said Order.

(b) Waive any and all of its rights provided under Colorado law for appeal of or challenge to the substantive merits of any order issued by the Colorado Air Pollution Variance Board granting a variance in this matter, and to any and all associated rights for or claims to administrative or judicial stay of such Order.

5. Should the petitioner, U.S. Army Depot Activity, Pueblo fail to meet any of the above terms and conditions of this variance, the variance shall forthwith be rendered null and void in accord with the provisions of C.R.S. 1973, 25-7-115(4).

The following members of the Colorado Air Pollution Variance Board voted in favor of this decision: Thomas D. Smart, Jr., Lewis H. Hoyle, M.D., A. George Setter, E. W. Karger, Michael L. Gilbert, Samuel E. Forbes, and Gerald J. Devitt.

The following Board members voted against this decision: None.

Dated this 21st day of March, 1978, nunc pro tunc to March 2, 1978.

For the Air Pollution Variance Board of the State of Colorado,

THOMAS D. SMART, JR.,
Vice Chairman.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Tolerances for the Pesticide Chemical 2,6-Dimethyl-4-Tridecylmorpholine

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that the fungicide 2,6-dimethyl-4-tridecylmorpholine be used on bananas. The proposal was submitted by BASF Wyandotte Corp. This amendment to the regulations would establish a maximum permissible level for residues of 2,6-dimethyl-4-tridecylmorpholine on bananas.

DATE: Comments must be received on or before June 26, 1978.

ADDRESS COMMENTS TO: Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. John Lee, Product Manager (PM) 22, Registration Division (WH-567), Office of Pesticide Programs, EPA, 202-426-2454.

SUPPLEMENTARY INFORMATION: BASF Wyandotte Corp., 100 Cherry Hill Road, P.O. Box 181, Parsippany N.J. 07054, has submitted a pesticide petition (PP 6E1670) to the EPA. This petition proposes that 40 CFR Part 180 be amended by the establishment of a tolerance for residues of the fungicide 2,6-dimethyl-4-tridecylmorpholine in or on the raw agricultural commodity bananas at 0.1 part per million (ppm).

The data submitted in the petition and other relevant material have been evaluated. The toxicology data considered in support of the proposed tolerance included acute oral lethal dose 50 (LD₅₀) studies on rats (1,000 mg/kg body weight); 90-day dog and rat feeding studies with no-observable-effect levels (NOEL) of 800 ppm and 200 ppm, respectively; a two-year rat feeding study (NOEL 30 ppm); a three-generation rat reproduction study (NOEL 20 ppm); and mouse and rat teratogenic studies.

The acceptable daily intake (ADI) of the pesticide is 0.015 mg/kg of body weight based on the two-year rat-feeding study with an NOEL of 30 ppm. The proposed tolerance would contribute 0.2 percent of the ADI to the diet and will not exceed the ADI.

The subject pesticide is a referral chemical undergoing review for possible rebuttable presumption against registration candidacy because one of the pesticide's metabolites is the suspect carcinogen morpholine. Although an oncogenicity study in a second mammalian species is missing, this study is not essential to making a safety determination because: (1) The theoretical maximal residue contribution (TMRC) of 0.002 mg/day is considered toxicologically insignificant, (2) no residues of either the plant metabolite 2,6-dimethylmorpholine or its N-nitroso derivative were found in bananas treated with the subject pesticide, (3) no residues of unsubstituted morpholine are expected to be present in the bananas, (4) the existing oncogenic study in rats conducted at levels which produced toxicological effects did not reveal the presence of increased oncogenic activity among the pesticide-treated animals, and (5) the proposed tolerance was raised from 0.1 ppm in or on bananas and 0.05 ppm in the pulp to 0.1 ppm in or on the bananas due to the lack of an adequately sensitive analytical method and not the presence of residues in excess of 0.05 ppm in the pulp.

No permanent tolerances have previously been established for residues of the pesticide, and an adequate analytical method (colorimetry) is available for enforcement purposes. The metabolism of the pesticide is adequately understood. There is no reasonable expectation of residues in eggs, meat, milk, or poultry as delineated in 40 CFR 180.6(a)(3). The pesticide is considered useful for the purpose for which a tolerance is sought, and it is concluded that the tolerance of 0.1 ppm established by amending 40 CFR Part 180 will protect the public health. It is proposed, therefore, that the tolerance be established as set forth below.

Any person who has registered, or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before June 26, 1978, that this rule-making proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "PP6E1670/P70". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the Federal Register from 8:30 a.m. to 4 p.m., Monday through Friday.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348a(e)).)

Dated: May 19, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

It is proposed that Part 180, Subpart C, be amended by adding the new §180.372 containing a tolerance for residues of 2,6-dimethyl-4-tridecylmorpholine on bananas to read as follows:

§ 180.372 2,6-Dimethyl-4-tridecylmorpholine; tolerances for residues.

A tolerance is established for residues of the fungicide 2,6-dimethyl-4-tridecylmorpholine in or on the following raw agricultural commodity:

Commodity:	Parts per million
Bananas.....	0.1

[49 CFR Part 1121]

[Ex Parte No. 274 (Sub-No. 21A)]

ABANDONMENT OF RAILROAD LINES AND DISCONTINUANCE OF SERVICE

Identification and Handling of Related Rail Abandonment Applications

AGENCY: Interstate Commerce Commission.

ACTION: Extension of time for filing comments in the above-entitled rule-making proceeding.

SUMMARY: The purpose of this document is to announce an extension of the time for filing comments in the above-entitled rulemaking proceeding.

DATES: Comments must be received on or before June 16, 1978.

ADDRESSES: Send comments to: Section of Finance, Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Edward J. Schack, 202-275-7581.

SUPPLEMENTARY INFORMATION: The time for filing comments in the above-entitled proceeding, originally set as May 15, 1978, is now extended to June 16, 1978. No further extensions will be granted.

H. G. HOMME, Jr.,
Acting Secretary.

IDENTIFICATION AND HANDLING OF RELATED RAIL ABANDONMENT APPLICATIONS

I have considered the record in this proceeding including (1) the notice of proposed policy statement and proposed revisions of regulations published in the FEDERAL REGISTER on April 14, 1978, volume 43, page 15754,

and (2) the request for an extension of time for filing comments to the notice filed on May 12, 1978, by the Executive Office of Transportation and Construction, designated State agency for rail matters for the State of Massachusetts.

In the request for an extension of time, the Executive Office of Transportation and Construction states that it was not given notice of the proposed policy statement and should be given an opportunity to comment beyond the 30 days set forth in the FEDERAL REGISTER notice.

Subsequent to publication of the notice of April 14, 1978, the Commission received a corrected address listing for many of the designated State agencies entitled to comment in this proceeding.

In view of the fact that many of these State agencies were not served with the FEDERAL REGISTER publication, I find that good cause has been shown for extending the time for filing comments to June 18, 1978.

It is ordered: (1) The time for filing comments to the FEDERAL REGISTER publication of April 14, 1978, is extended to June 18, 1978.

(2) Notice of this decision shall be given to the general public by filing a copy with the Director, Office of the FEDERAL REGISTER.

Decided: May 22, 1978.

By the Commission, Robert J. Brooks, Director, Office of Proceedings.

H. G. HOMME, Jr.,
Acting Secretary.

DEPARTMENT OF THE TREASURY CUSTOMS SERVICE

[19 CFR Part 101]

GENERAL PROVISIONS

Proposed Changes in the Field Organization of the Customs Service

AGENCY: United States Customs Service, Department of the Treasury.

ACTION: Proposed rule.

SUMMARY: This notice proposes to change the field organization of the Customs Service by changing the status of Point Roberts, Washington, from a Customs station under the supervision of the port of Blaine, Washington, to a new port of entry in the Seattle, Washington, Customs district. This change is needed because of administrative problems resulting from the unique geographical location of Point Roberts.

Also proposed is the revocation of the designation of Hogansburg, Morristown, and Waddington, New York, as Customs stations in the Ogdensburg, New York, Customs district. Due to minimal Customs transactions at these stations, they have not been

staffed for several years. The areas they once served are adequately covered by the ports of entry at Massena and Ogdensburg, New York.

DATES: Comments (preferably in 3 copies) must be received on or before June 26, 1978.

ADDRESS: Comments may be addressed to the Commissioner of Customs, Attention: Regulations and Legal Publications Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

FOR FURTHER INFORMATION CONTACT:

Robert Schenarts, Inspection and Control Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229, 202-566-8151.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The Customs station of Point Roberts, Washington, is located at the tip of a peninsula just south of the 49th parallel which is part of the boundary between the United States and Canada. It is almost entirely surrounded by the Strait of Georgia and Boundary Bay. Due to its location, Point Roberts is isolated from the port of Blaine, Washington, its supervising Customs port. Custom officers from Blaine must either cross Boundary Bay by vessel or go north into Canada, proceed westerly and then southerly down the peninsula into Whatcom County, Washington, to reach Point Roberts. This isolation causes many administrative problems for the Customs station of Point Roberts and the port of entry at Blaine. Therefore, it is proposed to create a new port of entry at Point Roberts. This would allow Customs to provide better on-site port administration and supervision of the border crossing station and would facilitate the entry and clearance of yachts at Point Roberts.

If this proposal is adopted, the status of Point Roberts would be changed from a Customs station to a port of entry in the Customs district of Seattle, Washington (Region VIII). The port limits would be the same as the present station limits, that is, all the land below the 49th parallel and constituting the peninsula known as Point Roberts, Whatcom County, Washington.

It also is proposed to revoke the designation of Hogansburg, Morristown,

and Waddington, New York, as Customs stations in the Customs district of Ogdensburg, New York (Region II). Due to minimal Customs transactions at these stations, they have not been staffed for several years. The areas they once served are adequately covered by the ports of entry at Massena and Ogdensburg, New York.

These field organization changes are proposed by the Customs Service as part of a continuing program to obtain more efficient use of its personnel, facilities and resources, and to provide better service to carriers, importers, and the public.

If adopted, the list of Customs ports of entry in section 101.3 of the Customs Regulations (19 CFR 101.3) and the list of Customs stations in section 101.4 of the Customs Regulations (19 CFR 101.4) would be amended to reflect the changes.

COMMENTS

Before adopting this proposal, consideration will be given to any written comments that are submitted timely to the Commissioner of Customs. Comments submitted will be available for public inspection in accordance with section 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) during regular business hours at the Regulations and Legal Publications Division, Room 2335, Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

AUTHORITY

This change is proposed under the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR, 1949-1953 Comp., Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 14 (43 FR 35239).

DRAFTING INFORMATION

The principal author of this document was Teresa M. Polino, Regulations and Legal Publications Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Dated: May 17, 1978.

BETTE B. ANDERSON,
Under Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

CERTAIN STOCKYARDS AND LIVESTOCK MARKETS

Notice of Approval

The regulations in 9 CFR part 76, as amended, contain restrictions on the interstate movement of swine and swine products to prevent the spread of hog cholera and other swine diseases. This document adds certain livestock markets to the list of livestock markets approved for purposes of the regulations on the basis of a determination of their eligibility for such approval under § 76.18 of the regulations and removes from the list certain other livestock markets which have been found no longer to qualify for such approval.

The following livestock markets preceded by an asterisk are specifically approved to handle any class of swine and those livestock markets not preceded by an asterisk are specifically approved to handle slaughter swine only:

Effective date: The foregoing notice shall become effective on May 26, 1978.

This action imposes certain restric-tions necessary to prevent the spread of hog cholera and relieves certain re-strictions presently imposed. It should become effective promptly to accom-plish its purpose in the public interest and to be of maximum benefit to per-sons subject to the restrictions which are relieved. Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public pro-cedure with respect to this action are impracticable and contrary to the public interest, and good cause is found for making this notice effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of May 1978.

NOTE.—The Animal and Plant Health In-spection Service has determined that this

document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

M. T. Goff,
Acting Assistant
Administrator, Veterinary Services.

NONFAT DRY MILK, BUTTER, CHEDDAR CHEESE AND PEANUTS

Monthly Sales List (Period June 1, 1977 Through May 31, 1978)

The CCC Monthly Sales List for the period June 1, 1977 through May 31, 1978, published at 42 FR 40945 (Aug. 12, 1977), as amended at 42 FR 54582 (Oct. 7, 1977), 43 FR 4079 (Jan. 31, 1978) and 43 FR 13595 (March 31, 1978) is further amended as follows:

1. Sections 27, entitled "Nonfat Dry Milk-Unrestricted Use Sales" 28, entitled "Butter-Unrestricted Use Sales", and 29, entitled "Cheddar Cheese-Unrestricted Use Sales" are deleted.

2. Section 27 is added which reads as follows:

27. Nonfat Dry Milk—Unrestricted Use Sales (Instore-Carlot Quantities):

1. Market price, but not less than 78 cents per pound for U.S. Extra Grade spray process in 50 pound bags. Sales are made under Announcement PV-DS-2.

2. Competitive offer basis: From time to time an invitation will be issued for competitive offers under Announcement PV-DS-1 to purchase nonfat dry milk which is 20 months old or older and/or has moisture content of 4.2 percent but not more than 5.0 percent.

3. Section 28 is added which reads as follows:

28. Butter—Unrestricted Use Sales (Instore-Carlot Quantities): Market price, but not less than 11 cents per pound over CCC's purchase price at each location for U.S. Grade A or higher in 60 to 68-pound blocks. Sales are made under Announcement PV-DS-2.

4. Section 29 is added which reads as follows:

29. Cheddar Cheese—Unrestricted Use Sales (Instore-Carlot Quantities): Market price, but not less than \$1.14 per pound (standard moisture basis) for U.S. Grade A or higher in 40 pound blocks. Sales are made under Announcement PV-DS-2.

5. Section 31 entitled "Peanuts Farmers Stock—Restricted Use Sales—Crushing or Export" is amended by deleting item 2 entitled "Segregation 2 lots."

(Sec. 4, 62 Stat. 1070, as amended (15 U.S.C. 714b); sec. 407, 63 Stat. 1055, as amended (7 U.S.C. 1427).)

Effective Date: Item 1 8:15 a.m. (EST) March 8, 1978. Items 2, 3, 4 and 5 2:30 p.m. (EST) March 31, 1978.

Signed at Washington, D.C., on May 22, 1978.

Forest Service

COOPERATIVE WESTERN SPRUCE BUDWORM PROGRAM FINAL ENVIRONMENTAL STATEMENT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for control of the western spruce budworm in Washington, USDA-FS-R6-FES(Adm)-78-6.

The environmental statement sets forth several management alternatives for managing western spruce budworm populations in 1978. Eight alternatives are presented, ranging from no treatment to intensive chemical control on Federal, State, and private lands in Whatcom, Kittitas, Chelan, and Okanogan Counties in Washington during the spring and summer of 1978 with carbaryl.

This final environmental statement was transmitted to EPA on May 17, 1978.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3210, 12th Street and Independence Avenue SW., Washington, D.C. 20013.

USDA, Forest Service, Pacific Northwest Region, 319 Southwest Pine Street, Portland, Ore. 97204.

Okanogan National Forest, 1240 Second Avenue South, Okanogan, Wash. 98840.

Wenatchee National Forest, 301 Yakima Street, Wenatchee, Wash. 98801.

National Park Service, Pacific Northwest Region, 4th and Pike, Seattle, Wash. 98101.

Washington State Department of Natural Resources, Public Lands Building, Room 201, Olympia, Wash. 98504.

A limited number of single copies are available upon request to Regional Forester R. E. Worthington, Pacific Northwest Region, P.O. Box 3623, Portland, Ore. 97208.

Copies of the final environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Dated: May 17, 1978.

ALAN FOX,
Acting Regional Environmental
Coordinator, Planning, Pro-
gramming, and Budgeting

Rural Electrification Administration

UNITED POWER ASSOCIATION

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Draft Environmental Impact Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with a request for a loan guarantee commitment from the Rural Electrification Administration from the United Power Association of Elk River, Minnesota. This loan guarantee commitment is planned to assist in obtaining financing for the construction of one 60 MW coal-fired supplemental steam generator at the Stanton Generating Station in Mercer County, N. Dak.

Additional information may be secured on request, submitted to Mr. Richard F. Richter, Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Draft Environmental Impact Statement are being sent to various Federal, State and local agencies, as outlined in the Council on Environmental Quality Guidelines. The Draft Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. or at the borrower's address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Richter at the address given above. Comments must be received on or before July 25, 1978 to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after requirements set forth

in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 22 day of May 1978.

JOSEPH VELLONE,
Acting Administrator,
Rural Electrification Administration.

CIVIL AERONAUTICS BOARD

[Docket 31808]

CHICAGO-ALBANY/SYRACUSE-BOSTON COMPETITIVE SERVICE INVESTIGATION

Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in the above-entitled proceeding is assigned to be held on June 20, 1978, at 9:30 a.m. (local time), in Room 1003, Hearing Room B, Universal North Building, 1875 Connecticut Avenue NW., Washington, D.C., before the undersigned Administrative Law Judge.

For information concerning the issues involved and other details of this proceeding, interested persons are referred to the various documents which are in the docket of this case on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., May 22, 1978.

GREER M. MURPHY,
Administrative Law Judge.
[FR Doc. 78-14805 Filed 5-25-78; 8:45 am]

[6320-01]

[Dockets 32396, et al.; Order 78-5-120]

CONNER AIRLINES, ET AL.

Applications; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of May 1978.

Applications of Conner Airlines, Docket 32396; Capitol International Airways, Docket 32538; Evergreen International Airways, Docket 32334; Overseas National Airways, Docket 32346; Rich International Airways, Docket 32337; Southern Air Transport, Docket 32342; Trans International Airlines, Docket 32336; World Airways, Docket 32341; Zantop International Airlines, Docket 32335; for grandfather section 418 certificates.

By Pub. L. 95-245, Congress amended section 418 of the Act to include within the group of carriers eligible to receive grandfather all-cargo service certificates those that have a valid certificate under section 401(d)(3) of the

Act and have provided supplemental air transportation carrying only cargo at any time during the period from January 1, 1977, through March 14, 1978.¹ Applications for this authority were filed by Conner Airlines, Capitol International Airways, Evergreen International Airlines, Overseas National Airways, Rich International Airways, Southern Air Transport, Trans International Airlines, World Airways, and Zantop International Airlines.

No answers or further information on these applications have been received.

We have determined that, with the exception of Conner Airlines, the above-referenced carriers are in compliance with section 418(a)(3) and should receive all-cargo service certificates. Conner Airlines, however, admits that it does not have a supplemental certificate under section 401(d)(3). Its allegations that it should have been granted one in 1962 (37 CAB 745 (1962)) are irrelevant. As we have pointed out in previous orders under the grandfather provisions of section 418, we have no discretion in the issuance of these certificates. Congress has stated that the Board shall certificate a carrier that fulfills the requirements of section 418 (a)(1), (a)(2), or (a)(3) and has not given us the authority to waive any of the prerequisites or exempt applicants from them.

Accordingly, it is ordered, That: 1. The following carriers² be issued all-cargo service certificates under section 418, in the form attached: Capitol International Airways, Evergreen International Airlines, Overseas National Airways, Rich International Airways, Southern Air Transport, Trans International Airlines, World Airways, and Zantop International Airlines; and 2. The application of Conner Airlines in Docket 32396 be denied.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.³

PHYLLIS T. KAYLOR,
Secretary.
[FR Doc. 78-14806 Filed 5-25-78; 8:45 am]

¹Section 418 was amended by Pub. L. 95-245 to add a new provision, section 418(a)(3), which reads as follows: "(3) Any citizen of the United States who has a valid certificate issued under section 401(d)(3) of this title and who provided supplemental air transportation carrying only cargo at any time during the period from January 1, 1977, through the date of enactment of this section may, during the forty-five day period beginning on April 1, 1978, submit an application to the Board for a certificate under this section to provide all-cargo air service. Such application shall contain such information and be in such form as the Board shall by regulation require."

²Certificates filed as part of the original document.

³All Members concurred.

[6320-01]

[Docket 31185; Order 78-5-122]

HUGHES AIR CORP., D.B.A. HUGHES AIRWEST

Certificate of Public Convenience and
Necessity; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of May 1978.

By application dated July 25, 1977, Airwest asked the Board to amend its certificate of public convenience and necessity under Subpart M by removing existing one-stop restrictions and granting it unrestricted nonstop authority in the Reno-Los Angeles/Spokane markets. Requests for summary dismissal and answers opposing the application were filed by United, Western, and Pacific Southwest Airlines (PSA). Supporting answers were filed by the Reno, Spokane, and Canadian parties,¹ and the Washington Utilities and Transportation Commission. Airwest filed a reply to the opposing answers.

In addition to this application, Airwest filed a Subpart A application, Docket 31718, seeking Reno-Los Angeles authority.

PSA filed a motion to consolidate its application in Docket 30659 (asking for nonstop authority between Los Angeles/Burbank and Reno) with this proceeding.² Answers opposing that motion were filed by United, Western and Airwest. Reno answered in support.

Subsequently, both the PSA application and Airwest's Subpart A application were consolidated with the *California-Nevada Low Fare Route Proceeding*, Docket 31574. See Orders 78-1-16 and 77-10-136.

On January 27, 1978, Airwest filed a motion asking that: (1) the Reno-Los Angeles portion of its Subpart M application be dismissed without prejudice, and (2) the Reno-Spokane portion be granted without further procedures. Answers supporting that motion were filed by the Spokane parties, the Canadian parties, and the Washington Utilities and Transportation Commission. Western filed an answer asking that Airwest be prohibited from operating single-plane service between the Los Angeles area, San Diego, Phoenix, and the San Francisco Bay area, on the one hand, and Calgary and Edmonton, on the other hand.

We have decided: (1) To grant Airwest's motion to dismiss without pre-

¹The Reno Parties are the City of Reno and the Greater Reno Chamber of Commerce. The Spokane Parties are the City of Spokane, Spokane County, and the Spokane Area Chamber of Commerce. The Canadian Parties are the Calgary Transportation Authority and the Edmonton Area Air Services Commission.

²In view of our disposition here, PSA's motion will be dismissed.

judice the Reno-Los Angeles portion of its application, and (2) to issue this show-cause order proposing to grant it unrestricted nonstop authority between Reno and Spokane.

The service needs of the Reno-Los Angeles market will be fully explored in the *California-Nevada* proceeding in which Airwest is a party. Since it would be inefficient to consider the needs of that market in two separate proceedings, we will dismiss without prejudice the Reno-Los Angeles portion of Airwest's application.

Turning to Reno-Spokane, we have, on the basis of the tentative findings below, tentatively concluded that Airwest should be granted nonstop authority in the market. Reno-Spokane is a small market of 8,790 O&D plus interline connecting passengers, and it receives single-plane service only from Airwest. Although United holds nonstop authority, it has provided no nonstop service in 10 years and no single-plane service since 1969. Removal of Airwest's one-stop restriction will potentially benefit both the carrier and the public with little harm to any other carrier.

In the original round of answers opposing Airwest's Subpart M application, the objections focused almost entirely on the Reno-Los Angeles market. In response to Airwest's January 27 motion, no answers were filed opposing Airwest's request for Reno-Spokane authority or its request that the authority be granted without further procedures. Interested parties have thus had two opportunities to come forward with reasons why the Board should not grant Airwest nonstop authority in the Reno-Spokane market. Under these circumstances, we feel that nothing would be gained by instituting a formal oral hearing. This order will afford the parties yet another opportunity to be heard.

While Western does not object to the grant of Reno-Spokane nonstop authority, it asks that Airwest be prohibited from operating single-plane service in the San Diego/Phoenix/Los Angeles area/San Francisco area-Calgary/Edmonton markets on nonstop flights between Reno and Spokane until final Board decision in the *California-Alberta* case, Docket 28198. In support of that request, Western argues that at Airwest's request in the Western realignment proceeding, the Board stayed any improvement in Western's *California-Alberta* authority via Great Falls, pending a decision in the *California-Alberta* case;³ and that Reno-Spokane nonstop authority will result in improved *California-Alberta* authority for Airwest, thereby prejudicing Western's position in the case.

³See Order 78-2-8, issued February 1, 1978.

We have tentatively decided to deny Western's request. First, we declined to stay improvement of Western's Phoenix/San Diego-Alberta authority on the ground that those markets were not at issue in the *California-Alberta* case. Order 78-2-8, p. 3, n. 7. Thus, the stay was issued only for the Los Angeles area/San Francisco Bay area-Alberta markets. Moreover, we expressly stated that we did not grant the stay on the ground that improving Western's authority would prejudice Airwest's position in the *California-Alberta* case. Rather, we did so on the basis of administrative convenience. Id., at 3. Thus, Western is wrong about our basis for issuing the order on which it relies.

Most importantly, Western's best authority in the relevant markets was being improved from two-stop to one-stop. Here, removing a one-stop restriction on Airwest's authority between Reno and Spokane will result in an improvement of its *California-Alberta* authority (via Reno and Spokane) from three-stop to two-stop. Airwest, however, already has one-stop authority in the Los Angeles-Alberta markets (via Las Vegas), and two-stop authority in the San Francisco-Alberta markets (via Spokane). It is thus apparent that awarding Airwest nonstop Reno-Spokane authority will not improve its best authority between California and Alberta. Therefore, Order 78-2-8, staying improvement of Western's *California-Alberta* authority is not controlling here. Furthermore, in view of the foregoing facts, we do not feel that Western's position in the *California-Alberta* case will be prejudiced by removal of the one-stop restriction on Airwest's Reno-Spokane authority.

We therefore tentatively find that the public convenience and necessity require the amendment of Airwest's certificate to grant it unrestricted nonstop authority in the Reno-Spokane market, and that it is fit, willing and able to perform properly the air transportation proposed in its application, and to conform to the Act, and to the rules, regulations, and requirements of the Board.

Accordingly, it is ordered, That: 1. All interested persons be directed to show cause why the Board should not make final the tentative findings stated here and why Hughes Airwest should not be issued an amended certificate of public convenience and necessity in the form attached, granting it unrestricted nonstop authority between Reno, Nev., and Spokane, Wash.;

2. Any interested person objecting to the issuance of an order making final the tentative findings, or to the issuance of the proposed foreign air carrier permit, shall file a statement of objections, fully supported by evidence,

within 20 days after the service date of this order; answers to objections shall be filed within 10 days thereafter;

3. If timely and properly supported objections are filed, the Board will accord full consideration to all matters and issues raised by the objections before it takes further action;

4. If no objections are filed, all further procedural steps will be considered waived, and the Board may enter an order adopting as final the tentative findings set forth here; and

5. Except to the extent granted here, Airwest's petition in Docket 31185 be dismissed;

6. Pacific Southwest Airline's motion to consolidate with this proceeding its application in Docket 30659 be dismissed; and

7. This order shall be served on Hughes Airwest, United Air Lines, Western Air Lines, Pacific Southwest Airlines, the Reno, Spokane, and Canadian parties and the Washington Utilities and Transportation Commission.

By the Civil Aeronautics Board.*

PHYLLIS T. KAYLOR,
Secretary.

[Specimen Certificate]

CERTIFICATE OF PUBLIC CONVENIENCE AND
NECESSITY FOR LOCAL SERVICE (AS AMENDED)
FOR ROUTE 78

HUGHES AIR CORP. D.B.A. HUGHES AIRWEST

is authorized, subject to the following provisions, the provisions of title IV of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued under it, to engage in air transportation of persons, property, and mail:

Between the terminal point Seattle-Tacoma, Wash. (to be served through Seattle-Tacoma International Airport), the intermediate points Astoria-Seaside, Portland, Albany-Corvallis, Eugene, Bend-Redmond, North Bend-Coos Bay, Medford, and Klamath Falls, Oreg., Crescent City, Eureka-Arcata, Red Bluff-Redding, and Chico, Calif., Reno, Nev., Santa Rosa, Sacramento, Stockton, Oakland, San Francisco, San Jose, Monterey-Salinas, Fresno, Bakersfield, Santa Maria, Santa Barbara, Palmdale-Lancaster, Oxnard-Ventura, Riverside-Ontario, Burbank, Los Angeles-Ontario, Orange County-Santa Ana-Anaheim, San Diego, Indio-Palm Springs, El Centro, and Blythe, Calif., Yuma, Tucson, Phoenix, Prescott, Kingman, and Grand Canyon, Ariz., Las Vegas, Nev., Page, Ariz., Cedar City and Salt Lake City, Utah, Twin Falls, Pocatello, Idaho Falls, Sun Valley-Halley-Ketchum, and Boise, Idaho, Lewiston, Idaho-Clarkston, Wash., Pullman, Wash.-Moscow, Idaho, Walla Walla, Pasco-Kennewick-Richland, Yakima, Wenatchee, Ephrata-Moses Lake, and Spokane, Wash., and Kalispell, Mont., and the terminal point Great Falls, Mont.

This service is subject to the following terms, conditions, and limitations:

*Since the Board has provided for the filing of objections to this order, it will not entertain petitions for reconsideration.

*All Members concurred.

(1) The holder shall render service to and from each of the points named, except as temporary suspensions of service may be authorized by the Board; and may begin or terminate, or begin and terminate, trips at points short of terminal points.

(2) The holder may continue to serve regularly any point named here through the airport it last used regularly to serve that point before the effective date of this certificate. Upon compliance with such procedures as may be prescribed by the Board, the holder may, in addition, regularly serve a point named here, other than a point required to be served through a single airport, through any convenient airport.

(3) On each trip operated over all or part of Route 76, the holder shall stop at each point named between the point of origin and point of termination of the trip except at a point or points where (a) the Board, under such procedure as the Board may from time to time prescribe, by order relieves it from this requirement, (b) the holder is authorized to suspend service, (c) the holder is unable to render service on the trip because of adverse weather conditions or other conditions which it could not reasonably foresee or control, or (d) the holder has scheduled at least two daily round trips, in which case it may omit the point or points on any additional trips scheduled over all or part of said route, subject to the conditions set forth in paragraphs (4), (5), and (6) below:

(4) The holder shall schedule service to a minimum of one intermediate point between the following pairs of points:

Bakersfield, Calif., to:

Portland, Oreg.

Salt Lake City, Utah.

Seattle-Tacoma, Wash.

Spokane, Wash.

Boise, Idaho, to:

 Spokane, Wash.
 Seattle-Tacoma, Wash., to:
 Stockton, Calif.
 Tucson, Ariz.
 Spokane, Wash., to:
 Stockton, Calif.

Provided: That the holder may schedule nonstop service (i) between San Francisco and Los Angeles-Ontario, Calif. (when served through the Los Angeles International Airport), (1) on flights which also serve Chico, Calif., or a point north thereof, *Provided, further:* That if said flights serve Eugene or Medford, Oreg., they shall also serve Portland or a point north thereof, or (2) on flights which also serve a point south of Los Angeles other than Orange County-Santa Ana-Anaheim, Indio-Palm Springs or San Diego, Calif., (ii) between Portland, Oreg., and San Francisco, Calif., on flights which also serve a point south of San Jose, Calif., or a point north of Portland, and (iii) between San Diego and Los Angeles-Ontario, Calif. (when served through the Los Angeles International Airport), on flights which also serve a point north of Burbank, Calif., or east of San Diego.

(5) The holder shall schedule service to a minimum of two intermediate points between the following pairs of points:

Boise, Idaho, to:
 Oakland, Calif.
 San Diego, Calif.
 Burbank, Calif., to:
 Great Falls, Mont.
 Idaho Falls, Idaho
 Pocatello, Idaho
 Portland, Oreg.
 Great Falls, Mont., to:
 Los Angeles-Ontario, Calif.
 Oakland, Calif.
 Portland, Oreg.
 Riverside-Ontario, Calif.
 Salt Lake City, Utah
 San Francisco, Calif.
 San Jose, Calif.
 Seattle-Tacoma, Wash.
 Tucson, Ariz.
 Idaho Falls, Idaho, to:
 Las Vegas, Nev.
 Los Angeles-Ontario, Calif.
 Oakland, Calif.
 Riverside-Ontario, Calif.
 Sacramento, Calif.
 San Diego, Calif.
 San Francisco, Calif.
 San Jose, Calif.
 Indio-Palm Springs, Calif., to:
 Portland, Oreg.
 Seattle-Tacoma, Wash.
 Las Vegas, Nev., to:
 Pocatello, Idaho
 Los Angeles-Ontario, Calif., to:
 Pocatello, Idaho
 Los Angeles-Ontario, Calif. (when served through the Ontario International Airport), to:

Portland, Oreg.
 Los Angeles-Ontario (when served through the Los Angeles International Airport), to:
 Seattle-Tacoma, Wash.
 Oakland, Calif., to:
 Salt Lake City, Utah
 Seattle-Tacoma, Wash.
 Orange County-Santa Ana-Anaheim, Calif., to:
 Portland, Oreg.
 Pocatello, Idaho, to:
 San Diego, Calif.
 Portland, Oreg., to:
 San Diego, Calif.
 San Jose, Calif.
 Spokane, Wash.
 Riverside-Ontario, Calif., to:
 Pocatello, Idaho
 Riverside-Ontario, Calif. (when served through the Ontario International Airport), to:
 Portland, Oreg.
 Sacramento, Calif., to:
 Seattle-Tacoma, Wash.
 San Diego, Calif., to:
 Seattle-Tacoma, Wash.
 San Francisco, Calif., to:
 Salt Lake City, Utah
 San Jose, Calif., to:
 Seattle-Tacoma, Wash.

(6) The holder shall schedule a minimum of three intermediate points between the following pairs of points:

Seattle-Tacoma, Wash., to:
 Burbank, Calif.
 Los Angeles-Ontario, Calif. (when served through the Ontario International Airport)
 Orange County-Santa Ana-Anaheim, Calif.
 Riverside-Ontario, Calif. (when served through the Ontario International Airport)

Provided: That the holder may schedule a minimum of two intermediate points on flights between Seattle-Tacoma and Orange County-Santa Ana-Anaheim if Reno, Nev., is served as one of those intermediate points.

(7) The holder shall serve Spokane, Wash., on all flights serving Great Falls, Mont., on the one hand, and Salt Lake City, Utah, or Tucson, Ariz., on the other hand.

(8) If the holder has scheduled (a) one daily round trip to Sun Valley-Halley-Ketchum, Idaho, Cedar City, Utah, or Blythe, Calif., or to Bend-Redmond, Oreg., on flights serving Portland, Oreg., or (b) two round trips five days a week to Prescott, Kingman, Grand Canyon, or Page, Ariz., the holder may omit such point on any additional trip.

(9) The holder shall not provide turnaround service between Tucson and Phoenix, Ariz.

(10) The holder shall not provide single-plane service through the Ontario International Airport between Los Angeles-Ontario or Riverside-Ontario, Calif., and San Jose, Calif.

(11) The holder is authorized to render flag-stop service by omitting the physical landing of its aircraft at any intermediate point scheduled to be served on a particular flight: *Provided,* That there are no persons, property, or mail on the aircraft destined for that point and no traffic available there for the flight at the scheduled time of departure.

(12) The holder's authority to engage in the transportation of mail in these operations listed in Appendix A, Categories I

and II of Order 78-1-116, as amended by Order —, is limited to carriage on a nonsubsidy basis, i.e., on a service mail rate to be paid entirely by the Postmaster General; the authority listed in these categories shall, for purposes of profit sharing, be treated separately. The authority to operate over the segments listed in Category II is conditioned upon compliance with the interim accounting procedure for profit sharing adopted in Docket 28800.

(13) The holder's authority to serve Ephrata-Mose Lake, Wash., is suspended.

The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

The services authorized by this certificate were originally established pursuant to a determination of policy by the Civil Aeronautics Board that in the discharge of its obligation to encourage and develop air transportation under the Civil Aeronautics Act, as amended, it is in the public interest to establish certain air carriers who will be primarily engaged in short-haul air transportation as distinguished from the service rendered by trunkline air carriers. In accepting this certificate, the holder acknowledges and agrees that the primary purpose of this certificate is to authorize and require it to offer short-haul local or feeder, air transportation service of the character described above.

The holder acknowledges and agrees that it is entitled to receive only service mail pay for the mail service rendered or to be rendered solely in connection with operations specified in paragraph (12), and that it is not authorized to request or receive any compensation for mail service rendered or to be rendered for such operations in excess of the amount payable by the Postmaster General.

This certificate shall be effective on — *Provided, however,* That the continued authority to operate nonstop between (a) Spokane and Los Angeles/Reno, and (b) Phoenix and Des Moines/Milwaukee shall be conditioned on timely payment by the holder of such license fee as may be appropriate under rules to be prescribed by the Board.

The Civil Aeronautics Board has directed its Secretary to execute this certificate and to affix the seal of the Board on the —

PHYLLIS T. KAYLOR,
 Secretary.

FEDERAL TRADE COMMISSION

CIGARETTE TESTING RESULTS

Tar and Nicotine Content

The Federal Trade Commission's laboratory has determined the "tar" (dry particulate matter) and total alkaloid (reported as nicotine) content of 167 varieties of domestic cigarettes. The laboratory utilized the Cambridge filter method with the specifications set forth in the Commission's announcement dated July 31, 1967 (32 FR 11178). The varieties are arranged in alphabetical order with tar values rounded to the nearest whole milligram and nicotine values rounded to the nearest tenth of a milligram.

**MID-ATLANTIC FISHERY MANAGEMENT
COUNCIL'S SCIENTIFIC AND STATISTICAL
COMMITTEE**

Public Meeting

The Scientific and Statistical Committee of the Mid-Atlantic Fishery Management Council, established under section 302(g) of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), will meet June 12, 1978, at Brandywine Hilton, 195 and Naamans Road, Claymont, Delaware 19703. The meeting starts at 9 a.m. on June 12, 1978, and will end at approximately 3 p.m.

Proposed Agenda: (1) Review of Butterfish and Shark Fishery Management Plans; (2) Develop priority list for fishery management; (3) Review of Surf Clam Situation.

Meeting is open to the public. For more information on seating, changes to the agenda, and/or written comments, contact John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, Room 2115, Federal Building, North and New Streets, Dover, Delaware, telephone 302-674-2331.

Dated: May 22, 1978.

WINFRED H. MEIBOHM,
Associate Director,
National Marine Fisheries Service.

**COMMITTEE FOR PURCHASE FROM
THE BLIND AND OTHER SEVERELY
HANDICAPPED**

PROCUREMENT LIST 1978

Additions

AGENCY: Committee for Purchase

from the Blind and Other Severely Handicapped.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to Procurement List 1978 services to be provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: May 26, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street N., Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On February 10 and February 17,

1978, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (43 FR 5861 and 43 FR 6992) of proposed additions to Procurement List 1978, November 14, 1977 (42 FR 59015).

After consideration of the relevant matter presented, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48(c), 85 Stat. 77.

Accordingly, the following services are hereby added to Procurement List 1978:

SIC 7349

Janitorial/Custodial (SH), Including Light Fixture Cleaning, Veterans Administration Building, 252 Seventh Avenue, New York, N.Y.

SIC 7399

Shrink Wrapping Gift Packages (SH), Item No. 825.
U.S. Postal Service, Item No. 826.
Washington, D.C., Item No. 827.

C. W. FLETCHER,
Executive Director.

PROCUREMENT LIST 1978

Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Addition to Procurement List.

SUMMARY: The Committee has received a proposal to add to Procurement List 1978 military resale items produced by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: June 28, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street N., Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a) (2), 85 Stat. 77.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the military resale items listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following military resale items to Procurement List 1978, November 14, 1977 (42 FR 59015): I73 Military Resale Item No. and Name

No. 555.—Scrubber, Kitchen.
No. 556.—Scrubber, Bathroom.

No. 557.—Scrubber, General Household.
No. 598.—Cutlery Set, H.D., Plastic.
No. 597.—Knives, H.D., Plastic.
No. 598.—Forks, H.D., Plastic.
No. 599.—Spoons, H.D., Plastic.

C. W. FLETCHER,
Executive Director.

DEPARTMENT OF ENERGY

Office of Energy Technology

**LIGNITE SUBCOMMITTEE, FOSSIL ENERGY
ADVISORY COMMITTEE**

Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Lignite Subcommittee of the Fossil Energy Advisory Committee will meet Thursday, June 15, 1978, at 9 a.m. in Room 125 at the Grand Forks Energy Research Center, 15 North 23rd Street, Grand Forks, North Dakota.

The purpose of the Subcommittee is to advise the Secretary of Energy with regard to the Grand Forks Energy Research Center's activities which pertain to developing technology for the use of lignite and other low-rank coal. The agenda for the meeting is as follows:

9 a.m.—Opening Remarks.

9:15 a.m.—DOE Fossil Energy Organization Program Status and Plans for fiscal year 1978, 1979, 1980.

9:45 a.m.—General Summary of Grand Forks Energy Research Center (GFERC) Program and Facilities Status and Plans.

10:15 a.m.—Details of GFERC Technical Program fiscal year 1978 and Plans for fiscal year 1979-80: Gasification, Liquefaction, Combustion, Emissions Control, Analytical Research and Support.

11:30 a.m.—Lunch Break and Tour of Center.

1 p.m.—Continue Detailed Discussion of GFERC Technical Program.

1:30 p.m.—Activities at Area Universities.

1:45 p.m.—Discussion by the Subcommittee: Plans for 1979 Lignite Symposium; Low-Rank Coal Lead Center Status for GFERC; Reinstatement of Low-Rank Coal Preparation Program at GFERC; Need for Lignite Mining Research North Dakota Lignite Development and Research Needs; Gulf Coast Lignite Development and Research Needs.

4 p.m.—Public Comments (10 Minute Rule), Concluding Remarks.

The meeting is open to the public. The Chairman of the Subcommittee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Subcommittee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform

Georgia Hildreth, Acting Director, Advisory Committee Management, 202-566-9996, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

The transcript of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C. on May 23, 1978.

WILLIAM P. DAVIS,
Deputy Director of
Administration.

Office of Special Counsel for Compliance

[Case No. 680R00205]

PHILLIPS PETROLEUM CO.

Action Taken on Consent Order

Pursuant to 10 CFR § 205.199J, the Economic Regulatory Administration (ERA) of the Department of Energy (DOE), hereby gives notice of final action taken on a Consent Order. Under the terms of 10 CFR § 205.199J(c), no Consent Order involving sums in excess of \$500,000 shall become effective until DOE publishes notice of its execution and solicits and considers public comments with respect to its terms. On September 15, 1977, DOE published Notice of a Consent Order which was executed between Phillips Petroleum Co. (Phillips) and DOE (42 FR 46393, September 15, 1977). With that notice, and in accordance with 10 CFR § 205.199J(c), DOE invited interested persons to comment on the Consent Order. The only comment received by DOE with respect to the Consent Order concerned the proposed remedy for \$977,890.54 in overcharges which DOE alleged to have occurred in Phillips' sales of No. 2 heating oil and kerosene to Union Petroleum Corp. (Union) during 1974, 1975, and 1976. The comment recommended that the Consent Order contain express provisions to protect Union's customers who may have been overcharged as a result of the alleged excessive prices.

10 CFR § 205.199J(a) empowers the DOE to provide such remedies as it determines are necessary. Accordingly, after giving due consideration to the comment received, DOE is concurrently issuing an Ancillary Order to Union Petroleum Co. requiring Union to:

a. Deposit the total amount of the refund from Phillips into a special segregated account to which interest will be accrued.

b. Maintain in the special account all amounts deposited and all amounts earned and/or accumulated on the deposit until otherwise directed by designated officials of the Department of Energy.

c. Keep the account available for inspection, audit, and other purposes deemed necessary by the Department of Energy.

With the issuance of the Ancillary Order to Union, DOE has concluded that the Consent Order as executed between DOE and Phillips is an appropriate resolution of the compliance proceedings described in the Notice published on September 15, 1977, and hereby gives notice that the Consent Order shall become effective on May 27, 1978.

Issued in Washington, D.C., on the 23rd day of May, 1978.

PAUL L. BLOOM,
Special Counsel for Compliance.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 902-11]

ENVIRONMENTAL IMPACT STATEMENTS

Receipt

Pursuant to the President's Reorganization Plan No. 1, the Environmental Protection Agency is the official recipient for environmental impact statements (EIS's) and is required to publish the availability of each EIS received weekly. The following is a list of environmental impact statements received by the Environmental Protection Agency from May 15, through May 19, 1978. The date of receipt for each statement is noted in the statement summary. Under the Guidelines of the Council on Environmental Quality the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days; the date of submission of comments is July 10, 1978. The thirty (30) day period for each final statement begins the day the statement is made available to the Environmental Protection Agency and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: May 23, 1978.

PETER F. SMITH,
Acting Director,
Office of Federal Activities.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Barry Flamm, Coordinator, Environmental Quality Activities, U.S. Department of Agriculture, Room 359A, Washington, D.C. 20250, 202-447-3965.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

The comment period for the following draft EIS has been shortened to June 5, 1978, due to restraints placed upon the agency by the court system.

Draft

Japanese Beetle Regulatory Program, May 17: This statement presents the selection criteria of the Japanese Beetle regulatory program of retarding the artificial movement of the Japanese Beetle by aircraft from infested areas to the following noninfested States: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington, and certain foreign countries. Approximately seven airports in the infested area may be declared hazardous due to high populations of Japanese Beetles in the coming year. Approximately 3,000 aircraft will require some type of chemical treatment (USDA-APHIS, (ADM)-78-1-D). (ELR Order No. 80522.)

FOREST SERVICE

Final

Upper Cispus Unit Plan, Gifford Pinchot National Forest, Lewis, Skamania, and Yakima Counties, Ore., May 16: Proposed is the implementation of a comprehensive land use plan for the Upper Cispus Planning Unit, Gifford Pinchot National Forest, the unit covers 183,960 acres of land, of which 114,630 acres lie in Lewis County, 64,930 acres lie in Skamania County, and 4,400 acres lie in Yakima County. Primary land allotments are for purposes of timber management, wilderness study, dispersed recreation, and allocation to key wildlife habitat. Adverse effects include those caused by additional people in the area (USDA-FS-R8-FES(ADM)-78-1). Comments made by: USDA, FERC, EPA, DOE, DOI, State and local agencies, and groups and individuals and businesses. (ELR Order No. 80516.)

Lone Tree unit plan, Gifford Pinchot National Forest, Lewis and Skamania Counties, Wash., May 16: The proposed action describes alternative management plans for national forest land in the lone tree planning unit, located in Lewis and Skamania Counties, Wash. Included is 1,480 acres of private land and 113,370 acres of national forest land administered by the Gifford Pinchot National Forest's Randle ranger district. The Lone Tree unit is 1 of 16 such units on the Gifford Pinchot National Forest. The geographic center of the unit is about 65 airline miles northeast of Vancouver, Wash., and Portland, Oregon Metropolitan Area, and 70 miles southeast of the Seattle/Tacoma area (USDA-FS-R6-FES(ADM)-78-5). Comments made by: DOE, HUD, FERC, DOT, EPA, USDA, DOI, State and local agencies, and groups, individuals, and businesses. (ELR Order No. 80515.)

RURAL ELECTRIFICATION ADMINISTRATION

Draft

Black Fox station units 1 and 2, guaranteed loan, Rodgers County, Okla., May 19: This statement concerns the use of REA guaranteed loan funds by Western Farmers Electric Cooperative of Anadarko, Oklahoma and Associated Electric Cooperative, Inc., to finance a 39.19 percent undivided ownership interest in units 1 and 2 of the Black Fox station, Rodgers County, Okla. The station would consist of two boiling water reactors producing up to 3,579 megawatts thermal per unit. Steam turbine generators would use this heat to provide 1,150 megawatts of electrical power capacity per unit (USDA-FEA-EIS(ADM)-78-4-D). (ELR Order No. 80532.)

U.S. ARMY CORPS OF ENGINEERS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Norfolk Lake highway bridges, U.S. 62 and AR-101, Baxter County, Ark., May 16: The purpose of this proposed project is to connect two segments of U.S. Highway 101, which are presently separated by Norfolk Lake, located in township 19 north, range 12 west Baxter County, Ark. The project consists of the construction of two high level, 2-lane, fixed bridges referred to as U.S. 62 and Arkansas 101 and the necessary bridge approaches. The U.S. 62 bridge would span 3,460 feet long and Arkansas 101 would be 2,880 feet long, eight alternates are considered (Little Rock District). (ELR Order No. 80511.)

Draft

Richard B. Russell Dam and Lake, pumped storage, several counties in Georgia and South Carolina, May 15: The proposed action concerns the installation of pump storage units at the Richard B. Russell Dam and Lake located in the counties of Elbert and Hart, Ga., and Abbeville and Anderson Counties, S.C. The units consist of four 75,000 kW reversible motor generator units driven by four reversible pump turbines. The reversible pump turbines will be in the dam located on the Savannah River. The turbines for the pump units will be a vertical shaft, single unit reversible pump type (Savannah District). (ELR Order No. 80509.)

Madison Parish Port Improvement, Madison County, La., May 15: The proposed project concerns improvements to the Madison Parish Port, Madison Parish, La. The actions involved are the creation of a 9 by 150 foot access channel with a 35 by 1,100 foot turning basin in a sand bar west of the main channel of the Mississippi River. Dredged material from construction and maintenance operations will be deposited in confined, upland areas designated for disposal. A total of 610,000 cubic yards of material will be removed from the sand bar during construction. The project will also include a fluting and berthing area that will be constructed by local interests (Vicksburg District). (ELR Order No. 80597.)

Final

Potomac River water supply structures, counties in Maryland and Virginia, May 18: Proposed is the corps' issuance of three

pending permit applications for structures associated with water supply facilities on the Potomac River. Plans call for construction of a diversion weir across the north channel of the Potomac River near Watkins Island, Montgomery County, by the Washington Suburban Sanitary Commission (WSSC); the replacement of the existing intake structure at that location by WSSC; and the construction of an intake facility at Lowes Island, Loudoun County, VA., by the Fairfax County Water Authority (FHWA-VA-EIS-77-01-F). Comments made by: EPA, USDA, DOC, DOI, State agencies, and individuals. (ELR Order No. 80523.)

Lutsen and Beaver Harbors of Refuge, Lake Superior, Cook and Lake Counties, Minn., May 18: The statement proposes the construction of two harbors-of-refuge at Lutsen and Beaver Bay, Minn. The project is part of a continuous system of harbors for small craft along the north shore of Lake Superior at 30 to 40 mile intervals. Structures necessary at the Lutsen site would cover one acre of lake bottom, and one acre would be dredged. At the Beaver Bay site, structures would cover 0.05 acre of land and 2 acres would be dredged. In addition, an indetermined amount of lake bottom and land area would be utilized for project-induced secondary developments (St. Paul District). Comments made by: EPA, USDA, DOC, HUD, HEW, DOI, CGD, DOT, AHP, State and local agencies, and groups and individuals. (ELR Order No. 80526.)

Final supplement

GIWW dredge, channel to Rockport (S-2), Texas, May 16: This statement supplements a final EIS filed with CEQ in January 1976. The proposed action is periodic maintenance dredging of the channel to Rockport, Tex., which is a tributary channel to the Gulf Intracoastal waterway (GIWW). The project is a shallow-draft channel and turning basin in Aransas Bay adjacent to Rockport. The project includes a channel 9 feet deep by 200 feet wide from the main channel of the GIWW to the city of Rockport. The project also includes a turning basin near Rockport 9 feet deep by 1,255 feet long (Galveston District). Comments made by: EPA, DOC, DOI, DOT, CGD, USDA, AHP, and State and local agencies. (ELR Order No. 80514.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Wallace Stickney, Environmental Protection Agency, Region 1, JFK Federal Building, Boston, Mass. 02203, 617-223-4635.

Final supplement

Scarborough wastewater collection, disposal system, Cumberland County, Maine, May 17: This statement supplements a final EIS filed in May 1977 concerning step II grant funds for the Scarborough sanitary district for the design and construction of a sanitary sewerage system in Scarborough, Cumberland County, Maine. The final EIS recommended a preferred alternative which, due to subsequent studies, has been shown as not feasible. As a result, another alternative has been selected for consideration which involves the construction of a 1.8 MGD wastewater treatment facility at Prout's Neck with an ocean outfall off Prout's Neck for disposal of the treated effluent. (ELR Order No. 80518.)

GREAT LAKES BASIN COMMISSION

Contact: Mrs. Lee Batts, Chairman, GLBC, 3475 Plymouth Road, Post Office

Box 48106, Ann Arbor, Michigan 48106, 313-668-2300.

The following draft EIS has been issued by the Great Lakes Basin Commission to fulfill the requirement of the EIS process and the Resource Study. Therefore the review has been extended to 90 days.

Draft

Maumee River Basin Study, several counties, Michigan, Ohio, and Indiana, May 18: The proposed action involves the Maumee Level B Plan which includes provisions for the conservation, development, and use of water and related land resources consistent with the interests of the local citizens, the States of Michigan, Indiana, and Ohio, and the Nation. The plan preparation process was designed to fulfill the environmental impact analysis requirements of the National Environmental Policy Act. The proposed action proposes future programs to meet resource needs and problems needs and problems in the areas of land resources management, erosion and sedimentation, water quality, wildlife, hunting and flooding in the Maumee Bay. (ELR Order No. 80525.)

DEPARTMENT OF THE INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 4256, Interior Building, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF LAND MANAGEMENT

Draft

Hot Desert Grazing Management Plan, Dixie Resource, Washington County, Utah, May 19: This statement concerns livestock grazing management plans in 529,564 acres of public land in the Dixie Resource Area, Washington County, Utah. The plan will involve 42 allotment plans, 14 custodial plans and 3 plans to eliminate grazing. Four basic systems are proposed which consist of: (1) A 1-year rest period on 401,271 acres; (2) delayed grazing on a portion of each allotment during the growing season; (3) delay of grazing until after the growing season; and (4) season long use primarily during the winter period (DES-78-21). (ELR Order No. 80528.)

Draft

Sandy Area Livestock Grazing Management, several counties, Wyoming, May 19: This statement concerns a grazing management program for the Sandy Area located in Sweetwater, Lincoln, Sublette and Fremont Counties, Wyo. The project proposes management of grazing on approximately 1,997,330 acres and no grazing on 970 acres. The plan will involve 18 allotment plans (Amp's) and 13 custodial pastures employing a variety of grazing/rest rotation plans. The action will also provide for, within the Amp's, seasonal use, proper grazing, allowance of animal unit months (AUM), Available boundaries, grazing land treatment, and conversion of livestock qualification in AUM's. (DES-78-22). (ELR Order No. 80529.)

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Contact: Mr. Nathaniel Cohen, Director, Office of Policy Analysis, National Aeronautics and Space Administration, 4400 Maryland Avenue, Washington, D.C. 20546, 202-755-8433.

Final Supplement

Space Shuttle Program (S-2), May 16: The proposed program entails the development

of a reusable space shuttle system for carrying payloads to near-Earth orbit and back to Earth, production of the necessary vehicles, and operations beginning in 1979 and extending for at least a decade. This revisor of a 1972 broad program statement considers systems design changes and other recently derived information in assessing environmental effects. Potential adverse effects include air pollution and noise from rocket exhausts at test and launch sites, sonic boom at launch and landing sites, and a small decrease in stratospheric ozone concentration. Comments made by: AHP, USDA, USAF, HEW, DOI, STAT, and State and local agencies. (ELR Order No. 80513.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

Draft

Terrestria Planned Unit Development, Stone Bridge, Camden County, N.J., May 16: The proposed action concerns the issuance of land acquisition and development, and subdivision feasibility mortgage insurance for the residential development of Terrestria (Stone Bridge Run), Gloucester Township, Camden County, N.J. The development will consist of mixed residential uses with 2,765 dwelling units of a variety of types including single-family detached, townhouses, duplexes, and high rise apartments, seven acres are to be used for shopping and 81 acres of flood plain will be left undeveloped (HUD-R02). (ELR Order No. 80520.)

Final

Larchmont Natomas Development, Rancho Cordova, Sacramento County, Calif., May 15: Proposed is the development of a residential development incorporating public and commercial land uses, containing 240 acres, 1,295 dwelling units, and an ultimate population estimated at 4,250. The project is located in the community of Rancho Cordova, Sacramento County, Calif. (HUD-R09-EIS-77-6F). Comments made by: AHP, USDA, COE, HEW, DOT, GSA, and State and local agencies. (ELR Order No. 80506.)

Final

I-95/Route 40 Growth Corridor, New Castle Co., New Castle County, Del., May 19: The proposed action is for the Department of HUD to accept the New Castle County 1985 general comprehensive plan and to accept future HUD project applications within the I-95/Route 40 growth corridor for processing without applying the automatic 500-unit EIS threshold if they are in compliance with the plan and this EIS. The 18.5-mile growth corridor would provide living accommodations for approximately 40,000 people by the year 1995. Adverse effects include the loss of approximately 1,500 acres of forested land and 5,000 acres of prime and productive farmland, and increased air and water pollution. (ELR Order No. 80531.)

West Park Hills & Countryside Developments, Hennepin County, Minn., May 19: Proposed is the issuance of mortgage insurance under section 203(B) for 764 dwelling units comprising portions of the countryside and West Park Hills housing developments in the city of Bloomington, Hennepin

County, Minn. The developments cover .86 square mile for which approximately 1,275 housing units are planned. Adverse impacts include the removal of 1 square mile of agricultural land and wildlife habitat from production; increased demand for public services and facilities; increased air and noise pollution; increased pressure for development; and construction-related pollution. (HUD-R05-EIS-78-02-D.) Comments made by: FERC, DOT, GSA, VA, EPA, DOI, HUD, DOC, and State and local agencies. (ELR Order No. 80538.)

Robinwood Subdivision, formerly North Forest, Montgomery County, Tex., May 18: The proposed action is for the Department of HUD to accept for HUD/FHA mortgage insurance purposes the 199,186 acre Robinwood subdivision located in Montgomery County, Tex. When completed in approximately 6 years, the subdivision will contain approximately 763 single-family homes, plus some possible proposed multifamily housing, and commercial and recreational facilities to serve the needs of the subdivision. The proposed project has been renamed from North Forest to Robinwood since the draft EIS was filed. (HUD-R06-EIS-78-14F.) Comments made by: USDA, EPA, DOI, DOT, AHP. (ELR Order No. 80510.)

The following are community development block grant statements prepared and circulated directly by applicants pursuant to section 104(H) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local executive. Copies are not available from HUD.

SECTION 104(H)

Draft

Rochester Circulation Plan, Central Business District, Monroe County, N.Y., May 19: The proposed action is a request by the city of Rochester for HUD block grant funds for a circulation plan for the city of Rochester's central business district, Monroe County, N.Y. The action involves the conversion of three-tenths of a mile of Main Street into a pedestrian/transit with widened sidewalks, Main Street between St. Paul Street and Chesnut Street will become a two lane curbed roadway section with bus lanes at stops. To accommodate traffic volume, reclassification of key thoroughfares will be made in the core retail area, and new street construction will be considered. (ELR Order No. 80530.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

U.S. 20 and MA-85, Marlborough, Middlesex County, Mass., May 15: The proposed action is the relocation of U.S. 20 and MA-85 in the city of Marlborough, Middlesex County, Mass. The proposed segments include a 700-foot west section and a 650-foot east section of Route 20 south of its present alignment and the 1,250-foot south section of relocated Route 85 west of the present route. These segments will complete the relocation of these roadways as four-lane uncontrolled access arterials. To build alternatives are being considered in addition to a nonbuild alternative (FHWA-MASS-EIS-78-02-D). (ELR Order No. 80508.)

Draft

Kipling to Independence, I-70 to Ralston Road, Jefferson County, Colo., May 17: This project consists of the location and construction of a four-lane arterial through the Kipling/Independence Corridor. The corridor is located in the northwest quadrant of the Denver Metropolitan Area and south central portion of the city of Arvada, Jefferson County, Colo. In addition to a no-build alternative, four others are being considered which are: (1) The existing route along Kipling/Independence; (2) extend Kipling north to Arvada Cemetery and transition into Independence; (3) transition from Kipling to Independence along the public service power lines and extend up Independence; (4) extend Kipling north to Ralston Road. (FHWA-COLO-EIS-78-01-D)(ELR Order No. 80521.)

Dubuque north-west arterial U.S. 20 to U.S. 52 and Iowa-3, Dubuque County, Iowa, May 18: The proposed project pertains to the construction of a divided four-lane highway facility beginning at U.S. 20 in the vicinity of its intersection with Crescent Ridge Road in the west-central portion of Dubuque and proceeding northerly and to intersect with U.S. 52 and Iowa-3 northerly of West Thirty-Second Street, a distance of approximately 5.0 miles. The project is located within the Dubuque Metropolitan Area in Dubuque County, Iowa (FHWA-IOWA-EIS-78-01-D). (ELR Order No. 80517.)

Powell Boulevard, Phase II, Mt. Hood, Highway 28, Multnomah County, Oreg., May 18: The proposed project is to widen and improve a portion of SE. Powell Boulevard from SE. 50th to SE. 92nd Avenue, west of I-205, the city of Portland and Multnomah County, Oreg. In addition to a no-build alternative, three build alternatives are being considered, which would widen the 40-foot roadway to 80 feet with two travel lanes in each direction, left-turn refuges, bus pull-out bays, no on-street parking, and a coordinated signal system. The alternatives differ in the width of right-of-way and other features (FHWA-OR-EIS-78-7-D). (ELR Order No. 80512.)

Taylor Drive CTH TA, Sheboygan County, Wis., May 17: The proposed action concerns the construction of a major arterial roadway in Sheboygan City, Sheboygan County, Wis. The roadway, to be known as CTH "TA" Taylor Drive, will extend northward from CTH PP to North Avenue and then eastward to STH 42. The construction will consist of the initial 1.16-mile segment of new roadway with approximately 250 feet of right-of-way and the upgrading of a 3.0-mile segment of existing roadway, the majority of which will be contained within the existing right-of-way (FHWA-WISC-EIS-77-02-D). (ELR Order No. 80519.)

Draft Supplement

Supplement Freeway 408, Barry to Quincy, Pike and Adams Counties, Ill., May 15: This statement supplements a draft EIS filed in February 1974 concerning a proposed highway project consisting of constructing a section of supplemental freeway FAP 408 between the cities of Barry and Quincy in Pike and Adams Counties, Ill. When completed FAP 408 will establish a freeway across midstate Illinois connecting the major metropolitan terminal of west-central Illinois, Springfield and Quincy. The project will involve approximately 1,100 acres and will provide a four-lane, full access control facility for a length of about

26 miles (FHWA-ILL-EIS-74-01-D). (ELR Order No. 80505.)

Final

Route 168—Great Bridge Bypass, Chesapeake County, Va., May 18: Proposed is the construction of Route 168 Great Bridge Bypass located within the city of Chesapeake. The facility will consist of two 24-foot wide lanes separated by a 40-footwide depressed median, beginning just south of Kegman Road and proceeding in a northerly direction for 4.4 miles to the intersection of Oak Grove Road and Battlefield Boulevard. The entire facility will be on new location and will cross the Chesapeake and Alberman Canals. Adverse effects include the relocation of 29 families and 2 businesses and the destruction of approximately 2.6 acres of wetlands (Region 3). FHWA-VA-EIS-77-01-F. Comments made by: DOI, USDA, EPA, DOC, CGD, and State agencies. (ELR Order No. 80524.)

URBAN MASS TRANSPORTATION ADMINISTRATION

Final

Dade County Metro Rail Transit, Dade County, Fla., May 18: Proposed is the granting of UMTA Federal grant assistance for a fixed rail rapid transit project in Metropolitan Dade County, Fla., beginning in the vicinity of Dadeland and extending 20.5 miles northeasterly to the central business district of Miami. Adverse impacts include the demolition of 100-150 commercial buildings and 575-650 residential units; loss of some vegetation; and construction-related impacts. (UMTA No. FL-03-0036). Comments made by: DOC, DOD, COE, HEW, DOI, DOT, CGD, EPA, State and local agencies, and groups and individuals. (ELR Order No. 80527.)

INFORMATION REPORTS

The EPA has received the following reports which provide supplemental information on proposals which have fulfilled the NEPA process. Copies of the reports are available from the originating agency upon request.

U.S. Army, Corps of Engineers, Dr. C. Grant Ash, Office of Environmental Policy Department, Attention: DAEN-CWR-P, Office of the Chief of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20310, 202-693-6795.

ELR No., Date received, and Title

80533—May 19, 1978—Clarification Statement to Mount Morris Operation and Maintenance FEIS dated June 1975, Livingston County, N.Y.

80534—May 19, 1978—Clarification Statement Pointe Mouillee Dredged Material Disposal Facility, Monroe County, Mich., FEIS dated April 5, 1974.

80535—May 19, 1978—Clarification Statement to Maintenance Dredging of the Federal Navigation Channels in the Saginaw River and Saginaw Bay, Mich.

80537—May 19, 1978—Supplement II, Information Supplement to Chief Joseph Dam Additional Units, Environmental Impact Statement, Columbia River, Wash., Relocation of Road and Utilities.

OFFICIAL CORRECTION AND EXTENSION OF TIME

In the FEDERAL REGISTER dated April 21, 1978 EPA incorrectly listed a final

EIS as a Draft. The review period has been officially extended to June 10, 1978. The statement should be listed as:

Contact: Mr. William Geise, Environmental Protection Agency, Region 8, 1880 Lincoln Street, Denver, Colo. 80203, telephone 303-837-4831.

Final

Denver Regional Wastewater Facilities, Colorado, April 12: Proposed is the construction, improvement, and/or expansion of the municipal wastewater collection and treatment systems for the Denver region in Colorado. The region includes the following planning areas: South Adams County, Englewood and Littleton, South Lakewood, Cherry Creek and Goldsmith Gulch, Lower South Platte, Clear Creek and Sand Creek, Westminster and Broomfield, Northglenn and the Metropolitan Denver Sewage Disposal District No. 1. Adverse impacts include construction site erosion, runoff, and stream channelization (Region 8). (EPA-90815-77-001A.) Comments made by: USDA, DOI, FEA, HEW, HUD, State and local agencies, and groups and individuals. (ELR Order No. 80553.)

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT SCIENTIFIC ADVISORY PANEL

Open Meeting

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Notice of open meeting.

SUMMARY: There will be a two-day meeting of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel from 9:30 a.m. to 4:30 p.m. daily on Wednesday and Thursday, June 14, and 15, 1978. The meeting will be held in Room 1112A, Crystal Mall, Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va., and will be open to the public.

FOR FURTHER INFORMATION CONTACT:

Dr. H. Wade Fowler, Jr., Executive Secretary, FIFRA Scientific Advisory Panel, Office of Pesticide Programs (WH-566), Room 803, Crystal Mall, Building 2, 1921 Jefferson Davis Highway, Arlington, Va., telephone 703-557-7560.

SUPPLEMENTARY INFORMATION: In accordance with section 25(d) of the amended FIFRA, the Scientific Advisory Panel will comment on the impact on health and the environment of regulatory actions under section 6(b) and 25(a) prior to implementation. The purpose of this meeting is to discuss the following topics:

1. Review of the Agency's decision concerning continued registration of chlorobenzilate products;

2. Presentation of the decision options being considered by the Agency to conclude the endrin RPAR (rebuttable presumption against registration); and

3. In addition, the Agency may present status reports on other ongoing programs of the Office of Pesticide Programs.

Any member of the public wishing to attend or submit a paper should contact Dr. H. Wade Fowler, Jr., at the address or phone listed above to be sure that the meeting is still scheduled. Interested persons are permitted to file written statements before or after the meeting, and may upon advance notice to the Executive Secretary, present oral statements to the extent that time permits. Written or oral statements will be taken into consideration by the Panel in formulating comments or in deciding to waive comments. Persons desirous of making oral statements must notify the Executive Secretary and submit copies of a summary no later than June 9, 1978.

Individuals who wish to file written statements are advised to submit ten copies of statements to the Executive Secretary in a timely manner to ensure appropriate consideration by the Panel.

(Section 25(d) of FIFRA, as amended (86 Stat. 973; 89 Stat. 751); (7 U.S.C. 136(a) et seq.) and Sec. 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770).)

Dated: May 22, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

FOOD ADDITIVE PETITION AMENDMENT

Filing

On December 21, 1976, the Environmental Protection Agency (EPA) announced (41 FR 55570) that Ciba-Geigy Corp., Agricultural Division, P.O. Box 11422, Greensboro, N.C. 27409, had submitted a petition (FAP 7H5156) which proposed to amend 21 CFR Part 561 by establishing a food additive regulation permitting the use of the insecticide O-(4-bromo-2-chlorophenyl) O-ethyl S-propyl phosphorothioate in a proposed experimental program involving application of the insecticide to growing cotton with a tolerance limitation of 9.0 parts per million (ppm) in soapstock hulls and 3.0 ppm in cottonseed hulls for residues of the insecticide and its metabolites converted to 4-bromo-2-chloro-

phenol and calculated as O-(4-bromo-2-chlorophenyl) O-ethyl S-propyl phosphorothioate. The applicant has submitted an amendment to this petition increasing the proposed tolerance to 15 ppm for soapstock hulls and 6 ppm for cottonseed hulls.

Notice of this submission is given pursuant to section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this petition to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW, Washington, D.C. 20460. Inquiries concerning this petition may be directed to Special Registration Branch, Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone at 202-755-4851. Written comments should bear a notation indicating the petition number. Comments may be made at any time while a petition is pending before the agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: May 19, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

[FRL 900-5; PF-1021]

PESTICIDE AND FOOD ADDITIVE PETITIONS

Filing

Pursuant to the provisions of sections 408(d)(1) and 409(b)(5) of the Federal Food, Drug, and Cosmetic Act, the Environmental Protection Agency (EPA) gives notice that the following petitions have been submitted to the Agency for consideration.

PP8F2077, Rhodia Inc., Agricultural Division, P.O. Box 125, Monmouth Junction, N.J. 08852. Proposes that 40 CFR 180.346 be amended by the establishment of a tolerance for residues of the herbicide oxadiazon (2-tert-Butyl-4-(2,4-dichloro-5-isopropoxyphenyl)-Δ¹,3,4-Oxadiazolin-5-one) and its metabolites in or on almonds, apples, and grapes at 0.05 part per million (ppm) and almond hulls at 1.0 ppm. The proposed analytical method for determining residues is by electron capture gas liquid chromatography. PM24. (202-755-2197).

FAP6H5128, Interregional Research Project No. 4, New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903; on behalf of the (1) IR-4 Technical Committee; (2) Agricultural Experiment Station of California, California Department of Food and Agriculture, Sacramento, Calif. 95841; (3) Bureau of Sanitary Engineering, California State Department of Public Health; and (4)

Lake County Mosquito Abatement District, Lakeport, Calif. 95453. Propose that 21 CFR 193.315 be amended by the establishment of a regulation permitting the use of the insecticide parathion (0,0-diethyl-0-p-nitrophenyl thiophosphate) or its methyl homolog in potable water derived from the Clear Lake region of California with a tolerance limitation of 0.01 ppm. SRB (202-755-2516).

Interested persons are invited to submit written comments on these petitions to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401 East Tower, 401 M Street SW., Washington, D.C. 20460. Inquiries concerning these petitions may be directed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone at the numbers cited. Written comments should bear a notation indicating the petition number to which the comments pertain. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to these notices will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: May 19, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

PESTICIDE PROGRAMS

Receipt of Applications To Register Pesticide Products Containing New Active Ingredient

Applications have been submitted to the Environmental Protection Agency (EPA) to register pesticide products containing an active ingredient which has not been included in any previously registered pesticide products. Applications were made pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 89 Stat. 751; 7 U.S.C. 136(a) et seq.), and the regulations thereunder (40 CFR Part 162). Notice of receipt of these applications does not indicate a decision by the Agency on the applications.

Interested persons are invited to submit written comments on any applications referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington, D.C. 2060. The comments must be received on or before June 26, 1978, and should bear a notation indicating the EPA File Symbol number of

the application to which the comments pertain. Comments received within the specified time period will be considered before a final decision is made, comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Specific questions concerning these applications and the data submitted should be directed to Product Manager (PM) 16, Registration Division (WH-567), Office of Pesticide Programs, at the above address or the telephone number cited. The labels furnished by Ciba-Geigy Corp., as well as all written comments filed pursuant to this notice, will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Notice of approval or denial of the applications to register pesticide products listed will be announced in the FEDERAL REGISTER. Except for such material protected by section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the test data and other information submitted in support of registration as well as other scientific information deemed relevant to the registration decision may be made available after approval under the provisions of the Freedom of Information Act. The procedures for requesting such data will be given in the FEDERAL REGISTER if an application is approved.

Dated: May 19, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

APPLICATIONS RECEIVED

EPA File Symbol 100-LOI. Ciba-Geigy Corp., Agricultural Division, P.O. Box 11422, Greensboro, N.C. 27409. Curacron Technical. Active Ingredient: *O*-(4-bromo-2-chlorophenyl) *O*-ethyl *S*-propyl phosphorothioate 88.0 percent. Application proposes that this product be used as an insecticide for formulating use only. PM16. (202-755-9315)

EPA File Symbol 100-LOO. Ciba-Geigy Corp., Agricultural Division, P.O. Box 11422, Greensboro, N.C. 27409. Curacron 6E Insecticide. Active Ingredient: *O*-(4-bromo-2-chlorophenyl) *O*-ethyl *S*-propyl phosphorothioate 59.6 percent. Application proposes that his product be classified for general use as an insecticide for the control of insects in cotton. PM16.

INTERAGENCY TOXIC SUBSTANCES DATA COMMITTEE

Notice of Charter, Membership, and Meetings

The Environmental Protection Agency and the Council on Environ-

mental Quality jointly established and co-chair an Interagency Toxic Substances Data Committee in accordance with their statutory responsibilities under the Toxic Substances Control Act, sections 10(b)(1) and 25(b). These sections of the Act specifically recognize the need for interagency coordination with respect to chemical information collection, dissemination and classification.

At the April 4, 1978, meeting of the Interagency Toxic Substances Data Committee, which was held at the New Executive Office Building, Washington, D.C., an official charter was adopted and a meeting policy was established. This charter, a membership list, and a notice of public meetings follow.

For further information, contact Ms. Barbara Ostrow, Executive Secretary, Interagency Toxic Substances Data Committee, at 202-755-4880 or address correspondence to:

Ms. Barbara Ostrow, Office of Toxic Substances—TS 793, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

A. Charter for the Interagency Toxic Substances Data Committee.

1. *Authority and Purpose:* The Toxic Substances Control Act (TSCA), Pub. L. 94-469, Section 10(b)(1) requires that the Administrator of the Environmental Protection Agency "establish, administer, and be responsible for the continuing activities of an interagency committee which shall design, establish, and coordinate an efficient and effective system within the Environmental Protection Agency, for the collection, dissemination to other Federal departments and agencies, and use of data submitted to the Administrator under this Act."

Section 25(b) of the above Act requires the Council on Environmental Quality, in coordination with the Administrator of EPA, the Secretary of Health, Education, and Welfare, the Secretary of Commerce, and the heads of other appropriate Federal departments or agencies, to "coordinate a study of the feasibility of establishing (1) a standard classification system for chemical substances and related substances, and (2) a standard means for storing and for obtaining rapid access to information respecting such substances." That agency is also assigned broad coordination and policy development responsibilities under the National Environmental Policy Act of 1969 and the Environmental Quality Improvement Act of 1970.

2. *Objectives and Scope:* Pub. L. 94-469 provides the Administrator the authority for the collection and management of specific data relating to the substances in commerce. CEQ is authorized to coordinate a feasibility study of a standard classification system for chemicals and related sub-

stances, as well as a standard means of storing and retrieving information related to such substances. Other Federal agencies and departments have authorities for the collection of data on chemical substances for various purposes and have a need to share in the data collected under TSCA to supplement other existing data bases. This committee will operate to study and coordinate the planning and activities of the major Federal producers, and users of chemical data so as to minimize the total burden of reporting which is placed upon the private sector and to facilitate the collection, analysis and exchange of data among Federal agencies and other user groups.

The committee will maintain close liaison with the various TSCA rulemaking work groups that are developing regulations requiring information to be reported to EPA. The committee shall interface directly with the Office of the Deputy Assistant Administrator for Program Integration and Information, Office of Toxic Substances and make recommendations with respect to TSCA data dissemination outside of the agency.

3. *Duration of Activities:* In accordance with the requirements of Pub. L. 94-469, this committee will have a permanent charter.

4. *Reporting:* This committee will report directly to the Administrator of EPA and the Chairman of the CEQ or their designees.

5. *Support:* The Administrator of EPA will designate a full-time employee of the agency to serve as Executive Secretary and provide such additional administrative support as the committee may reasonably require.

6. *Duties:* The duties of the committee shall include, but are not limited to, the following areas:

A. Determining the feasibility of and making recommendations for establishing standard classification and nomenclature systems for information relating to chemicals and related substances.

B. Analysis of the chemical information data bases that function as a result of regulatory or other authority to determine the categories, quantity, quality, and current status of the data contained therein and to recommend steps to coordinate and streamline Federal reporting requirements.

C. Identification of the specific data needs of other Federal departments and agencies and state and local authorities that can be most effectively and efficiently filled using the information authorities of TSCA.

D. Analyze and make recommendations with respect to interagency resource considerations for implementing committee decisions.

E. Study and recommend any changes in current policies and proce-

dures to facilitate the timely sharing of information and data throughout government.

F. Study and recommend data formats which can be universally shared with other government sources.

G. Oversee the development and management of the Chemical Substances Information System.

H. Maintain liaison and coordinate activities with the Interagency Regulatory Liaison Group, Toxic Substances Strategy Committee, the Interagency Testing Committee, state governments, industry and trade associations, the academic community and other interest groups.

7. *Costs:* The operating budget of this committee will be developed as it performs its duties. Costs will include the salary of the Executive Secretary and contract support as required.

8. *Meetings:* The committee shall convene at the call of the chairman. Subcommittees may be established to consider specialized problems as they develop.

9. *Membership:* Proposed for initial membership are representatives of the Environmental Protection Agency, the Council on environmental Quality, the Department of Health, Education, and Welfare and several of its component agencies, the Departments of Labor, Commerce, Agriculture, Interior, Defense, Transportation, State and Energy as well as the Consumer Product Safety Commission, the International Trade Commission, and the National Science Foundation.

B. The following individuals are committee participants.

Co-Chairman

Marilyn C. Bracken, U.S. Environmental Protection Agency, TS-793, Washington, D.C. 20460, 755-8040.

Carroll Leslie Bastian, Council on Environmental Quality, Washington, D.C. 20006, 633-7107.

Executive Secretary

Barbara Ostrow, U.S. Environmental Protection Agency—TS-793, Washington, D.C. 20460, 755-4880.

Members

Patricia Breslin (Fred Clayton—Alternate Room N 3629), OSHA/DOL N 3700, 200 Constitution Avenue, Washington, D.C. 20210, 523-7115.

Terri Damstra (Ray Shapiro—Alternate), Office of Health Hazard Assessment, NIEHS, P.O. Box 12233 Research Triangle Park, North Carolina 27709, 8-629-3471.

Robert Dixon (Carl Gerber—Alternate), Office of Science and Technology Policy, Washington, D.C. 20500, 458-6272.

Margaret G. Finarelli (Robert Mikulak—Alternate), U.S. Arms Control and Disarmament Agency, Washington, D.C. 20451, 632-0872.

Sidney R. Galler (1) (Bernard Greifer—Alternate) (2), U.S. Department of Commerce, Washington, D.C. 20230, (1) 377-4335, (2) 377-3234.

Richard A. Hartfield (1) (Richard G. Muranka—Alternate) (2), U.S. Nuclear Regula-

tory Commission MNBB 12105, Washington, D.C. 20555, (1) 492-7834, (2) 492-7735. Allen Helm (1) (Robert A. Bell—Alternate) (2), Scientific Coordinator of Toxicology Programs, Room 11-40, FDA, 5600 Fishers Lane, Rockville, Md. 20857, (1) 301-443-3773, (2) 301-443-3290.

Aimison Jonnard (Edmund Cappuccilli—Alternate), U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, (1) 523-0423, (2) 523-0387.

Henry Kissman (Donald Hummel—Alternate), National Library of Medicine, National Institutes of Health, Bethesda, Md. 20014, 496-3147.

Richard J. Lewis, National Institute for Occupational Safety and Health, Cincinnati, Ohio 45226, (1) 513-684-8317 (Verna W. Hudson—Alternate), National Institute for Occupational Safety and Health, 8A-53, Rockville, Md. 20857, (2) 301-443-2100.

Calvin M. Menzie, Fish and Wildlife Service, Room 511, Matomic Building, U.S. Department of the Interior, Washington, D.C. 20241, (1) 632-5316 (Raymond E. Corcoran—Alternate), Bureau of Mines, U.S. Department of the Interior, Washington, D.C. 20241, (2) 634-1313.

Robert S. Murphy (Kurt Maurer—Alternate), National Center for Health Statistics, 3700 East-West Highway, Hyattsville, Md. 20782, 436-7081.

Joseph Nash (Richard Stevenson—Alternate), Department of Energy, E201 20 Massachusetts Avenue, Washington, D.C. 20545, 376-9073.

William Rhode (1) (Leonore Wagner—Alternate) (2), National Institutes of Health, Bethesda, Md. 20014, (1) 496-9285, (2) 496-9291.

Alan I. Roberts (1) (Erskine Haston, Jr.—DMT-10, U.S. Department of Transportation, Washington, D.C. 20590, (1) 428-0656, (2) 426-2311.

James Sontag (Sidney Siegel—Alternate), National Cancer Institute, National Institutes of Health, Bethesda, Md. 20014, 496-5108.

Irvin Weiss (Glenn Simpson—Alternate), U.S. Consumer Product Safety Commission, Washington, D.C. 20207, 492-6470.

Gooloo S. Wunderlich (1) (Selma Goldblatt—Alternate) (2), Office of the Assistant Secretary for Health, Department of Health, Education, and Welfare, Washington, D.C. 20201, (1) 472-7398, (2) 472-5194.

Committee Representatives

Carroll Bastian, Toxic Substances Strategy Committee, Council on Environmental Quality, Washington, D.C. 20006, 633-7107.

Patricia Breslin, Interagency Regulatory Liaison Group (IRLG), OSHA/NOL N3700, 200 Constitution Avenue, Washington, D.C. 20210, 523-7115. Ray Shapiro (Henry Kissman—Alternate), DHEW Committee to Coordinate Toxicology and Related Programs, NIEHS P.O. Box 12233, Research Triangle Park, North Carolina 27709, (1) 443-6274, (2) 496-3147.

C. Meeting Information—Time: The first Tuesday of each month, 9:30 a.m. to 11:30 a.m. Place: New Executive Office Building, Room 2010, 17th and Pennsylvania Avenue, Washington, D.C. 20006.

These meetings will be open to the public unless otherwise specified.

Dated: May 12, 1978.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 1-469]

INTERNATIONAL AND SATELLITE RADIO

Applications Accepted for Filing

MAY 22, 1978.

By the Chief, Common Carrier Bureau: The Applications listed herein have been found, upon initial review, to be Acceptable for filing. The Commission reserves the right to return any of these applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules, Regulations and its Policies. Final action will not be taken on any of these applications earlier than 31 days following the date of this notice. Section 309(d)(1). Effective March 6, 1978, all applications accepted for filing will be assigned Call Signs. However these assignments are for administrative purposes only and do not in any way prejudice Commission actions.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,

Secretary.

FM AND TV TRANSLATOR APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: May 16, 1978.

Released: May 19, 1978.

By the Chief, Broadcast Bureau: Notice is hereby given pursuant to §§ 1.572(c) and 1.573(d) of the Commission's rules, that on June 29, 1978, the TV and FM translator applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to § 1.227(b)(1) and § 1.519(b) of the Commission's rules, an application, in order to be considered with any application ap-

pearing on the attached list or with any other application on file by the close of business on June 28, 1978, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on June 28, 1978. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.573(d) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any pending TV and FM translator application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

RADIO ASTRONOMY SERVICE WORKING GROUP FOR 1979 ITU WORLD ADMINISTRATIVE RADIO CONFERENCE

Meeting

MAY 23, 1978.

A meeting of the Radio Astronomy Service Working Group for the 1979 General World Administrative Radio Conference is scheduled to be held on Friday, June 16, 1978, at 9:30 a.m., in room 8210 of the Commission's offices located at 2025 M Street NW., Washington, D.C.

This meeting will be held to examine and discuss the Sixth, Seventh, and Eighth Notices of Inquiry, Docket No. 20271, and formulate a final draft of comments of the Radio Astronomy Service Working Group. Additionally, inputs on lunar quiet zone for consideration as U.S. position will be generated.

The advisory committee meeting is open to the general public and any written comments will be accepted before or after the meeting.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

FEDERAL MARITIME COMMISSION

PETITIONS FILED

The Federal Maritime Commission hereby gives notice that the following petition(s) have been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 813a).

Interested parties may inspect and obtain a copy of the petition(s) and the justification(s) offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10218; or may inspect the petition(s) at the Field Offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; Chicago, Ill.; and San Juan, P.R. Interested parties may submit comments on the petition(s) including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before June 19, 1978. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed petition(s). Comments shall discuss with particularity allegations that the petition is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the petition(s) and the statement should indicate that this has been done.

Agreement No. 7680 DR (Second DR Westbound).

Filing Party: John K. Cunningham, Chairman, American West African Freight Conference, 67 Broad Street, New York, N.Y. 10004.

Summary: The American West African Freight Conference has requested, pursuant to section 14b of the Shipping Act, 1916, that the term of its dual rate system and associated second westbound exclusive patronage (dual rate) contract form, denominated as No. 7680 DR (Second DR Westbound), be extended for an indefinite period beyond the July 13, 1978 expiration date thereof. The contract is applicable to metal ingots, latex, logs and lumber, rubber in packages and tapioca flour moving in the trade from West African ports (in the range south of the southerly border of Rio de Oro, Spanish Sahara and north of the northerly border of Southwest Africa) including the Atlantic islands of the Azores, Madeira, Canary, and Cape Verde; also the islands of Fernando Po, Principe and Sao Tome in the Gulf of Guinea to U.S. Atlantic and Gulf ports and Canadian Atlantic and St. Lawrence River ports not west of Montreal.

By order of the Federal Maritime Commission.

Dated: May 23, 1978.

FRANCIS C. HURNEY,
Secretary.

[Docket No. 78-15]

**UNITED STATES LINES, INC. V. MARYLAND
PORT ADMINISTRATION**

Filing of Complaint

Notice is hereby given that a complaint filed by United States Lines, Inc. against Maryland Port Administration was served May 12, 1978. The complaint alleges that respondent has issued and seeks to enforce tariff provisions which subject complainant to undue or unreasonable prejudice or disadvantage in violation of Section 16 First of the Shipping Act and constitute unjust or unreasonable regulations or practices in violation of Section 17 of the Act.

Hearing in this matter, if any is held, shall commence on or before November 12, 1978. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statement, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

FRANCIS C. HURNEY,
Secretary.

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of April 18, 1978

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on April 18, 1978.

The information reviewed at this meeting suggests that growth in real output of goods and services was small in the first quarter, owing in part to the unusually severe weather and the lengthy strike in coal mining, but that economic activity was rebounding in the latter part of the period. In March industrial production and nonfarm payroll employment increased sharply further. The unemployment rate edged up from 6.1 to 6.2 percent, as the civilian labor force expanded substantially. Retail sales recovered much more in February than had been reported earlier, and sales rose considerably further in March. The pace of the rise in wholesale prices remained rapid, reflecting further large increases in farm products and processed foods. The index of average hourly

The Record of Policy Actions of the Committee for the meeting of Apr. 18, 1978, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

earnings accelerated in the first quarter, largely because of the increase in minimum wages at the beginning of the year.

The trade-weighted value of the dollar against major foreign currencies declined sharply after the March 31 announcement of a very large increase in the U.S. foreign trade deficit for February. But over the past week the dollar has recovered to about its level of 4 weeks ago.

M-1, which had declined in February, rose moderately in March. Inflows to banks of time and savings deposits other than negotiable CD's and inflows to nonbank thrift institutions remained slow. Most market interest rates, especially longer-term rates, have increased somewhat on balance in recent weeks.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster bank reserve and other financial conditions that will resist inflationary pressures while encouraging continued moderate economic expansion and contributing to a sustainable pattern of international transactions.

Growth of M-1, M-2, and M-3 within ranges of 4 to 6 percent, 6% to 9 percent, and 7% to 10 percent, respectively, from the first quarter of 1978 to the first quarter of 1979 appears to be consistent with these objectives. The associated range for bank credit is 7% to 10% percent. These ranges are subject to reconsideration at any time as conditions warrant.

The Committee seeks to encourage near-term rates of growth in M-1 and M-2 on a path believed to be reasonably consistent with the longer-run ranges for monetary aggregates cited in the preceding paragraph. Specifically, at present, it expects the annual growth rates over the April-May period to be within ranges of 4 to 8% percent for M-1 and 5% to 9% percent for M-2. In the judgment of the Committee such growth rates are likely to be associated with a weekly-average Federal funds rate slightly above the current level. If, giving approximately equal weight to M-1 and M-2, it appears that growth rates over the 2-month period will deviate significantly from the midpoints of the indicated ranges, the operational objective for the Federal funds rate shall be modified in an orderly fashion within a range of 6% to 7% percent. In the conduct of day-to-day operations, account shall be taken of emerging financial market conditions, including the conditions in foreign exchange markets.

If it appears during the period before the next meeting that the operating constraints specified above are proving to be significantly inconsistent, the Manager is promptly to notify the Chairman who will then decide whether the situation calls for supplementary instructions from the Committee.

By order of the Federal Open Market Committee, May 19, 1978.

ARTHUR L. BROIDA,
Secretary.

OLD STONE CORP.

Proposed Acquisition of Guild Loan and Investment Co.

Old Stone Corp., Providence, R.I., has applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to acquire voting shares of Guild Loan and Investment Co., Providence, R.I. Notice of the application was published on February 5, 1978, in The Providence Daily Journal, a newspaper circulated in Providence, R.I.

Applicant states that the proposed subsidiary would engage de novo in the following activities: making and servicing consumer installment loans, consumer demand loans and mortgage loans and accepting consumer savings deposits in the manner authorized by Rhode Island law for loan and investment companies. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether con-

summation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Boston.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 22, 1978.

Board of Governors of the Federal Reserve System, May 23, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

[Docket No. R-0163]

INTERCORPORATE INCOME TAX ACCOUNTING TRANSACTIONS OF BANK HOLDING COMPANIES AND STATE-CHARTERED

Policy Statement

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed Policy Statement.

SUMMARY: The Board of Governors of the Federal Reserve System believes that a bank holding company should serve as a source of strength for its subsidiary banks and that subsidiary banks should not be disadvantaged by reason of their control by a bank holding company. It has come to the attention of the Board that a few bank holding companies and their subsidiary banks are engaging in certain intercorporate tax accounting transactions that appear to be in conflict with this established policy of the Board. The Board believes that these practices are inappropriate and should cease. Comments on the proposal may be submitted until June 23, 1978. Public comments are being requested so that the Board may fully consider the implications of this policy for intercorporate operations, flow of funds and tax planning.

DATE: Comments must be received by June 23, 1978.

ADDRESS: Secretary, Board of Governors of the Federal Reserve System,

Washington, D.C. 20551. All material submitted should include Docket Number R-0163.

FOR FURTHER INFORMATION CONTACT:

Sandra A. Greene, Senior Staff Assistant 202-452-2742 or Samuel H. Talley, Assistant Director 202-452-3354, of the Division of Banking Supervision and Regulation, or Robert E. Mannion, Associate General Counsel, Legal Division 202-452-3274, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: The Board proposes to issue the following statement of policy pursuant to the Financial Institutions Supervisory Act (12 U.S.C. §1818) and section 23A of the Federal Reserve Act (12 U.S.C. §371(c)).

POLICY STATEMENT REGARDING INTERCORPORATE INCOME TAX ACCOUNTING TRANSACTIONS OF BANK HOLDING COMPANIES AND STATE-CHARTERED BANKS THAT ARE MEMBERS OF THE FEDERAL RESERVE SYSTEM

It has come to the attention of the Board of Governors of the Federal Reserve System that a few bank holding companies and certain of their bank subsidiaries are engaging in intercorporate income tax accounting transactions that have the effect of transferring assets and income from the subsidiary banks to the parent company without offsetting benefits to the bank.

These practices include: (1) The bank paying taxes to the parent under an arrangement that may leave the bank less well off than if the bank filed a return on a separate entity basis; (2) the bank paying taxes to the parent prior to the time that the parent's actual or estimated current tax liability is due and payable; and (3) the bank transferring its deferred tax account to the parent, in most cases along with an equivalent amount of cash or earning assets. While these practices are not now widespread, the Board believes that they are inappropriate and should cease. Accordingly, the Board will apply appropriate supervisory remedies to these practices including, under certain circumstances, its cease and desist powers under the Financial Institutions Supervisory Act (12 U.S.C. §1818).

One of the advantages of a bank holding company organization is to derive tax savings by offsetting the profits and losses of the various entities that participate in the filing of the consolidated tax return. Typically, bank subsidiaries having a profit pay current taxes to their parent either on a separate equity basis or on one of a variety of allocation methods that often results in some lesser amount of

taxes being remitted to the parent. In those cases where a bank incurs a loss, the bank may or may not receive an equitable refund from its parent.

The Board does not wish to prescribe the tax accounting methods to be used by bank holding companies. However, the Board does require that those methods employed give bank subsidiaries equitable treatment. Such equitable treatment would not result if: (1) The bank's tax payments to the parent during a profitable period exceed what the bank would pay if it filed on a separate entity basis; (2) the bank does not receive an appropriate refund from the parent when the bank incurs a loss; or (3) the bank's tax payments to the parent significantly precede the time that the parent's actual or estimated current tax liability is due and payable to the tax authorities.

Many bank holding companies now have written tax agreements with their bank subsidiaries that specify intercorporate tax settlement policies. The Board believes that having such agreements is desirable and wishes to encourage all holding companies to have such agreements.

In the last several years, an increasing number of banks have been transferring their deferred tax account to their parent. Typically, these transfers have been accompanied by the bank transferring an equivalent dollar amount of cash or earning assets. The Board believes that a bank's deferred tax account does not constitute a current liability of the bank. Consequently, when a bank transfers its deferred tax account to its parent, usually along with an equivalent amount of cash or earning assets, the bank is engaging in a transaction that has an adverse effect on its financial condition. Such a transaction is tantamount to a prepayment or excessive payment of taxes. Moreover, the Board believes that the transfer of a bank's deferred tax account would result in the bank subsequently filing inaccurate reports for supervisory purposes.

In those few instances where deferred tax accounts of state member banks have already been transferred to the parent, the Board believes that such transfers should be reversed in the most expeditious way that is practical, given attendant circumstances and supervisory objectives. In most cases, this would involve an immediate reinstatement of the deferred tax on the books of the bank, along with the transfer by the parent of an equivalent amount of cash or appropriate earning assets. In those cases where the parent cannot immediately remit cash or appropriate earning assets, the holding company and the bank should work out an appropriate alternative arrangement with their Federal Reserve Bank. In most situations, the

most appropriate alternative would involve the bank recording a loan to the parent.

By Order of the Board of Governors, May 23, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

Correction

In FR Doc. 78-13288 appearing at page 21052 in the issue for Tuesday, May 16, 1978, make the following correction: On page 21054, in the text which appears below the table for committee number 7, "Panel on Review of Antimicrobial Agents", the last sentence which reads, "To date, the following presentations have been scheduled for this time period" should be completed with the following information:

"Topic and Presenter"

Clinical Forms and Morphology, Dr. Samuel Frank.
Etiologic Role of Hormones, Dr. John Strauss
Etiologic Role of Bacteria, Dr. Sirje Puhvel
Host Immune Response, Dr. Sirje Puhvel
Sebum and Other Etiologic Factors, Dr. Peter Pochi
Topical and Systemic Antibiotics, Dr. Alan Shalita
Benzoyl Peroxide, Resorcinol, Sulfur, Dr. Richard Dobson
Consumer Needs in Acne, Dr. Zenona Mally
Salicylic Acid, Dr. Albert Kligman
Scrubs, Cleansers, and Topical Antibacterials, Dr. John Strauss
Clinical Methods of Evaluating Topical Treatment, Dr. Alan Shalita
Microbiological Considerations, Dr. Charles Evans.

"After all presentations have been given there will be a panel discussion.

"Open committee discussion. The Panel will review data submitted in response to the over-the-counter (OTC) review's call for data for this Panel (see also §330.10(a)(2) (21 CFR 330.10(a)(2))).

"The Panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims."

This material was printed in the first column of page 21056 and should be deleted from that page.

[Docket No. 77P-0401]

BORDO CITRUS PRODUCTS COOPERATIVE

Canned Grapefruit Deviating From Identity and Quality Standards: Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This document announces that a temporary permit has been issued to the Bordo Citrus Products Cooperative to market test a new style of canned grapefruit designated as "grapefruit slices." The finished product deviates from the standards of identity and quality for canned grapefruit. The purpose of the market test is to measure consumer acceptance of the product so as to collect data to support a petition to amend the standards of identity and quality for canned grapefruit.

EFFECTIVE DATE: This permit is effective for a period of 15 months, beginning no later than August 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Benjamin M. Gutterman, Bureau of Foods (HFF-402), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-245-1231.

SUPPLEMENTARY INFORMATION: In accordance with §130.17 (21 CFR 130.17) concerning temporary permits to facilitate market testing of food deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), notice is given that a temporary permit has been issued to Bordo Citrus Products Cooperative, P.O. Box 1152, Winter Haven, Fla. This permit covers interstate marketing tests of canned grapefruit that deviates from the standard of identity prescribed in §145.145 (a)(2) (21 CFR 145.145(a)(2)) and the standard of quality prescribed in §145.145(b)(1)(ii)(a). The permit provides for the temporary marketing of grapefruit called "slices" that is sliced without regard to the location of the naturally occurring membranes that divide the grapefruit segments. This is an optional style not provided for in the standard of identity, nor permitted by the standard of quality because of the presence of an amount of membrane normally not found in canned grapefruit segments.

The applicant states that the new style of canned grapefruit will have the following advantages: (1) The segments of fruit hold their shape and firmness; (2) the processing is less expensive, and the savings can be passed

on to the consumer; and (3) the flavor of the product is enhanced in that the product appears and tastes more like fresh grapefruit.

This permit provides for the market testing of 100,000 cases of twenty-four 16-ounce cans of the test product. The product will be manufactured by Bordo Citrus Products Cooperative in Winter Haven, Fla., and will be distributed in the State of Florida and at selected locations throughout the Nation.

In addition to the name "grapefruit slices," the principal display panel of the label will contain the words "In light sirup." The label will also contain the statement "Slices Contain Grapefruit Segment Membrane." The ingredients will be declared on the label in accordance with 21 CFR Part 101.

This permit is effective for a period of 15 months, beginning on the day the test food is introduced or caused to be introduced into interstate commerce, but no later than August 24, 1978.

Dated: May 18, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Regulatory Affairs.

[Docket No. 75N-0232]

FOOD FLAVORING

Additional Flavoring Substances in GRAS Review; Extension of Effective Date for Compliance With Bulk Flavor Ingredient Declaration Requirements

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This document announces the addition of 71 flavoring substances to the agency's safety review of substances that are generally recognized as safe (GRAS) and extension of the effective date for compliance with a bulk flavor labeling regulation for these ingredients. The flavors are listed in the Flavor and Extract Manufacturers' Association (FEMA) GRAS List No. 11 (published in Food Technology, February 1978).

DATE: Compliance with bulk labeling requirements by July 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-4750.

SUPPLEMENTARY INFORMATION: In notices published in the FEDERAL REGISTER of July 26, 1973 (38 FR 20051) and March 28, 1978 (43 FR 12941), the Food and Drug Administration (FDA) announced that, as part of its GRAS review program, Scientific Literature Reviews (SLR's) were being prepared on several chemical classes of flavoring ingredients. The July 26, 1973, notice also announced that these reviews would include all flavoring ingredients listed in §§ 182.10, 182.20, 182.30, 182.40, 182.50, 182.60, and part 172 (subpart F) (21 CFR 182.10, 182.20, 182.30, 182.40, 182.50, 182.60, and part 172, subpart F) or flavoring ingredients otherwise submitted to the agency.

In the FEDERAL REGISTER of February 3, 1978 (41 FR 4954), FDA also extended until July 1, 1979, the effective date for compliance with bulk labeling requirements of § 101.22(g)(2) (21 CFR 101.22(g)(2)) for those flavor ingredients that are listed as GRAS in a reliable industry association list and are included by FDA in its review of GRAS food ingredients. The notice also announced a procedure under which FDA would accept additional substances for incorporation into its safety review. The procedure provided for the inclusion of additional flavoring ingredients if the SLR for each chemical class of flavors is appropriately amended before the safety evaluation begins. In this way, all available data for each chemical class of flavors will be included and evaluated at the same time. If individual flavor ingredients cannot be added to the SLR's by these provisions, extension of the effective date for compliance with bulk labeling requirements and exemptions from specific ingredient listing as specified in § 101.22(g)(2) will not be granted except by FDA approval of food additive or GRAS affirmation petitions for the ingredients.

In accordance with this procedure, FEMA published its GRAS List No. 10 in January 1977, comprising 50 flavoring substances. The Commissioner announced in the FEDERAL REGISTER of October 18, 1977 (42 FR 55643) that the substances in FEMA GRAS List No. 10 had been properly added to the safety review and, therefore, the effective date of their compliance with § 101.22(g)(2) was extended to July 1, 1979.

FEMA has recently published its GRAS List No. 11 (Food Technology, Vol. 32, No. 2, February 1978), comprising an additional 71 flavoring substances. FEMA has included 6 of these ingredients in already completed SLR's. The Commissioner has received a written commitment from FEMA stating that the remaining 65 flavoring substances will be appended to SLR's currently being drafted by them. The 71 flavoring ingredients that constitute the FEMA GRAS List No. 11 are the following:

2-Acetoxy-3-butanone.
3-Acetyl-2, 5-dimethylthiophene.
1, 2-Butanedithiol.
1, 3-Butanedithiol.
m-Cresol.
Cyclohexanecarboxylic acid.
3-Decen-2-one.
Diallyl polysulfides.
1, 1-Di[(1'-ethoxy)ethoxy] propane.
2, 3-Dimethylbenzofuran.
Dimethyl disulfide.
2, 6-Dimethyl-4-heptanone.
2, 6-Dimethyl-3-[(2-methyl-3-furyl)thio]4-heptanone.
3, 7-Dimethyl-1, 3, 6-octatriene.
2, 6-Dimethylpyridine.
3, 5-Dimethyl-1, 2, 4-trithiolane.
6, 10-Dimethyl-5, 9-undecadien-2-one.
Ethylene brassylate.
Ethyl cyclohexanecarboxylate.
Ethyl 3-hydroxyhexanoate.
5-Ethyl-2-methylpyridine.
3-Heptanol.
2-Hydroxyacetophenone.
6-Hydroxydihydrotheaspirane.
3-Hydroxy-2-pentanone.
Isoamyl acetate.
Isojasmane.
Isophorone.
5-Isopropyl-2-methylpyrazine.
2-Isopropyl-4-methylthiazole.
Isopropyl myristate.
p-Mentha-1, 8-dien-7-yl.
p-Mentha-1, 3-diene.
p-Mentha-1, 4-diene.
p-Mentha-1, 4(8)-dien-3-one.
p-Mentha-1, 8-dien-7-yl acetate.
p-Menth-2-ol.
p-Menth-3-en-1-ol.

p-Menth-8-en-1-ol.
p-Menth-8-en-2-one.
1-p-Menth-9-yl acetate.
p-Methoxycinnamaldehyde.
Methyl cyclohexanecarboxylate.
2-Methyl-3, 5 or 6-ethoxypyrazine.
3-[(2-Methyl-3-furyl)thio]4-heptanone.
4-[(2-Methyl-3-furyl)thio]5-nonanone.
5-Methylhexanoic acid.
Methyl 2-methyl-3-furyl disulfide.
4-Methynonanolic acid.
4-Methyloctanoic acid.
Methyl 1-propenyl disulfide.
3-Methyl-5-propyl-2-cyclohexen-1-one.
2-Methyl-4-propyl-1, 3-oxathiane.
1, 4-nonanediol diacetate.
cis-8-Nonenal.
3-Octanol.
1-Octen-3-yl acetate.
3-Octyl acetate.
1-Penten-3-ol.
L-Phenylalanine.
2-Phenyl-3-(2-furyl)-prop-2-enal.
2(10)-Pinen-3-ol.
1, 3-Propanedithiol.
Resorcinol.
Δ-Tetradecalactone.
Theobromine.
2, 2, 3-Trimethylcyclopent-3-en-1-ylacetaldehyde.
1, 2, 3-Tris[(1'-ethoxy)ethoxy]propane.
Verbenol.
2, 5-Xylenol.
3, 4-Xylenol.

The Commissioner has determined that the 6 ingredients included in completed SLR's have been properly added to the safety review, and he accepts the FEMA commitment to add the 65 remaining ingredients to the SLR's now in draft. The effective date of compliance with § 101.22(g)(2) will, therefore, be extended to July 1, 1979. The Commissioner has determined that inclusion of any additional flavoring ingredients must be accomplished in the aforesaid manner if exemption to specific ingredient listing is desired. Additional FEDERAL REGISTER notices will be issued for subsequent industry GRAS flavor lists that are to be included in the FDA GRAS review.

Dated: May 22, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Regulatory Affairs.

[Docket No. 75P-0361]

STANDARDS OF IDENTITY FOR BAKERY PRODUCTS

Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces a formal evidentiary public rulemaking hearing and a prehearing conference for the purpose of resolving factual issues raised by objections that stayed certain provisions of the standards of identity for bakery products.

DATES: Prehearing conference June 28, 1978, beginning at 10 a.m. Written notices of participation must be received by June 26, 1978.

ADDRESSES: The prehearing conference will be held in the Food and Drug Administration (FDA) Hearing Room, 4A-27, 5600 Fishers Lane, Rockville, Md. 20857. Written notices of participation should be submitted to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Richard Hunt, Compliance Regulations Policy Staff (HFC-10), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3480.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of February 12, 1978 (41 FR 6242), the Commissioner of Food and Drugs revised the standards of identity for bakery products in Part 136 (21 CFR Part 136, formerly 21 CFR Part 17 prior to the recodification published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302)). In response to written objections and requests for a hearing, a notice identifying certain provisions that were stayed pending consideration whether a hearing is necessary was published in the FEDERAL REGISTER of October 15, 1976 (41 FR 45540). The Commissioner has now determined that it is necessary to conduct a hearing to resolve four issues. A proposal to amend § 136.110(c)(5)(ii) (21 CFR 136.110(c)(5)(ii)), relating to the optional use of mono- and diglycerides of fat-forming fatty acid and of certain other ingredients that perform a similar function, is being published elsewhere in this issue of the FEDERAL REGISTER in order to resolve the fifth issue.

A hearing is being granted on the following stated objections:

1. The State of New York, Department of Agriculture and Markets, and the State of Tennessee, Department of Agriculture, objected to § 136.110(c)(5)(i) (21 CFR 136.110(c)(5)(i)), formerly § 17.10(c)(5)(i)), which permits the use of lecithin, hydroxylated lecithin, and related phosphatides in egg bread, egg rolls, and egg buns, on the grounds that the egg content of egg bread supplies sufficient emulsification to make the use of lecithin unnecessary and that if lecithin and related phosphatides were not present, it would be possible to test in the laboratory for the presence of egg yolk in the finished bread, thus eliminating the need for continual plant inspection.

2. Basic Foods, Division of Mallinckrodt, Inc., objected to § 136.110(c)(16) (21 CFR 136.110(c)(16)), formerly

§ 17.10(c)(16)), which limits the use of spices, spice oil, and spice extract in such a way that a color simulating that of egg is not imparted to the finished food. The objection was based on the argument that spice ingredients which impart a color to the finished food have other functional utility and benefit consumers when used in standardized bakery products not purporting to contain egg.

3. The American Bakers Association (ABA) objected to § 136.110(c)(17) (21 CFR 136.110(c)(17)), formerly § 17.10(c)(17)), which, it argues, permits the use in bread of butter with added color while prohibiting the use in bread of natural or artificial colors as such. The ABA claims that there is no basis for discriminating between butter and margarine with respect to the use of artificial coloring in breads and recommends that artificial color be allowed in like amounts in both margarine and butter when either is used in bread. The permission to use butter with added color, therefore, was stayed. The use of colored margarine has never been approved. Consequently, the use of artificially colored margarine as well as artificially colored butter was prohibited during the period of the stay.

4. Sections 136.110(e), 136.115(b), 136.160(b), and 136.165(b) (21 CFR 136.110(e), 136.115(b), 136.160(b), and 136.165(b)), formerly §§ 17.10(e), 17.20(b), 17.40(b), 17.60(b)), which require bread to contain a minimum of 2.56 percent by weight of whole egg solids in order to be named "egg bread," "enriched egg bread," "raisin and egg bread," or "enriched raisin and egg bread," as applicable, were stayed by objections filed by the State of New York, Department of Agriculture and Markets, and the State of Tennessee, Department of Agriculture. These State agencies asserted that the specified minimum percentage is too low to justify use of the name "egg bread."

The fact that the Commissioner has granted a hearing on the issues raised by the objections does not indicate that he agrees with those objections. The stays will remain in effect until all issues are resolved. Therefore, it is ordered that a public hearing be held on the following factual issues:

1. Whether it is in the best interests of the consumer to prohibit the use of lecithin, hydroxylated lecithin, and related phosphatides in egg bread, egg rolls, and egg buns.

2. Whether it is in the best interests of the consumer that spices, spice oil, and spice extract that impart to a standardized bakery product a color simulating that of egg be permitted in a standardized bakery product which is not represented on its label as containing egg or egg product and which does not purport to contain egg or egg product.

3. Whether, and on what terms, the use of butter and/or margarine containing added color within specified limits should be permitted in standardized bakery products.

4. Whether a minimum content of 2.56 percent by weight of whole egg solids in a standardized bakery product is high enough to justify use of the names "egg bread," "egg rolls," "egg buns," "enriched egg bread," "enriched egg rolls," "enriched egg buns," "raisin and egg bread," "raisin and egg rolls," "raisin and egg buns," "enriched raisin and egg bread," "enriched raisin and egg rolls," "enriched raisin and egg buns," as applicable.

Because this matter is a rulemaking proceeding pursuant to 5 U.S.C. 553, 556(d), and 557, the hearing will consist of the submission of evidence in written form only, unless otherwise ordered by the Administrative Law Judge. If the hearing consists of any oral testimony, such testimony will be taken at the FDA Hearing Room (address above). The presiding Administrative Law Judge will be Daniel J. Davidson. Written notices of participation must be filed with the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, not later than June 26, 1978. The written notices of participation should be identified by the Hearing Clerk docket number found in brackets in the heading of this document; also, to aid in identification, the envelope containing the notice should be clearly labeled "Egg Bread Hearing."

Parties to the hearing shall be the Bureau of Foods of the Food and Drug Administration, the New York State Department of Agriculture and Markets, the Tennessee State Department of Agriculture, the Basic Foods Division of Mallinckrodt, Inc., and the American Bakers Association.

Pursuant to § 12.85 (21 CFR 12.85), the Bureau of Foods has filed with the Hearing Clerk a narrative statement of its position on the hearing issues and a summary of the evidence it intends to introduce at the hearing in support of its position. The Bureau has also filed with the Hearing Clerk copies of the original Great Atlantic and Pacific Tea Co. petition and all other data in its possession bearing on the issues raised herein. Additional copies need not be submitted by other parties or participants.

Interested persons may obtain a copy of the narrative statement filed by the Bureau of Foods from the office of the Hearing Clerk, at the address given above. Interested persons may also examine the administrative record at the office of the Hearing Clerk, from 9 a.m. to 4 p.m., Monday through Friday.

The portions of the administrative record that the Bureau of Foods

deems relevant at this time include the following:

1. Petition by the Great Atlantic & Pacific Tea Co., Inc.

2. Data from published recipes regarding egg content of egg bread.

3. The Munsell Butter Comparator and directions for its use.

4. Other relevant data in the possession of the Bureau of Foods.

5. Excerpts from the scientific and technical literature bearing on the issues in the hearing.

The hearing will be open to the public. Any participant may appear in person, or by or with counsel or other qualified representatives and may make known his or her views on matters relevant to the issues under consideration. Participants other than the Bureau of Foods shall disclose data and information under § 12.85 by July 25, 1978.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e)) and under authority delegated to him (21 CFR 5.1), the Commissioner orders that a public hearing be held on the issues set out in this notice.

Dated: May 22, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Regulatory Affairs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration ADVISORY COMMITTEE

Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of June 1978:

Name: Graduate Medical Education National Advisory Committee.
Date and Time: June 22-23, 1978, 9 a.m.
Place: Rooms 403A/405A, Hubert H. Humphrey Building, 200 Independence Avenue, Washington, D.C. 20201.
Open for entire meeting.

Purpose: The Graduate Medical Education National Advisory Committee is responsible for advising and making recommendations with respect to: (1) present and future supply and requirements of physicians by specialty and geographic location; (2) ranges and types of numbers of graduate training opportunities needed to approach a more desirable distribution of physician services; and (3) the impact of various activities which influence specialty distribution and the availability of training opportunities including systems of reimbursement and the financing of graduate medical education.

Agenda: Issues associated with the financing of graduate medical education, physician extenders, and the development of a manpower model will be discussed. Brief presentations by selected specialty or private sector organizations will be scheduled on the second day of the meeting.

A portion of the meeting will be available for comments and participation by the public. Due to limited seating, attendance by the public will be provided on a first-come, first-serve basis.

Anyone wishing to obtain a roster of members, minutes of meeting, or other relevant information should contact Dr. Frederick V. Featherstone, Bureau of Health Manpower, Room 4-44, Center Building, 3700 East-West Highway, Hyattsville, Md. 20782, telephone 301-436-6430.

Agenda items are subject to change as priorities dictate.

Dated: May 18, 1978.

JAMES A. WALSH,
Associate Administrator for
Operations and Management.

[4110-83]

Health Resources Administration

GRADUATE MEDICAL EDUCATION NATIONAL ADVISORY COMMITTEE

Reestablishment

Pursuant to the Federal Advisory Committee Act, Pub. L. 92-463 (5 U.S.C. Appendix I), the Health Resources Administration announces the reestablishment by the Secretary, HEW, with concurrence by the General Services Administration, of the following advisory committee:

Designation: Graduate Medical Education National Advisory Committee.

Purpose: The Committee shall advise, consult with and make recommendations to the Secretary on overall strategies on the present and future supply and requirements of physicians by specialty and geographic locations; translation of physician requirements into a range of types and numbers of graduate training opportunities needed to approach a more desirable distribution of physician services, taking into account National Health Planning goals, guidelines, standards, and, as appropriate, the health system plans developed by health system agencies; factors which affect physician career choice; the impact of various activities which influence specialty distribution and the availability of training opportunities, including systems of reimbursement of services and financing of graduate medical education; and the relationship of graduate medical education to the provision of services in training institutions, including alternatives for the provision of these services. The Committee shall advise on data requirements and systems needed to conduct the activities of the Committee; propose national goals for the distribution of physicians in graduate training; and recommend Federal

al policies, strategies, and plans to achieve the established goals in concert with the private sector and non-Federal agencies.

Authority for this Committee will expire on April 20, 1980, unless the Secretary, HEW, with the concurrence of the General Services Administration, formally determines that continuance is in the public interest.

Dated: May 24, 1978.

JAMES A. WALSH,
Associate Administrator for
Operations and Management.

National Institutes of Health

AGING REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Aging Review Committee, National Institute on Aging, on June 30, 1978, in Building 31C, Conference Room 8, National Institutes of Health, Bethesda, Md.

The meeting will be open to the public from 9 to 10 a.m. for introductory remarks. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 10 a.m. to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications.

Mrs. Suzanna H. Porter, Committee Management Officer, NIA Building 31, Room 5C07, National Institutes of Health, Bethesda, Md., area code 301-496-5345, will provide summaries of meetings and rosters of Committee members as well as substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.866, National Institutes of Health.)

Dated: May 12, 1978.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

[4110-08]

GENERAL RESEARCH SUPPORT PROGRAM ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the

General Research Support Program Advisory Committee, Division of Research Resources, June 22-23, 1978, from 9 a.m. to 5 p.m. in the Maryland Room of the Holiday Inn, 8130 Wisconsin Avenue, Bethesda, Md. 20014.

This meeting will be open to the public from 9 a.m. to 1:30 p.m. on June 22, 1978, to discuss administrative matters relating to the programs. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on June 22, 1978, from 1:30 p.m. to 5 p.m., and on June 23, 1978, from 9 a.m. to adjournment for the review, discussion, and evaluation of individual grant applications submitted to the Minority Biomedical Support Program. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Building 31, Room 5B13, Bethesda, Md. 20014, telephone area code 301-496-5545, will provide summaries of meetings and rosters of committee members. Dr. Sidney A. McNairy, Jr., Executive Secretary of the General Research Support Program Advisory Committee, Building 31, Room 5B33, Bethesda, Md. 20014, telephone area code 301-496-6743 will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.375, National Institutes of Health.)

Dated: May 12, 1978.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

[4110-08]

CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS

Renewal

The Director, National Institutes of Health, announces the renewal on May 5, 1978, of the Clearinghouse on Environmental Carcinogens, under the authority of Section 410(a)(3) of the Public Health Service Act (42 U.S.C. 286d). Such advisory committees shall be governed by the provisions of the Federal Advisory Committee Act, as amended (Pub. L. 92-463) setting forth standards governing the establishment and use of advisory committees.

This committee provides to the Director, NCI, and the Director, Division

of Cancer Cause and Prevention, advice concerning matters relating to the identification and evaluation of environmental carcinogens. The committee will terminate May 5, 1980, unless renewed by appropriate action as authorized by law.

Dated: May 12, 1978.

DONALD S. FREDRICKSON,
Director, National
Institutes of Health.

CLINICAL APPLICATIONS AND PREVENTION ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Clinical Applications and Prevention Advisory Committee, Division of Heart and Vascular Diseases, National Heart, Lung, and Blood Institute, July 13-14, 1978, Federal Building, Room 6C01, Bethesda, Md.

This meeting will be open to the public on July 13, from 9 a.m. to 12 noon, to discuss the current progress of the Aspirin Myocardial Infarction Study and the Epidemiology program. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on July 13, from noon to adjournment and on July 14, from 8:30 a.m. to adjournment, for the review, discussion, and evaluation of individual contract renewal proposals. The proposals and the discussions could reveal confidential trade secrets and personal information such as privileged unblinded medical data about individuals associated with the proposals.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, National Heart, Lung, and Blood Institute, Building 31, Room 5A03, National Institutes of Health, Bethesda, Md. 20014, phone 301-496-4236, will provide summaries of meetings and rosters of committee members. Dr. William J. Zukel, Executive Secretary of the Committee, Federal Building, Room 4C10, Bethesda, Md., 20014, phone 301-496-2533, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.837, National Institutes of Health.)

Dated: May 15, 1978.

ADVISORY COMMITTEES; NATIONAL CANCER INSTITUTE

Open Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be entirely open to the public to discuss issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Meetings will be held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014, unless otherwise stated.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014, 301-496-5708, will furnish summaries of the meetings and rosters of committee members upon request.

Other information pertaining to the meeting can be obtained from the Executive Secretary indicated.

Name of Committee: Cancer Control and Rehabilitation Advisory Committee.
Dates: July 12-13, 1978, 9 a.m. to adjournment.

Place: Building 31C, Conference Room 6, National Institutes of Health.

Times: Open for the entire meeting.

Agenda: To discuss current and projected programs of the Division of Cancer Control and Rehabilitation.

Executive Secretary: Dr. Veronica L. Conley, Blair Building, Room 7A07, National Institutes of Health, phone 301-427-7941.

Name of Committee: Executive Subgroup of the Clearinghouse on Environmental Carcinogens.

Dates: July 19, 1978, 8:30 a.m. to adjournment.

Place: Building 31C, Conference Room 6, National Institutes of Health.

Times: Open for the entire meeting.

Agenda: To review the activities of the Clearinghouse bioassay program and other relevant matters.

Executive Secretary: Dr. James M. Sontag, Building 31, Room 3A16, National Institutes of Health, phone 301-496-5108.

Name of Committee: President's Cancer Panel.

Dates: July 25, 1978, 9:30 a.m. to adjournment.

Place: Building 31C, Conference Room 7, National Institutes of Health.

Times: Open for the entire meeting.

Agenda: To hear reports on the President's Cancer Panel and the National Cancer Program.

Executive Secretary: Dr. Richard A. Tjalma, Building 31, Room 11A46, National Institutes of Health, phone 301-496-5854.

Dated: May 18, 1978.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

ROBINSON RANCHERIA

Procedures to Return Land to Trust Status

MAY 17, 1978.

The notice is published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 230 DM 1 and 2.

Pursuant to the Final Declaratory Judgment and Decree issued in *Mable Duncan, et al., v Andrus, et al.*, Nos. C-71-1572 and C-71-1713 by the United States District Court for the Northern District of California, each Indian of the Robinson Rancheria who has or retains any interest in or to the lands or assets thereof (however acquired) shall be entitled to elect to convey his or her interest to the United States to

be held in trust. Unless otherwise specified in the instrument of conveyance, title to the lands or assets described therein shall be held by the United States in trust for the individual Indian or Indians executing the conveyance. Conveyance of title to the United States may, at the election of the grantor, provide that the United States will hold title in trust for the Indians of the Robinson Rancheria, subject to such conditions or restrictions as are set forth in the instrument of conveyance. Each Indian of the Robinson Rancheria has until July 1, 1978 to exercise his option to convey his or her interest to the United States to be held in trust as specified in the instrument of conveyance. An acceptable form of Grant Deed—Individual is available at the Bureau of Indian Affairs, 2800 Cottage Way, Sacramento, Calif. 95825, and will be furnished upon request.

Similarly, trust status shall be restored to the community properties of the Rancheria upon the election of the Indians of the Robinson Rancheria. An acceptable form of Grant Deed—Community is available and will be furnished upon request. Completed instruments of conveyance are to be filed with the Bureau of Indian Affairs, 2800 Cottage Way, Sacramento, Calif. 95825, who will be responsible for recording said instruments with the County Recorder of Lake County.

In the event that lands are subsequently acquired within the boundaries of the Rancheria by one or more Indians thereof, they may be similarly restored to trust status in accordance with the procedures outlined above.

These procedures will be published by the Department in the FEDERAL REGISTER, will be posted in two conspicuous places on the Rancheria and in a newspaper of general circulation within Lake County, and will be sent to each individual named in this notice.

INTERNATIONAL TRADE COMMISSION

[337-TA-39]

CERTAIN LUGGAGE PRODUCTS

Order Permitting Inspection of In Camera Record and Extending Time for Written Submissions

Notice is hereby given that a request was received from the Federal Trade Commission on May 9, 1978, that the United States International Trade Commission exercise its discretion pursuant to Rule 210.44(a) of the Commission's Rules of Practice and Procedure (19 C.F.R. 210.44(a)) to permit inspection by two designated FTC attorneys of the *in camera* record and confidential findings contained in the recommended determination filed by the presiding officer on March 24, 1978, in the certain luggage products investigation No. 337-TA-39.

The presiding officer issued a recommendation and order concerning the Federal Trade Commission's request on May 12, 1978. He recommended that:

1. The requested disclosure to the FTC be made so as to permit inspection by attorneys Carl Hevener, Esq. and John F. McDermid, Esq. of the Federal Trade Commission;
2. That the date of disclosure be set for May 19, 1978 in the Office of the Secretary of this Commission; and
3. The extension of the briefing date be granted until May 26, 1978.

Counsel for complainant, Airway Industries, Inc., consented to the Federal Trade Commission's request for inspection of the *in camera* record on May 16, 1978.

Having considered the Federal Trade Commission's request of May 9,

1978; the presiding officer's recommendation concerning disclosure, and the consent of the complainant, the United States International Trade Commission, on May 22, 1978, *Ordered*—

(1) That Carl Hevener, Esq. and John F. McDermid, Esq., of the Federal Trade Commission will be permitted to inspect the *in camera* record and confidential findings contained in the recommended determination of the presiding officer filed on March 24, 1978, in the certain luggage products investigation No. 337-TA-39 on May 23, 1978, in the Office of the Secretary of this Commission; and

(2) The date for filing written submissions from the parties, other interested persons, Government agencies and departments, Governments or the public with respect to the recommended determination, the appropriate standard for granting temporary relief in section 337 proceedings, and the subject matter of subsections (a)(1), and (a)(2), and (a)(3) of section 210.14 of the Commission's Rules of Practice and Procedure (19 C.F.R. §210.14 (a)(1), (2), and (3)) (i.e., with respect to remedy, bonding, and the public interest) is extended until May 26, 1978.

Notice of the Commission's institution of the investigation was published in the FEDERAL REGISTER of November 30, 1977 (42 F.R. 60962).

By order of the Commission.

Issued May 23, 1978.

KENNETH R. MASON,
 Secretary.

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES v. LEGGETT & PLATT, INC.

Written Comments Upon Consent Judgment and Department of Justice Response Thereto

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16, the following written comments on the proposed judgment filed with the United States District Court in the Southern Division of Ohio, *Western Division in Civil Action No. 7976, United States of America v. Leggett & Platt, Inc.* were received by the Department of Justice and are published herewith, together with Justice's response to the comments.

Dated: May 15, 1978.

CHARLES F. B. MCALEER,
 Special Assistant for Judgment
 Negotiations, Office of Operations, Antitrust Division.

SMITH AND KIRCHER
 Cincinnati, Ohio, March 17, 1978.
 Mr. JOHN A. WEEDON,

Chief, Great Lakes Field Office, Antitrust Division, U.S. Department of Justice, Cleveland, Ohio.

Re: *United States of America v. Leggett & Platt, Incorporated*, Civil Action No. 7976.

DEAR MR. WEEDON: Enclosed, pursuant to 15 U.S.C. 16 (d) and (e), are written comments of Local 156, Upholsterers International Union of North America, AFL-CIO relating to the proposal for the consent judgment in the above-captioned matter.

Very truly yours,

THOMAS J. KIRCHER.

BEFORE THE ANTI-TRUST DIVISION, U.S. DEPARTMENT OF JUSTICE

COMMENTS OF LOCAL 156, UPHOLSTERERS INTERNATIONAL UNION OF NORTH AMERICA, AFL-CIO, RELATING TO THE PROPOSED FINAL JUDGMENT IN UNITED STATES OF AMERICA v. LEGGETT & PLATT, INC., CIVIL ACTION NO. 7976

Local 156, Upholsterers International Union of North America, AFL-CIO ("Local 156") submits the following comments (including the attached Affidavit), pursuant to U.S.C. 16 (d) and (e), with respect to the proposed Final Judgment in *United States of America v. Leggett & Platt, Inc.*, CA No. 7976, presently pending in the Western Division of the United States District Court for the Southern District of Ohio.

1. Local 156 is, as shown by the attached Affidavit, the bargaining representative of the production and maintenance employees at the facility which is to be affected by the proposed Final Judgment. Local 156 urges modification of the proposed decree, as more fully explained and set forth below.

2. The collective bargaining agreement between Local 156 and Defendant purports to be binding upon the "successors or assigns" of Defendant (Exhibit A, p. 1). Defendant thus has an obligation to see that any assignee of its operation assume such agreement, with the job security and other protections provided for employees under that agreement. As a matter of both practicality and Federal law, the successorship clause of the agreement will be unenforceable against any assignee unless assumption of the agreement is made a condition of sale.

The proposed Final Judgment, however, does not require either Defendant or the Trustee to make retention of employees or assumption of the agreement a condition of sale; indeed, it is arguable that neither Defendant nor the Trustee could insist upon such action by the buyer as a condition of sale. Failure by the buyer to take such action would result in the following consequences detrimental to the public interest:

A. Loss of employment by a large number of older workers with many years of service, with the attendant individual hardship and governmental burden of their unemployment; and

B. Loss to Defendant's competitor of workers with valuable skills and experience in the industry.

Therefore, Local 156 would urge that Section IV(D) of the proposed Final Judgment be modified to read as follows:

(D) Leggett & Platt and thereafter the Trustee shall use their best efforts to sell Greeno to a person (i) which intends to operate Greeno as a going business for the manufacture of innersprings and boxsprings and for the sale of such products to parties independent of such person and (ii) which is deemed suited to increase competition in the sale of such products and (iii) which un-

dertakes to retain the production and maintenance employees and assume the existing collective bargaining agreement.

3. The proposed decree would require that the assets of the facility be sold if the facility cannot be sold as a going business. Local 156 respectfully suggests that the decree's requirements for sale of the business by Defendant and the Trustee will effectuate virtually all of the goals of the settlement. If competitors did not purchase the business within the 24 months provided, it is fairly obvious that the marginal impact upon competition of continued operation of the facility by Defendant would be almost nil. The competitive impact statement filed by the parties does not indicate otherwise.

Certainly such impact is small when compared to the harm to the public interest entailed in throwing all of the workers out of jobs, especially when (see Affidavit) large numbers of them are older workers with skills which are not transferrable to other industries.

Local 156 would therefore urge that Section IV(A) of the proposed decree be modified to read:

(A) Leggett & Platt is ordered and directed to sell Greeno. Such sale shall be made, if possible, within thirty (30) months as provided in Section IV;

and that Section IV(E) of the proposed decree be modified to read:

(E) If such a purchaser for Greeno is not found within thirty (30) months from entry of this Final Judgment, the Trustee shall return its interest in Greeno to Leggett & Platt.

Respectfully submitted,

THOMAS J. KIRCHER,
 Smith & Kircher, Attorneys for Local 156, Upholsterers International Union of North America, AFL-CIO, 2402 Kroger Building, Cincinnati, Ohio 45202, 513-381-3525.

AFFIDAVIT

STATE OF OHIO,
 County of Hamilton, ss:

My name is Joe Harold Sampson. I reside at 5337 Charloe Street, Cincinnati, Ohio 45227. I am steward of Local 156, Upholsterers International Union, at the Leggett & Platt Greeno facility (also known as Ellis Street). I have held this position for approximately 16 years.

Attached hereto as Exhibit A is a copy of the current collective bargaining agreement covering the Greeno facility between Local 156 and Leggett & Platt. At present there are 53 employees working in the bargaining unit. At one point in the early 1970's, there were 265 employees, and there has been a gradual decline since that time. Attached hereto as Exhibit B is a copy of a seniority list from January, 1975. Attached hereto as Exhibit C is a copy of a seniority list from December, 1977. Substantially all of the persons shown on the 1975 list were working at that time. Of the people shown on the 1977 list only the 53 I mentioned above are working now.

The net result of all this is that the people who are working there now are, to a large extent, older workers with many years in the trade. They are skilled in spring manufacture, but their skills would not be readily transferrable to other industries. Many would be unemployed for long periods of time if production at the Greeno facility were terminated.

JOE HAROLD SAMPSON.

Sworn to before me and subscribed in my presence this 16th day of March, 1978.

THERESA ANN SPARER,
 Notary Public.

UNITED STATES DISTRICT COURT, SOUTHERN DIVISION OF OHIO, WESTERN DIVISION

United States of America, Plaintiff, v. *Leggett & Platt, Inc.*, Defendant.

Civil No. 7976.

Judge Carl B. Rubin.

GOVERNMENT'S RESPONSE TO COMMENTS OF LOCAL 156, UPHOLSTERERS INTERNATIONAL UNION OF NORTH AMERICA, AFL-CIO

The United States submits this response to the comments of Local 156, Upholsterers International Union of North America, AFL-CIO, upon the proposed Final Judgment in *"United States v. Leggett & Platt, Inc."*, Civil Action No. 7976.

In its comments, Local 156 states that, without their suggested modifications, the proposed Final Judgment could result in the loss of employment by the present production and maintenance employees at Leggett & Platt's Greeno facility on Ellis Street in Cincinnati, Ohio. The Government shares the concern of Local 156 for the employees at Greeno, but believes that the modifications suggested by Local 156 would lessen the likelihood of achieving the primary objective of divesting Greeno from Leggett & Platt. The Government, in formulating the proposed Final Judgment, has sought to protect competition in the innerspring and boxspring industry and to serve the interests of the public, who, as consumers, will purchase the finished product. Thus, the Judgment requires Leggett & Platt to sell its interest in Greeno to someone who intends to operate Greeno as a going business and who is deemed suited to increase competition in the innerspring and boxspring industry.

The first modification suggested by Local 156 would limit the number of prospective purchasers to those who are willing to be bound by Greeno's present collective bargaining agreement, thereby possibly reducing the chances that Greeno will be sold as a going business. The second modification suggested by Local 156, would eliminate the requirement that Leggett & Platt sell Greeno piecemeal if it cannot be sold as a going business. If the proposed Final Judgment were to allow the return of Greeno to Leggett & Platt after thirty (30) months, an incentive encouraging Leggett & Platt to sell would be eliminated. The probability that Greeno would be divested would thus be reduced. Matters relating to the employment of the production and maintenance employees of Greeno are properly left to Local 156, Leggett & Platt, and the purchaser of Greeno to negotiate. Such matters should not be fixed in the Judgment so as to interfere with the primary objective, to accomplish divestiture and restore competition.

The proposed Final Judgment is structured so that the most likely result is the sale of Greeno as a going business. The modifications recommended are either unnecessary or inappropriate and, therefore, would not further the public interest in this matter.

Dated: May 12, 1978.

Office of the Attorney General

[Order No. 785-78]

JOHN M. HARMON, ASSISTANT ATTORNEY GENERAL, OFFICE OF LEGAL COUNSEL

Delegation of Authority Respecting the Application for Approval of a Joint Operating Arrangement Between the Cincinnati Post and Cincinnati Enquirer

Pursuant to the Newspaper Preservation Act, 15 U.S.C. 1801 et seq., the Attorney General must approve, by prior written consent, an application for a joint newspaper operating arrangement if the arrangement is to qualify for the limited antitrust exemption afforded by the Act.

The regulations implementing the Newspaper Preservation Act are set forth in 28 CFR Part 48. The term "Attorney General" is defined by §48.2(a) of the Part to mean the Attorney General "or his delegate." I hereby delegate to John M. Harmon, Assistant Attorney General, Office of Legal Counsel, the authority to decide all questions arising under the Act in the matter of the September 28, 1977, application filed by the Cincinnati Post and the Cincinnati Enquirer for approval to enter into a joint newspaper operating arrangement, except that the Attorney General retains the authority to make the final decision in accordance with 28 CFR 48.14.

Dated: May 16, 1978.

GRIFFIN B. BELL,
 Attorney General.

DEPARTMENT OF LABOR

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations

listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C., this 22nd day of May 1978.

ERNEST G. GREEN,
Assistant Secretary for
Employment and Training.

Mine Safety and Health Administration

[Docket No. M-78-28-M]

NATIONAL GYPSUM CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Gold Bond Building Products, a division of National Gypsum Co., P.O. Box, Drawer B, Medicine Lodge, Kans. 67104, has filed a petition to modify the application of 30 CFR 55.9-88 (roll-over protective structures), to its Sun City Mine and Mill and Sun City Pit, located in Barber County, Kans., in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of Petitioner's statement is as follows:

- (1) The installation of a roll-over protective structure (ROPS) on Petitioner's 1974 model Cline side dump truck, 25 ton capacity, would prevent the truck from clearing in the mine.
- (2) It is not feasible to install a ROPS each time it comes to the surface as the truck makes 15 to 20 trips per day.
- (3) The haul roads are very good with no embankments, so that there is no danger of roll-over.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before June 26, 1978.

Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: May 17, 1978.

ROBERT B. LAGATHER,
Assistant Secretary for
Mine Safety and Health.

[FR Doc. 78-14815 Filed 5-25-78; 8:45 am]

[4510-43]

[Docket No. M-78-62-C]

PEABODY COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Peabody Coal Co., Graham, Ky. 42344, has filed a petition to modify the application of 30 CFR 75.1710-1 (cabs and canopies), to its Graham Hill Mine, located in Muhlenberg County, Ky., in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of Petitioner's statement is as follows:

- (1) The top at the above mine varies from 42 to 60 inches and is restricted because of the need to leave some bottom coal in place due to water accumulations and the need to install cross bars (rail bars) on the mine roof.
- (2) The use of canopies in such conditions reduces the equipment operator's field of vision, increasing the risk of injury to miners in the area and to the operator, who must lean out from the canopy to see more clearly.
- (3) Reduced compartment space increases operator fatigue and restricts arm and leg movement, hampering the safe operation of controls.
- (4) The increased equipment height and restricted vision create the danger of destruction of line curtains, other similar ventilation devices, roof supports, and trailing cables.
- (5) Restricted space impairs the operator's ability to escape from the equipment in an emergency.
- (6) The installation of a cab or canopy on roof bolters leaves insuffi-

cient clearance between the roof bolters and the rib such that the roof support plan cannot be complied with.

(7) As an alternative to cabs or canopies, Petitioner proposes to comply with its roof control plan, continue its regular program of safety instruction, with emphasis on problems relating to top and roof falls, make frequent tests of the roof, continue its job safety analysis program and intensify its training and retraining program involving roof control and examinations.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before June 26, 1978.

Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: May 17, 1978.

International Coat (ILGWU)	Paterson, N.J.	Apr. 28, 1978	Apr. 25, 1978	TA-W-3,592	Ladies' coats and raincoats.
J & R Fashions, Inc. (ILGWU)	Paterson, N.J.	Apr. 28, 1978	Apr. 25, 1978	TA-W-3,593	Ladies' winter coats.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the worker's form or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under title II, chapter 2, of the Act in accordance with the provisions of subpart B of 29 CFR part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 5, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 5, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 8th day of May 1978.

MARVIN M. FOOKS,
Director, Office of
Trade Adjustment Assistance.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (78-18)]

LIFE SCIENCES ADVISORY COMMITTEE

Meeting

The NAC Life Sciences Advisory Committee will meet on June 19-21, 1978, Kennedy Space Center, Kennedy Space Center, Fla. 32899. The meeting will be held in the first floor conference room of the O&C Building, Building M7355. Members of the public will be admitted on a first-come first-served basis, up to the capacity of the room, which is about 50 persons.

The NAC Life Sciences Advisory Committee serves in an advisory capacity only. In this capacity, it is concerned with man in relation to space travel, with exobiology, and with other life forms. Its academic interest include: physiology, behavior, clinical aerospace medicine, microbiology, radiology, biochemistry, plant biology nutrition and food technology, exobiology, biology of gravity and rhythms, ecology, and biotechnology. The current Chairman is Dr. G. Donald Whedon. There are 17 members.

The following list sets forth the approved agenda. For further information, please contact Dr. S. P. Vinograd:

Area Code 202-755-3723, NASA Headquarters, Washington, D.C. 20546.

TIME AND TOPIC

Monday, June 19, 1978

- 0800-0815 Welcome by Center Director.
- 0815-0845 Administrative. Call to order. Chairman's views and comments on intervening events, actions and anticipated requirements. Approval of minutes. Task team reports and Committee business.
- 0845-0930 NASA Life Sciences Overview. Briefing by the NASA Director of Life Sciences on recent and future events, progress and status of the Life Sciences Program.
- 0930-1700 Committee Work. Preparation of Committee document containing its review and recommendations to NASA on future directions for the Life Sciences.

Tuesday, June 20, 1978

- 0800-1300 Committee Work (continued).
- 1300-1430 KSC Life Sciences Program. To brief the Committee on the activities and future plans of the Life Sciences organization at the Kennedy Space Center.
- 1430-1730 Tour of the Facilities.

Wednesday, June 21, 1978

- 0830-1430 Committee Work (continued).

Dated: May 22, 1978.

KENNETH R. CHAPMAN,
Associate Administrator
for External Relations.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

MEDIA ARTS ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Media Arts Advisory Panel (Major Media Centers) to the National Council on the Arts will be held June 14, 1978, from 9 a.m. to 6 p.m.; and June 15, 1978, from 9 a.m. to 1 p.m.; in Room 1340 of the Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of March 17, 1977, these sessions will be

closed to the public pursuant to subsection (c)(4), (6), and 9(B) of section 552 of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6070.

MAY 22, 1978.

JOHN H. CLARK,
Director, Office of Council and
Panel Operations, National
Endowment for the Arts.

Date and Time: June 11, 1978, 9 a.m.-5 p.m., June 12, 1978, 9 a.m.-5 p.m.
Place: Duane Hall, F-1117, University of Colorado, Boulder, Colo.
Type of Meeting: June 11, 1978, open: 9 a.m.-5 p.m., June 12, 1978, closed: 9 a.m.-10 a.m., June 12, 1978, open: 10 a.m.-5 p.m.
Contact Person: Dr. Howel G. Pugh, Head, Nuclear Science Section, Room 341, National Science Foundation, Washington, D.C. 20550. Telephone: 202-632-4318.
Summary Minutes: May be obtained from the Committee Management Coordinator, Division of Financial & Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550.
Purpose of Committee: To provide advice on a continuing basis to both DOE and NSF on support for basic nuclear science in the United States.
Agenda:

JUNE 11, 1978

Open Session (9 a.m.-5 p.m.)

Introductory remarks and discussion.
Discussion of a general policy on facilities.
Discussion of opportunities and needs in research into solar neutrinos.
Discussion of activities of the 1978 NUSAC Manpower Subcommittee.

JUNE 12, 1978

Closed Session (9-10 a.m.)

Discussion of projects under consideration for funding.

Open Session (10 a.m.-5 p.m.)

Discussion of activities of the 1978 NUSAC Instrumentation Subcommittee.
Discussion of activities of the 1978 Working Group on Budget Impacts upon Ongoing Research Programs.
Discussion of issues raised by the user-group mode of research.
Discussion of issues raised from the floor.
Reason for Closing: The projects being reviewed include information of a proprietary or confidential nature, including technical information, financial data such as salaries, and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to Close Meeting: This determination was made by the Committee Management Officer, pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determina-

tions by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Committee Management
Coordinator.

MAY 23, 1978.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8102]

EXXON MINERALS CO., U.S.A.

Availability of Draft Environmental Statement for Highland Uranium Solution Mining Project

Notice is hereby given that a Draft Environmental Statement prepared by the Commission's Office of Nuclear Material Safety and Safeguards related to the proposed Highland uranium solution mining project located in Converse County, Wyo., is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. 20555. The Draft Statement is also being made available at the State Clearinghouse, State Planning Coordinator, Office of the Governor, Capitol Building, Cheyenne, Wyo. 82001. Requests for copies of the Draft Environmental Statement (identified as NUREG-0407) should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Division of Technical Information and Document Control.

The Applicant's Environmental Report submitted by Exxon Minerals Co., U.S.A., is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on October 3, 1977 (42 FR 53691).

Interested persons may submit comments on the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the draft Environmental Statement (local agencies may obtain these documents upon request). Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. Comments are due by July 10, 1978. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the Commission's staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Com-

mission, Washington, D.C. 20555, Attention: Director, Division of Fuel Cycle and Material Safety.

Dated at Silver Spring, Md., this 15th day of May 1978.

For the Nuclear Regulatory Commission.

LELAND C. ROUSE,
Chief Fuel Processing and Fabrication Branch, Division of
Fuel Cycle and Material
Safety.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

NATIONAL ADVISORY COMMITTEE ON UNIFORM TRAFFIC CONTROL DEVICES

Open Meeting

Pursuant to Executive Order 11671, the Federal Highway Administration (FHWA) announces the meeting dates and relevant information for the mid-year meeting of the National Advisory Committee on Uniform Traffic Control Devices. The meeting will be held June 14-16, 1978, at the Doubletree Inn, Scottsdale, Ariz., with a schedule as follows:

Wednesday, June 14:
Registration 8-12
General Session 1-3
Subcommittee Sessions 3-5
Thursday, June 15:
Subcommittee Sessions 8:30-5 p.m.
Executive Committee 2-5 p.m.
Friday, June 16:
General Session 8-3 p.m.

Attendance by the public will be limited to space available. For further information contact the Office of Traffic Operations, Federal Highway Administration, Washington, D.C. 20590, code 202-426-0411.

Purpose. This Committee reviews currently approved standards, guides and warrants for traffic control devices including signs, signals and pavement markings contained in the Manual on Uniform Traffic Control Devices. They recommend revisions of such standards, propose new ones to meet new developments and improvements and provide advice to the Federal Highway Administrator to the end that the Manual shall be at all times and as far as practicable, a complete and up-to-date presentation of best practices.

Agenda. Technical items for review and discussion at sessions of the respective subcommittees include the following:

SUBCOMMITTEE ON SIGNS

- (a) Experimentation with "Star of Life" symbol, Sn-233.
- (b) Use of Turn Signs, Sn-234.
- (c) Placement of Warning Signs, Sn-217.
- (d) Bicycle Parking Sign, By-8.
- (e) International Youth Hostel Sign, By-9.
- (f) Specific Service Information Signs, Sn-198.
- (g) Recreational and Cultural Interest Signs, Sn-219.
- (h) One-Way Sign at Signalized Intersections, Sn-235.
- (i) On-Ramp Symbol Signs, Sn-236.
- (j) Task Force Reports.
1. Symbols.
2. Signing for Public Median Crossovers.
3. Signing for Rest Area Facilities.
4. Ramp Terminal Direction Signs.
5. Need for DIESEL Fuel Service Signs.
6. Display of County Route Markers.
7. Recreational Vehicle Traffic Control Signs.
8. Signing for Medical Facilities.

SUBCOMMITTEE ON SIGNALS

- (a) Flashing WALK Provision; Sg-88.
- (b) Red Arrow for NTOR, Sg-98.
- (c) Signal Shielding Requirements, Sg-105.
- (d) "Blinking" Signal, Sg-106.
- (e) Combination Flashing Beacons and Steady Burn Right Turn, Sg-108.
- (f) Sightless Pedestrian Signal, Sg-109.
- (g) Steady Green-vs-Flashing Yellow for Emergency Signals.
- (h) Traffic Control Devices Handbook, Part IV.
- (i) Task Force Reports.
1. Signal Indications, Sequences and Phasing.
2. Pedestrian Indications.
3. Flashing Beacons.
4. Signal Location and Intensity.
5. Signal Warrants.

SUBCOMMITTEE ON MARKINGS

- (a) Use of Raised Pavement Markers, M-57.
- (b) Use of Delineators, M-35.
- (c) Standardization of Colors of Type 3 Object Markers, M-54.
- (d) Lane Drop Markings, M-58.

SUBCOMMITTEE ON CONSTRUCTION AND MAINTENANCE

- (a) Temporary Markings for C&M Areas, Cn-41.
- (b) Remarks by Associate Administrator for Safety.

- (c) MUTCD Illustrations.
- (d) Comments of Center for Auto Safety.
- (e) Traffic Control Devices Handbook—Part VI.
- (f) Review of Cn-30.
- (g) APWA Report Evaluation.

SUBCOMMITTEE ON GRADE CROSSINGS

- (a) Traffic Control Devices Handbook, Part VIII.
- (b) Lateral Clearance for Flashing Light Signals and Gates, RR-5.
- (c) Warning Signs on Parallel Roadways, RR-6.
- (d) Reflectorized Crossbuck Border, RR-7.

SUBCOMMITTEE ON RESEARCH

- (a) Reorganization of Subcommittee.
 - (b) Status of FHWA Research Studies.
 - (c) Progress Report on NAC Research Projects.
 - (d) Requests for Research and Experimentation.
 - (e) Subcommittee recommendations.
 - (f) Other.
- The agenda for the general session is as follows:
- (a) Call to Order—Executive Director.
 - (b) Opening Remarks—FHWA Sponsor.
 - (c) Introduction of Guests—Chairman.
 - (d) Report of Officers.
 - (e) Reports and Recommendations of Subcommittees.
 - (f) Other Reports and Comments.
 - (g) Other Business.
 - (h) Adjournment.

Additional items may be added to the items noted with the approval of the Subcommittee Chairmen and within the allotted time.

J. J. CROWLEY,
Director,

Office of Traffic Operations.

[4810-40]

DEPARTMENT OF THE TREASURY

Office of the Secretary

TREASURY NOTES OF JUNE 30, 1982; SERIES H-1982

Public Debt Series—No. 13-78

MAY 23, 1978.

1. INVITATION FOR TENDERS

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately \$2,250,000,000 of United States securities, designated Treasury Notes of June 30, 1982, Series H-1982 (CUSIP No. 912827 HU 9). The securities will be sold at auction with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued for cash to Federal Reserve Banks as agents of

foreign and international monetary authorities.

2. DESCRIPTION OF SECURITIES

2.1. The securities will be dated June 7, 1978, and will bear interest from that date, payable on a semiannual basis on December 31, 1978, and each subsequent 6 months on June 30 and December 31, until the principal becomes payable. They will mature June 30, 1982, and will not be subject to call for redemption prior to maturity.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. SALE PROCEDURES

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Wednesday, May 31, 1978. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, May 30, 1978.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is \$1,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11 percent. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed \$1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by a deposit of 5 percent of the face amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a guarantee of such deposit by a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of one-eighth of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.000. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allot-

ted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. RESERVATIONS

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. PAYMENT AND DELIVERY

5.1. Settlement for allotted securities must be made or completed on or before Wednesday, June 7, 1978, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than:

(a) Monday, June 5, 1978, if the check is drawn on a bank in the Federal Reserve District of the institution to which the check is submitted (the Fifth Federal Reserve District in case of the Bureau of the Public Debt), or

(b) Friday, June 2, 1978, if the check is drawn on a bank in another Federal Reserve District.

Checks received after the dates set forth in the preceding sentence will not be accepted unless they are pay-

able at the applicable Federal Reserve Bank. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment is not completed on time, the deposit submitted with the tender, up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered as deposits and in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. GENERAL PROVISIONS

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

PAUL H. TAYLOR,
Acting Fiscal
Assistant Secretary.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

DEPARTMENT OF LABOR

Pension and Welfare Benefit Programs
(Prohibited Transaction Exemption 78-5)

F. W. HARRIS, INC. EMPLOYEES PROFIT
SHARING TRUST

Exemption from the Prohibitions Respecting a
Transaction

AGENCIES: Department of the Treasury/Internal Revenue Service, Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption enables the F. W. Harris, Inc. Employees Profit Sharing Trust (the Plan) to sell certain plan assets to F. W. Harris, Inc. (the Employer).

FOR FURTHER INFORMATION
CONTACT:

Charles Humphrey of the Prohibited Transactions Staff of the Employee Plans Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (attention: EEP:PT:2), 202-566-3089 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: On January 13, 1978, notice was published in the FEDERAL REGISTER (43 FR 2029) of the pendency before the Internal Revenue Service and the Department of Labor (the Agencies) of an exemption from the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code and from the provisions of section 406(a)(1), 406(b)(1), and 406(b)(2) of the Em-

ployee Retirement Income Security Act of 1974 (the Act), for a transaction described in an application submitted by the Employer and the trustees of the Plan. The notice set forth a summary of the facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Agencies in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Internal Revenue Service (the Service). In addition, the notice stated that any interested person might submit a written request that a hearing be held relating to this exemption. No public comments and no requests for a hearing were received by the Service.

GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 4975(c)(2) of the Code and section 408(a) of the Act does not relieve a fiduciary or party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Code and the Act. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with subsection (a)(1)(B) of section 404 of the Act, nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 4975(c)(1)(F) of the Code and section 406(b)(3) of the Act.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Code and the Act, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is in fact a prohibited transaction.

EXEMPTION

In accordance with section 4975(c)(2) of the Code and section 408(a) of the Act and the procedures set forth in Rev. Proc. 75-26, 1975-1 C.B. 722, and

ERISA Proc. 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Agencies make the following determinations: (a) The exemption is administratively feasible; (b) It is in the interests of the Plan and of the participants and beneficiaries; and (c) It is protective of the rights of participants and beneficiaries of the Plan.

Accordingly, the following exemption is hereby granted under the authority of section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26 and ERISA Proc. 75-1.

The taxes imposed by section 4975(a) and (b) of the Code by reason or section 4975(c)(1) (A) through (E) of the Code and the restrictions of section 406(a)(1), 406(b)(1), and 406(b)(2) of the Act shall not apply to a transaction involving the sale of a 1.13 acre parcel of property located on State Route No. 636 and State Route No. 28 in Loudoun County, Va., by the Plan to the Employer for \$50,000, provided that this amount is not less than the fair market value of the property.

The availability of this exemption is subject to the express conditions that the material facts and representations contained in the application are true and complete and that the application accurately describes all material terms of the transaction consummated pursuant to the exemption.

Signed at Washington, D.C., this 19th day of May 1978.

IAN D. LANOFF,
Administrator for Pension and
Welfare Benefit Programs,
Labor-Management Services
Administration, U.S. Department of Labor.

FRED J. OCHS,
Director, Employee Plans Division,
Internal Revenue Service.

Internal Revenue Service

Pension and Welfare Benefit Programs

[Application Nos. D-391 and D-461]

EMPLOYEE BENEFIT PLANS

Proposed Class Exemption to Permit Certain Transactions Involving Employee Benefit Plans and Insurance Companies that are Affiliated Through Stock Ownership with the Employers Maintaining the Plans

AGENCIES: Department of the Treasury/Internal Revenue Service, Department of Labor.

ACTION: Notice of proposed class exemption.

SUMMARY: This document contains a notice of pendency before the Internal Revenue Service and the Department of Labor (the Agencies) of a proposed class exemption from certain restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by section 4975 of the Internal Revenue Code of 1954 (the Code). The proposed class exemption, if granted, would enable insurance companies which are affiliated through stock ownership with employers establishing or maintaining employee benefit plans to sell life insurance, health insurance or annuity contracts to such plans. The proposed exemption, if granted, would affect participants and beneficiaries of plans to which such insurance products are furnished, employers maintaining these plans, affiliated insurance companies that are covered by the exemption, and other persons participating in the transactions.

DATES: Written comments and requests for a public hearing must be received by the Internal Revenue Service on or before July 25, 1978.

ADDRESS: All written comments and requests for a hearing (at least six copies) should be addressed to the Commissioner of Internal Revenue, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: E:EP:PT, "Captive Insurance". All the applications for exemption which form the basis of this class exemption and all comments relating to this proposed exemption will be available for public inspection at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue NW., Washington, D.C. 20224, and at the Public Documents Room of the Pension and Welfare Benefit Programs, Room N-4467, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT:

Gary H. Lefkowitz of the Prohibited Transactions Staff of the Employee Plans Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: E:EP:PT), 202-566-3045, or Charles Edelstein, Office of Regulatory Standards and Exceptions, Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20216, 202-523-8444. These are not toll free numbers.

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Agencies of a class exemption from the restrictions of sections 406(a), 406(b) (1) and (2) and section 407(a) of the Act and from the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975 (c)(1) (A) through (E) of the code. The

Agencies received two applications requesting a class exemption for the subject transaction. One was filed jointly by the National Association of Independent Insurers (NAII) and the American Mutual Insurance Alliance (Alliance) (D-461). The other application was filed by the American Council of Life Insurance (ACLI) (D-391).

The applications for class exemption were filed pursuant to section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26, 1975-1 C.B. 722 and ERISA Procedure 75-1 (40 FR 18471, April 28, 1975).

Numerous applications have also been received for individual exemptions covering transactions of the type described in this proposed class exemption. All such transactions will be exempted if they satisfy the terms and conditions of the proposed class exemption. As stated in section 3.04 of Rev. Proc. 75-26 and ERISA Proc. 75-1, an application for an individual exemption will not ordinarily be considered separately if a class exemption which may encompass the transaction described in the application for an individual exemption is under consideration by the Agencies. Accordingly, the Agencies are notifying directly each applicant for an individual exemption of the fact that such applicant's application is not being considered separately from this proposed class exemption, that such application will ordinarily be closed, and, therefore, that such applicant's comments with respect to this pending class exemption are sought by the Agencies.¹

SUMMARY OF FACTS AND REPRESENTATIONS

Section 4975(d)(5) of the Code and section 408(b)(5) of the Act contain a statutory exemption from the prohibited transactions provisions of the Code and Act for some of the transactions addressed in this proposal. The applicants, however, make many representations with respect to the unsuitability of the statutory exemption and the conditions contained therein to the subject transactions. These representations are summarized below. Interested persons are referred to the applications on file with the Agencies for the complete representations of the applicants.

¹The Agencies have received exemption applications which involve transactions whereby one insurance company which has sold an insurance contract to a plan reinsures all or a portion of the risk with another insurance company, under circumstances where either of the companies is a disqualified person or party in interest. This proposed class exemption is not intended to cover such reinsurance arrangements to the extent they are prohibited transactions.

I—ACLI

The application submitted by the ACLI (the successor to the American Life Insurance Association) requests a class exemption which would allow a life insurance company to sell insurance or annuity contracts to an employee benefit plan maintained by a corporation that is a subsidiary of the life insurance company. The ACLI makes the following representations in connection with the requested exemption.

(a) The ACLI is an association of 441 life insurance companies. As of November 23, 1977, these companies were the insurers of 92 percent of the life insurance in force in the United States and held 99 percent of the assets of insured pension plans.

(b) Where a stock-affiliated controlled group of corporations includes a life insurance company, it has been the customary and normal practice for employee plans maintained by members of the group to be funded by the purchase of insurance policies from the life insurance company.

(c) The sale or provision of insurance policies to an affiliated company's plan by a life insurance company which, within the meaning of section 4975(e)(2) of the Code and section 3(14) of the Act, is a disqualified person or party in interest with respect to that plan, may be a prohibited transaction under section 4975(c)(1) of the Code and section 406 of the Act. Sections 4975(d)(5)(B) of the Code and 408(b)(5)(B) of the Act do, however, specifically exempt such transactions if, among other conditions, the life insurance company is (directly or indirectly) a wholly owned subsidiary of the company maintaining the plan. But there is no express statutory exemption for the reverse situation where the life insurance company is the parent corporation and sells policies to fund the plan of a subsidiary. An administrative exemption is thus requested for this reverse situation.

(d) It would be contrary to normal business practices, and unnecessarily restrictive, to require an employee benefit plan to go outside the corporate group to purchase insurance where it is available from the parent corporation. The mere fact that the life insurance company is the parent corporation, instead of a subsidiary that could be covered by the statutory exemption, should not require different practices.

(e) Transactions described in the application for class exemption have occurred continually since the effective date of the prohibited transaction restrictions of the Code and Act. Since it is not clear whether the transitional rules of sections 414(c) and 2003(c)(2) of the Act of the provisions of any administrative exemption previously granted by the Agencies apply to these

transactions, the ACLI requests that the proposed class exemption be effective as of January 1, 1975.

II—NAII AND ALLIANCE

The application submitted jointly by the NAII and the Alliance requests a class exemption so that an insurance company may furnish contracts used to provide benefits to employee benefit plans maintained by its parent or other stock-affiliated company. As requested, the class exemption would also cover those transactions which might otherwise fail to qualify for the specific exemption of the Code and the Act because the insurance company making the sale is not a wholly owned subsidiary of the employer maintaining the plan or because more than 5 percent of the selling company's total annual premiums and annuity considerations are derived from sales to plans of stock-affiliated companies. The NAII and the Alliance make the following representations in connection with the requested exemption.

(a) The NAII is a voluntary trade association of over 600 stock and non-stock property-liability insurers. Its member and subscriber companies wrote insurance resulting in approximately \$23 billion of property-liability premium income in 1975 and are doing business in all states and the District of Columbia. The Alliance is a voluntary trade association of approximately 100 mutual property-liability insurers and subscribers. Its member and subscriber companies wrote insurance resulting in approximately \$15 billion of property-liability premium income in 1975 and are also doing business in all states and the District of Columbia. A substantial number of these companies have life insurance company affiliates which enable these companies to fully serve all insurance needs of their policyholders.

(b) A significant number of insurance companies have, under an industry custom, ordinarily furnished insurance and annuity contracts to fund employee benefit plans maintained by parents and other stock-affiliated insurance companies that are members and subscribers of the NAII and the Alliance. However, many well-run, adequately financed and state regulated companies do not satisfy the exemption under section 4975(d)(5)(B) of the Code and section 408(b)(5)(B) of the Act for the provision of insurance to a plan maintained by a parent because they are not wholly owned subsidiaries or because the resulting premium and annuity considerations exceed 5 percent of their premium income. Accordingly, the applicants request a class exemption, with retroactive application to January 1, 1975, to remedy what is represented to be the statutory discrimination which places affli-

ated insurance companies which satisfy the conditions of the above-referenced provisions by virtue of their sales structure and ownership alone at an unjustified competitive advantage over certain affiliated companies which do not satisfy the ownership and premium tests.

(c) The insurance sales which are the subject of the requested class exemption are generally arranged directly between the affiliated insurer and the plan (or its employer) without the intervention of a broker or other agent whose services would entitle it to a commission. In this regard, the NAII and the Alliance are aware of no state law that would require commissions to be paid upon the sale of either a group or individual policy by a disqualified person or party in interest for the purpose of funding benefits under a plan maintained by an affiliate. Consequently, the selling company can furnish the insurance at a lower rate, and the plan (or its employer), by purchasing the insurance from the affiliated company, can secure (or afford to provide) better coverage than if the insurance were to be purchased from an unaffiliated insurance company. Conversely, if the requested exemption is not granted, plans or their employers which are forced to purchase insurance from an outside company will generally be subjected to increased insurance premiums due to the acquisition cost and allowance for profits without obtaining additional financial security.

(d) If an employer is forced to fund its employee benefit plans with insurance purchased from a third party rather than from an affiliated insurance company, premium income will inevitably be lost to the affiliate. These premium payments represent revenue for affiliates and thus indirectly enhance the financial position of the employer. The applicants aver that the loss of premium payments to the affiliated insurance companies covered by the proposed exemption resulting from requiring purchases of funding products from a third party would not be balanced by any increased protection for participants in the plans.

(e) An affiliated insurance company is frequently in a better position to administer efficiently the insurance for its parent's or other stock-affiliated company's plans, since the employees of the affiliate are both familiar with the needs and interested in the success of such related employee benefit plans.

(f) The exemption is requested only for transactions involving an affiliated insurance company whose financial position is such that the benefits payable under an affiliated employer's plan will be subject to no greater risk than if the insurance were provided by

an unaffiliated company. In this connection, the applicants stress that all insurance entities are licensed by at least one state insurance regulatory authority, are required to file annual financial statements with each state insurance department granting such licenses, are subject to financial audit on a periodic basis, and are subject to capital and/or surplus requirements of each state in which they are licensed. Examinations of insurance companies by the insurance commissioners of the states in which they transact business generally take place once every 3 years, but at least once every 5 years. In all states, such an examination entails a comprehensive review of the company's operations and the manner in which it conducts its business. Typically, the minutes of the meeting of the stockholders, directors, and major committees are reviewed, underwriting practices and reinsurance facilities are surveyed, and methods of handling claims and paying benefits are examined. These state regulatory bodies require verification and evaluation of assets and creation of sufficient reserves for liabilities. Between financial examinations, a company in good standing with the state insurance commission will be issued a Certificate of Compliance, generally on an annual basis. The continued provision of insurance to employee benefit plans maintained by affiliates is protective of the rights of the participants in and beneficiaries of such plans because the audited companies would have satisfied the insurance commissioners of the states where they are licensed to do business that they have sufficient assets to pay claims under their outstanding policies—including those that pertain to the plans.²

(g) The NAIL and the Alliance make the following additional representations with respect to those requirements of the statutory exemption, noted in representation (b) above,

²Based on these representations, the proposed exemption contains a condition that the insurance company has undergone a financial examination by the insurance commissioner of its domiciliary state within 5 years prior to the sales transaction. One individual applicant has represented that one state—Illinois—does not necessarily examine all insurance companies domiciled in that state within a 5-year period but requires that each such insurance company undergo an annual audit by an independent certified public accountant. In response to this individual application the exemption provides an alternative to the state audit requirement—that the insurance company have undergone an examination by an independent certified public accountant for each of the 5 years preceding the sale. Because this condition is based on the representations of an individual applicant, the Agencies specifically solicit comments concerning the feasibility of this alternative requirement in a class exemption.

which are commonly not met by their member and subscriber companies:

1. As a result of industry tradition, reinforced by state regulations, different lines of insurance are commonly written by separate corporate entities. Thus, a related fire insurance company and auto insurance company may, for example, jointly own a life insurance company which provides insurance for plans maintained by such fire and auto insurers for their employees. In other situations, a life company may be the parent and two or more casualty companies subsidiaries, or two affiliated life companies may together own a single casualty company. Notwithstanding the condition of Code section 4975(d)(5)(B) and Act section 408(b)(5)(B) that the company selling the insurance be a wholly owned subsidiary of the employer maintaining the plan, the applicants request that the availability of the class exemption not be determined by the technical type of organization of the insurance companies within the affiliated group.

2. Moreover, although the afore-referenced Code and Act sections condition the availability of the exemptive relief contained therein upon the sale being made by an insurance company which is wholly owned by the employer maintaining the plan, the applicants assert that a conflict of interest is less likely to arise if, e.g., a subsidiary is 60 percent or 90 percent owned than if 100 percent owned. Accordingly, it is requested that the class exemption extend to all funding sales that are made by companies which are disqualified persons or parties in interest with respect to plans maintained by affiliated employers by reason of section 4975(e)(2) (E) or (G) of the Code and 3(14) (E) or (G) of the Act.

3. The applicants posit that the existence of the 5 percent of premiums test as a condition for the statutory exemption does not prevent the Agencies from applying a different percentage, or no percentage at all, as a condition for the requested administrative exemption. The legislative history does not articulate the reasons or intent behind the imposition of the percentage test in Code section 4975(d)(5)(B) and Act section 408(b)(5)(B). The applicants note, however, that it has been suggested that the legislative drafters contemplated that a percentage limitation would ensure the presence of other major insurance customers and thereby provide an objective rate comparison for plan purchases, that such a limitation prevents the establishment of insurance companies solely for the purposes of funding and servicing plans of affiliated companies, and that a percentage test enhances the financial soundness of the selling company because of the involvement of independent party purchasers.

Based on the representations outlined above, the Agencies have determined to propose a 50 percent of premiums requirement which, they believe, would provide safeguards to plans and their participants without unduly restricting the traditional sales practices within the affiliated groups.³

³The Agencies have received several exemption requests for the sale of insurance where the premiums received by the insurance company from plans with respect to which it is a disqualified persons or party in interest represent more than 50 percent of

The Agencies note that the class exemption, if granted, would be applicable to any contract for the sale of life insurance, health insurance or annuities. The Agencies specifically solicit public comments as to whether the exemption should be broadened to cover any other type of insurance currently being marketed to employee benefit plans. Public commentators should discuss each type of insurance that the commentator believes should be covered by the exemption and the reasons for including such type of insurance.

GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 4975(c)(2) of the Code and section 408(a) of the Act does not relieve a fiduciary or disqualified person or other party in interest with respect to a plan to which the exemption is applicable from certain other provisions of the Code and the Act, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The pending exemption, if granted, will not extend to transactions prohibited under section 4975(c)(1)(F) of the Code and section 408(b)(3) of the Act;

(3) Before an exemption may be granted under section 4975(c)(2) of the Code and section 408(a) of the Act, the Agencies must find that the exemption is administratively feasible, in the interest of the plan or plans and of their participants and beneficiaries, and protective of the rights of such participants and beneficiaries of such plan or plans;

(4) The class exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Code and the act, including statutory exemptions and transitional rules. Furthermore, the fact that a

the total premiums or annuity considerations received by that company. To provide time for these insurance companies to reduce the premiums received from such plans to 50 percent of total premiums received—one of the conditions of the proposed exemption—the effective date for this condition will be delayed to 1 year from the date of the grant of the exemption.

transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is in fact a prohibited transaction;

(5) If granted, the pending class exemption will be applicable to a particular transaction only if the transaction satisfies the conditions specified in the class exemption; and

(6) All interested persons are invited to submit written comments on this proposed class exemption to the address and within the time period set forth above. In addition, any interested person may submit to the address and within the time period set forth above, a written request that a hearing be held relating to the pending class exemption. Such written request should state the reasons for such person's interest in the proposed class exemption.

A list of individual applications which involve the subject transactions as well as the individual and class applications for exemption, all written comments and all requests for a hearing (preferably six copies) will be made part of the record and will be available for public inspection at the addresses set forth above.

Proposed Exemption

Based on the applications hereinabove described, the Agencies have under construction the granting of the following class exemption under the authority of section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26 and ERISA Procedure 75-1. Effective January 1, 1975, the restrictions of sections 406(a), 406(b) (1) and (2), and 407(a) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale, in any taxable year, by an insurance company which is a disqualified person or party in interest with respect to an employee benefit plan, of life insurance, health insurance or annuity contracts if the following conditions are met:

(a) The insurance company making the sale—is a disqualified person or party in interest with respect to the plan by reason of a stock affiliation with the employer establishing or maintaining the plan that is described in section 4975 (e)(2) (E) or (G) of the Code and section 3(14) (E) or (G) of the Act;

(2) Is licensed to sell insurance in at least one state;

(3) (i) Has undergone a financial examination by the insurance commissioner of its domiciliary state within the 5 years prior to the sales transaction, or

(ii) Has undergone an examination by an independent certified public accountant for each of the 5 years prior to the sales transaction; and

(4) Has obtained a Certificate of Compliance from the insurance commissioner of its domiciliary state within the 18 months prior

to the transaction or when such certificates were last made available by the domiciliary state, if earlier;

(b) The plan pays no more than adequate consideration for the insurance contracts or annuities;

(c) Effective (date of granting of this exemption), no commissions are paid with respect to the sale of such insurance or annuity contracts; and

(d) Effective (1 year from date of granting of this exemption), the total premiums and annuity considerations received in that taxable year by the insurance company making the sale for such insurance or annuity contracts for all employee benefit plans (and their employers) with respect to which such insurance company is a disqualified person or party in interest by reason of section 4975(e)(2) (E) or (G) of the Code and section 3(14) (E) or (G) of the Act does not exceed 50 percent of the total premiums and annuity considerations received for all lines of insurance in that taxable year by such insurance company. In determining whether this requirement is met, all premiums and annuity considerations written by the insurance company making the sale for plans which it maintains are to be excluded from both the numerator and the denominator of the fraction.

Signed at Washington, D.C., this 22nd day of May 1978.

INTERSTATE COMMERCE COMMISSION

[Notice No. 668]

ASSIGNMENT OF HEARINGS

MAY 23, 1978.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No. MC 139761 (Sub-No. 3), George Hand & J. R. Rutherford d.b.a. H & R Trucking, now being assigned for hearing on July 19, 1978 (3 days), at Oklahoma City, OK, in a hearing room to be later designated.

No. MC 111545 (Sub-No. 238), Home Transportation Co., Inc., now being assigned for hearing on July 24, 1978 (1 week), at Dallas, Tex., in a hearing room to be later designated.

MC-FC-77226, Burmen Co., Inc., Pittsburgh, PA, Transferee and Sullivan Lines, Inc., (The Union National Bank of Pittsburgh—successor in interest) Pittsburgh, PA, transferor, is now assigned for hearing July 17, 1978 (2 weeks) at Pittsburgh, PA, at a location to be later designated.

MC-F-13355, B & L Motor Freight, Inc.—merge—Prumty Motor Express, Inc. and MC 123255 Sub 124, B & L Motor Freight, Inc., now assigned July 19, 1978 at Columbus, OH, is canceled and both transferred to modified procedure.

MC 119789 Sub 380, Caravan Refrigerated Cargo, Inc., now assigned June 6, 1978 at Columbus, OH, will be held in Room 235, Federal Building, 85 Marconi Boulevard.

MC 124947 Sub 71, Machinery Transports, Inc., now assigned June 7, 1978 at Columbus, OH, will be held in Room 235, Federal Building, 85 Marconi Boulevard.

MC 95084 Sub 118, Hove Truck Line; MC 119641 Sub 141, Ringle Express, Inc. and MC 114211 Sub 344F, Warren Transport, Inc., now assigned June 8, 1978 at Columbus, OH, will be held in Room 235, Federal Building, 85 Marconi Boulevard.

No. 36768, B & P Motor Express, Inc., and Shenango Steel Co., a corporation—Investigation of practices, now assigned June 12, 1978 at Pittsburgh, Pennsylvania, will be held in Room 1112 (Tax Court facilities), Federal Building, 1000 Liberty Avenue.

MC 126516 Sub 7, Skyline Motors Air Cargo, Inc., now assigned June 14, 1978 at Pittsburgh, PA, will be held in Room 1112 (Tax Court facilities), Federal Building, 1000 Liberty Avenue.

[Decision No. 36886]

TEXAS INTRASTATE FREIGHT RATES AND CHARGES

Establishment of TOFC Plan II½ Between
Dallas and Houston

By petition filed March 27, 1978, petitioner, William M. Gibbons, Trustee of the property of the Chicago, Rock Island & Pacific Railroad Co., Debtor, is made a respondent to this proceeding.

requests that this Commission institute an investigation of Texas intrastate freight rates and charges, under section 13 of the Act. Petitioner seeks an order authorizing the establishment of intrastate rates between Dallas and Houston, Tex., on the same mileage-scale level as rates in effect and charged on freight-all-kinds loaded in trailers for transportation on flat cars moving in interstate or foreign commerce in Plan II½ ramp-to-ramp service. Petitioner has stated grounds sufficient to warrant instituting an investigation.

It is ordered, The petition is granted. An investigation, under section 13 of the Act, is instituted to determine whether the Texas intrastate rail freight rates and charges in any respect cause any unjust discrimination against or any undue burden on interstate or foreign commerce, or cause undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce and persons or localities in interstate or foreign commerce, or are otherwise unlawful, by reason of the failure of such rates and charges to establish intrastate rates between Dallas and Houston, Tex., on the same mileage-scale level as rates in effect and charged on freight-all-kinds loaded in trailer or trailers for transportation on flat cars moving in interstate or foreign commerce in Plan II½ ramp-to-ramp service. The investigation shall also determine if any rates or charges, or maximum or minimum charges, or both, shall be prescribed to remove any unlawful advantage, preference, discrimination, undue burden, or other violation of law, found to exist.

The petitioner, William M. Gibbons, Trustee of the property of the Chicago Rock Island & Pacific Railroad Co., Debtor, is made a respondent to this proceeding.

All persons who wish to participate in this proceeding and to file and receive copies of pleadings shall make

known that fact by notifying the Office of Proceedings, Room 5342, Interstate Commerce Commission, Washington, D.C. 20432, on or before 15 days from the FEDERAL REGISTER publication date. Although individual participation is not precluded, to conserve time and to avoid unnecessary expense, persons having common interests should endeavor to consolidate their presentations to the greatest extent possible. This Commission desires participation of only those who intend to take an active part in this proceeding.

As soon as practicable after the last day for indicating a desire to participate in the proceeding, this Commission will serve a list of names and addresses on all persons upon whom service of all pleadings must be made. Thereafter, this proceeding will be assigned for oral hearing or handling under modified procedure.

A copy of this order shall be served upon the respondent. Texas shall be notified of the proceeding by sending copies of this order by certified mail to the Governor of Texas and the Railroad Commission of Texas. Further notice of this proceeding shall be given to the public by depositing a copy of this order in the Office of the Secretary of the Interstate Commerce Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

This is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

Dated at Washington, D.C., this 17th day of May 1978.

By the Commission, Robert J. Brooks, Director, Office of Proceedings.

H. G. HOMME, Jr.,
Acting Secretary.

CIVIL AERONAUTICS BOARD.

Notice of addition of item to the May 25, 1978 meeting agenda.

TIME AND DATE: 10 a.m., May 25, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 8a. Docket 32343-Dallas-Fort Worth, Philadelphia Service Investigation, (Memo No. 7846-A).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Expedition is required because it involves the expansion of a proceeding already under way. At the prehearing conference on May 15 the Judge and the parties sought an early resolution of the issue. Accordingly, the following Members have voted that agency business requires the addition of Item 8a and that no earlier announcement of the addition was possible:

Chairman, Alfred E. Kahn
Vice Chairman, G. Joseph Minetti
Member, Lee R. West
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey

FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Wednesday, May 31, 1978.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

SUMMARY AGENDA

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Proposed discontinuance of reports FR U-4A (Annual Report of Outstanding Loans to Purchase or Carry Securities) and FR U-4M (Monthly Report of Outstanding Loans to Purchase or Carry Securities).
2. Proposed extension of the Survey of Interest Rates Charged on Selected Types of Consumer Installments Loans (FR 835b).
3. Proposed policy statement on Interagency EDP Examinations.

DISCUSSION AGENDA

1. Proposed statement to be presented to the Subcommittee on Federal Spending Practices and Open Government of the Senate Committee on Governmental Affairs regarding the impact of the Government in the Sunshine Act.
2. Proposed amendments to Regulations D (Reserves of Member Banks), Q (Interest on Deposits), and Y (Bank Holding Companies) to establish a procedure for regulating the issuance of small denomination debt obligations by bank holding companies and their non-bank subsidiaries.
3. Proposed revisions to the Planning Guidelines for Federal Reserve Bank Facilities related to Site Feasibility Studies.
4. Federal Reserve Bank and Branch director matters relating to: (a) political activity, (b) size of Class C directorate and (c) conflicts-of-interest. (Item (c) was proposed earlier for public comment; docket No. R-0144).
5. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

5

FEDERAL TRADE COMMISSION.

TIME AND DATE: 2 p.m., Wednesday, May 31, 1978.

PLACE: Room 432, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

Nonadjudicative matters:

(1) Approval of minutes on nonadjudicative matters considered meetings of April 27, and May 15, 1978.

(2) Consideration of request for formal investigation and resolution directing the use of compulsory process, and authorization to take action under section 205 of the Magnuson-Moss Warranty-FTC Improvement Act, in a nonpublic investigation.

(3) Consideration of issuance of an investigational resolution and authorization of compulsory process in a nonpublic Part II matter.

(4) Consideration of acceptance of proposed consent agreements in File No. 761 0074, with Lockheed Corp. and two other respondents in this matter, and consideration of acceptance of proposed consent agreement in a nonpublic Part II matter.

(5) Consideration of whether to file a trademark cancellation petition before the

SUNSHINE ACT MEETINGS

U.S. Patent Office with respect to a (non-public) Part II matter.

Adjudicative matters under Part 3 of the Rules of Practice:

Approval of minutes on adjudicative matters considered at meeting of May 15, 1978.

CONTACT PERSON FOR MORE INFORMATION:

Wilbur T. Weaver, Office of Public Information, 202-523-3830. Recorded Message: 202-523-3806.

GOVERNING BODY REQUIREMENTS FOR HEALTH SYSTEMS AGENCIES

Notice of Proposed Rulemaking

[4110-83]

DEPARTMENT OF HEALTH,
EDUCATION, AND WELFARE

Health Resources Administration

[42 CFR Part 122]

GOVERNING BODY REQUIREMENTS FOR
HEALTH SYSTEMS AGENCIES

Notice of Proposed Rulemaking

AGENCY: Health Resources Administration, HEW.

ACTION: Notice of proposed rulemaking.

SUMMARY: This Notice proposes to make more explicit the regulations regarding the composition of governing bodies and executive and other committees of health systems agencies and methods of selection of members of those bodies. The proposed rules are designed to implement more effectively section 1512(b)(3)(C) of the Public Health Service Act as amended by the National Health Planning and Resources Development Act of 1974, which requires a "broadly representative" consumer majority.

DATE: Comments must be received July 10, 1978.

ADDRESS: Written comments and recommendations should be submitted, preferably in duplicate, to: Director, Office of Policy Coordination, Bureau of Health Planning and Resources Development, Center Building, Room 6-22, 3700 East-West Highway, Hyattsville, Md. 20782. All materials received in response to this Notice will be available for public inspection and copying at the above location on weekdays (Federal holidays excepted) between the hours of 9 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Colin C. Rorrie, Ph.D. Acting Director, Bureau of Health Planning and Resources Development, Center Building, Room 6-22, 3700 East-West Highway, Hyattsville, Md. 20782, 301-436-6850.

SUPPLEMENTARY INFORMATION: Title XV of the Public Health Service Act, which was added by the National Health Planning and Resources Development Act of 1974 (P.L. 93-641, January 4, 1975), authorizes the establishment of health systems agencies (HSA's) for the conduct of health planning activities in health service areas. Section 1512(b)(3)(C) sets forth requirements for the membership of HSA governing bodies and executive committees as follows:

The membership of the governing body and the executive committee (if any) of an agency shall meet the following requirements:

(i) A majority (but not more than 60 percent of the members) shall be residents

of the health service area served by the entity who are consumers of health care and who are not (nor within the twelve months preceding appointment been) providers of health care and who are broadly representative of the social, economic, linguistic and racial populations, geographic areas of the health service area, and major purchasers of health care.

(ii) The remainder of the members shall be residents of the health service area served by the agency who are providers of health care and who represent (I) physicians (particularly practicing physicians), dentists, nurses, optometrists, and other health professionals, (II) health care institutions (particularly hospitals, long-term care facilities, substance abuse treatment facilities, and health maintenance organizations), (III) health care insurers, (IV) health professional schools, and (V) the allied health professions. Not less than one-third of the providers of health care who are members of the governing body or executive committee of a health systems agency shall be direct providers of health care (as described in section 1531(3)).

(iii) The membership shall—

(I) include (either through consumer or provider members) public elected officials and other representatives of governmental authorities in the agency's health service area and representatives of public and private agencies in the area concerned with health,

(II) include a percentage of individuals who reside in nonmetropolitan areas within the health service area which percentage is equal to the percentage of residents of the area who reside in nonmetropolitan areas, and

(III) if the health systems agency serves an area in which there is located one or more hospitals or other health care facilities of the Veterans Administration, include as an ex officio member, an individual whom the Chief Medical Director of the Veterans Administration shall have designated for such purpose, and if the agency serves an area in which there is located one or more qualified health maintenance organizations (within the meaning of section 1310), include at least one member who is representative of such organizations.

Regulations governing the designation and funding of HSA's by the Secretary (42 CFR Part 122) were published in the *FEDERAL REGISTER* of March 26, 1976 (41 FR 12812). With respect to the composition and method of selection of the consumer majorities of HSA governing bodies, the regulations essentially restate the statute without further elaboration.

The Preamble to the regulations, however, stated that while the term "broadly representative" as it is used in section 1512(b)(3)(C)(i) does not necessitate an equal proportion, it does indicate that the consumer majority should "roughly approximate, in its representational aspects, the whole population of the health service area." 41 FR 12820. The Preamble further noted that the Department would "be reviewing the performance" of HSA's "to see if, in the future, more specific regulation is warranted." *Ibid.*

Experience has shown that HSA's have interpreted the representation

requirements in differing ways, producing considerable uncertainty. A number of lawsuits have been filed, challenging the legality of the composition of certain governing bodies on the grounds that various population groups (including low income persons, women, and the handicapped) are underrepresented. In view of the evident uncertainty as to the standard to be used to measure compliance with the "broadly representative" requirement, the Secretary has concluded that clarification of the regulations is needed.

In proposing the amendments to the existing regulations as set out below, the Secretary has been mindful of the following statement which appeared on page 22 of the Conference Report on the Health Planning and Health Services Research and Statistics Act of 1977 (Pub. L. 95-83):

The conferees also wish to clarify the original intent of the Health Planning and Resources Development Act with respect to the composition of governing bodies of health systems agencies. Under the law (section 1512(b)(3)(C) of the Public Health Service Act) consumer representatives of governing bodies are to be "broadly representative of the social, economic, linguistic and racial populations" residing within the health service area. The conferees emphasize that, as the law states, the populations are to be broadly represented. Therefore, several different approaches to insuring meaningful involvement in HSA decisions by all segments of society are permissible. In particular, it was not the intent of the Congress in enacting this provision to mandate a quota system requiring the selection of representatives of a particular category strictly proportionate to its representation in the population of the area or to require that representatives of a category be members of the class they represent. Instead, the Congress intended that, in implementation of the requirement with respect to consumer representatives, health systems agencies have the flexibility to adopt selection processes most appropriate to local needs. (H.R. Rep. No. 95-500, 95th Cong., 1st Sess. 22 (July 14, 1977).)

This Notice invites all interested parties to participate in the rulemaking procedure by: (1) Submitting written comments on the regulatory language proposed, (2) submitting written recommendations for alternative methods of implementing section 1512(b)(3)(C), including identification of additional issues, or (3) recommending alternative language to be used in the final regulations. After consideration of the material received in response to this Notice, the Secretary of Health, Education, and Welfare will publish final regulations.

Comments are specifically requested in the following areas:

I. *Explanation of "broadly representative."* Is the proposed explanation of the phrase "broadly representative" adequate to encompass the multiple consumer representation requirements included in section 1512(b)(3)(C)? In this connection it should be noted that

the regulations as proposed would not require that each governing body include a representative of the handicapped because of the widely varying numbers of handicapped individuals in various health service areas. However, HSA's are subject in their planning and review activities to the requirements of section 504 of the Rehabilitation Act of 1973 and its implementing regulations (45 CFR Part 84) including the requirement that they consult with handicapped persons or organizations representing handicapped persons in evaluating their policies and practices (see 45 CFR 84.6(c)). Further, the requirement that the board "roughly approximate" a group's population in the community does not require HSA's to adopt strict quotas for membership.

II. *Identification of population groups.* Should any additional specific population groups be identified within the "social, economic, linguistic and racial populations" of an area as groups of which the governing body should be representative?

Particular attention is directed to proposed § 122.109(b)(1)(i)(B), which speaks of "economic" groups, and identifies "poverty and low-income groups" as illustrative of groups which must be included. Comments and suggestions are specifically invited on whether the economic groups can or should be more explicitly identified by regulation, and if so, what approach should be used. Possible approaches include classification of economic groups into two, three or more income levels, or setting specific uniform ranges of income which rely on living standards published by the Bureau of Labor Statistics, on actual family income data available from the census or other sources, or on official "poverty" guidelines published by the Community Services Administration.

In addition, comments are also invited on whether regional variations in living costs or family income should be accounted for and, if so, whether these variations should be spelled out in the regulation or left to the HSA's to adjust national standards to reflect local conditions.

III. *Selection of governing body members.* It has been the Department's view that a person who is not a member of a particular population group may be selected as a representative of that group. However, the Department believes that it is important to the success of health systems agencies that, to the maximum extent possible, board members identify with and reflect the interest and concerns of the population groups they purport to represent. In order to prevent the selection of board members who are neither members of the group represented nor accountable to group members in some way, the proposed regula-

tions provide that to be judged representative of any population group, a governing body member must either be a member of that group or have been selected or nominated by an organization composed primarily of members of the group. See § 122.109(b)(1)(i).

In addition, a new subparagraph (4) would be added to § 122.109(b) which would require (1) that a majority of both consumer and provider members be selected through a method or procedure other than selection by the governing body of the HSA; (2) that any election must be fair and held in a place reasonably accessible to persons eligible to vote in the election; and (3) that where members are selected by the governing body, only consumer members of the body may participate in the selection of consumer members and only provider members in the selection of provider members. These proposed requirements are designed to assure that the HSA governing body not become self-perpetuating and thus insulated from accountability to the various interests which its members represent. They are also intended to prevent selection procedures under which providers select "consumer" members known to be primarily concerned with provider interests, and to assure elections which are free from any pressure or inducement by providers which may inhibit or prevent the free exercise of choice by the voter.

With these limitations the Secretary proposes to continue to afford wide latitude to HSA's to develop their own methods of selection of governing body members and their successors, providing flexibility for the accommodation of local needs and circumstances. The Secretary would then look only at the outcome of the process, to determine whether the governing body in fact meets the "broadly representative" requirement.

In this connection, the Secretary is particularly interested in receiving from HSA's descriptions of selection processes, including elections, that have, in the views of the HSA's which have employed them, proved successful in producing effective governing bodies which are broadly representative of the communities they serve. HSA's are urged to supply the Secretary with such descriptions, so that they may be used to assist other HSA's which have had difficulties in that regard.

IV. *Executive and other committees.* In order to maximize the accountability of executive committee members to the interests they purport to represent, paragraph (f)(1) would be amended to require that the consumer members of executive committees be selected by consumer members of the governing body, and provider members of such committees by provider members of the governing body.

In addition, the Act provides that if a board or executive committee appoints a subcommittee of its members or an advisory group, "it shall, to the extent practicable, make its appointments to any such subcommittee or group in such manner as to provide the representation on such subcommittee or group described [in the provision on board and executive committee membership]. It is believed that it will always be "practicable" for a subcommittee or advisory group to include a consumer majority, even if that group is too small to include members from each specific population group represented on the governing body. Accordingly, paragraph (f)(2) would be changed to specify that all subcommittees and advisory groups contain a majority (but, where mathematically possible, not more than 60 percent) of consumer members.

V. *Data and information.* A new paragraph (g) is proposed, requiring that HSAs provide data and information to the Secretary to assist him in determining compliance by the HSAs with the requirements of § 122.109 as revised. It is noted that as proposed, the new paragraph (g) would require the provision of information concerning the members of advisory groups as well as those of HSA governing bodies and committees. Concern has been expressed by individuals familiar with planning agency activities that some persons who might otherwise be willing to serve on such groups will be inhibited in doing so if information on their "income, racial and other pertinent characteristics" is to be provided routinely to the Department. HSAs obviously must obtain such information about advisory group members in order to judge their own compliance with the statutory requirements and must make the information available to the Department in order that it may monitor that compliance. However, comments are solicited on the possible implications of this proposed provision for obtaining wide participation by experts in various technical aspects of health care as well as by interested consumers in the activities of these groups, which are of great importance to the HSAs in carrying out their functions.

VI. *Effective date.* The Secretary invites comments with respect to the appropriate period of time within which HSAs will be required to conform to the new requirements established in this regulation. It is proposed that, for entities that apply for their initial conditional designation as HSAs after these amendments are published in final form, compliance with the amended regulation would be required as a condition to that designation. It is further proposed that all board and committee member selections which are made after the date of publication

of the final amendments be required to comply with the process provisions of the amendments (paragraphs (b)(4) and (f)(1)(ii)). However, the Secretary has tentatively concluded that to avoid unnecessary disruption of planning activities of entities that have applied for conditional designation or HSAs that have been conditionally or finally designated when these amendments are published as final regulations, full compliance with the new provisions for board and committee composition (paragraphs (b)(1)(i) and (f)(2)) will not be required until three years after the date of publication of the final regulation. Thus the HSAs will be able to make steady progress towards the new goals over that three-year period.

If the Secretary adopts this proposal, he also proposes to require each HSA to submit within 180 days, a plan for revised board selection procedures which will assure the Secretary (1) that substantial progress toward compliance with the composition requirements will be made with each selection of new board members during the three-year period and (2) that full compliance will be achieved by the end of the three-year period. Prior to the end of the three-year period, the currently effective provisions of § 122.109 will be used by the Secretary in making non-renewal or termination decisions. Under this proposal, the new data reporting requirements would become effective immediately upon publication of a final regulation.

The Secretary further notes that in order to assure that HSA governing bodies are representative, accountable and effective, the Department will constantly review the operations of HSAs and their board selection processes with a view to making whatever additional incremental changes may be needed to adjust the selection system so as to achieve those objectives.

The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

It is proposed that 42 CFR 122.109(b) be amended as set out below.

Dated: May 8, 1978.

JOYCE C. LASHOF,
Acting Assistant Secretary
for Health.

Approved: May 10, 1978.

HALE CHAMPION,
Acting Secretary.

Section 122.109 of Title 42, CFR, is revised to read as follows:

§ 122.109 Governing body; executive and other committees.

(a) *General.* (1) A health systems agency which is a public regional planning body or single unit of general local government shall have, in addition to any other governing board, a governing body for health planning (hereinafter referred to as the "governing body") which is established in accordance with the requirements in paragraphs (b) and (c) of this action and which has the responsibilities prescribed by paragraph (d) of this section.

(2) A health systems agency which is a nonprofit private corporation (or similar legal mechanism) shall have a governing body to direct all its health planning and development activities which is established in accordance with the requirements in paragraphs (b) and (c) of this section.

(b) *Composition.* The membership of the governing body of an agency shall meet the following requirements:

(1) A majority (but not more than 60 percent) of the members, shall be: residents of the health service area served by the agency, and consumers of health care who have not been providers of health care within the 12 months prior to appointment, and broadly representative of the geographical areas, major purchasers of health care, and the social, economic, linguistic and racial populations of the health service area.

(i) The purpose of the requirements of paragraph (b)(1) of this section is to assure that each health systems agency will be governed by a body with a consumer majority which, looked at as a whole, may reasonably be expected to consider and articulate, in carrying out its health planning functions, the interests of all segments of the population of its health service area. Accordingly, the Secretary must be satisfied that the percentage of members of the consumer majority representing each of the groups described below is roughly approximate to the group's percentage of the entire population of the area. HSA's are not required to adopt rigid quotas for membership of any population group. The groups which must be so represented include:

(A) Identifiable racial or linguistic population groups which constitute a significant proportion of the population of the area;

(B) All economic groups, including poverty and low-income groups;

(C) Women; and

(D) Persons over age 65.

(ii) An individual need not necessarily be a member of a particular population group in order to be considered a representative of that group. However, no individual who is not a member of a population group may be considered a representative of that group

unless the individual has been selected or nominated for that purpose by an organization composed primarily of members of the group.

(iii) For purposes of this paragraph, "major purchaser of health care" means an entity, other than any entity described in paragraph (b)(2) of this section, which either directly or indirectly (such as through the purchase of group health insurance or hospital or medical service benefits) provides health care for its employees, members, or beneficiaries.

(2) The remainder of the members shall be residents of the health service area served by the agency who are providers of health care (of whom not less than 1/3 shall be direct providers of health care) and who represent:

(i) Physicians (particularly practicing physicians), dentists, nurses, and other health professionals;

(ii) Health care institutions (particularly hospitals, long-term care facilities, and health maintenance organizations);

(iii) Health care insurers;

(iv) Health professions schools (which include schools of medicine, dentistry, osteopathy, optometry, podiatry, pharmacy or veterinary medicine as defined in section 724(4) of the Act, and schools of nursing as defined in section 853 of the Act); and

(v) The allied health professions.

(3) The total membership as described in paragraphs (b) (1) and (2) of this section shall:

(i) Include (either through consumer or provider members) public elected officials and other representatives of governmental authorities in the agency's health service area and representatives of public agencies in the area concerned with health;

(ii) Include representatives of private agencies in the area concerned with health;

(iii) Include a percentage of individuals who reside in nonmetropolitan areas within the health service area which is equal to the percentage of residents of the area who reside in nonmetropolitan areas;

(iv) If the health systems agency serves an area in which there is located one or more hospitals or other health care facilities of the Veterans' Administration, include, as an ex officio member, an individual whom the Chief Medical Director of the Veterans' Administration shall have designated for such purpose; and

(v) If the agency serves an area in which there is located one or more qualified health maintenance organizations (within the meaning of section 1310 of the Act), include at least one member who is representative of such organizations;

(4) A majority of the consumer members and a majority of the provider members must be selected for mem-

bership through a method or procedure other than selection by the governing body, executive committee or other committee of the health systems agency. Where such method or procedure involves an election, the election must be fair and must be held in a place reasonably accessible to persons who are eligible to vote. With respect to members who are selected by the governing body, only consumer members of the governing body shall be permitted to participate in the selection of consumer members, and only provider members of the governing body shall be permitted to participate in the selection of provider members.

(c) *Number of members.* The governing body shall be composed of not less than 10 members nor more than 30 members, except that the number of members may exceed 30 where the governing body has, in accordance with its Articles of Incorporation or by-laws (or in the case of a public regional planning body or single unit of general local government, its charter, authorizing statute, ordinance or executive order, or any rules or regulations governing its internal management), established an executive committee which meets the requirements of paragraph (f)(1) of this section.

(d) *Responsibilities and authority.* (1) The governing body of a health systems agency shall:

(i) Be responsible for the internal affairs of the agency, including matters relating to the staff of the agency and the agency's budget;

(ii) Be responsible for the adoption of procedures and criteria developed and published pursuant to section 1532 of the Act and applicable regulations of the Secretary to be utilized in the agency's performance of its functions under section 1513 (e), (f) and (g) of the Act;

(iii) Be responsible for issuing an annual report concerning the activities of the agency in accordance with § 122.115 of this subpart; and

(iv) Have the exclusive authority to perform for the agency the functions described in section 1513 of the Act and the agency's designation agreement entered into pursuant to § 122.106 or § 122.107 of this subpart. For such purposes the term "exclusive" as it applies to the role of the governing body means that the governing body shall have the sole, undivided authority to act for the agency in performing such functions subject to the provision of paragraph (f)(1) of this section relating to the delegation of function to an executive committee; *Provided*, That this does not preclude the public regional planning body or single unit of general local government from establishing procedures not inconsistent with the requirements of this part for the functioning of the agency, including an opportunity to comment on any action proposed by the governing body in the performance of its functions; and *Provided*

further, That the public regional planning body or single unit of general local government must be given the opportunity to comment on the health systems plan and the annual implementation plan prior to their establishment.

(2) The public regional planning body or single unit of general local government may establish rules and regulations for the exercise of the responsibilities described in paragraph (d)(1) of this section by the governing body; *Provided*, That such rules and regulations are not inconsistent with the Act and the regulations of this part.

(e) *Meetings and conduct of business.* The governing body shall:

(1) Meet at least once in each calendar quarter of a year and at least two additional times in a year unless its executive committee, if any, meets at least twice in that year;

(2) Act only by vote of a majority of its members present and voting at a meeting called upon adequate notice to all its members and at which a quorum, which shall be not less than one-half of its members, is in attendance;

(3) Conduct its business meetings in public, give adequate notice to the public of such meetings (as required by the agency's Articles of Incorporation or by-laws or, in the case of a public entity, its charter, authorizing statute, ordinance, or executive order or any rules or regulations for internal management) and make its data and records available to the public in accordance with the requirements of § 122.114 of this subpart; for purposes of this subpart, "business meetings" are meetings at which the governing body formally acts to carry out its responsibilities and functions under the Act, and

(4) Reimburse its members for their reasonable costs incurred in attending meetings of the governing body.

(f) *Executive committee; subcommittees and advisory committees.* (1) *Executive committee.* (i) A governing body whose membership exceeds 30 shall establish an executive committee of its members, which shall consist of not more than 25 members, shall be composed in accordance with the requirements of paragraph (b) (1), (2), and (3) of this section, and shall be delegated the authority to take such action as the governing body is authorized to take (other than authority to take action with respect to the agency's articles of incorporation or bylaws or in the case of an agency which is a public regional planning body or single unit of general local government, its charter, authorizing statute, ordinance, or executive order and any internal rules or regulations which govern its operations) except that the executive committee may not be delegated the responsibility for the establishment and amendment of the

health systems plan and annual implementation plan required by section 1513(b) (2) and (3) of the Act.

(ii) The members of the executive committee shall be selected by the governing body from among its members; *Provided*, that only consumer members of the governing body may participate in the selection of consumer members of the executive committee, and only provider members of the governing body may participate in the selection of provider members of the executive committee.

(iii) The executive committee shall:

(A) Act only by vote of a majority of its members present and voting at a meeting called upon adequate notice to all of its members at which a quorum, which shall be not less than one-half of its members, is in attendance, and

(B) Conduct its business meetings in public, give adequate notice to the public of such meetings (as required by the agency's Articles of Incorporation or by-laws or, in the case of a public regional planning body or single unit of general local government, its charter, authorizing statute, ordinance, or executive order or any rules or regulations for internal management) and make its data and records available to the public in accordance with the requirements of § 122.114 of this subpart.

(2) *Subcommittees and advisory groups.* Where in the exercise of its functions the governing body or executive committee appoints a subcommittee of its members or an advisory group, it shall, to the extent practicable, make its appointments to such subcommittee or group in such a manner as to provide that the representation on such subcommittee or group meets the composition requirements of paragraph (b) of this section; *Provided*, That a majority (but, where mathematically possible, not more than 60 percent) of the membership of each subcommittee or advisory group must be consumers of health care.

(g) *Data and information.* The health systems agency shall provide to the Secretary such data and information as he may require relating to compliance with the requirements of this section, including the following:

(1) Income, racial and other pertinent characteristics of members of the governing body, executive committee, subcommittees and advisory groups.

(2) Information supporting the health systems agency's determination of the numbers and percentages of the total population within its health service area which each population group constitutes.

(3) The process of selection of members of the governing body, executive committee, subcommittees, and advisory groups.

(Sec. 1512, Public Health Service Act, 88 Stat. 2232 (42 U.S.C. 300-1).)

Decisions

[4510-27]

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND
FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date

NOTICES

shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in the contract work of the character and in the localities described therein.

Modification and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-

making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

Group 2	8.645	1.25	1.70	1.10	.10
Group 3:	8.525	1.25	1.70	1.10	.10

Group 1: Asphalt Ironers and Rakets; Barko, wacker and similar type tamers; Buggybills; Chainsaw, faller, logloader and bucket; Compactors of all types; Concrete and magnesite mixer 1/2 yard and under; Concrete pan work; Concrete saw; Concrete sander; Cribber-and/or shoring; Cut granite curb setter; Form raisers; Slip forms; Green cutters; Headerboardman, Hubsetters, Aligners; Jackhammer operators; Jacking of pipe over 12 inches; Jackson and similar type Compactors; Kettlemen, Potmen and men applying asphalt, lay-kold, cresote, lime, caustic and similar type materials; Lagging, sheeting, whaling, bracking, trench-jacking, hand-guided lagging hammer; Magnesite, Epoxyseshin, fiberglass, and mastic workers (wet or dry); Pavement Breakers and spaders, including tool grinder; Pipelayers, Caulkers, banders, pipewrappers, conduit layers, plastic pipelayers; Post hole diggers - air, gas and electric; Power broom sweepers; Power tamers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap-stonepaver and rock-aligner, including placing of sacked concrete and/or sand (wet or dry); Rotary scarifier, multiple head concrete chopper; Davis trencher - 300 or similar type (and all small trenchers); Roto and Ditch Witch; Moto-tiller; Sandblasters; Potman, Gunman, Mozzelman; Signalling and Rigging; Tank Cleaners; Tree Climbers; Vibra-screed - Bull float in connection with laborers' work; Vibrators; Vibri-pak-it machine; High pressure blow pipe (1 1/2" or over, 100 lbs. pressure or over); Hydro Seeder and similar type; Laser Beam in connection with laborers' work

Group 1(a): Joy Drill Model TMM-2A; Gardener-Denver Model DH143 and similar type drills; Track Drillers; Jack Leg Drillers; Diamond Drillers; Wagon Drillers; Mechanical Drillers - all types regardless of type or method of power; Multiple unit drills; Blasters and Powdermen; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High Sealers (including drilling of same); Tree Topper; Bit Grinder

Group 1(b): Sewer Cleaners

Group 1(c): Burning and Welding

Group 1(d): Repair Trackman and rod beds (cut and cover work of subway after the temporary cover has been placed)

Group 1(e): Laborers on General construction work on or in ball hole footings and shaft

NOTICES

FEDERAL REGISTER, VOL. 43, NO. 103—FRIDAY, MAY 26, 1978

LABORERS (Cont'd)

Group 1(f): Wire winding machine in connection with guniting or shotcrete - Aligner

Group 1(f)1: Wire winding machine in connection with guniting or shotcrete - Aligner helper

Group 1(g): Contra Costa County Only: Pipelayers, Caulkers, Banders, Pipewrappers, Conduit layers and plastic pipelayers; Pressure pipe tester, no joint pipe and stripping of same, including repair of voids, Precast manhole setters, cast in place, Manhole form setters

Group 2: Asphalt Shovelers; Cement dumpers and handling dry cement or gypsum; Choke-setter and Rigger (clearing work); Concrete Bucker Dumper and Chuteman; Concrete Chipping and Grinding; Concrete Laborers (wet or dry); Driller's Helper; Chuck Tender; Nozzelman, adductors; Hydraulic Monitor (over 100 lbs. pressure); Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete construction; Pittsburgh Chippert, and similar type Brush Shredders; Sloper; Singlefoot, hand held, pneumatic tamper; All pneumatic, air, gas, and electric tools; Jacking of pipe under 12 inches

Group 3: All cleanup work of debris, grounds and buildings including but not limited to street cleaners; Cleaning and washing windows; Construction laborers including bridge and general laborers; Dumpman, load spotter; Fire Watcher; Street Cleaners; Gardeners, Horticultural and landscape laborers; Jetting; Limbers; Brush Loaders; Fillers, maintenance landscape laborers on new construction; Maintenance, Repair Trackmen and Road beds; Streetcar and Railroad construction Track Laborers; Temporary air and water lines, Victaulic or similar; Tool room attendant; Fence Erectors; Guardrail Erectors; Pavement Markers (button setters)

LABORERS (Gunnite)

Group 1: Nozzelman (including Gunman, Potman); Rodmen; Groundman

Group 2: Reboundman

Group 3: General Laborers

NOTICES

*Includes \$.28 per hour to Pensioned Health and Welfare Fund.

POWER EQUIPMENT OPERATORS (AREAS I and II)

Group 1: Assistant to Engineers (Brakeman; Fireman; Heavy Duty Repairman Helper; Oiler; Deckhand; Signalman; Switchman; Tar Pot Fireman); Partsman (Heavy Duty Repair shop parts room)

Group 2: Compressor Operator; Concrete Mixer (up to and including 1 yard); Conveyor Belt Operator (tunnel); Fireman Hot Plant; Hydraulic Monitor; Mechanical Conveyor (handling building materials); Mixer Box Operator (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

Group 3: Box Operator (bunker); Helicopter Radioman (signalman); Motor-man; Locomotive; Oiler; Ross Carrier (construction job site); Rotomist Operator; Screedman (except asphalt concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Trenching Machine (Maximum digging capacity 3 ft. depth); Tugger Hoist, single drum; Truck Crane Oiler; Rodman, Chainman

Group 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multi-purpose; Boxman (asphalt plant); Elevator Operator (inside); Fork Lift or Lumber Stacker (construction job site); Line Master; Lubrication and Service Engineer (mobile and grease rack); Material Hoist (1 drum); Shuttle-car; Tie Spacer; Towermobile

POWER EQUIPMENT OPERATORS (Cont'd)
(AREAS 1 and 2) (Cont'd)

Group 5: Compressor Operator (over 2); Concrete Mixers (over 2 yard); Concrete Pump or Pumpcrete guns; Generators; Grouting Machine; Press-weld (air operated); Pumps (over 2); Welding Machines (powered other than by electricity)

Group 6: BLH Lima Road Pastor or similar; Boom truck or dual purpose A-frame truck; Concrete batch plants (wet or dry); Concrete saws (self-propelled unit) on streets, highways, airports and canals; Drilling and boring machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Grader, Grade checker (mechanical or other-wise); Highline cableway Signal-man; Locomotives (steam or over 30 tons); Maginnis International Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical finishers (concrete); (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical Burn, Curb and/or Curb and gutter machine, concrete or asphalt; Portable crusher; Post driver (M-1500 and similar); Power jumbo operator (setting slip forms, etc. in tunnels); Roller; Screedman (Barber-Greene and similar) (asphaltic concrete paving); Self-propelled compactor (single engine); Self-propelled Pipeline wrapping machine; Percut, CRC, or similar types; Slip forms pumps (lifting device for concrete forms); Small rubber tired tractor; Surface heater

Group 7: Concrete conveyor or concrete pump, truck or equipment mounted (boom length to apply); Concrete conveyor, building site; Deck engineers; Dual drum mixer; Fuller Kenyon pump and similar types; Gantry rider (or similar); Hydras-hammer (or similar); Material hoist (2 or more drums); Mechanical finishers or spreader machine (asphalt, Barber-Greene and similar); Mine or Shaft Hoist; Mixer/mobiler; Pavement breaker with or without compressor combination; Pavement breaker, truck mounted with compressor combination; Pipe bending machine (pipe-lines only); Pipe cleaning machine (tractor propelled and supported); Pipe wrapping machine (tractor propelled and supported); Refrigeration plant; Roller operator (finish asphalt); Self-propelled boom type lifting device (center mount) (10 tons or less M.R.C.); Self-propelled elevating grade plane; Blusher operator; Small tractor (with boom); Soil tester; Truck type loader; Instrumentman

Group 8: Armor-Conter (or similar); Asphalt plant engine; Cast-in-place pipe laying machine; Combination slusher and motor operator; Concrete batch plant (multiple units); Dozer; Heading shield operator; Heavy duty repairman and/or welder; Ken seal machine (or similar); Kolman loader; Loader (up to 2 yds.); Mechanical trench shield; Portable crushing and screening plants; Push cat; Rubber tired earth moving equipment (up to and including 45 cu. yds. "struck" M.R.C.); Euclids, T-Pulls, DW-10, 20, 21 and similar; Rubber tired dozer; Self-propelled compactor with dozer; Sheepfoot; Timber skidder (rubber tired or similar equipment); Tractor drawn scraper; Tractor trenching machine; Tri-batch paver; Tunnel mole boring machine; Welder; Woode-mixer (and other similar pugmill equipment)

Group 9: Canal finger drain digger; Chicago boom; Combination mixer and compressor (gunite); Combination slurry mixer and/or cleaner; Highline cable-way (5 tons and under); Lull Hi-lift or similar (20 ft. or over); Mucking machine (rubber tire, roll or track type); Tractor (with boom) (d-6 or larger and similar)

POWER EQUIPMENT OPERATORS (Cont'd)
(AREAS 1 and 2) (Cont'd)

Group 10: Boom-type backfilling machine; Bridge crane; Carry-lift or similar; Chemical grouting machine, truck mounted; Combination backhoe and loader (up to and including 1/2 cu. yd. M.R.C.); Derrick (2 operators required when swing engine remote from hoist); Derrick barges (except excavation work); Do-more Loader; Adams elgrader; Elevating grader; Heavy duty rotary drill rig (in-cluding caisson foundation work and Euclid loader and similar type; Robbins type drills); Koehring skoooper (or similar); Lift slab machine; (Vagborg and similar types); Loader (2 yds. up to and including 4 yds.); Locomotive 100 tons (single or multiple units); Multiple engine earthmoving machine (Euclid, dozer, etc.) (no tandem scraper); Pre-stress wire wrapping machine; Reservoir-debris tug (self-propelled floating); Rubber-tired scraper, self-loading (paddle wheels, etc.); Shuttle car (reclaim station); Single engine scraper over 45 yds. soil stabilizer (P & H or equal); Sub-grader (gurtiea or other automatic type); Tractor, compressor drill combination; Track laying type earth moving machine (single engine with tandem scrapers); Train loading station; Trenching machine, multi-engine with sloping attachment, Jefco or similar; Vacuum cooling plant; Whirley crane (up to and including 25 tons); Chief of party

Group 10-A: Backhoe (hydraulic) (up to and including 1 cu. yd. M.R.C.); Backhoe (cable) (up to and including 1 cu. yd. M.R.C.); Combination Backhoe and loader over 3/4 cu. yd. M.R.C.; Continuous flight tie back auger (up to and including 1 cu. yd.) (crane attached); Cranes (not over 25 tons, Namerhead and Gantry); Grade-alls (up to and including 1 cu. yd.); Power shovels, clamshells, draglines, (up to and including 1 cu. yd. M.R.C.); Power shovels, clamshells, draglines, (up to and including 1 cu. yd. M.R.C.); Power blade (single engine); Self-propelled boom-type lifting device (centermount) (over 10 tons); Rubber-tired scraper, self-loading (paddle wheel twin engine); CH dual lane Auto grader SP30 or similar

Group 11: Automatic concrete slip form paver; Automatic railroad car dumper; Canal trimmer; Canal trimmer w/ditching attachments; Cranes (over 25 tons up to and including 125 tons); Continuous flight tie back auger over 1 cu. yd. (including crane); Drott travelift 650-A-1 or similar (45 tons or over); Euclid loader when controlled from the pulicat; Highline cableway (over 5 tons); Loader (over 4 yds. up to and including 12 cu. yds.); Miller formless M900 sloper paver or similar; Power blade (multi-engine); Power shovels, clamshells, draglines, backhoes, grade-alls (over 1 yd. and up to and including 7 cu. yds. M.R.C.); Rubber-tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and including 75 cu. yds. "struck" M.R.C.); Self-propelled compactor (with multiple propulsion power units); Single engine rubber-tired earthmoving machines (with tandem scrapers); Slip form paver (concrete or asphalt); Tandem cats; Tower cranes mobile including rail mounted; Trencher (pulling attached shield); Universal Liebherr and Tower cranes (and similar types); Wheel excavator (up to and including 750 cu. yd. per hour); Whirley Crane (over 25 tons)

Group 11-A: Band wagons (in conjunction with wheel excavator); Cranes (over 125 tons); Loader (over 12 cu. yds. up to and including 18 cu. yds.); Power shovels and draglines (over 7 cu. yds. M.R.C.); Rubber tired multi-purpose earth moving machines (2 units over 75 cu. yds. "struck" M.R.C.); Wheel excavator (over 750 cu. yds. per hour)

Group 11-B: Loader (over 18 cu. yds.)

Group 11-C: Operator of Helicopter (when used in erection work); Remote controlled Earthmoving equipment

CALIFORNIA
AREA DEFINITIONS for POWER EQUIPMENT OPERATORS (Cont'd)

STATE: California

*AREA 1: (Cont'd)

AREA 1 also includes that portion of Northern California included within the following line:
Commencing at the Northerly boundary of the State of California at the N.W. corner of township 48N, range 7W, Mt. Diablo baseline and meridian; Thence Southerly to the S.W. corner of township 44N, range 7W, Thence Easterly to the S.E. corner of township 43N, range 6W, Thence Southerly to the S.W. corner of township 43N, range 5W, Thence Easterly to the S.E. corner of township 43N, range 5W, Thence Northerly to the N.E. corner of township 48N, range 5W, on the Northerly boundary of the State of California, Thence Westerly along the Northerly boundary of the State of California to the point of beginning.

*AREA 2: All areas not included within AREA 1 as defined.

COUNTIES: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Kings, Lake, Lassen, Madera, Marin, Mariposa, Mendocino, Merced, Modoc, Monterey, Napa, Nevada, Placer, Plumas, Sacramento, San Benito, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Yolo and Yuba

DECISION NUMBER: CA78-5101
Supersede Decision No. CA78-5002 dated February 24, 1978 in 43 FR 7881
DESCRIPTION OF WORK: Building Construction (does not include single family homes and garden type apartments up to and including 4 stories), heavy and highway construction and dredging.

Group 3	8.525	1.25	1.70	.10

LABORERS

Group 1: Asphalt Ironers and Rakers; Barko, Wacker and similar type tamers; Buggymobile; Chainsaw, faller, logloader and buckler; Compactors of all types; Concrete and magnesite mixer 1/2 yard and under; Concrete pan work; Concrete saw; Concrete sander; Cribber and/or shoring; Cut granite curb setter; Form raisers; Slip forms; Green cutters; Headerboardmen, Hubsetters, Aligners; Jackhammer operators; Jacking of pipe over 12 inches; Jackson and similar type Compactors; Kettlemen, Potmen and men applying asphalt, lay-kold, creosote, lime, caustic and similar type materials; Lapping, sheeting, whaling, bracking, trench-jacking, hand-guided lagging hammer; Magnesite, Epoxypresin, fiberglass, and mastic workers (wet or dry); Pavement Breakers and spaders, including tool grinder; Pipelayers, Caulkers, banders, pipewrappers, conduit layers, plastic pipelayers; Post hole diggers - air, gas and electric; Power broom sweepers; Power tamers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap-stonepaver and rock-aligner, including placing of sacked concrete and/or sand (wet or dry); Rotary Scarifier, multiple head concrete chipper; Roto and ditch witch; Roto-tiller; Sandblasters, small trenchers; Roto and ditch witch; Rotary Scarifier, multiple head concrete chipper; Roto and ditch witch; Roto-tiller; Sandblasters, Potman, Gunman, Nozzlemans; Signalling and Rigging; Tank Cleaners; Tree Climbers; Vibra-screed - Bull float in connection with laborers' work; Vibrators; Dri-pak-it machines; High pressure blow pipe (1 1/2" or over, 100 lbs. pressure or over); Hydro Seeder and similar type; Laser Beam in connection with laborers' work

Group 1(a): Joy Drill Model TWM-2A; Gardner-Denver Model DML43 and similar type drills; Track Drillers; Jack Leg Drillers; Diamond Drillers; Wagon Drillers; Mechanical Drillers - all types regardless of type or method of power; Multiple unit drills; Blasters and Powdermen; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High Sealers (including drilling of same); Tree Topper; Bit Grinder

Group 1(b): Sewer Cleaners

Group 1(c): Burning and Welding

Group 1(d): Repair trackmen and road beds (cut and cover work of subway after the temporary cover has been placed)

Group 1(e): Laborers on general construction work on or in bell hole footings and shaft

Group 1(f): Wire winding machine in connection with guniting or shot-crete - Aligner

Group 1(f1): Wire winding machine in connection with guniting or shot-crete - Aligner helper

NOTICES

LABORERS (Gumite)

Group 1: Nozzlemans (including Gunman, Potman); Rodmen; Groundman

Group 2: Reboundman

Group 3: General Laborers

LABORERS (Cont'd)

(Tunnel and Shaft Work)

Group 1: Diamond Driller; Groundman; Gunite and Shotcrete Nozzlemans; Rodmen; Shaft Work and Raise (below actual or excavated ground level)

Group 2: Bit Grinder; Blaster; Drillers, Powdermen-heading; Cherry Pickermen - where car is lifted; Concrete Finisher in Tunnel; Concrete Screed Man; Grout Pumpman and Potman; Gunite and Shotcrete Gunmen and Potmen; Headermen; High Pressure Nozzlemans; Miners - Tunnel, including top and bottom man on shaft and raise work; Nipper Nozzlemans on slick line; Sandblaster-potman (work assignment interchangeable) Steel Form raisers and Setters; Timberman, Retimberman - wood or steel or substitute materials therefore; Tugger

Group 3: Cabletender; Chucktender; Powderman - primer house; Vibrator-men, Pavement Breakers

Group 4: Bull Gang - Muckers, Trackmen; Concrete Crew - includes rodding and spreading; Dumpmen (any method); Grout Crew; Reboundmen; Swamper

LABORERS (Wrecking Work)

Group 1: Skilled Wrecker (removing and salvaging of sash, windows, doors, plumbing and electric fixtures)

Group 2: Semi-skilled Wrecker (salvaging or other building materials)

Group 3: General laborer (includes all cleanup work, loading, lumber, loading and burning of debris)

NOTICES

LABORERS (Cont'd)

Group 1(g): Contra Costa County Only: Pipelayers, caulkers, banders, pipewrappers, conduit layers and plastic pipelayers; Pressure pipe tester, no joint pipe and stripping of same, including repair of voids, precast manhole settlers, cast in place, manhole form settlers

Group 2: Asphalt Shovelers; Cement dumpers and handling dry cement or gypsum; Choke-setter and Rigger (clearing work); Concrete Buckler Dumper and Chute-man; Concrete Chipping and Grinding; Concrete Laborers (wet or dry); Driller's Helper; Chuck Tender; Nozzlemans, adductors; Hydraulic Monitor (over 100 lbs. pressure); Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete construction; Pittsburgh Chipper, and similar type Brush Shredders; Sloper; Singlefoot, hand held, pneumatic tamper; All pneumatic, air, gas, and electric tools; Jacking of pipe under 12 inches

Group 3: All cleanup work of debris, grounds and buildings including but not limited to street cleaners; Cleaning and washing windows; Construction laborers including bridge and general laborers; Dumpman, load spotter; Pipe Watcher; Street Cleaners; Gardeners, Horticultural and landscape laborers; Jetting; Limbers; Brush Loaders; Filers, maintenance landscape laborers on new construction; Maintenance, Repair Trackmen and Road beds; Streetcar and Railroad construction Track Laborers; Temporary air and water lines, Victaulic or similar; Tool room attendant; Fence Erectors; Guardrail Erectors; Pavement Markers (button setters)

LABORERS (Gumite)

Group 1: Nozzlemans (including Gunman, Potman); Rodmen; Groundman

Group 2: Reboundman

Group 3: General Laborers

**POWER EQUIPMENT OPERATORS
(Piledriving)**

Group 1: Assistant to Engineer (Fireman, Oiler, Deckhand)

Group 1-A: Compressor Operator

Group 1-B: Truck Crane Oiler

Group 2: Tugger Hoist (hoisting material only)

Group 2-A: Compressor Operator (2-7); Generator (100 K.W. or over); Pump (2-7); Welding Machine (2-7) (Powered other than by electricity)

Group 3: Deck Engineer; Fork Lift; A-Frame; Self-propelled Boom type lifting device

Group 3-A: Heavy Duty Repairman and/or Welder

Group 4: Operating Engineer in lieu of Assistant to Engineer Tending Boiler or Compressor attached to Crane pilot-driver.

Operator of Piledriving Rigs, Skid or Floating and Derrick Barges; Operator of Diesel or Gasoline powered Crane Piledriver (w/o boiler) up to and including 1 cu. yd.; Truck Crane, up to and including 25 tons hoisting material only.

Group 5: Operator of diesel or gasoline powered Crane Piledriver (w/o boiler) over 1 cu. yd.; Operator of Crane (w/steam, flash boiler, pump or compressor attached); Operator of steam powered Crawler or Universal type driver (Raymond or similar type); True Crane, over 25 tons hoisting material or performing piledriving work

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS

**AREA 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the Southerly line of Township 19S.
Thence Easterly along the Southerly line of Township 19S, crossing the Mt. Diablo meridian to the S.W. corner of township 19S, range 6E, Mt. Diablo base line and meridian.
Thence Southerly to the S.W. corner of township 20S, range 6E, Thence Easterly to the S.W. corner of township 20S, range 13E, Thence Southerly to the S.W. corner of township 21S, range 13E, Thence Easterly to the S.W. corner of township 21S, range 17E, Thence Southerly to the S.W. corner of township 22S, range 17E, Thence Easterly to the S.E. corner of township 22S, range 17E, Thence Southerly to the S.W. corner of township 23S, range 18E, Thence Easterly to the S.E. corner of township 23S, range 18E, Thence Southerly to the S.W. corner of township 24S, range 19E, Thence Easterly to the S.E. corner of township 24S, range 19E, falling on the Southerly line of Kings County, thence Easterly along the Southerly boundary of Kings County and the Southerly boundary of Tulare County, to the S.E. corner of township 24S, range 29E.
Thence Northerly to the N.E. corner of township 21S, range 29E, Thence Westerly to the N.W. corner of township 21S, range 29E, Thence Northerly to the N.E. corner of township 13S, range 28E, Thence Westerly to the N.W. corner of township 13S, range 28E, Thence Northerly to the N.E. corner of township 11S, range 27E, Thence Westerly to the N.W. corner of township 11S, range 27E, Thence Northerly to the N.E. corner of township 10S, range 26E, Thence Westerly to the N.W. corner of township 9S, range 25E, Thence Northerly to the N.E. corner of township 9S, range 25E, Thence Westerly to the N.W. corner of township 8S, range 24E, Thence Northerly to the N.E. corner of township 8S, range 24E, Thence Westerly to the N.W. corner of township 6S, range 23E, Thence Northerly to the S.E. corner of township 5S, range 19E, Thence Westerly to the N.E. corner of township 5S, range 19E, Thence Northerly to the N.W. corner of township 5S, range 19E, Thence Westerly to the N.E. corner of township 3S, range 18E, Thence Northerly to the N.W. corner of township 3S, range 18E, Thence Westerly to the N.E. corner of township 2S, range 17E, Thence Northerly to the N.W. corner of township 2S, range 17E, Thence Westerly crossing the Mt. Diablo baseline to the N.E. corner of township 2N, range 16E,
Thence Westerly to the N.W. corner of township 2N, range 16E, Thence Northerly to the N.E. corner of township 3N, range 15E, Thence Westerly to the N.W. corner of township 3N, range 15E, Thence Northerly to the N.E. corner of township 4N, range 14E,

DEPARTMENT OF LABOR

IMPROVING LABOR REGULATIONS

Response to Executive Order No. 12044
Improving Government Regulations

AGENCY: Department of Labor.

ACTION: Request for public comment.

SUMMARY: The Department of Labor ("DOL") is issuing this notice to obtain comments on its proposals for implementing Executive Order No. 12044, Improving Government Regulations (43 FR 12661, March 24, 1978) ("the Executive Order"). The proposals include procedures for developing new regulations; analyzing their potential impact; reforming existing regulatory procedures; and increasing public participation in regulatory development.

DATE: Comments by July 28, 1978.

ADDRESS: Send comments to Seth D. Zinman, Associate Solicitor for Legislation and Legal Counsel, Office of the Solicitor, Department of Labor, Room N2428, 200 Constitution Avenue NW., Washington, D.C. 20210, 202-523-8201.

FOR FURTHER INFORMATION CONTACT:

Sofia P. Petters (Counsel for Administrative Legal Services), Room N2428, 200 Constitution Avenue NW., Washington, D.C. 20210, 202-523-8065.

Mark Solomons (Counsel for Special Legislative Projects), Room N2428, 200 Constitution Avenue NW., Washington, D.C. 20210, 202-523-8088.

SUPPLEMENTARY INFORMATION:

- I. Background.
- II. Summary of Past Regulatory Procedures.
- III. Proposed Procedures for Developing Regulations.
- IV. Regulations for Initial Review.
- V. Comment Procedure.

I. BACKGROUND

1. On March 23, 1978 President Carter signed Executive Order (E.O.) 12044 (43 FR 12661) which is designed to improve and reform the way in which the Executive Agencies of the United States Government develop, issue, and review the rules and regulations which are necessary for the efficient and effective administration of Government programs. To achieve these goals E.O. 12044 directs each Executive Agency to: (a) Establish procedures for the development of significant regulations which provide the maximum opportunity for early and meaningful public participation; (b) Conduct a detailed regulatory analysis of those significant regulations which

may have major economic consequences for the National economy or for a particular segment of the economy; (c) Periodically review existing regulations to determine their continuing usefulness, and; (d) Eliminate, improve, or update those existing regulations which no longer adequately serve the purpose for which they were originally issued. In connection with each of these objectives, E.O. 12044 directs each Executive Agency to prepare a draft report describing the procedures followed in the development of regulations and the changes which are proposed to bring those procedures into compliance with the E.O., proposed criteria for identifying significant regulations and regulations with major economic impact and, proposed criteria for the selection of existing regulations which are in need of review and possible revision or elimination. The report is also to contain a list of regulations which have been selected for review in the near future, and is to be published in the FEDERAL REGISTER for comments by May 23, 1978.

The Department of Labor's new procedures are intended to implement both the letter and spirit of E.O. 12044 in connection with the regulations within the jurisdiction of the United States Department of Labor.

II. SUMMARY OF PAST REGULATORY PROCEDURES

The Department of Labor is now mandated to implement many statutes and executive orders which relate to a wide range of subjects.

For example, under the Occupational safety and Health Act the department is charged with assuring working men and women with safe and healthful working conditions. Under the Comprehensive employment and Training Act the Department administers a program of Federal assistance for unemployed and economically disadvantaged individuals. Under Executive Order 11246, the Department administers a program which promotes equal employment opportunity in Government contracts and federally-assisted construction contracts. The wide range of programs administered by this Department have resulted in variations in the procedures followed in issuing regulations implementing these programs. Each agency within the Department is responsible for developing its own regulations. The issuance of regulations is triggered in various ways. A statute or executive order may provide for the issuance of regulations; there may be a change in policy in administering a program; judicial decisions may necessitate an amendment to existing regulations; complaints of affected individuals or organizations or reports from the Department's investigators may alert

agency officials to problem areas in existing regulations. The following illustrate some of the practices now in use for issuing regulations by Department of labor agencies.

The Occupational Safety and Health Act authorizes the Secretary to promulgate safety and health standards in a specified manner. When the Secretary determines, upon the basis of information submitted in writing by an interested person, a representative of any organization of employers or employees, a nationally recognized standards-producing organization, the Secretary of Health, Education, and Welfare (HEW), the National Institute for Occupational Safety and Health, or a State or political subdivision, or on the basis of information developed by the Secretary or otherwise available that a rule should be developed in order to serve the objectives of the Act, the Secretary may direct that such rule be drafted or request the recommendations of an advisory committee.

Prior to the preparation of its proposed regulation, in most rulemaking proceedings, OSHA receives informal comments from interested parties. Though not specifically set forth in its pertinent regulations, OSHA has, in drafting many of its standards, published Advance Notices of Proposed Rulemaking in the FEDERAL REGISTER. Occasionally, OSHA has held public factfinding hearings to aid in the development of proposals.

The proposals and regulations are written by OSHA's technical staff with assistance from the Solicitor's Office, which also reviews the drafts for legal sufficiency. Drafts of proposed regulations or revisions are reviewed by the OSHA Director of the Office of Standards, appropriate technical personnel, and the Assistant Secretary for OSHA. Published regulations are signed by the Assistant Secretary.

Somewhat different procedures are used in the development of safety and health standards under the Federal Mine Safety and Health Act. When the Assistant Secretary for MSHA determines that substantive regulations should be issued, the Assistant Secretary decides on the basic objectives of the regulation and indicates overall specifications. A program head, e.g., the Administrator for Coal Mine Safety and Health organizes a drafting committee for the proposed regulation. The drafting committee is staffed by technical experts from within the agency and may include attorneys from the office of the Solicitor. This committee participates in the preproposal consultations, attends sessions of any advisory committee created to advise on the particular regulation and writes the proposed draft regulation. The Solicitor's Office reviews the

proposed regulation for legal sufficiency. Prior to publication for proposed rulemaking, the draft regulations are reviewed by the program head responsible for the subject matter being regulated, the Office of Standards, Regulations, and Variances, and the Assistant Secretary for Mine Safety and Health. The Assistant Secretary signs both proposed and final regulations.

The Office of Labor-Management Standards Enforcement develops and administers the regulations in chapter IV of Title 29 of the Code of Federal Regulations which implement those sections of the Labor-Management Reporting and Disclosure Act of 1959, as amended (LMRDA), which are administered by the Department of Labor. This Office also administers regulations which have been issued to implement section 18 (Standards of Conduct) of Executive Order 11491. Those sections of the LMRDA which are administered by DOL have only been amended once, in 1965, so that most of the amendments and additions to the regulations have been for purposes such as clarification of language and reflection of court decisions rather than because of amendments to the Act.

In the case of one interpretative regulation drafted in response to a Supreme Court ruling, a decision was made to go forward after discussion between the program office and the Office of the Solicitor. The final draft was sent to the Solicitor for review and then to the Assistant Secretary for Labor-Management Relations for signature. When amendments to the regulations implementing the Labor-Management Reporting and Disclosure Act involve policy changes and are not interpretations, preproposal consultations are held with outside groups.

Under Title I of the Employee Retirement Income Security Act of 1974 (ERISA), many sections of the statute provide that the Secretary (or his delegate—the Assistant Secretary for LMSA) will issue regulations to implement specific statutory requirements. In addition, general authority is granted by the statute to prescribe regulations that are necessary or appropriate to carry out the purposes of the Title. In some cases there is authority to issue regulations which ease or waive statutory requirements.

The Administrator of Pension and Welfare Benefit Programs after consulting with certain officials within the Department, and interested members of the public, determines the priorities and time schedule for the issuance of regulations. The time schedule includes internal due dates for the various stages in the regulatory process and a projected date for publication.

Generally, the Administrator then directs the Office of Regulatory

Standards and Exceptions within the Pension and Welfare Benefit Programs to draft specifications for proposed regulations. Advice and recommendations from the Office of Policy and Planning and Research within the Administration as well as from the ERISA Advisory Council are considered in the development of specifications. The Advisory Council was created by statute to advise the Secretary of Labor with respect to carrying out ERISA functions. The Council consists of representatives of unions, employers, the general public and persons knowledgeable in the areas of insurance, corporate trust activity, actuarial counseling, investment counseling, investment management and accounting.

After the specifications are drafted they are referred to the Solicitor's Office, which has responsibility for drafting regulations based on these specifications. The draft regulations are then submitted to the Administrator for Pension and Welfare Benefit Programs, the Assistant Secretary for Labor-Management Services Administration, and the Solicitor for approval. Comments are sought from the Internal Revenue Service and the Pension Benefit Guaranty Corporation when appropriate.

The Employment Standards Administration is responsible for a greater variety of programs than any other agency within the Department of Labor. The Administration includes the Office of Federal Contract Compliance Programs (OFCCP), the Office of Workers' Compensation Programs (OWCP), and the Wage and Hour Division (WH). OFCCP enforces nondiscrimination/affirmative action employment requirements applicable to government contractors and subcontractors and federally assisted construction contractors under Executive Order 11246, Section 503 of the Rehabilitation Act of 1973, and Section 402 of the Vietnam Era Veterans Readjustment Act. OWCP administers workers' compensation benefit programs for Federal employees, longshore and harbor workers, and coal miners who have contracted black lung disease. The Wage and Hour Administration enforces statutes which establish standards in the workplace, such as the Fair Labor Standards Act (minimum wage, overtime, child labor, and equal pay), Age Discrimination in Employment, wage rates and overtime requirements in Government contracts (Davis-Bacon, Walsh-Healey, Service Contracts Act, and the Work Hours Act), and the Farm Labor Contractors Registration Act. Several factors common to all of these programs can give rise to the issuance of new regulations or the amendment of existing ones. Such factors include the enactment of legislation, changes in policy

or procedures, comments or complaints from the public, staff recognition of ambiguities in existing regulations, and the perception of areas not covered by current regulations. However, the differences in the types of programs being administered and the segments of the public affected are such that different approaches to the development of regulations are needed.

The threshold decision to modify an existing regulation or to develop a new one is most often made in the ESA division directly involved in the interpretation and enforcement of a particular statute. This decision comes about in several ways, depending upon the statute involved. In the Wage and Hour Division, the Administrator may determine that there is a need for regulatory activity because of a court decision, complaints or comments from the public, or recommendations from his or her staff arrived at through their experience with and knowledge of a program. During the formative stage of a significant regulation, there is coordination with the Assistant Secretary for Employment Standards Administration and other top Departmental policymakers.

The OFCCP develops regulatory changes for numerous reasons. These include prior experience and problems encountered in enforcing existing regulations and requirements; a desire to strengthen requirements in response to problem areas encountered in investigations; new or newly perceived areas of employment discrimination; amendments to the law itself; and developing case law.

Changes in regulations in the Office of Workers' Compensation Programs are generally initiated by the Director as a result of changes in medical technology or insurance practices, comments or complaints from the public and statutory amendments. In some instances in the past, when the regulatory change was extensive, task groups were organized to draft regulations to implement new statutory provisions.

As a rule, in all ESA divisions, the original specifications and drafting of a regulation or revision is done in the office most directly involved with the administration and enforcement of the particular statute or Executive order implemented by the regulation. The division of the Solicitor's Office most directly involved in the subject matter being regulated will assist the program officials in drafting and will then review for legal sufficiency. During this drafting process, which can extend over a long period of time, constant attention is given to questions, observations, opinions, experiences and remarks of interested persons and organizations. After that, the draft is sent for approval to the program head and the Administrator or Director of

the Division in which the program is located. The final draft is submitted to the Solicitor for review and approval. Depending upon the nature and complexity of the regulation, it is signed by the Administrator or Director of the program, the Assistant Secretary for ESA, or the Secretary of Labor.

The Employment and Training Administration has major responsibility for administering over 15 principal statutes and operates an even greater number of programs under those statutes. In some ETA statutes such as CETA, broad authority is given the Department of Labor to develop program practices and procedures.

Issuing regulations or revisions to regulations implementing the various statutes administered by the employment and Training Administration is done by each program division with the advice and assistance of the Solicitor's Office. While the decisions to go forward with the issuance of a new regulation or a revision is made by the program head, the actual drafting of the proposal is usually a joint effort by the staff of the program division within ETA which is charged with administering the Act for which implementing regulations are being written or amended and the Solicitor's Office. In many cases, the Assistant Secretary for ETA directs that a project go forward. The Assistant Secretary and program officials will seek and receive comments from State government officials, other Federal agencies, representatives of public interest groups, labor unions, employer organizations, interested parties as well as those subject to the regulations being proposed. There is formal input from the Bureau of Apprenticeship and Training when regulations affecting apprenticeship are proposed. Suggestions and comments on regulatory material also come from a national advisory committee which the Secretary of Labor has appointed to assist in carrying out the Department's responsibilities for safeguarding the welfare of apprentices. This Committee includes representatives of employers, labor, education, and officers of other executive departments.

An example of an ETA regulation that also involved the Bureau of Apprenticeship and Training concerned affirmative action in apprenticeship for women. This concept had been seriously considered by top officials in ETA and the Women's Bureau for many years. However, this particular rulemaking was initiated by the filing of a formal petition for rulemaking on this subject matter by an outside public interest organization.

In drafting the proposal for these regulations, program heads in the Bureau of Apprenticeship and Training worked with the Women's Bureau and were assisted by staff from the So-

licitor's Office who had considerable experience with other equal employment opportunity matters in its work with the Office of Federal Contract Compliance programs. The Solicitor's staff drafted and prepared the proposed amendment to the regulations for Equal Employment Opportunity in Apprenticeship and Training. The proposal was then submitted to the Solicitor for approval, then to the Assistant Secretary for ETA and to the Secretary before publication in the FEDERAL REGISTER. The public was given 60 days to comment on the proposal.

As can be seen, the procedures used by the agencies within the Department of Labor vary in accordance with the needs of the programs being administered. However, all regulations or proposed regulations must be approved by the Secretary and the Under Secretary before publication in the FEDERAL REGISTER. In addition, the Solicitor of Labor reviews all regulations and proposed regulations for legal sufficiency.

Prior to publication of a proposed regulation, the type and extent of consultations with interested persons, agencies or organizations from outside of the Department varies with each regulatory action. However, on the whole there has generally been more involvement with outside groups during drafting of amendments to regulations already issued than during the drafting of new regulations pursuant to newly enacted legislation. With new regulations, great reliance is placed on the legislative history of the statute. This is not to say that persons or groups affected by the legislation are not afforded an opportunity to comment and make suggestions before a regulation is submitted to the FEDERAL REGISTER. But as a general rule, regulations already in operation generate more comments from the regulated public.

Finally, as a minimum the provisions of the Administrative Procedure Act have been followed where applicable. Informal rulemaking predominates in the Department of Labor's regulatory procedures. However, in some instances, including a number of rulemaking procedures under the Occupational Safety and Health Act, a record of the hearing has been kept and cross-examination of witnesses allowed under the direction of an administrative law judge.

The foregoing is illustrative of the regulatory practices followed by the various agencies within the Department. Changes are being proposed in accordance with the directions of Executive Order 12044, and those changes are reflected in the following portions of this document.

III. DEPARTMENT OF LABOR POLICIES AND PROCEDURES FOR IMPROVING REGULATIONS

POLICIES

Following the issuance of the Executive Order, the Department of Labor has developed a series of procedures to achieve its objectives within the Department. All officials of the Department with responsibilities in the rule-making process must make maximum efforts to carry out the policies of the Executive Order and implement Department of Labor procedures.

It is the policy of the Department of Labor to ensure that all regulations issued or revised by the various offices and agencies within the Department conform to the following standards:

(1) Regulations shall be responsive to public needs, concerns, and legislative goals.

(2) No regulation shall be issued unless the need for it is clearly established.

(3) Appropriate efforts must be made to obtain public participation in the development and revision of significant regulations at as early a time as is practical.

(4) At an early stage, appropriate consideration should be given to meaningful alternative approaches, including approaches which achieve the desired result without the issuance of a regulation.

(5) Regulation should be designed to achieve statutory objectives and to avoid imposing unnecessary compliance, paperwork, costs, and other burdens on the economy, on individuals, on public or private organizations or on State or local governments.

(6) All regulations shall be written in clear and concise language which can be understood by those who are required to comply with them.

The Executive Order contains certain exemptions, including exemptions for emergency regulations. Even where such exemptions apply, it is the policy of the Department that the procedures described in this report be followed to the extent they are practicable and useful in the particular situation, without compromising applicable policy and legal requirements.

It is the policy of the Executive Order and the new Department procedures to improve the rulemaking process in accordance with law and avoid the issuance of unneeded regulations. Their purpose is to make necessary internal changes in procedures and they are not intended to detract from, add to or alter statutory requirements. Failure to meet the requirements of the Executive Order or of the Department's new procedures shall not provide a basis for judicial review of the regulation or other court action.

RESPONSIBILITIES OF DEPARTMENT OF LABOR OFFICIALS

Each agency head within the Department of Labor, including all Assistant Secretaries, the Solicitor, and all other chief agency officials shall become familiar with these Guidelines and shall be primarily and personally responsible for ensuring that the Guidelines are followed in connection with any regulations issued or revised by their respective agencies. In this connection, each agency head shall participate at an early stage in determining the need for the issuance or revision of regulations in their program areas, and shall exercise continuing supervision over the process by which public comment and participation is obtained, and by which final positions and regulatory provisions are developed.

REGULATORY REVIEW PANEL

In order to assist Department of Labor agencies and offices to comply with the requirements of E.O. 12044 and to facilitate the better management of regulations within the Department of Labor a Regulatory Review Panel (The Panel) will be established. The Panel will consist of representatives appointed by the heads of agencies. The Secretary of Labor will appoint a Chairperson for the Panel. The Regulatory Review Panel will be responsible for receiving from agencies, their proposals for regulations to be included in the Department of Labor's semiannual agenda or any additional supplementary agenda of regulations. These agenda will be designed to give the public adequate advance notice of significant regulations which the Department intends to develop or review in the near future. The panel will compile and transmit the agenda to the Secretary for approval with any recommendations it may deem appropriate.

In keeping with President Carter's directive that each agency establish procedures for the continuing review of existing regulations, the Regulatory Review Panel will assure that each agency within the Department is informed of the criteria to be applied in selecting any existing regulation or series of regulations for periodic review. The Panel may also make recommendations concerning the review of overlapping and common subject matter regulations in force in different agencies within the Department. Particular attention in this regard should be paid to regulations affecting disclosure, privacy, administrative procedures, and other types of regulations which cut across agency lines of jurisdiction.

PROCEDURES FOR DEVELOPING NEW REGULATIONS

Whenever an official responsible for the development of regulations be-

lieves that the development of any regulation may be necessary, the official should make an informal assessment of the need for the regulation and possible alternative approaches. If it is decided to recommend development and issuance of a regulation, the official should determine whether or not the regulation is significant.

CRITERIA FOR DETERMINING SIGNIFICANCE OF REGULATIONS

A regulation should be considered significant if it meets the criteria for major as specified in this Report or if it directly and substantially—

- (1) Affects the health or safety of employees.
- (2) Affects standards for determining the amount of or conditions under which benefits are payable to individuals or the eligibility of individuals to participate in various programs.
- (3) Affects the operations or responsibilities of a particular industry or business or group of industries or businesses, or of State or local governments, except that wage determinations issued by the Employment Standards Administration in accordance with prescribed requirements shall not be considered significant.
- (4) Increases existing reporting or compliance requirements or establishes substantial new reporting or compliance requirements for any public or private group;
- (5) Affects the competition within a particular industry or business;
- (6) Affects any program of a State or local government or of any other Federal agency; and
- (7) Affects equal employment opportunities for protected groups.

Rules or regulations which simply describe requirements compelled by law will not be considered significant. However, where these rules or regulations substantially complement statutory standards or requirements, they should be considered significant if they meet the various criteria described above. Regulations or amendments to regulations involving minor technical or clarifying charges shall not usually be considered significant. These procedures will not require the Department to regard as significant internal documents not otherwise required to be made available to the public where such documents relate to Departmental procedures in enforcing laws for which the Department has responsibility.

Even if a regulation does not meet the standards described above, it may still be appropriate to subject it to the requirements which apply to significant regulations. This would be particularly true if the regulation is likely to arouse considerable public interest or controversy.

IDENTIFYING MAJOR REGULATIONS

Once the initiating official decides whether he or she believes that any regulation should be treated as "significant," an informal assessment should be made, based on available information, as to whether the effect of the regulation would be so major as to require the preparation of a regulatory analysis. A regulatory analysis should generally speaking, be performed if the regulation is likely to cause or result in:

- (1) An increased cost of \$100 million or more in any one year for the national economy;
- (2) A \$50 million or larger increase in costs or total revenues in any 1 year for a specific segment of the economy such as a specific industry, geographic region or State or local government;
- (3) A direct dislocation of 10,000 jobs or more;
- (4) A substantial limitation on competition, marketing, market information or an increase in concentration in a market doing \$100 million of business a year or more.

These criteria should be regarded as guidelines rather than precise standards. Their purpose is to provide a rough order of magnitude. Accordingly, the Department's procedures will not ordinarily require a complex analysis to see whether a proposed regulation does or does not meet the criteria.

In addition, even where a regulation does not meet the criteria, agency heads may require that a regulatory analysis be conducted. They are encouraged to do so when a regulation is likely to cause widespread public interest or controversy.

No analysis is needed if on or before March 23, 1978 an Economic Impact Statement has already been prepared in connection with the regulation, in accordance with Executive Orders 11821 and 11949, or where a decision has been made that none was needed.

PUBLIC PARTICIPATION

The initiator of a regulation shall devise a plan to obtain early and effective public participation in the development of significant regulations. Early and effective public participation in the rulemaking process is essential to the development of responsive and useful regulations. There is no single approach toward public participation which is clearly most effective in every case. The approach selected should be suited to the project under consideration and be consistent with the requirements of the law. Among the approaches which should be considered are the following:

- (1) The publication in the FEDERAL REGISTER of a notice or advance notice of proposed rulemaking inviting public comment at the earliest possible date;
- (2) Public hearings;
- (3) Conferences or meetings with interested groups and individuals;

(4) The direct notification or interested parties of the public;

(5) The distribution of appropriate notices, press releases, or statements to trade journals or other publications including newspapers likely to be read by interested parties;

(6) Submission of the regulation or matter to be addressed in the regulation to advisory committees where appropriate; and

(7) Communication with appropriate Federal, State, or local agencies, including contacts through the Office of Legislation and Intergovernmental Relations which maintains continuing contacts with State and local officials and their representatives.

Agency personnel should be alert to those statutory provisions which govern communications with persons outside the Department under certain circumstances.

APPROVAL OF PLAN TO DEVELOP REGULATIONS

Before an agency proceeds to develop a significant regulation, the initiating official will prepare and submit to the official who will sign the regulation or appropriate agency head a proposed development plan which will include a summary of the issues to be considered and a judgment as to whether the regulation is significant. Significant regulations are signed by the appropriate Assistant Secretary, the Commissioner of the Bureau of Labor Statistics, the Under Secretary, or the Secretary except as each may otherwise provide under special circumstances. The plan will also include a summary of the alternative approaches to be explored, a judgment as to whether a regulatory analysis will be required, and a tentative plan for obtaining early public participation. Target dates should also be included.

If the individual responsible for signing the regulation as described above, or appropriate agency head approves going forward with the development of the regulations, he or she shall approve a development plan and designate a project manager or managers to assure that the regulation is considered in a proper and timely manner. The approving official shall also send a copy of the development plan to the Secretary and Under Secretary.

The project manager shall proceed to consider the issues involved and develop a regulatory analysis where required.

REGULATORY ANALYSES

The purpose of the regulatory analyses is to provide a useful tool in the decisionmaking process. They should not serve or be regarded as an additional paper-work burden which needlessly delays a governmental response to a problem. Project managers should

strive to make the best possible use of information available to the agency within an acceptable time-frame. Regulatory analyses should be succinct and written in plain, simple language and should cover the following items in such detail as is practicable:

1. Statement of the problem and regulatory objectives (e.g., statement of condition or situation requiring regulatory action; evidence of the problem; scope of the problem including an indication of the frequency and severity of effects; and an estimate of the effectiveness of a regulatory action in solving the problem).

2. A brief description of the parties (e.g., individuals, groups, industries) most likely to be affected by the regulatory action.

3. A description of the major acceptable alternative regulatory actions under consideration by the agency and a discussion of the effectiveness of each major acceptable alternative in achieving the regulatory objectives.

4. An estimate of the economic consequences of the major acceptable alternative actions, presented in as simple a form as possible, which indicates the limitations of accuracy attached to such estimates.

5. An explanation of why a given alternative was selected for proposed regulatory action.

A copy of each regulatory analysis will be transmitted to the Secretary. The transmittal will include any recommendation made by the appropriate agency head as to whether special consideration by the Secretary is needed.

APPROVAL OF SIGNIFICANT REGULATIONS

No significant regulation will be approved unless the official signing the regulation (as previously described) is satisfied that:

(1) The regulation is needed and is consistent with the law and with the legislative goal it seeks to carry out;

(2) The direct and indirect effects of the regulation have been considered and that the least burdensome of the major acceptable effective alternative approaches has been selected;

(3) Public comments have been considered, and, in the case of final regulations an adequate response has been prepared.

(4) The regulation is written in plain language which will be understood by those who must comply with the regulation, and that overly technical language, incorporation by references, and complex procedures are kept to a minimum, consistent with statutory objectives;

(5) Any new reporting or recordkeeping burdens are justified and kept to a minimum, consistent with statutory objectives;

(6) The name, address and telephone number of an agency official who may

be contacted by members of the public has been included;

(7) A plan for monitoring and evaluating the regulation after issuance has been developed; and

(8) A regulatory analysis has been prepared, if required, and that a brief summary is included in the notice of proposed rulemaking. A statement of how the public may obtain a copy of the initial regulatory analysis will also be included. A final regulatory analysis will be made available when the final regulations are published. The analysis may be incorporated in the preamble to the final regulations.

Prior to publication of significant regulations, a draft of the proposed regulations should be sent to the Secretary and Under Secretary together with a statement by the signing official (as described above) providing personal assurance that the above criteria have been met. The Secretary will, prior to publication, approve going forward with all regulations for which a regulatory analysis is required. The Secretary may also deem it appropriate to require Secretarial approval before going forward with other regulations. Where regulations are not deemed significant, a written statement to that effect should be submitted to the Secretary along with the draft regulations and should be included in the published regulations. Where regulations are to be signed by the Secretary or Under Secretary, the written statements should be submitted by the appropriate agency heads.

Each notice of proposed rulemaking published in connection with a significant regulation by a Department of Labor agency should, if possible, provide at least 60 days for public comment and participation. If a shorter period is necessitated, the published notice shall explain why a full 60 day comment period is impractical.

REVIEW OF EXISTING REGULATIONS

Each agency shall periodically select for review significant regulations within its areas of responsibility. Agencies shall submit to the Regulatory Review Panel at such times as the panel deems appropriate a list of significant regulations proposed for review and inclusion in the semiannual agenda. The panel will transmit the proposed lists to the Secretary for approval, together with any comments it may wish to make.

Each agency shall provide the name and address, and telephone number of the regulation project managers which shall also be included in the published agenda.

Agencies shall also provide to the Panel information on regulations previously selected for review. A report on the status of these regulations will be published together with the semiannual agenda.

The following criteria shall be considered in selecting regulations for review:

- (1) Whether the regulation continues to be necessary to achieve statutory or policy goals;
- (2) Whether the regulation has been the subject of significant public controversy, complaints, or suggestions;
- (3) Whether the regulation is particularly burdensome for some segment of the public;
- (4) Whether the regulation is confusing, difficult to interpret, or unnecessarily complex;
- (5) Whether the regulation is duplicative or inconsistent with other Department of Labor or other agency regulations treating the same or similar subjects;
- (6) Whether the regulation is consistent with the most recent technological advances;
- (7) Whether a revision of the regulation needs to be considered in light of changed economic or other conditions affecting its appropriateness;
- (8) Whether the regulation has been or probably will be subject to change as a result of legislative action;
- (9) Whether court decisions have altered the meaning or effectiveness of the regulation;
- (10) Whether agency operating personnel consider the regulation inefficient, burdensome, or a proper subject for revision;
- (11) The length of time since the regulation has been evaluated; and
- (12) Whether the regulation is discriminatory in effect or formulation.

Although this review process is directed principally at significant regulations, agencies should attempt to identify those groups of minor regulations which may be outdated or which may no longer serve useful purposes. These regulations should also be included on the Department's semi-annual agenda.

Once a regulation has been selected for review, project managers and appropriate agency heads will be responsible for reviewing these regulations as promptly and carefully as practicable. Changes will be made in accordance with the procedures required for the development of new regulations.

IV. CURRENT REGULATIONS INITIALLY SELECTED BY THE DEPARTMENT OF LABOR FOR REVIEW

EMPLOYMENT STANDARDS ADMINISTRATION

1. 20 CFR Part 722—Criteria for determining whether State Workmen's Compensation Laws provide adequate coverage for pneumoconiosis and listing of approved State laws.
2. 20 CFR Part 726—Black Lung Benefits: Requirements for coal mine operator's insurance.
3. 29 CFR Part 531—Wage Payments Under the FLSA.

4. 29 CFR Part 516 A and B—Records To Be Kept by Employers.

5. 29 CFR Part 780—Exemptions Applicable to Agriculture Processing of Agricultural Commodities, and Related Subjects.

6. 29 CFR Part 41—Interpretations of Farm Labor Contractor Registration Act.

7. 29 CFR Part 525—Employment of Handicapped Clients in Sheltered Workshops.

8. 29 CFR Part 529—Employment of Patient Workers in Hospitals and Institutions at Subminimum Wages.

9. 29 CFR Part 4—Labor Standards for Federal Service Contracts.

10. 29 CFR Part 5—Labor Standards Provisions DBRA/CWSHA.

11. 29 CFR Part 570.61—Hazardous Occupation Order No. 10, Occupations involving slaughtering, meat packing or processing or rendering.

12. 29 CFR Part 570, Subpart C—Employment of Minors Between 14 and 16 Years of Age (Child Labor Reg. 3).

13. 29 CFR Part 800—Equal Pay Act Interpretations.

14. 29 CFR Part 850—Records To Be Made or Kept Relating to Age; Notices To Be Posted; Administrative Exemptions.

15. 29 CFR Part 860—Interpretations Age Discrimination in Employment.

16. 41 CFR Part 60-1—Obligations of contractors and subcontractors.

17. 41 CFR Part 60-2—Affirmative action programs.

18. 41 CFR Part 60-4—Construction contractors affirmative action requirements.

19. 41 CFR Part 60-20—Sex discrimination guidelines.

20. 41 CFR Part 60-30—Rules of practice for administrative proceedings to enforce equal opportunity under Executive Order 11246.

21. 41 CFR Part 60-40—Examination and copying of OFCC documents.

22. 41 CFR Part 60-50—Guidelines on discrimination because of religion or national origin.

23. 41 CFR Part 60-60—Contractor evaluation procedures for contractors for supplies and services.

24. 41 CFR Part 60-250—Affirmative action obligations of contractors and subcontractors for disabled veterans and veterans of the Vietnam era.

25. 41 CFR Part 60-741—Affirmative action obligations of contractors and subcontractors for handicapped workers.

EMPLOYMENT AND TRAINING ADMINISTRATION

1. 20 CFR Part 609—Unemployment compensation for Federal civilian employees.

2. 20 CFR Part 614—Unemployment compensation for ex-servicemen.

3. 20 CFR Part 656—Labor certification process for permanent employment of aliens in the United States.

4. 29 CFR Part 26—Exemplary rehabilitation certificates for ex-servicemen.

5. 29 CFR Part 95—Programs under Title I (Comprehensive Manpower Services) of the Comprehensive Employment and Training Act.

6. 29 CFR Part 96—Programs under Title II (Public Employment Programs) of the Comprehensive Employment and Training Act.

7. 29 CFR Part 97 (excluding Subpart A)—Special Federal Programs and Responsibilities Under the Comprehensive Employment and Training Act.

8. 29 CFR Part 98—Administrative provisions for programs under the Comprehensive Employment and Training Act.

9. 29 CFR Part 99—Programs under Title VI (Emergency Job Programs) of the Comprehensive Employment and Training Act.

LABOR-MANAGEMENT SERVICES ADMINISTRATION

29 CFR Part 452 Subpart J—Special Enforcement Provisions of the election provisions of the Labor-Management Reporting and Disclosure Act of 1959.

MINE SAFETY AND HEALTH ADMINISTRATION

1. 30 CFR Parts 55, 56, and 57—Metal/Nonmetal health and safety advisory standards.

2. 30 CFR Parts 55, 56, and 57 (Consolidation of Parts).

3. 30 CFR Part 70—Respirable dust standard for underground coal mines.

4. 30 CFR Part 71—Respirable dust standard for surface coal mines.

5. 30 CFR Part 75—Underground coal mines safety standards (nonstatutory).

6. 30 CFR Part 75.1714—Self-rescuers in underground coal mines.

7. 30 CFR Part 77—Surface coal mine safety standards.

8. 30 CFR Part 90—Transfer of miners.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

1. 29 CFR Part 1910—General Industry Standards—Deletion Project.

2. 29 CFR Part 1910—Subpart D, Walking-Working Surfaces.

3. 29 CFR Part 1910—Subpart O, Machinery and Machine Guarding.

4. 29 CFR Parts 1915, 1916, and 1917—Safety and Health Regulations for Ship Repairing, Shipbuilding, and Shipbreaking (consolidation of shipyard standards).

V. COMMENT PROCEDURE

The Department of Labor invites written comments on its proposals to implement Executive Order 12044. The Department of Labor invites the

public to participate in the development of the procedures which will implement the Executive order by submitting comments to Seth Zinman, Associate Solicitor for Legislation and Legal Counsel, Room N2428, 200 Constitution Avenue NW., Washington, D.C. 20210. Identify the comments on the outside envelope and on the documents that are submitted. The Department of Labor will consider all comments received by July 28, 1978, before taking further action on these matters.

Any information or data submitted pursuant to the above procedures and considered to be confidential must be so identified and submitted in one copy only. The Department of Labor reserves the right to determine the confidential status of the information or data and to treat it accordingly.

Information on comment procedures may also be obtained from:

Sofia P. Petters, Counsel for Administrative Legal Services, Room N2428, 200 Constitution Avenue NW., Washington, D.C. 20210.
Mark Solomons, Counsel for Special Legislative Projects, Room N2428, 200 Constitution Avenue NW., Washington, D.C. 20210.

Issued in Washington, D.C., May 19, 1978.

RAY MARSHALL,
Secretary of Labor.

[4410-01]

DEPARTMENT OF JUSTICE

Office of the Attorney General

[Order No. 789-78]

DRAFT REPORT ON IMPLEMENTATION OF EXECUTIVE ORDER NO. 12044, "IMPROVING GOVERNMENT REGULATIONS"

AGENCY: Department of Justice.

ACTION: Request for public comment.

SUMMARY: The Department of Justice is issuing this draft report to obtain comments on its proposals to implement Executive Order No. 12044, "Improving Government Regulations" (43 FR 12661, March 24, 1978), which requires each agency to establish criteria and procedures to improve the development of its regulations.

DATE: Comments by July 25, 1978.

ADDRESS: Send comments to Kevin D. Rooney, Assistant Attorney General for Administration, Department of Justice, Room 1111, 10th and Constitution Avenue NW., Washington, D.C. 20530, 202-739-3101.

FOR FURTHER INFORMATION CONTACT:

Anthony C. Moscato, Special Assistant to the Assistant Attorney General for Administration, Room 1103, Department of Justice, 10th and Constitution Avenue NW., Washington, D.C. 20530, 202-739-5252.

1. DESCRIPTION OF PROCESS FOR DEVELOPING REGULATIONS

The Department of Justice is not an agency whose primary mission is the conduct of regulatory activity. Most regulations issued by the Attorney General relate to internal agency organization, management or personnel and are exempt from Executive Order No. 12044. Following is a brief description of the regulations that are subject to the provisions of the Executive order, issued or initiated by various organizational units of the Department.

(a) BUREAU OF PRISONS

In carrying out its responsibility for the care and custody of offenders committed to the care of the Attorney General, the bureau of Prisons has promulgated regulations which cover the gamut of inmate care standards and issues. Until recently, these regulations were contained in a series of approximately 200 "Policy Statements" which were available upon request, but neither formally published nor publicized. In February, 1977, pursuant to court order in the case of *Ramer v. Lewis*, the Bureau was ordered to publish its regulations. In aid of that process, the Bureau of prisons has been reviewing and purging its

Policy Statements, reducing their number to approximately 110. Since February, 1977, the Bureau of Prisons has published the first 40 of those policies for comment in the FEDERAL REGISTER on May 23, 1977, August 18, 1977, and December 4, 1977. None of these have been published in final.

(b) CIVIL RIGHTS DIVISION

The Civil Rights Division is responsible for regulations in the following areas: procedures to obtain preclearance to change voting practices or procedures in certain states and political subdivisions (28 CFR Part 51); procedures for registration and balloting in areas of "language minority" (28 CFR Part 55); discrimination in hiring on the basis of race, sex, religion or ethnic background (28 CFR 50.3 and 41 FR 51734); and regulations pertaining to the implementation of nondiscrimination in federally assisted programs. In the first two areas, the regulations were developed by the staff of the Division charged with litigation responsibility in the same area, with help and review from other Division staff, forwarded to the Assistant Attorney General of the Division for approval and signature, and then sent to the FEDERAL REGISTER for publication and comment. The regulations relating to "language minorities" were reviewed by the Department's Office of Legal Counsel. Copies of the proposed regulations were also sent to interest groups, States, and political subdivisions for comment. The employment discrimination regulations were developed in concert with the other agencies responsible for this program area, the Department of Labor and the Civil Service Commission, prior to being sent to the Federal Register for publication and comment. They were circulated in accord with OMB Circular A-85 prior to final publication.

(c) DRUG ENFORCEMENT ADMINISTRATION

The Drug Enforcement Administration is responsible for five related areas of regulations, including: maintenance of the five schedules of controlled substances established by the Controlled Substances Act; maintenance of a system of annual registration of manufacturers, distributors, importers, exporters and dispensers of controlled substances; monitoring (through direct controls, inspection techniques and otherwise) of the manufacture, distribution, import, export and dispensing of controlled substances; conduct of administrative hearings; and administering the procedures for granting exceptions to Drug Enforcement Administration regulations. The DEA regulations are published in 21 CFR Parts 1301 through 1316. The Drug Enforcement Administration has complied with the rule-making procedures of the Administra-

tive Procedure Act in adopting its regulatory scheme. In some instances, DEA has used an advance notice and comment procedure or hearing procedures to augment the rulemaking process, allowing for greater participation by businesses, individuals or the entities potentially affected by proposed regulations.

(d) IMMIGRATION AND NATURALIZATION SERVICE

The Immigration and Naturalization Service issues both substantive and procedural regulations relating to aliens, including: the inspection and admission of aliens into the United States; the adjudication of applications for benefits under immigration and naturalization laws; the apprehension and deportation of aliens; the maintenance of records regarding aliens; and the naturalization of aliens and U.S. citizens. Regulatory proposals are initiated by operating divisions, or at the behest of the Commissioner or his Deputy. They are then referred to the Service Instruction Officers for review and formal drafting, and then to the Associate Commissioners, Deputy Commissioner and the Commissioner for approval and forwarding to the Federal Register for publication and comment. If a benefit is conferred or a restriction relaxed, the regulation is published immediately. Examples of this procedure include: removal of the restriction on alien nonimmigrant visitors from applying for extensions of their stays; and finalization of Immigration and Naturalization Service procedures to implement a Congressional mandate to provide refugees from Indochina with legal alien status.

(e) LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

The Law Enforcement Assistance Administration issues regulations and guidelines governing the grant programs it administers. These regulations and guidelines cover both eligibility requirements for financial assistance and conditions for the receipt of financial assistance. Following is a list of the current Law Enforcement Assistance Administration regulations and guidelines: LEAA Administrative Review Procedure (28 CFR Part 18); Regulations relating to the LEAA Implementation of the National Environmental Policy Act (28 CFR Part 19); Criminal Justice Information Systems (28 CFR Part 20); Confidentiality of Identifiable Research and Statistical Information (28 CFR Part 22); Final regulation relating to the LEAA Implementation of the OMB Circular A-95 Revised (28 CFR Part 30); Public Safety Officers' Death Benefits (28 CFR Part 32); Nondiscrimination in Federally Assisted Programs—Implementation of Section 518(c) of the Crime Control Act of 1976 and Section

262(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (28 CFR Part 42, Subpart D); Equal Employment Opportunity Guidelines (28 CFR Part 42, Subpart E); Financial Management for Planning and Action Grants (M 7100.1A, April 30, 1973); Guide for Discretionary Grant Programs (M 4500.1F, December 21, 1977); and, State Planning Agency Grants (M 4100.1F, January 18, 1977).

In drafting its regulations, the Law Enforcement Assistance Administration seeks input from a broad range of interest groups including, among others, the National Governor's Conference, the Council of State Governments, and the National League of Cities. Public meetings and hearings are scheduled, announced and held, or can be requested by interest groups. Sixty days after publication in the FEDERAL REGISTER are allowed for public comment.

In the case of regulations not published in the FEDERAL REGISTER an alternate procedure is used to elicit response from state planning agencies, public interest groups and other Federal agencies. Consideration is always given to the impact of proposed regulations on state and local agencies.

(f) NATIONAL INSTITUTE OF CORRECTIONS

The National Institute of Corrections is an independent agency within the Bureau of Prisons which administers a grant program for corrections improvements. The Institute uses a number of Federal Management Circulars, including 73-7, 73-8, 74-4, and 74-7, which it does not publish itself. The Institute does publish (though not in the FEDERAL REGISTER) its yearly program, which identifies general categories of available funds. The Institute holds four hearings across the Country to seek input for its program plan.

(g) U.S. PAROLE COMMISSION

The U.S. Parole Commission has paroling authority over Federal prisoners and supervisory responsibilities for parolees. It promulgates rules to implement these responsibilities (28 CFR 2.1-2.89). The Commission has also published regulations to implement its responsibilities under the Labor Management Reporting and Disclosure Act, the Employee Retirement Income Security Act, and the Sunshine Act, 28 CFR 4.1-4.17, 4a.1-4a.17, 16.200-16.208.

The Commission meets approximately six times per year to review, modify or add regulations. The regulations are published in the FEDERAL REGISTER for a public comment period of 60 to 90 days. They are also sent to the Bureau of Prisons, the U.S. Probation Officer and, sometimes, to members of Congress.

(h) OTHER ORGANIZATIONAL UNITS

Although other organizational units of the Department do, from time to

time, initiate regulations, they do not have significant regulatory missions. All regulations submitted for the Attorney General's approval are first reviewed by the Department's Office of Legal Counsel (28 CFR 0.25). Those which do not relate solely to internal Department organization are published for public comment.

2. CRITERIA FOR SIGNIFICANT REGULATIONS

Regulations will be considered to be significant if they:

- Affect the general public;
- Implement a substantive policy or program responsibility of the Department;
- Affect a substantial portion (30 percent) of the industries, businesses, or organizations or individuals at which they are directed;
- Impose additional regulatory requirements;
- Increase the burden of reporting or compliance by the industries, businesses, organizations or individuals to which they apply;
- Create, increase, restrict or withdraw a benefit from the industries, businesses, organizations or individuals to which they apply;
- Affect the substantive or procedural due process rights of the individuals to which they apply;
- Modify the Department of Justice's relationships with other Federal agencies or departments;
- Modify the relationships between the Federal and state governments, Federal and local governments, or state and local governments;
- Affect the eligibility of industries, businesses, organizations or individuals for financial assistance from the Federal government;
- Affect the laws, regulations, procedures, fiscal status or record-keeping requirements of state or local governments; or

(l) Affect, directly or indirectly, the quality of competition between industries, businesses, organizations or individuals in general or in specifically targeted industries, geographical areas or regions.

3. CRITERIA FOR REGULATORY ANALYSIS

Regulations will be considered to have major economic consequences and therefore require a regulatory analysis in their support if they:

- Cause an annual effect on the economy of \$50 million or more;
- Cause a major increase in costs or prices for individual industries, levels of government or geographic regions;
- Impose a substantial economic burden in compliance for the industries, businesses, organizations, levels of government, or individuals toward which they are directed;
- Impose an economic burden upon industries, businesses, organizations,

levels of government or individuals toward which they are not directed; or

(e) If the Attorney General or the head of the organizational unit issuing the regulation determines that a regulatory analysis is necessary.

4. CRITERIA FOR REVIEW OF EXISTING REGULATIONS

All regulations shall be reviewed at least once every four years, in accordance with the following criteria:

- The need to simplify or clarify language;
- The need for further interpretation or clarification of the regulations in light of later administrative or judicial determinations;
- The need to reassess or reevaluate agency activity within a given regulatory area;
- The continued need for the regulations at all;
- The type and number of complaints or suggestions received;
- The burdens imposed on those directly or indirectly affected by the regulations;
- The degree to which technology, inflation or other economic conditions, or other factors in general, have changed the area affected by regulations; and
- The need to eliminate overlapping or duplicative regulations.

5. LIST OF REGULATIONS SCHEDULED FOR INITIAL REVIEW

(a) BOARD OF IMMIGRATION APPEALS

Section 292.2(d) of Title 8, Code of Federal Regulations, relating to representation and appearances before the Board, is scheduled for initial review because of recent judicial decisions sanctioning certain types of advertising for attorneys which are not now reflected in the regulations.

(b) BUREAU OF PRISONS

The Bureau of Prisons has recently published for comment, pursuant to court order, 40 of its existing 110 regulations. These have not been published in final and are therefore scheduled for initial review.

(c) CIVIL RIGHTS DIVISION

Part 51 of Title 28, Code of Federal Regulations, published pursuant to Section 5 of the Voting Rights Act of 1965, relate to the requirement that certain states and political subdivisions obtain pre-clearance for any changes in voting practices or procedures. These regulations require review primarily because they have been in existence without comprehensive review for over five years.

(d) DRUG ENFORCEMENT ADMINISTRATION

Regulations relating to specific procedures governing hearings pursuant

to orders to show cause directed to DEA registrants or applicants for registration (21 CFR 1301.51-1301.57 and 21 CFR 1311.51-1311.53); 21 CFR Part 1303, relating to DEA's quota setting authority; 21 CFR 1304.31-1304.41, relating to reporting requirements levied upon certain registrants engaged in specific activities; 21 CFR 1308.22, 1308.24, 1308.32, and 1308.41-1308.51, relating to certain excluded substances, exempted chemical preparations and excepted compounds, as well as relating to administrative hearings concerning the scheduling of substances; 21 CFR 1312.41-1312.47, relating to hearings regarding the denial of an application for an import, export or transshipment permit; and 21 CFR 1316.41-1316.67, relating generally to administrative hearing procedures. The regulations relating to hearings are scheduled because of the need to clarify DEA's hearing procedures and to eliminate some redundancy within the regulatory structure. The remaining regulations have been scheduled both because they are in need of comprehensive review and because of their potential economic impact.

(E) IMMIGRATION AND NATURALIZATION
SERVICE

Regulations relating to document

notations (8 CFR 235.4); 8 CFR 235.5, relating to preinspection of aliens in foreign countries; 8 CFR 235.8, relating to temporary exclusion of subversives; 8 CFR 235.10, relating to issuance of U.S. citizen ID cards; 8 CFR Part 287, relating to the authority of INS officers; 8 CFR Part 287, relating to the jurisdiction of Immigration Judges in deportation after final orders; and 8 CFR Part 244, relating to the voluntary departure of aliens. These regulations are scheduled for initial review because they are already being reviewed internally by INS.

(F) LAW ENFORCEMENT ASSISTANCE
ADMINISTRATION

Guide for Discretionary Grant Programs, M 4500.1F, December 21, 1977; State Planning Agency Grants, M 4100.1F, January 18, 1977; Financial Management Guide for Planning and Action Grants, M 7100.1A, April 30, 1973; LEAA Administrative Review Procedure, 28 CFR Part 18; and Equal Employment Opportunity Guidelines, 28 CFR Part 42, Subpart E. The first two regulations are reviewed annually. The third and fourth are scheduled because they have not been reviewed for several years and the fifth is

scheduled to consider modification in light of recent changes in the area.

(G) U.S. PAROLE COMMISSION

Regulations relating to the Commission's responsibilities for granting certificates of exemption to convicted felons seeking employment in labor unions and employee benefit plans within five years of their convictions (28 CFR 4.1-4.17 and 28 CFR 4a.1-4a.17). The Commission is already in the process of reviewing them internally.

6. COMPLIANCE WITH EXECUTIVE ORDER
NO. 12044

In order to insure that the provisions of Executive Order No. 12044 are complied with, the Assistant Attorney General in charge of the Office of Legal Counsel shall provide department-level oversight for the Attorney General and shall review and make recommendations to the Attorney General on all matters requiring his decision or approval under the Executive Order.

Dated: May 23, 1978.

GRIFFIN B. BELL,
Attorney General.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.
A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-34]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 75—COMMUNICABLE DISEASES IN HORSES, ASSES, MULES, AND ZEBRAS

Contagious Equine Metritis (CEM)

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document revises and strengthens the regulations which relate to contagious equine metritis (CEM). This action is needed to prevent the dissemination of CEM by horses and other equidae. The intended effect of this action is to provide flexibility needed in the regulations to permit the interstate movement of horses and other equidae when such movements can be made without undue risk to spread CEM.

EFFECTIVE DATE: May 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. Ralph C. Knowles, USDA, APHIS, VS, Federal Building, Room 738, Hyattsville, Md. 20782, 301-436-8433.

SUPPLEMENTARY INFORMATION: On April 4, 1978, a regulation was published in the FEDERAL REGISTER (43 FR 14022) which quarantined the State of Kentucky because of the existence of CEM. The regulation also imposed restrictions on the interstate movement of horses of the thoroughbred breed from or through the State of Kentucky. The present regulations provide that such horses which are geldings, and weanlings or yearlings which are not known to be affected with or exposed to CEM or exposed to any horse affected with CEM, may move interstate without restriction. Further, horses of the thoroughbred breed may move interstate into or from the State of Kentucky for racing or exhibition purposes without restriction. However,

such horses may be moved interstate into or from the State of Kentucky for breeding purposes only is such breeding is performed by artificial insemination in the presence of and certified by an authorized State or Federal animal health official.

The present regulations were placed into effect on an emergency basis in order to control the movement of horses into, from and through the quarantined area and to prevent the spread of CEM. However, for many reasons the present provisions are not adequate to prevent the spread of CEM by the interstate movement of certain horses. The present regulations do not provide a method of tracing the interstate movement of horses from or through the quarantined State to insure that the animals move in compliance with the regulations. The regulations do not restrict the interstate movement of animals which are affected with or exposed to CEM, when the movement is other than from or through the quarantined State. Also, the present regulations fail to establish requirements regarding the cleaning and disinfection of means of conveyance used to transport affected or exposed animals interstate. Such provisions are necessary because CEM may be transmitted by such means of conveyance.

Further, the present regulations lack the flexibility needed to control the movement of diseased animals and permit nondiseased animals which are not a threat to the livestock of the United States to move safely interstate with a minimum of restrictions.

This document will change the regulations in an attempt to cure the aforementioned deficiencies. In order to trace the interstate movement from or through the quarantined State of certain thoroughbred horses, such horses will be required to be accompanied by a certificate issued by a State of Veterinary Services inspector or by an accredited veterinarian containing the following information: (1) The description of each animal covered by the certificate including its name, breed, color, sex, and distinctive markings, such as brands, tattoos, scars, or blemishes, if any; (2) the age of each animal covered by the certificate, with the age of each weanling or yearling recorded in days; (3) the number of animals covered by the certificate; (4) the purpose for which the animals are

to be moved; (5) the points of origin and destination of the movement; (6) the names of the consignor and the consignee; and (7) a certification by the person issuing the certificate that the animal or animals identified on the certificate are not affected or exposed animals. The information required will also establish that the horse being moved is the horse listed on the certificate, thereby insuring that the particular horse is eligible to move under the regulations. Therefore, thoroughbred weanlings and yearlings will be required to be accompanied by a certificate when moved interstate from or through a quarantined State. The certificate will provide a means to insure that the particular animal is a weanling or yearling.

Such a certificate would also be required to accompany Thoroughbred mares or stallions which are not affected or exposed animals and which have not been bred naturally in the quarantined area after August 30, 1977, and which move interstate from a quarantined area for other than breeding purposes. If the horse has not had an opportunity to come in contact with CEM, it does not pose an undue threat to spread the disease. Also, if the purpose of such movement is for other than breeding purposes, the threat that such horse poses to disseminate CEM is further reduced because CEM is primarily transmitted through natural breeding. It should be noted that the provision that such horses have not been bred naturally in the quarantined area since August 30, 1977, has been included because the existence of CEM in the United States became known to the Department on that day, and therefore horses bred naturally after that date in a quarantined area present a disease threat since they would have had a possibility of having come in contact with CEM.

Such a certificate is also required for the interstate movement from or through a quarantined area of Thoroughbred mares or stallions which are not affected or exposed animals and have not been bred in the quarantined area except by artificial insemination since August 30, 1977, and which are so moved for breeding purposes if such breeding will be performed by artificial insemination in the presence of and certified to by a State or Federal animal health official. As noted above,

CEM is a disease primarily transmitted by natural breeding. If such breeding is done through artificial insemination, such horses would not pose an undue risk to spread CEM. However, in order to insure that such breeding is done through artificial insemination the certification of the Federal or State official observing the breeding is required.

Such a certificate is also required for the interstate movement through the quarantined area of a Thoroughbred horse which is not an affected or exposed animal, if moved through such area without contact with other horses while in such area. Again, as stated previously, because CEM is primarily a breeding disease, if a horse does not come in contact with other horses while in the quarantined area, it would not pose an undue risk to disseminate CEM.

Such a certificate is also required for the interstate movement from the quarantined area for breeding purposes of a mare or stallion which is not an affected or exposed animal, and which has not been on a premises since August 30, 1977, where an affected or exposed animal has been and which has not been naturally bred in the quarantine area after August 30, 1977, or which has been bred only by artificial insemination after August 30, 1977, if accompanied by a certificate.

As noted previously, CEM is primarily transmitted by natural breeding. A horse which is not an affected or exposed animal and which has not been naturally bred in the quarantined area or which has been bred in the quarantined area only by artificial insemination after August 30, 1977, should not present an undue risk to spread the disease. However, because such a horse will be moved for natural breeding, an additional safeguard, namely that the horse has not been on a premises since August 30, 1977, where an affected or exposed animal has been, is required. This further reduces the chance that the horse has come in contact with CEM. Therefore, under this provision of the regulations, such a horse may move interstate from the quarantined area for natural breeding purposes.

The regulations have also been amended to require that affected or exposed horses and other equidae shall not be moved interstate except for immediate slaughter directly to a federally inspected slaughtering establishment operated under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) or to a State inspected slaughtering establishment which has inspection by a State inspector at the time of slaughter and if accompanied by a permit. This requirement has been established because such animals obviously pose a threat to disseminate CEM and therefore must only be permitted to move

interstate for immediate slaughter. The reason the types of slaughtering establishments are specified is that such establishments have Federal or State officials present who will insure that the horses are received and slaughtered. A permit is required because it will provide a means of identifying and tracing the particular animal. The regulations define a permit to be a completed VS Form 1-27 issued by a State or Veterinary Services inspector or by an accredited veterinarian for the interstate movement of affected or exposed animals for slaughter which, in addition to the information required to be stated on the form, shall state a description of each animal to be moved, including the name, age, color and distinctive markings, such as brands, tattoos, scars, or blemishes, if any. VS Form 1-27 is a standard form utilized in regulating the interstate movement of animals affected with or exposed to diseases other than CEM which are moving for purposes of slaughter and is equally suitable for horses and other equidae affected with or exposed to CEM moving to slaughter. However, for purposes of further insuring that the particular animal being moved is the animal listed on the certificate, the additional information is required.

The regulations are also amended by requiring that nonaffected and nonexposed horses and other equidae may move interstate for immediate slaughter only if they comply with the provisions for affected or exposed horses and other equidae moved for slaughter.

This requirement is necessary in order to provide a means of identifying the origin of such animals and to trace the movement of such animals which may be established at the time of slaughter to be affected with CEM.

Additionally, the regulations are amended by establishing cleaning and disinfection requirements for means of conveyance used to transport affected or exposed horses and other equidae interstate to slaughter. Such requirements are necessary to prevent the spread of CEM because CEM may be transmitted by the horse or other equidae to the means of conveyance or articles in the means of conveyance. Therefore, in order to prevent any other animals which the means of conveyance may subsequently transport from coming in contact with CEM, the means of conveyance must be cleaned and disinfected.

The regulations also define affected and exposed animals for purposes of this section. An affected animal is an animal from which bacteria causing CEM has been identified in a State or Federal animal disease diagnostic laboratory in accordance with Standard bacteriological methods. Such an animal is infected with CEM and poses

a threat to the livestock of the United States. An exposed animal is defined as an animal which has had sexual or other physical contact with an affected animal, or which has been in physical contact with objects or persons that at the time of such contact were contaminated by previous contact with an affected animal. Due to the fact that CEM can be transmitted through direct physical contact with an affected animal or by indirect contact through vectors which have been in contact with an affected animal, animals which have such contact must be considered to be exposed to CEM.

The regulations also have included a definition of animal to include all types of equidae because CEM can affect all types of equidae. Further, the regulations include definitions of an accredited veterinarian, CEM, State Inspector, Veterinary Services Inspector, and weanling or yearling, for purposes of these regulations. Certain changes in the wording of the regulations have been made in order to conform to the statutory authority. Certain other minor editorial changes have been made in the regulations.

Accordingly, Part 75, Title 9, Code of Federal Regulations, is amended in the following respects:

1. Section 75.5 is amended to read as follows:

§ 75.5 Definitions.

For purposes of this section, the following terms shall mean:

(a) *Accredited Veterinarian.* An accredited veterinarian as defined in Part 160 of this chapter.

(b) *Affected Animal.* An animal from which bacteria causing CEM has been identified in a State or Federal animal disease diagnostic laboratory by standard bacteriological methods.

(c) *Animal.* Any horse, ass, mule, zebra or other equidae.

(d) *Certificate.* An official document issued by a State or Veterinary Services inspector or by an accredited veterinarian at the point of origin of a shipment of animals to be moved under this section which states:

(1) The description of each animal covered by the certificate including the name, breed, color, sex, and distinctive markings, such as brands, tattoos, scars, or blemishes, if any;

(2) The age of each animal covered by the certificate, with the age of each weanling or yearling recorded in days;

(3) The number of animals covered by the certificate;

(4) The purpose for which the animals are to be moved;

*The person issuing the certificate shall promptly forward copies of each certificate issued to the Chief Animal Health official of the State of origin and the Chief Animal Health official of the State of destination, respectively.

(5) The points of origin and destination of the movement;

(6) The names of the consignor and the consignee; and,

(7) Certification by the person issuing the certificate that the animal or animals identified on the certificate are not affected or exposed animals.

(e) *CEM.* Contagious Equine Metritis.

(f) *Exposed Animal.* An animal which has had sexual or other physical contact with an affected animal, or which has been in physical contact with objects or persons that at the time of such contact were contaminated by previous contact with an affected animal.

(g) *Permit.* A completed VS Form 1-27 issued by a State or Veterinary Services inspector or by an accredited veterinarian for the interstate movement of affected or exposed animals for slaughter which in addition to the information required to be stated on the form shall state a description of each animal to be moved including the name, age, color, and distinctive markings, such as brands, tattoos, scars, or blemishes, if any.

(h) *State Inspector.* A veterinarian or livestock inspector regularly employed in animal health activities by a State or a political subdivision thereof, authorized by such State or political subdivision to perform the function involved under a cooperative agreement with the United States Department of Agriculture.

(i) *Veterinary Services Inspector.* A veterinarian or livestock inspector employed by Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, in animal health activities, who is authorized to perform the function involved.

(j) *Weanling or Yearling.* Any horse not more than 731 days old on the date of interstate movement.

2. New §§ 75.6, 75.7, and 75.8 are added to read:

§ 75.6 General restrictions.

(a) Notice is hereby given that CEM, a communicable disease of horses, asses, mules, zebras, and other equidae exists in each area specified in § 75.7 of this part.

(b) Affected or exposed animals shall not be moved interstate except in accordance with the regulations in this part.

§ 75.7 Areas quarantined.

(a) Notice is hereby given that because of the existence of CEM in the breed of Thoroughbred horses in cer-

*The person issuing each permit shall promptly forward copies of each permit issued to Animal Health officials indicated on the original and each copy of VS Form 1-27.

tain areas, and because of the nature and extent of such disease, the following areas are hereby quarantined:

(1) *Kentucky.*—The entire Commonwealth.

§ 75.8 Restrictions on interstate movement.

(a) Except as provided in paragraph (b) of this section, no horse of the Thoroughbred breed shall be moved interstate from or through any quarantined area specified in § 75.7(a) of this part except in accordance with the following conditions:

(1) A gelding may be moved interstate without restriction;

(2) A weanling or yearling which is not an affected or exposed animal may move interstate if accompanied by a certificate;

(3) A mare or stallion which is not an affected or exposed animal and which has not been bred naturally in the quarantined area after August 30, 1977, may move interstate from the quarantined area for other than breeding purposes if accompanied by a certificate;

(4) A mare or stallion which is not an affected or exposed animal and which has not been bred in the quarantined area except by artificial insemination after August 30, 1977, may move interstate from the quarantined area for breeding purposes if such breeding will be performed only by artificial insemination in the presence of and certified to by a State or Veterinary Services Inspector, and if such horses are accompanied by a certificate; and

(5) A mare or stallion which is not an affected or exposed animal, which has not been on a premises since August 30, 1977, where any affected or exposed animal has been, and which has not been naturally bred in the quarantine area after August 30, 1977, or which has been bred only by artificial insemination in the quarantined area after August 30, 1977, may move interstate from the quarantine area for breeding purposes if accompanied by a certificate;

(6) A horse which is not an affected or exposed animal may move interstate through the quarantined area if accompanied by a certificate and if moved through such area without contact with other animals while in such area.

(b) *Movement of animals for immediate slaughter.* (1) No affected or exposed animal shall be moved interstate except for immediate slaughter directly to a federally inspected slaughtering establishment operated under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) or to a State-inspected slaughtering establishment which has inspection by a State inspector at the time of slaughter and only if accompanied by a permit.

(2) Animals other than affected or exposed animals may be moved interstate for immediate slaughter only if they comply with all of the provisions for movement of affected or exposed animals for slaughter in subparagraph (b)(1) of this section.

(c) *Cleaning and disinfection.* Any means of conveyance used to transport affected or exposed animals interstate shall be thoroughly cleaned and disinfected after such movement in accordance with the provisions of §§ 71.6, 71.7, 71.10, 71.11, and 71.12 of the regulations in this subchapter.

(Sections 4-7, 23 Stat. 32, as amended, sections 1 and 2, 32 Stat. 791-792, as amended, sections 1-4, 33 Stat. 1264, 1265, as amended (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126), 37 FR 28464, 28477; 38 FR 19141.)

In view of the nature of the disease and circumstances under which it is disseminated and in order to prevent the interstate spread of the disease, it is necessary that this amended regulation be placed in effect immediately. Therefore, the amendment must be made effective immediately to accomplish its purpose in the public interest.

Accordingly, under the administrative procedure provision in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C. this 25th day of May 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

M. T. Goff,
Acting Deputy Administrator,
Veterinary Services.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z; Docket No. R-0156]

PART 226—TRUTH IN LENDING

Preservation of Evidence of Compliance

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Federal Reserve Board amends the record retention requirements as to those creditors and lessors under the jurisdiction of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the Federal Home Loan Bank Board, the Federal Reserve Board and the National Credit Union Administration. These agencies proposed uniform guidelines for enforcement of the truth in lending provisions in October, 1977. Creditors and lessors affected by the amendment must retain all evidence of compliance in their possession, dating from July 1, 1969, until the agencies adopt final guidelines and complete at least one examination thereunder, subject to a minimum 2-year retention period. The amendment will preserve records of transactions which might be subject to corrective action once the guidelines are adopted and which might otherwise have been destroyed. The amendment is in response to a petition for rulemaking. The Board believes it is necessary to preserve enforcement options.

DATES: Effective date: May 30, 1978. Comments due on or before July 14, 1978.

ADDRESS: Send comments to Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FOR FURTHER INFORMATION CONTACT:

Anne Geary, Chief Staff Attorney, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-2761.

SUPPLEMENTARY INFORMATION:

(1) Prior to this action, § 226.6(i) permitted all creditors to dispose of records evidencing compliance with Regulation Z when more than 2 years had elapsed from the date disclosures were required to be made. Under the uniform statement of enforcement policy proposed by the Federal financial regulatory agencies (42 FR 55786), corrective action might be required for violations of Regulation Z occurring more than 2 years prior to the date of discovery of the violation by the enforcing agency. If the guidelines as finally adopted specify a correction period greater than 2 years, the record retention requirement for transactions prior to that time would have expired. Thus, evidence of violations which might otherwise be subject to corrective action once the guidelines are adopted may have been destroyed before the guidelines are placed in effect.

(2) Pursuant to 5 U.S.C. § 553(e), Consumers Union has asked the Board to revise § 226.6(i) to require creditors to retain records until the enforcing

agency has published final guidelines, has conducted one examination for compliance with the regulation and has assured that any required corrective action has been taken. In a Petition for Emergency Rulemaking submitted on April 24, 1978, Consumers Union alleged that destruction of records pending adoption and application of the guidelines would cause irreparable injury to consumers whose transactions might otherwise have been subject to corrective action in the form of reimbursement.

(3) The Board has determined that a revision of § 226.6(i) is necessary to preserve enforcement options. In making this determination, the Board takes no position on whether the guidelines as finally adopted will require reimbursement as a form of corrective action or whether violations occurring more than 2 years prior to discovery will be subject to corrective action. Depending on the course of action chosen by the agencies, the amendment may later be revised. However, the Board believes that the potential benefit to consumers outweighs the added responsibility which this rule places upon creditors and lessors.

(4) The revised rule retains the minimum 2-year retention period for all creditors and lessors. Under the revision, however, creditors and lessors subject to paragraph (2) must retain all records currently in their possession, even those as to which the 2-year period has elapsed, until all 3 of the conditions set forth in that paragraph have been satisfied.

(5) The Board has determined that compliance with the provisions of 5 U.S.C. § 553 relating to notice, public participation and deferred effective date would be contrary to the public interest. Pending completion of the general procedures required by that section, a large number of additional records could be irretrievably lost, substantially reducing the utility of this amendment. In making this determination, the Board recognizes that this action could have been taken at an earlier time, which might have permitted compliance with normal procedural requirements. However, at the time the guidelines were first proposed, the participating agencies believed that final action would be taken shortly thereafter. In the Board's judgment, the record retention problem has become more acute as the deliberation process on the guidelines continues, increasing the need for the amendment. In view of the potential harm to consumers resulting from continuing to permit disposal of records, the Board believes that further delay for compliance with normal procedural requirements would not serve the public interest. Therefore, pursuant to 5 U.S.C. § 553(b)(3) and 5 U.S.C. § 553(d)(3) the Board is publishing this

rule without notice and prior opportunity for comment, to become effective on publication.

(6) Although immediate adoption of this rule is considered essential for the reasons stated above, the Board will consider further revision of the rule. Interested persons are invited to review the rule and to submit relevant data, views, or comments in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. All material submitted should be received not later than July 14, 1978, and should include the docket number R-0156. Copies of any comments received will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information (12 CFR Part 261.6(a)). Consideration will be given to any comments received and the Board will amend the rule as determined necessary or desirable.

(7) Pursuant to the authority granted in 15 U.S.C. § 1604 (1968), the Board hereby revises 12 CFR Part 226 as follows, effective May 30, 1978.

§ 226.6 General disclosure requirements

(i) *Preservation and inspection of evidence of compliance.* (1) Evidence of compliance with the requirements imposed under this Part, other than advertising requirements under § 226.10, shall be preserved by the creditor or lessor for a period of not less than 2 years after the date such disclosure is required to be made.

(2) With respect to a creditor or lessor subject to the administrative enforcement jurisdiction of the Comptroller of the Currency, Board of Directors of the Federal Deposit Insurance Corporation, Federal Home Loan Bank Board (acting directly or through the Federal Savings and Loan Insurance Corporation), Administrator of the National Credit Union Administration or Board of Governors of the Federal Reserve System, all evidence of compliance with the requirements imposed under this Part, dating from July 1, 1969, other than advertising requirements under § 226.10, shall be retained until:

(i) The administrative authority for that creditor or lessor completes one examination for compliance with the requirements imposed under this Part subsequent to adoption of a statement of enforcement policy,* and

(ii) A period of not less than 2 years has elapsed from the date that disclosure was required to be made.

*"Statement of enforcement policy" refers to a final statement based on the Joint Notice of Proposed Statement of Enforcement Policy published at 42 FR 55786 (1977).

(3) Each creditor or lessor shall, when directed by the appropriate administrative enforcement authority designated in section 108 of the Act, permit that authority or its duly authorized representative to inspect its relevant records and evidence of compliance with this Part.

2. Footnote 6a to § 226.7(a)(4) is redesignated footnote 6b.

By order of the Board of Governors, May 19, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

CHAPTER V—FEDERAL HOME LOAN BANK BOARD**SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM**

[No. 78-311]

PART 545—OPERATIONS**Electronic Fund Transfers Through Remote Service Units**

MAY 24, 1978.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final rule.

SUMMARY: The Bank Board, by this amendment, adopts a permanent remote service unit (RSU) regulation. A permanent regulation is needed to replace the Board's temporary RSU regulation, which expires on June 30, 1978. The new, permanent regulation includes consumer protection provisions, removes deadlines for RSU application and operating periods, and revises, shortens, and simplifies existing requirements.

EFFECTIVE DATE: July 1, 1978.

FOR FURTHER INFORMATION, CONTACT:

Harry W. Quillian, Associate General Counsel, Federal Home Loan Bank Board, telephone 202-377-6440.

SUPPLEMENTARY INFORMATION:

The Bank Board, by Resolution No. 78-98, dated February 15, 1978 (43 FR 7327-9; February 22, 1978), proposed to amend § 545.4-2 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.4-2) to replace its temporary RSU regulation with a permanent one. The comment period closed on March 27, with 58 public comments received. Two banking trade associations opposed the regulation, contending that it would violate 12 U.S.C. 1464(b)(1) by authoriz-

ing demand withdrawal of funds from savings accounts. Fifty-six respondents (including 35 federally-chartered associations, 3 State-chartered associations, and 1 national bank) generally favored the regulation, but requested clarification or minor changes of sections of the regulation. In response to these requests, the Bank Board is revising the proposal by (1) combining and/or rearranging several sections in a more logical sequence; (2) expanding the consumer protection sections; and (3) clarifying application procedures.

Subparagraph (a) *Definition* has been rearranged alphabetically; the definition of a Supervisory Agent has been removed as redundant; a definition of "generic" data has been added; and the definitions of "Remote Service Unit" and "User" have been clarified. In response to questions about third party payment via telephone, the Bank Board reiterates that a telephone is not an RSU unless it is activated by a machine readable instrument. Therefore, most automatic telephone bill-paying systems do not fall within 12 CFR 545.4-2.

Seventeen respondents expressed confusion about the sharing limitations of the regulation. Subject to Bank Board approval, sharing is permitted with any financial institution. If anticompetitive implications so warrant, the Bank Board also may require sharing with any financial institution. Several respondents proposed amending the regulation to allow sharing with non-financial institutions, but the Bank Board has determined that such a step is premature. The Bank Board also wishes to clarify that, subject to its approval, a Federal association may share an automated teller machine located on its own premises or on the premises of another financial institution.

The Bank Board is still studying the interstate establishment and use of RSU's beyond what is currently permitted, but will presently continue the limitation in subparagraph (b).

Five respondents sought amplification of subparagraph (c) *RSU financial services*. This section lists traditional services which associations may offer through RSU's. Before seeking Bank Board approval, however, an association must obtain authorization from its board of directors to offer such services. Therefore, none are automatically "pre-authorized". The Bank Board believes that subparagraph (c)(4), encompasses all other related financial services an association may wish to offer.

The American Bankers Association opposed subparagraph (c)(4) on the ground that it "gives" the Bank Board authority to approve "unauthorized" services without giving the public an opportunity to comment. The Bank Board believes that to accommodate

unforeseen circumstances and advances in electronic funds transfer technology it is important to retain in this provision authority to approve upon application financial services related to those specifically permitted.

VISA requested clarification of possible dual use of a credit card as a debit card to access an RSU account. The Bank Board is continuing to study the use of credit cards by Federal associations and will clarify their use in connection with RSUs at a later date.

Subparagraph (d) *Account agreements* is expanded to specify that agreements must be in writing and include information about rights and obligations in case of loss, theft, or error and as to the privacy of account information. To reinforce this requirement, parts (1) and (2) under subparagraph (f) have been transferred to this section and expanded to require written confirmation of notice of loss or theft.

Four respondents were concerned that the language of subparagraph (e) *Service charges* would preclude RSU systems which are already operational from imposing service charges if they do not currently do so. Five respondents questioned the notice requirement for changes in service charges. The section has been revised so that (1) service charges can be initiated on existing accounts; (2) notice must be given 30 days before charges are initiated or increased, not if they are decreased; and (3) notice and prior disclosure must be in writing.

The Bank Board carefully considered complaints of associations already operating experimental systems in regard to the precise words required to be imprinted on activators in (f) *RSU activator*. This section is revised so that the words "Not Transferable" or their equivalents must appear on each RSU activator.

Twenty-four respondents questioned the Bank Board's requirement of statements in 30 or 90-day cycles, depending on the activity of RSU accounts as described in subparagraph (g). The Bank Board believes that account statements are essential for consumer protection even if transactions are posted in passbooks. However, the Bank Board has decided to modify the section to require statements on a monthly or quarterly basis, as defined in the regulation.

Twenty-five respondents sought clarification of the provisions dealing with error resolution and RSU account losses. They urged modification of these sections, based on comparison to the recommendations of the National Committee on Electronic Fund Transfers. No clear model exists for debit card liability, but the Bank Board believes that the duty of notice by the consumer to the association, the time limits for notice and resolution of alleged error, and strict liability

ty on an association in the absence of consumer negligence comprise the fairest allocation of loss in an electronic system. The association is liable for errors caused by any aspect of the system over which the account holder has no control and may be liable for all loss to the account holder resulting from such errors. An association will not be liable for losses resulting from improper order by an authorized user (e.g., an order to pay \$50 when the account contains only \$10.).

Several comments suggested that associations recredit the account holders' account pending resolution of an error, especially one involving a third party. The Bank Board is still studying this suggestion and may amend the regulation to require such recrediting at a later time. The subparagraphs dealing with error resolution and RSU account losses have been modified so that account holders must give written notice of alleged errors and associations have ten business days after receiving notification to resolve the matter by correction or by delivering or mailing to the account holder written confirmation of the transactions with copies of any documents relied on by the association.

Eleven respondents requested change and/or clarification of (j) *Privacy of account data*. A representative of an organization of credit bureaus suggested that the regulation would prohibit release of credit history information, and many respondents requested a clear definition of "generic" data. Release of credit information with written consent of the account holder is clearly authorized in the regulation and should cause no delays to those authorized to seek credit information. "Generic" data as defined in new subparagraph (a)(2) is statistical information which does not identify any individual account holder. To protect account holders, the Bank Board has added a provision to the regulation ensuring that third parties and sharing financial institutions will treat account data of the Federal association with the same degree of confidentiality as Federal associations. The Bank Board, in fulfillment of its supervisory responsibility, must necessarily have access to account information; however, it will strictly adhere to prohibitions against unwarranted invasion of privacy contained in the Privacy Act, 5 U.S.C. 552(a).

In response to 20 comments concerning RSU access techniques and RSU receipts, the Bank Board has modified these sections to require (1) use of a PSI to access an RSU and (2) a receipt containing minimum information, signed by the account holder and RSU operator if it is manually written in any part.

Subparagraphs (d), (e), (f), (g), (j), (k), and (l) are redesignated in the final regulation as (f), (g), (d), (j), (l), (e), and (k), respectively, in a more logical sequence.

In response to questions about availability of insurance (subparagraph (m) *Bonding*) and proper security measures, the Bank Board emphasizes that an association must take all reasonable measures to secure adequate bonding and security. For example, an association may condition placement of terminals at merchant establishments on compliance with strict security arrangements. In addition, the regulation now specifically requires appropriate security to protect against the unauthorized use, alteration, and disclosure of electronic data.

Subsection (c) has been expanded to prohibit a Federal association from requiring any person to become an RSU user as a condition of obtaining a loan or any other service offered by the association.

Subsection (p) *Applications* has been revised to allow 1 year, instead of 6 months, for approved systems to become operational. However, procedures for filing remain unchanged. The Bank Board believes that supervisory clearance prior to filing of an application actually saves time for both the Bank Board and the applicant. Other questions about the application, including those concerning the definition of "RSU activity" and the procedures for systems alteration, are answered within the revised application form itself.

A limitation has been added to subsection (q) that a Federal association may share an RSU controlled by an institution not subject to examination by a Federal regulatory agency only if such institution has agreed in writing that the RSU is subject to such examination by the Board as it deems necessary.

A new subparagraph (s) of the regulation allows existing operational projects a period of 6 months following the effective date of this regulation to conform to subparagraphs (d) through (l).

Accordingly, the Bank Board amends 12 CFR 545.4-2 to read as follows, effective July 1, 1978:

§ 545.4-2 Remote Service Units (RSUs).

(a) *Definitions*. As used in this section—

(1) "Activator" means a machine-readable instrument used to activate an RSU; a passbook may not be so used.

(2) "Generic data" means statistical information which does not identify any individual account holder.

(3) "Personal security identifier" (PSI) means any word, number, or other security identifier essential for user access of an account through an RSU.

(4) "Remote service unit" (RSU) means an information processing

device, including associated equipment, structures, and systems, by which information relating to financial services rendered to the public is stored and transmitted, instantaneously or otherwise, to a financial institution. Any such device not on the premises of any facility of a Federal association which, for activation and account access, requires use of an activator and PSI in the possession and control of the user, is an RSU.

The term includes, without limitation, both "on-line" computer terminals and "off-line" cash dispensing machines. It excludes automated teller machines on the premises of a Federal association, unless shared with other financial institutions. An RSU is not a branch, satellite, or other type of office, facility, or agency of a Federal association under §§ 545.14, 545.14-1, 545.14-2, 545.14-3, 545.14-4, 545.14-5, or 545.15.

(5) "RSU account" means a savings account (including a savings deposit) or loan account which may be accessed through an RSU.

(6) "User" means an RSU account holder of a Federal association authorized to access an RSU.

(b) *General*. A Federal association may establish or use RSUs in the State of its home office or in the primary service area, as determined by the Board, of any of its out-of-State branches, and may participate in RSU operations with other financial institutions as the Board may approve.

(c) *RSU financial services*. A Federal association's board of directors may, by resolution, authorize it to offer any of these financial services to the public through RSUs:

(1) Crediting existing savings accounts;

(2) Debiting such accounts up to the available balance therein, provided that no negotiable or transferable order or authorization is used unless permitted by Federal law;

(3) Crediting payments on loans in which the association has an investment or which it is servicing; and

(4) Related financial services as the Board may approve upon application.

(d) *RSU activator*. Each RSU activator shall bear the words "Not Transferable" or their equivalent.

(e) *RSU access techniques*. A Federal association shall provide a PSI to each user and require its use when accessing an RSU; it may not employ RSU access techniques which require the user to disclose a PSI to another person.

(f) *Account agreements*. A Federal association shall clearly disclose in writing to each user before an RSU account is opened, all terms and conditions of the RSU agreement, including rights and obligations in case of loss, theft, or error and the privacy of account information. The association shall also inform each user that:

(1) Loss or theft of the activator should be promptly reported to a person or phone number specified by the association; and

(2) The PSI is for security purposes and should not be disclosed to third parties.

(g) *Service charges*. A Federal association may impose charges for RSU financial services.

(1) *New accounts*. A schedule of charges shall be disclosed in writing to a prospective user before an RSU account is opened.

(2) *Existing accounts*. Users shall be notified in writing 30 days before service charges are initiated or increased by the association.

(h) *Error resolution*. A Federal association shall establish error resolution procedures for RSU accounts, and inform users that:

(1) Written notification of error should be made within 60 days of receipt of the statement;

(2) Resolution of alleged error by correction or written confirmation of the transaction (including copies of any documents relied on by the association) shall be made by the association within 10 business days after receiving such notification.

(i) *Liability for loss*. A Federal association shall be liable to a user for RSU account losses resulting from the association's:

(1) Failure to carry out the user's transaction order correctly including such failure resulting from prior uncorrected error of the association;

(2) Failure to correct an account error within 10 business days after receiving written notification from the user; or

(3) Processing a transaction order from an unauthorized person, unless the association proves that such action resulted from the user's negligence.

(j) *Account statements*. A Federal association shall issue each user a statement of RSU account transactions monthly if the account has been used in that time, quarterly if not; such statement shall include at least the date, type, amount, and location of each RSU transaction;

(k) *RSU receipts*. Each RSU must provide to users at the time of an RSU transaction a receipt containing at least the following: Date, type, amount, and location of transaction, and information sufficient to identify the user. A receipt which is manually written must be signed by the user and the RSU operator.

(l) *Privacy of account data*. A Federal association shall allow users to obtain any information concerning their RSU accounts. Except for generic data or data necessary to identify a transaction, no Federal association may disclose account data to third parties, other than the Board or its representatives, unless express written con-

sent of the user is given, or applicable law requires. Information disclosed to the Bank Board will be kept in a manner to ensure compliance with the Privacy Act, 5 U.S.C. 552(a). A Federal association may operate an RSU according to an agreement with a third party or share computer systems, communications facilities, or services of another financial institution only if such third party or institution agrees to abide by this section as to information concerning RSU accounts in the Federal association.

(m) *Bonding*. A Federal association shall take all steps necessary to protect its interest in financial services processed at each RSU, including obtaining available fidelity, forgery, and other appropriate insurance.

(n) *Security*. A Federal association shall protect electronic data against fraudulent alterations or disclosure. All RSUs shall meet the minimum security devices requirements of Part 563a of the Insurance Regulations as though such units were offices, as defined in § 563a.1 of said part, except to the extent that an applicant satisfies the Board that those requirements are inappropriate. Alternate measures satisfactory to the Board must be taken for installation, maintenance, and operation of security devices and procedures, reasonable in cost, to discourage robberies, burglaries, larcenies, and computer theft and to assist in identification and apprehension of persons who commit such acts.

(o) *Competitive implications*. The Board will consider competitive implications of applications made under this section and may, in an appropriate case, (1) request the views of the Antitrust Division of the Department of Justice, (2) request an applicant to obtain a business review letter from such Division under 28 CFR 50.6, and/or (3) require a Federal association to share RSU activities with another financial institution under reasonable terms and conditions. A Federal association may not enter into any agreement for exclusive right to engage in RSU activities at any location(s). A Federal association may not require any person to become an RSU user as a condition of obtaining a loan or any other service offered by the association.

(p) *Applications*.—(1) *General*. A Federal association shall obtain the Board's written approval before entering into any RSU activity or materially altering a previously approved one. Before applying for such approval, a Federal association shall obtain from the Supervisory Agent written advice that there is no present supervisory objection to such application.

(2) *Start-up date*. A Federal association shall have its approved RSU activity operational no later than 12 months after Board approval, unless the Board grants an extension.

(3) *Filing*. Two copies of any RSU activity application shall be filed with the Supervisory Agent. The original and two copies shall be sent to the Director, Office of Industry Development, Federal Home Loan Bank Board, Washington, D.C. 20552. Additional material may be requested by the Director or the Supervisory Agent. Applicants may file information to supplement or amend applications.

(q) *Board supervision*. Each Federal association which engages in any RSU activity shall be subject to rules and regulations which the Board may hereafter prescribe or any resolution which the Board may adopt, including requirements to terminate or modify such activity, whether engaged in separately or with others. A Federal association may share an RSU controlled by an institution not subject to examination by a Federal regulatory agency only if such institution has agreed in writing that the RSU is subject to such examination by the Board as it deems necessary.

(r) *Reporting*. A Federal association which engages in RSU activities shall submit to the Board, at the association's expense, such reports as the Board may require regarding such activities.

(s) *Exception for previously approved RSU projects*. Paragraphs (d) through (l) and (q) of this section shall apply beginning January 1, 1979, to Federal associations engaging in RSU activities approved prior to July 1, 1978.

(Sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 2, Pub. L. 93-100, 87 Stat. 342; Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR 1943-48 Comp. 1071.)

By the Federal Home Loan Bank Board.

J. J. FINN,
Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-NE-1; Amdt. 39-3224]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney Aircraft Model JT3D Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD)

which requires a one-time blue etch anodize inspection of all first stage fan blades on Pratt & Whitney JT3D turbofan engines. The AD is required to detect forging laps which could result in noncontained blade fractures.

DATES: Effective August 10, 1978. Compliance required not later than March 1, 1980.

ADDRESSES: The applicable service bulletin and special instruction may be obtained from: Pratt & Whitney Aircraft, Division of United Technologies Corp., 400 Main Street, East Hartford, Conn. 06108. A copy of the service bulletin and special instruction is contained in the Rules Docket, Federal Aviation Administration, Office of the Regional Counsel, New England Region, 12 New England Executive Park, Burlington, Mass. 01803.

FOR FURTHER INFORMATION CONTACT:

Daniel P. Salvano, Aerospace Engineer, Propulsion Section, Engineering and Manufacturing Branch, FAA, New England Region, 12 New England Executive Park, Burlington, Mass. 01803; telephone 617-273-7347.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring a one-time blue etch anodize inspection of first stage fan blades on all JT3D model engines was published in the **FEDERAL REGISTER** at 43 FR 1801. The inspection would detect the presence of forging laps in the fan blades.

The FAA requested that comments on the proposed AD be submitted on or before February 16, 1978. Representatives from FAA attended an Air Transport Association (ATA) meeting on January 28, 1978, at which industry discussed the impact of the NPRM and stated they would petition for an extension of the comment period. On January 31, 1978, the ATA petitioned the agency to extend the comment period to March 27, 1978, so that airlines operating JT3D engines could collect data and respond to the proposal. The agency granted the petition, and the comment period was extended to March 27, 1978.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Comments were received from ATA on behalf of the airlines operating JT3D engines and the manufacturer, P&WA. The industry position was that AD action is not required in view of the low probability of fan blade failure and the likelihood that such a failure, if it did occur, would not endanger the aircraft or its passengers. It was also suggested that the proposed October 1, 1979, compliance date would present severe service and economic problems for the airlines.

The FAA has given careful consideration to these comments but does not agree that AD action is unwarranted. A review of the history of the failures reveals that of the 18 reported cases of fan blade failure due to forging laps, 9 (56 percent) have been uncontained. The FAA considers these uncontained failures to be an unsafe condition which must be prevented.

The FAA does agree that the compliance date could be extended. The proposed October 1, 1979, compliance date originally proposed was selected after a review of safety considerations and preliminary data on availability of replacement fan blades, shop capability of industry to perform the inspection, and the economic impact on the community, both the industry and the public. More complete data, now available, indicates this date to be unduly restrictive, and the compliance date is being extended to March 1, 1980.

DRAFTING INFORMATION

The principal authors of this document are Daniel P. Salvano, Propulsion Section, Engineering and Manufacturing Branch, and George L. Thompson, Office of the Regional Counsel, New England Region.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT3D turbofan engine models.

Compliance required not later than March 1, 1980, unless already accomplished.

To preclude failures of first stage fan blades due to forging laps, which could result in aircraft damage, perform a one-time blue etch anodize inspection of the blades in accordance with the procedures given in Pratt & Whitney Alert Service Bulletin 4733, dated May 5, 1977, or later FAA approved revision, and Special Instruction 2F77, dated January 28, 1977, or later FAA approved revision.

Fan blades that exhibit blue etch linear indications in the inspection areas shown in Figure 1 of ASB 4733 must be reworked or scrapped in accordance with the forging lap repair limits established in Figure 2 of ASB 4733, dated May 5, 1977, or later FAA approved revision.

NOTE.—The AD does not change the present fan blade blend limits given in the JT3D engine manual.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part thereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Pratt & Whitney Aircraft, Division of United Technologies Corp., 400 Main Street, East Hartford, Conn. 06108. These documents may also be

examined at Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Mass. 01803, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C.

A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its Headquarters in Washington, D.C., and at the New England Region.

(Secs. 313(a), 801, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); secs. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85.)

Issued in Burlington, Mass., on May 18, 1978.

NOTE.—The incorporation by reference provisions of this document was approved by the Director of the Federal Register on June 19, 1967.

ROBERT E. WHITTINGTON,
Director, New England Region.

[Docket No. 78-CE-7-AD; Amdt. 39-3220]

PART 39—AIRWORTHINESS DIRECTIVES

Beech 50, 65, and 70 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This Amendment adopts a new Airworthiness Directive (AD), applicable to all Beech 50, 65, and 70 series airplanes, which is a three-step action to reduce the probability of fatal accidents resulting from engine nacelle fires in these airplanes. These actions will increase the probability that fuel leaks in the engine nacelle will be detected, will improve the ability of the powerplant installation to contain a fire and will incorporate a reliable fire detector system to give the pilot early notification of a powerplant fire.

DATES: Effective June 1, 1978. Compliance schedule as prescribed in the body of the AD.

ADDRESSES: Any Beechcraft Service Instructions noted in this AD may be obtained from local Beechcraft Aviation Centers (Dealers) or Beech Aircraft Corp., Commercial Service Department, 9709 East Central, P.O. Box 85, Wichita, Kans. 67201. Copies of the above service instructions are contained in Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C., and at the Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Mo. 64106.

FOR FURTHER INFORMATION CONTACT:

Donald L. Page, Aerospace Engineer, Engineering and Manufacturing

Branch, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106; telephone 816-374-3446.

SUPPLEMENTARY INFORMATION: The FAA has issued several previous ADs applicable to Beech Model 50, 65 and 70 series airplanes which were intended to reduce the possibility of fatal accidents resulting from inflight powerplant fires. Through June, 1976, the following ADs were issued:

(1) AD 72-18-7 (37 FR 18030) required installation of a flight manual supplement and an instructional placard on the instrument panel of the affected airplanes to advise the pilots of an emergency shutdown procedure to minimize fire hazards related to engine failure or nacelle or engine compartment fires;

(2) AD 72-18-8, as amended (37 FR 18030, 18031, 43 FR 9593, 9594), required replacement of certain hoses in the engine compartment and repetitive inspections of the engine compartment and nacelles for conditions likely to cause a powerplant fire and correction of these conditions where found;

(3) AD 73-23-4, as amended (38 FR 30867, 39 FR 2469, 39 FR 13072, 13073), required installation of fire-resistant shielding in the nacelle behind the firewall to reduce the probability of inflight engine compartment fires penetrating critical areas of the aircraft wing and nacelle;

(4) AD 76-13-03 (41 FR 25997) required inspection of certain serial numbers of one model to determine that the fire-resistant shielding required by AD 73-23-4 was in fact properly installed on these airplanes.

Within a 4-month period, May through August 1977, three fatal accidents related to or caused by inflight engine nacelle fires occurred involving a Beech Model 50 (Military U8D), Beech Model 65-80 and Model 65-88. Facts concerning these accidents available to the FAA indicated that standard maintenance and pilot unawareness of the fire or incorrect operational decisions after its discovery contributed to the initiation of the fire and precluded its successful control. As a result, the FAA issued AD 77-25-01 (42 FR 61993-61995) on November 5, 1977, which required detailed inspection of the airplane to verify compliance with previous ADs, detection of conditions which might cause an engine nacelle fire, correction of these conditions if found and reporting thereof to the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

At the time AD 77-25-01 was issued, the FAA recognized that additional action might be indicated by the information contained in the field reports or subsequent engine nacelle fire incidents. After the issuance of this AD, a fatal accident, an inflight fire and a

ground fire have occurred on three different 65-80 model airplanes on which compliance with this AD was recorded. On the basis of these occurrences and reported unsafe conditions found when complying with AD 77-25-01, the FAA concludes that during operation of these airplanes flammable fluid leakage will occur in the engine nacelle, this leakage will be ignited and, if the pilot does not take timely corrective action, a fatal accident will result. In view of this, the FAA has decided to take regulatory action, supplementing AD 77-25-01, which will require additional fire protection for these airplanes. These measures will reduce the probability of an engine nacelle fire and increase the probability that the pilot will detect any engine nacelle fire that does occur before the fire causes catastrophic damage. Actions considered were the installation of improved fire-resistant lines meeting current standards in the engine compartments and wheel wells, installation of a continuous type fire detector system in the engine compartments and the wheel wells, installation of shielding to preclude fire impingement on the wing main spar, safetying of all flammable fluid line fittings in the engine compartments and wheel wells, further development of the engine to improve engine reliability, redesign of the powerplant installation to remove the augmenters, and tightening of powerplant and wheel well inspection requirements. Of these possibilities, the FAA selected installation of improved fire-resistant lines meeting current standards in the engine compartments, installation of a continuous type fire detector system in the engine compartments and wheel wells, and modification of the daily preflight instructions to improve the detection of flammable fluid leaks. The FAA believes these actions will provide the desired level of safety at the least cost and inconvenience to the owner and compromise to the aircraft's utility.

With respect to presently installed "spot" type fire detector systems, the FAA has determined that in at least one fire incident flame impinged directly on one detector and the system failed to indicate the fire. In another instance, accident findings established that fire had been in the proximity of a "spot" detector element. However, the available evidence indicates that the pilot was unaware of the fire. The continuous type fire detector system has fail-safe design and is widely used in airplanes operated by scheduled airlines where it has demonstrated a high degree of reliability. The FAA believes that the high level of reliability required in this installation justifies the increased costs of the continuous type fire detector system.

Since the conditions described herein are likely to exist in other airplanes of the same type design, the FAA is issuing a new AD applicable to these airplanes making the above three selected actions mandatory. The FAA has determined that there is an immediate need for a regulation to assure safe operation of the affected airplanes. Therefore, notice and public procedure under 5 U.S.C. 553(b) is impracticable and contrary to the public interest, and good cause exists for making the amendment effective in less than thirty (30) days after the date of publication in the **FEDERAL REGISTER**.

DRAFTING INFORMATION

The principal authors of this document are: Donald L. Page, Flight Standards Division, Central Region, and John L. Fitzgerald, Jr., Office of the Regional Counsel, Central Region.

ADOPTION OF THE AMENDMENT

Accordingly and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new AD:

BEECH: Applies to the following models and serial number airplanes certified in all categories except those modified in accordance with STCs SA76SW, SA444SW, or SA587SW:

APPLICABILITY STATEMENT

Model	Serial Nos.
50	H-1 through H-11.
B50	CH-12 through CH-110.
C50	CH-111 through CH-360.
D50	DH-1 through DH-154.
D50A	DH-155 through DH-198.
D50B	DH-199 through DH-236.
D50C	DH-237 through DH-300.
D50E	DH-301 through DH-347.
E50	EH-1 through EH-70.
F50	FH-71 through FH-96 except FH-94.
G50	GH-94, GH-97 through GH-119.
H50	HH-120 through HH-149.
J50	JH-150 through JH-176.
65	L-1, L-2, L-6, LF-7 and after, and LC-1 through LC-239.
A65 and A65-8200.	LC-240 through LC-335.
65-80	LD-1 through LD-150 except LD-34 and LD-46.
65-A80 and 65-A80-8800.	LD-34, LD-46, LD-151 through LD-269.
65-B80	LD-270 through LD-512.
65-88	LP-1 through LP-47 except LP-27 and LP-29.
70	LB-1 through LB-35.

Compliance: Required as indicated unless already accomplished. To reduce the possibility of powerplant fire occurrence and improve powerplant fire containment and detection capabilities, accomplish the following:

(A) Within the next 25 hours time-in-service after the effective date of this AD, install in the existing Airplane Flight Manual, the temporary airplane Flight Manual Supplement included in this AD as Figure 1, or,

If available, the applicable Beech Aircraft Company Airplane Flight Manual or Pilot/Owner Handbook revision containing the same information.

(B) Within the next 100 hours time-in-service after the effective date of this AD:

(1) Replace existing fuel, oil, hydraulic, and oil vapor carrying hoses except drain lines in the engine compartment with equivalent length and diameter hoses meeting FAA Technical Standard Order C53A, Type C or D. Hose assemblies fabricated of Stratoflex Type 130 or Type 111 hose covered by fire-resistant sleeve, Stratoflex Type 2650 or 2607 or Aeroquip hose Type 303 covered with fire-resistant sleeve Type AE102 or 624 or an FAA-approved equivalent are acceptable except as noted below. (Steel fittings are required on three-eighths and smaller size hoses. Pressure and pull test the hoses in accordance with industry practice.)

Replace the main oil supply hose running from the firewall to the engine with a Stratoflex Part No. 156F001-16D0200 hose assembly or Aeroquip 620100-16-0200 hose assembly or an FAA-approved equivalent.

On the Model 88 series airplanes, fabricate the hose from the engine hydraulic pump "oil out" to the firewall using high pressure type hose. Stratoflex Type 112 or Aeroquip Type 309 or FAA-approved equivalent is acceptable. Subject these hoses to a proof pressure test of 7000 PSI and install applicable hose manufacturer's fire sleeves of types noted above.

Stratoflex Type 130 or 111 hose or Aeroquip Type 303 hose with appropriate manufacturer's fire sleeve as noted above or an FAA-approved equivalent are acceptable for all other pressurization system hoses. Engine induction system hoses are not included in the requirements of this AD.

Use old hoses as a pattern when fabricating new hoses. Caution should be exercised to assure end fittings on new hoses are equivalent to old hose and fittings. Install hoses observing manufacturer's torque limits. The Queen Air Series Shop Manual contains acceptable limits. Apply paint or torque putty to fittings after tightening.

(2) On airplanes having supercharged engines, after changing all engine and installation fuel systems hoses but prior to connecting the hose between modulator and fuel injector nozzle located at the top of the induction housing, cap this hose at the nozzle end, select main tanks, turn main boost pumps ON, place mixture controls in rich position, and check all fuel carrying lines and fittings for leakage. Correct any leaks detected and recheck prior to installing hose on nozzle fittings.

(3) On airplanes having non-supercharged engines, after changing all installation fuel system hoses with mixture control in "cut off", select main tanks, turn main boost pumps ON, and check all fuel carrying lines and fittings for leakage. Correct any leaks detected and recheck.

(4) After determining that no fuel is trapped in the induction system, conduct the runup specified in Figure 1 and inspect all hoses and fittings for signs of fuel or oil leakage.

(C) On or before January 31, 1979 install continuous type fire detector systems in the engine compartment and wheel wells in accordance with Beech Service Kit 80-9010.

NOTE.—The compliance date for this paragraph was established on the basis of the most accelerated schedule the vendors of the detector components can meet and the estimated number of active airplanes of the

affected models. The FAA recommends that every owner place an order for the necessary modification kit as early as possible.

(D) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

TEMPORARY AIRPLANE FLIGHT MANUAL SUPPLEMENT FOR BEECH MODEL 50 SERIES, 65 SERIES, A65 SERIES AND 70 AIRPLANES WITH RECIPROCATING ENGINES

(AD 78-11-01 requires this supplement to remain in the below designated airplane flight manual until replaced by an equivalent Beech Aircraft Co. Flight Manual or Owner Handbook revision.)

Model _____
N _____
S/N _____

In addition to the presently specified pre-flight procedures, prior to the first flight of each day accomplish the following:

1. Start both engines and operate at 1500 RPM. After the oil pressures stabilize, cycle the propellers to allow oil to flow to propeller hubs and shut down the engines using the mixture control.

2. Open the cowl doors on both sides of the engines and check all engine compartment fluid hoses and fittings for indications of fluid (fuel or oil) leakage. Check the wheel wells for these same conditions using a flashlight or supplemental light as necessary to provide adequate illumination of the area.

3. Correct any leak detected and secure cowl doors.

This amendment becomes effective on June 1, 1978.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); § 11.89 of the Federal Aviation Regulations (14 CFR 11.89).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on May 15, 1978.

C. R. MELUGIN, Jr.,
Director, Central Region.

[FR Doc. 78-14891 Filed 5-26-78; 8:45 am]

[4910-13]

[Docket No. 78-CE-8-AD; Amdt. 39-3225]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Models 210M, T210M, P210, 310R, T310R, 340A, 402B, 404, 414, 414A and 421C Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) ap-

plicable to Cessna Models 210M, T210M, P210, 310R, T310R, 340A, 402B, 404, 414, 414A and 421C airplanes. It requires, prior to further flight, that the Aircraft Radio and Control (ARC) Model 400B autopilot on these airplanes be made imperative and placarded to that effect, unless the autopilot was modified in accordance with Cessna Service Letter No. AV78-6, dated March 31, 1978. Immediate adoption and effectiveness of this AD is necessary because a failure of the servo actuator, ARC Model PA-495A-2, which is part of the ARC Model 400B autopilot, may prevent that servo from disengaging when the autopilot is disconnected. If this failure occurs, the "A/P OFF" annunciator will illuminate when the autopilot is disconnected and the pilot will not be aware of the servo's continued engagement until he attempts to change the airplane's flight attitude. At that time, the forces of the engaged servo will add to the flight load forces and can adversely affect safety of flight.

EFFECTIVE DATE: June 5, 1978, to all persons except those to whom it has already been made effective by air mail letter from the FAA dated May 11, 1978.

COMPLIANCE: As required in the body of the AD, unless already accomplished.

ADDRESSES: Cessna Service Letter AV78-6, dated March 31, 1978, applicable to this AD, may be obtained from Cessna Aircraft Co., Marketing Division, Attention: Customer Service Department, Wichita, Kans. 67201; Telephone 316-685-9111. A copy of the service letter cited above is contained in the Rules Docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Mo. 64106 and at Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

E. L. Tankesley, Aerospace Engineer, Engineering and Manufacturing Branch, Federal Aviation Administration, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3146.

SUPPLEMENTARY INFORMATION: The FAA has determined that the problem described in the Summary is an unsafe condition which is likely to exist or develop in other airplanes of the same type design. Since the agency also determined that an emergency situation existed and that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to the public interest. Accordingly, all known registered owners/operators of the affected airplanes were notified of the AD by air mail letter from the FAA dated May 11, 1978. The AD became

effective as to those individuals upon receipt of the notification letter. Since the unsafe condition described in the Summary may still exist on other Cessna Models 210M, T210M, P210, 310R, T310R, 340A, 402B, 404, 414, 414A and 421 airplanes, the AD is being published in the FEDERAL REGISTER as an amendment to Part 39 of the Federal Aviation Regulations (14 CFR Part 39) to make it effective as to all persons who did not receive the letter of notification.

DRAFTING INFORMATION

The principal authors of this document are: E. L. Tankesley, Flight Standards Division, Central Region, and John L. Fitzgerald, Jr. Office of the Regional Counsel, Central Region.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive.

CESNA: Applies to Model 210M, T210M, and P210 (Serial Numbers 21061574 through 21062583, and P2100001 through P2100010); Model 310R and T310R (Serial Numbers 310R0501 through 310R1302, 310R1304 through 310R315, 310R1317, and 310R1318); Model 340A (Serial Numbers 340A0001 through 340A0458, 340A0460 through 340A0466, 340A0468, and 340A0470 through 340A0483); Model 402B (Serial Numbers 402B1001 through 402B1331 and 402B1333 through 402B1338); Model 404 (Serial Numbers 404-0001 through 404-0218, and 404-0220 through 404-0222); Model 414 and 414A (Serial Numbers 414-0801 through 414-0965, 414A0001 through 414A0032, 414A0034 through 414A0038, and 414A0040 through 414A0047); and Model 421C (Serial Numbers 421C0001 through 421C0479 and 421C0481 through 421C0488) airplanes incorporating ARC Model 400B autopilot installations.

To preclude increased flight control forces caused by an autopilot actuator that has failed to disengage when the autopilot is disconnected, unless already accomplished:

(A) On airplanes not modified in accordance with Cessna Service Letter No. AV78-6, dated March 31, 1978, or later revision, before next flight, disable the Model 400B autopilot:

1. On affected 300 and 400 series airplanes by pulling and banding autopilot computer (COMP.) and actuator (ACT.) circuit breakers;

2. On affected 210 series airplanes by disconnecting the connector at the roll and pitch actuators and securing these connectors to prevent them from interfering with the flight controls;

and install a locally fabricated placard in plain view of the pilot indicating "Autopilot Inoperative."

NOTE.—The autopilot disabling and installation of a locally fabricated placard required by Paragraph A on affected 300 and 400 series airplanes constitutes preventative maintenance and may be performed by persons authorized to perform preventative maintenance under FAR 43.

(B) Upon accomplishment of the electrical autopilot actuator modification set forth in Cessna Service Letter No. AV78-6, dated March 31, 1978, or later revision, the autopilot may be returned to service and the "Autopilot Inoperative" placard removed.

(C) Airplanes may be flown to a base where Paragraph A of this AD may be accomplished if the autopilot is not used.

(D) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective June 5, 1978, to all persons except those to whom it has already been made effective by air mail letter from the FAA dated May 11, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); § 11.89, Federal Aviation Regulations (14 CFR 11.89).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on May 19, 1978.

CHARLES A. WHITFIELD,
Acting Director, Central Region.

[4910-13]

[Airspace Docket No. 78-WE-101]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Temporary Control Zone, San Luis Obispo, Calif.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule establishes a temporary control zone for the San Luis Obispo County Airport, San Luis Obispo, Calif. This action will provide controlled airspace for aircraft making instrument approaches to the San Luis Obispo County Airport during the annual California Air Guard summer encampment.

EFFECTIVE DATE: June 18, 1978.

ADDRESSES: Federal Aviation Administration, Air Traffic Division, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Divi-

sion, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, Calif. 90261, telephone 213-536-6182.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to designate a temporary control zone for the San Luis Obispo County Airport, San Luis Obispo, Calif., during the June 18, 1978 through June 30, 1978 time period.

A temporary control tower will be furnished by the California Air Guard with air traffic control services provided by the 234th Combat Communications Squadron air traffic controller personnel.

Under the circumstances presented, the FAA concludes that the rule is temporary in nature and does not significantly impose any additional burden on any person but adds to air safety. Therefore, I find notice and public procedure under 5 U.S.C. 553(b) is unnecessary.

DRAFTING INFORMATION

The principal authors of this document are Thomas W. Binczak, Air Traffic Division and DeWitte T. Lawson, Jr., Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t. June 18, 1978 through June 30, 1978, as follows:

1. Amend § 71.171 of Part 71, Federal Aviation Regulations to read:

SAN LUIS OBISPO, CALIF.

Within a 5-mile radius of the San Luis Obispo County Airport (latitude 35°14'11" North; longitude 120°38'26" West).

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif., on May 17, 1978.

LEON C. DAUGHERTY,
Deputy Director,
Western Region.

[4910-13]

[Airspace Docket No. 78-WE-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**PART 73—SPECIAL USE AIRSPACE****Designation of Temporary Restricted Area**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These amendments designate a temporary restricted area identified as R-2309 in the vicinity of Bill Williams River Valley, Ariz., to contain high explosive detonations. These amendments provide for the safe and efficient use of the navigable airspace by prohibiting unauthorized flight operations of nonparticipating aircraft within the designated areas during the designated period.

EFFECTIVE DATE: July 13, 1978. Period of designation is August 27, 1978, through September 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION:**HISTORY**

On April 20, 1978, the FAA proposed to amend Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to designate a temporary restricted area identified as R-2309 in the vicinity of Bill Williams River Valley, Ariz., to contain high explosive detonations and to include this restricted area in the continental control area for the duration of its time of designation (43 FR 16741). Interested persons were invited to participate in the rule making proceeding by submitting written comments on the proposal to the FAA. We received two responses to the NPRM in which the commenters posed no objections to the proposal. Sections 71.151 and 73.23 were republished in the *FEDERAL REGISTER* on January 3, 1978, (43 FR 344 and 664).

THE RULE

These amendments to Parts 71 and 73 of the Federal Aviation Regulations designate a temporary restricted area in the vicinity of Bill Williams River Valley, Ariz., to protect nonparticipat-

ing aircraft from a large scale airblast associated with a high explosive field test program called Misers Bluff which involves the detonation of high explosives. In addition, the airspace at and above 14,500 feet MSL during the designated period (continuously from 0001 August 27, 1978, through 2400 hours, local time September 2, 1978) is included in the continental control area. These amendments adopt the airspace actions proposed in the NPRM (43 FR 16741). In accordance with established FAA policies, the using agency has provided the FAA with a statement that the requirements of the National Environmental Policy Act have been met.

DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traffic Service, and Mr. Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart D of Part 71 and Subpart B of Part 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) as republished (43 FR 344 and 664) are amended, effective 0901 G.m.t., July 13, 1978, as follows:

In § 71.151, the following temporary restricted area is added for the duration of its time of designation from 001 hours, August 27, 1978, through 2400 hours, local time, September 2, 1978:

R-2309 MISERS BLUFF, ARIZ.

In § 73.23, the following temporary restricted area is added:

R-2309 MISERS BLUFF, ARIZ.

Boundaries. A circular area with a 10-nautical mile radius centered at lat. 34°15.5' N., long. 113°52.5' W.

Designated altitudes. Within a 3,000-foot radius centered at lat. 34°15.5' N., long. 113°52.5' W., surface to FL 320; within the circular area that lies between the 3,000-foot radius and the 10-nautical mile radius centered at lat. 34°15.5' N., long. 113°52.5' W., 100 feet above the surface to FL 320.

Time of designation. Continuous, 0001 August 27 through 2400 hours, local time, September 2, 1978.

Controlling agency. Federal Aviation Administration, Albuquerque ARTCC.

Using agency. Defense Nuclear Agency Field Command, Kirtland Air Force Base, N. Mex.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on May 23, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[6355-01]

Title 16—Commercial Practices**CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION****SUBCHAPTER C—FEDERAL HAZARDOUS SUBSTANCES ACT REGULATIONS****PART 1500—HAZARDOUS SUBSTANCES AND ARTICLES; ADMINISTRATION AND ENFORCEMENT REGULATIONS****Self-Pressurized Household Substances Containing Vinyl Chloride Monomer; Classification as Banned Hazardous Substance**

AGENCY: Consumer Product Safety Commission.

ACTION: Confirmation of final order.

SUMMARY: The Commission announces that no objections have been filed within the statutory period to its final order of March 24, 1978 classifying any household substance in a self-pressurized container containing vinyl chloride monomer, manufactured or imported on or after October 7, 1974, as a "banned hazardous substance." In this document the Commission, therefore, confirms the final order.

DATES: The effective date of the rule declaring any household substance in a self-pressurized container containing vinyl chloride monomer to be a banned hazardous substance is June 22, 1978. The rule is applicable to products which have been manufactured or imported on or after October 7, 1974.

FOR FURTHER INFORMATION CONTACT:

Charles Jacobson, Consumer Product Safety Commission, Directorate for Compliance and Enforcement, Division of Regulatory Management, Washington, D.C. 20207, 301-492-8400.

SUPPLEMENTARY INFORMATION: On March 24, 1978 the Commission published in the *FEDERAL REGISTER*, 43 FR 12308, a final regulation pursuant to section 2(q)(1)(B) of the Federal Hazardous Substances Act (FHSA), 15 U.S.C. 1261(q)(1)(B), declaring any

¹Editorial note: The final regulation revised 16 CFR 1500.17(a)(10).

self-pressurized products intended or suitable for household use, manufactured or imported on or after October 7, 1974, that contain vinyl chloride monomer (VCM) as an ingredient or in the propellant to be "banned hazardous substances." The final regulation was a reissuance of an earlier fully retroactive ban (39 FR 30112) that had been set aside for failure to hold a hearing on objections to the retroactive effect of the regulation. (For a complete background discussion on the original ban, see the preamble to the March 24, 1978 notice.)

In the March 24, 1978 document the Commission affirmed its determination made in the original ban that self-pressurized household products containing vinyl chloride monomer are toxic hazardous substances within the meaning of the FHSA because of vinyl chloride monomer, which, when inhaled, has the capacity to produce substantial illness, specifically cancer. Because no safe level of human exposure to vinyl chloride monomer has been established, the Commission further affirmed its earlier finding that adequate cautionary labeling could not be written under the FHSA for self-pressurized household products containing VCM and concluded that the degree and nature of the hazard presented by the use of these products is such that the public health and safety can be adequately served only by keeping the products out of interstate commerce. In taking the banning action, the Commission noted that ample scientific evidence in the form of long-term animal bioassays and human epidemiological studies is available to demonstrate the carcinogenicity of vinyl chloride monomer by inhalation and to demonstrate that human exposure to the substance can result in angiosarcoma of the liver, a rare form of liver cancer.

The March 24, 1978 banning regulation also provided, as is required for the issuance of regulations pursuant to section 2(q)(1)(B) of the FHSA, that the procedures for rulemaking under section 701(e) of the Federal Food, Drug and Cosmetic Act would govern and that adversely affected persons could file objections and requests for a public hearing within 30 days of the publication of the Commission's final order.

The last day for the filing of objections with the Commission was April 24, 1978. Since no objections have been filed within the statutory period, the Commission in this document confirms its final order of March 24, 1978, declaring as banned hazardous substances any self-pressurized household products containing vinyl chloride monomer as an ingredient or in the propellant, manufactured or imported on or after October 7, 1974.

Title 19—Customs Duties**CHAPTER 1—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY**

[T.D. 78-150]

PART 153—ANTIDUMPING**Carbon Steel Plate From Japan**

AGENCY: U.S. Treasury Department.

ACTION: Finding of dumping; final rule.

SUMMARY: This notice is to inform the public that separate investigations conducted under the Antidumping Act, 1921, as amended, by the U.S. Treasury Department and the International Trade Commission, respectively, have resulted in determinations that carbon steel plate from Japan is being sold at less than fair value and that those sales are injuring an industry in the United States. On this basis, a finding of dumping is being issued and, generally, all unappraised entries of this merchandise will be liable for the possible assessment of special dumping duties.

EFFECTIVE DATE: May 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Stephen Nyschot, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229 202-566-5492.

SUPPLEMENTARY INFORMATION: Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determining whether imported merchandise is being sold at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that carbon steel plate from Japan is being sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the *FEDERAL REGISTER* of January 13, 1978 (43 FR 2032).) An "Amended Determination of Sales at Less Than Fair Value" was published in the *FEDERAL REGISTER* of March 27, 1978 (43 FR 12780).

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States International Trade Commission responsibility for determining whether by reason of such sales at less than fair value a domestic industry is being or is likely to be injured. The United States International Trade Commission has determined, and on April 18, 1978, it notified the Secretary of the Treasury that a domestic industry is being injured by reason of less than fair value imports of carbon steel plate from Japan. (Published in the *FEDERAL REGISTER* of April 24, 1978 (43 FR 17410)).

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to carbon steel plate from Japan.

For purposes of this notice, the term "carbon steel plate" means hot-rolled carbon steel plate, 0.1875 (3/16) inches or more in thickness, over 8 inches in width, not in coils, not pickled, not coated or plated with metal, not clad, and not cut, pressed, or stamped to non-rectangular shape.

Section 153.46 of the Customs Regulations (19 CFR 153.46) is amended by adding the following to the list of findings of dumping currently in effect:

§ 153.46 List of current findings.

• • • • •
Merchandise, country and T.D.

Carbon steel plate, Japan, 78-150.

(Secs. 201, 407, 42 Stat. 11, as amended, 18 (19 U.S.C. 160, 173).)

ROBERT H. MUNDHEIM,
General Counsel

MAY 23, 1978.

Title 21—Food and Drugs**CHAPTER 1—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE****SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION**

[Docket No. 77N-0177]

SODIUM THIOSULFATE; AFFIRMATION OF GRAS STATUS AS A DIRECT AND AN INDIRECT HUMAN FOOD INGREDIENT

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This rule affirms that sodium thiosulfate is generally recog-

nized as safe (GRAS) as a direct and indirect human food ingredient. This action is taken because the safety of this ingredient has been evaluated under the comprehensive safety review being conducted by the agency.

EFFECTIVE DATE: June 29, 1978.

ADDRESS: Written objections to the office of the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-4750.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of September 20, 1977 (42 FR 47216), a proposal was published to affirm that sodium thiosulfate is generally recognized as safe for use as a direct and an indirect human food ingredient. The proposal was based on safety information developed by the Select Committee on GRAS substances. The proposal was published in accord with the announced FDA review of the safety of GRAS and prior-sanctioned food ingredients.

In accordance with § 170.35 (21 CFR 170.35), relating to the affirmation of GRAS food ingredients, copies of the scientific literature review on sodium thiosulfate, an evaluation of mutagenic tests, two reports on the teratology screening tests, and the report of the Select Committee on GRAS substances have been made available for public review in the office of the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857. Copies of these documents have also been made available for public purchase from the National Technical Information Service, as announced in the proposal.

In addition to proposing to affirm the GRAS status of sodium thiosulfate, the Commissioner of Food and Drugs gave public notice that he was unaware of any prior-sanctioned food ingredient use for this ingredient other than for the proposed conditions of use. Persons asserting additional or extended uses, in accordance with approval granted by the U.S. Department of Agriculture or the Food and Drug Administration prior to September 6, 1958, were given notice to submit proof of such a sanction so that the safety of prior-sanctioned uses could be determined at this time. That notice was also an opportunity to have prior-sanctioned uses of sodium thiosulfate approved by issuance of an appropriate regulation under Part

181—Prior-Sanctioned Food Ingredients (21 CFR Part 181), provided prior-sanctioned use could be affirmed as safe on the basis of data now available to the Commissioner. Notice was also given that failure to submit proof of an applicable prior sanction in response to the proposal would constitute a waiver of the right to assert sanction at any future time.

No reports of a prior-sanctioned use for sodium thiosulfate were submitted in response to the proposal. Therefore, in accordance with that proposal, any right to assert a prior sanction for use of sodium thiosulfate under conditions different from those set forth in this regulation has been waived.

One comment was received in response to the proposal. The comment mentioned that sodium thiosulfate is used to neutralize the antimicrobial activity of certain sanitizers in water treatment processing. The comment asked if such information had been considered during the safety review of this substance.

The Commissioner recognizes that sodium thiosulfate is being investigated for use in drinking water to neutralize the antimicrobial activity of substances such as chlorine and antimicrobial preparations containing silver ion. However, the Commissioner is not aware of any evidence to suggest that antimicrobial agents that are commonly added to foods are inactivated by sodium thiosulfate. Further, this regulation is not intended to permit such use for sodium thiosulfate. It is expected that very little, if any, additional stimulation of microbial growth would occur in foods as a consequence of the uses of sodium thiosulfate permitted by this regulation.

The Commissioner therefore concludes that no change in the proposal to affirm the GRAS status of sodium thiosulfate is warranted. Accordingly, it is being promulgated without change.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), Parts 182, 184, and 186 are amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.90 [Amended]

1. By amending § 182.90 Substances migrating to food from paper and paperboard products, by deleting the entry of "Sodium thiosulfate (additive in salt)."

§ 182.6807 [Deleted]

2. By deleting § 182.6807 Sodium thiosulfate.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

3. By adding new § 184.1807 to read as follows:

§ 184.1807 Sodium thiosulfate.

(a) Sodium thiosulfate ($\text{Na}_2\text{S}_2\text{O}_5 \cdot 5\text{H}_2\text{O}$, CAS Reg. No. 010102-17-7) is also known as sodium hyposulfite. It is prepared synthetically by the reaction of sulfides and sulfur dioxide (SO_2), the reaction of sulfur and sulfite, or the oxidation of metal sulfides and hydrosulfides.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d Ed. (1972), as amended by the first (1974) supplement.¹

(c) The ingredient is used as a formulation aid as defined in § 170.3(o)(14) of this chapter and reducing agent as defined in § 170.3(o)(22) of this chapter.

(d) The ingredient is used in alcoholic beverages and table salt in accordance with § 184.1(b)(1) at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.00005 percent for alcoholic beverages as defined in § 170.3(n)(2) of this chapter and 0.1 percent for table salt as defined in § 170.3(n)(26) of this chapter.

(e) Prior sanctions for this ingredient different from the uses established in this section do not exist or have been waived.

PART 186—INDIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

4. By adding new § 186.1807 to read as follows:

§ 186.1807 Sodium thiosulfate.

(a) Sodium thiosulfate ($\text{Na}_2\text{S}_2\text{O}_5 \cdot 5\text{H}_2\text{O}$, CAS Reg. No. 010102-17-7) is also known as sodium hyposulfite. It is prepared synthetically by the reaction of sulfides and sulfur dioxide (SO_2), the reaction of sulfur and sulfite, or the oxidation of metal sulfides and hydrosulfides.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d Ed. (1972), as amended by the first (1974) supplement.¹

(c) The ingredient is used or is intended for use as a constituent of paper and paperboard food packaging materials.

(d) The ingredient used at levels not to exceed good manufacturing practices.

¹Copies may be obtained from: National Academy of Sciences, 2101 Constitution Ave. NW., Washington, D.C. 20037.

(e) Prior sanctions for this ingredient different from the uses established in this section do not exist or have been waived.

Effective date. This regulation is effective June 29, 1978.

(Secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a)).)

Dated: May 23, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Regulatory Affairs.

NOTE.—Incorporation by reference approved by the Director of the office of the Federal Register on July 10, 1973 and June 27, 1977. Copies of referenced material are on file in the Federal Register library.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-1058]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the Township of Boonton, Morris County, N.J.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the township of Boonton, Morris County, N.J. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the township of Boonton, Morris County, N.J.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the township of Boonton, Morris County, N.J., are available for review at the Municipal Building, Powerville Road, Boonton, N.J.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Ad-

ministrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the township of Boonton, Morris County, N.J.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided, and the Administrator has resolved the appeals presented by the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet above mean sea level
Rockaway River	Southeast corporate limits.	485
	Powerville Rd.....	497
	Southwest corporate limits.	499
Beaver Brook.....	Valley Rd.....	498
	Rockaway Valley Rd.....	505
	Meadowbrook Rd. (upstream).	513
	Northeast corporate limits.	550
Unnamed creek	Rockaway Valley Rd.....	509
	Dixon's Pond.....	559
Stony Brook.....	Luff Rd. (extended).....	507
	Powerville Rd.....	512

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

[Docket No. FI-3356]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the County of Fluvanna, Va.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the County of Fluvanna, Va. These base (100-year) flood elevations are the basis for the flood plain management measures that the

community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the county of Fluvanna, Va.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the county of Fluvanna, Va., are available for review at the Clerk's Office Building in the Clerk's Office, Palmyra, Va.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581, or toll free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the county of Fluvanna, Va.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
James River	State Route 690 (downstream).....	213
	State Route 690 (upstream).....	217
	U.S. 15 (downstream).....	232
	U.S. 15 (upstream).....	234
	Upstream county boundary.....	285
Rivanna River	Cheslie System.....	217
	State Route 6.....	223
	State Route 615.....	246
	Cheslie System.....	248
	U.S. 15.....	256

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
	State Route 600.....	275
	Upstream county boundary.....	287

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

[Docket No. FI-3509]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the City of Clifton Forge, Va.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the city of Clifton Forge, Va. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations for the city of Clifton Forge, Va.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the city of Clifton Forge, Va. are available for review at the bulletin board in the City Hall, Main Street, Clifton Forge, Va.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the city of Clifton Forge, Va.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C.

4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Jackson River	Downstream side U.S. Highway 220.	1,049
	Downstream side Chessie System RR.	1,057
	Interstate 64	1,070
Smith Creek	Confluence with Dry Creek.	1,056
	Main St.	1,078
	Upstream side Lowell St.	1,110
	Eastbound lane I-64	1,148
	Downstream side commercial avenue.	1,161

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

[Docket No. FI-3664]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the Town of Pembroke, Giles County, Va.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the Town of Pembroke, Giles County, Va. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the Town of Pembroke, Giles County, Va.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Town of Pembroke, Giles County, Va., are available for review at the Town Office, Snidow Street, Pembroke, Va.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581, or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Town of Pembroke, Giles County, Va.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Doe Creek	Norfolk & Western RR..	1,824
	Castle Ave.	1,680
	U.S. Route 460 (downstream).	1,706
	Route 1410	1,719
	U.S. Route 460 (upstream).	1,728
	Route 701	1,743
	Corporate limit (upstream).	1,756
Little Stony Creek	Norfolk & Western RR..	1,630
	Main St.	1,640
	U.S. Route 460	1,653
	Unnamed road	1,718
	Johnson Ave.	1,764
	Corporate limit (upstream).	1,797
Mays Hollow	U.S. Route 460	1,695
	Corporate limits (upstream).	1,762
New River	Corporate limit (downstream).	1,829
	State Route 623	1,830
	Corporate limit (upstream).	1,830

(National Flood Insurance Act of 1968 (title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128) and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the City of Medford, Taylor County, Wis.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the city of Medford, Taylor County, Wis. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the city of Medford, Wisc.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the city of Medford, are available for review at City Hall, 133 West State Street, Medford, Wis.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the city of Medford, Wis.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Black River	County Trunk Highway O.	1,395
	Perkins St. (upstream side).	1,403
	State Highway 64 bridge	1,407
	Allman Street bridge	1,414

(National Flood Insurance Act of 1968 (title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

[Docket No. FI-3747]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation Determination for the Town of Johnston, Providence County, R.I.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the town of Johnston, Providence County, R.I. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations for the town of Johnston, Providence County, R.I.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the town of Johnston are available for review at the Building Inspector's Office, Town Hall, 1385 Hartford Avenue, Johnston, R.I.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Town of Johnston, Providence County, R.I.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Woonasquatucket River.	250 ft upstream of Dyerville Dam.	59
	Upstream side of Manton Ave.	69
	450 ft downstream of Ronci Industrial Park Dam.	75
	Ronci Industrial Park Dam.	82
	275 ft downstream of Allendale Ave.	83
	200 ft upstream of Allendale Dam.	97
	150 ft upstream of Route 44.	106
	Upstream side of Greystone Dam.	116
Assapumpset Brook.	Confluence with Woonasquatucket River.	82
	Upstream side of abandoned railroad.	85
	80 ft upstream from Cadorna St.	94

L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Maggoodee.....	Virginia Route 684.....	1,096
	Virginia Route 874.....	1,101
	Virginia Route 871.....	1,125
	Town limits of Boones Mill.	1,144

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS, Secretary.

[Docket No. FI-3790]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation Determination for the Town of Grottoes, Rockingham County, Va.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the town of Grottoes, Rockingham County, Va. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the town of Grottoes, Rockingham County, Va.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the town of Grottoes, Rockingham County, Va., are available for review at the Grottoes Town Hall, 17 Sixth Street, Grottoes, Va.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the town of Grottoes, Rockingham County, Va.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed

criteria for flood plain management in flood-prone areas in accordance with 24 CFR part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
South River	Downstream limit of study.	1,090
	Route 256	1,094
	Upstream limit of study.	1,102

(National Flood Insurance Act of 1968 (title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

[Docket No. FI-3863]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for The Village of Ludlow, Windsor County, Vt.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the Village of Ludlow, Windsor County, Vt. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the Village of Ludlow, Windsor County, Vt.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Village of Ludlow, are available for review at Town Hall, Depot Street, Ludlow, Vt.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581, or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator

gives notice of his final determinations of flood elevations for the village of Ludlow, Windsor County, Vt.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Black River	At village of Ludlow, eastern corporate limits.	976
	100 ft downstream of Mill St.	967
	100 ft upstream of Mill St.	969
	100 ft upstream of Route 103 (Main St.)	997
	100 ft upstream of Depot St.	1001
	At village of Ludlow, northern corporate limits.	1009

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the city of Wichita Falls, Wichita County, Tex.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the city of Wichita Falls, Wichita County, Tex., are available for review at the Planning Department, Wichita Falls, Tex.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the city of Wichita Falls, Wichita County, Tex.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in

flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Wichita River	Just downstream of Loop II.	950
	Approximately 1,000 ft upstream of Central Freeway.	948
	Just downstream of Eastside Dr.	945
Holliday Creek	Just upstream of downstream bridge.	967
	Just upstream of Southwest Parkway.	958
	Just upstream of Holliday Rd.	950
Holliday Creek tributary A.	Just upstream of south access road to Central Freeway.	984
	Just upstream of Lucas Ave.	959
	Just upstream of Perigo St.	946
Holliday Creek tributary B.	Just downstream of Hutton Rd.	961
	Just upstream of east access road to South Freeway.	955
	Just upstream of California St.	947
Brenda Hursh Channel.	Approximately 100 ft upstream of Norman St.	968
	Approximately 100 ft downstream of Weeks St.	955
McGrath Creek	Just upstream of McNeil Ave.	979
	Just upstream of Kemp Blvd. (northbound).	970
	Just upstream of Weeks Park Lane.	951
McGrath Creek tributary.	Just upstream of Kell Blvd.	996
	Just downstream of Maplewood Ave.	972
Holliday Creek Old Channel.	Approximately 200 ft upstream of Old Lake Rd.	963
Lake Wichita tributary.	Just upstream of Trinidad Dr.	999
East Plum Creek	Approximately 200 ft downstream of Fisher St.	947
Plum Creek	Just downstream of Nunn St.	965
	Just upstream of Wrangler Dr.	975

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2690, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: April 11, 1978.

PATRICIA ROBERTS HARRIS,
Secretary.

[Docket No. FI-4143]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the Township of Cherry Hill, Camden County, N.J.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the Township of Cherry Hill, Camden County, N.J. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the Township of Cherry Hill, N.J.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Township of Cherry Hill, are available for review at Township Hall, 820 Mercer Street, Cherry Hill, N.J.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581, or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Township of Cherry Hill, N.J.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided, and the Administrator has resolved the appeals presented by the community.

The Administrator has developed criteria for flood plain management in

flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Cooper River	Cuthbert Blvd.	13
	Kings Highway	20
	Patco RR.	37
	Interstate 295	38
	Evesham Rd.	41
North Branch Cooper River.	Park Blvd.	17
	Kings Highway	21
	Brace Rd.	23
	Covered Bridge Rd.	25
	Interstate 295	32

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 787-78]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart X—Authorizations With Respect to Personnel and Certain Administrative Matters

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: This order makes technical changes in the regulations concern-

ing payment of per diem and travel allowances for Department employees. It excludes from the delegations to subordinate Department officials the authority to approve use of first-class air accommodations. Recent changes in GSA Federal Travel Regulations, 43 FR 10442, require that the power to authorize and approve the use of first-class accommodations shall be retained by the agency head or his deputy.

EFFECTIVE DATE: May 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert L. Karas, Office of Management and Finance, Department of Justice, Washington, D.C. 20430, 202-739-2082.

By virtue of the authority vested in me by 28 U.S.C. 509, 510 and 5 U.S.C. 301, § 0.142 of Subpart X of Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

§ 0.142 [Amended]

1. By substituting "Administrator of General Services" for "Bureau of the Budget" each place where it appears.

2. By deleting in the first paragraph the phrase "are authorized to exercise the power and authority vested in the Attorney General by law to take final action in the following described matters;" and substituting therefore the phrase "are authorized to exercise the authority of the Attorney General to take final action in the following matters, except for the authority to approve use of first-class air accommodations;"

Dated: May 19, 1978.

GRIFFIN B. BELL,
Attorney General

[3910-01]

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

Deletion of Parts

AGENCY: Department of the Air Force, Department of Defense.

ACTION: Final rule.

SUMMARY: The Department of the Air Force is withdrawing certain of its rules from the Code of Federal Regulations because of their limited applicability to the general public. Intended effect is to ensure that only rules which substantially affect the public are maintained in the Air Force portion of the Code of Federal Regulations.

EFFECTIVE DATE: May 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Ms Frankie S. Estep, Air Force Federal Register Liaison Officer, Directorate of Administration, Pentagon, Washington, D.C. 20330, Phone, 202-697-1861.

SUPPLEMENTARY INFORMATION: The Air Force is currently involved in an effort to delete certain of its rules from the Code of Federal Regulations which do not affect a significant portion of the general public. The following rules are directed at individuals in their capacity as employees of the Air Force, not the general public and are therefore deleted from Chapter VII, Title 32 CFR:

(a) Under Subchapter A—Administration: (1) Part 804, Mortuary Affairs; (2) Part 809, Issue and Control of Identification Cards; (3) Part 809b, Dependents' Education; and (4) Part 809c, Elementary and Secondary Education of Dependents in Oversea Areas.

(b) Under Subchapter B—Sales and Services: (1) Part 816, Recreation Activities and Service Program.

(c) Under Subchapter H—Air Force Reserve Officer's Training Corps: (1) Part 872, Air Force Junior Reserve Officers' Training Corps; (2) Part 873, Air Force ROTC Flight Instruction Program (FIP); and (3) Part 874, Air Force ROTC Subsistence Allowance and Rates of Commutation in Lieu of Uniforms.

(d) Under Subchapter I—Military Personnel: (1) Part 881, Appointment in Commissioned Grades: Reserve of the Air Force and United States Air Force (temporary); (2) Part 882, Decorations and Awards; (3) Part 886, Equal Opportunity and Treatment of Military Personnel; and (4) Part 888c, Active Duty Service Commitments.

(e) Under Subchapter K—Military Training and Schools: (1) Part 905, Medical Service Officer Procurement Program for In-Service Training; (2) Part 906, Medical Service Early Commissioning Program; and (3) Part 908, Medical, Dental, and Veterinary Education Program for Air Force Officers.

(f) Under Subchapter O—Special Investigation: (1) Part 955, Conduct of Polygraph Examinations within the Department of the Air Force.

The part numbers affected are designated as Reserved.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison,
Directorate of Administration.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD,
DEPARTMENT OF TRANSPORTATION

[CGD 78-042]

PART 117—DRAWBRIDGE
OPERATION REGULATIONS

Lake Worth, Fla.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes the regulations for the Singer Island (State Road A-1-A; Blue Heron Boulevard) drawbridge across the Atlantic Intracoastal Waterway at Riviera Beach, Fla., because the drawbridge has been replaced by a high-level fixed bridge. Notice and public procedure have been omitted from this action due to the removal of the bridge concerned.

EFFECTIVE DATE: This amendment is effective on June 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

DRAFTING INFORMATION: The principal persons involved in drafting this revocation of regulations are Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Stephen H. Barber, Project Attorney, Office of the Chief Counsel.

§ 117.439b [Revoked]

In consideration of the above facts, Part 117 of Title 33 of the Code of Federal Regulations is amended by revoking § 117.439b.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5).)

Dated: May 19, 1978.

O. W. SILER,
Admiral,
U.S. Coast Guard Commandant.

[3710-92]

CHAPTER II—CORPS OF ENGINEERS,
DEPARTMENT OF THE ARMY

[ER 1145-2-305]

PART 209—ADMINISTRATIVE
PROCEDURERemoval of Wrecks and Other
Obstructions

AGENCY: United States Army Corps of Engineers, DOD.

ACTION: Final rule.

SUMMARY: The purpose of this action is to update the present regulation on the removal of wrecks and other obstructions to make it compatible with current organization and policy.

EFFECTIVE DATE: May 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Milton Millard or Donald Letzkus, Telephone 202-693-6995 or write: Office, Chief of Engineers, Forrestal Building, Attention: DAEN-CWO-M, 1000 Independence Avenue NW., Washington, D.C. 20314.

SUPPLEMENTARY INFORMATION: The regulation promulgated in 33 CFR 209.190 governs the removal of wrecks and other obstructions. We are updating this regulation by eliminating the stilted language and redundancies, and by updating references to documents and organizations.

In addition to the minor revisions referred to above, we are making the following significant changes:

(a) Revised paragraph (h) to allow for action to be taken for removal of obstructions under section 19 of the River and Harbor Act of 1899 without prior approval of the Chief of Engineers provided:

(1) The cost of removal will not exceed \$100,000 for each incident.

(2) The wreck is a sunken vessel, boat, watercraft, raft or other similar obstruction.

(3) The wreck is an obstruction to general navigation, not merely an obstruction to a private wharf or canal or merely aesthetically displeasing.

(4) All reasonable efforts have first been exhausted to require the owner to remove the wreck himself within a reasonable period. If this effort is not successful, then removal may be undertaken at Federal expense. The District Engineer should, in cases, institute steps to recover from the owners the costs incurred (Wyandotte Transportation v. United States, 389 U.S. 205 88 S. Ct. 379 [1967]). Further, the owner must be advised that the wreck

will be removed by the United States with the reservation of all rights of the United States to recover from the owner all expenses of removal.

(b) Add paragraph (1) which describes how the costs incurred in the removal of a wreck are to be funded.

(c) Add paragraph (m) calling for the submittal of an annual report by the District Engineers to OCE.

We have determined that notice of proposed rulemaking and public procedures thereto are unnecessary and impracticable as this action is only a clarification without significant change to an existing regulation.

NOTE:—The Department of the Army has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107. 33 U.S.C. 409, 414, 415.

Dated: May 8, 1978.

THOMAS J. WOODALL,
Lieutenant Colonel, Corps of Engineers,
Acting Executive Director, Engineer Staff.

Section 209.190 of Chapter II of
Title 33 is amended to read as follows:

§ 209.190 Removal of wrecks and other obstructions.

(a) *Laws relative to removal of wrecks and obstructions.*

(1) The laws relating to removal of wrecks are contained in Sections 15, 19 and 20 of the River and Harbor Act approved 3 March 1899 and Section 86 of Title 14, United States Code.

(2) As removal by the United States without formal abandonment involves the taking of private property for public purposes, the provisions of the section of law applicable to the particular case must be followed strictly. Removal by the United States is not usually undertaken if the obstruction simply affects the approaches to private wharves or canals and is not obstructing or endangering navigation.

(b) *Reports on accidents or obstructions affecting navigation.* An accident such as a vessel collision, sinking or grounding, or a bridge failure which occurs in navigable waters of the United States and poses a threat to navigation, shall be reported by the District Engineer to HQDA (DAEN-CWO-M), Washington, D.C. 20314 by teletype within 24 hours. Included in the teletype should be a report on the extent of the danger to navigation and an estimate of the duration of the obstruction. When such an accident results in an obstruction to navigation, it shall be immediately reported by telephone to HQDA, Chief, Operations Branch, DAEN-CWO-M. (Exempt under paragraph 7-20, AR 335-15.)

(c) *General procedure concerning wrecks and other obstructions.*

(1) The District Engineer should ascertain, at once, whether navigation is

obstructed or endangered, and if the obstruction must be removed, he should inform the owner promptly of the provisions of the law.

(2) Vessel owners, masters and others having any knowledge of wrecks or other obstructions should be encouraged to report their location promptly to the District Engineer.

(3) If the owner commences removal, the District Engineer should supervise the operations sufficiently to insure against unreasonable interference with navigation and see that the removal proceeds diligently. If removal by the United States is necessary, the District Engineer must act promptly. If the owner has not marked the obstruction, the District Engineer should request the local Coast Guard District Commander to do so.

(4) The District Engineer should determine if the United States has a mortgage or other interest in the vessel. If such an interest does exist, he should check with the Maritime Administration or other appropriate agency before offering the vessel for public sale.

(d) *Marking of wrecks by owners.* Whenever a vessel, raft, or other craft is wrecked or sunk in a navigable waterway, accidentally or otherwise, it is the responsibility of the owner to mark it immediately. A buoy or beacon should be used during the day. A lighted lantern is required at night. These marks must be maintained until the sunken craft is removed or abandoned.

(e) *Abandonment of wrecks by owners or underwriters.*

(1) Every precaution should be taken in cases involving wrecked or sunken vessels to insure that the rights of the United States are not prejudiced by acceptance of abandonment when tendered by owners or underwriters of vessels under 33 U.S.C. 409. Under no circumstances will acceptance of abandonment be indicated. If a letter of abandonment is received, receipt of the letter should be merely acknowledged and a statement included in the reply as follows: "This acknowledgment should in no way be construed as acceptance by the United States of an abandonment of such vessel, nor as waiver of any right to enforce liability for any damage caused by its sinking or cost of removal." When a notice of abandonment has not been received from the owners or underwriters, or ownership cannot be established, the District Engineer may, after the obstruction has existed for over thirty days, establish abandonment by inserting, in a newspaper nearest the locality of the obstruction, a legal advertisement addressed "To Whom It May Concern" requiring the removal of the obstruction (33 U.S.C. 414).

(2) Should an incident occur involving the interrelated rights and liabilities of persons responsible for a

sunken or wrecked vessel, a report should be furnished to HQDA (DAEN-CWO-M), Washington, D.C. 20314 for use in coordinating with the Department of Justice.

(3) In the case of the *United States v. Cargo Salvage Corporation*, the United States brought action to obtain legal precedent as to ownership of cargo aboard a wrecked vessel to be removed under 33 U.S.C. 414. The Court held that the interests in cargo are separate and that its abandonment must be independently shown from the abandonment of the hull. In all future cases where the ownership of cargo aboard a wreck to be removed is in doubt, and cannot be otherwise established, the abandonment of the cargo should be established by the insertion of a small advertisement in the county weekly nearest the wreck. Notice of not less than 30 days should be given in addressing the article "To Whom It May Concern."

(f) *Marking of wrecks by Coast Guard.*

(1) Under 14 U.S.C. 86 the cost of continuing the marking of sunken vessel or other obstruction to navigation, after abandonment is established, shall be borne by the Department of Transportation.

(2) The District Engineer will advise the Coast Guard as soon as practicable if he desires an obstruction marked and will also notify the Coast Guard when removal operations have been completed. For regulations of the Coast Guard marking of wrecks, see 33 CFR Part 64.

(g) *Information for Coast Guard.* Whenever the condition of any wreck which has been marked by the Coast Guard changes, due to removal, destruction, changed location caused by storms or shifting channels, or any other reason so that markings are no longer needed, the District Engineer having jurisdiction will notify the District Commander of the Coast Guard at once.

(h) *Removal of obstruction under the provisions of Section 19 of the River and Harbor Act of 1899.* (33 U.S.C. 414.) Action under this section may be undertaken without prior approval of the Chief of Engineers only when the navigation of navigable waters of the United States is obstructed or endangered, and if the obstruction has been in existence over 30 days, or its abandonment by the owner can be legally established in a shorter period. The obstruction can be removed by any method deemed most advantageous provided:

(1) The cost of removal will not exceed \$100,000 for each incident.

(2) The wreck is a sunken vessel, boat, watercraft, raft or other similar obstruction.

(3) The wreck is an obstruction to general navigation, not merely an ob-

struction to a private wharf or canal or merely aesthetically displeasing.

(4) All reasonable efforts have first been exhausted to require the owner to remove the wreck himself within a reasonable period. If this effort is not successful, then removal may be undertaken at Federal expense. The District Engineer should institute steps to recover from the owners the costs incurred. (*Wyandotte Transportation v. United States*, 389 U.S. 205 88 S.Ct. 379 [1967]). Further, the owner must be advised that the wreck will be removed by the United States with the reservation of all rights of the United States to recover from the owner all expenses of removal.

(i) *Removal of obstructions under provisions of Section 20 of the River and Harbor Act of 1899 (33 U.S.C. 415).*

(1) This section provides that action thereunder may be taken by any Agent of the United States to whom the Secretary of the Army "may delegate proper authority." A delegation of such authority was made by the following order issued by the Secretary of War 20 January 1905.

Whenever any vessel, boat, watercraft, or raft sinks, grounds, or is unnecessarily delayed in any canal, lock, or other improvement controlled or owned by the United States, or in any navigable waters of the United States, under circumstances of emergency, the officer in charge of such lock, canal, improvement or district will take charge of such vessel, boat, watercraft, raft, or other obstruction with a view to its immediate removal or destruction, using his best judgment in all cases to prevent any unnecessary injury. Any action taken under the above instructions will be reported forthwith to the Chief of Engineers for the information or action of the Secretary of War.

(2) The above order was amended on 2 November 1917 as follows:

The foregoing order is hereby amended by substituting the word "district engineer" for "officer", with the understanding that the term "district engineer" includes both officers and civilians assigned by competent orders to the charge of a district of the Engineer Department at Large.

(3) The above quoted authority eliminates the necessity for establishing abandonment in emergency cases, but information required by paragraph (k)(2) will be furnished HQDA (DAEN-CWO-M) Washington, D.C. 20314.

(4) Action under this section may be undertaken without prior approval of the Chief of Engineers, subject to the same provisos contained in paragraph (h) above.

(j) *Removal of sunken logs.*

(1) The United States acquires no property rights in sunken logs through the mere fact that they lie in navigable waters. It is permissible for the original owner to trace and reclaim them, but he should do so within a reasonable time, especially if

they obstruct navigation. If the owner fails to exercise his rights to reclaim and remove the obstructing logs, they may be removed by the Government as provided in Sections 19 and 20 of the Act approved 3 March 1899. Logs thus removed by the Government may be sold or otherwise disposed of without liability to the original owner.

(2) When persons known to have no ownership therein or legal title thereto apply for permission to remove sunken logs, it may be assumed that the privilege is desired as a matter of gainful speculation. Ordinarily, they should be advised that the Department of the Army can grant them no property rights to the logs, but will not object to their removing them provided removal operations are so conducted as not to injure or interfere with navigation. In cases, however, where the logs form serious obstruction to navigation and the conditions are such that the Department of the Army would be justified in applying the provisions of the aforesaid Federal laws, there would be no legal objection to permitting private applicants to remove them under an agreement providing that they shall become the property of the applicant. Such cases will be presented to the HQDA (DAEN-CWO-M) Washington D.C. 20314 before action is taken thereon.

(k) *Authority.*

(1) For cases meeting the provisos contained in paragraph (h), Division Engineers are authorized to approve the expenditure of funds not to exceed the amount of \$100,000 per incident and to redelegate this authority to District Engineers.

(2) For cases that require approval of the Chief of Engineers, requests for authority for removal of wrecks and other obstructions will:

(i) Report the case in sufficient detail to establish the propriety allotting public funds to the work.

(ii) Indicate whether removal is proposed under Section 19 or 20 of the River and Harbor Act approved 3 March 1899.

(iii) Include a map, size 8 by 10½ inches, showing the location of the wreck or obstruction in relation to the principal channels in the vicinity and any Federal improvement that may be affected by it.

(iv) Inclose photographs, if necessary, to show exact condition or important details of the wreck or obstruction.

(v) Indicate proposed method of removal; whether by contract or by Government plant and hired labor.

(vi) State the estimated cost of the removal of the wreck or obstruction, including the Government costs if the work is proposed to be done by contract, and the estimated date that allotment of funds will be required. Request allotment for preliminary ex-

penses to cover cost of preparation of specifications and other preliminary details.

(vii) Inclose copy of letter of abandonment when wreck has been formally abandoned, or provide a copy of the public notice, published 30 days prior to the proposed date of removal.

(3) Requests for approval will be submitted to HQDA (DAEN-CWO-M) Washington D.C. 20314.

(l) *Funds.*

(1) cost for removal of wreck approved by the Division Engineer should be charged to the Revolving Fund and a request for reimbursement funds from O&M General should be submitted immediately to HQDA (DAEN-CWO-M) Washington D.C. 20314. Reimbursement will be dependent upon availability of funds in this office.

(2) Upon completion of the removal of a wreck or other obstruction for which funds have been allotted, any balance remaining will be reported promptly for revocation, citing the date of the allotment.

(m) *Reports (RCS-CONG 1006).* District Engineers will prepare and submit to HQDA (DAEN-CWO-M) Washington, D.C. 20314, through the appropriate Division Engineer the following data by 15 January of each year.

(1) Names of wrecked vessels investigated and removed.

(2) Cost of investigations.

(3) Cost of wreck removals.

The requirement for the tabular report, ENG Form 202e (ER 335-2-5) is hereby rescinded.

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 2—DELEGATIONS OF AUTHORITY

Department of Memorial Affairs (National Cemetery System)

AGENCY: Veterans Administration.

ACTION: Final rule.

SUMMARY: The Administrator of Veterans' Affairs delegates authority to the Chief Memorial Affairs Director to act on matters not requiring the personal attention of the Administrator. The reason is to make specific delegations pertaining to the routine functions required in the day-to-day operations of the Department of Memorial Affairs and the National Cemetery System.

EFFECTIVE DATE: May 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Earl W. Zieg, Veterans Administration, Department of Memorial Affairs (40D), 810 Vermont Avenue NW., Washington, D.C. 20420, 202-389-5235.

SUPPLEMENTARY INFORMATION: On page 1631 of the FEDERAL REGISTER of January 11, 1978, there was published a notice of proposed regulatory development to amend § 2.6 relating to delegations of authority. No comments were received. However, since this regulation was published for comment, the Director, National Cemetery System has also been designated as the Chief Memorial Affairs Director due to a reorganization of the Veterans Administration.

The proposed regulation is adopted with change in organizational title and is set forth below.

Approved: May 18, 1978.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

In § 2.6, paragraph (f) is added to read as follows:

§ 2.6 Administrator's delegations of authority to certain officials (38 U.S.C. 212(a)).

(f) *Department of Memorial Affairs.* The Chief Memorial Affairs Director is delegated authority:

(1) To act on all matters assigned to the Department of Memorial Affairs and the National Cemetery System by statute (38 U.S.C. Chapter 24) and by regulation except where specifically requiring the personal attention or action of the Administrator and to authorize supervisory personnel within the jurisdiction of the Chief Memorial Affairs Director to perform such functions as may be assigned.

(2) To designate, as he deems necessary, Superintendents of National Cemeteries as special investigators under 38 U.S.C. 218(a)(3), however, such law enforcement authority is limited to enforcement of rules and regulations governing conduct on property under the charge and control of the Veterans Administration, as those rules and regulations apply to the cemetery over which the individual Superintendent exercises control and jurisdiction. Such designation will not authorize the carrying of firearms by any Superintendent.

(3) To accept donations of a minor nature, such as, individual trees for planting in burial areas and privately purchased grave markers.

(4) To name features in national cemeteries, such as, roads, walks, and special structures.

(5) To establish policies and specifications for inscriptions on Government headstones, markers, and private monuments.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 902-3; PP 6E1747/R150]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

5-Ethoxy-3-trichloromethyl-1,2,4-thiadiazole

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the fungicide 5-ethoxy-3-trichloromethyl-1,2,4-thiadiazole. The amendment to the regulations was requested by the California State Department of Food and Agriculture. This rule establishes a maximum permissible level for residues of the fungicide on avocados.

EFFECTIVE DATE: May 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 N Street SW., Washington, D.C. 202-755-2516.

SUPPLEMENTARY INFORMATION: On March 6, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 9165) in response to a pesticide petition (PP 6E1747) submitted to the Agency by the California State Department of Food and Agriculture, Agricultural Chemicals and Feed, 1220 N Street, Sacramento, Calif. 95814. This petition proposed that 40 CFR 180 be amended by the establishment of a tolerance for combined residues of the fungicide 5-ethoxy-3-trichloromethyl-1,2,4-thiadiazole and its monoacid metabolite 3-carboxy-5-ethoxy-1,2,4-thiadiazole in or on the raw agricultural commodity avocados at 0.15 part per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40

CFR 180 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before June 29, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on May 30, 1978, Part 180, Subpart C, section 180 is amended by establishing a tolerance for residues of the subject fungicide on avocados at 0.15 ppm as set forth below.

(Section 408(d)(2) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(d)(2)]).

Dated: May 22, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

Part 180, Subpart C, is amended by adding the new § 180.370 to read as follows:

§ 180.370 5-Ethoxy-3-trichloromethyl-1,2,4-thia- diazole; tolerances for residues.

Tolerances are established for combined residues of the fungicide 5-ethoxy-3-trichloromethyl-1,2,4-thiadiazole and its monoacid metabolite 3-carboxy-5-ethoxy-1,2,4-thiadiazole in or on the following raw agricultural commodities:

Commodity:	Parts per million
Avocados	0.15

[FR Doc. 78-14853 Filed 5-26-78; 8:45 am]

[6560-01]

[FRL 902-2, PP 7E2001/R149]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Malathion

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the insecticide malathion on birdsfoot trefoil. The amendment to the regulations was requested by the Interregional Research Project No. 4. This rule estab-

lishes a maximum permissible level for residues of malathion on birdsfoot trefoil.

EFFECTIVE DATE: May 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C., 202-755-2516.

SUPPLEMENTARY INFORMATION: On March 6, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 9163) in response to a pesticide petition (PP 7E2001) submitted to the Agency by Dr. C. C. Compton, Interregional Research Project No. 4, New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of New York. This petition proposed that 40 CFR 180.111 be amended by the establishment of a tolerance for residues of the insecticide malathion (O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate) in or on the following raw agricultural commodities:

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.111 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before June 29, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on May 30, 1978, Part 180, Subpart C, section 180.111 is revised in its entirety by editorially reformatting the section into an alphabetized columnar listing and alphabetically inserting the tolerance of 135 ppm on birdsfoot trefoil as set forth below.

(Section 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348a(e)).)

Dated: May 22, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

Part 180, Subpart C, section 180.111 is revised in its entirety by editorially

reformatting the section into an alphabetized columnar listing and alphabetically inserting the new tolerance of 135 ppm on birdsfoot trefoil, as follows:

§ 180.111 Malathion; tolerances for residues.

Tolerances are established for residues of the insecticide malathion (O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate) in or on the following raw agricultural commodities:

Title 41—Public Contracts and Property Management

CHAPTER 50—PUBLIC CONTRACTS, DEPARTMENT OF LABOR

PART 50-201—GENERAL REGULATIONS

PART 50-206—THE WALSH-HEALEY PUBLIC CONTRACTS ACT INTERPRETATIONS

Amendments to Regulations

AGENCY: Department of Labor.

ACTION: Final rule.

SUMMARY: These amendments to our regulations codify our interpretations issued under the Walsh-Healey Public Contracts Act, especially our interpretations of "manufacturer," "assembler" and "regular dealer." Experience has demonstrated a need for these clarifying and interpretative amendments.

EFFECTIVE DATE: June 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Alvin Bramow, Deputy Associate Solicitor, Division of General Legal Services, Office of the Solicitor, Room N2464, New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C. 20210, phone 202-523-8293.

SUPPLEMENTARY INFORMATION: On May 20, 1977, the Department published in the FEDERAL REGISTER (42 FR 26022) proposed amendments to the regulations and the codification of interpretations issued under the Walsh-Healey Public Contracts Act relative to the manufacturer and regular dealer requirements of section 1(a) of the Act.

Persons interested in the proposal were afforded the opportunity to submit comments to the Administrator of the Wage and Hour Division.

Statements were received from three members of Congress, the Office of Federal Procurement Policy (OFPP), the Tennessee Valley Authority (TVA), the Law Enforcement Assistance Administration, the Hand Tools Institute, and two private firms.

The comments were carefully reviewed and analyzed in light of statutory intent and precedential decisions in this area. A number of the comments received were of an extremely constructive nature. After careful analysis, it has been decided that their adoption would make the regulations more effective. Those adopted are summarized below.

Several comments which were received questioned the desirability of

the proposed requirement that a contract be voided *ab initio* where it is discovered after award that a bidder did not act in good faith in representing that it met the requirements of a manufacturer or regular dealer. Upon reconsideration, proposed sections 50-201.101(a)(3)(i)(B) and 50.206.51(d) are being revised to require only that such contracts be subject to termination rather than to be void *ab initio*.

The concerns expressed to the effect that the proposed regulations relating to the criteria for pre-award investigations were too broad and would result in burdensome and unnecessary surveys were deemed valid. Accordingly, § 50-201.101(b)(5) is revised to provide limitations in those instances when a contracting officer must conduct pre-award investigations of a bidder's Walsh-Healey qualifications.

Sections 50-201.101(b)(5) and 50-206.50(b) are clarified to show that eligibility investigations relate only to a bidder or bidders in line for contract award.

Section 50-201.101(b)(6)(i)(C) and 50-201.101(b)(6)(ii)(A) are revised to reflect the role of the Small Business Administration in eligibility findings involving small businesses pursuant to the enactment of Pub. L. 95-89 (91 Stat. 561) in August 1977 and to clarify that contracting officers' initial determinations of eligibility need be referred to the Department of Labor for a final determination only where an adversely affected bidder protests such initial findings.

Since there were apparent misunderstandings of the language in proposed § 50-201.301, which was misconstrued as requiring all contracting agencies to issue regulations implementing the Public Contract Act, this section has been revised to clarify its application only to situations where an agency itself prescribes regulations for the administration of the Act.

Accordingly Chapter 50 of Title 41 is amended as follows:

1. Section 50-201.101 of Part 50-201 is revised as follows:

§ 50-201.101 Manufacturer or regular dealer.

(a) *Definitions.* A bidder or contractor shall be deemed to be a "manufacturer" or "regular dealer" within the meaning of the stipulation required by section 1(a) of the act and § 50-201.1(a) if he falls within one of the following categories:

(1) A manufacturer is a person who owns, operates, or maintains a factory or establishment that produces on the premises the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

(2) A regular dealer is a person who owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and sold to the public in the usual course of business.

(i) A regular dealer in lumber and timber products, if a wholesale lumber dealer, may be a person who owns, operates, or maintains a place of business in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought for the account of such person and sold to the public in the usual course of business: *Provided*, That at least more than 50 percent of his business is such purchase and sale of such materials, supplies, articles, or equipment; *And provided further*, That upon all orders to manufacturers for direct shipment to the United States he agrees to insert a notice to the manufacturer to the effect that the supplies are purchased for the United States and that the manufacturer is within the terms of § 50-201.104 requiring compliance with the provisions of the Public Contracts Act.

(ii) A machine tool dealer may be a person possessing, through contract or agreement with a manufacturer, the responsibility for selling that manufacturer's products, with respect to a specific territory and who is authorized by such manufacturer to offer its products and to negotiate and conclude contracts for the furnishing thereof. *Provided*, That upon all orders to manufacturers for direct shipment to the United States he agrees to insert a notice to the manufacturer to the effect that the supplies are purchased for the United States and that the manufacturer is within the terms of § 50-201.104 requiring compliance with the provisions of the Public Contracts Act.

(iii) A regular dealer in hay, grain, feed, or straw may be a person, who owns, operates, or maintains a store, warehouse, or other place of business in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought for the account of such person and sold to the public in the usual course of business, and whose principal business is such purchase and sale of such materials, supplies, articles, or equipment.

(iv) A regular dealer in raw cotton may be a person who owns, operates or maintains a store, warehouse, or other place of business in which materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought for the account of

such person and sold to the public in the usual course of business, and whose principal business is such purchase and sale of such materials, supplies, articles or equipment.

(v) A regular dealer in green coffee may be a person who owns, operates or maintains a store, warehouse, or other place of business in which materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought for the account of such person and sold to the public in the usual course of business, and whose principal business is such purchase and sale of such materials, supplies, articles or equipment.

(vi) A regular dealer in petroleum may be a person who owns, operates, or maintains petroleum distribution equipment and a store, warehouse, or other place of business in which petroleum products of the general character described by the specifications and required under the contract are bought for the account of such person and sold to the public in the usual course of business, and whose principal business is such purchase and sale of such petroleum products.

(vii) A regular dealer in agricultural liming materials may be a person who owns or controls the necessary equipment customarily required for delivering agricultural liming materials to farms or for spreading such materials on fields, who has made arrangements to purchase liming materials of the general character described by the specifications and required under the contract from a manufacturer, and who offers such material for sale to the public in the usual course of business.

(viii) A regular dealer in tea may be an importer who owns, operates, or maintains a store, warehouse, or other place of business in which materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought for the account of such person and sold to the public in the usual course of business.

(ix) A regular dealer in raw or unmanufactured cotton linters may be a person who owns, operates or maintains a store, warehouse, or other place of business in which materials, supplies, articles, or equipment of the general character described in the specifications and required under the contract are bought for the account of such person and sold to the public in the usual course of business, and whose principal business is such purchase and sale of such materials, supplies, articles, or equipment.

(x) A regular dealer in used automatic data processing equipment may be a person who owns or controls previously owned or used items, materials, supplies, articles, or equipment of the

general character described in the specifications and required under the contract and who offers such items for sale to the public in the usual course of business and whose principal business is the purchase and sale of such items, materials, supplies, articles, or equipment.

(3)(i)(A) Except as hereinafter provided, every bid received from any bidder who does not fall within one of the foregoing categories shall be rejected by the contracting officer.

(B) If it is discovered after an award that the bidder did not act in good faith in representing that it was a manufacturer or regular dealer within the meaning of the stipulations as interpreted in this Chapter 50, the contracting officer, immediately upon such discovery, may exercise his/her right to terminate the contract and to make open market purchases or to enter into other contracts for the completion of the original contract, charging any additional cost to the original contractor. Lack of good faith should be judged on the basis of all facts in the case.

(ii) Whenever justice and the public interest will be served, bids for a contract or class of contracts will be exempted from the foregoing requirement by the Secretary of Labor upon the request of the head of the contracting agency or department when accompanied by his finding of fact that it will be so difficult to obtain satisfactory bids for the contract or class of contracts under the stipulated restrictions, that the conduct of the Government business will be seriously impaired.

(b) *Determination of eligibility.* (1) The responsibility for applying the stated eligibility requirements in order to determine whether or not a bidder is qualified as a manufacturer or regular dealer before award rests in the first instance with the contracting agency pursuant to authority delegated by the Secretary of Labor in accordance with section 4 of the Act. (Circular Letter 8-61.) Contracting agencies shall obtain and consider all available factual evidence essential to eligibility determinations for all bidders in line for award of contracts subject to the Act.

(2) Any decision of the contracting agency is subject to review by the Department of Labor according to the procedures outlined below. The decision of the Department of Labor shall be final with respect to the procurement or procurements at issue.

(3) The Department of Labor shall give great weight to the technical knowledge and expertise of the contracting agencies and the Department of Labor shall uphold the contracting agencies' initial determinations unless the determinations are found to be arbitrary, capricious or otherwise not in

accordance with the evidence presented or with the law.

(4) The Department of Labor may determine the qualifications of a bidder in the first instance in the absence of any decision by the contracting agency.

(5) The contracting agency shall investigate and determine the Walsh-Healey eligibility status of a bidder in at least the following circumstances and shall not merely rely on the representation or affirmation of a bidder:

(i) In all cases where the bidder (or bidders) in line for contract award has not previously been awarded a contract subject to the Act by the individual procuring office and/or where a pre-award investigation or survey of such bidder's operations is otherwise made to determine the technical and production capability, plant facilities and equipment, subcontracting and labor resources of such bidder (or bidders).

(ii) In all cases where there is a protest of a bidder's eligibility; and

(iii) In all cases where a contracting officer may have reason to question a bidder's eligibility, such as where the proposed place of contract performance and shipment is other than the location of the bidder's place of business.

(6) The following procedures shall be utilized by the contracting officer in processing an eligibility case:

(i) When the contracting officer has determined that an apparently successful bidder or offeror is ineligible, the contracting officer shall promptly notify the bidder or offeror in writing that:

(A) It does not meet the eligibility requirements, and the specific reason therefor;

(B) If it wishes to protest such determination, it may submit any evidence concerning its eligibility to the contracting officer within a reasonable time as set by the contracting officer; and

(C) (1) If, after review of the evidence submitted by the bidder or offeror, the contracting officer does not reverse the decision, the bidder or offeror shall be notified of the contracting officer's determination and the reasons therefor. If the bidder or offeror still disagrees with the finding, the bidder's or offeror's protest, together with all pertinent evidence, will be forwarded to the Administrator of the Wage and Hour Division of the Department of Labor for a final determination, and the bidder or offeror will be so notified.

(2) In the case of a small business concern, the protest and all pertinent evidence will be forwarded to the Administrator of the Small Business Administration and the bidder or offeror so notified. The Administrator of the Small Business Administration shall

review the finding of the contracting officer and shall either dismiss it and certify the small business concern to be eligible for the contract award in question, or if it concurs in the finding, forward the matter to the Administrator of the Wage and Hour Division for a final determination, in which case the Small Business Administration may certify the small business concern only if the Wage and Hour Division finds the small business concern to be eligible. The Small Business Administration is bound by the regulations and interpretations of the Department of Labor in making its determinations of eligibility under the Public Contract Act.

(ii) (A) When another bidder or offeror challenges the eligibility of the apparently successful bidder or offeror prior to award, the contracting officer shall promptly notify the protestor and the apparently successful bidder or offer in writing:

(1) That they may submit evidence concerning the matter to the contracting officer within a reasonable time as set by the contracting officer; and

(2) That after review of such evidence the contracting officer will direct a preaward survey, if necessary, and reach a decision on all the evidence and notify the protestor and successful bidder of his/her finding. If either party disagrees with the finding, the contracting officer shall then forward the decision and entire record to the Administrator of the Wage and Hour Division for a final determination. However, in the case of a small business concern, the protest and all pertinent evidence will be forwarded to the Administrator of the Small Business Administration, and the procedures set forth in § 50-201.101(b)(6)(i)(C)(2) shall be followed.

(iii) (A) If the contracting officer forwards the case to the Department of Labor for review of eligibility under the Act, award will be held in abeyance until the contracting officer receives a final determination from the Department of Labor, unless the contracting officer finds that award should be made immediately because:

(1) The items to be procured are urgently required; or

(2) Delay of delivery or performance by failure to make the award promptly will result in substantial hardship to the Government.

(B) If the contracting officer decides to proceed with the award, the contracting officer shall give written notice of the decision to proceed to the protestor, the Department of Labor and to other concerned parties.

(iv) If an award is made under paragraph (b)(6)(iii) of this section, the contracting officer shall submit to the Department of Labor documentation explaining the need for making an award prior to the receipt of a final

determination from the Administrator of the Wage and Hour Division.

(v) A protest received after award, but before final completion of the contract, shall be investigated and processed under the provisions outlined in paragraph (b)(6)(ii) of this section and forwarded to the Department of Labor, and the protestor shall be so notified.

(vi) If the contract has been completed before receipt of the protest, the protestor shall be notified that no action will be taken on the protest.

2. There is hereby added to Part 50-201 a new § 50-201.301 reading as follows:

50-201.301 Agency regulations.

Each agency which prescribe additional regulations for the Administration of the Walsh-Healey Public Contracts Act and for the implementation of the regulations in this part, shall submit such regulations, directives, and orders to the Administrator of the Wage and Hour Division prior to issuance. Any such regulations may not be enforced prior to approval by the Administrator or prior to 60 days after submission if not disapproved by the Administrator. Currently existing regulations are not affected by this section, except where such regulations are not in conformity with the Walsh-Healey Public Contracts Act and the Department of Labor regulations. In such cases, agency regulations shall be appropriately revised.

3. A new Part 50-206 is added to Chapter 50, Title 41, as follows:

Subpart A—General

- Sec.
50-206.1 The Walsh-Healey Public Contracts Act.
50-206.2 Administration of the Act.
50-206.3 Purpose and scope of this part.

Subpart B—[Reserved]

Subpart C—Contractors

QUALIFICATION OF CONTRACTOR

- 50-206.50 To whom covered contracts may be awarded—eligibility.
50-206.51 Manufacturer.
50-206.52 Assembler.
50-206.53 Regular dealer.
50-206.54 Regular dealer in particular products.
50-206.55 Agents.
50-206.56 Administrative exemptions.

AUTHORITY: Sec. 4, 49 Stat. 2038, 41 U.S.C. 38, Secretary of Labor's Order No. 18-75, 40 FR 55913, and Employment Standards Order 2-76, 41 FR 9016.

Subpart A—General

§ 50-206.1 The Walsh-Healey Public Contracts Act.

The Walsh-Healey Public Contracts Act, as amended (41 U.S.C. 35-45), hereinafter referred to as the Act, was enacted "to provide conditions for the purchase of supplies and the making of contracts by the United States." It is not an act of general applicability to industry. The Supreme Court has described it as an instruction by the Government to its agents who were selected and granted final authority to fix the terms and conditions under which the Government will permit goods to be sold to it. Its purpose, according to the Supreme Court "was to impose obligations upon those favored with Government business and to obviate the possibility that any part of our tremendous national expenditures would go to forces tending to depress wages and purchasing power and offending fair social standards of employment." ("Perkins v. Lukens Steel Co.," 310 U.S. 113, 128 (1940); "Endicott Johnson Corp. v. Perkins," 317 U.S. 501 (1943).) To this end, the Act requires those who enter into contracts to perform Government work subject to its terms to adhere to specifically prescribed representations and stipulations as set forth in 41 CFR 50-201.1 pertaining to qualifications of contractors, minimum wages, overtime pay, safe and sanitary working conditions of workers employed on the contract, the use of child labor or convict labor on the contract work, and the enforcement of such provisions. Except as otherwise specifically provided, these representations and stipulations are required to be included in every contract "for the manufacture or furnishing of materials, supplies, articles, and equipment in any amount exceeding \$10,000" which is made and entered into by an agency of the United States or other entity as designated in section 1 of the Act, hereinafter referred to as "contracting agency." Contractors performing work subject to the Act thus "enter into competition to obtain Government business on terms of which they are fairly forewarned by inclusion in the contract." ("Endicott Johnson Corp. v. Perkins, supra," 317 U.S. at 507.) The Act also provides for enforcement of the required representations and stipulations by various methods. Certain exemptions from the application of the Act are provided in section 9 of the statute. Other exemptions, variations, and tolerances may be provided under section 6 of the statute by the Secretary of Labor or the President.

§ 50-206.2 Administration of the Act.

(a) The Secretary of Labor is authorized and directed to administer the provisions of the Act, to make investi-

gations, findings, and decisions thereunder, and to make, amend, and rescind rules and regulations with respect to its application (see sections 4 and 5). The Supreme Court has recognized that the Secretary may issue rulings defining the coverage of the Act. ("Endicott Johnson Corp. v. Perkins, supra".) According to the Court (ibid.), in the statute as originally enacted "Congress submitted the administration of the Act to the judgment of the Secretary of Labor, not to the judgment of the courts." An amendment to the Act in 1952 added specific provisions for judicial review (see section 10). The Secretary has promulgated regulations to carry out provisions of the Act, which are set forth elsewhere in this chapter (Part 50-201 (general regulations); Part 50-202 (minimum wage determinations); Part 50-203 (rules of practice); and Part 50-204 (Safety and Health Standards)). The Secretary of Labor has delegated to the Administrator of the Wage and Hour Division through the Assistant Secretary for Employment Standards the authority to promulgate regulations and to issue official rulings and interpretations. So long as such regulations, rulings, and interpretations are not modified, amended, rescinded, or determined by judicial authority to be incorrect, they may be relied upon as provided in section 10 of the Portal-to-Portal Act of 1947 (61 Stat. 84, 29 U.S.C. 251, et seq., discussed in 29 CFR Part 790). Furthermore, these interpretations are intended to indicate the construction of the law which the Department of Labor believes to be correct and which will be followed in the administration of the Act unless and until directed otherwise by Act of Congress or by authoritative rulings of the courts. ("Skidmore v. Swift & Co.", 323 U.S. 134 (1944), "Roland Co. v. Walling", 326 U.S. 657 (1946); "Endicott Johnson Corp. v. Perkins, supra", and "Perkins v. Lukens Steel Co., supra".)

(b) The courts have held that the "interpretations of the Walsh-Healey Act and the regulations adopted thereunder, as made by the Secretary of Labor acting through his Administrator, are both correct and reasonable." ("Jno. McCall Coal Company v. United States," 374 F. 2d 689, 692 (C.A. 4, 1967); see also "United States v. Davison Fuel and Dock Company," 371 F. 2d 705, 711-714 (C.A. 4, 1967).) These policies are designed to protect not only employees but also the competitive interest of all firms qualified to compete for covered contracts.

§ 50-206.3 Purpose and scope of this part.

It is the purpose of this Part 50-206 to make available, in codified form for the guidance of agencies of the United States or other entities designed in section 1 of the Act and persons or

firms contracting therewith, official rulings and interpretations with respect to the Walsh-Healey Public Contracts Act. This part constitutes the official statement of the position of the Department of Labor in matters relating to this Act. The interpretative rules herein stated supersede, to the extent of any inconsistency, Rulings and Interpretations No. 3 and all other rulings, interpretations, and enforcement policies not set forth in this chapter. This Part 50-206 illustrates the principles stated herein by showing their application to situations which frequently arise. Since it cannot include every possible situation, no inference should be drawn from the fact that a subject or illustration is omitted. If doubt arises, inquiries should be directed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington, D.C. 20210, or to any Regional Office of the Wage and Hour Division.

Subpart B—[Reserved]

Subpart C—Contractors

QUALIFICATIONS OF CONTRACTORS

§ 50-206.50 To whom covered contracts may be awarded—eligibility.

(a)(1) Section 1(a) of the Act requires that every contract subject to the Act shall contain a representation and stipulation by the contractor that it is either "the manufacturer of or a regular dealer in" the commodities to be manufactured or used in the performance of the contract. As noted in the following sections, these terms are defined by regulation. The legislative history makes it clear that this statutory requirement is intended, among other things, to eliminate the award of contracts to "bid brokers," and to provide labor standards protection for employees who actually engage in the manufacture or furnishing of the goods to the Government, by requiring, among other things, that the Government award contracts only to bona fide manufacturers or regular dealers. A breach of this required stipulation is a violation of the Act; however, a contractor who has been awarded a contract in spite of its failure to qualify as a manufacturer or regular dealer is not relieved of its obligation to comply with the other requirements of the Act and regulations, which are also contract stipulations.

(2) In implementing Section 1(a) of the Act, the Secretary of Labor has defined in 41 CFR 50-201.101 the terms "manufacturer" and "regular dealer" by stating the affirmative requirements that must be met by potential contractors before they may receive Government contracts subject to the Act. Every bid from any bidder who is not a manufacturer or regular dealer, as defined therein and in ac-

cordance with this subpart, must be rejected by the contracting officer. See 41 CFR 50-201.101(a)(3)(i).

(3) The provisions of 41 CFR 50-201.1 require that the representations and stipulations prescribed in section 1 of the Act must be included in invitations to bid and in contracts subject to the Act, either in full or by incorporation by reference. Since no qualifications may be placed on the required representations and stipulations, any bid which seeks to avoid full compliance with the Act by any qualification or reservation must be rejected. (See 16 Comp. Gen. 593.)

(b) The responsibility for applying the stated eligibility requirements in order to determine whether or not a bidder is qualified as a manufacturer or regular dealer before award rests in the first instance with the contracting agency pursuant to authority delegated by the Secretary of Labor in accordance with section 4 of the Act (Circular Letter 8-61), as detailed in § 50-201.101(b) of Part 50-201 of this chapter. It is the obligation of the contracting agencies to obtain and consider all factual evidence essential to eligibility determinations for all bidders in line for award of contracts subject to the Act.

§ 50-206.51 Manufacturer.

(a)(1) Section 50-201.101(a)(1) of Regulations 41 CFR Part 50-201, defines a manufacturer as a "person who owns, operates, or maintains a factory or establishment that produces on the premises the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications."

(2) Generally, there should be no question as to a bidder's eligibility. The bidder either has, or has not, the requisite plant, equipment and personnel to produce on its own premises the goods called for under the Government contract.

(b) A bidder who desires to qualify for an award as a manufacturer must show before the award that it is (1) an established manufacturer of the particular good or goods of the general character sought by the Government (i.e., that the bidder has a plant, equipment and personnel to manufacture on its own premises the goods called for under the contract) or (2) if the bidder is "newly entering" into such manufacturing activity that the bidder has made all necessary prior arrangements and definite commitments for (i) manufacturing space, (ii) equipment, and (iii) personnel to perform on its own premises the manufacturing operations required for the fulfillment of the contract. A new firm which, prior to the award of a contract, has made such definite prior arrangements and commitments in order to enter a manufacturing business

which will qualify it should not be barred from receiving the award because it has not yet done any manufacturing, even if such arrangement and commitments are contingent upon the award of a Government contract. However, in order to meet the "definite commitment" test for "newly entering" firms, the bidder must have entered into written, legally binding arrangements and commitments prior to, even though contingent upon, award, under which the bidder would acquire for itself plant, equipment and personnel if awarded the Government contract. This would be evidence of a bona fide intent to establish a continuing manufacturing entity and, as such, to become an eligible manufacturer. This requirement is intended to exclude from eligibility bidders who make unsubstantiated assertions that they are eligible and then totally subcontract or broker the contract after award.

(c)(1) In general, such "newly entering" firm must show that the manufacturing activity in question is not one which has been set up solely to produce on a Government contract and whose operations will be terminated upon completion of that contract. In effect, the firm must have established arrangements on a continuing basis for production of the goods desired by the Government.

(2) The documentation required to evidence prior arrangements and definite commitments will vary depending upon the facts and circumstances of the particular case. The contents and bona fides of all documentation and arrangements must be examined to determine if the spirit and intent of the Act and the regulations have been met. The following are examples of what the Department of Labor considers as sufficient evidence of all necessary prior arrangements and definite commitments:

(i) Manufacturing space can be either owned or leased by and in the name of the bidder. A recorded deed to the bidder's property in which the manufacturing is to take place, or a copy of a properly executed bona fide lease agreement clearly identifying the manufacturing space and setting forth the terms and conditions of the lease, would generally be considered evidence of prior arrangements and definite commitments for space. In addition, as noted above, any such lease agreement must be legally binding on the part of both parties to the agreement, the space must be for the exclusive and unrestricted use of the lessee, and the term of the lease must be of sufficient duration so that the bidder will be able to clearly fulfill the contract before the lease expires.

(ii)(A) The bidder must own or have made written, legally binding definite commitments to purchase or lease suf-

ficient equipment to manufacture the goods, materials, or articles required for contract fulfillment. A bidder must have full, complete and unrestricted control of the necessary equipment. A bill of sale or a purchase order may evidence definite commitments for equipment. The general requirements with respect to a bill of sale or purchase order are that it be dated and signed by the bidder, specifically identifying and describing the equipment and the terms of payment for the equipment purchased or to be purchased, and containing the date by which the vendor delivered or is required to deliver the equipment.

(B) The vendor must provide written evidence of acceptance, such as a bill or invoice, acknowledging receipt of the purchase order, as written, and setting forth the terms of payment in accordance with prevailing business practice. Such documentation is normally associated with the consummation of a sale in the usual conduct of business transactions.

(C) Letters of intent for space and equipment or vendor quotations or offers to sell or lease space or equipment, or affidavit that a sale or conveyance has occurred, do not constitute legally binding contractual agreements or definite commitments.

(iii) The best evidence of available personnel is the presence on the payroll of the manufacturing employees necessary to fulfill the contract. However, affirmative evidence which the bidder submits showing what prior arrangements and definite commitments it has made to hire its own manufacturing personnel will be considered.

(d) A bidder's mere representation or affirmation that he is a qualified manufacturer or has fulfilled the above applicable conditions is insufficient. Evidence must be presented to the contracting agency which shows that these conditions are, in fact, met prior to any award of a contract subject to the Act. If it is discovered after an award that the bidder did not act in good faith by actually fulfilling these acquisition requirements, such contract award shall, in accordance with § 50-201.101(a)(3)(i)(A) immediately upon such discovery, be subject to termination by the contracting officer.

(e) The plain language of the Act and regulations makes it clear that covered contracts are to be awarded only to contractors who are currently capable of manufacturing on their premises the goods called for under the contract or who, if newly entering into manufacturing, have made binding commitments before award to enable them to produce such goods as discussed above. Thus, a bidder's arrangements to use, rent, or share the equipment, personnel, or space of another legal entity on a time and material or "as needed" basis do not consti-

tute the making of all necessary prior arrangements or definite commitments. (See "In re Metalcraft Mfg. Sale Corp.", 15 WH Cases 557, 566 (1962).) The Department has consistently held that the availability of the manufacturing and producing establishments of others does not qualify the contractor as a manufacturer as the term is defined herein. See, for example, "In re Electric Ventilating Corp.", 13 WH Cases 220, "In re Dimensional Displays", 12 WH Cases 847, and "In re Paramount Industries, Inc.", 11 WH Cases 721.

(f) Every bidder must qualify in its own right as a manufacturer under the Act. Therefore, all evidence documenting a bidder's eligibility must be in the name of the bidder. Arrangements or proposals for subcontracting, or a bidder's affiliation or relation with another firm, even one having the same officers or ownership, are not definite commitments nor are they evidence of the bidder's own eligibility as a manufacturer, even though such affiliate or subcontractor might be a qualified manufacturer. The fact that one legal entity may qualify as a manufacturer does not confer such status upon another legal entity. (See Decision of the Hearing Examiner, "In re Alden Industries, Inc.," PC-551, March 16, 1954; "In re Alisco Commercial Furniture Co., Inc.," PC-469, July 16, 1952.)

(g) A bidder's eligibility status on a previous Walsh-Healey contract or its performance as a subcontractor on Walsh-Healey contracts are not determinative evidence of the bidder's present eligibility as a manufacturer.

(h) Activities such as engineering, planning, design, inspection, quality control, testing, marking, packaging, and repackaging and shipping may be incidental, ancillary or necessary to manufacturing. Nevertheless, such operations are not, standing alone, or in combination, considered "manufacturing," i.e. fabrication or production. The proposed performance solely of such activities does not qualify a firm as a manufacturer.

§ 50-206.52 Assembler.

(a) As a result of changing technology in the area of manufacturing, the Department has concluded that it is now necessary to provide a fuller discussion of the standards that an assembler must meet to qualify as a manufacturer.

(b)(1) "Assembly" means piecing or bringing together various interdependent or interrelated parts or components so as to make an operable whole or unit. (Decision of the Comptroller General, B-164770, September 3, 1968 (not officially published).) A firm which produces final items on its premises by assembling component parts, all or some of which have been

purchased from others, will generally be considered to be a "manufacturer" where it performs a series of assembly operations utilizing machines, tools and workers which constitute substantial and significant fabrication or production of the desired product. The qualifications of a bidder as a manufacturer who proposes to "assemble" must be decided on the basis of all the facts and circumstances surrounding a particular procurement.

(2) Thus, the determination of whether a bidder proposing to assemble a final product from component parts is an eligible manufacturer must rest on whether the bidder has demonstrated an independent ability, with its plant, equipment and personnel, to perform a significant or substantial portion of the manufacturing operations and efforts required in producing the final product for which the government contracted.

(3) In the alternative, a bidder may also qualify as a manufacturer if it has the facilities to produce on its premises a significant portion of the required component parts needed for the final product even if the bidder will only perform assembly operations under a particular procurement.

(c) Firms which only perform minimal operations upon the item being procured cannot qualify as manufacturers. To allow any such bidder to do so would obviously frustrate the purposes of the Act. As stated in the Decision of the Hearing Examiner "In re Brentwood Radios, Inc.," 12 WH Cases 158, 162 (1954):

Confident that the Act and Regulations defining a manufacturer contemplate something more than the occasional and isolated performance of such a simple assembly operation on but two Government contract items of a sundry nature, as disclosed by the record in this case, I have concluded that the corporation cannot justifiably be regarded as bona fide manufacturer, even of such items, qualified to do business with the Government. Except for the negligible amount of time expended by the two officers of the corporation on such assembly operation over seven years of corporate existence, the corporation has at no time engaged in any other assembly or manufacturing operations for the Government and in no civilian production at all.

(See also "Tyco, Inc. v. Hodgson," 67 CCH Labor Cases ¶ 32,652 (E.D. Va., 1971 (not officially published)); and "In re John F. Noble Company," Decision of the Trial Examiner, PC-184, March 29, 1945.) As the court stated in "George v. Mitchell," 282 F.2d 486, 493 (C.A. D.C., 1960), while Congress in enacting the Walsh-Healey Public Contracts Act "may have been concerned for the small businessman capable of sustaining the administrative burdens of bidding for and processing Government contracts, we do not think it intended to protect producers who could not independently perform those minimal contracting functions."

(d) Packaging by itself does not constitute "assembly." For example, a bidder who proposes to supply bottles of aspirin in units of 100 and whose only operations would be the purchase in bulk of the aspirin and the bottles, the transferring of the aspirin from the bulk container to the bottles, and the labeling, wrapping, and shipping of the bottled aspirin, would not qualify as a manufacturer. Furthermore, a bidder proposing to purchase a hose and a clamp and place the clamp on the hose to make a "hose assembly," and then package and ship the item, is not a manufacturer within the intent of the Act. (See also Decision of the Comptroller General, B-164770, September 3, 1968 (not officially published).)

§ 50-206.53 Regular dealer.

(a) A bidder may qualify as a regular dealer under 41 CFR 50-201.101(b) if it owns, operates, or maintains a store, warehouse, or other establishment in which the commodities or goods of the general character described by the specifications and required under the contract are bought, kept in stock, and sold to the public in the usual course of business. The storage of goods in a public warehouse will not in itself satisfy the place of business requirements of this definition unless there is a continuing right (i.e. bona fide written lease agreement) to a specified, identified amount of space in the warehouse. A bidder who desires to qualify for award as a regular dealer must show to the satisfaction of the contracting agency prior to any award that it is engaged in an established, regular business meeting all the criteria of 41 CFR 50-201.101(a)(2). It is not enough in the case of a regular dealer to show only that arrangements have been made to set up such a business; before an award can be made, it is essential that it shows an already established business regularly dealing in the particular goods or goods of the general character offered to the Government.

(b) A bidder must be able to show before award:

(1) That the bidder has an establishment or leased or assigned space in which it regularly maintains a stock of goods in which it claims to be a dealer; if the space is in a public warehouse, it must be maintained on a continuing, and not on a demand, basis;

(2) That the stock maintained is a true inventory from which sales are made; the requirement is not satisfied by a stock of sample or display goods, or by a stock consisting of surplus goods remaining from prior orders, or by stock unrelated to the supplies which are the subject of the bid, or by a stock maintained primarily for the purpose of token compliance with the Act from which few, if any, sales are made;

(3) That the goods stocked are of the same general character as the goods to be supplied under the contract; to be of the same general character, the items to be supplied must be either identical with those in stock or goods for which dealers in the same line of business would be an obvious source;

(4) That sales are made regularly from stock on a recurring basis; they cannot be only occasional and constitute an exception to the usual operations of the business; the proportion of sales from stock that will satisfy the requirements will depend upon the character of the business;

(5) That sales are made regularly in the usual course of business to the public, i.e., to purchasers other than Federal, State, or local Government agencies; this requirement is not satisfied if the contractor merely seeks to sell to the public but has not yet made such sales; if Government agencies are the sole purchasers, the bidder will not qualify as a regular dealer; the number and amount of sales which must be made to the public will necessarily vary with the amount of total sales and the nature of the business; and

(6) That the business is an established and going concern; it is not sufficient to show that arrangements have been made to set up such a business.

(c) With regard to the test in paragraphs (b) (5) and (6) of this section, as stated in the Decision of the Administrator, "In re Herbert Co." (9 WH Cases 561, 562 (1950)): "It is plain that the Act and Regulations intended to bar from receipt of Government contracts those persons whose regular method of operation is to secure contracts and thereafter buy elsewhere the goods necessary to fill the contract. While it was not contemplated by the regulations that every Government contract awarded to a dealer be filled from stock on hand, it was the intention to require that Government contracts should be awarded only to those dealers who maintain a stock of goods of the general character required under the Government contract in question, and who, as a regular course of business dealings, make sales from such stocks. It is not sufficient for a dealer to show that some sales are made from stock, or that sales from stock are not unusual in his business; rather he must show that in the usual course of his business a very substantial amount of his sales are made from stocks on hand" (emphasis added).

(d) Coal dealers are exempted from the regular dealer requirements of the Act on certain express terms and conditions which are set forth in 41 CFR 50-201.604(a). The exemption will be applicable only if these conditions are complied with. If they are not, the

general definition of regular dealers contained in 41 CFR 50-201.101(a)(2) of the regulations would be applicable.

§ 50-206.54 Regular dealer in particular products.

In addition to the exemptions from the requirements of section 1(a) of the Act which have been granted for certain types of contracts as set forth in 41 CFR 50-201.604, special alternate qualifications have been prescribed for hay, grain, feed, or straw; raw cotton; lumber and timber products; machine tools; green coffee, petroleum; agricultural liming materials; tea; raw or unmanufactured cotton linters; certain uranium products and used automated data processing (ADP) equipment in recognition of existing industrial and commercial practices in those industries. These special qualifications may be found in 41 CFR 50-201.101(a)(2) and 41 CFR 50-201.604. Characteristic of these alternative qualifications is the absence of a requirement that the dealer physically maintain a stock.

§ 50-206.55 Agents.

A "manufacturer" or "regular dealer" within the meaning of the Act and regulations may bid, negotiate, and contract through an authorized agent if the agency is disclosed and the agent bids and contracts in the name of the principal. Brokers from whom foreign-made goods consigned directly to the Government are purchased need not qualify as regular dealers under 41 CFR 50-201.101(a)(2) since the contract itself is not subject to the Act.

§ 50-206.56 Administrative exemptions.

Sections 50-201.101(a)(3)(ii) and 50-201.601 of Regulations 41 CFR Part 50-201, provide for the granting of exceptions and exemptions from the application of section 1(a) of the Act upon request by the head of the contracting agency to the Administrator, Wage and Hour Division. Such request should contain all pertinent information enabling the Administrator to determine if such exemption is necessary to avoid the serious impairment of the conduct of Government business. Any such request will be published in the FEDERAL REGISTER as a proposal with time for public comment.

Signed at Washington, D.C., on this 19th day of May 1978.

XAVIER M. VELA,
Administrator,
Wage and Hour Division.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

PART 222—STATEMENTS, REPORTS, AND AGREEMENTS REQUIRED TO BE FILED

Rescission of Vessel Utilization and Performance, Report Filing Requirement

AGENCY: Maritime Administration, Department of Commerce.

ACTION: Final rule.

SUMMARY: The Maritime Administration is developing an automated procedure which will utilize and refine cargo movement and vessel movement data received from the Census Bureau and will eliminate the need to require operators to file Forms MA-721 and 722, Vessel Utilization and Performance Reports. Accordingly, this regulation is being amended to rescind these reporting requirements, effective May 1, 1978. The agency estimates that this will result in a savings to the maritime industry of approximately 70,000 man-hours annually. The requirement for reporting on Form MA-578A, with respect to cargo containers, has been retained, but with simplified and less stringent requirements, and the caption has been amended to reflect that this is the subject of the section. The amendment of this regulation removes an economic burden now imposed on operators of vessels in waterborne foreign commerce of the United States.

EFFECTIVE DATE: May 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Leslie H. Stokes, Chief, Division of Statistics, Maritime Administration, Washington, D.C. 20230, telephone number 202-377-2201.

Accordingly, 46 CFR 222.2 is amended to read as follows:

§ 222.2 Container/Trailer Report-Foreign Trade.

The operator of a vessel carrying 25 or more 8×8×20 foot containers or trailers or the equivalent thereof in twenty-foot equivalent units (TEU's) in waterborne foreign commerce of the United States shall file Form MA-578A in duplicate with the appropriate District Director of Customs for transmittal to the Maritime Administration before midnight of the 30th calendar day after entry into the first U.S. port, and before midnight of the 30th calendar day after clearing the last U.S. port.

AUTHORITY.—Secs. 204(b) and 212(A), Merchant Marine Act, 1936 amended (46 U.S.C. 1114(b) and 1122(a), Reorganization Plans No. 21 of 1950 (64 Stat. 1273), and No. 7 of 1967 (75 Stat. 840), amended by Pub. L. 91-469 (84 Stat. 1036) and Department of Commerce Organization Order 10-8 (36 FR 19707, July 23, 1973).

NOTE.—The Maritime Administration has determined that this is not a significant regulation that requires publication in proposed form, with an opportunity for public comment, in accordance with Executive Order 12044 (43 FR 12661, March 24, 1978).

Dated: May 23, 1978.

BY ORDER of the Assistant Secretary for Maritime Affairs, Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

(FR Doc. 78-14944 Filed 5-26-78; 8:45 am)

[6730-01]

CHAPTER IV—FEDERAL MARITIME COMMISSION

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

(General Order 29, Amdt. 3)

PART 549—REGULATIONS GOVERNING LEVEL OF MILITARY RATES

Change in Reporting Period

AGENCY: Federal Maritime Commission.

ACTION: Final rule.

SUMMARY: The Federal Maritime Commission (the Commission) is revising its regulations governing level of military rates under the Military Sealift Command (MSC) bid procurement system for obtaining space for ocean transportation on liner vessels. The change permits bidders to utilize cost and statistical data for 12-month periods ending up to nine months prior to the effective date of supplying the transportation service. This change is necessary because MSC changed its bidding periods to conform with the change in the Federal government fiscal year. The intent of this amendment is to permit bidders to utilize data in the same way they are currently using data.

EFFECTIVE DATE: May 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, 202-523-5725.

SUPPLEMENTARY INFORMATION: Pursuant to the authority of section

18(b)(5) of the Shipping Act, 1916 (46 U.S.C. 817); the Federal Maritime Commission, hereinafter referred to as the Commission, is directed to disapprove any such rate or charge which it finds to be so unreasonably high or low as to be detrimental to the commerce of the United States. Part 549 (General Order 29) of the Commission's regulations establishes rules and regulations governing the accounting and allocation procedures which are to be utilized by U.S. flag carriers in arriving at military cargo rate quotations. Any carrier receiving an award from the Military Sealift Command (MSC) pursuant to a Request For Proposal (RFP) must certify that the rate meets the minimum rate criterion established by the Order.

General Order 29 requires the historical cost period supporting these bids to be the 12-month period ending with the close of the previous RFP cycle.

The U.S. Government changed its fiscal year from June 30 to September 30 during 1977. In accordance, MSC changed its bid cycles to coincide with the government's new fiscal year close, i.e., September 30 and March 31. The effect of the MSC change is to require carriers to collect data in support of their bids as of March 31 and September 30 in lieu of June 30 and December 31. Currently, all carriers reporting under General Order 29 operate on a calendar year, i.e., December 31. To collect the data required by General Order 29 on a basis other than a calendar year would at the very minimum force a carrier to compile special data for each cycle instead of only for the June 30 accounting period. To eliminate the burden of a carrier maintaining its accounting and statistical system data on a quarterly basis and to reduce the possibility of error involved in piecing together information from two fiscal periods, the Commission is revising its regulations to allow for the continued use by affected carriers of a cost experience period which is compatible with their actual year-end closing.

Therefore, pursuant to sections 18(b)(5) and 43 of the Shipping Act, 1916 (46 U.S.C. 817 and 841a) and 5 U.S.C. 553, § 549.5(a)(1) of Title 46 CFR is amended to read as follows:

§ 549.5 General principles.

(a) *Cost experience period.* (1) For the purposes of this Part, the actual cost experience utilized shall be for a 12-month period ending not more than nine (9) months from the close of the previous RFP Cycle (e.g., for RFP 1400, Second Cycle, Rates, the relevant cost experience would be July 1, 1978 to June 30, 1979).

Notice and opportunity for comments is not necessary due to the fact no additional requirements are being

RULES AND REGULATIONS

placed on reporting carriers. Therefore, this amendment shall become effective May 30, 1978.

FRANCIS C. HURNEY,
Secretary.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. MC-19 (Sub-No. 33)]

PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTER- STATE OR FOREIGN COMMERCE

Practices of Motor Common Carriers of Household Goods (Reweighing of Shipments)

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Interstate Commerce Commission has modified its regulations governing the transportation of household goods to provide that a shipper may demand that a shipment of household goods be reweighed at any time prior to delivery of that shipment. This modification is made to further protect the interests of the shipping public.

DATES: Effective May 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg 202-275-7292.

SUPPLEMENTARY INFORMATION: The Commission has modified its regulations governing the reweighing of household goods shipments (49 CFR 1056.6(d)) to provide that a carrier, upon request of the shipper, or its representative, made prior to delivery of the shipment, will reweigh the shipment. This modification will make clear that the shipper has a right to demand a reweigh at any time prior to delivery of the shipment and will ensure that the shipper is given ample opportunity to protect itself against inaccurate weighing and improperly assessed interstate transportation charges.

These rules are issued under the authority of part II of the Interstate Commerce Act and 5 U.S.C. §§ 552, 553, and 559 (the Administrative Procedure Act).

Issued in Washington, D.C., May 16, 1978.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

RULE CHANGE: This action modifies the provisions of 49 CFR 1056.6(d) by deleting the first sentence of that section and by substituting for that sentence the following: "The carrier, upon request of the shipper or its representative, made prior to delivery of the shipment, will reweigh the shipment."

INTERSTATE COMMERCE COMMISSION,
DECISION

[Ex Parte No. MC-19 (Sub-No. 33)]

PRACTICES OF MOTOR COMMON CARRIERS OF
HOUSEHOLD GOODS (REWEIGHING OF SHIP-
MENTS)

The Commission's regulations governing the reweighing of household goods shipments (49 CFR 1056.6(d)) now provide that a carrier, upon request of the shipper or his representative made prior to the delivery date, must reweigh such shipments. In this proceeding, the Commission proposes to amend the regulations to provide that a request for reweighing may be made at any time before delivery of the shipment. The reweighing regulations under consideration were adopted in Ex Parte No. MC-19 (Sub-No. 8), Practices of Motor Common Carriers of Household Goods, 111 MCC 427 (1970).

ARGUMENT

Three shippers support the proposed modifications. Reynolds Metals Co. and James R. Winston express strong support for the proposal. They believe that it is entirely reasonable to permit reweighing of household goods shipments at any time prior to actual delivery of those shipments. The representative of Air Products and Chemicals, Inc., states that during the 16 years he worked in the household goods industry, he witnessed many errors and omissions by carriers during and after weighing and, as a result, he feels that the Commission should adopt the proposed amendment.

Security Van Lines, Inc., a motor common carrier of household goods, agrees that if the consignee at destination advises the driver delivering the shipment that he or she wants the shipment reweighed, the shipment should and must be reweighed. If the current wording of section 1056.6(d) seems to allow the carrier the opportunity to refuse a reweigh, the language of that section should be corrected. However, Security argues that the proposed revision could create a problem for carriers when the reweigh is requested by the shipper at origin on the day the shipment is to be delivered at destination. It asserts that most drivers call their carriers once a day and it suggests that the carrier might have no way to contact the driver prior to delivery to tell him to reweigh the shipment if the driver has already called in for the day. Security avers that there is no need to amend the reweighing regulations if they have not been abused in their present form.

Aero Mayflower Transit Co., Inc., opposes the proposed modification. It understands that the proposed change would allow the shipper to request a reweigh at the time the driver arrives with the vehicle at the shipper's residence. Mayflower argues that this proposed change is not consistent with the

intent of the Commission in Ex Parte No. MC-19 (Sub-No. 8), supra, since it was not intended to permit a shipper to request a reweigh at the time of delivery. This carrier insists that the proposed amendment would place a financial burden on its owner-operators, because in some cases it would require these owner-operators to travel a substantial distance from the shipper's residence to a scale when a reweigh is requested. This carrier argues that most scales are closed during evening hours and on weekends, notwithstanding the fact that delivery to a shipper may be made at such times. Under the present provisions of Mayflower's tariff, the additional costs cannot be compensated, and if the owner-operator is required to spend the evening or weekend waiting for the scale to open to obtain a reweigh, the cost of doing so must be borne by the owner-operator. Mayflower claims that these operations would affect its ability to recruit and retain owner-operators and that requiring vehicles to be diverted at the last moment prior to delivery in order to perform a reweigh would interfere with the dispatch of those vehicles. It insists that the reweigh charge applicable under certain circumstances would fail to compensate the owner-operator either for additional miles traveled to a scale for a reweigh or for any down time or living costs incurred while waiting for the scale to open to obtain a reweigh.

Movers Round Table, an association of household goods carriers, argues that the language in Ex Parte No. MC 19 (Sub-No. 8) does not support the proposed amendment; that the Commission in that proceeding recognized a need not to interfere unduly with carrier operations and the ability of the carrier to serve other shippers with reasonable dispatch; that no problem has been shown to exist which would warrant the proposed change; that the Commission has not demonstrated that shippers do not have an adequate opportunity to demand reweighing of shipments; and that notice of the proposed amendment does not conform to the Administrative Procedure Act, because that act requires the Commission to show the basis for a proposed change and a "rational connection to evidence showing a need for such change". Movers Round Table insists that if the goal of the proposed amendment is to protect the individual consumer, then shipments for national accounts and for governmental interests should not be covered by the proposed amendment. This organization is also concerned that the carrier might not be able to communicate to the driver that a reweigh has been requested prior to the time that the shipment is delivered. Movers Round Table insists that the reasons for adoption of the proposed amendment should be clearly stated so that shippers who may be inconvenienced by delays resulting from unexpected reweigh demands will know that such action was taken at the behest of the government to protect consumer interests.

¹Under the provisions of § 1056.6(d), the carrier may publish in its tariff a reasonable charge for reweighing shipments, which shall not be applicable when (1) the reweigh net weight is more than 120 pounds below the billed net weight or (2) the billed net weight exceeds by 25 percent or more the estimated weight shown on the Estimate of Charges for Transportation provided pursuant to section 1056.8 of the household goods transportation regulations.

RULES AND REGULATIONS

The American Movers Conference, another association of household goods carriers, believes that the proposed amendment would foster discrimination against those consumers who timely request a reweigh. It argues that substantial labor costs might be incurred if a shipper is permitted to request a reweigh at the time of delivery, because the carrier or its owner-operator may be paying for helpers needed to unload the shipment during the time that the shipment is being reweighed. The conference argues that the proposed amendment may result in reduced productivity, inefficient dispatch of vehicles, and complaints to the Commission as a result of delays to shipments. It points out that Commission regulations now provide a means for the shipper to request a reweigh early in the transportation process. It argues that only in the event that the consumer requests notification of the weight and the carrier does not provide that information should the consumer be provided an opportunity to request a reweigh any time prior to delivery of the shipment. AMC believes that the Commission should strengthen the language of its consumer publications to stress the importance of requesting a reweigh at the earliest possible time, and it argues that a decision in this proceeding would be precipitous in light of the fact that other proceedings are pending which might be affected by this decision.

DISCUSSION AND CONCLUSIONS

We propose to modify § 1056.6(d) of the household goods transportation regulations to permit shippers to demand a reweigh at any time prior to delivery of the shipment. Present § 1056.6(d) appears to permit what we consider to be an unreasonable practice. It would seem to permit carriers to require a shipper to request a reweigh at least one day in advance of delivery or forego the reweighing of that shipment. In order to prevent shippers from being deprived of their right to a reweigh and in order to harmonize the language of the regulation with the intention of the Commission as expressed in Ex Parte No. MC 19 (Sub-No. 8), supra, and Ex Parte No. MC 19 (Sub-No. 14), Practices of Motor Common Carriers of Household Goods (Reweighing of Shipments), 114 MCC 279 (1971), we will adopt the proposed modification.

Questions have been raised regarding the intention of the Commission in adopting the reweighing regulations in Ex Parte No. MC 19 (Sub-No. 8). Our review of the relevant portion of that proceeding, 111 MCC at 474-476, convinces us that the Commission did in fact intend to permit the shipper to request a reweigh at any time prior to delivery. The modification proposed in that proceeding (as described at 111 MCC 474) would have required the carrier to provide a reweigh upon request of the shipper "made prior to delivery of a shipment." In discussing the adoption of proposed § 1056.6(d), the Commission noted that the proposed section would delete the qualifying phrase "and when practicable to do so" from the then applicable regulations, a strong suggestion that the Commission intended to require a reweigh at any time prior to delivery, regardless of the circumstances surrounding that delivery. On the other hand, no specific rationale is given for inclusion of the requirement that a request for reweigh must be made "prior to the delivery date," and we must conclude that use of that particular phrase was inadvertent and erroneous.

The Commission's statement at 111 MCC 475 that "reweighing, with or without the presence of the shipper, must not be allowed to interfere unduly with carrier operations and the ability of the carrier to serve other shippers with reasonable dispatch," does not suggest that the right to a reweigh could be abrogated if such a reweigh were merely somewhat inconvenient for the carrier. The modification proposed in this proceeding is consistent with the Commission's statements in Ex Parte No. MC 19 (Sub-No. 8), supra.

The purpose of this proceeding and of the reweighing regulations is to give the household goods shipper the fullest opportunity to demand and receive a reweigh. This principle applies whether that shipper is an individual household, a national account shipper (such as Reynolds or Air Products), or a shipper whose goods are moving under a government bill of lading. Each of these shippers is entitled to the protection which reweighing offers, and no purpose would be served by limiting the application of the existing regulations or the proposed modification solely to individual householders.

We recognize that in some instances additional costs might be incurred by the carrier or its employees, agents, or owner-operators when the shipper demands a reweigh. The allocation of these costs between the principal carrier and its agents and employees is a contractual matter to be resolved between the affected parties. The possibility that some of the costs of reweighing might ultimately be borne by carriers or their owner-operators does not convince us that we should diminish the protection which the modified rule would provide for the shipper. The present record lacks sufficient concrete evidence concerning the possible cost increases which might be incurred as a result of the modification of the reweighing regulations. In the absence of such evidence, we cannot say either that existing charges for reweighing services are inadequate or that the financial burdens to be assumed by carriers as a result of the modification outweigh the need for protection of the shipper's right to a reweigh.

Nor do we find persuasive the carriers' arguments that their operating practices might not permit a reweigh to be accomplished prior to delivery. By adopting the proposed modification, we are placing full responsibility for arranging a reweigh directly upon the carriers and their operating personnel. We insist that the shipper be given the right to a reweigh at any time prior to delivery. Given the multitude of differing carrier operating practices, we could not presume to specify in each instance how a reweigh is to be accomplished. We believe that the manner in which shipments are to be reweighed prior to delivery is for the carriers and their agents and employees to determine. If carrier operating practices need revision to permit reweighing upon demand prior to delivery, we expect those practices to be revised. If carriers wish to emphasize to the shipper the right to a reweigh and the most efficient means to accomplish a reweigh prior to delivery, they may do so under the regulations.

This does not appear to be the type of provision of which household goods shippers will take undue or unfair advantage. Given the psychological impact of safe delivery of the shipper's household goods and the possibility that a charge might be imposed for a reweigh, it is unlikely that many shippers would avail themselves of the

reweigh provisions of § 1056.6(d) unless they have had good cause for doing so.

We see no purpose in delaying the adoption of this modification until completion of other pending Commission proceedings. The issue raised in this proceeding is easily separable from the issue raised in Ex Parte No. MC 19 (Sub-No. 23), Practices of Motor Common Carriers of Household Goods (Investigation into Estimating Practices), interim report served April 26, 1968, (not printed, embracing that portion of Ex Parte No. MC 19 (Sub-No. 20) insofar as it relates to uniform household goods transportation documents). Adoption of the proposed modification will not prejudice the rights of parties in Ex Parte No. MC 19 (Sub-No. 23) nor will it conflict with the regulations proposed in that proceeding. Form BOP 103, Summary of Information for Shippers of Household Goods, will be revised to reflect the changes made in this proceeding when general revisions are made to that pamphlet after completion of certain other rulemakings now in progress.

We find: Part 1056 of Chapter X of Title 49 of the Code of Federal Regulations should be amended by modifying section 1056.6(d) as described in the attached notice. This amendment is lawful, and is reasonable and necessary to the effective enforcement of the provisions of part II of the Interstate Commerce Act as amended. This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

It is ordered: Part 1056 of Chapter X of Title 49 of the Code of Federal Regulations is modified in the manner described in the attached notice. This order shall become effective May 31, 1978.

Notice of the adoption of the rules set forth in the attached notice shall be given to the general public by depositing a copy of this report in the Office of the Secretary of the Interstate Commerce Commission at Washington, D.C., and by filing a copy of the notice with the Director, Office of the Federal Register. This action is taken under the provisions of part II of the Interstate Commerce Act, as amended, and under the provisions of 5 U.S.C. 552, 553, and 559 (the Administrative Procedure Act).

Decided May 16, 1978.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

RURAL TELEPHONE PROGRAM

Proposed Revision of REA Specification PE-41 for Improved 500 Type Telephone Sets

AGENCY: Rural Electrification Administration.

ACTION: Proposed rule.

SUMMARY: REA proposes to revise REA Bulletin 345-74 to announce the revision of REA Specification PE-41 for Improved 500 Type Telephone Sets. This specification was revised to include changes in transmission requirements and to upgrade the requirements covering the physical characteristics of telephone sets. The effect of this action will be to reflect present manufacturing state-of-the-art and to improve the physical performance of telephone sets. On issuance of REA Bulletin 345-74, appendix A to part 1701 will be modified accordingly.

DATE: Public comments must be received by REA no later than June 29, 1978.

ADDRESS: Persons interested in the revised specification may submit written data, views or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Claude F. Buster, Jr., Chief, Station Equipment and Protection Branch, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1347, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202-447-3173.

SUPPLEMENTARY INFORMATION: Notice is hereby given that pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue REA Bulletin 345-74. A copy of the proposed revision of

REA Bulletin 345-74 and the proposed revision of REA Specification PE-41 may be secured in person or by written request from the Director, Telephone Operations and Standards Division.

Dated: May 23, 1978.

[7 CFR Part 1701]

RURAL TELEPHONE PROGRAM

Proposed New REA Specification PE-75 for Flat Oval Telephone Cords

AGENCY: Rural Electrification Administration.

ACTION: Proposed rule.

SUMMARY: REA proposes to issue REA Bulletin 345-80 to announce the issuance of a new REA Specification PE-75 for Flat Oval Telephone Cords. This specification was developed to cover the electrical and physical requirements for telephone line and handset cords for use with the standard telephone sets as described in REA Specification PE-41. The effect of this action will be to standardize telephone line and handset cords and provide for uniform performance characteristics. On issuance of REA Bulletin 345-80, appendix A to part 1701 will be modified accordingly.

DATE: Public comments must be received by REA no later than June 29, 1978.

ADDRESS: Persons interested in the new specification may submit written data, views or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 78-CE-13]

TRANSITION AREA, CONCORDIA, KANS.

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This Notice proposes to designate a 700-foot transition area at Concordia, Kans., to provide controlled airspace for aircraft executing a new instrument approach procedure to the Blosser Municipal Airport, Concordia, Kans., which is based on a non-directional radio beacon (NDB) navigational aid installed on the airport.

DATES: Comments must be received on or before August 5, 1978.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Chief, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE530, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408. The official docket may be examined at the Office of the Regional Counsel, Central Region, Federal Aviation Administration, Room 1558, 601 East 12th Street, Kansas City, Mo. An informal docket may be examined at the Office of the Chief, Operations, Procedures, and Airspace Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Gary W. Tucker, Airspace Specialist, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE-538, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number, and be submitted in duplicate to the Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before August 5, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this Notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures, and Airspace Branch, 601 East 12th Street, Kansas City, Mo. 64106 or by calling 816-374-3408. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to Subpart G, §71.181 of the Federal Aviation Regulations (14 CFR 71.181) by designating a 700-foot transition area at Concordia, Kans. To enhance airport usage by providing instrument approach capability to the Blosser Municipal Airport, the City of Concordia, Kans., has installed an NDB on the airport. This radio facility provides new navigational guidance for aircraft utilizing the airport. The establishment of a new instrument approach procedure based on this navigational aid entails designation of a transition area at Concordia, Kans., at and above 700-feet Above Ground Level (AGL) within which aircraft are provided air traffic control service. The intended effect of this action is to ensure segregation of aircraft using the approach procedure under Instrument Flight Rules (IFR) and other aircraft operating under Visual Flight Rules (VFR).

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, §71.181 of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), by adding the following new transition area:

CONCORDIA, KANS.

That airspace extending upward from 700 feet above the surface within a 5 mile radius of Blosser Municipal Airport (latitude 39°32'55" N, longitude 97°39'05" W); and within 3 miles each side of the 346° bearing from Concordia NDB (latitude 39°33'12" N, longitude 97°39'03" W) extending from the 5 mile radius area to 8 mile radius area to 8 miles northwest of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); §11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on May 16, 1978.

JOHN E. SHAW,
Acting Director,
Central Region.

[4910-13]

[14 CFR Part 71]

[Airspace Docket No. 78-CE-8]

TRANSITION AREA, GREAT BEND, KANS.

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This Notice proposes to alter the 700-foot transition area at Great Bend, Kans., to provide additional controlled airspace for aircraft executing a new instrument approach procedure to the Great Bend Municipal Airport which is based on a nondirectional radio beacon (NDB) navigational aid, and a localizer installed on the airport.

DATES: Comments must be received on or before August 5, 1978.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Chief, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE530, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408. The official docket may be examined at the Office of the Regional Counsel, Central Region, Federal Aviation Administration, Room 1558, 601 East 12th Street, Kansas

City, Mo. An informal docket may be examined at the Office of the Chief, Operations, Procedures, and Airspace Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Gary W. Tucker, Airspace Specialist, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE-538, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number, and be submitted in duplicate to the Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before August 5, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this Notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures, and Airspace Branch, 601 East 12th Street, Kansas City, Mo. 64106 or by calling 816-374-3408. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to Subpart G, §71.181 of the Federal Aviation Regulations (14 CFR 71.181) by altering the 700-foot transition area at Great Bend, Kan. To enhance airport usage, an additional instrument approach procedure to the Great Bend Municipal Airport has been established utilizing an NDB and a localizer installed on the airport. The establishment of a new instrument approach procedure based on these facilities entails alteration of the transition area at and above 700-feet Above Ground Level (AGL) within which aircraft will be provided additional controlled airspace protection.

Accordingly, the Federal Aviation Administration proposes to amend

Subpart G, §71.181 of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), by altering the following transition area:

GREAT BEND, KANS.

That airspace extending upward from 700 feet above the surface within a 7 mile radius of the Great Bend Municipal Airport (latitude 38°20'40" N, longitude 98°51'43" W); and within 4.5 miles each side of the 303° bearing from the Great Bend Municipal Airport, extending from the 7 mile radius to 18 miles northwest of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on May 16, 1978.

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This Notice proposes to alter the 700-foot transition area at Wichita, Kans., to provide additional controlled airspace for aircraft executing a new instrument approach procedure to the Cessna Aircraft Field, Wichita, Kans., utilizing the Wichita, Kans. VORTAC.

DATES: Comments must be received on or before August 5, 1978.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Chief, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE-530, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408. The official docket may be examined at the Office of the Regional Counsel, Central Region, Federal Aviation Administration, Room 1558, 601 East 12th Street, Kansas City, Mo. An informal docket may be examined at the Office of the Chief, Operations, Procedures, and Airspace Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Gary W. Tucker, Airspace Specialist, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE538, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they desire. Communications should identify the airspace docket number, and be submitted in duplicate to the Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before August 5, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this Notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures and Airspace Branch, 601 East 12th Street, Kansas City, Mo. 64106 or by calling 816-374-3408. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to Subpart G, §71.181 of the Federal Aviation Regulations (14 CFR 71.181) by altering the 700-foot transition area at Wichita, Kans. To enhance airport usage, a new instrument approach procedure to the Cessna Aircraft Field, Wichita, Kans., is being established utilizing the Wichita, Kans. VORTAC, a navigational aid. The establishment of an instrument approach procedure based on this navigational aid entails alteration of the transition area at Wichita, Kans., at and above 700-feet Above Ground Level (AGL) within which aircraft will be provided additional controlled airspace protection. The intended effect of this action is to ensure segregation of aircraft using the new approach procedure under instrument flight rules (IFR) and other aircraft operating under visual flight rules (VFR).

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, §71.181 of the Federal Avi-

ation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), by altering the following transition area:

WICHITA, KANS.

That airspace extending upward from 700 feet above the surface within an 8.5 mile radius of the Wichita, Kansas Mid-Continent Airport (latitude 37°39'09" N, longitude 97°25'47" W) and from 9.5 miles west of the LOC (BC) to Runway 1L extending from 8.5 miles to 15 miles south of the airport to 4.5 miles east of the LOC (FC) to runway 1R to 6.5 miles east of the 176 radial of the Wichita, Kans. VORTAC facility, extending from the 8.5 mile radius to 15 miles south of the airport; within an 8.5 mile radius of the McConnell AFB (latitude 37°37'26" N, longitude 97°15'51" W); and 2 miles each side of the McConnell AFB ILS localizer south course, extending from the 8.5 mile radius to 13 miles south of the AFB within a 5-mile radius of the Comotara Airpark (latitude 37°44'45" N, longitude 97°13'20" W); and within 2 miles each side of the 344° bearing from the Comotara Airpark extending from the 5 mile radius to 6 miles north; within a 5-mile radius of the Augusta, Kans. Airport (latitude 37°40'21" N, longitude 97°04'38" W); and 3 miles each side of the 116° radial of the Wichita, Kans. VORTAC extending from the 8.5 mile radius of the AFB to 14 miles east of the Cessna Aircraft Field Airport (latitude 37°38'55" N, longitude 97°15'01" W).

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); §11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on May 16, 1978.

JOHN E. SHAW,
Acting Director,
Central Region.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[Docket No. 9043]

UNITED BUILDERS, INC., ET AL.

Consent Agreement with Analysis to Aid
Public Comment

AGENCY: Federal Trade Commission.
ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a Charleston, W. Va. home improvement firm to cease misrepresenting or failing to make relevant disclosures regarding prices, interest rates, savings, discounts and financing arrangements. Further, the firm, in connection with the extension of credit, must cease failing to provide consumers with the materials and disclosures required by Federal Reserve System regulations. The company would additionally be required to establish a \$35,000 escrow account for making restitution to entitled customers, and to effectuate such restitution in a manner prescribed in the agreement.

DATE: Comments must be received on or before July 24, 1978.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Paul R. Peterson, Director, Cleveland Regional Office, Federal Trade Commission, Suite 500, Mall Building, 118 Saint Clair Avenue, Cleveland, Ohio 44114, 216-522-4207.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 3.25 of the Commission's Rules of Practice (16 CFR 3.25), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such

comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

UNITED STATES OF AMERICA BEFORE FEDERAL
TRADE COMMISSIONDOCKET NO. 9043—AGREEMENT CONTAINING
CONSENT ORDER TO CEASE AND DESIST

In the Matter of United Builders, Inc., a corporation, and Marvin Bloom, and Paul Denillo, individually and as officers of said corporation.

The Agreement herein by and between United Builders, Inc., a corporation, by its duly authorized officers, and Marvin Bloom and Paul Denillo, individually and as officers of said corporation, respondents in a proceeding initiated by the Federal Trade Commission and their attorneys, and Counsel Supporting the Complaint, is entered into in accordance with Sections 2.32 and 3.25 of the Commission's Rules of Practice and Procedure.

1. Respondent United Builders, Inc. is a corporation organized, existing, and doing business under and by virtue of the Laws of the State of West Virginia, with its former office and principal place of business located at 418 West Washington Street, in the city of Charleston, State of West Virginia.

Respondents Marvin Bloom and Paul Denillo are officers of said corporation. They formulate, direct, and control the policies, acts, and practices, of said corporation, and their addresses are the same as that of said corporation.

2. Respondents have been served with a copy of the Commission's Complaint in the above-captioned matter charging them with violation of the Federal Trade Commission Act, and the Truth in Lending Act, and the implementing regulations promulgated thereunder, together with a form of order that the Commission would have issued if the facts were found as alleged in the complaint.

3. Respondents admit all the jurisdictional facts set forth in the said copy of the complaint.

4. Respondents waive:

(a) Any further procedural steps;
(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; provided, however, that respondents, without admitting the findings of fact and conclusions of law contained in this Agreement waive any right to contest in administrative proceedings the findings and conclusions contained in this Agreement should the Commission make said findings and conclusions and include them in its decision; provided further, that in the event the Commission makes such findings and conclusions, then the decision shall also expressly provide that, in any action which may be brought under Section 19(a)(2) of the Federal Trade Commission Act, as amended, the said findings and conclusions shall not be deemed conclusive within the meaning of Section 19(c)(1)(B)(i) of the Federal Trade Commission Act, as amended.

(c) All rights to seek judicial review or otherwise to settle or contest the validity of the order entered pursuant to this agreement; and

(d) Any claim that the signing of this agreement and the Commission's decision and order pursuant thereto bar any action

under Section 19 of the Federal Trade Commission Act, as amended, or that the Commission's decision containing the findings and conclusions set out in this Agreement constitute an inadequate basis for an action under Section 19 of the Federal Trade Commission Act, as amended.

5. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the complaint, will be placed upon the public record for a period of sixty (60) days and information in respect thereto publicly released. Thereafter, the Commission may withdraw its acceptance of the agreement and so notify the other party, in which event it will return the matter to adjudication for further proceedings or take such other action as it may consider appropriate, or issue and serve its decision in disposition of the proceeding. The Commission may, at any time before final acceptance of this order, require hearings on the relief requirements provided by this order.

6. This agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as alleged in the said copy of the complaint the Commission has issued. The stipulated facts and conclusions of law contained herein are made solely for the purposes of settlement and compromise of this matter, and shall not be admissible in any other administrative or judicial proceeding or proceedings arising out of compliance with this order.

7. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of Section 2.34(b) of the Commission's Rules, the Commission may, without further notice to respondents, (1) enter the following findings of fact and conclusions of law, and its decision containing the following order to cease and desist in disposition of the proceedings, and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect, and may be altered, modified or set aside in the same manner and within the same time as provided by statute for other orders. The order shall become final upon service. The complaint, findings of fact, and conclusions of law may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement or in the complaint, findings of fact and conclusions of law may be used to vary or contradict the terms of the order.

8. Respondents have read this agreement, stipulations of fact, conclusions of law, and order contemplated hereby, and they understand that once the order has been issued, they will be required to file one or more compliance reports showing that they have fully complied with the order, and that they may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

STIPULATIONS OF FACT

1. United Builders, Inc. (hereinafter, United) by its agents or employees, entered into transactions with various customers for the purchase of home improvements.

2. Stipulations 3 through 29 relate to purchases of respondents' home improvements

financed by the Kanawha Valley Bank of Charleston, W. Va., for the period October 1, 1972 to August 31, 1974, inclusive.

3. In those instances in which the transaction was financed by the Kanawha Valley Bank, during the negotiations between the customer and United for the purchase of home improvements it was agreed by the customer and United that United would attempt to secure financing for the transaction through the Kanawha Valley Bank.

4. Financial information was obtained in many cases by a salesman of United from the customer at the time the customer signed a contract with United Builders, Inc. This financial information included information regarding outstanding debts, employment, income, and ownership of the real property to be improved.

5. Prior to the time the customer signed the contract with United, the salesman in many cases informed the customer of one or more specific finance terms, including the period of repayment, the amount financed, the amount of monthly payment, and the interest rate.

6. At the conclusion of the above negotiations between the customer and the salesman of United, a contract for the purchase of home improvements was executed by and between the customer and United.

7. This contract did not contain any disclosure of consumer credit information, including the period of repayment, the amount of monthly payment, the annual percentage rate, or the finance charge, nor was a "Notice to the Customer" as set forth in section 228.9(b) of Regulation Z (hereinafter, "Notice to the Customer"), provided to or left with the customer.

8. In some instances, after execution of the contract, United obtained and paid for building permits and descriptions of property.

9. Respondent's usual practice was to have their salesmen transmit the customer's financial information to United's office personnel, who, in turn, forwarded this financial information, including the amount financed and the number of payments, to an employee of the Installment Loan Department of the Kanawha Valley Bank.

10. In each such transaction, the amount of the finance charge, amount of each monthly payment, deferred payment price, and annual percentage rate were determined by the salesman for United in accordance with instructions and charts provided by the Kanawha Valley Bank.

11. Kanawha Valley Bank approved or disapproved the financing of the transaction, and so notified United's office personnel.

12. After execution of the contract by and between the customer and United, and after approval of financing of the transaction by Kanawha Valley Bank, United contracted for the performance of its obligations with various sub-contractors.

13. These sub-contractors, in fact, performed the obligations of United under the contract, and they were paid therefor by United.

14. After the sub-contractor commenced performance under the contract, United, in some instances, advised the Kanawha Valley Bank to transmit to the customer such other documents as were necessary to complete the financing arrangement, if the Kanawha Valley Bank had not yet done so.

15. Kanawha Valley Bank personnel then mailed to the customer a document entitled Installment Note and Disclosure, together with a form letter instructing the customer

to sign the original document, to return it to Kanawha Valley Bank, and to retain the duplicate copy.

16. Upon completion of United's obligations under the contract, the customer executed a "Property Improvement Completion Certificate," (hereinafter, "Completion Certificate") which he gave to United, or its sub-contractor or other agent or employee.

17. The Installment Note and Disclosure contained the consumer credit cost disclosures pertaining to the financing of the transaction.

18. The Kanawha Valley Bank did not transmit to the customer the "Notice to the Customer" in conjunction with the furnishing of disclosures.

19. United transmitted the executed "Completion Certificate" to Kanawha Valley Bank.

20. Upon receipt of an executed Installment Note and Disclosure from the customer and receipt of an executed "Completion Certificate" from United, Kanawha Valley Bank deposited the amount financed directly to the account of United.

21. In certain instances, the customer and the salesman from United agreed to consolidate certain existing debts of the customer as part of the transaction.

22. When the customer agreed to a debt consolidation, United caused disbursement of funds to the customer to discharge the customer's obligations which were consolidated with the cost of the home improvement.

23. In some instances, Kanawha Valley Bank required a deed of trust to secure the financing for the home improvement.

24. In such instances, Kanawha Valley Bank personnel notified United of this requirement.

25. In such instances, the Kanawha Valley Bank supplied United with a completed deed of trust, a completed real estate disclosure, a completed installment note, and a "Notice to the Customer."

26. United, its agent or employee, in turn, presented the deed of trust, installment note, real estate disclosure, and "Notice to the Customer" and obtained the customer's signature on each document.

27. Upon the execution of the deed of trust by the customer, his signature was acknowledged by a notary public, who in many instances was an agent or employee of United.

28. Executed deeds of trust, real estate disclosures, installment notes, and signed copies of the "Notice to the Customer" were delivered to Kanawha Valley Bank by United.

29. In such instances, upon receipt of the executed "Completion Certificate," deed of trust, real estate disclosure, installment note, and signed copy of the "Notice to the Customer," the Kanawha Valley Bank deposited the amount financed directly to the account of United.

30. At all times material hereto, United and the Kanawha Valley Bank were engaged in a regular course of dealing as herein set forth with regard to the financing of home improvement transactions.

31. The Kanawha Valley Bank instructed United with regard to the handling of financing of home improvement transactions, and United followed this instruction.

32. Stipulations 32 through 40 relate to transactions financed by the Kanawha Valley Bank for the period September 1, 1974, to October 1, 1975, inclusive.

33. On or about September 1, 1974, as a result of a change in West Virginia consum-

er protection laws, United entered into a written agreement with the Kanawha Valley Bank for the financing of home improvement transactions.

34. Pursuant to the written agreement between United and the Kanawha Valley Bank, United included consumer credit disclosure information in its contract.

35. United's salesman or agent or employee left copies of the Contract and Disclosure Statement and "Notice to the Customer" with the customer.

36. United negotiated the note to Kanawha Valley Bank and delivered to Kanawha Valley Bank the Contract and Disclosure Statement, the "Notice to the Customer," and the executed "Completion Certificate."

37. In some instances, Kanawha Valley Bank required a deed of trust to secure financing for the home improvement.

38. In such instances, United obtained a deed of trust from the customer and assigned the deed of trust to the Kanawha Valley Bank.

39. Except for the changes enumerated in Stipulations 32 through 38, the procedure used to finance United home improvements transactions with Kanawha Valley Bank was identical to the facts enumerated in Stipulations 3 through 30.

40. In some instances, United may not have followed this procedure.

41. In certain instances, after United attempted financing sales of home improvements through the Kanawha Valley Bank, but was not able to obtain this financing, United then sought to obtain financing through Charleston National Bank or advised the customer to seek financing elsewhere.

42. Stipulations 43 through 63 relate only to purchases of United's home improvements, financed by the Charleston National Bank of Charleston, W. Va., as described in Stipulation 41, from July 1, 1973, to October 1, 1975, inclusive.

43. In many instances, financial information was obtained by a salesman of United from the customer at time the customer signed a contract with United. This financial information included information regarding outstanding debts, employment, income, and ownership of the real property to be improved.

44. Prior to the time the customer signed the contract with United, the salesman informed the customer of one or more specific finance terms, including the period of repayment, the amount financed, the amount of monthly payment, and the interest rate.

45. A contract for the purchase of home improvements was executed by and between the customer and United.

46. In certain instances, this contract did not contain any disclosure of consumer credit information, including the period of repayment, the amount of monthly payment, the annual percentage rate, or the finance charge, nor was a "Notice to the Customer" as set forth in § 26.9(b) of Regulation Z (hereinafter "Notice to the Customer") provided to or left with the customer.

47. In some instances, after execution of the contract, United obtained and paid for building permits.

48. United's usual practice was to have its salesmen transmit the customer's financial information to United's office personnel, who, in turn, forwarded this financial information, as well as the amount financed and the number of payments to an employee of the Installment Loan Department of the Charleston National Bank.

49. In each transaction, the amount of finance charge, amount of each monthly payment, deferred payment price and annual percentage rate were determined by an employee of United from instructions and charts provided by the Charleston National Bank.

50. Charleston National Bank approved or disapproved the financing of the transaction, and so notified United's office personnel.

51. After approval of financing of the transaction by Charleston National Bank, and after execution of the contract by and between the customer and United, United contracted for the performance of its obligations with various sub-contractors.

52. These sub-contractors, in fact, performed the obligations of United under the contract, and were paid therefor by United.

53. Charleston National Bank's financing procedures required United to furnish the bank with a note payable to United, a Contract and Disclosure Statement, and a "Notice to the Customer," each signed by the customer.

54. Charleston National Bank's procedures also required that the aforementioned documents be completed on forms provided or approved by Charleston National Bank.

55. United's agent or employee, who in most instances was not the original salesman, returned to the customer's home to complete and obtain the customer's signature on the above required documents.

56. In some instances work on the property had already commenced at the time of this second visit.

57. At this second visit, United's agent or employee obtained the customers' signatures on the note, Contract and Disclosure Statement, and the "Notice to the Customer." In some instances, United's agent or employee dated these documents with the date that the customer executed the contract with the salesman for the purpose of home improvements, even though this second visit occurred at a later date.

58. United's agent or employee left copies of these documents with the customer.

59. Upon completion of United's obligation under the contract, the customer executed a "Property-Improvement Completion Certificate" (hereinafter "Completion Certificate") which he gave to United, its sub-contractor, agent or employee.

60. Respondents negotiated the note to Charleston National Bank and delivered to Charleston National Bank the Contract and Disclosure Statement, the "Notice to the Customer," and the "Completion Certificate."

61. After the Charleston National Bank received these documents, it deposited the amount financed directly to the account of United.

62. At all times material hereto, Charleston National Bank did not require a deed of trust as security for any aforementioned extension of credit, nor did it take nor file any such deed of trust.

63. At all times material hereto, United and the Charleston National Bank were engaged in a regular course of dealing with regard to the financing of home improvement transactions, as herein set forth.

CONCLUSIONS OF LAW

1. United Builders, Inc. arranged for the extension of credit within the meaning of § 226.2(h) of Regulation Z, the implementing regulation promulgated under the Truth In Lending Act.

2. The credit extended by Charleston National Bank and the Kanawha Valley Bank in each transaction described in the above Stipulations of Fact is consumer credit as defined by § 226.2(P) of Regulation Z.

3. Each transaction described in the above Stipulations of Fact constituted a single consumer credit transaction from the bank to the customer through the instrumentality of United Builders, Inc.

4. Each of the consumer credit transactions described in the above Stipulations of Fact is a transaction which gave rise to a right of rescission as set forth in § 226.9 of Regulation Z.

ORDER

I

It is Ordered, That respondents United Builders, Inc., a corporation, its successors and assigns, and its officers, and Marvin Bloom and Paul Denillo, individually and as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, distribution, or installation of aluminum siding, storm windows, storm doors, or any other products, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or by implication, orally or in writing, or by any other means, that any price for respondents' products and/or services is a special or reduced price, unless such price constitutes a reduction, in an amount not so insignificant as to be meaningless, from the actual bona fide price at which such products and/or services were sold or offered for sale to the public on a regular basis by respondents in the recent, regular course of their business; or misrepresenting, in any manner, the savings available to purchasers.

(2) Representing, directly or by implication, orally or in writing, or by any other means, that the home of any of respondents' customers or prospective customers has been specially selected as a model home to be used, or will be used, as a model home, or otherwise, for advertising, demonstration, or sales purposes, or that such customers will thereby be granted any allowance, discount, or commission; provided, however, that nothing in this order shall prohibit respondents from representing, after a contract has been executed between respondents and a purchaser of respondents' products or services, that purchasers or prospective purchasers can earn future compensation by providing the names of prospective purchasers to respondents' personnel connected with the sale of respondents' products or services.

(3) Representing, directly or by implication, orally or in writing, or by any other means, that the purchaser will pay any interest rate other than that which the purchaser will actually pay; provided, however, that nothing in this order shall prohibit respondents from stating the lending institution's prevailing rate of finance charge expressed as an annual percentage rate, as "annual percentage rate" is defined in § 226.2(g) of Regulation Z.

(4) Failing to disclose, clearly and conspicuously, that purchasers will have liens placed against their property, when such is the case.

(5) Representing, directly or by implication, orally or in writing, or by any other

means, that respondents own, or have any ownership in, any bank, finance company, or any other lending institution.

(6) Using any liquidated damages clause in their contract form.

(7) Failing, for a period of ten years after the effective date of this order, to maintain adequate records:

(a) For a continuing period of three (3) years from the date of transaction which disclose the factual basis for any representations or statements as to special or reduced prices, as to usual and customary retail prices, as to savings afforded to purchasers, and as to similar representations of the type described in Paragraphs Five (1) and (2) of the complaint.

(b) For a continuing period of three (3) years from the date of transaction with regard to each and every contract hereafter entered into between respondents and their customers, which disclose the amount each customer was charged, exclusive of interest or finance charges, for material and labor; and for those contracts involving siding or the installation of siding, or both, the total amount of siding materials and other materials installed or delivered to the customer, the type and grade of said siding and other materials, a description of the installation performed, and the total amount of money paid to salesmen, agents, or representatives for the solicitation of said contracts.

The information prescribed in sub-paragraph (7) need not be aggregated onto separate documents. Respondents' retention of records of the type prescribed in sub-paragraph (7) shall be deemed prima facie evidence of compliance with sub-paragraph (7).

(8) Failing to maintain for a continuing period of three (3) years from the date of transaction, all invoices, notices for payment, and all similar documents which respondents receive in the regular course of their business from suppliers, subcontractors, and other persons, and, for a continuing period of three (3) years from the date of transaction, copies of all contracts entered into between respondents and their customers. This provision notwithstanding, respondents shall continue to preserve evidence of compliance with the requirements of Truth In Lending, as required by § 226.6(i) of Regulation Z.

II.

It is further ordered, That respondents United Builders, Inc., a corporation, its successors and assigns, and its officers, and Marvin Bloom and Paul Denillo, individually and as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any advertisement or consumer credit sale of home improvement products or services, or any other products or services, as "credit sale" is defined in § 226.2(b) of Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

(1) Failing to make the consumer credit cost disclosures prescribed by § 226.8 of Regulation Z prior to consummation of the transaction as required by § 226.8(a) of Regulation Z.

(2) Failing to give notice to the customer of his right to rescind the credit transaction by furnishing him with two copies of the "notice to customers required by federal law," set forth in § 226.9(b) of Regulation Z, as required by § 226.9(b) of Regulation Z.

(3) Failing to delay the making of any physical changes in the property of the customer until after the rescission period has expired, as required by § 226.9(c)(2) of Regulation Z.

(4) Failing to delay performance of any work or service for the customer until after the rescission period has expired, as required by § 226.9(c)(3) of Regulation Z.

(5) Failing to delay the making of deliveries to the residence of the customer until after the rescission period has expired, if the creditor has retained or will acquire a security interest other than one arising by operation of law, as required by § 226.9(c)(4) of Regulation Z.

(6) Failing to provide the customer with two copies of the "effect of rescission" set forth in § 226.9(d) of Regulation Z, in the manner and form required by § 226.9(b) of Regulation Z.

(7) Representing, directly or by implication, that customers will or may be liable for damages, penalties, or any other charges in the event they cancel a contract that is rescindable pursuant to § 226.9 of Regulation Z.

(8) Supplying customers with any additional information, explanations, contract clause, or other statements pertaining to a transaction which mislead or confuse the customers or contradict, obscure, or detract from the disclosures required by Regulation Z, in violation of § 226.6(c) of Regulation Z.

(9) Failing, in any consumer credit transaction or advertisement, to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form, and amount required §§ 226.6, 226.8, 226.9, and 226.10 of Regulation Z.

III

It is further ordered, That respondents shall, within ninety (90) days after service of this order, pay a pro-rata share of the escrow account established in sub-paragraph (2) below to all of respondents' customers who are entitled to receive a share, as "entitled customer" is defined in sub-paragraph (1) below, subject to the monetary limitation in sub-paragraph (2) below. Respondents shall effectuate such restitution in the following manner:

(1) For purposes of this order, an "entitled customer" is a person who purchased a home improvement from respondents on credit, as "credit" is defined in Section 226.2(q) of Regulation Z, during the period July 1, 1973 to October 1, 1975, and who has not, at the time of the signing of this Agreement, instituted any private legal action against respondents alleging violations of Regulation Z. "Entitled customers" shall not include persons who received disclosure statements used and prepared by creditors other than respondents and mailed by the creditor directly to the customer.

(2) On or before the third day after the date this order becomes final, respondents shall deposit the sum of seventeen thousand five hundred dollars (\$17,500) into an escrow account in a lending institution with which respondents have had no prior dealings. The escrow account shall be utilized for the payment of amounts due to such of respondents' customer entitled to restitution. Respondents' liability for restitution pursuant to the terms of this order shall not exceed seventeen thousand five hundred dollars (\$17,500). Printing costs, postage costs, reasonable and ordinary secretarial fees (as incurred up to but not to exceed

(3) On or before the thirty-fifth (35th) day after the date this order becomes final, respondents, their agent or the escrow agent shall seek to obtain, for each customer whose letter is returned to respondents undelivered, a current mailing address by the following methods: (1) contacting the holder of the entitled customer's indebtedness; and (2) contacting telephone and utility companies. Respondents, their agent or the escrow agent shall use the address so obtained to comply with sub-paragraph (3) above, on or before the forth-fifty (45th) day after the date this order becomes final, but not less than ten (10) days after the date each letter is returned to respondents undelivered.

\$200), and escrow agent fees may be charged against the escrow account, but no other expenses shall be so charged.

(3) On or before the tenth (10th) day after the date this order becomes final, respondents shall compile a list containing the name and last known address of each entitled customer, as defined herein, and shall send or cause the escrow agent to send to that customer a copy of the letter set forth in sub-paragraph (4), infra, together with an envelope addressed to the escrow agent with postage prepaid.

(4) The letter to be sent to each entitled customer shall be as follows:

DEAR CUSTOMER:

The Federal Trade Commission has ordered United Builders, Inc. to give back approximately \$17,500, to be divided among each of its customers who bought a home improvement from United between July 1, 1973, and October 1, 1975. Each customer gets an equal share.

The amount of the equal shares will be determined by the number of such customers who sign and send this notice to the independent escrow agent.

To get your share, you must sign and return the bottom part of this letter. It must be postmarked before (month, day, year—fourteen days after mailing). The escrow agent will send you a check. The money will be yours to keep. You must, however, continue your scheduled payments for your home improvement.

Your acceptance of this refund does not affect any rights or obligations you may have under the Truth In Lending Act, nor does it extend any statute of limitations. United has made no admission of wrongdoing in this matter.

If you wish to receive this payment, please sign below and return the bottom part of the notice in the enclosed pre-addressed, pre-stamped envelope.

UNITED BUILDERS, INC.

(Tear off and return)

The money which the escrow agent will send me should be sent to this address:

.....
Sign here.

.....
Print your name.

.....
Print your address.

(5) On or before the thirty-fifth (35th) day after the date this order becomes final, respondents, their agent or the escrow agent shall seek to obtain, for each customer whose letter is returned to respondents undelivered, a current mailing address by the following methods: (1) contacting the holder of the entitled customer's indebtedness; and (2) contacting telephone and utility companies. Respondents, their agent or the escrow agent shall use the address so obtained to comply with sub-paragraph (3) above, on or before the forth-fifty (45th) day after the date this order becomes final, but not less than ten (10) days after the date each letter is returned to respondents undelivered.

(6) Respondent shall instruct the escrow agent as follows:

(a) The escrow agent shall receive and keep each signed and returned letter set forth in sub-paragraph (4) sent to it by each entitled customer.

(b) On the seventieth (70th) day after the date this order becomes final, or on the first

business day thereafter if said seventieth (70th) day is not a business day, the escrow agent shall compute the amount to be paid to each entitled customer who has signed and returned the letter set forth in sub-paragraph (4) to the escrow agent by dividing the sum remaining in the escrow account after payment of the escrow agent's fees and expenses equally among those entitled customers; provided, however, that no pro rata share may exceed \$1,250.

(c) By the second business day after computation as provided in sub-paragraph (6)(b), the escrow agent shall mail a cashier's check for the amount computed in sub-paragraph (6)(b) to each entitled customer who has signed and returned the letter set forth in sub-paragraph (4) to the escrow agent with his current address. Said mailing shall be by first-class mail. Enclosed with each check shall be the following letter:

DEAR CUSTOMER OF UNITED BUILDERS:

Here is a check for \$——, which is your share of the \$17,500 being returned, as we told you in our previous letter. This check does not affect your schedule of payments.

.....
(Escrow Agent for United Builders)

(d) Any checks which are returned uncashed shall be redeposited in the escrow account.

(e) Upon the ninetieth (90th) day after the date this order becomes final, the escrow agent shall terminate the escrow account, and disburse any monies left therein to respondents.

Respondents' obligation under Paragraph III shall terminate upon the performance of the escrow agent's obligations as set forth in this sub-paragraph.

IV

It is further ordered, That respondents deliver a copy of this order to all present and future sales personnel whose services are engaged by respondents, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

V

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, voluntary bankruptcy, assignment, the creation or dissolution of subsidiaries, or any other change in the corporation.

VI

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment. In addition, for a period of ten (10) years from the effective date of this order, the respondents shall promptly notify the Commission of each affiliation with a new business or employment. Such notice shall include respondents' current business or employment in which they are engaged, as well as a description of their duties and responsibilities. The expiration of the notice provision of this paragraph shall not affect any other obligation arising under this order.

VII

It is further ordered, That respondents shall, within sixty (60) days after the effective date of this order, and within thirty

(30) days after the termination of the escrow account, file with the Commission a report in writing setting forth the manner in which they have complied with the provisions of this order, and any future compliance reports in the form and manner which the Commission may order.

**IN THE MATTER OF UNITED BUILDERS, INC.
DOCKET No. 9043**

**ANALYSIS OF PROPOSED CONSENT ORDER TO AID
PUBLIC COMMENT**

The Federal Trade Commission has accepted an agreement to a proposed consent order from United Builders, Inc., and Marvin Bloom and Paul Denillo, individually and as officers of United.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again decide whether it should withdraw from the agreement or make final the agreement's proposed consent order.

The complaint alleges that respondents violated section 5 of the Federal Trade Commission Act and the Truth in Lending Act. The complaint alleges that respondents made or authorized false and deceptive sales representations, including false pricing claims and claims that customers' homes would be used as "models," in the sale of their home improvements. The complaint also charges respondents with failure to follow several provisions of the Truth in Lending Act, including the failure to provide disclosure statements and rescission notices properly.

The proposed consent order requires respondents to discontinue these violations and to comply in the future with the requirements of each Act. The consent order also requires respondents to provide \$17,500 in an escrow account which will be available to a specified class of customers for restitution. Respondents must also provide a notice to these customers that they are entitled to a pro rata portion of this sum.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order, or to modify in any way their terms.

[Docket No. 9041]

CAPITAL BUILDERS, INC., ET AL

**Consent Agreement With Analysis To Aid
Public Comment**

AGENCY: Federal Trade Commission.
ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a

Charleston, W. Va., home improvement firm to cease misrepresenting or failing to make relevant disclosures regarding prices, interest rates, savings, discounts and financing arrangements. Further, the firm, in connection with the extension of credit, must cease failing to provide consumers with the materials and disclosures required by Federal Reserve System regulations. The company would additionally be required to establish a \$35,000 escrow account for making restitution to entitled customers, and to effectuate such restitution in a manner prescribed in the agreement.

DATE: Comments must be received on or before July 24, 1978.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

**FOR FURTHER INFORMATION
CONTACT:**

Paul R. Peterson, Director, Cleveland Regional Office, Federal Trade Commission, Suite 500, Mall Building, 118 Saint Clair Avenue, Cleveland, Ohio 4114, 216-522-4207.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 3.25 of the Commission's Rules of Practice (16 CFR 3.25), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with section 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

**UNITED STATES OF AMERICA, BEFORE FEDERAL
TRADE COMMISSION**

**DOCKET NO. 9041—AGREEMENT CONTAINING
CONSENT ORDER TO CEASE AND DESIST**

In the matter of Capital Builders, Inc., a corporation, and Jerome Finn, and Richard Landman, individually and as officers of said corporation.

The Agreement herein by and between Capital Builders, Inc., a corporation, by its duly authorized officers, and Jerome Finn and Richard Landman, individually and as officers of said corporation, respondents in a proceeding initiated by the Federal Trade Commission and their attorneys, and Counsel Supporting the Complaint, is entered into in accordance with Sections 2.32 and 3.25 of the Commission's Rules of Practice and Procedure.

1. Respondent Capital Builders, Inc., is a corporation organized, existing, and doing business under and by virtue of the Laws of the State of Virginia, with its former office and principal place of business located at 1105 Main Street, in the City of Charleston, State of West Virginia 25302.

Respondents Jerome Finn and Richard Landman are the principal officers of said corporation. They formulate, direct, and control the policies, acts, and practices of said corporation, and their addresses are the same as that of said corporation.

2. Respondents have been served with a copy of the Commission's Complaint in the above-captioned matter charging them with violation of the Federal Trade Commission Act, and the Truth in Lending Act, and the implementing regulations promulgated thereunder, together with a form of order that the Commission would have issued if the facts were found as alleged in the complaint.

3. Respondents admit all the jurisdictional facts set forth in the said copy of the complaint.

4. Respondents waive:

(a) Any further procedural steps;
(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; provided, however, that respondents, without admitting the findings of fact and conclusions of law contained in this Agreement waive any right to contest in administrative proceedings the findings and conclusions contained in this Agreement should the Commission make said findings and conclusions and include them in its decision; provided further, that in the event the Commission makes such findings and conclusions, then the decision shall also expressly provide that, in any action which may be brought under Section 19(a)(2) of the Federal Trade Commission Act, as amended, the said findings and conclusions shall not be deemed conclusive within the meaning of Section 19(c)(1)(B)(i) of the Federal Trade Commission Act, as amended.

(c) All rights to seek judicial review or otherwise to settle or contest the validity of the order entered pursuant to this agreement; and

(d) Any claim that the signing of this agreement and the Commission's decision and order pursuant thereto bar any action under Section 19 of the Federal Trade Commission Act, as amended, or that the Commission's decision containing the findings and conclusions set out in this Agreement constitute an inadequate basis for an action under Section 19 of the Federal Trade Commission Act, as amended.

5. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the complaint, will be placed upon the public record for a period of sixty (60) days and information in respect thereto publicly released. Thereafter, the Commission may withdraw its acceptance of the agreement and so notify the other party, in which event it will return the matter to adjudication for further proceedings or take such other action as it may consider appropriate, or issue and serve its decision in disposition of the proceeding. The Commission may, at any time before final acceptance of this order, require hearings on the relief requirements provided by this order.

6. This agreement is for settlement purposes only and does not constitute an admis-

sion by respondents that the law has been violated as alleged in the said copy of the complaint the Commission has issued. The stipulated facts and conclusions of law contained herein are made solely for the purposes of settlement and compromise of this matter, and shall not be admissible in any other administrative or judicial proceeding other than proceedings arising out of compliance with this order.

7. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of Section 2.34(b) of the Commission's Rules, the Commission may, without further notice to respondents, (1) enter the following findings of fact and conclusions of law, and its decision containing the following order to cease and desist in disposition of the proceedings, and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect, and may be altered, modified or set aside in the same manner and within the same time as provided by statute for other orders. The order shall become final upon service. The complaint, findings of fact, and conclusions of law may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement or in the complaint, findings of fact and conclusions of law may be used to vary or contradict the terms of the order.

8. Respondents have read this agreement, stipulations of fact, conclusions of law, and order contemplated hereby, and they understand that once the order has been issued, they will be required to file one or more compliance reports showing that they have fully complied with the order, and that they may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

STIPULATIONS OF FACT

1. Jerome Finn is President of Capital Builders, Inc. (hereinafter "Capital").

2. Richard Landman is Vice-President and Treasurer of Capital. Jerome Finn and Richard Landman are the sole officers of Capital.

3. As the officers and directors of Capital, Jerome Finn and Richard Landman formulate, direct, and control the acts and practices of Capital and its employees, and formulate and direct the acts and practices of its agents.

4. Capital Builders, Inc., by its agents or employees, entered into transactions with various customers for the purchase of home improvements.

5. Purchases of respondents' home improvements were financed by at least eight lending institutions, including Kanawha Banking and Trust, Charleston National Bank, Kanawha Valley Bank, North American Acceptance Corporation, F.B.S. Financial, Inc., and General Electric Credit Corporation.

6. Stipulations 7 through 27 relate to purchases of respondents' home improvements financed by Kanawha Banking and Trust, Charleston National Bank, and Kanawha Valley Bank, all located in Charleston, West Virginia, for the period July 1, 1973 to October 1, 1975, inclusive (hereinafter referred to as "financing bank").

7. In many instances, customers of Capital were solicited by telephone and subsequently by a salesman representing Capital, and

where the customer agreed to purchase home improvements from Capital, a "short form" contract for the purchase was executed by and between the customer and Capital.

8. In many instances the salesman obtained financial information at the time the customer signed a "short form" contract with Capital. This financial information including information regarding outstanding debts, employment, income, and ownership of the real property to be improved.

9. In many instances prior to the time the customer signed the "short form" contract with Capital, the salesman informed the customer of one or more specific finance terms, including the amount financed, the period of repayment, the amount of monthly payment, and the interest rate.

10. In many instances it was understood by both the customer and the salesman for Capital that the "short form" contract was to be financed and that Capital would arrange the financing.

11. This "short form" contract did not contain any disclosure of consumer credit information, including the period of repayment, the amount of monthly payment, the annual percentage rate, or the finance charge, nor was a "Notice to the Customer" as set forth in Section 226.9(b) of Regulation Z (hereinafter "Notice to the Customer"), provided to or left with the customer.

12. In some instances, after execution of the "short form" contract, Capital obtained and paid for building permits and/or property descriptions.

13. Capital's usual practice was to have its salesmen transmit the customer's financial information to Capital's office personnel, who, in turn, forwarded this financial information, as well as the amount financed and the number of payments, to an employee of the installment loan department of the financing bank.

14. In each transaction, the amount of finance charge, amount of each monthly payment, deferred payment price and annual percentage rate were determined by an employee or agent of Capital from instructions and charts provided by the financing bank.

15. The financing bank approved or disapproved the financing of the transaction, and so notified Capital's office personnel.

16. After approval of financing of the transaction by the financing bank, and after execution of the "short form" contract by and between the customer and Capital, Capital contracted for the performance of its obligations with various subcontractors.

17. These subcontractors in fact performed the obligations of Capital under the contract, and were paid therefor by Capital.

18. The financing bank's procedures required Capital to furnish the bank with a note payable to Capital, a Contract and Disclosure Statement ("long form" contract), and a "Notice to the Customer," each signed by the customer. However, in most instances, the Kanawha Valley Bank required the customer to furnish Kanawha Valley Bank with a notice and disclosure form on forms provided by Kanawha Valley Bank, and utilized these forms in lieu of the long form contract and note provided by Capital. In these latter instances, the note and disclosure was mailed by Kanawha Valley Bank directly to the customer, and returned directly to Kanawha Valley Bank. In some instances, the financing bank required the customer to execute a deed of trust to secure the transaction.

19. The financing bank's procedures also required that the aforementioned documents be completed by Capital on forms provided or approved by the financing bank.

20. Capital's agent or employee, who in some instances was not the original salesman, returned to the customer's home to complete and obtain the customer's signature on the above-required documents, except in those instances when Kanawha Valley Bank provided the customer with its forms directly.

21. In many instances, work on the property had already commenced and had been completed at the time of this second visit, or when the note and second contract were provided to the customer.

22. At this second visit, Capital's agent or employee obtained the customer's signature on the note, Contract and Disclosure Statement ("long form" contract), and the "Notice to the Customer." In most instances, Capital's agent or employee dated these documents with the date that the customer executed the contract with the salesman for the purchase of home improvements, even though this second visit occurred at a later date.

23. Capital's agent or employee left copies of the notice, "long form" contract, and "Notice to the Customer" with the customer at this second visit.

24. Upon completion of Capital's obligation under the contract, the customer executed a "Property Improvement Completion Certificate" (hereinafter "Completion Certificate") which he gave to Capital, its subcontractor, agent or employee.

25. Except when the customer returned the note directly to Kanawha Valley Bank, respondents negotiated the note to the financing bank and delivered to the financing bank the Contract and Disclosure Statement ("long form" contract), the "Notice to the Customer," and the "Completion Certificate."

26. After the financing bank received these documents, it disbursed the amount financed directly to Capital, either by check or by direct deposit to an account of Capital.

27. At all times material hereto, Capital and the financing banks were engaged in a regular course of dealing with regard to the financing of home improvement transactions, as herein set forth.

28. Stipulations 29 through 34 relate to purchases of respondents' home improvements financed by North American Acceptance Corp. of Atlanta, Ga., F.B.S. Financial, Inc. of Cincinnati, Ohio, L & F Title & Mortgage Co. of Charleston, W. Va., and General Electric Credit Corp. of Pikesville, Md. (hereinafter "finance companies"). L & F Title & Mortgage Co. is a division of Capital.

29. In some instances, Capital, its agents or employees, followed the procedures outlined in Stipulations 7 through 14, but the financing bank disapproved the loan.

30. Capital then sought to obtain financing through one of the finance companies enumerated in Stipulation 28.

31. Capital, its agents or employees, followed the procedures enumerated in Stipulations 15 through 22, except the financing institutions were finance companies, and not financing banks.

32. In some instances, Capital's agent or employee did not inform the customer that financing had been obtained through an out-of-State finance company rather than through a local bank.

33. Capital, its agents or employees, followed the procedures enumerated in Stipulations 15 through 22, except the financing institutions were finance companies, and not financing banks.

34. In some instances, Capital's agent or employee did not inform the customer that financing had been obtained through an out-of-State finance company rather than through a local bank.

35. Capital, its agents or employees, followed the procedures enumerated in Stipulations 15 through 22, except the financing institutions were finance companies, and not financing banks.

36. In some instances, Capital's agent or employee did not inform the customer that financing had been obtained through an out-of-State finance company rather than through a local bank.

37. Capital, its agents or employees, followed the procedures enumerated in Stipulations 15 through 22, except the financing institutions were finance companies, and not financing banks.

lations 23 through 26, except the financing institutions were finance companies and not financing banks, and in all cases payment was made to Capital by check issued by the finance company.

34. At all times material hereto, Capital and each finance company were engaged in a regular course of business with regard to the financing of home improvement transactions as herein set forth.

CONCLUSIONS OF LAW

1. Capital Builders, Inc., arranged for the extension of credit within the meaning of section 226.2(h) of regulation Z, the implementing regulation promulgated under the Truth In Lending Act.

2. The credit extended by Kanawha Valley Banking and Trust, Charleston National Bank, Kanawha Valley Bank, the Guaranty Bank, Union Federal Savings and Loan, North American Acceptance Corp., F.B.S. Financial, Inc., General Electric Credit Corp., and L & F Title & Mortgage Co. in each transaction described in the foregoing Stipulations of Fact is "consumer credit" as defined by section 226.2(p) of regulation Z.

3. Each transaction described in the foregoing Stipulations of Fact constituted a single consumer credit transaction from the bank or finance company to the customer through the instrumentality of Capital Builders, Inc.

4. Each of the consumer credit transactions described in the foregoing Stipulations of Fact is a transaction which gave rise to a right of rescission as set forth in section 226.9 of regulation Z.

ORDER

I

It is ordered, That respondents Capital Builders, Inc., a corporation, its successors and assigns, and its officers, and Jerome Finn and Richard Landman, individually and as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, distribution, or installation of aluminum siding, storm windows, storm doors, or any other products, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or by implication, orally or in writing, or by any other means, that any price for respondents' products and/or services is a special or reduced price, unless such price constitutes a reduction, in an amount not so insignificant as to be meaningless, from the actual bona fide price at which such products and/or services were sold or offered for sale to the public on a regular basis by respondents in the recent, regular course of their business; or misrepresenting, in any manner, the savings available to purchasers.

(2) Representing, directly or by implication, orally or in writing, or by any other means, that the home of any of respondents' customers or prospective customers has been specially selected as a model home to be used, or will be used, as a model home, or otherwise, for advertising, demonstration, or sales purposes, or that such customers will thereby be granted any allowance, discount, or commission; provided, however, that nothing in this order shall prohibit respondents from representing, after a con-

tract has been executed between respondents and a purchaser of respondents' products or services, that purchasers or prospective purchasers can earn future compensation by providing the names of prospective purchasers to respondents' personnel connected with the sale of respondents' products or services.

(3) Representing, directly or by implication, orally or in writing, or by any other means, that the purchaser will pay any interest rate other than that which the purchaser will actually pay; provided, however, that nothing in this order shall prohibit respondents from stating the lending institution's prevailing rate of finance charge expressed as an annual percentage rate, as "annual percentage rate" is defined in section 226.2(g) of regulation Z.

(4) Failing to disclose, clearly and conspicuously, that purchasers will have liens placed against their property, when such is the case.

(5) Failing to disclose, clearly and conspicuously, that financing of credit transactions will not be through local financing institutions, when such is the case. For purposes of this order, local financing institutions shall be deemed to be institutions which have a main office or a branch office within the county or any county adjacent to which the purchaser or prospective purchaser resides.

(6) Using any liquidated damages clause in their contract form.

(7) Failing, for a period of 10 years after the effective date of this order, to maintain adequate records:

(a) For a continuing period of three (3) years from the date of transaction which disclose the factual basis for any representations or statements as to special or reduced prices, as to usual and customary retail prices, as to savings afforded to purchasers, and as to similar representations of the type described in paragraphs five (1) and (2) of the complaint.

(b) For a continuing period of three (3) years from the date of transaction with regard to each and every contract hereafter entered into between respondents and their customers, which disclose the amount each customer was charged, exclusive of interest or finance charges, for material and labor; and for those contracts involving siding or the installation of siding, or both, the total amount of siding materials and other materials the type and grade of said siding and other materials, a description of the installation performed, and the total amount of money paid to salesmen, agents, or representatives for the solicitation of said contracts.

The information prescribed in subparagraph (7) need not be aggregated onto separate documents. Respondents' retention of records of the type prescribed in subparagraph (7) shall be deemed prima facie evidence of compliance with subparagraph (7).

(8) Failing to maintain for a continuing period of three (3) years from the date of transaction, all invoices, notices for payment, and all similar documents which respondents receive in the regular course of their business from suppliers, subcontractors, and other persons, and, for a continuing period of three (3) years from the date of transaction, copies of all contracts entered into between respondents and their customers. This provision notwithstanding, respondents shall continue to preserve evidence of compliance with the requirements of Truth in Lending, as required by section 226.6(i) of regulation Z.

II

It is further ordered, That respondents Capital Builders, Inc., a corporation, its successors and assigns, and its officers, and Jerome Finn and Richard Landman, individually and as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the extension of consumer credit or advertisements to aid, promote, or assist, directly or indirectly, in the extension of consumer credit, as "consumer credit," "credit sale," and "advertisement" are defined in regulation Z (12 CFR 226) of the Truth in Lending Act (15 U.S.C. section 1601, et seq.), do forthwith cease and desist from:

(1) Failing to make the consumer credit cost disclosures prescribed by section 226.8 of regulation Z prior to consummation of the transaction as required by section 226.8(a) of regulation Z.

(2) Failing to give notice to the customer of his right to rescind the credit transaction by furnishing him with two copies of the "notice to customers required by Federal law," set forth in section 226.9(b) of regulation Z, as required by section 226.9(b) of regulation Z.

(3) Failing to delay the making of any physical changes in the property of the customer until after the rescission period has expired, as required by section 226.9(c)(2) of regulation Z.

(4) Failing to delay performance of any work or service for the customer until after the rescission period has expired, as required by Section 226.9(c)(3) of Regulation Z.

(5) Failing to delay the making of deliveries to the residence of the customer until after the rescission period has expired, if the creditor has retained or will acquire a security interest other than one arising by operation of law, as required by Section 226.9(c)(4) of Regulation Z.

(6) Failing to provide the customer with two copies of the "effect of rescission" set forth in Section 226.9(d) of Regulation Z, in the manner and form required by Section 226.9(b) of Regulation Z.

(7) Representing, directly or by implication, that customers will or may be liable for damages, penalties, or any other charges in the event they cancel a contract that is rescindable pursuant to Section 226.9 of Regulation Z.

(8) Supplying customers with any additional information, explanations, contract clause, or other statements pertaining to a transaction which mislead or confuse the customers or contradict, obscure, or detract from the disclosures required by Regulation Z, in violation of Section 226.6(c) of Regulation Z.

(9) Failing, in any consumer credit transaction or advertisement, to make all disclosures determined in accordance with Section 226.4 and Section 226.5 of Regulation Z, at the time and in the manner, form, and amount required by Sections 226.6, 226.8, 226.9, and 226.10 of Regulation Z.

III

It is further ordered, That respondents shall, within ninety (90) days after service of this order, pay a pro-rata share of the escrow account established in subparagraph (2) below to all of respondents' customers who are entitled to receive a share, as "entitled customer" is defined in subparagraph (1) below, subject to the monetary

limitation in sub-paragraph (2) below. Respondents shall effectuate such restitution in the following manner:

(1) For purposes of this order, an "entitled customer" is a person who purchased a home improvement from respondents on credit, as "credit" is defined in Section 226.2(q) of Regulation Z, during the period July 1, 1973 to October 1, 1975, and who has not, at the time of the signing of this Agreement, instituted any private legal action against respondents alleging violations of Regulation Z. "Entitled customers" shall not include persons who received disclosure statements used and prepared by creditors other than respondents and mailed by the creditor directly to the customer.

(2) On or before the third day after the date this order becomes final, respondents shall deposit the sum of thirty-five thousand dollars (\$35,000) into an escrow account in a lending institution with which respondents have had no prior dealings. The escrow account shall be utilized for the payment of amounts due to such of respondents' customers entitled to restitution. Respondents' liability for restitution pursuant to the terms of this order shall not exceed thirty-five thousand dollars (\$35,000). Printing costs, postage costs, reasonable and ordinary secretarial fees (not to exceed \$200), and escrow agent fees may be charged against the escrow account, but no other expenses shall be so charged.

(3) On or before the tenth (10th) day after the date this order becomes final, respondents shall compile a list containing the name and last known address of each entitled customer, as defined herein, and shall send or cause the escrow agent to send to that customer a copy of the letter set forth in sub-paragraph (4), infra, together with an envelope addressed to the escrow agent with postage prepaid.

(4) The letter to be sent to each entitled customer shall be as follows:

DEAR CUSTOMER:

The Federal Trade Commission has ordered Capital Builders, Inc. to give back approximately \$35,000, to be divided among each of its customers who bought a home improvement from Capital between July 1, 1973, and October 1, 1975. Each customer gets an equal share.

The amount of the equal shares will be determined by the number of such customers who sign and send this notice to the independent escrow agent.

To get your share, you must sign and return the bottom part of this letter. It must be postmarked before (month, day, year—fourteen days after mailing). The escrow agent will send you a check. The money will be yours to keep. You must, however, continue your scheduled payments for your home improvement.

Your acceptance of this refund does not affect any rights or obligations you may have under the Truth in Lending Act, nor does it extend any statute of limitations. Capital has made no admission of wrongdoing in this matter.

If you wish to receive this payment, please sign below and return the bottom part of the notice in the enclosed pre-addressed, pre-stamped envelope.

CAPITAL BUILDERS, INC.

(Tear off and return)

The money which the escrow agent will send me should be sent to this address:

Sign here.

Print your name.

Print your address.

(5) On or before the thirty-fifth (35th) day after the date this order becomes final, respondents, their agent or the escrow agent shall seek to obtain, for each customer whose letter is returned to respondents undelivered, a current mailing address by the following methods: (1) contacting the holder of the entitled customer's indebtedness; and (2) contacting telephone and utility companies. Respondents, their agent or the escrow agent shall use the address so obtained to comply with sub-paragraph (3) above, on or before the forty-fifth (45th) day after the date this order becomes final, but not less than ten (10) days after the date each letter is returned to respondents undelivered.

(6) Respondent shall instruct the escrow agent as follows:

(a) The escrow agent shall receive and keep each signed and returned letter set forth in sub-paragraph (4) sent to it by each entitled customer.

(b) On the seventieth (70th) day after the date this order becomes final, or on the first business day thereafter if said seventieth (70th) day is not a business day, the escrow agent shall compute the amount to be paid to each entitled customer who has signed and returned the letter set forth in sub-paragraph (4) to the escrow agent by dividing the sum remaining in the escrow account after payment of the escrow agent's fees and expenses equally among those entitled customers.

(c) By the second business day after computation as provided in sub-paragraph (6)(b), the escrow agent shall mail a cashier's check for the amount computed in sub-paragraph (6)(b) to each entitled customer who has signed and returned the letter set forth in sub-paragraph (4) to the escrow agent of his current address. Said mailing shall be by first-class mail. Enclosed with each check shall be the following letter:

DEAR CUSTOMER OF CAPITAL BUILDERS:

Here is a check for \$ ———, which is your share of the \$35,000 being returned, as we told you in our previous letter. This check does not affect your schedule of payments.

Escrow Agent for Capital Builders.

(d) Any checks which are returned uncashed shall be redeposited in the escrow account.

(e) Upon the ninetieth (90th) day after the date this order becomes final, the escrow agent shall terminate the escrow account, and disburse any monies left therein to respondents.

Respondents' obligation under Paragraph III shall terminate upon the performance of the escrow agent's obligations as set forth in this sub-paragraph.

IV

It is further ordered, That respondents deliver a copy of this order to all present and future sales personnel whose services are engaged by respondents, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the

corporate respondent such as dissolution of, voluntary bankruptcy, assignment, the creation or dissolution of subsidiaries, or any other change in the corporation.

VI

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment. In addition, for a period of ten (10) years from the effective date of this order, the respondents shall promptly notify the Commission of each affiliation with a new business or employment. Such notice shall include respondents' current business or employment in which they are engaged, as well as a description of their duties and responsibilities. The expiration of the notice provision of this paragraph shall not affect any other obligation arising under this order.

VII

It is further ordered, That respondents shall, within sixty (60) days after the effective date of this order, and within thirty (30) days after the termination of the escrow account, file with the Commission a report in writing setting forth the manner in which they have complied with the provisions of this order, and any future compliance reports in the form and manner which the Commission may order.

IN THE MATTER OF CAPITAL BUILDERS, INC.,
DOCKET NO. 9041

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement to a proposed consent order from Capital Builders, Inc., and Jerome Finn and Richard Landman, individually and as officers of Capital.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again decide whether it should withdraw from the agreement or make final the agreement's proposed consent order.

The complaint alleges that respondents violated Section 5 of the Federal Trade Commission Act and the Truth in Lending Act. The complaint alleges that respondents made or authorized false and deceptive sales representations, including false pricing claims and claims that customers' homes would be used as "models," in the sale of their home improvements. The complaint also charges respondents with failure to follow several provisions of the Truth in Lending Act, including the failure to provide disclosure statements and rescission notices properly.

The proposed consent order requires respondents to discontinue these violations and to comply in the future with the requirements of each Act. The consent order also requires respondents to provide \$35,000 in an escrow account which will be available to a specified class of customers for restitution. Respondents must also provide a notice to these customers that they are entitled to a pro rata portion of this sum.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and pro-

posed order, or to modify in any way their terms.

JAMES A. TOBIN,
Acting Secretary.

DEPARTMENT OF LABOR

Employment and Training Administration

[20 CFR Part 655]

LABOR CERTIFICATION PROCESS FOR THE TEMPORARY EMPLOYMENT OF ALIENS IN AGRICULTURE: ADVERSE EFFECT WAGE RATE FOR TEXAS

Proposed Rulemaking

AGENCY: Employment and Training Administration, Labor.

ACTION: Proposed regulation.

SUMMARY: The Department of Labor proposes to publish annually an adverse effect wage rate for the state of Texas, that is, the minimum wage rate which the Department has determined must be offered and paid by the employers of nonimmigrant alien agricultural workers in the State of Texas. The adverse effect wage rate for Texas will be established and set to prevent the employment of these aliens from having an adverse effect on the wages of U.S. workers who are similarly employed.

COMMENTS: Interested persons are invited to submit written comments on this proposed regulation on or before June 26, 1978.

ADDRESS: Send Comments To: Mr. William B. Lewis, Administrator, U.S. Employment Service, Employment and Training Administration, U.S. Department of Labor, Room 8000, Patrick Henry Building, 601 D Street NW., Washington, D.C. 20213.

FOR FURTHER INFORMATION CONTACT:

Mr. Aaron Bodin, Chief, Division of Labor Certification, Office of Technical Services, U.S. Employment Service, Employment and Training Administration, U.S. Department of Labor, Room 8410, Patrick Henry Building, 601 D Street NW., Washington, D.C. 20213, telephone: 202-376-6295.

SUPPLEMENTARY INFORMATION: The Employment and Training Administration (ETA) of the Department of Labor (DOL) is proposing to amend its regulations at 20 CFR 655.207(b)(2) to add the State of Texas to the list of States for which the Administrator, U.S. Employment Service, must publish annually an adverse effect wage rate for the temporary employment of

PROPOSED RULES

nonimmigrant aliens in agricultural occupations. The Department's regulations for certification of temporary employment of aliens in the United States are issued pursuant to section 214.2(h)(3)(i) of the Immigration and Naturalization Service (INS) regulations (8 CFR 214.2(h)(3)(i)), set forth below:

Either a certification from the Secretary of Labor or his designated representatives stating that qualified persons in the United States are not available and that the employment of the beneficiary will not adversely affect the wages and working conditions of workers in the United States similarly employed, or a notice that such a certification cannot be made shall be attached to every nonimmigrant visa petition to accord an alien a classification under Section 101(a)(15)(X)(H)(i) of the Act.

Separate adverse effect wage rates are currently published annually by the Administrator, U.S. Employment Service, for agricultural employment in the six New England States, New York, Maryland, Virginia, West Virginia, and for employment in the sugar cane industry in Florida. 20 CFR 655.207(b)(1), 43 FR 10317 (March 10, 1978). The rates in all States are either the prevailing wage rate or a somewhat higher wage rate. The adverse effect rates are the wages which must be paid in order to insure that the wage rates of similarly employed U.S. workers are not adversely affected by the temporary employment of aliens. The Department has found that the temporary employment of nonimmigrant aliens in the State of Texas would have an adverse effect on the wages of similarly employed U.S. workers, unless the employers are required to pay the temporary aliens an adverse effect wage rate.

For example, the Department of Labor's Wage and Hour Office in Dallas, Tex., conducted a number of compliance reviews in Presidio Valley in the past calendar year and determined that a number of agricultural employers covered by the Fair Labor Standards Act had failed to pay certain employees the Federal minimum wage. About \$40,000 has been collected on behalf of workers for these violations, but this is less than half the amount estimated to be outstanding for the 1977 wage and hour violations in the valley. Additionally, witnesses at the Public Hearing on the Proposed Department of Labor Regulation on Temporary Employment of Aliens in Agriculture, Labor Certification Process, 20 CFR Part 655, held in San Antonio, Tex., on May 27, 1977, indicated that some agricultural employers in south Texas are utilizing undocumented alien workers at or below the minimum wage.

The employment of nonimmigrant Mexican and other foreign nationals in Texas has had an adverse effect on the wages and employment of U.S.

workers in that State. The Department of Labor has determined that without an adverse effect wage rate for agricultural employment in Texas, the wages and employment of U.S. workers in that State will continue to be adversely affected.

It is anticipated that the rate for 1978 would be \$2.97 per hour. The methodology for computing this wage is the same as that used for determining past years' adverse effect wage rates for the 10 States now listed in 20 CFR 655.207(b)(2). The Department has determined that the methodology can be used to construct adverse effect wage rates in a way that is reasonable, cost effective, and geared as much as possible to the reality of agricultural crops, areas, and existing wage factors.

The Department has computed an adverse effect wage rate for Texas for a number of years, based on U.S. Department of Agriculture (USDA) statewide annual average wage rates for agricultural workers, and on the methodology published at 43 FR 10310 (March 10, 1978). The adverse effect wage rates for agricultural employment in Texas, projected for the current year and computed for the preceding 4 years is shown in the table below:

Annual adverse effect wage rates: Texas

Year	Rates	Percentage Increase
1978	\$2.97	+4.9
1977	2.83	+9.3
1976	2.59	+2.5
1975	2.53	+11.9
1974	2.26	

Adverse effect wage rates for Texas were computed for 1968, 1969, and 1970 also, based on USDA data and the above-cited methodology: 1970: \$1.69; 1969: \$1.59; and 1968: \$1.45.

DEVELOPMENT OF REGULATIONS

This proposed rulemaking document was prepared under the direction and control of: William B. Lewis, Administrator, U.S. Employment Service, Employment and Training Administration, U.S. Department of Labor, Washington, D.C.

Accordingly, it is proposed to revise paragraph (b)(2) of § 655.207 of 20 CFR Chapter V, Part 655, to read as follows:

§ 655.207 Adverse effect rates.

.....

(b) * * *

(2) *List of States.* Connecticut, Maine, Maryland, Massachusetts, New Hampshire, New York, Rhode Island, Texas, Virginia, and West Virginia. Other States may be added as appropriate.

Signed at Washington, D.C., this 23d day of May 1978.

ERNEST G. GREEN,
Assistant Secretary for
Employment and Training.

[FR Doc. 78-14840 Filed 5-26-78; 8:45 am]

[4310-02]

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 42]

ENROLLMENT APPEALS

Filing and Processing Appeals

AGENCY: Bureau of Indian Affairs.

ACTION: Proposed rule.

SUMMARY: The Bureau proposes to amend the regulations governing tribal enrollment appeals to more adequately describe situations when the regulations shall apply. It is not our intent to assume the tribes' authority in handling appeals under procedures specified in tribal documents. However, we have found situations existing where it is unclear whether tribal procedures or the regulations should govern. This proposal is designed to eliminate confusion which has arisen as to when the regulations in 25 CFR part 42 govern in processing enrollment appeals.

DATE: Comments must be received on or before June 29, 1978.

ADDRESS: Written comments should be directed to: Chief, Division of Tribal Government Services, Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Ms. Janet L. Parks, Chief, Branch of Tribal Enrollment Services, Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, D.C. 20245, telephone 202-343-2985; principal author, Ms. Janet L. Parks.

SUPPLEMENTARY INFORMATION: The Secretary is charged with the responsibility of determining who shall be eligible to share in the distribution of trust assets. His responsibility for determining eligibility for membership for tribal purposes is limited to instances where a specific Act of Congress or a tribal document authorizes him to finally determine eligibility for membership purposes.

Appeal procedures set out in tribal ordinances sometimes do not provide for final determination of eligibility by the Secretary or they contemplate only certain types of enrollment actions and not others. It is for such situations that the clarifying revision of 25 CFR 42.2 is proposed.

This amendment is made pursuant to authority vested in the Secretary of

PROPOSED RULES

the Interior by 5 U.S.C. 301, sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9) and 230 DM 1 and 2.

With the proposed revision, § 42.2, part 42, chapter I of title 25 of the Code of Federal Regulations will read as follows:

§ 42.2 Purpose.

(a) The regulations in this part establish the procedures for filing and processing appeals in conjunction with the rejection of any person for enrollment on a roll of an Indian tribe by a tribal committee, Superintendent, or Director, when final approval of the roll rests with the Secretary either because of provisions in tribal constitutions or ordinances or specific Acts of Congress, particularly when the roll is to be used for the distribution of judgment funds or other trust assets.

(b) These regulations will not apply if procedures for filing appeals by applicants rejected for tribal membership are prescribed in tribal documents, if the tribal procedures adequately cover all types of rejection and provide for final decision of an appeal by the Secretary when trust assets are to be distributed.

No further changes are made in the text of part 42.

Dated: May 12, 1978.

FORREST J. GERARD,
Assistant Secretary,
Indian Affairs.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

[LR-136-76]

CONTRIBUTIONS IN AID OF CONSTRUCTION

Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to contributions in aid of construction. Changes to the applicable tax law were made by the Tax Reform Act of 1976. The regulations would provide the public with the guidance needed to comply with that Act and would affect all regulated public utilities which provide water or sewerage disposal services.

DATES: Written comments and requests for a public hearing must be delivered or mailed by July 31, 1978. The amendments are proposed to be effective

tive for contributions in aid of construction made after January 31, 1976.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention CC:LR:T [LR-136-76], Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

Jack A. Levine of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention CC:LR:T, 202-566-3474, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 118 of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 2120 of the Tax Reform Act of 1976 (90 Stat. 1912) and are to be issued under the authority contained in sections 118(b) and 7805 of the Internal Revenue Code of 1954 (90 Stat. 1912 and 68A Stat. 917; 26 U.S.C. 118(b) and 7805).

Section 118(a) provides that contributions to the capital of a corporation, whether or not contributed by a shareholder, are not includible in the gross income of the corporation.

The new section 118(b) specifies that amounts received as contributions in aid of construction by a water or sewerage disposal utility (described in section 7701(a)(33)(A)(i)) which are used for qualified expenditures and which are not included in the rate base for ratemaking purposes are to be treated as nontaxable contributions to the capital of the utility. The new Code provision distinguishes contributions in aid of construction received by such utilities from fees paid to them for services rendered or to be rendered. Section 1.118-2(a) of the proposed regulation defines the term "contribution in aid of construction" and provides examples of the term.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations was Mr. Jack A. Levine of the legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

PROPOSED AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

§ 1.118 [Deleted]

PARAGRAPH 1. Section 1.118 is deleted.

PAR. 2. Section 1.118-2 is added to read as follows:

§ 1.118-2 Contributions in aid of construction.

(a) *Contribution in aid of construction*—(1) *Definition.* For purposes of section 118(b), the term "contribution in aid of construction" means an item or amount contributed to a regulated public utility which provides water or sewerage disposal services to the extent that the purpose of the contribution is to provide for the expansion, improvement, or replacement of the utility's water or sewerage disposal facilities.

(2) *Examples.* The application of paragraph (a)(1) of this section may be illustrated by the following examples:

Example (1). B, a developer, constructs main water lines and support facilities, including a water filtration plant and a water tower, and turns the facilities over to corporation R, a regulated public utility which provides water services. The transfer by B to R is a contribution in aid of construction.

Example (2). The facts are the same as in example (1), except that B furnishes the necessary funds to R, which uses those funds to build the facilities. The payments to R are contributions in aid of construction.

Example (3). S, a municipality, tears up a road and the water lines under it in order to build a new road. S makes payments to corporation Y, the water utility that owned the old water lines, so that it can put in new lines. The payments are contributions in aid of construction.

(3) *Customer connection fees.* Customer connection fees are not contributions in aid of construction and are includible in income. The term "customer connection fee" includes any payment made to the utility for the cost of installing a connection from the utility's main water or sewer lines (including the cost of meters and piping) and any amount paid as a service charge for stopping or starting service.

(4) *Classification by ratemaking authority.* The fact that the applicable

PROPOSED RULES

ratemaking authority classifies an amount received by a utility as a contribution in aid of construction is not conclusive of its proper classification.

(b) *Expenditure rule*—(1) *In general.* An amount satisfies the time requirement of section 118(b)(2)(B) if the expenditure referred to in section 118(b)(2)(A) occurs before the end of the second taxable year after the taxable year in which the amount was received.

(2) *Examples.* The application of section 118(b)(2)(B) may be illustrated by the following examples:

Example (1). Corporation M, a regulated public utility which provides water services, spent \$100,000 in 1976 for the construction of a water facility. It received contributions in aid of construction of \$25,000 per year for the years 1977 through 1980. The purpose of the contributions was to reimburse M for its expenditure for the water facility. The requirement under section 118(b)(2)(B) is satisfied for all of the contributions because the expenditure occurred before the end of the second taxable year after the taxable year in which each contribution was received.

Example (2). In July of 1976, M received \$100,000 of contributions in aid of construction for the purpose of constructing a water facility. M is a fiscal year taxpayer with its taxable year ending on June 30. In April of 1979, M constructed the water facility at a cost of \$100,000. The requirement under section 118(b)(2)(B) is satisfied because the expenditure occurred before the end of the second taxable year after the taxable year in which the contributions were received.

Example (3). M, a calendar year taxpayer, received \$100,000 of contributions in aid of construction in 1977 for the purpose of constructing a water facility. To the extent that the \$100,000 exceeded the actual cost of the facility, the contributions were subject to being returned. In 1978, M built the facility at a cost of \$70,000 and returned \$20,000 to the contributors. As of the end of 1979, M had not returned the remaining \$10,000. The requirement under section 118(b)(2)(B) is satisfied for \$70,000 of the contribution. Since \$20,000 of the contribution was returned within the time period during which qualifying expenditures could be made, such amount is not income. However, the remaining \$10,000 was income to M for the 1977 taxable year (the taxable year in which such amounts were received) since it was neither spent nor repaid during the prescribed time period.

Example (4). M, a calendar-year taxpayer, received \$50,000 of contributions in aid of construction in 1977 for the purpose of constructing a water facility. M built the facility in 1979 at a cost of \$50,000, but none of the costs of construction were paid by M until the following year. The requirement under section 118(b)(2)(B) is not satisfied because the expenditure did not occur before the end of the second taxable year after the taxable year in which the contributions were received.

(3) *Accurate records.* (i) The taxpayer shall maintain accurate records from which it can establish the amounts contributed and expended for a particular project and the dates upon which these contributions were received and expenditures were made.

(ii) If the taxpayer fails to maintain accurate records from which it can establish the facts required by paragraph (b)(3)(i) of this section, then the contributions will be includible in income in the year received.

(c) *Depreciation and investment credit; adjusted basis*—(1) *Disallowance of deductions and investment credit.* Except as provided in paragraph (e) of this section, no deductions for depreciation shall be taken and no investment credit shall be allowed for a water or sewerage disposal facility acquired by a regulated public utility which provides water or sewerage disposal services, to the extent that—

(i) The facility is acquired as a nontaxable contribution in aid of construction,

(ii) The facility is purchased with amounts received as nontaxable contributions in aid of construction, or

(iii) The facility is constructed with amounts received as nontaxable contributions in aid of construction.

(2) *Adjusted basis.* Except as provided in paragraph (e) of this section, to the extent that the water or sewerage disposal facility described in subparagraph (1) of this paragraph is acquired as a nontaxable contribution in aid of construction or is purchased or constructed with amounts received as nontaxable contributions in aid of construction, its adjusted basis shall be zero.

(d) *Reimbursements for facilities that have been placed in service*—(1) *Purpose requirement.* If a water or sewerage disposal facility is placed in service before an amount is received as reimbursement for the cost of the facility, the purpose requirement of paragraph (a)(1) of this section (relating to the definition of the term "contribution in aid of construction") is not satisfied unless, at the time the facility is placed in service, there is an agreement, binding under local law between the prospective contributor and the utility, that the utility is to receive the amount as reimbursement for the cost of the facility.

(2) *Exclusion from basis.* If a contribution in aid of construction is received as reimbursement for the cost of a water or sewerage disposal facility that has been placed in service, then in order for it to be nontaxable, the utility must have excluded (at the time the facility was placed in service) an amount equal to the contribution from—

(i) The adjusted basis of the facility for the purpose of determining deductions for depreciation, and

(ii) The basis or cost of the facility for the purpose of determining investment credit.

(3) *Placed in service.* For purposes of this paragraph, a facility shall be considered placed in service in the earlier of the following taxable years:

(i) The taxable year in which, under the utility's depreciation practice, the period for depreciation with respect to such facility begins (or would begin except for the application of section 118(b) and this section), or

(ii) The taxable year in which the facility is placed in a condition or state of readiness and availability for a specifically assigned function.

(e) *Repayments of nontaxable contributions in aid of construction*—(1) *In general.* If a nontaxable contribution in aid of construction is repaid to the contributor either wholly or in part, then—

(i) To the extent the amount of the contribution exceeds the cost of the water or sewerage disposal facilities constructed or purchased with the contributed funds, the repayment is not a capital expenditure.

(ii) To the extent that the repayment exceeds the amount determined under subdivision (i) of this subparagraph, it is a capital expenditure in the year in which it is made.

(2) *Capital expenditure.* The amounts treated as capital expenditures under paragraph (e)(1) of this section are to be allocated proportionately to the basis of each of the facilities constructed or purchased with the contributed funds. Where such facilities are depreciable, the allocated amounts may be depreciated over the remaining useful life of that facility. For purposes of the investment credit allowed by section 38, to the extent that the amounts treated as capital expenditures are allocated to a facility in a taxable year of the utility, the facility is considered to have been placed in service in that year.

(3) *Illustration.* The following example illustrates the application of this paragraph:

Example. Corporation M, a regulated public utility which provides water services, receives a \$100,000 contribution in aid of construction in 1977 from B, a developer, for the purpose of constructing a water facility. To the extent that the \$100,000 exceeds the actual cost of the facility, the contribution is subject to being returned. In addition, M agrees to pay to B a percentage of the receipts from the facility over a fixed period. In 1978, M builds the facility at a cost of \$70,000 and returns \$30,000 to B. In 1979, M pays \$50,000 to B out of the receipts from the facility. M is a calendar year taxpayer. The \$30,000 payment to B is not treated as a capital expenditure by M. The \$50,000 payment to B is treated as a capital expenditure by M in 1979. The adjusted basis of the water facility is increased from zero to \$50,000. If the facility is depreciable, the \$50,000 basis may be depreciated over its remaining useful life. For purposes of the investment credit allowed by section 38, to the extent of the \$50,000 capital expenditure, the facility is considered to have been placed in service in 1979.

(f) *Definitions*—(1) *Expenditure.* For purposes of section 118(b) and this section, the word "expenditure" means

actual payment rather than accrual of an obligation to pay.

(2) *Water or sewerage disposal facility.* For purposes of section 118(b) and this section, the term "water or sewerage disposal facility" means tangible property described in section 1231(b) (without regard to the holding period requirements) which is used predominantly in the trade or business of furnishing water or sewerage disposal services.

(g) *Effective date.* The regulations prescribed in this section apply to contributions made after January 31, 1976.

JEROME KURTZ,
Commissioner of
Internal Revenue.

DEPARTMENT OF JUSTICE

Office of the Attorney General

[28 CFR Part 16]

[Order No. 788-78]

PRIVACY ACT OF 1974

Exemption of Records System

AGENCY: Department of Justice.

ACTION: Proposed regulation.

SUMMARY: This regulation proposes to exempt the Antitrust Division Freedom of Information/Privacy Requester-Subject Index File (JUSTICE/ATR-008) from the provisions of subsections (c)(3) and (d) of the Privacy Act, 5 U.S.C. 552a. The purposes of the exemption are to maintain the confidentiality and security of information compiled for purposes of criminal investigation or civil or regulatory law enforcement or of reports compiled at any stage of the law enforcement process and to maintain the confidentiality and security of information that is specifically authorized to be kept secret in the interests of national defense or foreign policy. Some records contained in this system of records may not be subject to exemptions. A determination will be made as to the exemption of a specific record at the time a request for notification or access is made. A notice of this exemption was previously published as part of the system notice on September 30, 1977, in the FEDERAL REGISTER, Volume 42, Page 53396. However, publication of a proposed rule to effect the necessary amendment to Subpart E of Part 16, 28 CFR, was inadvertently omitted. This proposed rule will correct that omission.

DATES: All comments must be received on or before June 29, 1978.

ADDRESS: All comments should be addressed to the Administrative Coun-

sel, Office of Management and Finance, Department of Justice, 10th and Constitution Avenue NW., Washington, D.C. 20530.

FOR FURTHER INFORMATION CONTACT:

Bronson E. Clayton, 202-739-4165.

The authority for this proposed rule is 5 U.S.C. 552a.

Accordingly it is proposed that 28 CFR 16.88 be amended by adding paragraphs (e) and (f) as follows:

§ 16.88 Exemption of Antitrust Division Systems.

(e) The following system of records is exempt from 5 U.S.C. 552a(c)(3) and (d):

(1) Freedom of Information/Privacy Requester/Subject Index File (JUSTICE/ATR-008). These exemptions apply only to the extent that information in this system is subject to exemption pursuant to 5 U.S.C. 552a(k)(2).

(f) Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because that portion of the Freedom of Information/Privacy Requester/Subject Index File that consists of investigatory materials compiled for law enforcement purposes is being exempted from access and contest provisions of subsection (d); therefore, the provision for disclosure of accounting in subsection (c)(3) is not applicable.

(2) From subsection (d) because of the need to safeguard the identity of confidential informants and to avoid interference with ongoing investigations or law enforcement activities by preventing premature disclosure of information relating to those efforts.

Dated: May 18, 1978.

GRIFFIN B. BELL,
Attorney General.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

[Docket No. H-1131]

CUTANEOUS AND EYE HAZARD

Request for information

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Request for information on cutaneous and eye hazards.

SUMMARY: This notice requests information on cutaneous and eye hazards found within the industrial envi-

ronment. Accounting for approximately 46 percent of the occupational illnesses reported in 1975, skin disorders continued to be the most prevalent of occupational diseases. For this reason, OSHA has established a Standards Advisory Committee on Cutaneous Hazards to evaluate information on cutaneous hazards and their control, and to recommend means to alleviate the problem. Because the eyes are usually associated with skin disorders, eye hazards have been included as a part of the Committee's responsibilities. To assist the committee, OSHA is seeking information in the following areas: types of cutaneous and eye hazards; toxicological and epidemiologic studies of these hazards; circumstances of employee exposure, including levels which produced specific conditions and the number of workers involved; feasible means of controlling employee exposures; protective clothing requirements; and existing standards and guidelines pertaining to cutaneous and eye hazards.

DATE: The information requested in this notice must be submitted on or before June 30, 1978.

ADDRESS: Information should be submitted to the OSHA Docket Office, Docket H-113, Room S6212, U.S. Department of Labor, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

Mr. John Martin Couric, OSHA Office of Consumer Affairs, Room N3635, Washington, D.C. 20210, 202-523-8024.

SUPPLEMENTARY INFORMATION:

CUTANEOUS HAZARDS: RECENT INFORMATION RECEIVED BY OSHA

Information from the Bureau of Labor Statistics for 1975 indicates that occupational skin disease continued to be the most prevalent of occupational illnesses in the private sector, with 74,400 reported cases. Skin diseases accounted for 45.6 percent of the occupational illnesses reported, corresponding to a rate of one case per one thousand employees per year. The number of lost workdays attributed to skin diseases was 205,700, or 23.1 percent of the total recorded for all occupational illnesses in 1975.

The National Safety Council reported that approximately 130,000 eye injuries and disorders occurred in industry in 1975. This was approximately 6 percent of all cases reported in 1975.

BACKGROUND

The skin is an important interface between man and the environment; it is an important portal of entry for hazardous agents and a vulnerable target tissue. The eye may also serve

as a portal of entry for hazardous agents. A vast array of physical, chemical, and biological agents cause occupational skin and eye reactions. Adverse effects on the skin range from uncomplicated itching to metastatic neoplasia. Effects on the eye range from irritation, tearing, and conjunctivitis to blindness.

All occupational skin and eye disorders are preventable or controllable by decreasing or eliminating exposure to the causal agent. Thus, a precise etiologic diagnosis, which in many cases means the identification of single or multiple causal agents leading to a skin or eye disorder, is vital to effective management of such problems.

In recognition of the prevalence and importance of occupational skin diseases, the Occupational Safety and Health Administration has established the Standards Advisory Committee on Cutaneous Hazards. The Committee has been given responsibility for identifying and evaluating information on cutaneous and eye hazards, and for determining the state-of-the-art of current cutaneous and eye hazard controls. The final product of the Committee's deliberations will be recommendations which can be used in formulating standards for cutaneous and eye hazards.

The following objectives have been set for the Committee.

1. Identify the major problem areas in industry which are hazardous to the skin and eye and/or in which the skin or eye is an important portal of entry.
2. Characterize cutaneous and eye hazards by: a) chemical group or family, b) by patterns of adverse cutaneous, ocular, and systemic reactions. Recommend a system for classifying or rating cutaneous and eye hazards on the basis of severity and types of adverse effects, both local and systemic.
3. Recommend general and specific control methods for types of hazardous materials and/or processes which can be applied to work practices and utilized in prevention of adverse effects.
4. Identify gaps in knowledge and information which need to be addressed. Provide OSHA with a set of priorities for such issues based on urgency, and delineate short-term and long-term goals for research. These goals will provide essential guidelines for future efforts in cutaneous and eye hazard control.
5. Provide a set of guidelines for the systematic setting of standards concerning cutaneous and eye hazards.

INFORMATION REQUESTED ON CUTANEOUS HAZARDS

To assist the Committee in the gathering of information, OSHA is requesting interested parties to provide data pertaining to cutaneous and eye haz-

ards and their control, including but not limited to:

1. Epidemiologic studies of cutaneous and eye hazards in industry.
2. Cutaneous and eye hazards found in industry, with supportive data.
3. Employee exposure (actual or potential) to these hazards, including levels which produced specific conditions and the number of employees involved.
4. Technological and economic feasibility of reducing employee exposure.
5. Appropriate protective clothing, hygiene practices, and facilities.
6. Foreign standards and recommended guidelines for working with cutaneous and eye hazards.

SUBMITTAL OF INFORMATION REQUESTED IN THIS NOTICE

Interested persons are invited to submit written data, views, and comments with respect to the foregoing issues. All communications should be submitted in quadruplicate by June 30, 1978, to the OSHA Docket Office, Docket H-113, Room S6212, U.S. Department of Labor, Washington, D.C. 20210. Timely written submissions will be considered in any action taken by this agency.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 77-230]

DRAWBRIDGE OPERATION REGULATIONS

Victoria Channel, Tex.

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of Central Technology on behalf of the Missouri Pacific Railroad Co. the Coast Guard is considering amending the regulations for the railroad drawbridge across Victoria Channel, mile 29.4, near Bloomington, Tex., to permit automated operation of this draw. This drawbridge is presently manned and opens on signal at any time. With an average of 4.4 daily openings, draw tenders appear to be unnecessary. The automation of this bridge, as proposed, appears to meet the reasonable needs of navigation.

DATE: Comments must be received on or before July 5, 1978.

ADDRESS: Comments should be submitted to and are available for examination at the office of the Commander (obr), Eighth Coast Guard District, Hale Boggs Federal Building, 500 Camp Street, New Orleans, La. 70130.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300 Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data, or arguments. Each person submitting comments should include their name and address, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Eighth Coast Guard District, will forward any comments received, with his recommendations, to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and recommend a course of final action to the Commandant on this proposal. The proposed regulations may be changed in the light of comments received.

DRAFTING INFORMATION: The principal persons involved in drafting this proposal are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Edward J. Gill, Jr., Project Attorney, Office of the Chief Counsel.

In consideration of the foregoing, it is proposed that part 117 of Title 33 of the Code of Federal Regulations be amended by adding a new § 117.554 immediately after § 117.553 to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.554 Victoria Channel, mile 29.4, near Bloomington, Tex.

(a) The bridge need not be manned by a regular attendant.

(b) The lift span is normally in the down position, providing a vertical clearance of 22 feet above mean high water.

(c) Three long blasts of a horn or whistle from an approaching vessel activates navigational approach detectors, located one-half mile upstream and downstream from the bridge.

(d) Interruption of the approach detector beams by a vessel will cause (1) the draw to open to the fully raised position of 50 feet above mean high water for 10 minutes, (2) a navigation

warning siren to sound, (3) the navigation light to change from red to green.

(e) Breaking of the entry/exit detector beam located at the end of the bridge fender system will keep the span open for a second 10-minute interval or until the vessel clears the exit/entry detector located at the opposite end of the fender system, whichever occurs earlier.

(f) If a vessel is unable to reach the bridge before the span closes, an additional signal of three long blasts of a horn or whistle will cause the span to reopen.

(g) If the draw is in the open position for the passage of a vessel, and a train enters an approach circuit to the bridge, the opening will be extended for 5 minutes if the exit/entry detector is broken by a vessel passage, otherwise the span will close at the end of the original 10-minute opening period. After the train passes, the span will open for any waiting vessels.

(h) If a train is approaching the bridge so closely that the train may not be safely stopped, the bridge will not open until the train has passed.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5)).

NOTE:—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: May 22, 1978.

E. L. PERRY,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

[FR Doc. 78-14952 Filed 5-26-78; 8:45 am]

[4910-14]

[33 CFR Part 117]

[CGD 78-63]

DRAWBRIDGE OPERATION REGULATIONS

Frederica River, Ga.

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Brunswick-Glynn County Joint Planning Commission, the Coast Guard is considering revising the regulations governing the operation of the Torras Causeway drawbridge across the Frederica River (Atlantic Intracoastal Waterway, mile 675.5) between St. Simons Island and Brunswick, Ga. This change would allow limited openings during peak vehicular traffic during morning and evening rush hours, Monday through Friday. This would provide a more even flow of vehicular traffic during these periods.

DATE: Comments must be received on or before July 5, 1978.

ADDRESS: Comments should be submitted to and are available for examination at the office of the Commander (oan), Seventh Coast Guard District, 51 Southwest First Avenue, Miami, Fla. 33130.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data, or arguments. Persons submitting comments should include their name and address, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Seventh Coast Guard District, will forward any comments received with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and recommend a course of final action to the Commandant on this proposal. The proposed regulations may be changed in the light of comments received.

DRAFTING INFORMATION: The principal persons involved in drafting this proposal are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Stephen H. Barber, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

The proposed regulations requested by the Brunswick-Glynn County Joint Planning Commission recommended the hours for restricted periods from 7:30 a.m. to 9:30 a.m., and 4:30 p.m. to 6:30 p.m., with openings on the hour and half-hour, Monday through Friday, except holidays; and from 7:30 a.m. to 6:30 p.m., Saturday, Sunday, and holidays. An examination of the data submitted showed that the week-day hours would provide for the heavy vehicular traffic during the periods proposed. However, the Coast Guard feels that the relatively light traffic counts on weekends were not sufficient to justify inclusion of this period and this portion is therefore deleted from the proposal at this time. If new data is submitted by the applicant and demonstrates a need for restrictive hours on weekends, this change may be made at that time.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations be amended by adding a new § 117.409 im-

mediately after § 117.408 to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.409 Frederica River, Atlantic Intracoastal Waterway, mile 675.5, Torras Causeway, Glynn County drawbridge, St. Simons Island to Brunswick, Ga.

(a) From 7:30 a.m. to 9:30 a.m. and 4:30 p.m. to 6:30 p.m., Monday through Friday, except holidays, the draw need only open on the hour and half-hour to pass all accumulated vessels. At all other times, the draw shall open on signal.

(b) The draw shall open at any time for the passage of public vessels of the United States, tugs with tows, and vessels in distress.

(c) The owner of or agency controlling this bridge shall post, on both sides of the bridge, signs that state the conditions of this regulation. These signs shall be of such size that they may be easily read from an approaching vessel at any time.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: May 22, 1978.

O. W. SILER,
Admiral,
U.S. Coast Guard Commandant.

[6560-01]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 65]

[Docket No. DCO-78-4; FRL 902-61]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Disapproval of an Administrative Order Issued by the Commonwealth of Kentucky, Department for Natural Resources and Environmental Protection, to Airco, Inc.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to disapprove an Administrative Order issued by the Commonwealth of Kentucky to Airco, Inc. The Order requires Airco, Inc., to bring air emissions from its electrometallurgical facility at Calvert City, Ky., into compliance with certain regulations contained in the federally approved Kentucky State Implemen-

tation Plan (SIP) by July 1, 1979. Because the Order has been issued to a major source and permits a delay in compliance with the provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act, 42 U.S.C. 7401 et seq. (the Act). If approved by EPA, the Order would become effective as a delayed compliance order under section 113(d) of the Act and would constitute an addition to the Kentucky Implementation Plan. While a delayed compliance order places a noncomplying source on a remedial compliance schedule, it does not alter the underlying State Implementation Plan compliance date. Under section 113(d)(10) of the act, EPA approval of the Order would also insulate the source from Federal enforcement action under section 113 of the Act and from citizen enforcement action under section 304 of the Act for violations of the regulations covered by the Order during the period the Order is in effect and the source is complying with its terms. The purpose of this notice is to invite public comment on EPA's proposed disapproval of the Order under section 113(d)(2) of the Act.

DATE: Written comments must be received on or before June 29, 1978.

ADDRESSES: Comments should be submitted to Paul J. Traina, Director, Enforcement Division, EPA, Region IV, 345 Courtland Street, Atlanta, Ga. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Richard S. DuBose, Air Enforcement Branch, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone No. 404-881-4298.

SUPPLEMENTARY INFORMATION: Airco, Inc., operates a metallurgical facility at Calvert City, Ky. The Order under consideration limits the emission of particulate matter from a number of emission points at the facility. The substance of the Order, which has been consented to by Airco, Inc., is as follows:

COMMONWEALTH OF KENTUCKY, DEPARTMENT FOR NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION, FILE NO. 02-76-85

AGREED ORDER

Department for Natural Resources and Environmental Protection, Plaintiff, v. Airco, Inc., ID No. 072-2600-0002, Defendant

Come the parties hereto and for Final Settlement of the Administra-

tive Complaint filed by the Plaintiff herein on or about February 10, 1976, do hereby agree as follows; to wit:

1. That the Defendant agrees to pay as penalties for violations alleged by the Department in its Administrative Complaint (but without any admission by the Defendant of having committed such violations) the sum of Twenty Thousand Dollars (\$20,000); such sum to be remitted, payable to the Treasurer of the Commonwealth of Kentucky, within fifteen (15) days of the execution of this Agreed Order by the Secretary of the Department for Natural Resources and Environmental Protection;

2. That the Defendant and the Plaintiff further agree that final compliance as hereinafter specified will be achieved on or before November 1, 1977, subject to the following conditions:

a. That construction of all capture and collection equipment was completed for Furnace No. 6 before July 1, 1977, and shall be completed for Furnace No. 4 on or before August 15, 1977.

b. That all shutdown procedures were completed for Furnace No. 6 for separate operation on or before August 15, 1977, and will be completed for Furnace No. 4 for separate operation sixty (60) days after start up of Furnace No. 4. The Defendant shall immediately notify the Plaintiff of the start up of Furnace No. 4 in writing.

c. That Furnaces No. 4 and No. 6 in separate operation shall be in full compliance at start up using testing and monitoring methods as specified in subparagraphs h and i of this Order.

d. That installation of all control equipment was completed on Furnaces No. 9, 12, 13, 15, and 16 on or before April 15, 1977.

e. That all shutdown procedures were completed on Furnaces No. 12, 13, 15, and 16 on or before August 15, 1977, and shall be completed on Furnace No. 9 within sixty (60) days from the date of start-up. The Plaintiff shall be immediately notified in writing of the start-up of Furnace No. 9.

f. That Furnaces No. 15 and 16 in joint or separate operation shall be in full compliance using testing and monitoring methods as specified in subparagraphs h and i of this Agreed Order on or before August 1, 1977.

g. That Furnaces No. 12 and 13 in joint or separate operation shall be in full compliance using testing and monitoring methods as specified in subparagraphs h and i of this Agreed Order on or before August 1, 1977.

h. The parties agree that, at this time, there is no standardized technique for source testing the effluence from the baghouse. Therefore, compliance with this Agreed Order shall be achieved when the baghouse effluent

does not exceed a 3 percent opacity limit (using Environmental Protection Agency Method 9).

In addition, visible emissions from the Electric Arc Furnaces, excepting Furnace No. 13, as measured from the roof monitors or other building openings shall not be allowed except for 40 percent of a furnace tapping period. The tapping period is defined as the time duration from initiation of the process of opening the tap hole until plugging of the tap hole is completed.

Visible emissions from Furnace No. 13 and point 13a (Reaction Ladle) as measured from the roof monitors or other building openings shall not be allowed except during the metallurgical treatment process at which time visible emissions shall not exceed 15 percent opacity (using the U.S. EPA Method 9).

Further, Airco Alloys shall provide a reasonable method acceptable to the Department for monitoring air flow rate through capture ducts, such as measuring appropriate fan power consumption and pressure drop across the fan.

i. That final compliance under this Order will not be achieved until the appropriate representatives of the Plaintiff have witnessed the satisfactory operation of the control equipment pursuant to a request by the Defendant.

j. Upon the start-up of Furnaces No. 4 and No. 6 in joint operation, the Defendant shall immediately notify the Plaintiff in writing of such start-up. The defendant shall prove final compliance using testing and monitoring methods as specified in subparagraphs h and i of this Agreed Order on or before sixty (60) days from the date of such start-up.

k. The Defendant shall immediately notify the Department in writing of the start-up of Furnace No. 9 singly or in any combination with Furnaces No. 15 and No. 16. Final compliance using testing and monitoring methods as specified in subparagraphs h and i of this Agreed Order shall be proved by the Defendant on or before sixty (60) days from the date of such start-up.

3. That the Defendant shall submit a control plan for control of fugitive dust at all fugitive dust emission points, including, but not necessarily limited to, all portable and stationary crushing and screening operations, collected material handling at baghouses, cast bed areas, and haul roads, by November 1, 1977. Proof of final compliance for those points which shall be controlled by wet suppression shall be submitted by October 1, 1978. Interim measures shall be utilized to reduce the emission of fugitive dust from the facility until final compliance is achieved. The Defendant shall prove compliance for those points for which capture and collection equipment is to

be utilized on or before July 1, 1979. Compliance shall be proven in accordance with the requirements of 401 KAR 3:060 section 14, or any subsequent regulation that supersedes 401 KAR 3:060 section 14 and is deemed to be less stringent than the existing regulation. In the event a superseding regulation is promulgated which is deemed to be more stringent, the defendant shall have a reasonable period of time in which to comply therewith.

4. That the Defendant shall submit a control plan for the control of emissions from the metallurgical treatment ladle, point 13(a), on or before November 1, 1977, and shall prove compliance using testing and monitoring methods as specified in subparagraphs h and i of this Agreed Order on or before October 1, 1978.

Upon a showing by the Defendant, on or before August 1, 1978, to the satisfaction of the Plaintiff, that the Defendant has exhausted all feasible avenues of technological experimentation to achieve final compliance for point 13(a), such showing to include the costs of such experimentation or technology, and that the Defendant has complied with all the provisions of the approved control plan for point 13(a), the parties hereto shall meet and negotiate an extension of time for proof of final compliance. In no event shall the date for final compliance be extended past July 1, 1979.

The Defendant shall control point 13(a) to the best of its ability while utilizing experimental methods to determine a method to attain final compliance. Such experimental methods may include but are not limited to steel shields. These experimental methods shall constitute the Defendant's program for interim control so long as the Defendant continues diligently towards compliance.

5. That the inability of the Defendant to comply with the compliance requirements of this Agreed Order may be grounds for extension of some or all of the aforesaid dates only upon written approval of the Plaintiff and only if such inability is the result of an Act of God or public enemy, accidental fire or explosion, flood, war, riot, sabotage, accident not caused by the Defendant's negligence, governmental order, strike, labor slow down or work stoppage, or lockout not by the Defendant, failure to supply of materials, parts, or equipment, or failure, delay, refusal of any designer, fabricator, or supplier to design, fabricate, deliver or install as agreed any equipment necessary to the performance of the obligations undertaken herein, provided that the Defendant shall notify the Director of the Division of Air Pollution Control and the Division's Paducah Regional Office immediately by the most expedient method, and in writing within seven

(7) days of its first knowledge of such occurrence or of the likelihood of such occurrences, fully describing said delay to the satisfaction of the Director. However, the inability of the Defendant to satisfy the compliance requirements of this Agreed Order due to the cost of acquisition or installation of control equipment shall not be grounds for extension of any of the aforesaid dates.

6. That the Plaintiff agrees to forego its statutory, administrative and common law remedies for past violations so long as the Defendant performs the obligations and duties heretofore described, but upon the failure of the Defendant to perform according to the provisions of this Agreed Order, the Plaintiff will be free to immediately proceed to enforce this Agreed Order, all applicable statutes, administrative regulations and common laws and to seek all appropriate remedies.

Because this Order had been issued to a major source of particulate emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Act. EPA may approve the Order only if it satisfies the appropriate requirements of this subsection. Based upon a thorough review, EPA has objections to the Order, including the following:

1. The Order does not ensure that electric arc furnace Nos. 4, 6, and 9, operating singly or in combination with other furnaces, will achieve final compliance by July 1, 1979.

2. The Order does not notify the source that, unless exempted under section 120(a)(2) (B) or (C) of the Clean Air Act, it will receive a notice of noncompliance and noncompliance penalties will be assessed and collected under section 120 in the event the source fails to achieve final compliance by July 1, 1979.

3. The Order does not contain a schedule and timetable for compliance for the fugitive dust emission points or for the metallurgical treatment ladle, in that no increments of progress are included for these points.

4. With respect to the interim control of fugitive dust emission points and the metallurgical treatment ladle, the Order does not (a) include specific interim controls which represent the best practicable system of interim emission reduction, or, in the alternative, a finding that no system of interim emission reduction is practicable, and (b) include a requirement that the source remains subject to the enforcement of applicable State and Federal emergency provisions designed to prevent an imminent and substantial endangerment to human health.

5. The Order does not include emission monitoring and reporting requirements.

6. The Order includes a "force majeure" clause which would permit non-compliance beyond July 1, 1979.

In view of these objections, EPA proposes to disapprove the Order. If the Order were approved by EPA, compliance with its terms would preclude federal enforcement action under section 113 of the Act against the source for violation of the regulations covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. If the Order is disapproved, EPA will take appropriate enforcement action.

All interested persons are invited to submit written comments on the proposed Order. Written comments received by the date specified above will be considered in determining whether EPA may approve the Order. After the public comment period, and after EPA has reviewed any comments received in response to this notice, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the Order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon, and will contain the procedures for EPA's issuance, approval, or disapproval of an order under section 113(d) of the Act. In addition, Part 65 will contain sections listing or including orders issued, approved or disapproved by EPA. A prior notice proposing regulations for Part 65, published at 40 FR 14876 (April 2, 1975) will be withdrawn, and replaced by a notice promulgating these new regulations.

Dated: May 11, 1978.

JOHN C. WHITE,
Regional Administrator,
Region IV.

[FRL 902-5]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for WSC Corp., Chicago, Ill.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an administrative order to the WSC Corp. The Order requires the company to bring air emissions from its basic

oxygen process shop and coke battery in Chicago, Ill. into compliance with certain regulations contained in the federally-approved Illinois State Implementation Plan (SIP). Because the company is unable to comply with these regulations at this time, the proposed order would establish an expeditious schedule requiring final compliance by November 1, 1978, for the basic oxygen process shop and July 1, 1979, for the coke battery. Source compliance with the Order would preclude suits under the federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the order.

DATE: Written comments and requests for a public hearing must be received on or before June 29, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after thirty days prior notice of the time and place of the hearing has been given in this publication.

ADDRESSES: Comments should be submitted to Director, Enforcement Division, EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604. The proposed Order, supporting materials, and public comments received in response to this notice may be inspected and copies made (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Robert B. Hurwitz at enforcement Division, EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, telephone: 312-353-2082.

SUPPLEMENTARY INFORMATION: WSC Corp. (formerly Wisconsin Steel Division of International Harvester Co.) operates a steel mill at Chicago, Ill. The proposed Order addresses emissions from its coke oven and basic oxygen process shop at this facility, which are subject to Illinois Air Rules 202(b) and 203(d). The regulations govern the emissions of particulate matter, and are part of the federally-approved State Implementation Plan. The Order requires final compliance with regulation by July 1, 1979, and the source has consented to its terms.

The proposed Order satisfies the applicable requirements of Section 113(d) of the Act. If the Order is issued, compliance with its terms would preclude further EPA enforcement action under Section 113 of the Act against the source for violations of

the regulation covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provisions of the Act (Section 304) would be similarly precluded.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon, and will contain the procedure for EPA's issuance, approval, and disapproval of an Order under Section 113(d) of the Act. In addition, Part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for Part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

Comments received by the date specified above will be considered in determining whether EPA should issue the Order. Testimony given at any public hearing concerning the Order will also be considered. Final action on the Order will be published in the FEDERAL REGISTER.

(AUTHORITY: Section 113(d) of Clean Air Act, 42 U.S.C. § 7413(d).)

Dated: May 1, 1978.

GEORGE ALEXANDER,
Regional Administrator,
Region V.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter I, as follows:

1. By revising Section 65.180 to read as follows:

§ 65.180 Federal delayed compliance orders issued under Section 113(d) (1), (3), and (4) of the Act.

The following Order is issued this date pursuant to section 113(d) of the Clean Air Act, as amended, 42 U.S.C. section 7413(d) (hereinafter referred to as the "Act"). Public notice and opportunity for public hearing have been provided. The Order contains a schedule and timetable for interim requirements and requires emission monitoring and reporting. Final compliance is required as expeditiously as practicable, but not later than July 1, 1979. The source is hereby notified that it will be required to pay a noncompliance penalty in the event it fails to achieve final compliance by such date. The State of Illinois has been given thirty (30) days notice of this Order.

On January 9, 1978, February 4, 1978, April 12, 13, 19, 20, 1977, May 12, 1977, and June 2, 1977, United States Environmental Protection Agency (hereinafter referred to as "U.S. EPA") certified smokereaders observed emissions from WSC Corporation's (hereinafter referred to as the Company) coke battery and basic oxygen furnace shop located at its Chicago, Ill., facility. Based on these observations, U.S. EPA has found that the aforementioned coke battery is in violation of the State of Illinois Air Pollution Control Regulations 203(d)(6) (B)(1)(bb) and 203(d)(6)(B)(1)(v)(aa), and that the aforementioned basic oxygen process shop is in violation of the State of Illinois Air Pollution Control Regulation 202(b), parts of the applicable Illinois Implementation Plan, as defined in section 110(d) of the Act.

Therefore, it is hereby ordered: I. That the Company will comply with the Illinois particulate control regulations in accordance with the following schedule on or before the dates listed therein.

A. Basic Oxygen Process Shop

1. August 1, 1977—Undertake a program to develop an oxygen lance hole cover or closure to minimize leakage from fume collection hood.

2. January 1, 1978—Submit description and working drawings of lance hole cover or closure to be installed.

3. July 1, 1978—Rehabilitate main fume collection systems by replacing severely warped or damaged panels and sealing openings, and by replacing and realigning hood panel supports.

4. October 1, 1978—Install lance hole cover or closure on each furnace system and achieve compliance with Rule 202(b).

5. November 1, 1978—Submit results of particulate emission test of electrostatic precipitator stacks and certify compliance.

B. Coke Ovens—Charging

1. November 1, 1977—Install new jumper pipe on the No. 3 larry car hopper.

2. After November 30, 1977, the U.S. EPA shall evaluate the charging operation to determine compliance with Illinois Regulation 203(d)(6)(B)(1)(bb). If a determination is made that emissions continue to violate such regulation, the Company shall install a new jumper pipe on the No. 2 larry car hopper by April 15, 1978.

3. April 15, 1978—Achieve and certify compliance with the applicable Illinois Implementation Plan.

C. Coke Ovens—Doors

1. Immediately—Operate in compliance with the maintenance program attached as Appendix A hereto.

2. Immediately—Undertake a program to evaluate the effectiveness of alternate types of door sealing methods and the availability of door hoods with associated gas cleaning equipment.

3. After May 1, 1978, the U.S. EPA shall evaluate the door emissions to determine compliance with Illinois Regulation 203(d)(6)(B)(1)(v). If a determination is made that emissions continue to violate such regulation, the Company shall submit a program by July 1, 1978 designed to achieve compliance with such regulation.

4. July 1, 1979—Achieve and certify compliance with the applicable Illinois Implementation Plan.

II. Pursuant to Section 113(d)(7) of the Act, during the period of this Order, until completion of the program set out in Paragraph I herein, the Company shall use the best practicable systems of emission reduction so as to minimize particulate emissions and shall further comply with the requirements of the applicable implementation plan insofar as it is able to.

III. Nothing herein shall be construed to be a waiver by the Administrator of any rights or remedies under the Clean Air Act, including, but not limited to, Section 303 of that Act, 42 U.S.C. Section 7603.

IV. All submissions and notifications to U.S. EPA pursuant to this Order, shall be made to the Air Compliance Section, Enforcement Division, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, 312-353-2090.

V. Nothing herein shall affect the responsibility of the Company to comply with State or local regulations.

VI. The Company shall submit quarterly reports on its abatement efforts commencing

three months after date of program approval and ending upon full implementation of the abatement program contained in Paragraphs I.

VII. The Company shall comply with all emission monitoring requirements of the State of Illinois Implementation Plan.

Dated: October 27, 1977.

GEORGE ALEXANDER,
U.S. Environmental
Protection Agency.

The Company has reviewed this Order, stipulates as to the correctness of all facts represented therein, and consents to the terms and conditions of this Order.

Dated: October 5, 1977.

By: MICHAEL T. LYON,
Vice President,
General Counsel, WSC Corp.

Dated: _____

Administrator, U.S. Environmental
Protection Agency.

APPENDIX A—OPERATION AND MAINTENANCE PROCEDURES

COKE OVEN DOOR LEAKAGE

A. Push Side Doors. 1. Prior to charging each oven, push side coke oven doors shall be cleaned with the automatic door cleaner, inspected and if needed, adjusted, repaired or replaced. If the automatic door cleaner is not operable or completely effective, cleaning shall be done or completed by hand. This work shall meet the following minimum standards:

a. The door will be cleaned to permit a thorough inspection of the sealing surfaces.

b. Tar, pitch and other extraneous material shall be cleaned from the sealing surfaces. Particular attention will be paid to cleaning the bottom of the door where an accumulation of tar and pitch is most often found, and the portions of the door above the top latch.

c. Any minor knife edge repairs necessary will be made.

d. Any adjustments to the sealing edge springs indicated by the inspection will be made.

e. The condition of the door plug refractory will be inspected, and any minor repairs indicated will be made.

f. If, in the judgment of the foreman, the door requires extensive repair and maintenance beyond that which can be made on the bench, the door will be replaced with a spare door before the oven is next charged.

2. Any oven which emits a visible emission from the door or chuck door seal at the end of the coking cycle will be noted in a written record. If any oven emits a visible emission from the door seal at the end of two or more consecutive coking cycles, the foreman shall replace that door or jamb or both according to his judgment, except that if the leak is due solely to damage caused to the door since or during its last replacement on the oven, he may elect to make repairs that are sufficient to alleviate the leak without replacing the door. When any repair or replacement is done pursuant to this Paragraph 2, it shall be noted in the written record and identified by the door number.

B. Push Side Door Jams. 1. Push side door jams shall be cleaned with the automatic jamb cleaner, inspected and, if necessary, repaired after each push. If the automatic jamb cleaner is not operable or com-

pletely effective, cleaning shall be done (or completed) by hand. This work shall meet the following minimum requirements:

a. The jamb will be cleaned to permit a thorough inspection of the sealing surfaces.
b. Tar, pitch and other extraneous material shall be cleaned from the sealing surfaces. Particular attention will be paid to cleaning the bottom of the jamb where an accumulation of tar and pitch is most often found, and the portion of the jamb above the top latch.

c. The jamb will also be inspected for warpage which would prohibit door sealing.

d. Refractory against the jamb will be repaired as indicated by the inspection.

e. If, in the judgment of the foreman, the jamb requires replacement, the oven will not be charged until a new jamb has been installed.

C. When procedures required by Parts A and B call for replacement of a door jamb, the replacement shall be a new or rebuilt door or jamb.

PUBLIC INFORMATION

Disclosure of Existence; Extension of Comment Period

AGENCY: Food and Drug Administration.

ACTION: Proposed rule; extension of comment period.

SUMMARY: The comment period for the subject proposal is extended, based on a request for an extension, to provide additional time to submit comments.

DATE: Comments by June 30, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Stuart M. Pape, Office of the General Counsel, Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4350.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of March 28, 1978 (43 FR 12869), with a correction published in the FEDERAL REGISTER of March 31, 1978 (43 FR 13587), the Commissioner of Food and Drugs issued a proposal to amend existing regulations and promulgate new regulations to permit public disclosure of the existence and status of applications for approval of new drugs, new animal drugs, and medical devices pending before the Food and Drug Ad-

ministration (FDA), and permit public acknowledgement of the existence of notices of intent to market medical devices. The proposal would further amend the agency's public information and related regulations to permit the agency to respond truthfully and accurately to inquiries about the existence of applications for investigational notices for new drugs, new animal drugs, and medical devices when those notices have been approved by FDA or allowed to become effective. Comments were to be submitted on or before May 30, 1978.

The Commissioner has received a letter from the German American Chamber of Commerce, Inc. (on file with the Hearing Clerk, address given above), requesting an extension of the comment period. The request asserts that additional time is necessary for the Chamber to obtain and evaluate comments from medical device manufacturers in Germany whom they represent and transmit the comments to FDA.

The Commissioner finds this request reasonable and extends the comment period to June 30, 1978.

Interested persons may, on or before June 30, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above-named office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: May 24, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Regulatory Affairs.

[Docket 32115; Order 78-5-144]

BOISE-DENVER NONSTOP PROCEEDING

Order on Motions for Consolidation

Issued under delegated authority May 23, 1978.

By Order 78-5-111, served May 22, 1978, the Board authorized this Judge to consolidate in this proceeding any applications which conform to the scope of the proceeding and to dismiss nonconforming applications.

Accordingly, it is ordered, That:

1. The Motions of the following named carriers are granted; and their applications filed in the indicated dockets are consolidated in the proceeding in Docket 32115 to the extent the applications conform to the scope of the proceeding in the Boise-Denver Nonstop Proceeding:

a. Texas International Airlines, Inc., application filed in Docket 32196;
b. Western Air Lines, Inc., application filed in Docket 32201;
c. Continental Air Lines, Inc., application filed in Docket 32205.

2. The Motion of Hughes Airwest for consolidation of its application in Docket 29560, which does not conform with the scope of this proceeding, is dismissed. (This order does not affect the application of Hughes Airwest in Docket 30955 which was previously consolidated herein by the Board.)

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless before that date a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[Order No. 78-5-75; Docket No. 32186]

BRITISH CALEDONIAN AIRWAYS, LTD.

Statement of Tentative Findings and Conclusions and Order To Show Cause

Correction

In FR Doc. 78-13432 appearing at page 21342 in the issue for Wednesday, May 17, 1978, insert the following text in the third column of page 21343 under the "Specimen Permit". It should go before the paragraph beginning "The exercise of the privileges . . ."

The initial tariff filed by the holder shall not set forth rates, fares and charges lower than those that may be in effect for any U.S. air carrier in the same foreign air

transportation; However, this limitation shall not apply to a tariff filed after the initial tariff regardless of whether this subsequent tariff is effective before or after the introduction of the authorized service.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of the United Kingdom of Great Britain and Northern Ireland for international air service.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and the United Kingdom of Great Britain and Northern Ireland shall be parties.

By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1968, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of \$1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation of persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

[6320-01]

[Order 78-5-145; Docket 30332; Agreement
C.A.B. 27282; R-1 through R-15]

**INTERNATIONAL AIR TRANSPORT
ASSOCIATION**

Order

Issued under delegated authority
May 24, 1978.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and part 261 of the Board's Economic Regulations between various U.S. and foreign member air carriers of the International Air Transport Association (IATA).

The agreement proposes a new structure of North Atlantic cargo rates for the period September 1, 1978 through September 30, 1979. Minimum charges would be increased from \$31 to \$33; general cargo rates would be increased by 10 cents per kg.; and container rates and specific commodity rates would be increased by 12 cents per kg. The agreement would adopt the open-rate filings made by IATA member carriers since the expiry of the last IATA North Atlantic agreement, with increases of 10-12 cents per kg.

The purpose of this order is to establish dates for the submission of carrier justification in support of the agreement and of comments from interested persons. The carriers' justifications should set out, in the tabular format suggested in Order 75-7-88 (July 17, 1975), historical data as reported to the Board in Form 41 reports by functional account for total transatlantic services during the year ended March 31, 1978. This data should be adjusted to exclude market areas not covered by the agreement (e.g., the Mid Atlantic, Africa and internal German services) and all scheduled passenger and charter services in the North Atlantic market, so as to accurately present the economic status of scheduled cargo services in the North Atlantic. The carriers should also provide a forecast for the year ended September 30, 1979, assuming both present and proposed rates, which annualizes the proposed cost and revenue increases and adequately documents changes in costs

The open-rate filings include British Airways' U.K.-U.S. contract rates, TWA's flat charge container rates, various high weight-break specific commodity and freight-all-kinds (FAK) rates, and low specific commodity rates from the United Kingdom, Belgium and the Netherlands.

and revenue impact. Finally, costs should be allocated between the passenger and cargo compartments of scheduled combination aircraft by the "space method" stipulated by the Board in the Nonpriority Mail Rates decision, Orders 70-4-9 and 70-4-10. Each carrier should provide complete explanatory notes and supporting detail, including statistical data, to describe the methods used in making the allocations.

Seaboard World Airlines, Inc., a non-IATA carrier, will be required to submit data similar to that required of the IATA carriers, since a full economic picture of U.S. carrier operations in the North Atlantic is necessary for the Board to make a proper evaluation of the agreement.

Accordingly, it is ordered, That:

1. All United States air carrier members of the International Air Transportation Association operating North Atlantic services shall file within 15 calendar days after the date of service of this order, full documentation and economic justification for the rates embodied in the subject agreement;

2. Seaboard World Airlines, Inc., shall file within 15 calendar days after the date of service of this order, data similar to that required of the IATA carriers;

3. Comments and objections from interested persons and parties shall be submitted within 21 calendar days after the date of service of this order;

4. Replies to submissions received in response to ordering paragraphs 1, 2 and 3 above shall be submitted within 30 calendar days after the date of service of this order; and

5. Insofar as air transportation as defined by the Act is concerned, tariffs implementing the subject agreement should not be filed in advance of Board action on the subject agreement.

This order will be published in the FEDERAL REGISTER.

**PHYLLIS T. KAYLOR,
Secretary.**

**BUILDING TECHNOLOGY ADVISORY
COMMITTEE**

Notice of Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App., notice is hereby given that a meeting of the Building Rehabilitation Subcommittee of the Building Technology Advisory Committee will be held on June 21, 1978, at the Department of General Services, City

of New York, Municipal Building, 18th floor conference room, Center Street, New York, N.Y. The meeting will convene on June 21, 1978, at 9:30 a.m.

The purpose of this meeting is to review issues relating to building rehabilitation and formulate for submission to the Building Technology Advisory Committee recommendations for the Bureau's building technology programs.

The public is invited to attend, and the Chairman will entertain comments or questions at an appropriate time during the meeting.

Further information concerning this meeting may be obtained by contacting Samuel Kramer, National Engineering Laboratory, National Bureau of Standards, Building 225, Room A151, Washington, D.C. 20234, 301-921-3231.

Dated: May 19, 1978.

**VOLUNTARY PRODUCT STANDARD ACTION
ON PROPOSED WITHDRAWAL**

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10), notice is hereby given of the withdrawal of Voluntary Product Standard PS 5-66, "Porcelain Enameled Formed Steel Plumbing Fixtures."

It has been determined that this standard is technically inadequate and that revision would serve no useful purpose because the subject matter of PS 5-66 is adequately covered by the American National Standard Institute's standard ANSI A112.19.4-77, "Porcelain Enameled Formed Steel Plumbing Fixtures." This action is taken in furtherance of the Department's announced intentions as set forth in the public notice appearing in the FEDERAL REGISTER of March 31, 1978 (43 FR 13600), to withdraw this standard.

The effective date for the withdrawal of this standard will be July 31, 1978. This withdrawal action terminates the authority to refer to this standard as a voluntary standard developed under the Department of Commerce procedures.

Dated: May 24, 1978.

**COMMITTEE FOR THE
IMPLEMENTATION OF TEXTILE
AGREEMENTS**

**CLARIFYING THE STATUS OF COTTON, WOOL
AND MAN-MADE FIBER APPAREL PRODUCTS
EXPORTED FROM HONG KONG BEFORE
JANUARY 1, 1978**

MAY 25, 1978.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: (1) Permitting through May 31, 1978 entry for consumption into the United States of certain cotton, wool and man-made fiber apparel products, produced or manufactured in Hong Kong and exported to the United States before January 1, 1978.

(2) Permitting through June 30, 1978 withdrawal from warehouse for consumption of certain cotton, wool and man-made fiber apparel products, produced or manufactured in Hong Kong and exported to the United States before January 1, 1978.

SUMMARY: On January 5, 1978 a letter dated December 30, 1977 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs was published in the FEDERAL REGISTER (43 FR 993) which established an export visa requirement for cotton, wool and man-made fiber apparel products, produced or manufactured in Hong Kong and exported to the United States after December 31, 1977, under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 8, 1977, as amended, between the Governments of the United States and Hong Kong. The letter of December 30, 1977 did not make clear the types of entry that were to be denied by the U.S. Customs Service, effective on June 1, 1978, for apparel products exported before January 1, 1978. Accordingly, there is published below a letter of May 25, 1978 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs clarifying the dates and types of entry which are to be permitted.

Chairman, Committee for the
Implementation of Textile
Agreements, and Deputy As-
sistant Secretary for Domestic
Business Development.**

U.S. DEPARTMENT OF COMMERCE,
Washington, D.C., May 25, 1978.
COMMITTEE FOR THE IMPLEMENTATION OF
TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229

DEAR MR. COMMISSIONER: This directive amends, but does not cancel, the directive of December 30, 1977 from the Chairman of the Committee for the Implementation of Textile Agreements, which established an export visa requirement for certain cotton, wool and man-made fiber apparel products, produced or manufactured in Hong Kong and exported to the United States after December 31, 1977.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 14, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 8, 1977, as amended, between the Governments of the United States and Hong Kong; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, the final sentence of paragraph 2 of the directive of December 30, 1977 is hereby amended to read as follows:

Cotton, wool and man-made fiber apparel products, produced or manufactured in Hong Kong and exported to the United States before January 1, 1978 shall be permitted entry for consumption into the United States through May 31, 1978. Withdrawals from warehouse for consumption of such goods shall be permitted through June 30, 1978.

The actions taken with respect to the Government of Hong Kong and respect to imports of cotton, wool and man-made fiber apparel products from Hong Kong have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

**ROBERT E. SHEPHERD,
Chairman, Committee for the Imple-
mentation of Textile Agreements,
and Deputy Assistant Secretary for
Domestic Business Development.**

**CLARIFYING THE STATUS OF CERTAIN
COTTON, WOOL AND MAN-MADE FIBER
TEXTILE PRODUCTS EXPORTED FROM THE
REPUBLIC OF CHINA BEFORE JANUARY 1,
1978**

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: (1) Permitting through May 31, 1978 entry for consumption into the United States of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of China and exported to the United States before January 1, 1978. (2) Permitting through June 30, 1978

withdrawals from warehouse for consumption of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of China and exported to the United States before January 1, 1978.

SUMMARY: On December 28, 1977, a letter dated December 22, 1977 was published in the *FEDERAL REGISTER* (42 FR 64728) announcing that under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 18, 1977, between the Governments of the United States and the Republic of China, as amended and extended, cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of China and exported to the United States before January 1, 1978, that have been visaed under the former textile category system would not be denied entry until June 1, 1978. The letter of December 22, 1977 did not make clear the types of entry that were to be denied by the U.S. Customs Service, effective on June 1, 1978, for cotton, wool and man-made fiber textile products exported from the Republic of China before January 1, 1978. Accordingly, there is published below a letter of May 25, 1978 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs clarifying the dates and types of entry which are to be permitted.

FOR FURTHER INFORMATION CONTACT:

Washington, D.C., May 25, 1978.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
DEPARTMENT OF THE TREASURY,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive amends, but does not cancel, the directive of December 22, 1977, from the Chairman of the Committee for the Implementation of Textile Agreements, that directed you, among other things, to permit entry until June 1, 1978, of cotton, wool and man-made fiber textile products, exported from the Republic of China before January 1, 1978 and visaed under the former textile category system.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 14, 1977, pursuant to the Bilateral Cotton, Wool and Man-Made

Fiber Textile Agreement of December 18, 1977, as amended and extended, between the Governments of the United States and the Republic of China; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 8, 1977, the final sentence of paragraph 2 of the directive of December 22, 1977 is hereby amended to read as follows:

Cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of China and exported to the United States before January 1, 1978, shall be permitted entry for consumption into the United States through May 31, 1978. Withdrawals from warehouse for consumption of such goods shall be permitted through June 30, 1978.

The actions taken with respect to the Government of the Republic of China and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the *FEDERAL REGISTER*.

CONSUMER PRODUCT SAFETY COMMISSION

PRODUCT SAFETY ADVISORY COUNCIL

Open Meeting

AGENCY: Consumer Product Safety Commission (CPSC).

ACTION: Notice of meeting: Product Safety Advisory Council.

SUMMARY: This notice announces a meeting of the Product Safety Advisory Council (PSAC) on Monday, June 12, 1978, from 9:30 a.m. to 5 p.m., and Tuesday, June 14, 1978, from 9:30 a.m. to 4 p.m., in the Third Floor Hearing Room, 1111 18th Street NW., Washington, D.C.

SUPPLEMENTARY INFORMATION: The Advisory Council was established by Section 28 of the Consumer Product Safety Act (CPSA), which provides that the Commission may consult with the Council before prescribing a consumer product safety rule or taking other action under the act.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Dee Wilson, Committee Management Officer, Office of the Secretary, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, 202-634-7700.

AGENDA: The agenda includes the following items: recall effectiveness; options for CPSC action relative to comparative safety; pending regulatory matters, i.e., carcinogen policy; proposed ban on unvented space heaters; proposed regulation to ban benzene and the proposed safety standard for miniature Christmas tree lights.

The meeting is open to the public; however, space is limited. Persons who wish to make oral or written presentations to the Advisory Council should notify the Office of the Secretary (see Page 1) by June 5, 1978. The notification should list the name of the individual who will make the presentation, the person, company, group or industry on whose behalf the presentation will be made, the subject matter and the amount of time requested.

Dated: May 23, 1978.

SADYE DUNN,
Acting Secretary.

[6740-02]

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP74-318]

MICHIGAN WISCONSIN PIPE LINE CO.

Petition to Amend

MAY 16, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977), and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent Commission within the Department of Energy, was activated on October 1, 1977. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

Take notice that on May 4, 1978, Michigan Wisconsin Pipe Line Co. (Petitioner), One Woodward Avenue, Detroit, Mich. 48226, filed in Docket No. CP74-318 a petition to amend the FPC order issued July 7, 1977, in the instant docket, pursuant to section 7(c) of the Natural Gas Act so as to authorize the acquisition and development for underground natural gas storage of the South Chester 15 field located in Otsego County, Mich., including the construction and operation of facilities incident thereto, in lieu of developing the Leonard field located in Oakland County, Mich., which Petitioner is presently authorized to develop, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner states that by the order issued July 7, 1977, it was authorized to acquire and develop for underground storage three depleted natural gas fields, the Muttonville, Capac, and Leonard, for the purpose of meeting the requirements of its distribution customers for winter service and providing long-term storage services for Natural Gas Pipeline Co. of America, Northern Natural Gas Co., and The Peoples Gas Light & Coke Co. When fully developed the three fields were projected to have an annual working storage capacity of approximately 46,000,000 Mcf and a peak day withdrawal capability at the end of the winter period (March 31) of 500,000 Mcf, of which 11,200,000 Mcf and

40,000 Mcf per day, respectively, were attributable to the ultimate storage operation of the Leonard field, it is indicated.

Petitioner indicates that the Muttonville field has been acquired, developed, and is now fully operational, and the Capac field has been acquired and is being developed. However, the acquisition of the Leonard field has been delayed, it is said. An agreement between Petitioner and Michigan Consolidated Gas Co. (Consolidated) dated May 30, 1974, provided that Consolidated would sell and assign its interest in the Leonard field to Petitioner when the field was depleted to 540,000 Mcf of remaining reserves, then estimated to occur by October 1, 1975; however, due to the production of larger than expected volumes of liquid hydrocarbon and related regulatory and operating problems, gas production has been intermittent and there still remains some 3,000,000 Mcf of reserves in the field, and it is estimated that the 540,000 Mcf level of reserves will not be achieved until the summer of 1981, with the earliest injection in the summer period of 1982, which is considerably beyond the time when Petitioner would require additional storage, it is stated.

Petitioner indicated that the South Chester field is presently available for development as a natural gas storage field and would provide 16,800,000 Mcf of working storage and a peak daily delivery rate of 200,000 Mcf. It is stated that it would be necessary to drill and complete seven new wells, rehabilitate the existing well, construct a gathering system, and install 6,000 horsepower of compression in order to develop the South Chester field. Furthermore, Petitioner proposes to construct and operate approximately 16 miles of 24-inch O.D. pipeline connecting the South Chester field with the existing pipeline system of Great Lakes Gas Transmission Co. (Great Lakes) so that Great Lakes, whose pipeline system is located in close proximity to the South Chester storage field, can transport the gas which Petitioner would inject into and withdraw from the South Chester field. Great Lakes has filed an application with the Commission requesting authorization to provide this transportation and exchange service, it is indicated.

Petitioner estimated that the total cost of acquisition and development of the South Chester field would be \$25,371,830 (approximately \$3,000,000 less than the costs attributable to the development of the Leonard field), which costs would be financed with treasury funds, retained earnings, and other funds generated internally, together with borrowings from banks under short-term lines of credit as may be required. Petitioner anticipates

pates that any bank borrowings will subsequently be permanently financed as market conditions permit.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 7, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-14843 Filed 5-26-78; 8:45 am]

[6740-02]

[Docket No. ER78-370]

NORTHERN STATES POWER CO.

Interconnection and Interchange Agreement

MAY 19, 1978.

Take notice that Northern States Power Co. (Northern States), on May 12, 1978, tendered for filing an Interconnection and Interchange Agreement dated May 5, 1978, with Dairyland Power Cooperative.

Northern States indicates that the Agreement provides for interconnection between the parties at the Altura and NSP-DPC Adams Interconnection as designated on Exhibit A.

An effective date of June 15, 1978 is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on May 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-14844 Filed 5-26-78; 8:45 am]

[6740-02]

[Docket No. RP73-8]

NORTH PENN GAS CO.

Proposed Changes in FERC Gas Tariff

MAY 19, 1978.

Take notice that North Penn Gas Co. (North Penn) on May 15, 1978, tendered for filing proposed changes in its FERC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA Clause for rates to be effective May 1, 1978.

North Penn states that the change in rates reflected in Substitute Fifty-Third Revised Sheet No. PGA-1 reflects a decrease of 0.896 cent per Mcf to the rates as submitted for Commission approval on March 6, 1978, in Fifty-Second Revised Sheet No. PGA-1.

The substitute tariff sheet is being filed in lieu of the rates filed on April 26, 1978, for effectiveness May 1, 1978, and reflects the change in rates as filed by Consolidated Gas Supply Corp. on May 5, 1978, for effectiveness May 1, 1978.

North Penn requests waiver of any of the Commission's Rules and Regulations in order to permit the proposed rates to go into effect on May 1, 1978.

Copies of this filing were served upon North Penn's jurisdictional customers, as well as interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NW., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 31, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER78-345]

TUCSON GAS & ELECTRIC CO.

Filing SCE-TGE 1978 Energy Agreement

MAY 9, 1978.

Take notice that Tucson Gas & Electric Co. ("TGE") on May 1, 1978, tendered for filing SCE-TGE 1978 Energy Agreement between TGE and South-

ern California Edison Co. ("SCE"). TGE states that the primary purpose of the Agreement is to provide terms and conditions relating to the sale of energy to SCE for resale during the period from May 15, 1978, through December 31, 1978. TGE states that copies of the filing were served upon SCE.

Any person desiring to be heard or to make any application with reference to said Agreement should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 902-4]

SCIENCE ADVISORY BOARD, ECOLOGY COMMITTEE

Meeting

Under Pub. L. 92-463, notice is hereby given that a meeting of the Ecology Committee of the Science Advisory Board will be held on June 15 and 16, 1978, beginning at 9 a.m., in the Administrator's Conference Room (Room 1101), Waterside Mall West Tower, 401 M Street SW., Washington, D.C.

This is the seventeenth meeting of the Ecology Committee. The agenda includes a report on Science Advisory Board activities; a briefing on the feasibility study of the possible containment or removal of Kepone contaminants in the James River; updates on the Shagawa Lake Project, Lake Eutrophication Survey, and Lake Restoration; presentation on the Agency's acid precipitation program and wetlands research program; discussion on the Total Watershed Ecosystem Study Plan; briefing on Municipal Waste Treatment Systems; member items of interest; and future Committee activities.

The meeting is open to the public. Any member of the public wishing to

attend, participate, or obtain information should contact Dr. J. Frances Allen, Executive Secretary, Ecology Committee, 703-557-7720.

Dated: May 23, 1978.

SCIENCE ADVISORY BOARD EXECUTIVE COMMITTEE, SUBCOMMITTEE ON TOXIC SUBSTANCES

Open Meeting

Under Pub. L. 92-463, notice is

hereby given that a 1-day meeting of the Subcommittee on Toxic Substances of the Science Advisory Board will be held on June 22, 1978 in Room 2117, Environmental Protection Agency, Waterside Mall, 401 M Street SW., Washington, D.C. 20460. The meeting will start at 10 a.m. on June 22, 1978.

The Subcommittee will be meeting for the third time, the purpose being to review elements of the health effects test standards proposed by the Office of Toxic Substances.

The meeting will be open to the

public. Any member of the public wishing to attend or submit a paper should contact the Secretariat, Science Advisory Board (A-101), U.S. Environmental Protection Agency, Washington, D.C. 20460, by close of business, June 19, 1978. Please ask for Mrs. Shirley Smith. The telephone number is 202-755-0263.

Dated: May 19, 1978.

FEDERAL MARITIME COMMISSION

[Docket No. 78-19]

A/S D/S SVENDBORG AND D/S of 1912 A/S v. MARYLAND PORT ADMINISTRATION

Filing of Complaint

Notice is hereby given that a complaint filed by A/S D/S Svendborg and D/S of 1912 A/S against Maryland Port Administration was served May 23, 1978. The complaint alleges that certain provisions of respondent's

Terminal Services Tariff No. 3 are unlawful and in violation of sections 16 and 17 of the Shipping Act, 1916.

Hearing in this matter, if any is held, shall commence on or before November 23, 1978. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statement, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

FRANCIS C. HURNEY,
Secretary.

[FR Doc 78-14935 Filed 5-26-78; 8:45 am]

[6730-01]

AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; Chicago, Ill.; and San Juan, P.R. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before June 19, 1978. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreement No. T-3652.

Filing Party: Mr. David A. Schaller, Manager, Administration, Port Everglades Authority, P.O. Box 13136, Port Everglades, Fla. 33316.

Summary: Agreement No. T-3652, between Port Everglades Authority

(Port) and Sea-Land Service, Inc. (Sea-Land), provides for the one-year lease of 5.85 acres of land in Hollywood, Florida, to be used in connection with the handling of containers. As compensation, Sea-Land will pay \$3,858.85 per month (based on land rental and a percentage of improvements on the land) plus applicable taxes. Thirty days after Port has received combined revenues of \$71,658.41 (which include land rent, vessel dockage and cargo wharfage) and for each succeeding month, Port will refund that month's land rent. Sea-Land has an option to expand operations to include an additional two acres of land. Agreement No. T-3652 will supersede Agreement No. T-3457 between the same parties.

Agreement No. 8080-15.

Filing Party: Mr. Wade S. Hooker, Jr., Burlingham Underwood & Lord, One Battery Park Plaza, New York, New York 10004.

Summary: Agreement No. 8080-15, entered into among the member lines of the Atlantic and Gulf-Indonesia Conference, modifies the basic agreement by the addition of Article 25 which reads as follows:

25. The Conference may share office space, equipment, personnel, administrative and related facilities with any other conference(s) and/or rate agreement(s).

Agreement No. 8240-12.

Filing Party: Mr. Wade S. Hooker, Jr., Burlingham Underwood & Lord, One Battery Park Plaza, New York, New York 10004.

Summary: Agreement 8240-12, entered into among the member lines of the Atlantic and Gulf-Singapore, Malaya and Thailand Conference modifies the preamble to the basic agreement to update the names of the countries within the scope of the agreement and by the addition of Article 25 which reads as follows:

25. The Conference may share office space, equipment, personnel, administrative and related facilities with any other conference(s) and/or rate agreement(s).

Agreement No. 10333.

Filing Party: Mr. William L. Hamm, 25 Broadway, New York, New York 10004.

Summary: Agreement 10333 is a revenue pooling arrangement entered into by Farrell Lines, Inc., Cunard-Brocklebank Ltd., The Scindia Steam Navigation Co., Ltd., The Shipping Corporation of India Ltd., Waterman Isthmian Line, and Hellenic Lines Ltd., (all of whom are members of the Calcutta, East Coast of India and Bangladesh/U.S.A. Conference, Agreement No. 8650), applicable generally to the transportation of cargoes by them from Calcutta and ports of Bangladesh to U.S. Atlantic and Gulf ports.

By order of the Federal Maritime Commission.

Dated: May 24, 1978.

FRANCIS C. HURNEY,
Secretary.

[6730-01]

AGREEMENTS FILED

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, La., San Francisco, Calif., and San Juan, P.R. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by June 9, 1978. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated herein-after) and the statement should indicate that this has been done.

Agreements Nos. 10334, 10335, 10336, 10337, 10338, 10339, 10340.

Filing party: F. A. Wendt, Senior Vice President, Traffic and Sales, Delta Steamship Lines, Inc., 1700 International Trade Mart, New Orleans, La. 70150.

Summary: Agreement No. 10334 is an agency agreement whereby Delta Steamship Lines, Inc. (Delta) appoints Peabody & Lane, Inc. to act as its husbanding agent at the ports of Boston, Mass. and Searsport and Portland, Maine; Agreement No. 10335 is an agency agreement whereby Delta appoints Goff & Page, Co. to act as its husbanding agent at the ports of Providence, R.I., Fall River and New Bedford, Mass., and New Haven and New London, Conn.; Agreement No. 10336 is an agency agreement whereby Delta appoints Cilco Terminal Co. to act as its husbanding agent at the ports of Bridgeport and Byram, Conn.; Agreement No. 10337 is an agency

agreement whereby Delta appoints Eller & Co., Inc. to act as its husbanding agent at all ports of Florida except Miami, Pensacola, Port St. Joe and Panama City; Agreement No. 10338 is an agency agreement whereby Delta appoints Freedman & Slater, Inc. to act as its husbanding agent at the port of Albany, N.Y.; Agreement No. 10339 is an agency agreement whereby Delta appoints Southeastern Maritime Co. to act as its husbanding agent at the ports of Charleston, Georgetown and Port Royal, S.C., Wilmington, Sunny Point and Moorehead City, N.C., and Brunswick and Savannah, Ga.; and Agreement No. 10340 is an agency agreement whereby Delta appoints Ramsey, Scarlett & Co., Inc. to act as its husbanding agent at the ports of Baton Rouge, Burnside and Allen, La., Baltimore, Md., and Norfolk and Newport News, Va. The above-named agents are appointed to act under the terms and conditions and to the extent set forth in the respective agreements.

By Order of the Federal Maritime Commission.

Dated: May 24, 1978.

FRANCIS C. HURNEY,
Secretary.

I.T.O. CORP. OF BALTIMORE v. MARYLAND PORT ADMINISTRATION

Filing of Complaint

Notice is hereby given that a complaint filed by I.T.O. Corp. of Baltimore against Maryland Port Administration was served May 22, 1978. The complaint alleges that certain provisions of respondent's Tariff No. 3 which purport to exculpate respondent from the consequences of its own fault or negligence are invalid and unlawful and in violation of the Shipping Act, 1916, Title 46 U.S.C. 814-817.

Hearing in this matter, if any is held, shall commence on or before November 22, 1978. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statement, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

REPORT ON BIOASSAY OF B-TGdR FOR POSSIBLE CARCINOGENICITY

Availability

Beta-2'-deoxy-6-thioguanosine monohydrate (B-TGdR) (CAS 789-61-7) has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of beta-2'-deoxy-6-thioguanosine monohydrate

(B-TGdR) for possible carcinogenicity was conducted by administering the test chemical by intraperitoneal injection to Sprague-Dawley rats and B6C3F1 mice.

Groups of 35 rats of each sex were administered B-TGdR in a buffered saline and polysorbate 80 vehicle at one of two doses, either 3.5 or 7 mg/kg body weight, three times per week for 52 weeks, then observed for an additional 26 weeks. Controls consisted of groups of 10 rats of each sex, which were either administered the vehicle alone (matched vehicle controls) or were untreated (matched untreated controls). Pooled controls consisted of the matched vehicle controls of each sex from the current bioassay, combined with 20 corresponding vehicle controls of each sex from similar bioassays of two other test chemicals. All surviving rats were killed at 78 or 79 weeks.

Groups of 35 mice of each sex were administered the chemical in a buffered saline and polysorbate 80 vehicle at one of two doses, either 2 or 4 mg/kg, three times per week for 52 weeks, then observed for periods of up to 27 weeks, depending on length of survival. Because of severe toxicity at the high dose, resulting in loss of all mice by week 12 (males) or week 25 (females), additional groups of 35 mice of each sex were administered 1 mg/kg on the same schedule. Controls consisted of groups of 15 mice of each sex, which were either administered the vehicle or were untreated. Pooled controls consisted of groups of 15 vehicle-control animals of each sex from studies using the doses of 2 or 4 mg/kg, combined with corresponding groups of 15 vehicle-control animals of each sex from the study using the dose of 1 mg/kg.

B-TGdR was toxic to rats at the doses used in this study. Mean body weights of the high- and low-dose rats of both sexes were lower than those of the corresponding vehicle controls throughout the study. There was also severe early mortality in the high-dose groups of both sexes and positive dose-related trends in mortality over the period of the bioassay. However, 66 percent of the low-dose males and 77 percent of the low-dose females survived until termination of the study.

In mice, B-TGdR was toxic at the doses originally selected. Mean body weights were not consistently affected; however, at the high dose only three males and seven females lived past week 7, and all were dead by week 25. In the mid-dose group, only 14 percent of the males and 6 percent of the females survived until termination of the study at week 79; in the low-dose group, the survival rate was 31 percent for the males and 29 percent for the females.

Because of the high mortality, time-adjusted statistical analyses were performed for both rats and mice.

It is concluded that under the conditions of this bioassay, the low survival of the dosed and vehicle-control groups of mice, as well as a possible procedural problem that may have affected the incidences of tumors in these groups, does not allow a determination to be made of the carcinogenic potential of B-TGdR in this species. B-TGdR in the vehicle of 0.05 percent polysorbate 80 was, however, carcinogenic in rats, producing carcinomas of the ear canal in the females and possibly also in the males.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

[4110-08]

REPORT ON BIOASSAY OF N,N'-DICYCLOHEXYLTHIOUREA FOR POSSIBLE CARCINOGENICITY

Availability

N,N'-Dicyclohexylthiourea (CAS 1212-29-9) has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Program Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of N,N'-dicyclohexylthiourea for possible carcinogenicity was conducted by administering the test chemical in feed to Fischer 344 rats and B6C3F1 mice.

Groups of 50 rats and 50 mice of each sex were administered N,N'-Dicyclohexylthiourea at one of two doses, either 25,000 or 50,000 ppm, for 109 weeks for rats or 104 weeks for mice. Matched controls consisted of 50 untreated rats or 50 untreated mice of each sex.

Mean body weights of male rats and male mice were unaffected by the compound, whereas mean body weights of the females of each species showed mild dose-related retardation over the bioassay period, when compared with the matched controls. Survival was sufficient to termination of the study in all groups of both rats and mice for the development of late-appearing tumors.

An increase in proliferative lesions of the follicular cells of the thyroid was associated with the administration of N,N'-dicyclohexylthiourea in both Fischer 344 rats and B6C3F1 mice.

However, because statistical significance was not achieved and because thyroid tumors are not rare spontaneous lesions in these strains of animals and occur with a variable incidence, it is concluded that under the conditions of this bioassay N,N'-dicyclohexylthiourea was not demonstrated to be carcinogenic in either species.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalogue of Federal Domestic Assistance Program Number 13.393, Cancer Cause and Prevention Research.)

Office of Education

NATIONAL ADVISORY COUNCIL ON ADULT EDUCATION

Meeting

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Advisory Council on Adult Education. This notice also describes the functions of the Council. Notice of this meeting is required under the Federal Advisory Committee Act (Pub. L. 92-463, Section 10(a)(2)).

DATE: June 15, 1978, 9 a.m. to 10 p.m.; June 16, 1978, 8 a.m. to 5 p.m.; June 17, 1978, 8:30 a.m. to 3 p.m.

ADDRESS: Sixth Avenue Motor Hotel, 2000 6th Avenue, Seattle, Wash., on June 15 and June 17; North Seattle Community College, Highway 99, Seattle, Wash. on June 16.

FOR FURTHER INFORMATION CONTACT:

Dr. Gary A. Eyre, Executive Director, National Advisory Council on Adult Education, 425 13th Street NW., Washington, D.C. 20004, 202-376-8892.

SUPPLEMENTARY INFORMATION: The National Advisory Council on Adult Education is established under Section 311 of the Adult Education Act (80 Stat. 1216.20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the council shall be open to the public. The proposed agenda includes:

Urban policy and adult education.
Executive committee meeting.
The community/junior college system for delivery of adult education program services.
Election of officers.
Annual report.
USOE report.
Standing committee reports.

Records shall be kept of all council proceedings, and shall be available for public inspection at the Office of the National Advisory Council on Adult Education, Room 323, Pennsylvania Building, 425 13th Street NW., Washington, D.C. 20004.

Signed at Washington, D.C. on May 24, 1978.

GARY A. EYRE,
Executive Director, National Advisory Council on Adult Education.

Office of the Secretary

OFFICE OF GRANT AND CONTRACT FINANCIAL MANAGEMENT

Statement of Organization, Functions and Delegations of Authority

This notice amends Part A of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare, Office of the Secretary, by revising Chapter AMG, Office of Grants and Procurement 39 FR 3708, 1-29-74, 39 FR 29610, 8-14-74, and 42 FR 36312, 7-14-77. This notice adds to Section AMG.00 Mission a new function (7); it revises Section AMG.10 to show the title of the new organization; it revises Section AMG.20A to add a new paragraph 15; and it revises AMG.20 subparagraph I in its entirety.

The Chapter changes read as follows:

Section AMG.00 Mission.
Add: (7) Resolves audit findings concerning grantee/contractor systems and record keeping deficiencies which affect awards made by more than one Principal Operating Component (POC), health agency, or education agency (hereafter referred to as agency). Formulates policies and procedures governing the resolution of audit findings by POCs.

Section AMG.10 Organization.
Delete: Division of Financial Management Standards and Procedures (AMG.7).

Substitute: Office of Grant and Contract Financial Management (AMG.7).
Section AMG.20.

Add to AMG.20A a new paragraph 15:

15. Resolves audit findings concerning grantee/contractor systems and record keeping deficiencies which affect awards made by more than one agency. Formulates policies and procedures governing the resolution of audit findings by POCs.

Delete present Section AMG.20 subparagraph I and insert in its place:
Office of Grant and Contract Financial Management

1. Formulates Department-wide, and recommends Government-wide, policies and procedures for determining and reimbursing the costs of grantee/contractor institutions. Formulates policies and procedures on the review and negotiation of indirect costs and similar cost allocations; performs such functions for other Federal agencies as delegated by the Office of Management and Budget.

2. Resolves audit findings concerning deficiencies in grantee/contractor management and record keeping systems which affect awards made by more than one agency. Recommends to the Secretary, or a special Secretarial Board, or other designee, appropriate actions against an institution when necessary to protect the interests of the Department. Provides or arranges for technical assistance to grantees and contractors in overcoming serious financial management problems.

3. Formulates policies and procedures, and provides guidance, to POCs governing the resolution of audit findings on the administration of grants and contracts. With the Office of the Inspector General, exercises oversight of POC resolution of such audit findings.

4. Exercises functional management responsibilities over indirect cost and cost allocation negotiations performed by the Divisions of Cost Allocation in the several Regional Administrative Support Centers.

5. Serves as the Departmental liaison with, and provides recommendations to, the Office of Management and Budget, the General Services Administration, the Cost Accounting Standards Board, and other Federal agencies on the development of Government-wide financial management policies related to the administration of grant/contract programs. Represents the Department in the development of these policies.

6. Conducts and participates in studies of the financial management practices of grantees/contractors and the

Department in selected sensitive or troublesome areas to identify the needs for new policies, policy changes, guidelines, etc. to overcome problems in these areas.

7. Formulates policies and procedures aimed at assuring that grantees/contractors have the financial management capability necessary to administer HEW awards. Develops guides and manuals aimed at helping grantees/contractors strengthen their financial management capabilities.

8. Evaluates and approves or disapproves policies developed by POCs to implement Department cost and audit resolution policies.

9. Provides training and assistance to POCs and regional offices in implementing Department-wide and Government-wide financial management policies.

Dated: May 20, 1978.

LEONARD D. SCHAEFFER,
Assistant Secretary for Management and Budget.

[4110-12]

SOCIAL SECURITY ADMINISTRATION

Statement of Organization, Functions and Delegations of Authority

Part S (formerly part 4) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare contains the Statement of Organization, Functions and Delegations of Authority for the Social Security Administration (SSA). That portion of the SSA Statement pertaining to the Mission, Organization, Order of Succession and Functions of the Bureau of Hearings and Appeals (BHA), as previously described in sections SG.00, SG.10 and SG.20 (formerly included in sections 4-06-00 through 4-06-20 of 40 FR 36612-13 dated August 21, 1975, and 42 FR 25535 dated May 18, 1977) is hereby revised to reflect organizational and functional changes, including: the establishment of a separate Office of the Chief Administrative Law Judge as an entity distinct from the Office of the Bureau Director; the abolishment of the Office of the Assistant Bureau Director, Administration; the establishment of an Office of the Associate Bureau Director for Management Operations; the establishment of four divisions within the Office of the Associate Bureau Director for Management Operations; the inclusion of the Executive Secretariat and the Congressional and Public Inquiry Staff in the Office of the Bureau Director; the consolidation of the Medical Advisory Staff and Appeals Council and the transfer of the Medical Advisory Staff's medical con-

tracting function to the Office of the Associate Bureau Director for Management Operations; the transfer of the BHA appraisal function to the Office of the Associate Bureau Director for Management Operations; the transfer of the Vocational Consultant Program functions from the Division of Appeals Operations to the Office of the Associate Bureau Director for Management Operations; and the addition of management and administrative responsibilities for field operations to the Office of the Associate Bureau Director for Management Operations.

The revised material reads as follows:

Section SG.00—Bureau of Hearings and Appeals—(Mission) The Bureau of Hearings and Appeals (BHA), directs and administers the hearings and appeals process for SSA. It directs a nationwide field hearings organization staffed with Administrative Law Judges who conduct impartial hearings and make decisions on appealed determinations involving retirement, survivors, disability and health insurance benefits; black lung benefits; and supplemental security income. BHA also performs central reviews of decisions by Administrative Law Judges which are appealed by a claimant or reopened on the motion of the Appeals Council and renders the Secretary's final decision on such cases.

Section SG.10—Bureau of Hearings and Appeals—(Organization) The Bureau of Hearings and Appeals, under the leadership of the Director of the Bureau of Hearings and Appeals consists of the:

- A. Director of the Bureau of Hearings and Appeals
- B. Immediate Office of the Bureau Director, which includes the:
 - 1. Deputy Bureau Director
 - 2. Executive Secretariat
 - 3. Congressional and Public Inquiry Staff
 - C. Appeals Council
 - D. Office of the Chief Administrative Law Judge
 - E. Office of the Associate Bureau Director for Management Operations
 - 1. Immediate Office of the Associate Bureau Director
 - 2. Division of Administrative Coordination
 - 3. Division of Appraisal
 - 4. Division of Management Coordination
 - 5. Division of Field Management
 - 6. Division of Appeals Operations
 - G. Division of Policy and Procedure
 - H. Office of the Regional Chief Administrative Law Judge (located in each of SSA's ten geographical regions nationwide).

Section SG.20—Bureau of Hearings and Appeals—(Functions)

A. The Director of the Bureau of Hearings and Appeals:

1. The Director of the Bureau of Hearings and Appeals is directly responsible to the Commissioner of Social Security for the performance of BHA's mission and provides general supervision to the principal components of BHA.

2. During the absence or disability of the Director of the Bureau of Hearings and Appeals, or in the event of a vacancy in this position, the Deputy Bureau Director shall act as Bureau Director.

3. In the event of the absence or disability of both the Bureau director and the Deputy Bureau Director, a BHA executive, designated by the Bureau Director, shall serve as acting Bureau Director.

4. Shall both the positions of Bureau Director and Deputy Bureau Director become vacant, an SSA official designated by the Commissioner of Social Security shall serve as acting Bureau Director.

B. The Immediate Office of the Bureau Director assists the Bureau director with the full range of his responsibilities and handles such other assignments as he may prescribe.

1. **The Deputy Bureau Director** assists the Bureau Director in carrying out his responsibilities and performs such other duties as may be prescribed.

2. **The Executive Secretariat:**

a. Maintains liaison and coordination between the Office of the Bureau Director and major Bureau components.

b. Coordinates, clears, and reviews completed staff work on action memoranda directed to the Bureau Director.

c. Controls the Bureau Director's correspondence, assigning action on incoming correspondence, and developing information on action requests to the Bureau Director.

d. Coordinates and/or prepares briefing materials for meetings attended by the Bureau Director.

3. **Congressional and Public Inquiry Staff:**

a. Prepares and/or reviews Bureau responses to congressional and public inquiries and correspondence.

b. Evaluates Bureau central office correspondence for conformance with Bureau standards, policies and procedures.

c. Provides Bureau level guidance and liaison on correspondence management.

d. Determines when inquiries represent implied requests for hearings or reviews and assures that such requests are directed to the appropriate Bureau component.

C. The Appeals Council:

1. Reviews decisions of Administrative Law Judges involving retirement, survivors, disability and health insurance benefits, and supplemental security income, under the provisions of titles II, XVI, and XVIII of the Social

Security Act, as amended; and disability and survivors benefits under Part B of title IV and related provisions of the Federal Coal Mine Health and Safety Act of 1969, as amended (the "Black Lung" Act) on the motion of appellants or on its own motion.

2. Examines case records, obtains additional evidence and renders written decisions or orders which are the Secretary's final decisions/orders; or remands cases to Administrative Law Judges.

3. Determines and recommends action concerning decisions appealed to the courts.

4. Obtains additional evidence and prepares supplemental decisions on remanded cases, and recommends whether appeals should be taken to higher courts on judicial reversals of the Secretary's decisions.

5. Directs the medical advisory services program for BHA components in the evaluation of disability, health insurance and supplemental security income cases under the provisions of titles II, XVI, and XVIII of the Social Security Act as amended, and disability and survivors cases under the "Black Lung" Act.

6. Provides guidance in the effective utilization of medical advisors throughout BHA and participates in the formulation of medical policies used in the evaluation of disability, health insurance, supplemental security income, and black lung benefits.

7. Maintains liaison with medical groups to promote program understanding and to keep abreast of disability evaluation developments and changes in health insurance regulations.

D. The Office of the Chief Administrative Law Judge:

1. Provides professional leadership to the nationwide corps of Administrative Law Judges and Regional Chief Administrative Law Judges.

2. Serves as the focal point of communications between the Office of the Bureau Director and the Administrative Law Judges.

3. Directs a professional staff engaged in maintaining close contact with the field hearings organization to obtain and assess the views of Administrative Law Judges on hearings operations.

E. The Office of the Associate Bureau Director for Management Operations:

1. **The Immediate Office of the Associate Bureau Director:**

a. Serves as the principal official within the Bureau of Hearings and Appeals for all matters concerning the management and administration of Bureau program operations, for the Bureau's Central Office components, and field network of ten regional offices and 130 hearing offices in locations throughout the United States.

b. Is accountable for the planning, development, coordination, implemen-

tation, and efficient operations of a total program of administrative management for the Bureau of Hearings and Appeals including appeals operations; contracting for vocational and medical consultants; financial management (the operating budget is in excess of \$100,000,000); personnel management (the workforce is in excess of 4,000); management analysis; management information systems; program quality review and appraisal; field management support; and all matters associated with facilities and facilities management services.

c. Appraises overall accomplishment of the Bureau's assigned mission and functions in terms of efficient, effective and economical planning, operations, procedures and achievements.

d. Provides executive leadership, guidance, direction, coordination, and control over management programs to effect and assure balanced, total, and effective administrative support of Bureau programs and functions.

e. Participates in considering broad aspects of questions, issues, policies, plans, and program emphasis affecting administration of the hearings and appeals program and related SSA programs. Shares in overall program formulation and planning and evaluation of Bureau operations, and in making recommendations for changes in legislation, regulations, and policies.

f. Plans, develops, implements, and administers a positive meaningful equal employment opportunity program within the Bureau.

g. Exercises authority, at the direction of the Bureau Director, through formally established reporting relationships, not only for analysis, study, and evaluation of program operations, but as well, for direct intervention into all operating Bureau components, both field and Central Office, for the purpose of increased productivity, improved management data, and rationalized work assignments.

h. Provides BHA leadership and guidance on matters pertaining to psychological, vocational, educational, and related factors having a bearing on work capacity.

2. **The Division of Administrative Coordination:**

a. Plans, develops, and administers BHA's personnel management program, including: recruitment and placement; position classification; incentive awards; employee services; labor-management relations; employee development and training programs.

b. Plans and directs BHA administrative support activities, including: space; forms and records; property management; procurement and supply; security; equipment control and maintenance; preparation of visual aids; and mail/messenger services.

c. Receives records and indexes; and maintains claims and hearings materials.

d. Plans and executes a program establishing requirements for and complying with established occupational health and safety concepts, regulations, standards and procedures.

3. **The Division of Appraisal:**

a. Performs a continuing appraisal of the progress being achieved throughout BHA in meeting basic objectives.

b. Conducts a Bureauwide program of appraisals and studies necessary for maintaining an ongoing assessment of overall BHA performance.

c. Recommends action for implementation or further study by other BHA components.

d. Plans, develops, and implements a Bureauwide quality assurance program.

4. **The Division of Management Coordination:**

a. Plans and directs BHA's management analysis program, which includes the design, development, implementation, and appraisal of management policies and programs; and researches management techniques and technological developments having possible utility for BHA.

b. Directs BHA's operational and management information systems planning programs; assures effective coordination of the BHA management information system with the SSA system; and maintains a case control and statistical reporting system on the adjudication process.

c. Plans, develops and coordinates BHA's financial management program, and provides financial guidance and control in the areas of: budget formulation and execution; work measurement and workload forecasting; pay and travel; position control; contract services; and fiscal operation.

5. **The Division of Field Management:**

a. Coordinates the management of resources supporting field activities.

b. Conducts management reviews of regional and hearing offices, maintaining liaison with Regional Chief Administrative Law Judges and their representatives on management and administrative matters.

c. Represents the interests of field management in Central Office deliberations and in liaison with other SSA and HEW components.

d. Establishes procedures and directs activities to improve and enlarge the system of consultation and communication between the field and Central Office, BHA.

F. The Division of Appeals Operations:

1. Provides advice and assistance to the Appeals Council on the adjudication of cases.

2. Reviews the decisions of Administrative Law Judges to assist the Appeals Council in deciding whether to assume jurisdiction.

3. Analyzes cases and recommends action to the Appeals Council on appealed claims and litigated cases, and prepares documents required to implement the action decided upon by the Appeals Council.

4. Identifies and analyzes problem areas and recommends improvements in the appeals process.

5. Reviews and analyzes fee petitions from attorneys and representatives of claimants for the provision of services at the hearing level, and authorizes payments of appropriate fees in those cases where fees recommended by Administrative Law Judges exceed their delegated authority, and in all cases at the Appeals Council level.

G. The Division of Policy and Procedure:

1. Plans, analyzes, and develops BHA-wide policy and procedural guidelines pertaining to the hearings process as performed in hearings offices.

2. Plans, analyzes, and develops policy and procedural guidelines pertaining to the Appeals Council's review processes, civil actions processes, and support staff.

3. Provides an effective system for communicating hearings and appeals policies and procedures, through the issuance of manuals and directives that assure consistent and efficient operations in the best interests of service to the public; and develops and maintains substantive publications, informational material, references, and forms relative to the hearings and appeals process.

4. Reviews current and developing trends in administrative law; analyzes policy recommendations; and develops long-range and short-range hearings and appeals policy plans.

5. Provides advice and guidance throughout BHA on matters involving program policies and procedures.

6. Coordinates policy and procedural matters within BHA and with other SSA components; the Office of the General Counsel; other HEW components; other Federal agencies; and, where appropriate, with private organizations.

H. The Office of the Regional Chief Administrative Law Judge:

1. Represents the Bureau Director at the regional level with respect to all matters pertaining to the hearings process.

2. Plans, organizes, and administers a regional program for scheduling and conducting independent and impartial hearings on appealed determinations involving claims for retirement, survivors, disability and health insurance benefits, and supplemental security income, under the provisions of titles II, XVI, and XVIII of the Social Security Act, and disability and survivors benefits under the Black Lung Act.

3. Provides substantive guidance and administrative direction and leader-

ship to Administrative Law Judges and their staffs.

4. Coordinates operations and administrative activities with the HEW Principal Regional Officials' Offices; other SSA components; State agencies; and other parties, as required.

Dated: May 19, 1978.

LEONARD D. SCHAEFFER,
Assistant Secretary for
Management and Budget.

Office of the Secretary

[INT DES 78-17]

PROPOSED ADDITION OF A SEGMENT OF THE OWYHEE RIVER IN IDAHO AND OREGON TO THE NATIONAL WILD AND SCENIC RIVERS SYSTEM

Notice of Availability of Draft Environmental Statement

Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for a proposed new addition to the National Wild and Scenic Rivers System and invites written comment within forty-five (45) days of this notice.

The draft environmental statement considers a 192-mile segment of the Owyhee River, from the boundary of the Duck Valley Indian Reservation in Idaho, downstream to slack water of the Owyhee Reservoir in Oregon, which has been recommended for inclusion in the National Wild and Scenic Rivers System. The Bureau of Land Management would administer two sections totaling 178 miles and the

State of Oregon one section of 14 miles.

Copies are available for inspection at the following locations:

Oregon State Clearinghouse, 308 State Library Building, Salem, Ore. 97310.

Idaho State Clearinghouse, Room 122, Statehouse, Boise, Idaho 83720.

Heritage Conservation and Recreation Service, Room 242, South Building, Department of the Interior, Washington, D.C. 20240.

Regional Director, Heritage Conservation and Recreation Service, 915 Second Avenue, Room 990, Seattle, Wash. 98174.

A limited number of copies are available and may be obtained by writing to the Regional Director at the above address.

Dated: May 9, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant,
Secretary of the Interior.

[INT FES 78-10]

VEKOL HILLS PROJECT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the Vekol Hills Project, a proposed open pit copper and molybdenum mine on the Papago Indian Reservation, Pinal County, Ariz. Mining and related activities will be conducted under the terms of mineral and surface leases granted by the Papago Tribe if approved by the Secretary of the Interior.

The environmental statement examines the proposed mining project in terms of its effects on the physical, biological, cultural, economic, and other aspects of the human environment. The project will include 1,600 acres of desert and foothill terrain, some of which have already been affected by past mining activities. Written and oral comments received have been incorporated in the statement.

Copies of the statement are available for inspection at the following locations:

Branch of Environmental Quality Services, Bureau of Indian Affairs, Room 4554, Interior Building, Washington, D.C. 20245, telephone 202-343-8248.

Phoenix Area Office, Bureau of Indian Affairs, 3030 North Central Avenue, Suite 502, Phoenix, Ariz. 85011, telephone 602-261-4195.

Papago Agency, Bureau of Indian Affairs, Sells, Ariz. 85634, telephone 602-383-5338.

Single copies of the final environmental statement may be obtained from the Phoenix Area Office, Bureau

of Indian Affairs, 3030 North Central Avenue, Suite 502, Phoenix, Ariz. 85011.

Dated: May 24, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary
of the Interior.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

CONTROLLED SUBSTANCES

Revised 1978 Aggregate Production Quota for Amphetamine

Section 306 of the Controlled Substances Act (21 U.S.C. 826) requires that the Attorney General establish aggregate production quotas for all controlled substances in Schedules I and II. This responsibility has been delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulation.

On March 21, 1978, a notice of the proposed revised aggregate production quotas for Schedules I and II controlled substances for 1978 was published in the FEDERAL REGISTER (43 FR 11765-6). All interested parties were invited to comment or object to the proposed aggregate production quotas on or before April 21, 1978. This announcement proposed that the aggregate production quota for amphetamine for 1978 be established at 3,020,000 grams (expressed as anhydrous base).

Joseph Barrows, Ph.G., Consultant, of Valley Stream, N.Y., on behalf of his client, Rexar Pharmacal Corp. of Valley Stream, N.Y., submitted comments and a request for hearing relative to the proposed aggregate production quota for amphetamine. In addition, the National Association of Pharmaceutical Manufacturers (NAPM) of New York, N.Y., the Delco Chemical Co. of Mount Vernon, N.Y. and the Obesity and Nutrition Council of New York, N.Y., also submitted comments.

To provide for the on-going manufacture and needs of the United States while consideration was being given to this matter, DEA established an interim 1977 aggregate production quota for this substance of 3,020,000 grams.

DEA has conducted a review of the comments submitted in support of the contention that the proposed aggregate production quota for amphetamine was insufficient to meet the legitimate medical needs for amphetamine.

In his comments and objections, Mr. Barrows contended the following:

1. The quota system has created a monopoly of the amphetamine market for Smith Kline and French.

2. DEA had attempted to reduce the legitimate medical need for this substance.

3. DEA has not taken into account the impact of dispensing physicians.

4. The demand for amphetamine is greater than the supply available with the proposed quota and is increasing among dispensing physicians.

On the basis of these comments, Mr. Barrows requested a hearing on behalf of his client, Rexar Pharmacal Corporation. In addition to these comments, the other parties commenting also contended that:

5. DEA is required by regulation to provide an inventory allowance to manufacturers.

6. Sales and inventory statistics of amphetamine quota-holding companies have not been made available. With regard to these comments, the following points are made:

1. The quota system has not created a monopoly for Smith Kline and French. The general market share pattern for these companies which exists now was established before the control of amphetamine in Schedules II took place.

2. DEA has attempted and will continue to attempt to reduce not the legitimate medical use of amphetamine but the illicit diversion and abuse of legitimately manufactured dosage forms of amphetamine.

3 and 4. Any sale of amphetamine products to dispensing physicians will ultimately be included in sales figures supplied by dosage from manufacturers to DEA, as will sales to pharmacies and hospitals. The significant inventories of amphetamine available at year-end 1977 indicate that sufficient amounts of amphetamine have been made available to meet the legitimate needs for this substance in 1977 and that there will be sufficient material available in 1978. If there existed a true shortage of this substance, the large inventory would have, either through direct dispensing or prescription writing, surely been depleted.

5. DEA has, in 1978, provided an inventory allowance to the two bulk manufacturers of amphetamine, as required by regulation.

6. DEA considers the sale and inventory statistics provided by all quota-holding firms as proprietary information and will not divulge this information in the FEDERAL REGISTER, nor in any other public document without the prior consent of the companies involved.

Within the rulemaking procedures generally applicable to the determination of aggregate production quotas, no hearing is required. Notice and comment procedures, as established consistent with 5 U.S.C. § 553, are the only procedures mandated. Those procedures have been applied in this instance, and there does not appear to

be any unresolved issue of specific fact requiring additional consideration within the process of a hearing. See 21 CFR §§ 1303.11(c), 1303.13(c), and 1303.31(a); 5 U.S.C. § 553; 21 U.S.C. §§ 826 and 875; and Davis, "Administrative Law of the Seventies" (1976), Section 6.06.

Additionally, Mr. Barrows' request for a hearing is procedurally deficient, failing to satisfy the requirements of 21 CFR §§ 1303.34 and 1316.47. Specifically, Mr. Barrows has not stated with sufficient particularity his interest within the requested proceeding.

Therefore, based on the considerations stated above, the request for hearing submitted by Mr. Joseph Barrows on behalf of his client, Rexar Pharmacal Corp., is hereby denied. In addition, the aggregate production quota for amphetamine, as proposed on March 21, 1978 (43 FR 11765-6), is hereby established as follows:

Basic class and 1978 aggregate production quota

Amphetamine, 3,020,000 grams.

This order is effective May 30, 1978.

Dated: May 23, 1978.

PETER B. BENSINGER,
Administrator, Drug
Enforcement Administration.

[4410-02]

Federal Bureau of Investigation

NATIONAL CRIME INFORMATION CENTER (NCIC) CRIMINALISTICS LABORATORY INFORMATION SYSTEM (CLIS)

Establishing Criminalistics Laboratory
Information System

Law enforcement has long recognized the need for a national computerized index on scientific reference information. In response to this need, the FBI is developing the Criminalistics Laboratory Information System. The FBI laboratory will host the data base, and NCIC telecommunications lines will be used to access it. This laboratory teleprocessing operation is designed to improve the efficiency and effectiveness of crime laboratory functions by providing immediate access to scientific reference information in a centralized data base.

The computer-based information system will eventually address priority operational needs of all forensic crime laboratories throughout the country. It becomes functional on a testing basis with the establishment of the General Rifling Characteristics File. This file will provide the firearms examiner with the capability of identifying a fired specimen with a weapon or likely weapon that could have fired the specimen. The participating crime

laboratories will all use standardized codes and procedures in order to access the stored computerized information.

The search parameters used by the crime laboratories will consist of codes indicating impressions on a fired bullet or impressions on a fired cartridge case. These parameters control the extent of the search that is made of the data base in the file. The parameters for a bullet search are: cartridge type, number of lands and grooves, direction of twist, land width dimensions and tolerance, and groove width dimensions and tolerance. Cartridge case search parameters, which may also be included in a bullet search, include: cartridge type, firing pin impressions, and breech or bolt impression.

The General Rifling Characteristics File is to become operational for testing purposes June 1, 1978, and this will be followed by development of the Infrared Spectrophotometry File. These files will serve as the basis for the prototype system which will consist of a limited number of local, State, and Federal laboratories. After a suitable testing period, estimated at this time approximately one year, the full CLIS will be implemented.

The establishment of the Criminalistics Laboratory Information System has been approved by the Attorney General, U.S. Department of Justice.

Further information may be obtained from Mr. Frank B. Buell, Chief, National Crime Information Center, Federal Bureau of Investigation, Washington, D.C.

WILLIAM H. WEBSTER,
Director.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

ADVISORY COMMITTEE ON CONSTRUCTION SAFETY AND HEALTH

Meeting

Notice is hereby given that the Advisory Committee on Construction Safety and Health, established under section 107(e)(1) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will meet on Tuesday, June 13 and Wednesday, June 14, 1978, in Room N-5437, Department of Labor Building, Third Street and Constitution Avenue NW., Washington, D.C. 20210. The meeting is open to the public and will begin at 9:00 a.m.

The purpose of the meeting is to review and discuss proposals developed pursuant to the Committee's recommendation to begin efforts to verticalize Part 1926 Construction Standards.

Written data, views, or arguments may be submitted, preferably with 20 copies, to the Division of Consumer Affairs. Any such submissions received prior to the meeting will be provided to the members of the committee and will be included in the record of the meeting.

Anyone wishing to make an oral presentation should notify the Division of Consumer Affairs before the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation.

Oral presentations will be scheduled at the discretion of the Chairman, depending on the extent to which time permits. Communications may be mailed to: Ken Hunt, Office of Information and Consumer Affairs, Occupational Safety and Health Administration, Third Street and Constitution Avenue NW., Washington, D.C. 20210, Phone: 202-523-8024.

Materials provided to members of the Committee are available for inspection and copying at the above address.

Signed at Washington, D.C. this 25th day of May 1978.

EULA BINGHAM,
Assistant Secretary,
Occupational Safety and Health.

Occupational Safety & Health Administration

CALIFORNIA STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health, (hereinafter called Regional Administrator—OSHA) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On May 1, 1973, notice was published in the FEDERAL REGISTER (38 FR 10717) of the approval of the California plan and the adoption of Subpart K to Part 1952 containing the decision.

The California plan provides for the adoption of state standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act. State standards have been revised in accordance with

Part 1953 to meet the requirement of adopting Federal standard revisions and State initiated changes. Accordingly, California has revised these standards and promulgated them in accordance with applicable State procedures. By letter dated February 21, 1978, from Steven A. Jablonsky, Program Manager, California Occupational Safety and Health Administration, to Gabriel J. Gillotti, Regional Administrator, OSHA, and incorporated as part of the plan, the State submitted proof documents concerning standards equivalent to Federal amendments and State initiated standards to walking and working surfaces standards of 29 CFR 1910.23(e)(2), 1910.24(b), and 1910.24(i); means of egress standards, 29 CFR 1910.37(b) and 1910.37(f)(6); hazard material standards of 29 CFR 1910.107(a)(3) and 1910.109(k); personal protective equipment standards, 29 CFR 1910.134(a) and 1910.134(b)(11); machinery and machine guarding standards of 29 CFR 1910.212(a)(1), 1910.212(a)(2), 1910.212(a)(3), 1910.219(a)(1), and 1910.219(e)(3); toxic and hazardous substances, 29 CFR 1910.1029; coke oven emissions, 1910.1044; emergency temporary standard 1,2-dibromo-3-chloropropane, tools, hand and power, 29 CFR 1926.302(e); electrical, 29 CFR 1926.400; ground fault protection and agriculture standard, 29 CFR 1928.57. These standards, which are contained in Title 8, Chapter 4 of the California Administrative Code were promulgated by the State after public hearings between the dates of January 1, 1977, and September 30, 1977.

2. *Decision.* Having reviewed the state submission in comparison with the federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards. The detailed standards comparison is available at the locations specified below.

3. *Locations of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator—OSHA, 450 Golden Gate Avenue, Room 9470, San Francisco, Calif. 94102 and California Occupational Safety and Health Administration, Room 3052, 455 Golden Gate Avenue, San Francisco, Calif. 94102; and the Technical Data Center, Room N2439R, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supple-

ment to the California plan as a proposed change and making the OSHA Regional Administrator's approval effective upon publication for the following reason.

The standards were adopted in accordance with the procedural requirements of state law which included public comment and further public participation would be repetitious.

This decision is effective May 30, 1978.

(Sec. 18, Pub. L. 91-958, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at San Francisco, Calif., this 27th day of March 1978.

GABRIEL J. GILLOTTI,
Regional Administrator.

NORTH CAROLINA STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On February 1, 1973, notice was published in the FEDERAL REGISTER (28 FR 3041) of the approval of the North Carolina plan and the adoption of Subpart I to Part 1952 containing the decision.

The North Carolina plan provides for the adoption of Federal standards as State standards by reference. Section 1953.20 of 29 CFR provides that "where an alteration in the Federal program could have an adverse impact on the 'at least as effective as' status of the State program, a program change supplement to a State plan shall be required." In response to Federal standards changes, the State has submitted by letter, dated September 29, 1977, from John C. Brooks, Commissioner, North Carolina Department of Labor, to Robert A. Wendell, Acting Regional Administrator, and incorporated as a part of the State plan, State standards comparable to the following Federal standards: §§ 1910.20, 1910.1000, 1910.1028 Emergency Temporary Standard for Occupational Exposure to Benzene, dated May 3, 1977; § 1910.1028, correction to Emergency Temporary Standard for Occupational

Exposure to Benzene, dated May 10, 1977; § 1910.1028, amended and added a paragraph to the Emergency Temporary Standard for Occupational Exposure to Benzene, dated May 24, 1977; a new Subpart T to Part 1910, Commercial Diving, dated July 22, 1977; § 1926.605 Marine Operations and Equipment amended to include Commercial Diving, dated July 22, 1977; § 1928.21 Safety and Health Standards for Agriculture, amended to exclude Commercial Diving, dated July 22, 1977; § 1928.21 Safety and Health Standards for Agriculture, amended to exclude air contaminant standards in Subparts B through T and Subpart Z from agricultural operations, dated July 29, 1977; § 1910.1044 Emergency Temporary Standard for Occupational Exposure to 1,2-dibromo-3-chloropropane, dated September 9, 1977; § 1910.1044 Emergency Temporary Standard for Occupational Exposure to 1,2-dibromo-3-chloropropane corrections, dated September 16, 1977.

These standards were promulgated by filing with the North Carolina Attorney General on May 16, 1977; June 2, 1977; July 29, 1977; August 18, 1977; September 29, 1977, respectively, pursuant to the North Carolina Occupational Safety and Health Act of 1973 (Chapter 295, General Statutes).

2. *Decision.* Having reviewed the State submission in comparison with Federal standards, it has been determined that the State standards are identical to the Federal standards and are hereby approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Commissioner of Labor, North Carolina Department of Labor, 11 West Edenton, Raleigh, N.C. 27611; Office of the Regional Administrator, Suite 587, 1375 Peachtree Street NE., Atlanta, Ga. 30309; and Office of the Director of Federal Compliance and State Programs, Room N3112, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c) the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds good cause exists for not publishing the supplement to the North Carolina State Plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with procedural require-

ments of State law and further public participation and comment would be unnecessary.

This decision is effective May 30, 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at Atlanta, Ga., this 19th day of December 1977.

COIS M. BROWN,
Acting Regional Administrator.

[4510-26]

WASHINGTON STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 26, 1973, notice was published in the FEDERAL REGISTER (38 FR 2421) of the approval of the Washington plan and the adoption of Subpart F to Part 1952 containing the decision.

The Washington plan provides for the adoption of Federal standards as State standards after public hearing. Section 1953.20 provides that "where any alteration in the Federal program could have an adverse impact on the at least as effective as" status of the State program, a program change supplement to a State plan shall be required. In response to Federal standards changes, the State has submitted by letter, dated October 20, 1977, from James P. Sullivan, Assistant Director, to James Lake, Regional Administrator, and incorporated as part of the plan, a State standard comparable to 29 CFR 1910.309(c), Ground Fault Circuit Interrupters, as published in the FEDERAL REGISTER (41 FR 55696), dated December 21, 1976. This State standard, which is contained in WAC 296-24-955(c) General Safety and Health Standards, was promulgated after public hearing held on June 23, 1977, pursuant to Chapter 34.04 RCW and of the Open Public Meetings Act of 1971, Chapter 42.30 RCW.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standard, it has been determined that the State standard is identical to the Federal standard.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6003, Federal Office Building, 909 First Avenue, Seattle, Wash. 98174; Department of Labor and Industries, General Administration Building, Olympia, Wash. 98504; and the Technical Data Center, Room N2439, 200 Constitution Avenue, Washington, D.C. 20210.

4. *Public participation.* Section 1953.2(c) of this chapter provides that when a State standard is identical to or "at least as effective" as comparable Federal standard and has been promulgated in accordance with State law, approval may be effective upon publication without an opportunity for further public participation. As the standard under consideration is identical to the Federal standard and has been promulgated in accordance with State law, it is approved without public comment.

This decision is effective May 30, 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed in Seattle, Wash., this 11th day of January 1978.

JAMES W. LAKE,
Regional Administrator, Occupational Safety and Health Administration.

Pension and Welfare Benefit Programs

[Prohibited Transaction Exemption 78-5]

CLASS EXEMPTION FOR TRANSACTIONS INVOLVING COLLECTIVELY BARGAINED MULTIPLE EMPLOYER APPRENTICESHIP AND TRAINING PLANS.

Prohibited Transaction Exemption

AGENCY: Department of Labor.

ACTION: Grant of class exemption.

SUMMARY: This class exemption exempts from sections 406(a)(1) (A), (C), and (D) of the Employee Retirement Income Security Act of 1974 (the Act) certain transactions between collectively bargained multiple employer apprenticeship plans and employers making contributions to these plans or employee organizations any of whose members are covered by the plans if certain conditions are met. It appears to the Department that without the relief provided by this exemption, such apprenticeship plans would have difficulty operating in accordance with the purposes for which they were es-

tablished. The exemption affects employers making contributions to such plans, sponsoring employee organizations, and persons who are participants in such plans.

DATE: The exemption is effective January 1, 1975.

FOR FURTHER INFORMATION CONTACT:

Mr. Rudolph Nuissl, Department of Labor, Washington, D.C., 202-523-8974 (this is not a toll-free number).

SUPPLEMENTAL INFORMATION: On July 29, 1977, notice was published in the FEDERAL REGISTER (42 FR 38794), that the Department of Labor (the Department) had under consideration a proposed class exemption from the restrictions of sections 406(a)(1) (A), (C), and (D) of the Act for transactions involving: (1) the purchase of personal property by a collectively bargained multiple employer-employee welfare benefit plan maintained for the purpose of providing apprenticeship or other training programs (hereinafter referred to as an apprenticeship plan) from an employer who contributes to such plan (hereinafter referred to as a contributing employer) or a wholly owned subsidiary of such an employer; and (2) the leasing of real property (excluding office space) or personal property by an apprenticeship plan from a contributing employer or a wholly owned subsidiary of such an employer. The exemption was requested in applications filed by the International Union of Operating Engineers, on behalf of 45 local affiliated apprenticeship and/or training plans and the Laborers' Training and Retraining Trust fund for Northern California. The applicants represented that apprenticeship and other training plans are an essential element in providing trained workers for the industries in which they operate. The proper functioning of these plans requires that, from time to time, they purchase goods and lease equipment or other property for use in the programs which they maintain. It has been customary for these plans, which are jointly sponsored by unions and employers, to obtain such goods and rentals from employers who are contributors to the plans. All such employers are signatories to collective bargaining agreements with the sponsoring unions.

The exemption was proposed in accordance with the procedure set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and all interested persons were invited to submit comments on the proposed exemption. The public comments received in response to this request generally supported the proposed exemption, although some commentators urged that it be expanded to provide exemptive relief for transactions between ap-

prenticeship plans and parties in interest other than contributing employers (and their wholly owned subsidiaries) and for transactions prohibited by section 406(b)(2) of the Act. These and other comments are discussed below.

OTHER PARTIES IN INTEREST

The exemption, as proposed, would have provided relief for certain transactions between apprenticeship plans and contributing employers. Several comments urge the Department to expand the parties in interest from which, pursuant to the exemption, an apprenticeship plan could purchase goods or lease equipment or other property. Specifically, it was suggested that an apprenticeship plan be permitted to obtain goods and rentals from an association of which a contributing employer is a member (hereinafter referred to as a related employer association), from an employee organization any of whose members' work results in contributions being made to the apprenticeship plan (hereinafter referred to as a sponsoring employee organization) and from a multiple employer plan which is a party in interest with respect to the apprenticeship plan or related to the apprenticeship plan by reason of the existence of trustees common to both the apprenticeship plan and the multiple employer plan (hereinafter referred to as a related multiple employer plan).

After consideration of these comments, the Department has decided to expand the proposed exemption to permit apprenticeship plans to lease real property other than office space,¹ and to lease personal property incidental to the lease of such real property, from sponsoring employee organizations. It has been represented that there is a widespread need among apprenticeship plans for facilities to train apprentices. Many apprenticeship plans typically have insufficient capital to build such training centers, and, thus, their only realistic alternative is to enter into leasing arrangements. Traditionally, apprenticeship plans have leased such training facilities from, among others, the employee organizations which sponsor such plans. Sponsoring employee organizations have an interest in ensuring the continued existence and financial stability of the apprenticeship plans which they sponsor. Whereas persons unrelated to apprenticeship plans may be unwilling or uninterested in leasing property to such plans, sponsoring employee organizations often are willing to devote the necessary time and expense to provide apprenticeship plans

with the needed training centers and facilities.² Accordingly, the Department believes that permitting apprenticeship plans to lease real property, including the lease of personal property incidental to the lease of such real property, from sponsoring employee organizations under all the conditions of the exemption is appropriate.

At this time, the Department has decided not to extend exemptive relief to transactions for the purchase or lease of personal property (other than incidental to the lease of real property) by apprenticeship plans from sponsoring employee organizations or for the lease of real property (other than office space) or purchase or lease of personal property by an apprenticeship plan from a related employer association. The comment letters did not supply enough information to demonstrate to the Department that such transactions are sufficiently common to justify class-wide relief.

With respect to transactions for the lease of real property (other than office space) or purchase or lease of personal property by an apprenticeship plan from a related multiple employer plan, the Department notes that section C of Prohibited Transaction Exemption 76-1 (PTE 76-1) (41 FR 12740, March 26, 1976) already provides exemptive relief for transactions for the leasing of office space and sale or leasing of goods by a multiple employer plan to another multiple employer plan which is a party in interest with respect to such plan,³ provided certain conditions are met. Subject to the conditions of PTE 76-1, then, a multiple employer apprenticeship plan is not prohibited by the prohibitions of section 406(a) from the lease of office space or the purchase or lease of goods from a related multiple employer plan. The only transaction not already exempt from the prohibitions of section 406(a) under section C of PTE 76-1 is the lease of real property other than office space between related multiple employer plans. The comments, however, did not make a showing that relief beyond that provided by PTE 76-1 is justified or necessary and, accordingly, the Department has determined not to expand the ap-

¹One commentator indicated that few unrelated parties would be willing to enter into long term leases with an apprenticeship plan because of their concern that the plan might not receive additional necessary funding after the conclusion of the collective bargaining agreement.

²It should be noted, however, that not all related multiple employer plans are parties in interest with respect to each other. For example, if plan A merely has the same contributing employer(s), the same sponsoring employee organization(s), the same participants and the same trustees as plan B, and plan A and plan B have no other relationships, plan A and plan B are not parties in interest with respect to each other.

³Section 408(b)(2) of the Act and regulations issued thereunder, § 2550.408b-2 (42 FR 32389, June 24, 1977), already permit a plan to lease office space from a party in interest if certain conditions are met.

prenticeship exemption at this time to permit multiple employer apprenticeship plans to lease real property other than office space from related multiple employer plans.

TRUSTEES AND SECTION 406(b)(2)

Several comments urge the Department to delete from the proposed exemption the condition contained in section II(a)(1) thereof which provided that:

Neither the contributing employer, the wholly owned subsidiary of the employer nor any affiliate of such employer or subsidiary is a fiduciary with respect to the apprenticeship plan on the date of the transaction or has been a fiduciary respecting the apprenticeship plan at any time during the 2 years preceding the date of the transaction.

The comments represent that the structure of certain industries is such that the trustees of multiemployer apprenticeship plans representing contributing employers are drawn from the larger employers in the industry and these employers generally have available the largest pool of property for sale and lease to apprenticeship plans. Thus, it is asserted that adoption of proposed section II(a)(1) would exclude these employers from engaging in sale and lease transactions with apprenticeship plans to the detriment of such plans.

After considering these comments, the Department has decided not to adopt proposed section II(a)(1). The Department is taking this action because the imposition of the restriction contained in that section would diminish substantially the usefulness of the exemption to apprenticeship plans and the other conditions of the exemption provide sufficient protection for apprenticeship plans engaging in the same and lease transactions described herein.

While deletion of proposed section II(a)(1) will permit transactions between apprenticeship plans and contributing employers and sponsoring unions under circumstances where affiliates of such employers or members of such unions serve on the board of trustees administering the plan, the Department emphasizes that the exemption, as adopted, does not contain relief from section 406(b) of the Act. In this regard, the Department has received comments which urge that the proposed exemption be expanded to include relief from the prohibition of section 406(b)(2) of the Act. Section 406(b)(2) prohibits a fiduciary with respect to a plan from acting, in his individual or in any other capacity, in any transaction involving the plan on behalf of a party (or representing a party) whose interests are adverse to the interests of the plan or the interests of its participants or beneficiaries. Exemption from section 406(b) is not necessary for many of the transactions

in which apprenticeship plans purchase or lease property from parties in interest because such transactions are with parties who are not fiduciaries and do not involve the approving fiduciary in transactions which would be prohibited by section 406(b). Moreover, section 408(a) of the Act states that the Department may not grant an exemption from section 406(b) of the Act without affording an opportunity for a hearing. Such a hearing with respect to this exemption would further delay its adoption in final form. Consequently, for these reasons, the Department has determined to adopt the exemption without providing relief from section 406(b) of the Act. Interested persons may wish to bring to the attention of the Department, by application in accordance with the procedure established in ERISA Proc. 75-1 (40 FR 18471, April 28, 1975), as amended (42 FR 57183, November 1, 1977), their views as to whether the exemption, as adopted, should be amended to include relief from any of the prohibitions of section 406(b) of the Act, and, if so, the reasons therefor.

With respect to the absence of relief from section 406(b) of the Act, the Department notes the following. Section 406(b)(1) of the Act prohibits a fiduciary of a plan from dealing with the assets of a plan in his own interest or for his own account. It would constitute a prohibited transaction under section 406(b)(1) of the Act for a trustee of an apprenticeship plan who was, for example, an employee, officer, director or other affiliate of a contributing employer to participate in a decision of the plan to purchase or lease property from such contributing employer. Similarly, a trustee of a plan who was a member or officer of the union sponsoring the plan would engage in an act described in section 406(b)(1) of the Act by participating in a decision of the plan to lease property from such union. However, by removing himself from all consideration by the plan whether or not to engage in the transaction and by not otherwise exercising any of the authority, control or responsibility which makes him a fiduciary to cause the plan to engage in the transaction, the trustee (who is associated with the contributing employer or sponsoring employee organization selling or leasing the property to the plan) could avoid engaging in a section 406(b)(1) prohibited transaction.

GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act does not relieve a fiduciary or party in interest with respect to a plan to which the ex-

emption is applicable from certain other provisions of the Act including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act;

(2) This exemption does not extend to transactions prohibited under sections 408(a)(1)(B) and (E), 406(a)(2) or 406(b) of the Act; and

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is in fact a prohibited transaction.

EXEMPTION

In accordance with section 408(a) of the Act and the procedures set forth in ERISA Proc. 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations: (a) the exemption is administratively feasible; (b) the exemption is in the interests of the plans affected and their participants and beneficiaries; and (c) the exemption is protective of the rights of participants and beneficiaries of the affected plans. Accordingly, the following exemption is granted, effective January 1, 1975, under the authority of section 408(a) of the Act and in accordance with the procedures set forth in ERISA Proc. 75-1.

Section I.—Transactions Covered by this Exemption. (a) The purchase of personal property by a multiple employer welfare benefit plan maintained for the purpose of providing apprenticeship or other training programs (hereinafter referred to as an apprenticeship plan) from an employer who makes contributions to such plan (hereinafter referred to as a contributing employer) or from a wholly owned subsidiary of such an employer.

(b) The leasing of personal property by an apprenticeship plan from a contributing employer or from a wholly owned subsidiary of such an employer.

(c) The leasing of real property (other than office space within the contemplation of section 408(b)(2) of the Act) by an apprenticeship plan from a contributing employer, a wholly owned subsidiary of such an employer, or from an employee organization any of whose members' work results in contributions being made to the apprenticeship plan (hereinafter referred to as a sponsoring employee organization).

(d) The leasing of personal property incidental to the leasing of real property by an apprenticeship plan from a sponsoring employee organization.

Section II.—Conditions. The transactions described in section I above are exempt only if:

(a) The transaction is on terms at least as favorable to the plan as an arm's-length transaction with an unrelated party would be;

(b) The transaction is appropriate and helpful in carrying out the purposes for which the plan is established or maintained;

(c) The apprenticeship plan which enters into any of the transactions described in section I above maintains or causes to be maintained for a period of 6 years from the termination of any such transaction such records as are necessary to enable the persons described in paragraph (d) of this section to determine whether the conditions of this exemption have been met, except that:

(1) This paragraph (c) and paragraph (d) below will not apply to transactions effected prior to July 24, 1978, and

(2) A prohibited transaction will not be deemed to have occurred, if due to circumstances beyond the control of the fiduciaries of such apprenticeship plan, such records are lost or destroyed prior to the end of the 6-year period; and

(d) Notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of the act, the records referred to in paragraph (b) of this section are unconditionally available at their customary location for examination during normal business hours by (1) the Department of Labor, (2) any contributing employer, (3) any employee of a contributing employer, (4) any sponsoring employee organization, (5) any person receiving benefits under the apprenticeship plan, and (6) any duly authorized employee or representative of a person described in (1) through (5) of this paragraph.

Section III.—Definitions. For purposes of this exemption the term "multiple employer welfare benefit plan" means a welfare plan which is a multiemployer plan within the meaning of section 3(37) of the Act, or a welfare plan which meets the requirements of at least subsection 3(37)(A) (i), (ii) and (v) of the Act.

Signed at Washington, D.C., this 24th day of May 1978.

IAN D. LANOFF,
Administrator, Pension Welfare
Benefit Programs, Labor-Man-
agement Services Administra-
tion, Department of Labor.

[TA-W-2575]

ANDERSON DEVELOPMENT CORP., MIAMI, ARIZ.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2575: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 9, 1977, in response to a worker petition received on November 2, 1977, which was filed on behalf of workers and former workers of the Anderson Development Corp., who are engaged in the mining, heating and leaching of copper at the Bluebird Mine, Miami, Ariz. The Department's investigation revealed that Anderson workers were engaged only in the mining of copper ore at the Bluebird Mine owned by Ranchers Exploration and Development Corp. During the course of the investigation, it was determined that Ranchers Exploration and Development Corp. is the workers' firm.

The Notice of Investigation was published in the FEDERAL REGISTER on November 18, 1977 (42 FR 59565). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Ranchers Exploration and Development Corp., Anderson Development Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the criteria have been met.

U.S. imports of refined copper increased from 192 thousand short tons in 1972 to 203 thousand short tons and 314 thousand short tons, respectively, in 1973 and 1974. U.S. imports of refined copper declined to 147 thousand short tons in 1975 before increasing to 384 thousand short tons in 1976 and 391 thousand short tons in 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1972 to 9.0 percent and 15.2 percent, respectively, in 1973 and 1974. The ratio of imports to domestic production declined to 8.6 percent in 1975 before increasing to 21.0 percent in 1976. The ratio of imports to domestic production increased further, to 22.2 percent in 1977.

While imports of refined copper had increased by 161 percent in 1976 com-

pared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1978 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Ranchers and other domestic producers of refined copper lost sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the domestic producers price for copper and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5 to 8 cents per pound below the domestic producers price, the demand for imported copper increases. During May and June 1977 the LME price was almost 11 cents per pound below the domestic producers price and in July and August 1977 the LME price was almost 12 cents per pound below the domestic producers price. At the same time, the abundant supply of copper stocks in the foreseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased compared to 1976.

In October, 1977 Ranchers curtailed mining operations at the Bluebird Mine. Since then no new copper ore has been mined. This decision was based mainly on an attempt to avoid losses which Ranchers would incur were it to continue normal production levels at the current market prices for copper. Ranchers plans to resume normal operations at the Bluebird Mine should market conditions improve.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with copper produced at the Bluebird Mine, Miami, Ariz., of Ranchers Exploration and Development Corp. contributed importantly to the decline in sales and production at the mine and to the total or partial separations of workers of Anderson Development Corporation at the Bluebird Mine. In accordance with the provisions of the Act, I make the following certification:

All workers of Anderson Development Corp., at the Bluebird Mine, Miami, Ariz. who became totally or partially separated from employment on or after September 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 22nd day of May 1978.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-3144]

BIRD & SON, INC.; EAST WALPOLE, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3144: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 16, 1978, in response to a worker petition received on February 6, 1978, which was filed by the International Brotherhood of Teamsters on behalf of workers and former workers producing shoeboxes at the East Walpole, Mass. (FX 2) plant of Bird & Son, Inc.

The notice of investigation was published in the FEDERAL REGISTER on March 3, 1978 (43 FR 8862). No public hearing was requested and none was held.

The information upon which the determination was made was obtained from Bird & Son, Inc., the U.S. Department of Treasury, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the criteria have been met the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The East Walpole, Mass. (FX 2) plant of Bird & Son, Inc. produces shoeboxes.

Imports of rigid boxes are not separately identifiable in the official trade statistics. Folding boxes and paperboard are classified under TSUS item 256.5400, "Boxes, Paper, Paperboard and Paper Mache, NES." A survey of industry sources and U.S. Customs Officials and a review of U.S. Customs invoices indicated that there are no imports of shoeboxes into the United States.

Workers filing this petition allege that increased imports of shoes in

boxes have contributed importantly to the separation of workers at the East Walpole, Mass. plant of Bird & Son, Inc. Although an unknown quantity of imported shoes are shipped in boxes, those packaged shoes are not like or directly competitive with the boxes produced by Bird & Son.

CONCLUSION

After careful review I conclude that all workers at the East Walpole, Mass. (FX 2) plant of Bird & Son, Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 18th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-3164]

CANAMEX COMMODITY CORP., WIRE PRODUCTS DIVISION, SAN FRANCISCO, CALIF.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3164: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 21, 1978, in response to a worker petition received on February 7, 1978, which was filed on behalf of workers and former workers producing wire products at the San Francisco, Calif., facility of the Wire Products Division of Canamex Commodity Corp. The Department's investigation revealed that Canamex is involved only in the buying and selling of wire and other products.

The notice of investigation was published in the FEDERAL REGISTER on March 3, 1978 (43 FR 8864). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Canamex Commodity Corp., and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. The Department has determined that services are not "articles" within the meaning of section 222(3) of the Act.

Canamex Commodity Corp. was founded on July 31, 1972. Canamex is engaged in the buying and selling of

coal, steel, wire products and sulfur. The firm's facilities include a rented office with equipment such as typewriters, telex machines, etc.

The Wire Product Division of Canamex Commodity Corp. purchases wire rod from several steel mills, and sells the rod to a wire manufacturer. The Division also purchases some finished wire products from a wire manufacturer and sells them to the wholesale trade. Workers at Canamex do not perform any production operations.

None of Canamex's customers or suppliers have any ownership or financial control in Canamex Commodity Corp. Canamex has no investment in its suppliers or customers.

The Wire Products Division of Canamex Commodity Corp. provides the service of buying and selling wire and wire rod. Canamex Commodity Corp. is not involved in the production of an article within the meaning of section 222(3) of the Act.

CONCLUSION

After careful review, I conclude that workers of the Wire Products Division of Canamex Commodity Corporation are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 18th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2669]

EASTERN SPORTSWEAR MANUFACTURING CO., INC., NEW BEDFORD, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2669: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 29, 1977 in response to a worker petition received on November 17, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing girls' slacks, skirts, vests and jeans at Eastern Sportswear Manufacturing Co., Inc., New Bedford, Mass.

The notice of investigation was published in the FEDERAL REGISTER on December 16, 1977 (42 FR 63486). No public hearing was requested and none was held.

The information upon which the determination was made was obtained

principally from officials of Eastern Sportswear Co., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts and Department files. In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of women's, misses', and girls' skirts increased from 517 thousand dozen in 1975 to 791 thousand dozen in 1976, a gain of 53.0 percent. Imports decreased from 690 thousand dozen in the first three quarters of 1976 to 442 thousand dozen in the first three quarters of 1977, a decline of 35.9 percent. The ratio of imports to domestic production increased from 10.8 percent in 1975 to 11.2 percent in 1976.

Imports of women's, misses', and girls' slacks and shorts increased from 10,067 thousand dozen in 1975 to 11,040 thousand dozen in 1976, a gain of 9.7 percent. Imports increased from 8,549 thousand dozen in the first three quarters of 1976 to 9,080 thousand dozen in the same period of 1977, a gain of 6.2 percent. The ratio of imports to domestic production increased from 35.2 percent in 1975 to 36.4 percent in 1976.

Evidence developed during the Department's investigation revealed that a customer accounting for a major proportion of Eastern Sportswear Manufacturing Co.'s sales decreased purchases from the subject firm and increased purchases of imported girls' sportswear in 1976 compared to 1975 and in 1977 compared to 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with girls' sportswear produced at Eastern Sportswear Manufacturing Co., Inc., New Bedford, Mass. contributed importantly to the decline in sales and to the total or partial separation of the workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Eastern Sportswear Manufacturing Co., Inc., New Bedford, Mass. who became totally or partially separated from employment on or after November 14, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 22d day of May 1978.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-2792]

EUREKA SUGAR MILL OF THE SUGAR CORPORATION OF PUERTO RICO HORMIGUEROS, P.R.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2792: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 21, 1977, in response to a worker petition received on December 6, 1977, which was filed on behalf of workers and former workers producing raw sugar at the Eureka, Hormigueros, P.R. sugar mill of the Sugar Corp. of Puerto Rico.

The notice of investigation was published in the FEDERAL REGISTER on January 10, 1978 (43 FR 1556). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the Sugar Corp. of Puerto Rico, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of cane and beet sugar in 1975 totaled 3.9 million short tons and increased in 1976 to 4.7 million short tons and to 6.1 million short tons in 1977. The ratio of imports to domestic production increased from 59 percent in 1975, to 66 percent in 1976 and to 96 percent in 1977.

Prior to 1974, imports of sugar were regulated by statute. Since the expiration of the Sugar Act on December 31, 1974, imported sugar has entered the United States in the absence of price restrictions and quota levels. As a result, domestic prices of sugar have been merged with world sugar prices, subjecting domestic prices to the competitive forces of an increased supply of sugar in a previously regulated market.

Sugar prices have dropped from 1974, when prices were 57.3 cents per pound, to the January 1976 price of 11.5 cents per pound. Presently the price of raw sugar is under 11.0 cents per pound. Domestic sugar growers have been selling their products at prices below the cost of production. Although price supports were instituted in 1977 raising the price paid to domestic producers, that price is still

below the Sugar Corp. of Puerto Rico's cost of production. This disparity in cost of production and price of sugar has caused the company to permanently shut down its Eureka Sugar Mill.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with raw sugar produced at the Eureka, Hormigueros, P.R. Sugar Mill of the Sugar Corp. of Puerto Rico contributed importantly to the decline in sales and production and to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Eureka, Hormigueros, Puerto Rico Sugar Mill of the Sugar Corporation of Puerto Rico, who became totally or partially separated from employment on or after April 29, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2534]

F/V JENNIFER AND AARON PROVINCETOWN, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2534: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 31, 1977 in response to a worker petition received on October 25, 1977 which was filed on behalf of fishermen and former fishermen catching fish for the F/V Jennifer and Aaron, Provincetown, Mass.

The Notice of Investigation was published in the FEDERAL REGISTER on November 15, 1977 (42 FR 59131). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the owner of the F/V Jennifer and Aaron, his customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment as-

assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

During the 1973 to 1976 period the average annual level of imports of fresh and frozen groundfish and flatfish: whole; blocks and slabs; and fillets was 654,706,000 pounds. Imports in 1977 were 696,261,000 pounds. Imports as a percentage of production increased from 173.4 percent in 1975 to 197.8 percent in 1976 and declined to 187.8 percent in 1977.

Cod represented the largest percentage of total Provincetown landings in 1977. Imports of fresh and frozen cod increased from 256,962,000 pounds in 1975 to 331,044,000 pounds in 1977. Imports as a percentage of production increased from 379.4 percent in 1975 to 446.5 percent in 1976 and increased to 463.9 percent in 1977.

Imports of edible fish products from Canada increased from 438,206,000 pounds in 1975 to 474,015,000 pounds in 1976 to 478,470,000 pounds in 1977.

A survey of fish wholesalers served by the Provincetown area indicated that many had decreased purchases of fish from Provincetown. A number of these wholesalers purchased imported Canadian ground and flatfish either directly or indirectly in 1977.

The wholesalers also indicated that decreasing purchases from Provincetown were in large measure due to the increased purchases of fresh and frozen Canadian fish by their customers—fishmarkets, supermarkets, and restaurants. The Department's investigation revealed that many fish distributors and wholesalers use the imports of Canadian ground and flatfish as leverage in bidding down the ex-vessel prices paid to domestic fishermen for the same species of ground and flatfish.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with groundfish and flatfish caught by the F/V Jennifer and Aaron, Provincetown, Mass. contributed importantly to the decline in sales and employment related to the catching of fish aboard that vessel. In accordance with the provisions of the Act, I make the following certification:

All workers of the F/V Jennifer and Aaron, Provincetown, Mass. who became totally or partially separated from employment on or after October 20, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 23rd day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2430]

"F/V JOHNNY O.", PROVINCETOWN, MASS.
Certification Regarding Eligibility To Apply for
Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2430: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 6, 1977 in response to a worker petition received on September 30, 1977 which was filed on behalf of fishermen and former fishermen catching fish for the F/V Johnny O., Provincetown, Mass.

The Notice of Investigation was published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56375). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the owner of the F/V Johnny O., his customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

During the 1973 to 1976 period the average annual level of imports of fresh and frozen groundfish and flatfish: whole; blocks and slabs; and fillets was 654,706,000 pounds. Imports in 1977 were 696,261,000 pounds. Imports as a percentage of production increased from 173.4 percent in 1975 to 197.8 percent in 1976 and declined to 187.8 percent in 1977.

Cod represented the largest percentage of total Provincetown landings in 1977. Imports of fresh and frozen cod increased from 256,962,000 pounds in 1975 to 331,044,000 pounds in 1977. Imports as a percentage of production increased from 379.4 percent in 1975 to 446.5 percent in 1976 and increased to 463.9 percent in 1977.

Imports of edible fish products from Canada increased from 438,206,000 pounds in 1975 to 474,015,000 pounds in 1976 to 478,470,000 pounds in 1977.

A survey of fish wholesalers served by the Provincetown area indicated that many had decreased purchases of fish from Provincetown. A number of these wholesalers purchased imported Canadian ground and flatfish either directly or indirectly in 1977.

The wholesalers also indicated that decreasing purchases from Provincetown were in large measure due to the increased purchases of fresh and

frozen Canadian fish by their customers—fishmarkets, supermarkets, and restaurants. The Department's investigation revealed that many fish distributors and wholesalers use the imports of Canadian ground and flatfish as leverage in bidding down the ex-vessel prices paid to domestic fishermen for the same species of ground and flatfish.

[TA-W-3166]

FAJARDO SUGAR MILL OF THE SUGAR CORP.
OF PUERTO RICO FAJARDO, PUERTO RICO

Certification Regarding Eligibility To Apply for
Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3166: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 21, 1978 in response to a worker petition received on February 7, 1978, which was filed on behalf of workers and former workers producing raw sugar at the Fajardo, Fajardo, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico.

The notice of investigation was published in the FEDERAL REGISTER on March 3, 1978 (43 FR 8864). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the Sugar Corp. of Puerto Rico, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of cane and beet sugar in 1975 totaled 3.9 million short tons and increased in 1976 to 4.7 million short tons and 6.1 million tons in 1977. The ratio of imports to domestic production increased from 59 percent in 1975, to 66 percent in 1976 and the 96 percent in 1977.

Prior to 1974, imports of sugar were regulated by statute. Since the expiration of the Sugar Act on December 31, 1974, imported sugar has entered the United States in the absence of price restrictions and quota levels. As a result, domestic prices of sugar have been merged with world sugar prices, subjecting domestic prices to the competitive forces of an increased supply of sugar in a previously regulated market.

Sugar prices have dropped from 1974, when prices were 57.3 cents per pound, to the January 1976 price of

11.5 cents per pound. Presently the price of raw sugar is under 11.0 cents per pound. Domestic sugar growers have been selling their products at prices below the cost of production. Although price supports were instituted in 1977 raising the price paid to domestic producers, that price is still below the Sugar Corp. of Puerto Rico's cost of production. This disparity in cost of production and price of sugar has caused the company to permanently shut down its Fajardo Sugar Mill.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with raw sugar produced at the Fajardo, Fajardo, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico contributed importantly to the decline in sales and production and to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Fajardo, Fajardo, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico, who became totally or partially separated from employment on or after July 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of May 1978.

[TA-W-3179]

HILTON MANUFACTURING CO., LINDEN, N.J.

Negative Determination Regarding Eligibility
To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3179: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 21, 1978 in response to a worker petition received on February 6, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's and boys' tailored clothing at Hilton Manufacturing Co., Linden, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on March 3, 1978 (43 FR 8864). No public hearing was requested and none was held.

The information upon which the determination was made was obtained

principally from officials of Hilton Manufacturing Co., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met: that sales or production, or both, of such firm or subdivision have decreased absolutely.

Hilton Manufacturing produces men's suits, sport coats and slacks. Production data represent the number of suit coats and sport coats manufactured; these data are equivalent to the number of suits and sport coats produced (since a suit consists of two garments—pants and a coat—but is counted as a single unit). Suits and sport coats account for about 90 percent of production. Production of suit coats and sport coats increased in 1977 compared to 1976 and in the first two months of 1978 compared to the like period in 1977. Production increased in each quarter of 1977 compared to the like quarter of 1976. Sales are equivalent to production as Hilton Manufacturing produces primarily for customer orders.

CONCLUSION

After careful review I conclude that all workers at Hilton Manufacturing Co., Linden, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

IGUALDAD SUGAR MILL OF THE SUGAR CORP. OF PUERTO RICO, MAYAGUEZ, PUERTO RICO

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2793: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on December 21, 1977 in response to a worker petition received on December 6, 1977, which was filed on behalf of

workers and former workers producing raw and refined sugar at the Igualdad, Mayaguez, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico.

The notice of investigation was published in the FEDERAL REGISTER on January 10, 1978 (43 FR 1556). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the Sugar Corp. of Puerto Rico, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of cane and beet sugar in 1975 totaled 3.9 million short tons and increased in 1976 to 4.7 million short tons and to 6.1 million short tons in 1977. The ratio of imports to domestic production increased from 59 percent in 1975, to 66 percent in 1976 and to 96 percent in 1977.

Prior to 1974, imports of sugar were regulated by statute. Since the expiration of the Sugar Act on December 31, 1974, imported sugar has entered the United States in the absence of price restrictions and quota levels. As a result, domestic prices of sugar have been merged with world sugar prices, subjecting domestic prices to the competitive forces of an increased supply of sugar in a previously regulated market.

Sugar prices have dropped from 1974, when prices were 57.3 cents per pound, to the January 1976 price of 11.5 cents per pound. Presently the price of raw sugar is under 11.0 cents per pound. Domestic sugar growers have been selling their products at prices below the cost of production. Although price supports were instituted in 1977 raising the price paid to domestic producers, that price is still below the Sugar Corp. of Puerto Rico's cost of production. This disparity in cost of production and price of sugar has caused the company to permanently shut down its Igualdad Sugar Mill.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with raw and refined sugar produced at the Igualdad, Mayaguez, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico contributed importantly to the decline in sales and production and to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Igualdad, Mayaguez, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico, who became totally or partially separated from employment on or after May 6, 1977 are eligible to apply for adjustment assistance under Title II, chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2845]

J. & T. SPORTSWEAR, INC., QUINCY, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2845: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on January 4, 1978 in response to a worker petition received on December 15, 1977, which was filed on behalf of workers and former workers producing women's sportswear at J. & T. Sportswear, Inc., Quincy, Mass. During the course of the investigation it was revealed that the firm produces women's slacks, shorts, and skirts.

The notice of investigation was published in the FEDERAL REGISTER on January 27, 1978 (43 FR 3777). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of J. & T. Sportswear, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Department's investigation revealed that the sole manufacturer for which J. & T. Sportswear performs contract work increased their domestic contract work and increased their total sales both in 1976 compared to

1975 and in 1977 compared to 1976. This manufacturer neither imports finished garments nor contracts for any work offshore.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that all workers of J. & T. Sportswear, Incorporated, Quincy, Mass. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 10th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2903]

JULIUS & SONS, INC., BOSTON, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2903: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on January 11, 1978 in response to a worker petition received on December 27, 1977 which was filed on behalf of workers and former workers producing leather coats, jackets and outerwear for men at Julius & Sons, Inc., Boston, Mass.

The Notice of Investigation was published in the FEDERAL REGISTER on January 27, 1978 (43 FR 3776). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Julius & Sons Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

The value of imported leather coats and jackets increased from 154.3 million dollars in 1975 to 236.6 million dollars in 1976. Imports for January-October 1977 were 203.7 million dollars compared to 195.5 million dollars during January-October 1976. The ratio of imports to domestic production increased from 67.1 percent in 1975 to 81.8 percent in 1976.

Customers surveyed who decreased purchases from Julius & Sons, Inc., in

1976 and 1977, increased purchases of imported leather coats and jackets during the same period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with leather coats, jackets, and outerwear for men produced at Julius & Sons Inc., Boston, Mass. contributed importantly to the decline in sales and production and to the separations of workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Julius & Sons, Inc., Boston, Mass. who became totally or partially separated from employment on or after December 20, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2729]

LACLEDE STEEL CO., ALTON, ILL.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2729: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 6, 1977 in response to a worker petition received on November 23, 1977, which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel wire, pipe, sheet and strip, and other hot rolled products at the Alton, Ill. plant of the Laclede Steel Co.

The notice of investigation was published in the FEDERAL REGISTER on December 30, 1977 (42 FR 65307). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Laclede Steel Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have

been met, the following criterion has not been met:

that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

The Department's investigation revealed that the average number of production workers employed at the Alton, Ill. plant of the Laclede Steel Co. increased 0.8 percent from 1975 to 1976 and 5.0 percent from 1976 to 1977. Employment increased in the last three quarters of 1976 and in each quarter of 1977 compared to the same quarters of the preceding year. Average weekly hours per worker did not change significantly from 1976 to 1977.

CONCLUSION

After careful review I conclude that all workers at the Alton, Ill. plant of the Laclede Steel Co. be denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 22d day of May 1978.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-2493 and TA-W-2695]

MIDWEST STEEL AND ALLOY CORP. AND RAIL- WAY SCRAP CORP., HUBBARD, OHIO, AND CLEVELAND, OHIO

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2493 and TA-W-2695: Investigations regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 20, 1977, in response to a worker petition received on October 13, 1977, which was filed on behalf of workers and former workers producing iron and steel scrap at the Hubbard, Ohio, scrap yard of Midwest Steel & Alloy Corp. and the Cleveland, Ohio, office of the same firm (TA-W-2493) and at the Hubbard, Ohio, facility of Railway Scrap Corp., a wholly-owned subsidiary of Midwest Steel & Alloy Corp. (TA-W-2695).

The notice of investigation for TA-W-2493 was published in the FEDERAL REGISTER on November 1, 1977 (42 FR 57175). No public hearing was requested and none was held.

The notice of investigation of case TA-W-2695 was published in the *FEDERAL REGISTER* on December 16, 1977 (42 FR 63485). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Midwest Steel and Alloy Corp., its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. With respect to workers at the Hubbard, Ohio, facility, without regard as to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threats thereof, and absolute decline in sales or production.

A survey of customers of the Hubbard, Ohio, scrap yard revealed that steel plants which are customers of Midwest do not purchase imported iron and steel scrap metal. Respondents reported that they reduced purchases from Midwest because declining steel reduction had reduced the need for scrap metal. The petition alleged that imports of finished steel products contributed to the workers' separations. However, finished steel products can not be considered like or directly competitive with iron and steel scrap.

With respect to workers at the Cleveland, Ohio, facility, the Department has determined that services are not "articles" within the meaning of section 222(3) of the Act.

The Cleveland, Ohio office of Midwest Steel & Alloy Corp. houses the firm's scrap metal brokerage operations. Midwest finds buyers for owners of scrap metal who wish to sell and finds sellers for those who wish to buy scrap metal. Midwest performs this operation for all types of scrap metal, both ferrous and nonferrous. None of the buyers or sellers have any ownership interest in Midwest Steel & Alloy. The Cleveland, Ohio, facility cannot be considered part of the integrated production process of Midwest Steel & Alloy Corp.

The Cleveland, Ohio, office provides the service of buying and selling scrap metal. The Cleveland, Ohio, office of Midwest Steel & Alloy Corp. is not involved in the production of an article within the meaning of section 222(3) of the Act.

CONCLUSION

After careful review, I conclude that all workers at the Hubbard, Ohio, fa-

cility of Midwest Steel & Alloy Corp. and its subsidiary, Railroad Scrap Corp. and at the Cleveland, Ohio, office of Midwest Steel & Alloy Corp. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 23rd day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2891]

RANCHERS EXPLORATION AND DEVELOPMENT CORP., MIAMI, ARIZ.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2891: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on January 9, 1978, in response to a worker petition received on December 19, 1977, which was filed on behalf of workers and former workers of Ranchers Exploration & Development Corp., who are engaged in the mining of copper and the production of copper cathodes at the Bluebird Mine, Miami, Ariz.

The Department's investigation revealed that the workers are engaged in the production of copper cathodes (refined copper).

The Notice of Investigation was published in the *FEDERAL REGISTER* on January 27, 1978 (43 FR 3778). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Ranchers Exploration and Development Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of refined copper increased from 192 thousand short tons in 1972 to 203 thousand short tons and 314 thousand short tons, respectively, in 1973 and 1974. U.S. imports of refined copper declined to 147 thousand short tons in 1975 before increasing to 384 thousand short tons in 1976. U.S.

imports increased from 384 thousand short tons in 1976 to 391 thousand short tons in 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1972 to 9.0 percent and 15.3 percent, respectively, in 1973 and 1974. The ratio of imports to domestic production declined to 8.6 percent in 1975 before increasing to 21.0 percent in 1976. The ratio of imports to domestic production increased further, to 22.2 percent in 1977.

While imports of refined copper had increased by 161 percent in 1976 compared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1976 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Ranchers and other domestic producers of refined copper lost sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the price of copper established by domestic producers and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5-8 cents per pound below the domestic producers' price, the demand for imported copper increases. During May and June 1977 the LME price, was almost 11 cents per pound below the domestic producers' price and in July and August 1977 the LME price was almost 12 cents per pound below the domestic producers' price. At the same time, the abundant supply of copper stocks in the foreseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased compared to 1976.

The decision to curtail mining operations at the Bluebird Mine (which in turn results in declining production of refined copper) was based mainly on an attempt to avoid losses which the company would incur were it to continue normal production levels at the current market prices for copper. Ranchers plans to resume normal operations at the Bluebird Mine should market conditions improve.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with refined copper produced at the Bluebird Mine, Miami, Ariz. of Ranchers Explo-

ration and Development Corp. contributed importantly to the total or partial separation of the workers of that facility. In accordance with the provisions of the Act, I make the following certification:

All workers at the Bluebird Mine, Miami, Ariz., of Ranchers Exploration and Development Corp. who became totally or partially separated from employment on or after September 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C., this 22d day of May 1978.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-3167]

SAN FRANCISCO SUGAR MILL OF THE SUGAR CORP. OF PUERTO RICO, GUAYANILLA, P.R.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3167: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 21, 1978 in response to a worker petition received on February 7, 1978, which was filed on behalf of workers and former workers producing raw sugar at the San Francisco, Guayanilla, P.R. Sugar Mill of the Sugar Corp. of Puerto Rico.

The notice of investigation was published in the *FEDERAL REGISTER* on March 3, 1978 (43 FR 8864). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from the Sugar Corp. of Puerto Rico, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of cane and beet sugar in 1975 totaled 3.9 million short tons and increased in 1976 to 4.7 million short tons and to 6.1 million short tons in 1977. The ratio of imports to domestic production increased from 59 percent in 1975, to 66 percent in 1976 and to 96 percent in 1977.

Prior to 1974, imports of sugar were regulated by statute. Since the expira-

tion of the Sugar Act on December 31, 1974, imported sugar has entered the United States in the absence of price restrictions and quota levels. As a result, domestic prices of sugar have been merged with world sugar prices, subjecting domestic prices to the competitive forces of an increased supply of sugar in a previously regulated market.

Sugar prices have dropped from 1974, when prices were 57.3 cents per pound, to the January 1976 price of 11.5 cents per pound. Presently the price of raw sugar is under 11.0 cents per pound. Domestic sugar growers have been selling their products at prices below the cost of production. Although price supports were instituted in 1977 raising the price paid to domestic producers, that price is still below the Sugar Corp. of Puerto Rico's cost of production. This disparity in cost of production and price of sugar has caused the company to permanently shut down its San Francisco Sugar Mill.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with raw sugar and turbinated sugar produced at the San Francisco, Guayanilla, Puerto Rico Sugar Mill of the Sugar Corp. of Puerto Rico contributed importantly to the decline in sales and production and to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the San Francisco, Guayanilla, P.R. Sugar Mill of the Sugar Corp. of Puerto Rico, who became totally or partially separated from employment on or after June 10, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of May 1978.

HARRY J. GILMAN,
Acting Director, Office of
Foreign Economic Research.

[TA-W-2562]

THOMAS KNITTING, INC., NEW YORK, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2562: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 3, 1977, in response to a

worker petition received on October 27, 1977, which was filed on behalf of workers producing double knit fabric and sweater strips at Thomas Knitting, Inc., New York, N.Y.

The Notice of Investigation was published in the *FEDERAL REGISTER* on November 18, 1977 (42 FR 59583). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Thomas Knitting, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threats thereof, and to the absolute decline in sales or production.

The Department's investigation revealed that imports of circular knit fabric increased from 3,022 thousand pounds in 1974 to 4,840 thousand pounds in 1975 and decreased to 3,790 thousand pounds in 1976. In the first nine months of 1976, 2,485 thousand pounds of circular knit fabric were imported compared to 1,391 thousand pounds of circular knit fabric imported in the first nine months of 1977. Imports of double knit fabric decreased from 83 million square yards in 1975 to 67 million square yards in 1976 to 61.8 million square yards in 1977.

Imports as a percentage of domestic production have been less than one percent in each year since 1973 and have been declining since 1975. The import to production ratio was 0.34 in 1975 and 0.28 in 1976. The ratio was 0.14 in the first nine months of 1977 compared to 0.24 in the same period of 1976. Imports of double knit fabric as a percentage of domestic production decreased from 0.7 in 1975 to 0.6 in 1976. Domestic production information was not available for 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I determine that workers of Thomas Knitting, Inc., New York, N.Y. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 22nd day of May 1978.

Office of the Secretary
[Order No. 5-78]

ASSISTANT SECRETARY FOR LABOR- MANAGEMENT RELATIONS

Delegation of Authority To Request
Information From the Internal Revenue Service

MAY 10, 1978.

1. *Purpose.* To delegate authority to the Assistant Secretary for Labor-Management Relations for the purpose of administering and enforcing the Employee Retirement Income Security Act of 1974.

2. *Background.* The Employee Retirement Income Security Act of 1974, section 3004, entitled "Coordination Between the Department of the Treasury and the Department of Labor" provides, in general, that to avoid unnecessary expense and duplication of functions, both departments may make agreements for cooperation or mutual assistance in the performance of their functions under the Act.

The implementation of this provision of the Act requires access to tax information in the possession of the Internal Revenue Service. All information furnished by the Internal Revenue Service is made available pursuant to the provisions of section 6103(d)(2) of the Internal Revenue Code. This information will be used strictly in accordance with, and subject to the limitations of the disclosure provisions of the Internal Revenue Code pertaining to confidentiality and taxpayer rights of privacy.

3. *Delegation of Authority.* The Assistant Secretary for Labor-Management Relations is delegated authority—including authority to redelegate—to request information in the possession of the Internal Revenue Service to be used in connection with the administration of Title I of the Employee Retirement Income Security Act of 1974.

4. *Effective date.* This order is effective immediately.

RAY MARSHALL,
Secretary of Labor.

[4510-28]

INVESTIGATIONS REGARDING CERTIFICA- TIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivi-

sion and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 9, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 11th day of May 1978.

MARVIN M. FOOKS,
Director, Office of
Trade Adjustment Assistance.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFETY- GUARDS, SUBCOMMITTEE ON THE DIABLO CANYON NUCLEAR POWER STATION

Meeting

The ACRS Subcommittee on the Diablo Canyon Nuclear Power Station will hold a meeting on June 14-15, 1978 in room 1046, 1717 H Street NW., Washington, D.C. 20555 to continue its review of the Pacific Gas and Electric Co.'s applications for operating licenses for Units 1 and 2 of this Station.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977, page 56972, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows: Wednesday, June 14 and Thursday, June 15, 1978, 8 a.m. until the conclusion of business each day.

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to formulate a report and recommendations to the full Committee.

At the conclusion of the Executive Session, the Subcommittee will hear presentations by and hold discussions with representatives of the Pacific Gas and Electric Co., the NRC Staff, and their consultants, pertinent to this review.

The Subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether the project is ready for review by the full Committee.

In addition, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring matters involving proprietary information. I have determined, in ac-

cordance with subsection 10(d) of Pub. L. 92-463, that, should such sessions be required, it is necessary to close these sessions to protect proprietary information (5 U.S.C. 552b(c)(4)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefore can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Mr. John C. McKinley, telephone, 202-634-1371, between 8:15 a.m. and 5 p.m., EDT.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document room, 1717 H Street NW., Washington, D.C. 20555 and at the San Luis Obispo Free Library, San Luis Obispo, CA 93406.

Dated: May 24, 1978.

JOHN C. HOYLE,
Advisory Committee
Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289]

METROPOLITAN EDISON CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 40 to Facility Operating License No. DPR-50, issued to Metropolitan Edison Co., Jersey Central Power & Light Co., and Pennsylvania Electric Co. (the licensees), which revised the license and its appended Technical Specification for operation of the Three Mile Island Nuclear Station, Unit No. 1 (the facility) located in Dauphin County, Pa. The amendment is effective as of its date of issuance.

This amendment reduces the allowable measured neutron flux tilt, the allowable axial power imbalance and the allowable position limits for the Axial Power Shaping Rods.

This amendment also adds a license condition which requires comparison of measured and predicted power distributions after about 25 effective full

power days of operation in this operating cycle.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated May 10 and 16, 1978, (2) Amendment No. 40 to License No. DPR-50, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Government Publications Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pa. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 19th day of May 1978.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors
Branch No. 4, Division of Operating Reactors.

[Byproduct Material License No. 29-13613-02]

RADIATION TECHNOLOGY, INC.

Order Confirming Resumption of Evidentiary Hearing on May 31, 1978

In the matter of Radiation Technology, Inc., Lake Denmark Road, Rockaway, N.J. 07866.

At the conclusion of an evidentiary hearing session held on May 12, 1978, an order was orally entered into the transcript of the proceeding providing that the evidentiary hearing was then recessed to reconvene in the Freeholders' Meeting Room, Morris County Courthouse at 9 a.m. on Wednesday, May 31, 1978.

This Order is issued to provide a basis for public notice that may not be readily available from the transcript due to the lack of a local Public Depository in Morristown for records in this proceeding.

Wherefore, it is ordered, in accordance with the Atomic Energy Act, as amended, and the Rules of Practice of the Nuclear Regulatory Commission, that the evidentiary hearing in this proceeding shall resume and reconvene at 9 a.m. on Wednesday, May 31, 1978, in the Freeholders' Meeting Room in the Morris County Courthouse, Morristown, N.J.

Issued May 22, 1978, Bethesda, Md.

For the Nuclear Regulatory Commission.

SAMUEL W. JENSCH,
Administrative Law Judge.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

NUCLEAR WASTE MANAGEMENT TECHNICAL ADVISORY GROUP

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the Office of Science and Technology Policy announces the following meeting:

Name: Nuclear Waste Management Technical Advisory Group.

Date: June 15, 1978.

Time: 8:30 a.m. to 5 p.m.

Place: Room 3104, New Executive Office Building, Washington, D.C. 20500.

Type of meeting: Open.

Contact person: Mr. William Montgomery, Executive Office of the President, Office of Science and Technology Policy, Washington, D.C. 20500, telephone 202-395-4692.

Summary minutes: May be obtained from the Office of Science and Technology Policy, Washington, D.C. 20500.

Purpose of advisory group: The Office of Science and Technology Policy, in accordance with the statutory mandate to analyze and interpret significant developments and trends with respect to long-term management of nuclear wastes, will identify and delineate viable alternative technology strategies or planning approaches to the problem of disposal and isolation of all nuclear waste other than that categorized as low level.

Agenda: 8:30 to 5 p.m.—a discussion of draft materials prepared as part of the policy review process for the President.

WILLIAM J. MONTGOMERY,
Executive Officer.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

TRADE POLICY STAFF COMMITTEE

Possible Reallocation of Specialty Steel Quotas

AGENCY: Office of the Special Representative for Trade Negotiations.

SUPPLEMENTARY INFORMATION. By Proclamation 4445 of June 11, 1978 (41 FR 24101), as modified, the President proclaimed import relief for the domestic specialty steel industry for a period of 3 years in the form of an Orderly Marketing Agreement with Japan and quotas on imports from other foreign suppliers. Headnote 2 of subpart A, part 2 of the appendix to the Tariff Schedules of the United States (TSUS) gives the Special Representative for Trade Negotiations the authority to reallocate shortfalls during the last 3 months of each quota year. This notice identifies likely shortfalls in relation to revised quota quantities for the current restraint period (June 14, 1977 to June 13, 1978) as listed below:

[In short tons]				
TSUS Item	Supplier	Revised quota quantity for the 2d restraint period	Estimated charges by June 13, 1978	Potential shortfalls
923.20 (stainless steel sheet and strip).....	Col. 2.*	3	0	3
923.22 (stainless steel bar)	Canada	1,600	1,300	300
	Col. 2.*	2	0	2
923.23 (stainless steel rod)	Sweden	3,658	3,246	412
923.26 (alloy tool steel).....	Canada	2,000	1,867	133
	Col. 2.*	6	0	6
	Sweden	8,600	7,804	796

* Countries entitled to the rate of duty in rates of duty column numbered 2 of the tariff schedules of the United States.

ACTION: Notice of possible reallocation of specialty steel quota shortfalls.

SUMMARY: Written comments are solicited from interested parties on the possible reallocation, within certain quota categories, from suppliers who are not likely to export the quantity of steel which would fill the current quotas assigned to them, to other suppliers who are able to supply additional steel.

DATE: Comments should be received by or before June 2, 1978.

ADDRESS: Comments should be sent to the Secretary, Trade Policy Staff Committee, Room 728, Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT:

Karen Alleman, Room 728, Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Washington, D.C. 20506, 202-395-7203.

Estimated charges by June 13, 1978, are extrapolated from actual charges against each quota quantity through May 5, 1978. While shortfalls are possible in the stainless steel plate category, there are no suppliers who have filled their revised quotas at expected rates.

TSUS Item	Supplier
923.20 (stainless steel sheet and strip).	European economic community, Sweden, and other col. 1 countries.
923.22 (stainless steel bar).	European economic community and other col. 1 countries.
923.23 (stainless steel rod).	European economic community.
923.26 (alloy tool steel).	Austria, European economic community, and other col. 1 countries.

WILLIAM B. KELLY, Jr.
Chairman, Trade Policy
Staff Committee.

[7710-12]

POSTAL SERVICE

CERTAIN PERMANENT POSTAL RATES AND FEES

Effective Date

1. On July 13, 1977, the Postal Service requested the Postal Rate Commission to submit to the Governors of the Postal Service a recommended decision on changes in rates of domestic postage and fees for domestic postal services pursuant to Chapter 38 of Title 39, United States Code (Postal Rate Commission Docket No. R77-1). Notice of this action was published in the **FEDERAL REGISTER** by the Postal Rate Commission on July 20, 1977, 42 FR 37330, as amended at 42 FR 63240 and 42 FR 63830.

On May 12, 1978, as amended on May 18, 1978, the Postal Rate Commission transmitted to the Governors of the Postal Service its recommended decision in which it recommended changes in permanent rates of domestic postage and fees for domestic postal services. On May 19, 1978, the Governors approved the permanent rates and fees recommended by the Postal Rate Commission and the Board of Governors determined the effective date thereof. (The Governors' decision, the record of the Com-

mission's hearings, and the Commission's recommended decision may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The Governors' decision and the Commission's recommended decision are available for inspection in the Library at Headquarters, United States Postal Service, 475 L'Enfant Plaza West SW., Washington, D.C. 20260.)

In accordance with action by the Governors and the Board of Governors, the Postal Service hereby gives notice that the rates and fees listed below become effective as of 12:01 a.m., May 29, 1978.

2. The schedules A-1 through G-19 set forth below shall be applicable from and after the time and date specified, until further notice, except that the phased rates set forth in schedules 1-7, which are applicable to the classes of mail and kinds of mailers identified in paragraphs (a) (1) and (2) of § 3626 of Title 39, shall instead be in effect, and the rates becoming effective shall be those set forth in the "year 6" column under the heading "Phased rates."

(39 U.S.C. 101(d), 401, 403, 404, 407, 3621, 3625, 3626, 3627.)

ROGER P. CRAIG,
Deputy General Counsel.

NOTICES

SCHEDULE A-1
First-Class and Business Reply

Mail Type	Postage Rate Unit	Rate	
		Regular (Cents)	Presorted (Cents) ^{1/}
First-Class:			
Letters	1st Ounce	15 ^{2/}	13
	Each add'l ounce	13 ^{2/}	13
Cards	Piece	10	9
Business Reply ^{3/}	With advance deposit account	3.5	3.5
	Without advance deposit account	12	12

^{1/} Presorted first-class mail must be presented in a single mailing of 500 or more pieces properly prepared and presorted. The lower rate applies only to each piece of a group of ten or more pieces destined for the same five-digit ZIP Code or each piece of a group of fifty or more pieces destined for the same three-digit ZIP Code. A mailing fee of \$30 must be paid once each calendar year, at each office of mailing by or for any person who mails presorted first-class mail.

^{2/} Rate applies through 12 ounces. Heavier pieces are subject to priority mail rates.

^{3/} Rates are applied on a per-piece basis in addition to regular postage. A fee of \$30 must be paid once each calendar year for each business-reply permit. An accounting charge must be paid once each calendar year for each business-reply advance deposit account.

Applicant represents that by letters dated December 13, 1971, and January 21, 1974, the staff of the Commission was given notice pursuant to the above order of the following transactions:

(a) The sale of a controlling interest in Applicant to Moller Steamship Co., Inc. by seven of Applicant's corporate stockholders.

(b) The issuance by Applicant of \$1,000,000 of its 7½ percent preferred stock to Moller Industries, Inc. ("Moller") a wholly owned subsidiary of Moller Steamship Co., Inc.

(c) Transfer to Robert L. Thompson (Mr. Thompson), President and Chief Executive Officer of Applicant, of 2,587,283 shares of Applicant's common stock.

Applicant states that each of the foregoing transactions was consummated on the terms presented to the staff of the Commission subject to certain minor changes that were requested by the staff of the Commission. Applicant further states that by letters dated February 20, 1976, June 28, 1976, and July 5, 1977, the staff of the Commission was notified of two additional transactions involving (i) the repurchase by Applicant of its debentures formerly held by CNA Realty Corporation; and (ii) the repurchase by Applicant of its remaining outstanding debentures and 582,138 shares of its outstanding common stock. (The common stock was owned by one of the debenture holders and represented 13.5 percent of Applicant's total outstanding common stock.)

Applicant represents that in May, 1977, Applicant transferred substantially all of its assets to two wholly owned subsidiaries ("Subsidiaries") in consideration of the Subsidiaries' issuance of their respective common stock to Applicant and the Subsidiaries' assumption of all of the liabilities and obligations of Applicant. Applicant further represents that concurrent with such transfer, Applicant and its President, Mr. Thompson, executed an agreement with the Subsidiaries whereby Mr. Thompson and Applicant agreed to provide management services and office facilities for the Subsidiaries.

Applicant states that Citibank, N.A. and Moller, Applicant's major credi-

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 10248; 812-2382]

BUILDERS RESOURCES CORP.

Filing of Application for Order Rescinding Prior Order Exempting Applicant From all the Provisions of the Act.

MAY 18, 1978.

Notice is hereby given, that Builders Resources Corp. ("Applicant"), 431 North Frederick Avenue, Suite 207, Gaithersburg, Md. 20780, a Delaware corporation, filed amendments to its application on September 29, 1977, November 2, 1977, and April 27, 1978, requesting an order of the Commission rescinding an earlier Commission order which, pursuant to section 6(c) of the Investment Company Act of 1940 ("Act"), conditionally exempted Applicant from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was incorporated under the laws of the State of Delaware on August 11, 1967, for the purpose of providing equity financing for residential construction through the formation of limited partnerships or joint ventures with builders throughout the country. Applicant organized separate partnerships for each project with the builder, as the general partner, and Applicant, as the limited partner. In some instances Applicant used a joint venture instead of a limited partner-

ship. Applicant states that each formation by it of such a joint venture or limited partnership may have constituted the investment by Applicant in a "security" as defined in section 2(a)(35) of the Act, and that hence Applicant may have been deemed to be an investment company under the Act.

Accordingly, Applicant filed an application with the Commission on September 5, 1968, pursuant to section 6(c) of the Act, for an order of the Commission exempting Applicant from all the provisions of the Act. Based upon the information supplied by Applicant, the Commission issued an order on April 17, 1969, pursuant to section 6(c) of the Act (Investment Company Act Release No. 5654), declaring Applicant to be exempt from all the provisions of the Act, subject to two conditions which were consented to by Applicant. The two conditions are as follows:

(a) Applicant shall not issue securities, and Applicant's stockholders shall not transfer any securities of Applicant held by such stockholders, to any persons other than Applicant's present stockholders or pursuant to options granted under Applicant's Qualified Stock Option Plan to Officers of Applicant and any subsequently acquired subsidiaries of Applicant and to Area Managers of Applicant, not exceeding total of 20 persons, unless Applicant shall notify the staff of the Commission at least 30 days prior to such issuance or transfer, although such period may be reduce by the staff on request of Applicant, and if, within 25 days of receipt of such notice, the staff shall notify Applicant that a substantial question exists whether the proposed issuance or transfer affects the grounds upon which the requested Order was granted, Applicant shall not issue any security to any such person, and no stockholder of Applicant shall transfer to such person any security of Applicant held by such stockholder, unless the Commission has entered an Order permitting the proposed issuance or transfer of securities pursuant to an application under the Act filed by Applicant.

(b) Any stockholder of Applicant which has a stock that is publicly traded shall not invest more than 5% of its total assets in Applicant, provided however, that if any stockholder of Applicant does not have a publicly traded stock but is a subsidiary of a publicly held corporation, that the total assets of such publicly held corporation shall be considered for purpose of this condition.

This Commission order was issued at a time when Applicant had eight stockholders, each of which was a corporation, and six of which were publicly owned corporations. Applicant's stockholders and their respective stock interests were as follows:

tors, have agreed to the Subsidiaries' assumption of Applicant's indebtedness to such creditors and have released Applicant from all such indebtedness. Applicant further states that Moller has contributed back to the capital of Applicant all of Applicant's common and preferred stock and all rights to acquire such stock held by Moller.

Applicant represents that the following summarizes the results of the foregoing recapitalization transactions:

(a) Applicant now has only nominal assets and liabilities, and its current business activities consist solely of liquidating the assets transferred to the Subsidiaries for the benefit of creditors.

(b) Apart from liquidating the assets of the Subsidiaries, Applicant's future business activities have not yet been formulated; however, Applicant states that it definitely will not provide equity financing for residential construction through the medium of limited partnership agreements entered into between Applicant and the builder/developer.

(c) All of Applicant's outstanding common stock (2,587,283 shares) is owned by Mr. Thompson, President of Applicant. There are no other securities of Applicant currently outstanding.

Applicant now seeks an order of the Commission rescinding the earlier Commission order conditionally exempting Applicant from all the provisions of the Act. In support of its requested Commission order Applicant states that the current and future business activities of Applicant are substantially different from those existing at the time the Commission's above order was issued. Applicant represents that it is not presently, and does not intend to be in the future, engaged primarily in the business of investing, reinvesting, or trading in securities. Applicant further represents that Applicant presently has only one stockholder and does not contemplate making a public offering of securities. Applicant states that although it has fully complied with the conditions contained in the above order of the Commission, it believes that its current business activities no longer justify its continued compliance with those conditions. Applicant further states that based on the significant changes that have occurred in its business operations since the entry of the above Commission order it no longer desires to rely on the provisions of that order for exemption from all the provisions of the Act. Finally, Applicant submits that the facts set forth above demonstrate that its continued compliance with the above Commission order is not necessary in the public interest, nor consistent with the protection of investors and the purposes fairly in-

tended by the policy and provisions of the Act.

Notice is further given, That any interested person may, not later than June 12, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons, who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 20548]

CONSOLIDATED NATURAL GAS CO., ET AL

Proposal To Make Loans to Residential Heating Customers To Finance Home Insulation Installation and To Acquire Promissory Notes

MAY 18, 1978.

Notice is hereby given that Consolidated Natural Gas Co. ("Consolidated"), a registered holding company, the East Ohio Gas Co., the River Gas Co., and West Ohio Gas Co. (collectively referred to as "the subsidiaries"), all of which are wholly owned subsidiaries of Consolidated, have filed an application and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 9(a) and 10 of the Act and Rule 40 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application for a complete statement of the proposed transaction.

The subsidiaries seek authorization to conduct, in accordance with a new

law of the State of Ohio, a residential insulation financing program ("program") and to acquire unsecured installment promissory notes from residential gas space heating customers pursuant to the program. Under the program, each subsidiary will lend qualified residential heating customers amounts up to \$750 for each home for installation of insulation in owner-occupied, single or double family, gas-heated residences, if a financial institution listed as an institution that will finance such installations denies a loan to any such customers.

It is stated that the term of the loans under the proposed program shall not exceed 24 months. The interest charged on such loans will not exceed a rate equal to 4 percent in excess of the discount rate on 90-day commercial paper in effect at the Federal Reserve Bank, Fourth Federal Reserve District, at the time the loan is executed. The discount rate on 90-day commercial paper in effect on May 9, 1978, at the Federal Reserve Bank, Fourth Federal Reserve District, was quoted at 6 1/2 percent to 7 percent. At the end of the first year, the subsidiary shall set the rate of interest charged so that revenues derived therefrom will equal the cost of administering the program. It is stated that if costs exceed 4 percent over the commercial paper discount rate, the excess will be assumed by the subsidiary. When cost are less than the revenues recovered from interest charges, customers who had loans outstanding during that year, will be credited in an amount in proportion to their respective loans and interest payments during the year. The credit will be applied against the customer's unpaid balance or bill the following year. Repayment within 90 days will be treated as cash and will incur no interest.

The maximum amount of loans, outstanding at any one time from all the subsidiaries during the years 1978, 1979, and 1980 shall not exceed \$175,000, \$337,500, and \$500,000, respectively. The maximum amount of loans outstanding at any one time for each individual subsidiary will be as follows:

Subsidiary	Amounts		
	1978	1979	1980
The East Ohio Gas Co.	\$150,000	\$300,000	\$450,000
The River Gas Co.	10,000	15,000	20,000
West Ohio Gas Co.	15,000	22,500	30,000
Total	175,000	337,500	500,000

The fees and expenses to be incurred in connection with the proposed transaction are estimated at \$3,100, including charges for services of Consolidated Natural Gas Service Company, Inc. estimated at \$1,000. It is stated that

no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 13, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended or as it may be further amended, may be granted, as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 10249]

FARM BUREAU MUTUAL FUND, INC.

Filing of Application Pursuant to Section 8(f) of the Act for an Order Declaring That Company Has Ceased To Be An Investment Company

MAY 19, 1978.

Notice is hereby given that Farm Bureau Mutual Fund, Inc. ("applicant"), registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management company, has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that the applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Securities and Exchange Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that on April 8, 1977, at a meeting of its stockholders, a proposal was approved to transfer substantially all of applicant's assets to Challenger Investment Fund, Inc. ("Challenger"). On April 28, 1977, applicant transferred substantially all of the assets of applicant to Challenger in consideration for 921,732.404 shares of capital stock of Challenger, each having a per share value of \$9.80 on April 27, 1977.

Applicant states that it retained \$117,147.43 to cover the expenses of liquidation and other known and contingent liabilities. Of the retained sum applicant paid \$30,806.55 for expenses in connection with the merger. Applicant further represents that it has no security holders because all former holders have either received cash for their interests or exchanged their shares for securities of Challenger, that it is not engaging and does not propose to engage in business activities other than winding up its affairs, and that it has not operated as an investment company since April 28, 1977.

Notice is further given that any interested person may, not later than June 12, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon applicant(s) at the address(es) stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 20549]

GULF POWER CO.

Proposed Acquisition of Utility Assets by Operating Subsidiary

MAY 18, 1978.

Notice is hereby given that Gulf Power Co. ("Gulf"), a wholly owned subsidiary of the Southern Co. ("Southern"), a registered holding company, has filed an application and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 9(a)(1) and 10 of the Act as applicable to the following proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Gulf proposes to purchase from Florida Power Corp. ("Florida"), a corporation organized and existing under the laws of the State of Florida, a portion of a certain 115 kV transmission line located in Bay County, Fla. The affected portion of the transmission line, a facility for local distribution of electric power, is located beyond the point of interconnection of the Gulf and Florida systems and is approximately 2.1 miles long. It is stated that Gulf is to pay a cash purchase price of \$146,090 for such portion of the transmission line. The depreciated value of said property is stated to be \$229,614.

It is further stated that said purchase will provide Gulf with access to a substation built and owned by Gulf which is presently connected by tap line to the transmission line. Gulf expects to maintain and operate said transmission line in essentially the same manner and for essentially the same purposes as theretofore maintained and operated by Florida.

It stated that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed acquisition. The fees and expenses to be paid or incurred, directly or indirectly, in connection with the proposed transaction are estimated to be \$3,000.

Notice is further given that any interested person may, not later than June 13, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affi-

davit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 20551]

MIDDLE SOUTH UTILITIES, INC.

Proposal To Enter Into a Revolving Credit Agreement With Banks

MAY 19, 1978.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50(a)(2) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transaction.

Middle South proposes to enter into a \$174.8 million revolving credit agreement ("credit agreement") providing for the issuance and sale by Middle South of its unsecured short-term promissory notes to a group of commercial banks headed by Manufacturers Hanover Trust Co. ("MHTC").

Under the terms of the credit agreement, Middle South may borrow and reborrow until June 29, 1979, up to an aggregate principal amount of \$174.8 million outstanding at any one time, to be evidenced by its unsecured promissory notes payable on June 29, 1979 ("notes"). The notes will be issued to the participating banks to the extent of their respective participations (collectively, the "commitments") as follows:

Name of bank	Designation	Maximum principal amount to be borrowed
Manufacturers Hanover Trust Co.	B	\$49,040,000
The First National Bank of Chicago	A	28,000,000
Bank of America National Trust & Savings Association	B	20,000,000
Continental Illinois National Bank & Trust Co. of Chicago	B	16,000,000
The First National Bank of Boston	B	12,000,000
The Northern Trust Co.	A	8,880,000
Irving Trust Co.	B	8,880,000
Morgan Guaranty Trust Co. of New York	A	8,000,000
North Carolina National Bank	B	8,000,000
First Pennsylvania Bank, N.A.	A	4,000,000
The Fidelity Bank	A	4,000,000
Crocker National Bank	A	4,000,000
Hartford National Bank & Trust Co.	A	4,000,000
Total		174,800,000

Each borrowings and each payment by Middle South will be pro rata among the participating banks according to their respective original commitments, with appropriate adjustment for the interest rate differentials.

The notes issued to those banks designated as A Banks in the credit agreement will bear interest from the date thereof on their unpaid principal amount at a rate per annum equal to the commercial loan rate of MHTC from time to time in effect on borrowings having a 90-day maturity by its most responsible and substantial domestic corporate borrowers; and the notes issued to those banks designated as B Banks in the credit agreement will bear interest from the date thereof on their unpaid principal amount at a rate per annum equal to 110 percent of the MHTC rate. Interest on the notes will be payable quarterly on the last business day of each September, December, March, and June, commencing September 29, 1978, or upon payment of the unpaid principal amount thereof Middle South will agree to pay to each participating bank a commitment fee for the period from June 29, 1978, to and including June 29, 1979 (or any earlier date of termination of the commitments), computed at the rate of one-half of 1 percent per annum on the average daily unused portion of the commitments in effect during the period for which payment is made. Such commitment fee will be payable to each participating bank quarterly on the last business day of each September, December, March, and June, commencing September 29, 1978, and on the date upon which Middle South shall terminate the commitments.

Based upon an MHTC rate of 8 percent per annum, the weighted average

interest cost of the proposed borrowings to be outstanding from the A banks, assuming balances of 10 percent on the borrowings from the A banks, would be 8.89 percent per annum, and the weighted average interest cost of the proposed borrowings to be outstanding from the B banks would be 8.80 percent per annum.

Middle South presently intends to repay the notes out of the proceeds of the sale of additional shares of its common stock. The notes will be prepayable at any time on two business days' notice in whole or in part without premium. Middle South shall have the right at any time on three business days' notice to the participating banks to terminate or, from time to time, to reduce the commitments, at which time it will prepay the notes and accrued interest thereon to the extent that the aggregate principal amount thereof then exceeds the commitments.

The initial borrowing under the credit agreement will be used for the payment of short-term notes issued by Middle South to MHTC and various commercial banks under an existing credit agreement dated as of June 30, 1977, which borrowings were approved by this Commission on June 15, 1977 (HCAR No. 20074). As of February 28, 1978, such notes payable amounted to \$35 million, and it is estimated that at the time the initial borrowing is made under the credit agreement such notes payable will amount to approximately \$87 million. The proceeds of the borrowings under the existing credit agreement were, or will have been, utilized by Middle South to purchase, at various times, the common stocks of certain of its subsidiary companies.

Subsequent borrowings under the credit agreement will be used by Middle South to purchase additional common stock of its subsidiaries. The issuance and acquisition of such common stock will be the subject of separate filings with this Commission by Middle South and the appropriate subsidiary, and these filings will set forth the purpose or purposes toward which the proceeds derived from the sale of such common stock will be used.

It is stated that no special or separate fees, commissions or expenses are anticipated in connection with the proposed transactions. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than June 14, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he

may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of The General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rule 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-14788; File No. SR-MSE-78-13]

MIDWEST STOCK EXCHANGE, INC.

Self-Regulatory Organizations

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. 94-29, 16 (June 4, 1975), notice is hereby given that on May 12, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

Exchange's statement of the terms of substance of the proposed rule change: Options fees schedule charges

Fee	From	To
Annual dues (billed quarterly):		
Options-only member	\$800	\$1,000
Equity member with privilege	500	700
Options-only member equity floor access fee ...	(¹)	200
Badge fee	200	(¹)

¹New fee.
²Eliminated.

EXCHANGE'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of this change is to increase the annual dues for options members, eliminate the badge fee, and establish an equity floor access fee.

The proposed rule change represents an equitable allocation of reasonable dues among its members using its facilities.

The Midwest Stock Exchange, Inc. has neither solicited nor received any comments.

The Midwest Stock Exchange, Inc. believes that no burdens have been placed on competition.

The foregoing rule change has become effective, pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 20, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: May 22, 1978.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 14781]

MUNICIPAL SECURITIES RULEMAKING BOARD

Order Approving Proposed Rule Change

MAY 18, 1978.

On April 3, 1978, the Municipal Securities Rulemaking Board (the "MSRB") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change to change the date on which the MSRB

examination requirement for financial and operations principals (as defined in MSRB rule G-3) becomes effective from July 1, 1978 to January 1, 1979. The purpose of the proposed rule change is to provide persons subject to such requirement additional time to prepare for the examination.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 14643 (Apr. 10, 1978)) and by publication in the FEDERAL REGISTER (43 FR 15821 (Apr. 14, 1978)). All written statements with respect to the proposed rule change which were filed with the Commission and all written communications relating to the proposed rule change between the Commission and any person were made available to the public at the Commission's Public Reference Room (File No. SR-MSRB-78-7).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB and, in particular, the requirements of Section 15B and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc. 78-14832 Filed 5-26-78; 8:45 am]

[8010-01]

[Release No. 14772; File Nos. SR-NSCC-78-4; SR-NSCC-78-5]

NATIONAL SECURITIES CLEARING CORP.

Summary Effectiveness of Proposed Rule Changes

MAY 18, 1978.

On April 24 and May 3, 1978, respectively, National Securities Clearing Corp. ("NSCC") filed, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, proposed rule changes for establishing over-the-counter ("OTC") interfaces. NSCC-78-4 would establish OTC interfaces with Midwest Clearing Corp. ("MCC") and Stock Clearing Corp. of Philadelphia ("SCCP") by authorizing the NSCC National Clearing Corp. Division to act on behalf of other clearing agencies in clearing transactions. NSCC-78-5 would permit, among other things, the NSCC Stock Clearing Corp. Division ("SCC Division") to interpose itself in those interfaces so that MCC and SCCP

would have to relate only to the SCC Division with which they already have listed interfaces. By letter of May 15, 1978, NSCC amended both filings: (1) to make the proposed rule changes temporary rules expiring 6 months after approval by the Commission, and (2) to indicate that NSCC will provide the Commission with such statistics and information as may be necessary to enable the Commission to review the operation of those interfaces.

The Commission has permitted these proposed rules to be put into effect summarily pursuant to section 19(b)(3)(B) of the Act. Section 19(b)(3)(B) permits proposed rule changes to be put into effect summarily if it appears to the Commission necessary for the protection of investors, the maintenance of fair and orderly markets, or the safeguarding of securities or funds. Section 19(b)(3)(B) of the Act requires that proposed rule changes put into effect summarily pursuant to Section 19(b)(3)(B) be filed promptly thereafter in accordance with the provisions of section 19(b)(1).

The Commission's determination to use the summary procedure reflects its belief that the prompt establishment of OTC interfaces is an essential step toward the national clearance and settlement system, which, in turn, is one of the fundamental elements of the national market system. And, section 17A of the Act provides that the "prompt and accurate clearance and settlement of securities transactions . . . [is] necessary for the protection of investors" and the Congressional directive to the Commission "to use its authority under [the Act] to facilitate the establishment of a national clearing system. . . ."

The Commission has already made findings concerning the need for the prompt development of a national clearing system, and the importance of interfaces to that system, in its order granting registration as a clearing agency to NSCC.¹ And, in the Commission's recent hearings regarding the national clearing system on March 7-10 and April 19-20, 1978, considerable public comment was elicited concerning the need for OTC interfaces and the competitive damage to regional clearing agencies resulting from delay in establishing those interfaces.

At those hearings, MCC and SCCP and their participants, who are the beneficiaries of the OTC interfaces, urged the Commission to expedite the establishment of these interfaces and have advised the Commission that the interfaces must be promptly established if they are to maintain competitive positions in the clearing industry.

Since there has already been public comment concerning OTC interfaces,

¹Securities Exchange Act Release No. 13163 (January 13, 1977).

the Commission believes that, although it is permitting the rule changes to become effective prior to obtaining public comment pursuant to section 19(b)(2), it has nonetheless already had the benefit of extensive public comment concerning the subject matter of the rule changes. Moreover, those persons submitting comments after the rule changes are published for comment will be able to structure their comments and make them more meaningful, in light of experience using the new interfaces.

For these reasons, as well as the reasons already articulated in the Commission's Order which indicates the need for the prompt establishment of OTC interfaces, the Commission has found that summary effectiveness of NSCC's rule filings is necessary in the public interest in accordance with the standards set forth in section 19(b)(3)(B) of the Act.

Publication of notice of the proposed rule changes is expected to be made in the FEDERAL REGISTER during the week of May 15, 1978, pursuant to the requirement of section 19(b)(3)(B) of the Act that proposed rule changes put into effect summarily be filed promptly thereafter in accordance with the provisions of section 19(b)(1). The Commission, of course, retains the authority to abrogate these rule changes at anytime within 60 days of their filing, pursuant to section 19(b)(3)(C), if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or to further the purposes of the Act.

Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File Nos. SR-NSCC-78-4 and SR-NSCC-78-5.

By the Commission:

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 34-14755; File No. SR-NYSE-78-21]

NEW YORK STOCK EXCHANGE, INC.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on March 29, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

PROCEDURE OF SELF-REGULATORY ORGANIZATION

The Board of Directors of the New York Stock Exchange at its January 5, 1978 meeting, approved the proposed rule amendments and rescissions. The membership approved the proposed amendments to the Constitution of the Exchange by vote on January 31, 1978. No further Board action or actions by the membership of the Exchange is required.

NYSE'S STATEMENT OF THE PURPOSE OF PROPOSED RULE CHANGES AND THE TERMS AND SUBSTANCE OF THOSE CHANGES

The proposed Amendments conform the Exchange's disciplinary rules to the provisions of the Act, e.g., by incorporating the provisions of 8(d)(1) into Rule 476 (d) and (e), and 6(b)(5) into Rule 476(a) (5) and (6). Other objectives that have been accomplished: (1) where appropriate, Constitutional sections have been integrated into the Rules of the Exchange to form a uniform body of enforcement regulations; and (2) certain procedural requirements have been amended and clarified, as concerning the composition of the Hearing Panel (Rule 476(b)) and a parties' right of review in a Stipulation and Consent procedure (Rule 476(g)).

The Exchange's disciplinary rules and procedures are set forth in Article XIV of the Constitution (concerning members, member organizations, allied members and approved persons) while similar provisions are found in Rule 345 pertaining to registered and nonregistered employees of members. Existing Article XIV is being deleted and a uniform body of enforcement regulations, applicable to all types of members and persons associated with members, has been created eliminating numerous redundancies and ambiguities. Due to the consolidation, the Exchange's enforcement authority will be simplified and clearly stated.

New Article XIV was adopted to comply with section 507(c) of the New York State Not-For-Profit Law which requires that the enforcement authority be provided in the Bylaws of a corporation. The NYSE has no Bylaws so it has provided that authority in its Constitution.

Rules 476 and 477 contain the basic provisions and procedures for the disciplining of members and persons associated with members for violations of the Act and Exchange rules. The proposal resolves questions raised by the Commission, such as requiring that a record be kept of disciplinary proceedings, which has been the Exchange practice (proposed Rule 476(e)).

It would permit the Exchange—in light of subsection 8(d)(1) of the Act—to prohibit or limit a person with respect to access to services offered by

the Exchange or by a member or member organization (proposed Rule 476(d) and (e)). Further, it would establish rights of review for parties to a proceeding involving a consent to a specified penalty, again assuring due process to respondents (proposed Rule 476(g)).

The Act permits the disciplining of members and persons associated therewith only for violations of the Act, the rules thereunder and the rules of the Exchange; reference to violating an "established practice of the Exchange" has been deleted.

Briefly, the proposed changes also include:

Concerning charges relating to floor activities, at least one of the peer-persons on the Hearing Panel must be active on the floor; conversely, charges relating to non-floor activities would require an "upstairs" person on the panel (proposed Rule 476(b)).

The disciplinary nature of a proceeding against a specialist for a substantial or continued failure to engage in a course of dealings to maintain, as far as practicable, a fair and orderly market is recognized. Charges for an alleged violation will be brought in a disciplinary proceeding and the specialist would be subject to any disciplinary action set forth in the rule, including the suspension or cancellation of his registration in his speciality stock (proposed Rule 476(a) and (b)).

The maximum fine has been increased from a maximum of \$25,000 (\$100,000 for member organizations) per disciplinary action to \$25,000/\$100,000 for each charge of which the respondent has been found guilty (proposed Rule 476(a)).

The right of the Department entering into a Consent to appeal a Hearing Panel's reduction of a consented to penalty has been clarified (proposed Rule 476(g)).

Procedures for the determination of evidentiary and procedural matters have been incorporated in the rules (proposed Rule 476(c)).

Appeals to the Board of Directors have been limited to consideration of the record before the Hearing Panel except in cases wherein new evidence is alleged (proposed Rule 476(f)).

The rule adopts what has been an Exchange practice, i.e., making a record of all disciplinary proceedings (proposed Rule 476(e)).

The period of time for requesting a review has been extended from "within 20 days after notification of the determination" of 25 days from "service", to make at the time more easily determinable (proposed Rule 476(f)).

Procedures for effecting service has been defined in detail (proposed Rule 476(d)).

The Exchange could retain jurisdiction over a former member or persons

associated therewith provided the former member or associated person has been given notice, either prior to or within 90 days after the time of his employment, that he is the subject of an investigation by the exchange (proposed Rule 477).

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

The proposed Amendments to the Constitution together with the consolidation of rule provisions into a single rule, establishes a cohesive standard and a fair disciplinary procedure for the Exchange community, enabling the Exchange to more simply and equitably enforce compliance by its members and persons associated with its members, with the Act and the rules and regulations thereunder.

The proposed amendments would act to prevent fraudulent and manipulative acts by those subject to the rules; and under the spirit and letter of the rules, the amendments would promote just and equitable principles of trade while serving to facilitate the protection of investors and the public interest.

The consolidation and simplification of the Exchange Rules, as proposed in Rules 476 and 477, established under the authority of sections 6(b) and (d) of the Act, provides for the disciplining of members and persons associated with members for violations of the Act and rules of the Exchange.

The proposed constitutional and rule changes implement section 8(d) of the Act by imposing the requirements of the said Act, as:

- (a) Specific charges are to be levied—proposed Rule 476(d);
- (b) Notice of proceeding to be given respondent—proposed Rule 476(d);
- (c) Opportunity for fair hearing afforded respondent—proposed Rule 476(d);
- (d) Record of proceeding to be kept—proposed Rule 476(e);
- (e) Any disciplinary action to be supported by an explanatory statement—proposed Rule 476 (e) and (g).

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGES

Comments were not solicited on this proposal.

BURDEN ON COMPETITION

This proposal will not impose any burden on competition.

On or before June 29, 1978, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule changes, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 20, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MAY 12, 1978.

[Release No. 14780]

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

MAY 18, 1978.

On March 22, 1978, the New York Stock Exchange, Inc. (the "NYSE") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change which would limit the term of service of public representatives on the NYSE Board of Directors to three consecutive terms of two years each. The proposed limitation on service of public representatives is the same as is presently in effect for members or allied members of the NYSE who are directors on the NYSE Board of Directors.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 14642 (Apr. 10, 1978)) and by publication in the FEDERAL REGISTER (43 FR 15822 (Apr. 14, 1978)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NYSE and, in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the

above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 14787]

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

MAY 19, 1978.

On April 5, 1978, the New York Stock Exchange, Inc. (the "NYSE") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change, which would permit persons who are not citizens of the United States to become directors on the NYSE Board of Directors.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 14657 (Apr. 12, 1978)) and by publication in the FEDERAL REGISTER (42 FR 16581 (Apr. 19, 1978)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NYSE and, in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

PACIFIC RESOURCES, INC.

Order Amending Effective Date of Withdrawal From Listing and Registration and Extending the Exemption of Certain Persons and Securities From the Provisions of Rule 17a-15

MAY 18, 1978.

On June 22, 1977 we approved the application of Pacific Resources, Inc. ("PRI") to withdraw its securities from listing and registration on the Pacific Stock Exchange Inc. ("PSE"). We prescribed as a term of that delist-

¹See Securities Exchange Act Rel. No. 13657 (June 22, 1977); 42 FR 33398 (June 30, 1977).

ing that it not become effective until the time our determination with respect to the PSE's application for unlisted trading privileges in PRI common stock, but in no event later than 120 days after June 22, 1977.² On October 20, 1977 we amended the effective date of the delisting by extending it to November 21, 1977.³ That date was extended again on November 21 until January 23, 1978,⁴ on January 23, 1978 until March 24, 1978,⁵ and on March 22, 1978 until May 19, 1978.⁶

We found that the initial delay in the effective date of the delisting and the extension until May 19, 1978 were necessary for two reasons. First, a temporary disruption in trading in PRI stock on the PSE would result in a lessening of potential competition among dealers and between exchange markets and markets other than exchange markets during any interim period after delisting, but before unlisted trading privileges are (if at all) granted. Second, we initially had noted that if the delisting were effective immediately, PRI stock would not be marginable for a period of several months until it was included on the Federal Reserve Board's "List of OTC Margin Stocks."

Our ultimate determination on the PSE application for unlisted trading privileges in PRI stock involves the consideration of several major policy issues including, among others, whether sufficient progress has been made toward the development of a national market system to satisfy the standards of Section 12(f)(2), whether the progress contemplated by Congress in adopting that Section is met by PSE's

²The PSE filed an application, pursuant to Section 12(f)(1)(C) of the Securities Exchange Act of 1934, for unlisted trading privileges in PRI stock on March 25, 1977 in response to PRI's application to withdraw that security from listing and registration on the PSE (filed March 23, 1977). Concurrently with our order withdrawing PRI stock from listing, we ordered a hearing on the PSE application. See, Securities Exchange Act Rel. No. 13658 (June 22, 1977); 42 FR 33402 (June 30, 1977).

³See Securities Exchange Act Rel. No. 14078 (October 20, 1977); 42 FR 56824 (October 28, 1977).

⁴See Securities Exchange Act Rel. No. 14195 (November 21, 1977); 42 FR 61100 (December 1, 1977).

⁵See Securities Exchange Act Rel. No. 14409 (January 23, 1978); 43 FR 4303 (February 1, 1978).

⁶See Securities Exchange Act Rel. No. 14589 (March 22, 1978); 43 FR 13454 (March 30, 1978).

The maintenance of credit, extended before a security ceases to be marginable, would not be affected by the delisting of that security. [Section 220.7(b) of Regulation T (12 CFR 220.7(b)). The extension of new credit, however, would be prohibited under those circumstances, until the security was included on the Federal Reserve Board's "List of OTC Margin Stocks" ("Margin List").

rescission of its off-board trading rules as they apply to transactions in PRI common stock, whether that progress and the statutory goals of eliminating unnecessary burdens on competition are satisfied by existing communications facilities and provisions for access between the PSE and over the counter ("OTC") markets, and whether last sale reporting of all PRI stock transactions would be appropriate should unlisted trading privileges be granted.

We have not yet resolved these issues insofar as they arise with respect to our consideration of the PSE application for unlisted trading privileges and, accordingly, we have been unable to complete our deliberations concerning the hearing on that application. We believe, however, that the purposes of the Act, particularly those which encourage competition among dealers acting as market makers in a security and between markets in that security,⁷ make it appropriate for us to permit the existing competition in PRI stock to continue during the interim period necessary for us to conclude our deliberations. Accordingly, for the reasons enunciated in the June 22 delisting order, and as stated above, we find it necessary to extend until August 4, 1978 the effective date of removal of PRI stock from listing and registration on the PSE.

PRI stock has been traded both on the PSE and OTC since issuance of our June 22 order.⁸ At that time we also exempted, for a period of up to 120 days, the National Association of Securities Dealers, Inc. ("NASD") and all brokers and dealers from the reporting requirements of Rule 17a-15 under the Securities Exchange Act of 1934 relating to last sale reports of OTC transactions in the common stock of PRI. The duration of that exemption was amended in our extension orders to May 19, 1978. Until we make a determination on the PSE's application for unlisted trading privileges in PRI stock, we believe that there will be uncertainty as to whether real-time reporting in PRI stock will be required as a general matter and that a continued exemption from Rule 17a-15 is appropriate.⁹ We continue to believe it is not necessary in the public interest or for the protection of investors to require members of the PSE, (who may

⁷See, e.g., Section 11A(a)(1)(C)(ii).

⁸The PSE has exempted from its off-board trading restrictions securities, such as PRI stock, which are both the subject of a delisting application and in which the PSE has applied for unlisted trading privileges. See, Securities Exchange Act Rel. No. 13658 (June 22, 1977); 42 FR 33400 (June 30, 1977).

⁹If the unlisted trading privileges application of the PSE is denied, PRI stock will be traded solely OTC and, therefore, will not be subject to current reporting under Rule 17a-15.

trade PRI stock in the OTC market) and other brokers and dealers to develop and implement reporting procedures for transactions in this single security during the time before we make a determination as to the PSE's application. Accordingly, we have determined to, and hereby exempt, until August 4, 1978, the NASD and all brokers and dealers from the requirements of Rule 17a-15 relating to last sale reports of OTC transactions in the common stock of PRI.¹⁰

Accordingly, it is hereby ordered, that our order of June 22, 1977 (as amended by our October 20, 1977; November 21, 1977; January 23, 1978; and March 22, 1978 orders) granting PRI's application to withdraw from listing and registration on the PSE be, and it hereby is, amended as set forth herein.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 34-14789; File No. SR-PHLX-78-6]

PHILADELPHIA STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on May 3, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Philadelphia Stock Exchange ("PHLX") proposes to amend Rules 1047 and 1012 as follows: (brackets indicate deletions; additions are italicized).

Trading Rotations, Halts and Suspensions

Rule 1047 (a) Trading rotations for each class of option contracts that has been approved for trading on the Exchange shall be employed at the opening and at the close of each business day and at the close of trading on the last trading day with respect to expiring option contracts.

- (a) (b) (No change)
- (b) (c) (No change)

¹⁰This exemption does not prohibit those persons individually from complying voluntarily with Rule 17a-15 as long as such broker or dealer complies with the Rule in a uniform and consistent manner.

Commentary

.01 For purposes of this rule, a trading rotation is a series of very brief time periods during each of which bids, offers and transactions in only a single, specified option contract can be made. The Exchange may direct that one or more trading rotations be employed on any business day to aid in producing a fair and orderly market and shall specify, for each rotation so employed, the particular option contracts to be included and the sequence of such option contracts in the rotation. Trading rotations, which shall be conducted by the Specialist acting in such specialty options, shall be conducted in the following manner:

(a) Opening Rotations. The opening rotation in each class of options shall be held promptly following the opening of the underlying security on the principal exchange where it is traded, with the Specialist proceeding concurrently in the following manner: Taking each class of options in which he is acting in turn, the Specialist should first open the one or more series of options of a given class having the nearest expiration, then proceed to series of options having the next most distant expiration, and so forth, until all series have been opened. Except as otherwise provided by the Exchange, if both puts and calls covering the same underlying security are traded, the Specialist shall determine which type of option should open first, and may alternate the opening of put series and call series or may open all series of one type before opening any series of the other type, depending on current market conditions.

(b) Closing Rotations. The closing rotation in each class of options shall be commenced following the close of trading hours on the Exchange with the Specialist proceeding concurrently in the following manner: Taking each class of option contracts in which he is acting in turn, the Specialist should close the one or more series of each class having the nearest expiration; then proceed to those series of each class having the next most distant expiration, and so forth, until all series have been closed. Except as otherwise provided by the Exchange, if both puts and calls covering the same underlying security are traded, the Specialist may determine which type of option should close first, and may alternate the closing of put series and call series or may close all series of one type before closing any series of the other type, depending on current market conditions. [01] .02 (No change)

Series of Options Open for Trading

Rule 1012. (a) (No change)

(b) [No transaction in option contracts of a particular series of options shall be effected after 3 p.m. on the business day prior to the expiration date of that series.] On the business

day prior to the expiration date of particular series of options, a closing rotation (as defined in Commentary .01 to Rule 1047 for such series shall commence at 3 p.m.

- (c) (No change)
- (d) (No change)

The purpose of the proposed rule amendments is to (i) reflect Exchange practice of conducting daily opening trading rotations in each options class, (ii) adopt a new policy to permit the utilization of a closing rotation in each expiring options series at 3 p.m. on the last day of trading prior to expiration, and (iii) adopt new policy to permit the utilization of daily trading rotations in each options class to begin following the close of trading at 4 p.m.

A "trading rotation" consists of calling for bids and offers from a trading crowd for each series of options, one at a time, under the supervision of the specialist assigned to the option class. The purpose of such rotations is to provide, in the case of an opening rotation, for the orderly commencement of trading in options series daily, and in the case of a closing or expiration rotation, for the orderly termination of trading both on a daily basis as well as for expiring series of options on the business day before expiration. Use of trading rotations provides an effective means of executing orders in an orderly fashion at the opening and at the close of trading. The PHLX proposals are designed to promote industry uniformity among options exchanges since trading rotations are presently conducted on the Chicago Board Options Exchange, the Pacific Stock Exchange and the Midwest Stock Exchange.

The basis for the proposed rule change is found in Section 6(b)(5) of the Securities Exchange Act of 1934 (the "1934 Act") as amended, which provides in pertinent part, that the rules of the Exchange be designed to promote just and equitable principles of trade and protect investors and the public interest.

No comments have been received or solicited from members and others on the proposed rule change.

The proposed rule changes will not impose any burden on competition.

On or before July 5, 1978 or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

- (a) By order approve such proposed rule change, or
- (b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and argu-

ments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 20, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MAY 22, 1978.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Delegation Order No. 95 (Rev. 4)]

ASSISTANT TO THE COMMISSIONER (PUBLIC AFFAIRS) ET AL.

Delegation of Authority

AGENCY: Internal Revenue Service, Treasury.

ACTION: Delegation of authority.

SUMMARY: Authority to authorize or approve use of first-class air accommodations is limited. The text of the Delegation Order appears below.

EFFECTIVE DATE: May 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Kirby L. Baker, A.F.S., 1111 Constitution Avenue NW., Room 3333, Washington, D.C. 20224, 202-566-4851 (Not toll free).

This document does not meet the criteria for significant Regulations set forth in paragraph 8 of the proposed Treasury Directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978.

JOSEPH F. KUMP,
Fiscal Management Officer.

[Order No. 95 (Rev. 4)]

AUTHORIZATION FOR USE OF FIRST-CLASS AIR ACCOMMODATIONS, SUPERIOR RAIL AND SHIP ACCOMMODATIONS, AND TO APPROVE TRAVEL VOUCHERS

1. The authority vested in the Commissioner of Internal Revenue by Treasury De-

partment Order No. 72, revised, is hereby delegated to the officials designated below, to direct official travel and administratively approve vouchers claiming reimbursement therefor when performed under the Current Consolidated Travel Authorization by (a) themselves (except Fiscal Management Officer), and (b) personnel under their supervision and control.

Assistant to the Commissioner (Public Affairs)

Assistant Commissioners
Division Directors
Fiscal Management Officer
Director of International Operations
Director, National Computer Center
Director, Data Center
Chief Counsel
Deputy Chief Counsel
Regional Commissioners
Assistant Regional Commissioners
Regional Inspectors
Assistant Regional Inspectors
Regional Counsel
Assistant Regional Counsel
District Directors
Service Center Directors

a. The authority to direct official travel and administratively approve travel vouchers may be only redelegated by the officials specified in this order.

b. The authority to direct one's own official travel or administratively approve one's own travel voucher may not be redelegated.

2. The officers named in item 1 above may authorize or approve the use of first-class air accommodations by themselves (except Fiscal Management Officer), employees and, where applicable, their immediate families only when all regularly scheduled flights between the authorized origin and destination points (including connection points) provide only first class accommodations.

a. This authority may not be redelegated.
3. The officers named in item 1 above may authorize or approve the use of accommodations superior to the lowest first-class rate for transportation by rail or ship by themselves (except Fiscal Management Officer), employees and, where applicable, their immediate families, for reasons defined in Chapter 1 of the Federal Travel Regulations.

a. This authority may not be redelegated.
4. This Order supersedes Delegation Order No. 95 (Rev. 3) issued March 16, 1973.

JEROME KURTZ,
Commissioner.

MAY 19, 1978.

Internal Revenue Service

PUBLIC INSPECTION OF WRITTEN DETERMINATIONS

Intention To Disclose

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of intention to disclose.

SUMMARY: This document provides notice that the Service intends to make open to the public inspection certain written determinations. This notice also explains how any person may determine whether any of the de-

scribed written determinations pertain to that person, and explains the procedures that person may follow if there is disagreement regarding the proposed deletions.

DATES: Persons wanting to find out whether their particular written determinations are among those to be made open to public inspection pursuant to this notice are requested to contact the Service by June 14, 1978. Requests for additional deletions must be submitted by July 5, 1978. A petition in the United States Tax Court must be filed by August 14, 1978. Except for the disputed portion of any document that is the subject of an action brought in the United States Tax Court, the written determinations described in this notice will be made open to public inspection on October 2, 1978.

ADDRESS: Any questions or correspondence regarding this notice should be sent to: Internal Revenue Service, Attention: T:FP:R, Ben Franklin Station, P.O. Box 7604, Washington, D.C. 20044.

FOR FURTHER INFORMATION CONTACT:

George E. Freeland of the Rulings Disclosure Branch, Tax Forms and Publications Division, Office of the Assistant Commissioner, Technical; 202-566-4378 or 202-566-6272.

SUPPLEMENTARY INFORMATION: Section 6110(h) of the Internal Revenue Code of 1954 provides that certain written determinations (letter rulings and technical advice memoranda) issued in response to requests submitted before November 1, 1976, shall be open to public inspection. Accordingly, the Service is preparing to open to public inspection the general written determinations issued after July 4, 1967 (except those issued in response to requests submitted after October 31, 1976), that originated in the Corporation Tax Branch, Corporation Tax Division, Office of the Assistant Commissioner (Technical), or predecessor branches, and that involve issues falling within the jurisdiction of that Branch. A general written determination is one the Commissioner has not determined to have significant reference value.

Issues falling within the jurisdiction of the Corporation Tax Branch are those involving income taxes and earnings and profits of corporate taxpayers.

The Branch also has jurisdiction over issues involving both corporate and noncorporate taxpayers with respect to certain other matters, including:

- (a) The income of States, municipalities, etc.;
- (b) Amortization of pollution control devices;

(c) Allocation of income and deductions among related taxpayers;
(d) Inventories;
(e) Research and experimental expenditures;

(f) Sales of low income housing projects;

(g) Cooperatives and their patrons, including exemption of farmers' cooperatives under section 521 of the Code;

(h) Shipowners' protection and indemnity associations under section 526 of the Code;

(i) Regulated investment companies and their shareholders;

(j) Controlled foreign corporations and their U.S. shareholders;

(k) Foreign tax matters that involve determinations of sources of income;

(l) Nonresident alien individuals and partnerships or alien residents of Puerto Rico, and withholding of tax on nonresident aliens and foreign corporations;

(m) Compensation of employees of foreign governments or international organizations;

(n) Income affected by treaty, and other matters involving the interpretation or application of tax treaties, except estate and gift tax treaties;

(o) Foreign tax credit;

(p) Earned income from sources without the United States and income from possessions;

(q) Lease versus sale matters and other financing arrangements;

(r) Certain investment credit matters;

(s) Small business investment stock company matters;

(t) Mitigation of effect of renegotiation of government contracts;

(u) Prior to October 1, 1973, matters involving the interest equalization tax.

All general written determinations issued during the prescribed time periods discussed in this notice and originating in this branch or predecessor branches are intended to be within the scope of this notice.

DELETIONS

Section 6110(c) of the Code requires the Internal Revenue Service to delete certain information from the documents described in this notice. The Service intends to delete names, addresses, and taxpayer identifying numbers, and will also attempt to recognize and delete other identifying details, trade secrets, and the other information described in section 6110(c), before making the written determination open to public inspection.

Persons to whom the written determinations described in this notice pertain (or successors in interest, executors, or authorized representatives of these persons) may contact the Internal Revenue Service to find out whether their particular written determinations are among those to be made

open to public inspection pursuant to this notice. These persons may request a copy of their written determinations with proposed deletions indicated. Such requests should be submitted by June 14, 1978. Such requests must indicate the specific name of the party to which the written determination pertains, for example, a corporation acting on behalf of one or more subsidiaries must indicate the name of such subsidiary or subsidiaries. If such a person disagrees with the proposed deletions, that person may indicate any additional information that person believes should be deleted. Any request for additional deletions must be submitted by July 5, 1978, and must include a statement indicating which of the exemptions provided in section 6110(c) of the Code is applicable to each additional deletion requested. If the Service feels it cannot make any or all of the additional deletions requested, the Service will so advise the requester. The requester will then have the right to file a petition in the United States Tax Court. This petition must be filed by August 14, 1978.

ADDITIONAL DISCLOSURE

After the deleted copy of a written determination is made open to public inspection in the National Office Reading Room, any person may request the Service to make additional portions of the written determination open to public inspection. If the Service receives a request that involves disclosure of names, addresses, or taxpayer identifying numbers, the Service will deny the request. If the request involves disclosure of anything other than names, addresses, or taxpayer identifying numbers, the Service will contact the person to whom the written determinations pertain before further action is taken.

BACKGROUND FILE DOCUMENTS

After the deleted copy of a written determination is made open to public inspection, any person may request copies of related background file documents. Notice will be provided to the person to whom the written determination pertains if a request for related background file documents is received. The notice and any other notice or correspondence relating to public inspection of written determinations will be mailed to the latest address in the Service's written determination file, unless a later address is provided to the Service in connection with these matters.

The written determinations described in this notice will be made open to public inspection by being placed in the National Office Reading Room, Room 1564, Internal Revenue Service Building, 1111 Constitution Avenue NW., Washington, D.C., on [the Monday preceding the 121st day

after the issuance of this notice]. However, the disputed portion of any document that is the subject of an action brought in the United States Tax Court shall not be made available until after a court determination regarding such portion is made.

JEROME KURTZ,
Commissioner of Internal Revenue.

VETERANS ADMINISTRATION

CENTRAL OFFICE EDUCATION AND TRAINING REVIEW PANEL

Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92-463 that a meeting of the Central Office Education and Training Review Panel, authorized by Section 1790(b), Title 38, United States Code, will be held in Room A53, Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, D.C. on June 14, 1978, at 10 a.m. The meeting will be held for the purpose of reviewing the decision of the Director, Veterans Administration Regional Office, Nashville, Tenn., that educational assistance allowance to all veterans and eligible persons presently enrolled in the United Schools, Inc., 4428 Sutherland Avenue, P.O. Box 11028, Knoxville, Tenn. 37919 be terminated effective December 31, 1977.

The meeting will be open to the public up to the seating capacity of the conference room. Because of the limited seating capacity, it will be necessary for those wishing to attend to contact Mr. Bernard D. Duber, Chief Field Operations, Education and Rehabilitation Service, Veterans Administration Central Office, phone 202-389-2850 prior to June 7, 1978.

Dated: May 24, 1978.

MAX CLELAND,
Administrator.
[FR Doc. 78-14884 Filed 5-28-78; 8:45 am]

[8320-01]

COOPERATIVE STUDIES EVALUATION COMMITTEE

Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92-463 that a meeting of the Cooperative Studies Evaluation Committee, authorized by 38 U.S.C. 4101, will be held at the Burlington Hotel, Vermont Avenue, at Thomas Circle NW., Washington, D.C., on June 26, 27, and 28, 1978. The meeting will be for the purpose of reviewing proposed cooperative studies and advising the Veterans Administration on the relevance and feasibility of

the studies, the adequacy of the protocols, the scientific validity and the technical details, including involvement of human subjects. The committee advises the Director, Medical Research Service, through the Chief of the Cooperative Studies Program, on its findings.

The meeting will be open to the public up to the seating capacity of the room from 8 to 8:30 a.m., June 26, to discuss the general status of the program. To assure adequate accommodations, those who plan to attend should contact Dr. James A. Hagans, Coordinator of the Committee, Veterans Administration Central Office, Washington, D.C., 202-389-3702, prior to May 26.

The meeting will be closed from 8:30 a.m. to 4:30 p.m., June 26, and all day on June 27 and 28 for consideration of specific proposals in accordance with provisions set forth in subsection 10(d) of Pub. L. 92-463, as amended by Pub. L. 94-409, and subsection 552b(c)(6) of Title 5, United States Code. During this portion of the meeting, discussion and decisions will deal with qualifications of personnel conducting the studies and the medical records of patients who are study subjects, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dated: May 23, 1978.

MAX CLELAND,
Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 689]

ASSIGNMENT OF HEARINGS

MAY 24, 1978.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 2860, Sub 86, National Freight, Inc. (Show cause proceeding No. MC-2860 Sub-Nos. E-20 and E-37) and MC 2860 Sub 166, National Freight, Inc., are now assigned for hearing July 25, 1978, at the Offices of the Interstate Commerce Commission, Washington, D.C.

AB 43 Sub-No. 49, Illinois Central Gulf Railroad Co. Abandonment Between Kosciusko and Fentress, in Attala and Choctaw Counties, MS is assigned for hearing June 26, 1978, at Kosciusko, MS and will be held at court room, Attala County Courthouse.

MC 13027, Sub-No. 27, Short Way Lines, Inc., is assigned for hearing June 26, 1978 at Toledo, OH and will be held at Room 418 Federal Ofc. Bldg., 234 Summit St. MC 111302 Sub 99, Highway Transport, Inc., is now assigned for continued hearing July 6, 1978 (1 day) at Nashville, TN, at a location to be later designated.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

[Finance Docket No. 28749]

CHICAGO AND NORTH WESTERN TRANSPORTATION CO.

Trackage Rights Over Chicago, Milwaukee, St. Paul and Pacific Railroad Co. in Marathon County, Wis.

Chicago and North Western Transportation Co. (C&NW), 400 West Madison Street, Chicago, Ill. 60606, hereby gives notice that on the 3rd of May, 1978, it filed with the Interstate Commerce Commission at Washington, D.C., an application for approval of an agreement for the acquisition by C&NW of trackage rights over mainline track of the Chicago, Milwaukee, St. Paul and Pacific Railroad Co. (MILW) between Schofield and Rothschild, Marathon County, Wis., a distance of approximately 1.58 miles. The proceeding has been assigned Finance Docket No. 28749. The applicant is represented by Ms. Anne E. Valle, Attorney, 400 West Madison Street, Chicago, Ill. 60606.

C&NW presently operates over the MILW trackage between Rothschild and Schofield by virtue of a temporary service order. Under the proposed plan, C&NW trains would continue to operate over the line from MILW milepost 88.03, near Schofield, to MILW milepost 86.45, near Rothschild, pursuant to a trackage rights agreement between C&NW and MILW. Access and egress from the involved line would be provided by existing connecting trackage approximately 1,237 feet in length.

In the opinion of the applicant, Commission authorization for acquisition of the trackage rights would not significantly adversely affect the quality of the human environment. The applicant states that coordination of through train movements would have a beneficial effect on the environment, and that approval would not adversely affect shippers or receivers. As a result of C&NW relocating its route over the MILW trackage the State of Wisconsin will avoid spending approximately

\$1,000,000 in constructing a highway underpass under the existing parallel C&NW line at Schofield.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28749, and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than July 14, 1978. Such written comments shall include the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to participate formally in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation, and the Attorney General.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 83]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 23, 1978.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest

shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2661 (Sub-No. 17TA), filed April 19, 1978. Applicant: INDIAN TRAILS, INC., 109 E. Comstock Street, Owosso, MI 48867. Applicant's representative: Charles A. Webb, 1250 Connecticut Avenue NW., Suite 600, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle in charter and special operations, in executive coach service, between points beginning and ending in MI and extending to points in the United States, for 180 days. Supporting shippers: There are approximately (6) statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Timothy S. Quinn, District Supervisor, Interstate Commerce Commission, 604 Federal Building, and U.S. Courthouse, 231 W. Lafayette Blvd., Detroit, MI 48226.

No. MC 41406 (Sub-No. 76TA), filed April 13, 1978. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., 7105 Kennedy Avenue, P.O. Box 2176, Hammond, IN 46323. Applicant's representative: Alki E. Scopellitis, 815 Merchants Bank Building, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing, building and insulating materials* (except iron and steel articles and commodities in bulk), from the facilities of CertainTeed Corp. at or near Avery, OH to IL, IN, KY, Miami, NY, PA, WV, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: CertainTeed Corp., Shelter Materials Group, David H. Silvernail, Manager, Transportation Operations, P.O. Box 860, Valley Forge, PA 19482. Send protests to: Transportation Assistant Patricia A. Roscoe, Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1386, Chicago, IL 60604.

No. MC 51146 (Sub-No. 589TA), filed April 16, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, 2661 South Broadway, Green Bay, WI 54306. Applicant's representative: John R. Patterson, 2480 E. Commercial Boulevard, Ft. Lauderdale, FL 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured or dealt in by manufacturers of containers and related accessories and equipment, materials and supplies* used in the manufacture of the above described commodities, between the facilities of Brockway Glass Co., Inc., located in Washington County, PA, Muskingum County, OH and Madison County, IN and Johnson, Linn, Clinton, Scott, and Muscatine Counties in the State of IA, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Brockway Glass Co., Inc., McCullough Avenue, Brockway, PA 15824, (J. W. Pennington). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

No. MC 144645TA, filed April 13, 1978. Applicant: ROBERT C. HANSEN, d.b.a. ROBERT HANSEN TRUCKING, Route 5, Box 282, Delavan, WI 53115. Applicant's representative: Wm. C. Dineen, 710 North Plankinton Avenue, Milwaukee, WI 53203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Electrical copper wire*, from the facilities of techbestos, Inc., at or near Moonachie, NJ, to points in IL, IN, KY, MI, MN, OH, and WI, under a continuing contract, or contracts, with Techbestos, Inc., for 180 days. Supporting shipper(s): Techbestos, Inc., West Commercial Avenue, Moonachie, NJ 07074. (Thomas Arciolo) Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

PASSENGER CARRIER

No. MC 1515 (Sub-No. 247TA), filed March 23, 1978. Applicant: GREYHOUND LINES, INC., Greyhound Tower, Phoenix, AZ 85077. Applicant's representative: W. L. McCracken, Assistant General Counsel, Greyhound Tower, Phoenix, AZ 85077 602-248-5678. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage and express and newspapers* in the same vehicle with passengers: Between the junction of Interstate Hwy 80 and CA Hwy 12 and Lodi, CA; from the junction of Interstate Hwy 80 and CA Hwy 12 at Fairfield, CA over CA Hwy 12 via Rio Vista to Lodi, CA and return over the same route, serving all intermediate points. Restriction: No passengers will be transported to or from Travis Air Force Base, CA or between Fairfield

and Sulson City, CA. Condition: This authority shall be of no further force and effect upon termination of the carrier's contract with the city of Rio Vista, CA. Greyhound Lines, Inc. is seeking the requested authority, so as to provide service to the city of Rio Vista, CA pursuant to the terms of a contract between the city of Rio Vista and Greyhound. The city of Rio Vista, CA has applied for and been granted funds to support an intercity bus service through Rio Vista. Without such support, service through Rio Vista would not be practicable because patronage would probably not be sufficient for such operations to be self-supporting.

As a result of the grant of funds, the city of Rio Vista has requested that Greyhound provide the above described intercity, supported bus service, and Greyhound will provide such service conditioned upon a continuing contract between the City of Rio Vista and Greyhound. The authority requested herein will allow Greyhound to afford those passengers and shippers residing at Rio Vista, CA or in the area of the proposed route with public, intercity, interstate transportation where such service is now non-existent. However, Greyhound Lines, Inc. will only conduct such operations as long as there is in effect a contract between the city of Rio Vista and Greyhound. For 180 days. Applicant intends to tack with Docket No. MC 1515 Sub 7. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): city of Rio Vista, CA, George E. Alphin, City Administrator, One Main Street, Rio Vista, CA 94571. Send protests to: Andrew V. Baylor, District Supervisor, Room 2020 Federal building, 230 North First Avenue, Interstate Commerce Commission, Phoenix, AZ 85025.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 81]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 19, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the

filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 8600 (Sub-No. 36TA), filed April 21, 1978. Applicant: WERNER CONTINENTAL, INC., 2500 West County Road C, Roseville, MN 55113. Applicant's representative: A. D. Weese, 2500 West County Road C, Roseville, MN 55113. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* from Aliquippa and Pittsburgh, PA and their commercial zones to points in the states of IN, OH, KY, and TN, for 180 days. Supporting shipper: Jones & Laughlin Steel Corp., 1600 West Carson Street, RM 121, Pittsburgh, PA 15263. Send protests to: Delores A. Poe, transportation assistant, ICC, Bureau of Operations, 414 Federal Building and U.S. Court House, 110 South 4th Street, Minneapolis, MN 55401.

No. MC 59534 (Sub-No. 3TA), filed April 24, 1978. Applicant: A. A. STAR TRANSFER CO., P.O. Box 173, Aberdeen, WA 98520. Applicant's representative: George R. LaBissoniere, 1100 Norton Bldg., Seattle, WA 98104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Used household goods, unaccompanied baggage, personal effects, crated as defined by the Commission*, between points in Grays Harbor and Pacific Counties, WA, for 180 days. Supporting shipper: Department of Defense, Regulatory Law Office, Office of the Judge Advocate General, Department

of the Army (DAJA-RL), Washington, DC 20310. Send protests to: Hugh H. Chaffee, District Supervisor, Bureau of Operations, ICC, 858 Federal Building, Seattle, WA 98174.

No. MC 63417 (Sub-No. 147TA), filed March 29, 1978, and published in the FEDERAL REGISTER issue of May 9, 1978, and republished as corrected this issue. Applicant: BLUE RIDGE TRANSFER CO., INC., P.O. Box 13447, Roanoke, VA 24034. Applicant's representative: William E. Bain, P.O. Box 13447, Roanoke, VA 24034. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture and furniture parts*, from Sanford, NC, and Roanoke, VA, to points in AZ, CA, CO, ID, MT, NV, NM, OR, UT, WA, and WY, for 180 days. Supporting shipper(s): Singer Furniture Co., P.O. Box 5337, Roanoke, VA 24012. Send protests to: Herman R. White, Acting District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 210, Roanoke, VA 24011.

No. MC. 72243 (Sub-No. 57TA), filed February 8, 1978. Applicant: THE AETNA FREIGHT LINES, INC., P.O. Box 350, Warren, OH 44482. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, 425 13th Street NW., Washington, DC 20004. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel and iron or steel articles*, from points in NY (except Lackawanna and Buffalo) and points in PA (except Coatesville, Bethlehem, Wilkes-Barre, and Johnstown) to points in IN; (2) *Iron and steel articles* fabricated beyond the primary stage and requiring specialized handling or rigging because of size or weight, from points in IN (except Portage, Gary, East Chicago, Muncie, Burns, Harbor, Madison and Hammond) to points in NY, PA, WV (except Weirton) and OH; (3) *Iron and steel articles* fabricated beyond the primary stage and requiring specialized handling and rigging because of size and weight; (a) Between points in IL on and south of U.S. Hwy 36 on the one hand, and, on the other, points in NY and Greene, Fayette and Washington Counties, PA; (b) Between points in IL on and south of a line beginning at the IL-IN State line extending along U.S. Hwy 30 to junction I-Hwy 80, then along I-Hwy 80 to junction U.S. Hwy 61, then along U.S. Hwy 61 to the IA-IL State line, points in IA on and south of a line beginning at the IA-IL State line extending along U.S. Hwy 61 to junction U.S. Hwy 92, then along U.S. Hwy 92 to junction U.S. Hwy 1, then along U.S. Hwy 1 to junction U.S. Hwy 34, then along U.S. Hwy 34 to junction U.S. Hwy 2, then along U.S. Hwy 2 to

junction U.S. Hwy 5, then along U.S. Hwy 5 to IA-MO State line, on the one hand, and, on the other, points in OH, NY and PA; (c) Between points in WV, on the one hand, and, on the other, points in IL, on and south of a line beginning at the IL-IN State line extending along U.S. Hwy 30 to junction I-Hwy 80, then along I-Hwy 80 to junction U.S. Hwy 29, then along U.S. Hwy 29 to junction I-Hwy 74, then along I-Hwy 74 to junction U.S. Hwy 34, then along U.S. Hwy 34 to the IL-IA State line; (d) Between points in IA and WI within 300 miles of Chicago, IL, on the one hand, and, on the other, points in WV; (e) Between points in WI within 300 miles of Chicago, IL, on the one hand, and, on the other, points in OH, PA, and NY; (4) *Iron, steel and iron or steel articles which require special equipment by reason of size or weight and heavy machinery*, between points in CT and MA, on the one hand, and, on the other, points in NY and points in PA on, north and east of a line beginning at Lake Erie extending along U.S. Hwy 8 to junction U.S. Hwy 6, then along U.S. Hwy 6 to junction U.S. Hwy 219, then along U.S. Hwy 219 to junction I-Hwy 80, then along I-Hwy 80 to junction U.S. Hwy 144, then along U.S. Hwy 144 to junction U.S. Hwy 322, then along U.S. Hwy 322 to junction I-Hwy 83, then along I-Hwy 83 to the MD-PA State line; (5) *Iron and steel products and machinery*; between points in NJ, DE, MD, (except Cecil, Kent, Queen Annes, Talbot, Caroline, Dorchester, Wicomico, Worcester and Somerset Counties), NY, the DC, that part of PA within 150 miles of Philadelphia, PA, including Philadelphia, and Richmond, VA, on the one hand, and, on the other, points in PA, WV, and points in OH (except from Claymont and New Castle, DE to points in PA and from Middletown, Cleveland, and Youngstown, OH to points in NJ); for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): There are approximately (9) statements of support attached to the application which may be examined at the field office named below. Send protests to: James Johnson, District Supervisor, Interstate Commerce Commission, 731 Federal Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 103798 (Sub-No. 15TA), filed April 21, 1978. Applicant: MARTEN TRANSPORT, LTD., Route 3, Mondovi, WI 54755. Applicant's representative: Donald A. Morken, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Inedible tallow* from Whitehall, WI to Hammond, IN and East Morris, IL, for 180 days. Applicant has also

filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Whitehall Packing Co., P.O. Box 215, Whitehall, WI 54773. Send protests to: Delores A. Poe, Transportation Assistant, ICC, Bureau of Operations, 414 Federal Building, 110 South 4th Street, U.S. Courthouse, Minneapolis, MN 55401.

No. MC 105461 (Sub-No. 100TA), filed April 20, 1978. Applicant: HERR'S MOTOR EXPRESS, INC., P.O. Box 8, Quarryville, PA 17566. Applicant's representative: Robert R. Herr (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Glass containers* between the facilities of Midland Glass Co., Inc. located at Cliffwood, NJ and Socita, NY, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Midland Glass Co., Inc., P.O. Box 557, Cliffwood, NJ. Send protests to: Charles F. Myers, District Supervisor, ICC, P.O. Box 869 Federal Square Station, Harrisburg, PA 17108.

No. MC 112713 (Sub-No. 212TA), filed March 24, 1978, and published in the FEDERAL REGISTER issue of April 21, 1978, and republished as corrected this issue. Applicant: YELLOW FREIGHT SYSTEM, INC., 10990 Roe Avenue, P.O. Box 7270, Shawnee Mission, KS 66207. Applicant's representative: David B. Schneider, 10990 Roe Avenue, Shawnee Mission, KS 66207. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities*, (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the facilities of Hoosier Energy Division of Indiana Statewide REC, at or near Merom, IN, as an off-route point in conjunction with carrier's presently authorized operations, for 180 days. Applicant intends to tack and interline with MC 112713 and numerous points in Yellow's System. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Hoosier Energy Division of Indiana Statewide REC, Inc., P.O. Box 908, Bloomington, IN 47401. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, 600 Federal Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 112963 (Sub-No. 74TA), filed April 12, 1978, and published in the FEDERAL REGISTER issue of May 10, 1978, and republished as corrected this issue. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, MA 01866. Applicant's representative: Leonard E. Murphy, 764 Boston Road,

Pinehurst, MA 01866. Supporting shipper(s): Dewey & Almy Chemical Division of W. R. Grace, 55 Hayden Avenue, Lexington, MA 02173. Send protests to: Paul A. Roberts, District Supervisor, Interstate Commerce Commission, 150 Causeway Street, Boston, MA 02114. The purpose of this republication is to correct the commodity description.

No. MC 116474 (Sub-No. 38TA), filed March 29, 1978, and published in the FEDERAL REGISTER issue of May 2, 1978, and republished as corrected this issue. Applicant: LEAVITT'S FREIGHT SERVICE, INC., 3855 Marcola Road, Springfield, OR 97477. Applicant's representative: David C. White, 2400 Southwest Fourth Avenue, Portland, OR 97201. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Treated poles and piling*, from the facilities of McCormick & Baxter Creosoting Co., at Portland, OR, to points in CA, NV, and WA, under a continuing contract or contracts, with McCormick & Baxter Creosoting Co., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: McCormick & Baxter Creosoting Co., P.O. Box 3048, Portland, OR 97208. Send protests to: A. E. Odoms, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, 555 Southwest Yamhill Street, Portland, OR. The purpose of this republication is to correct the spelling of the applicant's name.

No. MC 118883 (Sub-No. 5TA), filed April 27, 1978. Applicant: VAN E. HAMLETT, P.O. Box 8009, Nashville, TN 37207. Applicant's representative: Roland M. Lowell, 618 United American Bank Bldg., Nashville, TN 37219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *dry fertilizer, and fertilizer materials, pesticides in containers when moving with fertilizer, rejected materials, machinery, equipment and supplies used in manufacture of fertilizer and pesticides* (except commodities in bulk): (1) Between the facilities utilized by W. R. Grace & Co. at or near Nashville, TN, New Albany, IN, and Woodstock, TN, (2) From the facilities utilized by W. R. Grace & Co. at or near Nashville, TN, and Woodstock, TN, on the one hand, and, on the other, points in KY on or west of Interstate Hwy 75. (3) From the facilities utilized by W. R. Grace & Co. at or near New Albany, IN, to points in KY on and

west of Interstate Hwy 75 and to points in TN, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: W. R. Grace & Co., P.O. Box 90166 54th Ave. N., Nashville, TN 37209. Send protests to Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Suite A-422, U.S. Courthouse, 801 Broadway, Nashville, TN 37203.

No. MC 121777 (Sub-No. 1TA), filed April 25, 1978. Applicant: PACKARD TRUCK LINES, INC., P.O. Drawer "H," Buras, LA 70041. Applicant's representative: Ora Foxall, Route, Box 348-A, Port Sulphur, LA 70083. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Oil field machinery, equipment, materials and supplies* between Cameron, LA, on the one hand, and, on the other, points in TX, for 180 days. Supporting shipper: Marathon Oil Co., Gulf Coast Offshore District, P.O. Box 53266, OCS, Lafayette, LA 70560. Send Protests to: Ray C. Armstrong, Jr., District Supervisor, ICC, T-9038 U.S. Postal Service Building, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 133296 (Sub-No. 9TA), filed April 25, 1978. Applicant: YULE TRANSPORT, INC., P.O. Box 42, Medford, MN 55040. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Malt beverages* from Peoria, IL to Owatonna and Rochester, MN, under a continuing contract or contracts with Shea Distributing, Owatonna, MN, for 180 days. Supporting shipper: Shea Distributing, P.O. Box 403, Owatonna, MN 55060. Send protests to: Delores A. Poe, Transportation Assistant, ICC, Bureau of Operations, 414 Federal Building and U.S. Courthouse, 110 South 4th Street, Minneapolis, MN 55401.

No. MC 139495 (Sub-No. 348TA), filed April 11, 1978. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th St., P.O. Box 1358, Liberal, KS 67901. Applicant's representative: Herbert Alan Dubin, 1320 Fenwick Lane, Silver Spring, MD 20910. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *A. Valves, hydrants, pipe fittings, connectors and hangers, indicator posts and castings* (except those commodities which because of size and weight require the use of special equipment) from Elmira, NY to points in AL, MS, FL, TN, VA, WV, MD, OH, MI, PA, DE, NJ, CT, RI, MA, VT, NH, and ME. Restricted to traffic originating at the facilities of Kennedy Value Division, ITT Grinnell

Valve Co., Inc. at Elmira, NY. B. (1) *Components of fire prevention systems, sprinkley systems, and pipe fittings, pipe connectors, pipe hangers, castings, and valves* from Clito, GA, to AL, FL, DE, GA, IN, MD, NJ, NC, OH, PA, SC, TN, VA, WV, Washington, DC and points in NY, south of Hwy 7; and (2) *Materials and supplies* used in the manufacture of commodities specified in (1) above (except in bulk, in tank vehicles) from the above-named destination points to Clito, GA for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: ITT-Grinnell, 260 West Exchange, Providence, RI 02901. Send protests to: M.E. Taylor, District Supervisor, Interstate Commerce Commission, 101 Litwin Bldg., Wichita, KS 67202.

No. MC 140549 (Sub-No. 10TA), filed April 26, 1978. Applicant: FRITX TRUCKING, INC., East Highway 7, Clara City, MN 56222. Applicant's representative: Samuel Rubenstein, 301 North Fifth Street, Minneapolis, MN 55403. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry, bulk fertilizer*, from Wilmar, MN, to points in ND and SD, for 180 days. Supporting shipper: Martrex, Inc., P.O. Box 159, Chanhassen, MN 55317. Send Protests to: Delores A. Poe, Transportation Assistant, ICC, Bureau of Operations, 414 Federal Building and U.S. Courthouse, 110 South 4th Street, Minneapolis, MN 55401.

No. MC 140601 (Sub-No. 6TA), filed April 27, 1978. Applicant: BILLY FRANK d.b.a. FRANK BROS., 349 Abbot Avenue, Hillsboro, TX 76645. Applicant's representative: Robert J. Birnbaum, P.O. Box 1945, Austin, TX 78767. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Asbestos cement pipe, and fitting and accessories for asbestos cement pipe* from the facilities of Certain-Teed Corp. located in St. Louis County, MO to points in AR, CO, KS, LA, MS, NE, OK, TN, and TX, under a continuing contract or contracts with Certain-Teed Corp., Pipe and Plastics Group, of Valley Forge, PA, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Certain-Teed Corp., P.O. Box 860, Valley Forge, Pa 19482. Send protests to: Robert J. Kirspel, District Supervisor, Room 9A27 Federal Building, 819 Taylor Street, Fort Worth, TX 76102.

No. MC 142207 (Sub-No. 16TA), filed April 26, 1978. Applicant: GULF COAST TRUCK SERVICES, INC., P.O. Box 29487, New Orleans, LA 70189. Applicant's representative: Richard M. Tettelbaum, Fifth Floor, Lenox Towers I, 3390 Peachtree Road, Atlanta, GA 30328. Authority sought

to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Composition boards* from the facilities of the U.S. Gypsum Co. at Greenville, MS to AR, LA, OK, KS, and TX, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: U.S. Gypsum Co., 101 S. Wacker Drive, Chicago, IL 60606. Send protests to: Ray C. Armstrong, Jr., District Supervisor, ICC, T-9038, U.S. Postal Service Building, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 142207 (Sub-No. 17TA), filed April 27, 1978. Applicant: GULF COAST TRUCK SERVICES, INC., Chef Menetuer Highway, P.O. Box 29487, New Orleans, LA 70189. Applicant's representative: Richard M. Tettelbaum, Fifth Floor, Lenox S, 3309 Peachtree Road NE., Atlanta, GA 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products* from Ola and Waldo, AR, to points in TX, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Deltic Farm & Timber Co., Inc., P.O. Box 278, Ola, AR 72853. Send protests to: Ray C. Armstrong, Jr., District Supervisor, ICC, T-9038, U.S. Postal Service Building, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 143423 (Sub-No. 6TA), filed April 27, 1978. Applicant: WILLIAM T. AUSTIN, d.b.a., AUSTIN TRUCKING CO., 2026 Clayton Avenue SW., Decatur, AL 35601. Applicant's representative: D. H. Markstein, Jr., 512 Massey Building, Birmingham, AL 35203. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Generators or motors or generators and engines combined and internal combustion engines and parts thereof*, between the plantsite of Onan Corp. at Huntsville, AL on the one hand and, on the other, points in AZ, CO, CA, GA, KS, KY, MO, NM, NC, OH, OK, PA, SD, TN, TX, UT and WA, for 180 days. Supporting shipper: Onan Corp., 1400 73rd Ave. NE., Minneapolis, MN 55432. Send protests to: Mabel E. Holston, Transportation Assistant, Bureau of Operations, ICC, Room 1616-2121 Building, Birmingham, AL 35203.

No. MC 143550 (Sub-No. 1TA), filed April 24, 1978. Applicant: G & C FREIGHT SERVICE, 647 SW. 143rd, Seattle, WA 98166. Applicant's representative: Gary Parish (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Shakes, shingles, hip, ridge and related roofing materials*, between points in Pacific, Grays Harbor, Clal-

lam, and Jefferson Counties, WA and Marin, Sonoma, Napa, Solano, Contra Costa, Alameda, Santa Clara, San Mateo, and San Francisco, CA, for 180 days. Supporting shippers: Washington Cedar & Supply Co., 223 W. Smith St., Kent, WA 98031; Parker & Son Shakes, Box 218, Copalis Beach, WA 90535; Così Cedar Sales, P.O. Box 649, Cosmopolis, WA 98537; and California Shingle & Shake Co., Inc., 1025 Stockton Ave., San Jose, CA 95110. Send protests to: Hugh H. Chaffee, District Supervisor, Bureau of Operations, ICC, 858 Federal Bldg., Seattle, WA 98174.

No. MC 144347 (Sub-No. 1TA), filed February 15, 1978, and published in the FEDERAL REGISTER, issue of March 29, 1978, and republished as corrected this issue. Applicant: B & L TRUCK LINES, INC., 339 East 34th St., Lubbock, TX 79404. Applicant's representative: Richard Hubbert, 1607 Broadway, Lubbock, TX 79401. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Charcoal briquets*, from Dierks, AK, to points in AZ, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Weyerhaeuser Co., P.O. Box 1060, Hot Springs, AK 71901. Send protests to: Haskell E. Ballard, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box H-4395, Herring Plaza, Amarillo, TX 79101.

No. MC 144630 (Sub-No. 1TA), filed April 25, 1978. Applicant: NETTLETON ENTERPRISE CO., INC. d.b.a., NORWOOD TRANSPORT, Route 1, Box 96, Elgin, IL 60120. Applicant's representative: Robert J. Gill, 29 S. LaSalle Street, Chicago, IL 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Industrial machinery, construction equipment and tools*, which because of their size or weight require the use of specialized equipment, between Chicago, IL and its commercial zone, Janesville and Madison, WI, Indianapolis, IN and Joliet, IL on the one hand, and, on the other, all points in the United States, except AK and HI, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Indeck Power Equipment Co., James R. Forsythe, traffic manager, 1075 Noel Avenue, Wheeling, IL 60090. Send protests to: Transportation Assistant, Patricia A. Roscoe, ICC, Everett McKinley Dirksen Building, 219 S. Dearborn Street, Room 1386, Chicago, IL 60604.

No. MC 144639 (Sub-No. 1TA), filed April 27, 1978. Applicant: WAR EAGLE EXPRESS, INC., 2014 Steel Drive, Tucker, GA 30084. Applicant's representative: Ralph Armistead

(same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Glass soft drink bottles* from Atlanta, GA to the plantsites of Royal Crown Cola in Orlando, Jacksonville and Miami, FL; (2) *Soft drinks in aluminum cans* from Orlando, FL to Waycross, Dublin, Savannah, Valdosta, Tifton, Albany, Macon, and Columbus, GA on return, under a continuing contract or contracts with Royal Crown Bottlers of Florida, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Royal Crown Bottlers of Florida, Inc., 3801 L. B. McLeod, Orlando, FL 32805. Send protests to: E. A. Bryant, District Supervisor, ICC, Room 300, 1252 W. Peachtree St. NW., Atlanta, GA 30309.

No. MC 144680 (Sub-No. 1TA), filed April 27, 1978. Applicant: AMERICAN RIVER LINES, INC., P.O. Box 853, Greenville, MS 38701. Applicant's representative: Douglas C. Wynn, P.O. Box 1295, Greenville, MS 38701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Used agricultural implements, equipment and machinery, used in the harvest of cotton, and attachments, accessories, parts, equipment and supplies therefor* (except commodities in bulk) between points in AR and MS, on the one hand, and, on the other, points in TX, for 180 days. Supporting shipper(s): There are approximately (10) statements of support attached to the application which may be examined at the field office named below. Send protests to: Alan C. Tarrant, District Supervisor, ICC, Room 212, 145 E. Amite Bldg., Jackson, MS 39201.

No. MC 144683TA, filed April 25, 1978. Applicant: DAVE JONES WRECKER SERVICE, INC., 501 Highway 17-92, Fern Park, FL 32730. Applicant's representative: John A. Sutton, P.O. Box 367, Orlando, FL 32802. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Wrecked, disabled or repossessed motor vehicles, trailers and motor homes and replacement vehicles and parts therefor* between all points and places in States of FL, GA, NC, SC, TN, KY, AL, LA, IN, OH, MI, IL, and MS, for 180 days. Supporting shippers: There are approximately (6) statements of support attached to the application which may be examined at the field office named below. Send protests to: District Supervisor, G. H. Fauss, Jr., ICC, Bureau of Operations, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

No. MC 144684TA, filed April 26, 1978. Applicant: WALTER G. KITCHENS, P.O. Box 185, Seale, AL 36875.

Applicant's representative: Walter G. Kitchens (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, plywood, poles and particleboard*, between AL and GA for 180 days. Supporting shipper: Lowe's Co., Inc., P.O. Box 156, Pittsview, AL 36871. Send protests to: Mabel E. Holston, Transportation Assistant, Bureau of Operations, ICC, Room 1616-2121 Building, Birmingham, AL 34203.

No. MC 144685TA, filed April 27, 1978. Applicant: BARRY JOHN THOMPSON, d.b.a. B. J. T. ENTERPRISES, Route 2, Box, 185, 5438 Highway 26 North, Janesville, WI 53545. Applicant's representative: John L. Bruemmer, 121 West Doty Street, Madison, WI 53703. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Wrecked or disabled motor vehicles, including replacement vehicles therefor*, (1) between Janesville, WI, on the one hand, and, on the other hand, points in IL, IA, IN, MI, OH, MN, and MO; (2) between Dillworth, MN, on the one hand, and, on the other hand, points in IA, ND, and SD; (3) between Minneapolis, MN, on the one hand, and, on the other hand, points in IA, ND, SD, and WI; (4) between Chicago, IL, on the one hand, and, on the other hand, points in IN, IA, MI, OH, MO, and WI; and (5) between Council Bluffs, IA, on the one hand, and, on the other hand, points in MO, NE, ND and SD, under a continuing contract or contracts with Janesville Auto Transport Co., Janesville, WI, for 180 days. Supporting shipper: Janesville Auto Transport Co., P.O. Box 959, Janesville, WI 53545. Send protests to: ICC, Ronald A. Morken, District Supervisor, 139 W. Wilson Street, Room 202, Madison, WI 53703.

No. MC 144686TA, filed April 27, 1978. Applicant: LAWAYNE FARMER d.b.a., LAWAYNE FARMER TRUCKING, Route No. 3, Gainesville, GA 30501. Applicant's representative: Robert H. Smalley, Jr., 115 North Sixth Street, Griffin, GA 30224. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Animal feed ingredients* between all points in the States of AL, FL, GA, MS, NC, SC and TN, under a continuing contract or contracts with Southeastern Feed Ingredients, Inc., for 180 days. Supporting shipper: Southeastern Feed Ingredients, Inc., Route 3, Box 53, Gainesville, GA 30501. Send protests to: E. A. Bryant, District Supervisor, ICC, Room 300, 1252 West Peachtree Street, NW., Atlanta, GA 30309.

No. MC 144687TA, filed April 27, 1978. Applicant: CURTIS R. McPEAK,

d.b.a., McPEAK TRUCKING, Box 35, Dalton City, IL 61925. Applicant's representative: Robert T. Lawley, 300 Reisch Building, Springfield, IL 62701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Grain storage, handling and drying equipment*, for the account of Grain Systems, Inc., Assumption IL, from Assumption, IL, to points in AR, AL, AZ, CA, CO, DE, GA, IA, IN, KY, KS, LA, MO, MN, MI, MD, MS, NE, NJ, NV, NC, NY, OH, OK, PA, SC, TX, TN, VA and WI, under a continuing contract or contracts with Grain Systems, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Charles Jordan, General Traffic Mgr., Grain Systems, Inc., Route 51, Assumption, IL 62510. Send protests to: Charles D. Little, District Supervisor, ICC, 414 Leland Office Building, 527 East Capitol Avenue, Springfield, IL 62701.

No. MC 144688TA, filed April 27, 1978. Applicant: READY TRUCKING, INC., 4722 Lake Mirror Place, Forest Park, GA 30050. Applicant's representative: Lavern R. Holderman, 521 South 14th Street, P.O. Box 81849, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in by wholesale, retail and chain grocery and food business houses* from the facilities of the Clorox Co., at or near the Atlanta, GA Commercial Zone, to points in the State of KY, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Clorox Co., P.O. Box 24305, Oakland, CA 94623. Send protests to: E. A. Bryant, District Supervisor, ICC, Room 300, 1252 W. Peachtree Street NW., Atlanta, GA 30309.

No. MC 144689TA, filed April 24, 1978. Applicant: COX TRANSFER, INC., P.O. Box 168, Eureka, IL 61530. Applicant's representative: Robert T. Lawley, 300 Reisch Building, Springfield, IL 62701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, empty bottles, caps, cans, pallets, barrels, and commodities used in the manufacture or process of malt beverages*, between the facilities of Pabst Brewing Co., Peoria Heights, IL on the one hand, and the facilities of Pabst Brewing Co., Milwaukee, WI, on the other, for the account of Pabst Brewing Co., Milwaukee, WI, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Pabst Brewing Co., Richard Trampe, Corporate Traffic Director, 917 West Juneau Avenue, Milwaukee, WI 53201. Send protests

to: Transportation Assistant, Patricia A. Roscoe, ICC, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1386, Chicago, IL 60604.

No. MC 144690TA, filed April 28, 1978. Applicant: CHERRY-WINK, INC., 800 East 8th Street, Odessa, TX 79761. Applicant's representative: Harry F. Horak, Room 109, 5001 Brentwood Stair Road, Forth Worth, TX 76112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rugs, carpets, floor covering, and materials and supplies used or useful in the installation and maintenance thereof*, from Dalton and La Grange, GA and points within 50 miles of each to points in TX, west of US Hwy 283 and on and north of US Hwy 67, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): There are approximately (14) statements of support attached to the application which may be examined at the field office named below. Send protests to: Haskell E. Ballard, District Supervisor, ICC, Bureau of Operations, Box F-13206, Federal Building, Amarillo, TX 79101.

No. MC 144691TA, filed April 18, 1978. Applicant: PIERSON TRUCKING CO., 7344 Southeast Johnson Creek Boulevard, Portland, OR 97206. Applicant's representative: Lawrence V. Smart, Jr., 419 Northwest 23d Avenue, Portland, OR 97210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rust preventative pipe line coating, and coal tar products* from the facilities of Koppers Co. at or near Fontana, CA to points in Clackamas and Multnomah Counties, OR, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: Beall Pipe & Tank Corp., 12005 North Burgard, Portland, OR 97203; Hall Process Co., 9571 Southeast Mather Road, Clackamas, OR 97015. Send protest to: R. V. Dubay, District Supervisor, Bureau of Operations, ICC, 114 Pioneer Court-house, Portland, OR 97204.

By the Commission.

H. G. HOMME, J4.,
Acting Secretary.

[Notice No. 53]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under Section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before June 29, 1978. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

MC-FC-35477 filed May 12, 1978. Lessee: CREEL TRUCKING & CONSTRUCTION CO., P.O. Box 370, Daisetta, TX 77533. Lessor: James G. Creel, P.O. Box 370, Daisetta, TX 77533. Applicants' representative: William D. Lynch, Attorney At Law, P.O. Box 912, Austin, TX 78767. Authority sought for lease by lessee of the operating rights currently held by E. A. Johnson and Sons, Inc. and sought to be acquired by lessor pursuant to No. MC-FC-77545 (published in the FEDERAL REGISTER of May 22, 1978). The authority is set forth in Certificate No. MC-19922 and, Certificate of Registration No. MC-19922 (Sub-No. 3), issued September 9, 1957 and June 1, 1964, respectively in the name of E. A. Johnson & Sons, Inc. as follows: Specified commodities between points in TX. Lessee is presently leasing this authority from E. A. Johnson & Sons, Inc. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77624, filed April 11, 1978. Transferee: JIM MARRS TRUCKING CO., P.O. Box 632, Drumright, OK 74030. Transferor: I. B. Gill Trucking Co., 5301 South High Street, Oklahoma City, OK 73129. Applicant's representative: for Transferee: Charles D. Watson, Jr., P.O. Box 647, Drumright, OK 74030. For Transferor: Rufus H. Lawson, 106 Bixler

Building, 2400 Northwest 23rd Street, Oklahoma City, OK 73107. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate, No. MC 55891, issued September 11, 1956, as follows: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts; and *machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking-up thereof, between points in OK, TX, and KS. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77646, filed April 28, 1978. Transferee: ALLIED TRANSPORTATION SERVICES, INC., P.O. Box 7424, Shawnee Mission, KS 66207. Transferor: Milk Producers Marketing Co., d.b.a. ALL-STAR TRANSPORTATION, 2nd and Turnpike Road, Lawrence, KS 66044. Applicants' representative: Tom B. Kretsinger, 910 Brookfield Building, 101 West 11th Street, Kansas City, MO 64105. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate Nos. MC 134182, MC 134182 (Sub-No. 7), MC 134182 (Sub-No. 8), MC 134182 (Sub-No. 10), MC 134182 (Sub-No. 11), MC 134182 (Sub-No. 21), MC 134182 (Sub-No. 23), MC 134182 (Sub-No. 30) and MC 134182 (Sub-No. 32), issued September 17, 1974, July 5, 1972, October 7, 1976, September 24, 1974, August 29, 1974, February 19, 1975, April 26, 1976, June 16, 1976, and July 29, 1977, respectively as follows: Frozen prepared foods, and frozen poultry when transported in the same vehicle with frozen prepared foods, from Carrollton, Macon, Marshall, Milan, Moberly, St. Joseph, and Sedalia, MO, to points in CT, DE, ME, MD, MA, NH, NJ, NY, PA, RI, VT, VA, WV, and DC; Meats, meat products, and meat byproducts and articles distributed by meat packinghouses (except hides and commodities in bulk) from Emporia, KS, to points in CT, DE, ME, MD, MA, NH, NJ, NY, PA, RI, VT, VA, WV, and DC; Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses (except hides and commodities in bulk), from the plantsite and storage facilities of Tama Meat Packing Corp., at or near Holton, KS, to points in CT, DE, PA, RI, VT, MD, MA, NH, NJ, NY, VA, WV, and DC; Meats, meat products, and meat byproducts (except commodities in bulk), from the facilities utilized by Dubuque Packing Co.,

located at Mankato, KS, to points in CT, DE, ME, MD, MA, NH, NJ, NY, PA, RI, VT, and DC; Frozen foods, from the facilities of Banquet Foods Corp., at Wellston, OH, to points in CT, DE, IL, IN, ME, MD, MA, MI, NH, NJ, NY, PA, RI, VT, VA, WV, WI, and DC; Frozen batters, from Tulsa, OK, to points in CT, IN, MD, MA, NJ, NY, OH, PA, RI, VA, and WV; Meat, meat products, meat byproducts, and articles distributed by meat packinghouses (except hides and commodities in bulk), from the facilities of Seitz Foods, Inc., at St. Joseph, MO, to Philadelphia, PA; fruit juices, fruit punches, and flavored drinks (except frozen beverages), from the facilities of Milk Producers Marketing Co., doing business as All Star Beverage, at Lawrence, KS, to points in AR, CO, MO, MT, NE, NM, ND, OK, SD, and WV; and beverages, not frozen (except in bulk), from the plantsite of All-Star Beverage, at Lawrence, KS, to the plantsite of Hi-Port Industries, Highlands, TX. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under section 210a(b).

No. MC-FC-77656, filed May 8, 1978. Transferee: Y. G. TRUCKING, INC., 742 Garden Wood, Greenville, OH 45331. Transferor: The Buckeye Storage Co., P.O. Box 1364, 320 North Mulberry Street, Mansfield, OH. Applicant's representative: Noel F. George, Attorney at Law, 100 East Broad Street, Columbus, OH 43215. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate of Registration No. MC 99882 (Sub-No. 3), issued June 22, 1965, as follows: Specified commodities between specified points in OH. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77665, filed May 9, 1978. Transferee: R. W. JOHNSON, d.b.a. R. W. JOHNSON MINING AND HAULING, P.O. Box 384, Battle Mountain, NV 89820. Transferor: A. G. Miller, Battle Mountain, NV 89820. Applicant's representative: George G. Holden, Attorney at Law, P.O. Box 448, Battle Mountain, NV 89820. Authority sought for purchase by Transferee of the operating rights of Transferor, as set forth in No. MC 95581, issued the 11th day of September, 1943, as follows: *Ore and Concentrates*. From points within 50 miles of Battle Mountain, NV except those on U.S. Hwy 40 between Carlin and Winnemucca, NV to rail heads at Battle Mountain, Valmy, Argenta, Dunphy, and Beowawe, NV and *machinery, mining equipment, materials, and supplies* ordinarily used by mining companies. From the above-specified destination points to points in the above-de-

scribed Nevada origin territory. Transferee presently holds no authority from this commission and application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77666, filed May 17, 1978. Transferee: Ronald W. Kiesel, P.O. Box 275, Shelby, IA. Transferor: Laverne A. Krieger, Shelby, IA 51570. Applicant's representative: Ronald W. Kiesel, P.O. Box 275, Shelby, IA 51570. Authority sought for purchase of the operating rights set forth in Certificate No. MC 69032 issued September 21, 1955 as follows: *Beer and empty beer containers* over a specified regular route between Council Bluffs, IA and St. Joseph, MO and *feed and lumber* over irregular routes between Shelby, IA and points within 10 miles thereof, on the one hand, and on the other, Omaha, NE and *general commodities* with the usual exceptions from Omaha, NE to Shelby, IA. Transferee holds no Commission authority and does not seek section 210a(b).

No. MC-FC-77668, filed May 12, 1978. Transferee: B MOTOR FREIGHT, INC., 451 Old Airport Road, New Castle, DE 19720. Transferor: Marcus Trucking Co., Inc., P.O. Box 72, Wilmington, DE 19899. Applicant's representative: Gerald K. Burns, 3308 Englewood Road, Wilmington, DE 19810. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit, No. MC 139805 (Sub-2), issued March 23, 1976 in the name of Cephas Brothers Transport, Ltd. and acquired by transferor pursuant to MC-FC-76884 approved March 18, 1977, and consummated April 28, 1977, as follows: *Synthetic fibers and textile materials and products*, from the facilities of E. I. DuPont de Nemours & Co. at or near Chattanooga, TN to points in specified counties in PA. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under section 210a(b).

No. MC-FC-77669, filed May 17, 1978. Transferee: PAT AND JAKE'S, INC., 5838 Monroe Street, Sylvania, OH 43560. Transferor: Carl & Gene Towing Service, Inc., 1418 Elm Street, Toledo, OH 43608. Applicant's representative: Wolfgang Drescher and Arthur R. Cline, 403 Security Building, Toledo, OH 43604. Authority sought for purchase of the operating rights set forth in Certificate No. MC 108804 (Sub-No. 1) issued December 7, 1966 as follows: *Wrecked or disabled motor vehicles*, in truckaway service, between points in Lucas County, OH, on the one hand, and, on the other points in Steuben County, IN and in Monroe, Lenawee, and Wayne Counties, MI. Transferee holds no Commission authority; application has been filed for section 210a(b) temporary authority.

No. MC-FC-77670, filed May 12, 1978. Transferee: JAMES L. SMITH and JERRY ATKISSON, d.b.a. Smith and Attkisson Trucking Co., Route 2, Columbia, TN 38401. Transferor: Kathleen Robins, d.b.a. Robins Transfer Co., Lawrenceburg, TN 38464. Applicants' representative: James N. Clay III, Attorney at Law, 2700 Sterick Building, Memphis, TN 38103. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates No. MC 128941 (Sub-No. 1) and (Sub-No. 3), issued September 13, 1968 and June 13, 1973 respectively as follows: Sand, from points in specified counties in AL, to points in specified counties in TN. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 142451. Application has been filed for temporary authority under section 210a(b).

[7035-01]

[Finance Docket No. 28759]

OREGON-WASHINGTON RR & NAVIGATION CO. AND UNION PACIFIC RR CO.

Acquisition and Operation—Over Burlington Northern, Inc. in Shoshone County, ID

OR-WA RR & Navigation Co. and Union Pacific RR Co., 1416 Dodge Street, Omaha, NE 68179, represented by Joseph D. Anthofer, Assistant General Attorney, Union Pacific RR Co., 1416 Dodge Street, Omaha, NE 68179, hereby give notice that on the 10th day of May, 1978, they filed with the Interstate Commerce Commission at Washington, DC, a joint application under section 1(18) of the Interstate Commerce Act for an order approving and authorizing the acquisition and operation of a line of railroad owned by the Burlington Northern, Inc., a distance of approximately 9.73 miles in length from milepost 49.07 near Mullan, ID, to milepost 58.80 near Wallace in Shoshone County, ID, which application is assigned Finance Docket No. 28759.

By this application, applicants propose to acquire and operate a line of railroad presently owned and operated by Burlington Northern Inc. (BN). The line to be acquired and operated will be owned by OR-WA RR & Navigation Co. and will be operated by Union Pacific RR Co.

The line to be acquired and operated runs in a northwesterly direction from milepost 49.07 near Mullan to milepost 58.80 near Wallace in Shoshone County, ID.

BN must operate over Lookout Pass, between Mullan and Saltese, in the Bitterroot Mountain Range to serve

Mullan and Wallace. This mountain pass receives heavy snow and adverse weather conditions, making it very difficult to serve Mullan and Wallace during the long winter season. Applicants can serve Mullan and Wallace without encountering those operating difficulties. If applicants acquire and operate the line, efficiencies and savings will result without any reduction in rail services.

This application is made contingent upon the issuance of an appropriate certificate of public convenience and necessity by the Commission in Docket No. AB-6 (Sub-No. 51F) by the Burlington Northern, Inc. to abandon a portion of its line of railroad known as the "Haugan to Wallace Line" extending from milepost 19.57 near Haugan, MT, to the end of the branch line at milepost 58.61 near Wallace, ID, a distance of 39.04 miles, in Mineral County, MT, and Shoshone County, ID. This line includes the Mullan-Wallace trackage which applicants seek authority to acquire and operate.

In the opinion of the applicants, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 ICC 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy Act, 1969, supra, at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, DC, 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

[Docket No. AB-12 (Sub-No. 37)]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment Between Quinif and Rosebud in Falls and Milam Counties, Tex., Findings

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by a decision entered on December 6, 1977, and the decision of the Commission, Division 1, acting as an Appellate Division, served April 25, 1978, adopted the decision of the Commission, Review Board Number 5, which is administratively final, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 ICC 76 (1977), the present and future public convenience and necessity permit the abandonment by the Southern Pacific Transportation Co. of the line of railroad extending from railroad milepost 119.7 near Quinif, Tex., to the end of the branch at railroad milepost 133.7 near Rosebud, Tex., in Falls and Milam Counties, Tex. A certificate of abandonment will be issued to the Southern Pacific Transportation Co. based on the above-described finding of abandonment, 30 days after publication of this notice (June 29, 1978), unless within 30 days from the date of publication, the Commission further finds that: (1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and (2) It is likely that such proffered assistance would: (a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or (b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or

the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691, as amended by publication of May 10, 1978, at 43 FR 20072. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

H. G. HOMME, Jr.,
Acting Secretary.

[Docket No. AB-20 (Sub-No. 2)]

THE TEXAS & PACIFIC RAILWAY CO.

Abandonment Between Mansura and Marksville in Avoyelles Parish, La; Findings

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by a decision entered on September 16, 1977, and the decision of the Commission, Division 2, served April 24, 1978, as modified, affirmed and adopted the decision of the Administrative Law Judge, which is administratively final, stating that, subject to the conditions

for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 ICC 76 (1977), the present and future public convenience and necessity permit the abandonment by the Missouri Pacific Railroad Co. as successor in interest to The Texas & Pacific Railway Co. of its branch line beginning at milepost 79.6 near Mansura, La., and extending to the end of the line near milepost 84.7 at Marksville, La., a distance of 5.1 miles in Avoyelles Parish, La. A certificate of abandonment will be issued to the Missouri Pacific Railroad Co. based on the above-described finding of abandonment, 30 days after publication of this notice (June 29, 1978), unless within 30 days from the date of publication, the Commission further finds that: (1) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and (2) it is likely that such proffered assistance would: (a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or (b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691, as amended by publication of May 10, 1978 at 43 FR 20072. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

H. G. HOMME, Jr.,
Acting Secretary.

4

FEDERAL DEPOSIT INSURANCE CORPORATION.

NOTICE OF CHANGE IN SUBJECT MATTER OF AGENCY MEETING

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at its open meeting held at 3:30 p.m. on May 24, 1978, the Corporation's Board of Directors determined, on motion of Chairman George A. LeMaistre, seconded by Director John G. Helmann, with Director William M. Isaac concurring, that Corporation business required its consideration at that meeting, on less than seven days' notice to the public, of an amendment to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," to permit mutual savings banks in the State of Washington to issue 8 percent certificates of deposit with eight-year maturities which must be paid in six years if no action is taken by the State legislature to change the present law.

The Board further determined, by the same majority vote, that no earlier notice of the change in the subject matter of the meeting was practicable.

Dated: May 24, 1978.

FEDERAL DEPOSIT INSURANCE CORPORATION,
ALAN R. MILLER,
Executive Secretary.

SUNSHINE ACT MEETINGS

CONTACT PERSON FOR MORE INFORMATION:

Kenneth F. Plumb, Secretary, telephone 202-275-4166.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda, however, all public documents may be examined in the Office of Public Information.

GAS AGENDA—122ND MEETING, MAY 31, 1978, REGULAR MEETING

PIPELINE RATE MATTERS

A. Pipeline rates

- RP-1.—Docket No. RM77-14, Opinion No. 11.
- RP-2.—Docket No. RP78-58, South Texas Natural Gas Gathering Co.
- RP-3.—Docket No. RP78-20, Columbia Gas Transmission Corp., Docket No. RP78-19, Columbia Gulf Transmission Co.
- RP-4.—Docket No. RP78-62, Panhandle Eastern Pipe Line Co.
- RP-5.—Docket No. RP78-18, El Paso Natural Gas Co.
- RP-6.—Docket No. RP78-42, Transcontinental Gas Pipe Line Corp.
- RP-7.—Docket No. RP77-57, National Fuel Gas Supply Corp., Docket No. RP76-96, National Fuel Gas Supply Corp.

II. PRODUCER MATTERS

A. Producer rates

- CI-1.—Docket Nos. AR61-2 and AR69-1, et al., Area Rate Proceeding, et al., (Southern Louisiana Area).
- CI-2.—Reserved.
- CI-3.—Reserved.

B. Producer certificates

- CI-4(A)—Docket No. CI77-497, MESA PETROLEUM CO., Docket No. RP77-62, Tennessee Gas Pipeline Co.
- CI-4(B)—Docket Nos. CI77-497, CI77-826, CI77-830 and CI78-65, MESA Petroleum Co.
- CI-5.—Docket No. CI77-448, Amoco Production.
- CI-6.—Docket No. CI77-327, Cities Service Co.
- CI-7.—Docket No. CI77-711, Transco Exploration Co.
- CI-8.—Docket Nos. CI77-681 and CI77-682, Southern Union Supply Co., Phillips Petroleum Co.

III. PIPELINE CERTIFICATES

A. Pipeline certificates

- CP-1.—Docket Nos. CI75-372 and CP75-373, Tennessee Gas Pipe Line Co., a division of Tenneco, Inc.
- CP-2.—Docket No. CP78-171, Southern Natural Gas Co., Texas Gas Transmission Corp., and United Gas Pipe Line.
- CP-3.—Docket No. CP76-76, Southern Natural Gas Co.
- CP-4.—Docket No. CP78-55, Consolidated Gas Supply Corp.
- CP-5.—Docket No. CP72-181, Panhandle Eastern Pipe Line Co., Docket No. CP73-44, Colorado Interstate Gas Co.
- CP-6.—Docket No. CI74-158, Northwest Pipeline Corp.
- CP-7.—Reserved.
- CP-8.—Reserved.
- CP-9.—Reserved.

B. Order No. 2 Authorizations

- CP-10.—Docket No. CP78-32, Transcontinental Gas Pipe Line Corp., Docket No. CP78-85, United Gas Pipe Line Co.
- CP-11.—Docket No. CI78-238, Southern Natural Gas Co.
- CP-12.—Reserved.
- CP-13.—Reserved.
- C.—Storage.
- CP-14.—Docket No. CP78-72, Trunkline Gas Co.
- CP-15.—Reserved.
- CP-16.—Reserved.
- D.—LNG.
- CP-17.—Docket No. CP75-14, Algonquin LNG, Inc., and Algonquin Gas Transmission Co.
- CP-18.—Reserved.
- CP-19.—Reserved.
- E.—Curtailment.
- CP-20.—Docket Nos. RP71-29, et al., United Curtailment.

GAS AGENDA—122ND MEETING, MAY 31, 1978, REGULAR MEETING

- CAG-1.—Docket No. RP78-23, Midwestern Gas Transmission Co.
- CAG-2.—Docket No. RP73-8 (PGA No. 78-6), North Penn Gas Co.
- CAG-3.—Docket No. RP77-114 Western Transmission Corp.
- CAG-4.—Docket No. RI77-124, RI77-125, RI77-126, RI77-127, RI77-130 and RI77-135, The Maurice L. Brown Co.
- CAG-5.—Docket No. CP78-142, Michigan Wisconsin Pipe Line Co.
- CAG-6.—Docket No. CP76-97, Stingray Pipeline Co.
- CAG-7.—Docket No. CP78-269, Consolidated Gas Supply Corp.
- CAG-8.—Docket Nos. CI77-320, et al., Cabot Corp.
- CAG-9.—Docket Nos. G-20548, et al., ONG Exploration, Inc. (Successor to Oklahoma Natural Gas Co.), et al.
- CAG-10(A)—Docket No. CI77-721, et al., Transcontinental Gas Pipe Line Corp.
- CAG-10(B)—Docket Nos. CP77-473 and CP77-479, Panhandle Eastern Pipe Line Co.
- CAG-10(C)—Docket No. RP72-149 (PGA77-10), Laclede Gas Co.
- CAG-10(D)—Pennzoil Co. FERC Gas Rate Schedule No. 10.

MISCELLANEOUS AGENDA—122ND MEETING, MAY 31, 1978, REGULAR MEETING

- M-1.—Docket No. RM Revision in Section 2.56a, Section 154.94 and Section 260.6 of Title 18 of the Code of Federal Regulations to Eliminate Certain Rate Change Filing Requirements.
- M-2.—Contract Provisions under Section 154.93.
- M-3.—Inflated rate increase filings.

MISCELLANEOUS AGENDA—122ND MEETING, MAY 31, 1978, REGULAR MEETING

- CAM-1.—Columbia Gas Transmission Corp.
- CAM-2.—Tucson Gas and Electric Co.

POWER AGENDA—122ND MEETING, MAY 31, 1978, REGULAR MEETING

I. ELECTRIC RATE MATTERS

- ER-1.—Docket Nos. ER78-19 and ER78-81 (Phase I), Florida Power & Light Co.
- ER-2.—Docket No. EL78-19, Black Hills Power & Light Co.
- ER-3.—Docket No. ER78-360, Connecticut Yankee Atomic Power Co.
- ER-4.—Docket No. E-9408, American Electric Power Service Corp.

POWER AGENDA—122ND MEETING, MAY 31, 1978, REGULAR MEETING

CAP-1.—Docket No. ER78-358, Arizona Public Service Co.
CAP-2.—Docket No. ER78-345, Tucson Gas & Electric Co.
CAP-3.—Docket No. ER78-323, Tucson Gas & Electric Co.
CAP-4.—Docket No. ER77-522, Kansas City Power & Light Co.
CAP-5.—Docket No. ES78-30, Iowa Southern Utilities Co.
CAP-6.—Docket No. ES78-31, Iowa Power & Light Co.
CAP-7.—Docket No. DA-222—Washington, Bureau of Land Management.
CAP-8.—Docket No. DA-120—Alaska, State of Alaska.
CAP-9.—Project No. 1971, Idaho Power Co.
CAP-10(A)—Metropolitan Edison Company v. F.E.R.C., D.C. Cir. No. 78-1330 (Docket Nos. ER78-209 and ER76-492).
CAP-10(B)—Pennsylvania Electric Company v. F.E.R.C., D.C. Cir. No. 78-1329 (Docket No. ER76-607).

[8010-01]

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 43 FR 21793, May 19, 1978.

STATUS: Open meeting; closed meeting.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.

PREVIOUSLY ANNOUNCED TIME AND DATE: Thursday, May 25, 1978, 10 a.m.; closed meeting immediately following.

CHANGES IN THE MEETING: Additional items to be considered:

The following additional item will be considered by the Commission at the open meeting scheduled for Thursday, May 25, 1978, at 10 a.m.:

Consideration of a request for hearing on an application by Madison Fund, Inc., and First National Stores for an order under the Investment Company Act of 1940 to permit certain transactions in connection with the proposed merger of Pick-N-Pay Supermarkets, Inc., into First National Stores, Inc.

The following additional items will be considered by the Commission at the closed meeting scheduled immediately following:

Freedom of Information Act appeal.
Formal order of investigation.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be so considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402(a)(8)(9)(i) and (10).

Chairman Williams, Commissioners Loomis, Evans, and Pollack determined that Commission business required consideration of these items and that no earlier notice thereof was possible.

MAY 24, 1978.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

IMPROVING HEW REGULATIONS

Response to Executive Order No. 12044,
Improving Government Regulations

AGENCY: Department of Health,
Education, and Welfare.

ACTION: Request for public com-
ment.

SUMMARY: The President's Execu-
tive order on Improving Government
Regulations, Executive Order No.
12044, requires each applicable Feder-
al department and agency to "review
its existing process for developing reg-
ulations" and to revise the process to
comply with the Executive order. This
notice contains HEW's response to the
Executive order.

DATE: Comments will be most useful
if they are submitted by July 31, 1978.

ADDRESS: Comments on this notice
should be sent to Frederick M. Bohen,
Executive Secretary to the Depart-
ment of Health, Education, and Wel-
fare, 200 Independence Avenue SW.,
Washington, D.C. 20201.

OVERVIEW

On March 23, 1978, President Carter
issued Executive Order 12044 directing
each government agency to "adopt
procedures to improve existing and
future regulations," and to publish
those procedures for public comment.

The President's desire to bring order
to the confusing and cumbersome
world of government regulation, and
advance his more general goal of
making government more comprehen-
sible and responsible, translates into
three Executive order principles:

1. Keep regulations simple and clear;
2. Minimize the economic and administrative burdens of regulations;
3. Write regulations with meaningful citizen involvement.

In September 1977, HEW initiated
Operation Common Sense—a compre-
hensive program to simplify, shorten,
and expedite the Department's regu-
lations development process. Operation
Common Sense anticipated the Presi-
dent's Executive order. It represents
two distinct management and regula-
tory initiatives:

1. A five-year effort to review and revise the more than 6,000 pages of HEW regulations already on the books; and
2. Revised procedures to facilitate faster writing of new regulations with policy guidance and oversight by the Secretary and agency heads, and with more citizen participation.

HEW's procedures for Operation
Common Sense were published for
public comment in the November 18,
1977 issue of the FEDERAL REGISTER.

When the President issued Execu-
tive Order 12044, HEW reviewed Oper-
ation Common Sense for its consis-
tency with the President's directives.

This Notice responds to the Presi-
dent's Executive order, section by sec-
tion, and:

1. Reviews those provisions of Oper-
ation Common Sense that HEW be-
lieves are fulfilling the Order's re-
quirements;
2. Indicates how the Department
will modify or augment Operation
Common Sense to comply with the Ex-
ecutive order;
3. Provides a progress report on
actual results under Operation
Common Sense;
4. Provides public notice of all regu-
lations now being written or rewritten
by the Department.

In addition, the Department is pub-
lishing a description of regulations
procedures for the Food and Drug Ad-
ministration. Because of the volume
and highly technical nature of FDA
regulations, the Commissioner of Food
and Drugs has had delegated authori-
ty to issue regulations since 1971 but
has implemented Operation Common
Sense under the overall guidance of
the Secretary.

Dated: May 19, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary.

I. REQUIREMENTS OF THE PRESIDENT'S EXECUTIVE POLICY

A. POLICY

President Carter's Executive Order
states that "regulations should be as
simple and clear as possible." The Ex-
ecutive Order further requires that
each agency establish executive man-
agement procedures to reduce regula-
tory burdens by insuring that:

1. The need for and purposes of each
regulatory initiative are scrutinized.
2. Heads of agencies provide effec-
tive oversight.
3. There be early and meaningful in-
tergovernmental and public participa-
tion.
4. Policy alternatives are carefully
considered before final decisions are
made.
5. Paperwork costs and other bur-
dens on the public are minimized.

HEW believes the Department-wide
procedures for developing regulations
under Operation Common Sense meet
or exceed most Executive Order re-
quirements. Since September 1977, the
Department has followed these proce-
dures in developing new regulations:

1. Each agency within the Depart-
ment must submit a proposal to regu-
late to the Secretary within 45 days

after a "triggering" event (enactment
of new laws, court orders, Presidential
or Secretarial policy decisions).

A regulation proposal is prepared for
every regulation initiative an agency
intends to undertake.

2. Each regulation proposal submit-
ted by the initiating office or agency
must contain the following informa-
tion:

- (a) The agency's view of the need to
regulate.
- (b) The social and policy significance
of the regulations (that is, "technical,"
"policy significant," or "major").
- (c) The schedule for drafting the
regulation, including provisions for se-
curing early Secretarial guidance
through issue papers and/or meetings.
- (d) The name of the person responsi-
ble for drafting the regulation.
- (e) A public participation plan tai-
lored specifically to the significance of
the regulations being proposed, and to
audiences potentially affected by the
regulation.
- (f) An early statement of the possi-
ble views of various segments of the
public regarding policies to be con-
tained in the regulation.
- (g) The agency's plan to coordinate
regulation drafting among various of-
fices within HEW and with other
agencies where relevant.

3. Regulation proposals are screened
